OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA INC.

VOL.Ø NR.Ø DECEMBER 1963 29.6 - 51.Ø

VIEWPOINT

THIS IS A SAMPLE OF YOUR CLUB NEWSPAPER. THERE IS ONLY ONE WAY FOR YOUR PAPER TO BE A SUCCESS AND THAT IS FOR ALL OF THE MEMBERS TO BRING OR PHONE THE LATEST NEWS TO EMIL KOTH K7GPK OR MARGIE CHAVIS K7AMJ. WE WOULD LIKE TO HAVE NEWS FROM EVERYONE. WHO IS BUILDING WHAT THESE DAYS? WHO HAS NEW EQUIPMENT? WE KNOW OUR CLUB MEMBERS ARE ACTIVE IN ALL SORTS OF THINGS, BUILDING, EXPERIMENTING, ETC. ALL IT TAKES IS ONE PHONE CALL TO LET THE REST OF THE CLUB KNOW.

IF THE NEWSPAPER IS TO BE A SUCCESS IT WILL BE BECAUSE OF ALL THE CLUB MEMBERS AND THEIR NEWS. LET'S MAKE THIS A REAL NEWSPAPER FOLKS AND START BRINGING IN YOUR GOSSIP AND OTHER ITEMS OF INTEREST AND WE WILL SEE THEM IN PRINT.

-ooo-

FCC & ARRL NEWS

THIS IS ANOTHER ARTICLE WE WOULD LIKE TO PRESENT TO THE CLUB IN THIS NEWSPAPER EACH MONTH. THIS IS ONE WAY TO LET ALL THE CLUB MEMBERS KNOW WHAT IS GOING ON AT THE LEGAL END OF HAM RADIO. ARRL BULLETINS WILL BE PUBLISHED AS THEY ARE RECEIVED. FCC NEW WILL ALSO COME TO YOU AS THEY ARE RECEIVED OVER OUR TELETYPE TO YOU NEWSPAPER.

-ooo-

CW.....THAT OUTDATED, OUTMODED, OLD FASHIONED WAY OF COMMUNICATIONS THAT ALWAYS GETS THROUGH!!

-ooo-

PSCARC NEWS

THE PUGET SOUND COUNCIL OF AMATEUR RADIO CLUBS WILL HOLD THE DECEMBER MEETING JANUARY 3 AT THE BOEING EMPLOYEES AMATEUR RADIO CLUB.

ONE OF THE TOPICS TO BE DISCUSSED WILL BE "HOW TO HELP THE BLIND AMATEURS IN TECHNICAL ACHIEVMENT." THE TRACING OF CIRCUITS, CURRENT AND VOLTAGE MEASURMENTS AND GENERAL UNDERSTANDING OF WHAT A CIRCUIT IS AND HOW IT WORKS. FOR INSTANCE, A TRANSISTOR CIRCUIT, A WIRE CONNECTS TO THE EMITTER, THE BLIND AMATEUR ASKS THE QUESTION, "WHAT IS AN EMITTER?" THE COUNCIL IS SEEKING VARIOUS WAYS OF DESCRIBING CIRCUITS TO THE POINT WHERE THE BLIND AMATEUR CAN UNDERSTAND IT. THE DELEGATES WILL ALSO REPORT ON THE LOCATION OF THIS YEARS BANQUET...W7IKG DELEGATE.

-ooo-

AREC & CD NEWS

WE ARE HOPING THAT WITH THE HELP OF DENNY W7ZTG AND ROY K7USF WE WILL HAVE NEWS EACH MONTH OF THE HAPPENINGS IN AREC.

THE RADIO OFFICER, SMITTY K7ATD WILL KEEP US INFORMED ON CD AND RACES NEWS. DON'T FORGET THE TACOMA AMATEUR RADIO EMERGENCY NET IS HELD THE 1ST, 3RD AND 5TH WEDNESDAYS AT 7:30 PM. CHECK-INS ON 29.6, 51.Ø AND 53.290 ARE WELCOMED.

-ooo-

CALL LETTER PINS ARE AVAILABLE FROM THE CLUB TREASURER FOR THE TOKEN FEE OF $1.00. THESE HELP TO IDENTIFY THE FELLOW YOU ARE TALKING TO IN AN EYEBALL QSO. IT MIGHT EVEN LET THE OTHER GUY KNOW WHO YOU ARE.

CALL LETTER PINS ARE AVAILABLE
FROM THE CLUB TREASURER FOR THE
TOKEN FEE OF $1.00. THESE HELP TO
IDENTIFY THE CALLS YOU HAVE TALK-
ING TO IN AMATEUR 'PHONE. IT
MIGHT EVEN KEEP THE OTHER GUY WHO

TRANSMITTER HUNT

THE LAST TRANSMITTER HUNT WAS HELD FRIDAY NOVEMBER 29. THIS WAS A TURKEY HUNT AND OF COURSE 1ST PRIZE WAS A TURKEY. DENNY, W7ZTG, CAME IN FIRST. SECOND PRIZE WAS A SLAB OF BACON WON BY ROY K7USF. THE BOOBY PRIZE, A TOY TURKEY, WENT TO DAVE, K7BCL.

DICK, K7ITX, WENT OFF THE ROAD AND IT TOOK SOME DOING TO GET THE WHEELS BACK ONTO THE ROAD.

GLENN, W7CMZ, RAN DOWN HIS BATTERY AND HAD TO WALK THE REST OF THE WAY IN.(I'VE HEARD OF RUNNING OUT OF GAS BEFORE, THIS MUST BE A NEW ONE)

WHILE HAVING COFFEE AT THE HUNTLEY'S AFTER THE HUNT, SMITTYS CAR, K7ATD, WAS GONE THROUGH AND RELIEVED OF ONE MIKE, PACKAGE OF CIGARETTES, FIRST AID KIT AND A POWER SUPPLY. IT WAS PARKED UNDER THE ONLY STREET LIGHT ON THE BLOCK. THIS THIEF HAD NIGHT BLINDNESS APPARANTLY AND NEEDED THE LIGHT.

WATCH THESE HUNTS FELLOWS, SOUNDS LIKE FUN HI.....K7CYZ

—••—

THE UPPER LIMITS

SCOTTY, K7CYZ, WILL BE YOUR COLUMIST FOR 51.MCS AND UP. ALL HAPPENINGS AND GOSSIP. WE KNOW THINGS ARE GOING ON AMONG YOU PEOPLE. YOU CAN CALL SCOTTY AT SK-2 0332. ONE THING WE DO KNOW ABOUT THE PEOPLE ON SIX IS THAT K7NQR IS PAINTING, HER KITCHEN. ALL YOU HAMS, WHO STOP FOR COFFEE, USE THE FRONT DOOR PLEASE!!

—•••—

PINOCHLE

THE MONTHLY PINOCHLE SESSION WAS HELD SATURDAY NIGHT NOVEMBER 25 AT THE CLUB HOUSE. WE HAD THREE TABLES PLAYING WITH 3 LEFT OVER TO FILL IN.

BOB CHURCHWARD AND BARBARA OSBORNE WERE THE TROPHY TAKERS FOR THE MONTH.

EVERYONE HAD A GOOD TIME, WITH PLENTY OF COFFEE AND LOTS OF GOOD FOOD.

INEZ CHURCHWARD, WHO WAS LOW FOR THE LADIES, AND MARGIE CHAVIS, SUBSTITUTING FOR HER OM, WHO WAS LOW FOR THE MEN ENDED UP DOING THE DISHES. MERL IS AFRAID OF GETTING DISH-PAN HANDS.

PINOCHLE IS PLAYED THE LAST SATURDAY OF EVERY MONTH FROM SEPT. THROUGH MAY. IF YOU PLAY PINOCHLE THIS IS YOUR CHANCE FOR A TROPHY.

—•••—

SWAP COLUMN

IF YOU HAVE ANYTHING IN THE LINE OF GEAR; PARTS,EQUIPMENT,TUBES, RESISTORS,CAPACITORS,KNOBS,DIALS, CHASIS,GRIDS,ANODES OR WIFE, THIS IS THE PLACE TO GET RID OF IT.

TRADES,SALES,SWAPS OR ANYWAY YOU CAN PART THE FOOL FROM HIS MONEY GOES!

LIST IT HERE,FREE OF CHARGE, AND PUT THE GREEN BACKS IN YOUR MATTRESS.

—•••—

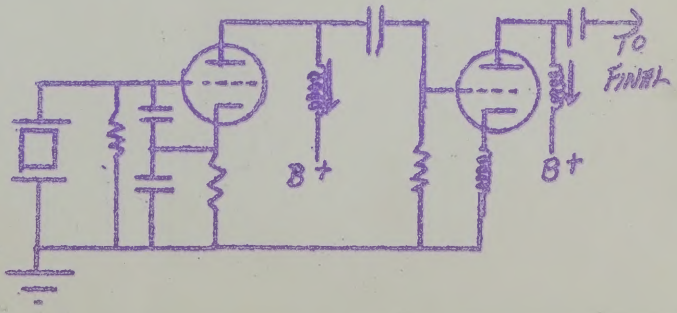

DID YOU HEAR ABOUT THE TWO SEAGULLS DISCUSSING THE NEW COMPACT CARS?

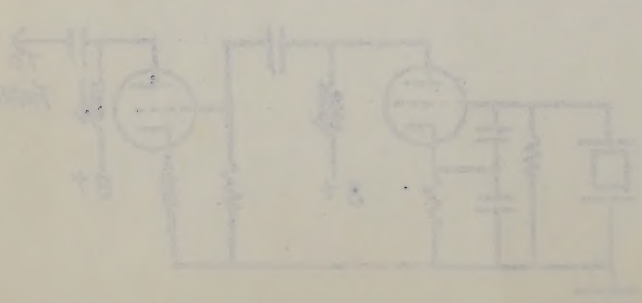

"I SEEN A CORVAIR YESTERDAY"SAID ONE.

"YEH, I SPOTTED ONE MYSELF THIS MORNING!" THE OTHER REPLIED.

—•••—

OUR DIAGRAM TEACHER GOT LOST ON THIS ONE. WE HAVEN'T SEEN HIM FOR AWHILE AND DON'T THINK HE WILL BE BACK, SO PLEASE HELP US OUT. WHAT DID HE DO WRONG?

POETS CORNER

HAMS WILL COME AND HAMS WILL GO
BUT NONE GO ON FOREVER
BUT THE ONES THAT COME AND THE ONES THAT GO
WILL GO ALONG TOGETHER

SHOULDER TO SHOULDER, TOGETHER THEY STRAIN
BEHIND THE PROVERBIAL BALL
THEIR REWARDS ARE RICH THEIR PUBLICITY POOR
BUT THEIR PROGRESS IS SHARED BY ALL

-...-

TECHNICAL COLUMN

THIS COLUMN IS FOR THE DIGESTION, DISSEMATION, DISASEMBLY, RENEWAL, UNDERSTANDING, REMOVAL, DISECTION, REPAIRING AND RETIREMENT OF YOUR PROBLEMS. SO WE THEREFORE URGE YOU TO ASK A TECHNICAL PROBLEM OF ANY KIND. IF WE CAN'T FIX YOU UP WITH THE CORRECT ANSWER YOU MAY AS WELL THROW THE PIECE OF GEAR AWAY! YOU BETTER THROW IT AWAY TO BEGIN WITH AND WE WILL DEVOTE THIS COLUMN TO THE OLD AGE SURVIVORS CLUB.

-...-

GOINGS ON

WHERE ARE THE DEVISH'S? ARE THEY STILL OUT ON THE ROCK PILES?

THE KOTHS ARE STILL TRYING TO RECRUIT HELP TO FINISH THEIR ROOF BEFORE THE RAINY SPELL SETS IN. HI! THEY MIGHT AS WELL GIVE UP.

W7COP SLID A FULL "HOT" POT OF COFFEE DOWN W7IKG'S PANTS THE NITE OF CD NET. WET. HUH MERL.

DID EVERYONE SEE THE NEW WRINKLE IN W7RGD'S FENDER? I THINK HE PREFERS WAVES TO STRAIGHT ONES.

-...-

29.6 MC

ACTIVITY ON THE 10 METER BAND IS COMING ALONG PRETTY GOOD. MANY STATIONS IN THE SKIP ZONES ARE ON AND LOOKING FOR CONTACTS.

OPENINGS LATELY HERE HAVE BEEN TO THE 4TH AND 5TH CALL AREAS ALONG WITH A Ø OR TWO. ALSO THE CANAL ZONE ON DOUBLE HOP WITH SOME SOUTH AMERICANS.

LOCAL ACTIVITIES FINDS FULL TIME MONITORING BY THE FOLLOWING STATIONS:
K7AMJ, W7IKG, K7GPK, W7COP, K7NPG, K7NKZ, W7RGD, W7UYL, W7MFG, W7WLX AND W7AZI.
THESE ARE THE ONES WE KNOW OF AND IF THERE ARE MORE PLEASE LET US KNOW. THE ABOVE STATIONS ARE 603-683 EQUIPED. LETS KEEP THE BAND BUSY AND THE RECEIVERS ON!

-...-

THE EDITORS AND STAFF WELCOME ANY SUGGESTIONS OR ARTICLES THAT THE MEMBERS WOULD LIKE TO INCORPARATE INTO THIS PAPER.

WE WISH YOU ALL GOOD LUCK ON WHATEVER YOUR AMATEUR ACTIVITIES MAY BE.

MERRY CHRISTMAS AND A PROPEROUS NEW YEAR.

THE BIGGERSBARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA INC.

VOL.1 NR.1 JANUARY 1964 29.6 - 51.0

FROM THE PRESIDENT

TO THE MEMBERS OF THE RADIO CLUB OF TACOMA, I WOULD LIKE TO TAKE THIS OPPORTUNITY OF THANKING YOU FOR THE CONFIDENCE AND TRUST YOU HAVE PLACED IN ME. I WILL DO MY BEST TO GUIDE THE CLUB TO ALL YOU EXPECT OF OUR ORGANIZATION.

TO EACH AND EVERYONE OF YOU, I SOLICIT YOUR SUPPORT, WILLINGNESS AND COOPERATION TO KEEP THE RADIO CLUB OF TACOMA ONE OF THE TRULY OUTSTANDING AMATEUR CLUBS ANYWHERE. ATTEND ALL MEETINGS POSSIBLE, TAKE AN ACTIVE PART IN ALL DISCUSSIONS AND BUSINESS AND I'M SURE THE BENEFITS AND FRIENDSHIP YOU RECEIVE, WILL NOT ONLY HELP YOU IN THIS HOBBY BUT WILL BE PASSED ON TO THOSE AROUND YOU. AGAIN THANK YOU AND "LOOK OUT 1964, HERE WE COME."

....PRESIDENT MERL CHAVIS

PSCARC

TWO OF THE COMING EVENTS OF THE PUGET SOUND COUNCIL OF AMATEUR RADIO CLUBS ARE THE ANNUAL ELECTION AND THE BANQUET IN THE SPRING.

THE OFFICERS OF THE PSCARC ARE ELECTED FROM THE DELEGATES OF THE MEMBER CLUBS. THE PRESIDENT FOR THE PAST YEAR HAS BEEN BUD YOUNG, W7HMQ OF THE VALLEY AMATEUR RADIO CLUB.

THE COUNCIL EXPECTS 200 TO 300 PEOPLE WILL ATTEND THE BANQUET. THE LOCATION HAS NOT BEEN DECIDED ON YET. THE TACOMA AREA, SO FAR, BEING THE MOST ACCEPTABLE.

ALSO THE GROUNDWORK FOR A POSSIBLE WASHINGTON SECTION ARRL CONVENTION IS MOVING VERY GOOD. THE COUNCIL HAS BEEN IN TOUCH WITH

(CONT. ON PAGE 5)

FROM THE VICE-PRESIDENT

I WOULD LIKE TO TAKE THIS OPPORTUNITY TO EXPRESS MY SINCERE GRATITUDE TO THE MEMBERS OF THE CLUB WHO ELECTED ME VICE-PRESIDENT. I HAVE ALWAYS FELT THAT THE RADIO CLUB OF TACOMA IS THE FINEST RADIO CLUB ANYWHERE, AND I CONSIDER IT A GREAT HONOR TO BE ELECTED TO THIS OFFICE. I WILL DO MY BEST TO SCHEDULE PROGRAMS AND ACTIVITIES ON MEETING NIGHTS AND OCCASIONAL TOURS ON WEEKENDS. IN RETURN, I WILL EXPECT A LARGE TURNOUT FOR THESE ACTIVITIES. AFTER ALL, NOTHING GRATIFIES A SPEAKER OR PROGRAM ORGANIZER MORE THAN HAVING A LARGE AND ATTENTIVE AUDIENCE. THE QUALITY AND FREQUENCY OF OUR PROGRAMS FOR 1964 WILL BE IN DIRECT PROPORTION TO THE INTEREST SHOWN BY THE MEMBERS. SPEAKING FRANKLY, WE ARE CONDUCTING AN ACTIVE CAMPAIGN TO BOOST THE MEMBERSHIP ATTENDANCE AT REGULAR CLUB MEETINGS BACK TO THE LEVEL WE HAD ACHIEVED SEVERAL YEARS AGO.

(REFER TO PAGE THREE FOR DETAILS OF THIS MONTHS ACTIVITIES IN THE PROGRAM LINE.)

I AM OPEN FOR ALL SUGGESTIONS AND IDEAS FOR PROGRAMS; LET'S PLAN AN INTERESTING AND ACTIVE YEAR. 73'S.

....VICE-PRESIDENT JERRY SELIGMAN

FCC AND ARRL NEWS

YOU SEEM LIKE A NICE PEOPLE SO I WILL TAKE MY SWAUK TO YOU. HOW COME ALL THE TIME THESE OTHER GUYS ON THE BANDS ARE ALL THE TIME HOLLERING ABOUT NO ROOM FOR THEM? JUST THE OTHER NITE EDITOR, I WAS ON 75 FONE (AT LEAST THATS WHAT THE VFO SAID BUT I CAN'T BE SURE CAUSE ONE OF THE CAPICITERS IN THE DOUBLER CIRCUIT GOT BURNED AND I STUCK IN ONE THAT I DIDN'T KNOW THE MICRO FARADS OF) SO ENNY HOW THIS LAME BRANE SAYS I WAS TO WIDE. I'M ONLY 5 FT. 10 INCHES OR SO BUT I'M NOT WIDE LIKE HE SAYS. HE TOLD ME HE COULDN'T PASS TRAFFIC ON THE FREQ AND ASKED ME TO TAKE MY KW AND MOVE HOW ABOUT THAT? HE WAS THE NURVE TO ASK ME TO CHANGE MY FREQ. JUST CAUSE HE DIDN'T LIKE ME THERE, SO WHY DON'T HE MOVE ? BESIDES I DON'T RUN A KW! IF I COULD REMEMBER HOW TO GET PLATE POWER FIGURED, UMM LES SEE. 5,000 VOLTS IT THINK..... (METER DON'T WORK VERY GOOD)..... PLATE CURRENT.....LES SEE.....UM.. 1 AMP...OR IS THAT 100 AMPS? MUST BE 100 MILS.....(TAKE A LOOK AT THE FINAL)...HUH...THE TUBES AINT EVEN WHITE YET. MAYBE IF I JUST TURN THIS DRIVE CONTROL AND TAP THE 4-1000'S A LITTLE...AS I WAS SAYING DEAR SAINT PETER.

-000-

POETS CORNER

CQ 40, CQ 20 AND THE HETRODYNES
I HEAR
AS I TUNE THIS OLD RECEIVER ACROSS
THE CROWDED BANDS SO DEAR
THE QRM'S TERRIFIC AND THE FILTER,
IT IS BROKE.
AS I SIT HERE ALL DISGUSTED, AND
THE CIGARETTES I SMOKE
NOW HOW DOES ONE GET ON THE AIR,
WITH A RECEIVER THAT WON'T WORK?
I CAN'T AFFORD A NEW ONE? OR A USED
ONE THAT WILL PERK.
THE XYL NEEDS STOCKINGS, AND THE
KIDS ALL NEED NEW SHOES.
I'LL TELL YOU FELLOWS IT'S NO JOKE,
I'VE GOT THOSE GREENBACK BLUES.
THE WIFE WILL GET HER STOCKINGS AND
THE KIDS WILL GET THEIR SHOES
AND THIS OLE MAN IF LUCKY, WILL PAY
HIS UNION DUES.
SO THIS ANCIENT OLD RECEIVER, AMIDST
ALL THAT OTHER JUNK
WILL HAVE TO LAST ME FOR AWHILE.
NOW ISN'T THAT THE BUNK ?

.....K7GPK

-000-

ANOTHER YEAR HAS ENDED AND A GOOD ONE FOR 6 METERS. LOTS OF NEW AND INTERESTING CALLS ON.

MILES, K7ENS HAS A NEW HE45D. BY THE WAY MILES, DO YOU STILL PUT YOUR "A'S" IN THE WASTE BASKET ?

FELLOWS, HANG ON TO YOUR BC6-39'S THEY ARE GOOD FOR 2 METERS, ARE EASILY CONVERTED AND THE POWER REQUIREMENTS ARE 300 VDC & 100 MILS, AND 6.3 FOR THE FILAMENTS. FREQ. COVERAGE IS 90 TO 160 MCS A.M. MADE WITH BFO. SEE YOU ON 2 TOO88

JOE, W7IG AND EV K7CZK MADE AN AERONAUTICAL MOBILE CONTACT DEC. 15TH. THEY WERE 1200 FEET ABOVE JOE'S AND HAD A SOLID CONTACT INTO TACOMA. LISTEN FOR THEM, THEY ARE GOING TO TRY AGAIN.

RECUPERATING AT HOME AFTER SURGERY IS K7PZX. GET WELL SOON KEN.

A VERY HAPPY AND PROSPEROUS NEW YEAR GANG. .....SCOTTY K7CYZ

—ooo—

TRAFFIC

HOLIDAY MESSAGES ARE FLOWING IN RECORD NUMBERS THIS YEAR. BUT THE PROPAGATION CONDITIONS CERTAINLY ARE NOT COOPERATING. DUE TO THE "LONG SKIP" ON 75 METERS IN THE EVENINGS, MOST OF THE EVENING TRAFFIC NETS HAVE BEEN MEETING EARLIER IN THE EVENING. THE EVERGREEN STATE NET (ESN) ON 3920 KC IS NOW MEETING AT 1630 PST. THE COLUMBIA BASIN NET(CBN) ON 3960 KC.NOW CONVENES AT 1730 PST. THE WASHINGTON AMATEUR RADIO TRAFFIC SYSTEM NET (WARTS NET) ON 3970 KC. ALSO HAS CHANGED TO 1730 PST. IN SPITE OF THE EARLIER TIMES, BAND CONDITIONS ARE SO POOR FOR LOCAL CONTACTS THAT IT IS VERY DIFFICULT TO EVEN HEAR THE NET CONTROL STATIONS MOST OF THE TIME, MUCH LESS HANDLE ANY TRAFFIC. LUCKILY, A NEW NET, THE NOON-TIME NET(NTN) IS NOW MEETING SIX DAYS A WEEK ON 3970 KC AT 1130 PST. CONDITIONS HAVE BEEN FAIRLY GOOD AT MID-DAY, AND THE NTN HAS BEEN HANDLING THE BULK OF THE HOLIDAY TRAFFIC. MANY OF THE CHECK-INS TO THE NTN ARE HAMS WHO ARE RETIRED, ON SHIFT WORK, OR SIMPLY TRYING TO PASS SOME MESSAGES WHILE ON THEIR LUNCH HOUR.

(CONT.NEXT COLUMN)

THE NEW ARRL PRECEDENCES FOR MESSAGES HAVE PROVEN VERY POPLAR; ALL RADIOGRAMS ARE NOW LABELED "ROUTINE" "PRIORITY" OR "EMERGENCY." IT'S AMAZING HOW MANY AMATEURS SHY AWAY FROM HANDLING TRAFFIC, YET IT IS ONE OF THE MOST REWARDING FORMS OF PUBLIC SERVICE ACTIVITY AVAILABLE TO THE HAMS. W5YFM

—ooo—

CLUB PROGRAMS

"MYSTERY MOBILE CONTEST" JAN. 8TH THIS CONTEST WILL TAKE PLACE AFTER THE BUSINESS MEETING JANUARY 8. NO MOBILE EQUIPMENT IS NEEDED. ALL THAT IS REQUIRED IS ONE FLASHLIGHT FOR EACH PARTICIPANT, ENOUGH GAS TO DRIVE 10 MILES AND A DONATION OF 25 CENTS. ALL THE RULES WILL BE DIFFERENT THAT FOR THE LAST HUNT, HOWEVER, NICE PRIZES WILL BE OFFERED

FILM SHOW JANUARY 22. MOVIES WILL BE SHOWN AFTER THE REGULAR BUSINESS MEETING JANUARY 22. THERE WILL BE A 28 MINUTE FILM ON COMMUNICATIONS AND CIVIL DEFENSE, ALSO ARE THREE SHORT MOVIES ON COAXIAL CABLES AND MICROWAVES, MANUFACTURE OF QUARTZ CRYSTALS AND A PREVIEW OF ELECTRONIC MIRACLES OF THE FUTURE. MAKE PLANS TO ATTEND BOTH OF THESE. YOU WON'T BE SORRY.

—ooo—

POOR BENNY BOLT RECEIVED QUITE A JOLT
BUT NOT FROM A BUMP ON HIS HEAD.
A CURRENT HE MET WHEN THE FLOOR WAS QUITE WET.
WELL GROUNDED?--I'LL SAY--
HE'S DEAD!!

—ooo—

QUES: WHAT WAS THE BULL DOING OUT BEHIND THE BARN WITH HIS EYES CLOSED?
ANS: BULLDOZING.

GOSSIP COLUMN

OUR ANNUAL CHRISTMAS PARTY WAS A
UGE SUCCESS, WITH NEARLY 100 IN
TTENDANCE. MUSIC WAS FURNISHED BY
ILL HALL K7SMZ AND HIS 5 PIECE
OMBO, "THE TWISTERS" THERE WAS A
OT OF FUN DOING THE LIMBO. MICHIKO
OOK THE HONORS OF DOING THE BEST!
AS NICE SEEING DEWEY AT THE DANCE.
TURKEY DINNER WAS SERVED AT 1 AM.
ND A BIG BOUQUET TO THE COOKS!
OMMENTS OVERHEARD WERE; WHEN WILL
HE NEXT ONE BE? WE DON'T EVER
ANT TO MISS A PARTY LIKE THIS ONE.
CONGRATULATIONS GO TO LYLE PHELPS
7NHI. HE GAVE HIS GIRL A DIAMOND
OR HER 3RD FINGER LEFT HAND. WHEN
S THE BIG DAY LYLE?
K7NPG AND K7NKZ WILL BE MOVING TO
NEW QTH SOON. WE'LL LET YOU KNOW
HE ADDRESS SOON SO EVERYONE CAN
TAY ON THE COFFEE LIST.

THE DEVISH'S ARE STILL DIGGING
IN THE ROCK PILES.
THE LATEST WORD FROM DOC K7AYD
IS HE'S DOING FINE BUT STILL CAN'T
HAVE COMPANY. TAKE IT EASY DOC AND
WE WILL SEE YOU UP WELL AND HEARTY
BEFORE LONG.
CONGRATULATIONS GO TO W7WAT FOR
THEIR NICE FIELD DAY SCORE. THEY
CAME IN NUMBER ONE IN THEIR CLASS
FOR THE 7 CALL AREA.
THE SALATINO'S DENNY W7ZTG AND
DIANE HAVE A WEE ONE AT THEIR QTH.
YOU CAN WORK A LOT OF HAMS DURING
THAT 2:00 AM FEEDING DENNY.
CHUCK, W7PUN, WON THE TURKEY AT
OUR LAST MEETING. WE ALL TRIED TO
GET AN INVITE TO DINNER BUT NO
SOAP. (OR TURKEY)
EV, W7CZK IS NOW ON THE RETIRED
LIST. HE HAS HIS ORDER IN FOR A
BRAND NEW CHEVROLET PICK-UP AND
PLANS ON TRAVELING ALL NEXT SUMMER.
ROY, W7AZI AND XYL VISITED SID
SOWERS, W7GYE IN SEATTLE. SID IS
A PAST PRESIDENT OF DK.
WHERE IS THE NEW RADIO CLUB ON
"K" STREET? TOM, W7FUL, JOHN K7CZF
BERYL, K7NPG AND LAVERNE K7NKZ LEFT
THE LAST MEETING AT DK EARLY IN OR-
DER TO VISIT THERE. HOW ABOUT THAT?
ROY K7USF HAS A BANDAGED FINGER!
REPAIRING A CLOCK, HE SAYS. COME
ON ROY YOU CAN DO BETTER THAN THAT@
HAS ANYONE SEEN GLENN W7GMZ
BLINKING X-MAS LIGHTS IN HIS TRUCK?
JUST RECEIVED WORD THAT ERNIE
LEBLANC K7BBP IS IN ST. JOES HOS-
PITAL WITH A VERY SERIOUS ILLNESS.
MARGE CHAVIS K7AMJ REPORTS THAT
HER MOTHER IS IN DIRE NEED OF BLOOD
DUE TO A RECENT ILLNESS. ANYONE
WISHING TO DONATE TO THIS VERY
WORTHY CAUSE SHOULD CALL MARGE AT
GR-52241. WE REGRET TO SAY THAT
THIS IS A CONTINUOUS THING AND AT
THE TIME OF THIS PRINTING SHE NEEDS
FOUR PINTS AND WILL BE NEEDING MORE.
ALL DONATIONS WILL BE HUMBLY
APPRECIATED.

-... -

TWAS THE NIGHT BEFORE CHRISTMAS
AND ALL THROUGH THE FLAT
NOT A CREATURE WAS STURING
NOT EVEN A RAT
THE STOCKINGS WERE HUNG ALL ROUND
THE JOINT
ONE FELL INTO THE FIRE AND ALMOST
GOT BOINT.

MINUTES OF MEETINGS

MEETING OF DEC. 10TH

A CHRISTMAS CARD WAS READ FROM GLENN K7GBV. A NOTE ENCLOSED SAID HE WILL BE HOME IN AUGUST AND HOPES TO SEE EVERYONE. GLENN IS AT THE U.S. NAVAL ACADEMY IN ANNAPOLIS.
DOC W7OS OUR BUILDING FUND CHAIRMAN ANNOUNCED THAT THE TAXES HAVE BEEN PAID FOR 1963. ALL CURRENT UTILITY AND FUEL BILLS ARE PAID WITH A BALANCE LEFT IN THE FUND. THE NOMINATING COMMITTEE PRESENTED IT'S RECOMMENDATIONS FOR OFFICERS FOR THE NEW YEAR. THEY WERE; PRESIDENT MERL W7IKG, VICE PRESIDENT JERRY W5YFX, SECRETARY ART W7JGN, TREASURE W7FUL, BOARD MEMBERS ROY W7AZI AND DOC K7AYD. NOMINATIONS FROM THE FLOOR WERE; PRESIDENT DWAYNE K7KSZ JERRY W5YFS, VICE PRESIDENT SCOTTY K7CYZ, BOARD MEMBERS RALPH W7COP AND LAVERNE K7NKZ. OUR CLUB PAPER WAS APPROVED AND PASSED BY THE CLUB, TO BE A MONTHLY PUBLICATION. MARGIE AND EMIL WERE ASKED TO EDIT AND SEE THAT IT WAS PUBLISHED AND MAILED TO ALL MEMBERS. THE NEWSPAPER WILL TAKE PLACE OF THE MONTHLY CARD. (TEAR OUT LAST PAGE AND HANG IN HAM SHACK) AN EDITORIAL FROM VHF NEWS IN CQ MAGAZINE WAS READ AND DISCUSSED IN LENGTH ON FCC ACTION TAKEN ON A HAM IN ELIZABETH PENN. ON TVI PROBLEMS. TWO NEW MEMBERS WERE VOTED ON, BOB JENKS K7ZVA AND DON PERRY K7QLC.

MEETING OF DEC 18TH

A LIST OF CLUB EQUIPMENT WAS READ BY DWAYNE K7KSZ. THE LIST IS PUBLISHED ELSEWHERE IN THIS NEWSPAPER FOR THE BENEFIT OF ALL MEMBERS. NOMINATIONS WERE OPENED AND VOTING WAS STARTED. MERL W7IKG WAS VOTED PRESIDENT. JERRY W5YFS VICE PRES. ART W7JGN SEC. TOM W7FUL TREASURER BOARD MEMBERS ARE LAVERNE K7NKZ AND DOC K7AYD. ANOTHER NEW MEMBER WAS VOTED IN, PETE W7LEC.
REMEMBER FELLOWS, 1964 DUES ARE DUE. LET'S MAKE 64 OUR YEAR TO DO MORE. SUPPORT YOUR CLUB BY PAYING YOUR DUES AND ATTENDING AS MANY MEETINGS AS POSSIBLE!!

—•••—

PINOCHLE

CONGRATULATIONS TO VIVIAN WHO STOLE THE 1ST PLACE TROPHY!! THERE WERE A LOT OF RUNNER-UPS SO VIVIAN HAD TO REALLY WORK HARD TO GET IT.
SOME UNDER HANDED TACTICS WERE USED BY BOB W7RXS TO TAKE HOME THE MEN'S TROPHY. HE HAD TO LEAVE AFTER THE 1ST GAME SO EVERYONE AGREED TO LET HIM PLAY AN EXTRA GAME NEXT MONTH BUT HE CAME BACK AND PLAYED HIS 2CD GAME USING MERL WHO WAS HIGH, AT THE SAME TABLE TO BOOST HIS SCORE TO TAKE THE TROPHY AWAY FROM HIM. DOC W7OS DRIED MERL'S TEARS WITH THE CRYING TOWEL HE HAD WON FOR THE MONTH. BEING LOW FOR THE NIGHT, BARBARA W7UYL AND DOC W7OS DID A VERY NEAT JOB OF THE DISHES. SEE YOU ALL NEXT MONTH FOR A HILARIOUS GAME!!!

THE BIGGER BEAM

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA INC.

VOL 1 NR 3 MARCH 1964 29.6 - 51.0

NEW PROJECT

W7DK MAY BE A NEW CODE STATION. PETE, W7LEC WROTE TO A.R.R.L. AND PRESENTED THE CLUB WITH THE FACTS HE HAS RECEIVED FROM THEM. IT MUST BE A CLUB SPONSORED PROJECT AND A COMMITTEE WILL HANDLE ALL THE DETAILS AND ISSUING OF CERTIFICATES.

THE CLUB VOTED TO HAVE PETE TAKE CHARGE AND SMITTY, K7ATD AND JON, K7ONF VOLUNTEERED TO SERVE ON THE COMMITTEE. THIS SHOULD BE A VERY WORTHY PROJECT AND ALSO VERY GOOD PUBLICITY FOR THE RADIO CLUB. PETE ALSO HAS CODE PRACTICE SESSIONS ON 3720 KCS EVERY MORNING AT 9:00AM. ANYONE INTERESTED SHOULD TUNE IN AND PICK UP YOUR CODE SPEED.

—ooo—

RACES & CD NEWS

THE DAFFODIL PARADE IS SCHEDULED FOR APRIL 11TH COME RAIN OR COME SHINE THIS YEAR AND RADIO CLUB HAS BEEN ASKED TO SUPPLY THE COMMUNICATIONS ONCE MORE. THE SET UP WILL BE A LITTLE DIFFERENT FROM PAST YEARS. LOCATIONS WILL BE CHANGED AND THE BIGGEST CHANGE WILL BE IN THE NUMBER OF OPERATORS NEEDED TO GIVE THE COVERAGE REQUESTED. SMITTY, K7ATD HAS REQUESTED ABOUT TWICE THE AMOUNT OF OPERATORS THAT WERE USED LAST YEAR. THIS YEAR THERE WILL BE SOME MOBILES USED ALONG THE ROUTE AND CLEARANCE HAS BEEN MADE WITH THE CITY POLICE DEPARTMENT FOR PARKING ALONG THE ROUTE. THE PORTABLE RADIO UNITS TO BE USED WILL BE SUPPLIED BY CITY LIGHT AND WATER AND WILL BE OPERATED ON THEIR RESPECTIVE FREQUENCIES. THE BUS WILL BE OFF LIMITS TO EVERYONE THIS YEAR EXCEPT FOR THE DRIVER AND OPERATORS. WE NEED YOUR HELP FOR THE SUCCESS OF THE PARADE SO CONTACT SMITTY K7ATD.

EXCLUSIVE!!

AN OPEN INVITATION TO THE RADIO CLUB OF TACOMA, ANNOUNCING THE COMING MARRIAGE OF VIVIAN LEE HUNTLEY TO MR. GLEN ALAN SMITH ON FRIDAY, THE THIRTEENTH OF MARCH AT 8:00 PM AT SAINT LUKES MEMORIAL CHURCH, NORTH 36TH AND GOVE STREET TACOMA WASHINGTON. RECEPTION FOLLOWING THE CEREMONY.

—ooo—

PSCARC

THE PUGET SOUND COUNCIL OF RADIO CLUBS MET FRIDAY NIGHT THE 28TH AT THE BEARS MEETING PLACE IN SEATTLE. A DISCUSSION ON THE BRISTOL BOYS HOME IN SEATTLE WAS TAKEN UP. ANY DONATIONS IN THE WAY OF EQUIPMENT OR MAGAZINES WAS REQUESTED.

NEXT THE MEETING WITH THE AMATEURS IN EASTERN WASHINGTON WAS DISCUSSED. THEY HAVE GONE SO FAR AS TO PLAN LOCATIONS, PRICES AND CONTACTING THE LOCAL CHAMBER'S OF COMMERCE. MUST OF IT BEING DONE BY THE YAKIMA CLUB. ARE PLANNING ANOTHER MEETING AND PLAN ON GETTING MORE OF THE CITYS TO THE GET TOGETHER. NEXT MEETING TO BE HELD APRIL 10TH AT THE COURT HOUSE IN ELLENSBURG 2PM. THE DATE TO LOOK FORWARD TO IS 1965. NO FORMAL PLANS HAVE BEEN SET BUT REMEMBER IT WILL BE IN WASHINGTON AND WILL BE FOR THE WASHINGTON SECTION AND A.R.R.L. ALL THE WAY.

ALSO THE EASTERN WASHINGTON CLUBS ARE IN THE PROCESS OF FORMING A COUNCIL OF CLUBS SIMULAR TO THE PUGET SOUND COUNCIL.

A DISCUSSION WAS STARTED ON FIELD DAY RULES. NOTHING DECIDED ON BUT SOME INTERESTING FACTS ERE BROUGHT UP.

CLUB BANQUET

THE ANNUAL CLUB BANQUET WAS HELD FEBRUARY 22CD AT INGRAHMS IN PUYALLUP. THIRTY FIVE MEMBERS ENJOYED A DELICIOUS PRIME RIB DINNER
CHUCK, W7PUN INTRODUCED THE NEW OFFICERS FOR 1964 AND MERL, W7IKG GAVE A VERY SHORT SPEECH ON THINGS TO COME IN THE NEW YEAR.
AFTER THE SPEECHES A FEW OF THE MORE ACTIVE PEOPLE TRIED THEIR SKILL AT PLAYING MUSICAL GLASSES. SOME PEOPLE JUST DON'T HAVE MUSICAL FINGERS AND WERE WAY OFF RESONANCE.
AFTER DINNER WE ALL WENT UPSTAIRS WHERE WE DANCED TO A NICE COMBO FOR THE REST OF THE EVENING. THE BANQUET WAS VERY WELL ATTENDED AND IT WAS NICE TO SEE SUCH A CONGENIAL CROWD.

—...—

SKATING PARTY

DON'T FORGET THE SKATING PARTY MARCH 19TH. HOT DOG DINNER AT THE CLUB HOUSE STARTING AT 6:00PM. SKATING BEGINS AT 7:00PM AT THE ROLLER BOWL ON SOUTH TACOMA WAY. LETS ALL ATTEND THIS FUN PARTY.

GOSSIP COLUMN

THE GIRLS ON THE AUX. BOWLING TEAMS HAD A POT LUCK LUNCHEON ON LAVERNE, K7NKZ TO SEE HER NEW HOUSE AND PRESENTED HER A GIFT. THE LUNCH WAS VERY GOOD AND INEZ, W7RXT ATE 4 SANDWICHES. (I COUNTED THEM) LAVERNE WANTS TO SEND HER SPECIAL THANKS TO ALL THE GIRLS FOR THEIR THOUGHTFULLNESS.
WE'RE SORRY TO HEAR ALICE ERICKSON IS HOME SICK WITH THE FLU. GET WELL SOON ALICE, THE KIDS AT PARK AVE. ARE GOING TO MISS YOU.
INEZ, W7RXT WAS SPORTING A BEAUTIFUL ORCHID AT THE BANQUET. A VALENTINE GIFT FROM SON JIM, WHO IS SOMEWHERE IN THE PACIFIC.
MONA GILMORE IS LOOKING FOR A HORSE BACK RIDING PARTNER. I DID NOT KNOW WE HAD COW GIRLS IN THE CLUB. YOU JUST NEVER KNOW WITH HAMS, DO YOU?
POOR DICK, W7RGD MISSED ALL THE FUN AT THE BANQUET..HE FORGOT HIS GLASSES AND MISSED THE PRIVATE FLOOR SHOW WE ALL ENJOYED SO MUCH. SMITTY, K7ATD HAD ON TWO PAIR TO MAKE SURE HE DIDN'T MISS ANYTHING. NICE COLOR RED, HUH SMITTY?
DON, K7QLC HAS A NEW IDEA ON BIRTHDAY PRESENTS FOR THE XYL. HE TOOK HER OVER TO THEIR PROPERTY ON MINTER CREEK AND SHARPENED HER HOE FOR HER. WHAT MORE COULD A WIFE ASK FOR?
WHAT HAPPENED TO THE DOOR ON ROY K7USF'S CAR? GUESS HIS XYL, FAYE DOESN'T KNOW WHAT EMERGENCY BRAKES ARE FOR. BACK TO DRIVERS TRAINING FOR HER!!
THE WANDERING DEVISHES ARE HOME AGAIN. WE DON'T KNOW FOR HOW LONG BUT AT LEAST LONG ENOUGH TO CHANGE THEIR SOCKS AND PREPARE FOR ANOTHER. SOJOURN AROUND THE COUNTRY. THEY JUST VISITED 17 STATES AND MEXICO ACROSS THE LAND. FOUR DAYS WERE SPENT TAKING IN THE MARDI GRAS. ETHEL SAYS IT IS QUITE A SHOW AND YOU CAN'T DESCRIBE IT AND DO IT JUSTICE. THEY HAD NICE WEATHER MOST F THE TIME, SUNNY BUT COOL. BOTH HAVE NICE TANS TO PROVE IT. THEY TRAVELED HIWAY 66 JUST AHEAD OF THE SNOW STORM THAT HIT THERE. THEY STOPPED TO SEE BIELSKIS W7QPM AND W7SRL BUT NO ONE WAS HOME. IT SOUNDS LIKE A WONDERFUL TIME WAS HAD BY THOSE TWO AND RIGHT NOW THEY ARE FIGURING WHERE TO GO NEXT TIME.

(CONT. PAGE 3)

(GOSSIP CAST)

DON,K7DUT A FORMER MEMBER OF THE CLUB JUST RECEIVED WORD HE IS A GRANDPA. IT DOESN'T BOTHER HIM BEING A GRANDPA, BUT HE SURE HATES BEING CARRIED TO A GRANDMA.

DOES YOUR CIGARETTE TASTE DIFFERENT LATELY? IT SEEMS A FEW OF THE CLUB MEMBERS HAVE LOST ALL TASTE FOR THEM. CLIFF,W7WFG AND BOB W7RXS GAVE UP FOR GOOD. ALSO DICK W7RGD AND MARGIE K7AMJ GAVE UP FOR ABOUT A WEEK AND THEN WENT BACK TO IT. WE ALSO NOTICED THAT SMITTY, K7ATD HAS A PIPE IN HIS MOUTH NOW. KEEP THIS UP AND AMERICAN TOBACCO WILL BE OUT HERE ON THE COAST WONDERING WHO STARTED THEIR STOCK GOING DOWN.

THE HOODS HAVE MOVED INTO THEIR NEW HOME 5708-43 AVE EAST. BERL HAS HIS NEW 60 FOOT TOWER UP. A FEW OF THE MEMBERS WENT OVER AND HELPED HIM TO GET THE BEAM IN PLACE ATOP OF IT. HAD SOME TROUBLE WITH THE INDICATOR AND IT KEPT BERL BUSY RUNNING UP AND DOWN THE TOWER CHECKING. NEXT PROJECT HE HAS WILL BE TO INSTALL AN ELEVATOR TO RIDE UP AND DOWN THE TOWER.

DON'T FORGET TO SAVE YOUR MJB COFFEE LIDS FOR COFFEE FOR THE CLUB HOUSE USE. WE NEED 900 BIDS FOR A CASE OF COFFEE SO SAVE EM AND SEND THEM TO THE CLUB HOUSE.88'S..K7AMJ

UPPER LIMITS

THINGS ARE LOOKING UP ON 6 METERS THESE DAYS. TWO OPENINGS IN SIX DAYS REPORTED. ONE INTO CALIFORNIA AND ARIZONA AND ONE INTO THE MIDWEST. THIS STATION CAN CONFIRM ARIZONA AND MONTANA. ALSO HEARD A RUMOR THAT THERE WAS AN AURORA SKIP INTO IDAHO. K7CAZ, LOCATED AT MIDWAY SAYS HE GOT ONE.

TOM, W7MZS WHO HAS BEEN HEARD ON 6 LATELY IS NOT A NEW COMER TO 6 FELLOWS. HE IS JUST RETURNING FROM A LONG HAUL ON 2. WELCOME BACK TOM. YOUR VOICE STILL SOUNDS THE SAME.

THE FEB 7TH TRANSMITTER HUNT WAS WON BY YOURS TRULY K7CZY AND IN TURN WAS THE HIDDEN TRANSMITTER FEB 21ST. THAT HUNT WAS STOLEN FROM K7BCL BY K7ITX, WHO WILL BE THE BUNNY FRIDAY MARCH 6TH. COME ON OUT FELLOWS, THE COFFEE AND COOKIES ARE GRAND.

THE CLUB'S MICRO-MATCH IS GETTING A GOOD WORK OUT THESE DAYS. SEEMS SOME OF US JUST FOUND OUT THAT THERE WAS ONE AVAILABLE. BETTER GET THOSE ANTENAS TUNED UP NOW AND BE READY FOR THE NEXT OPENING. CALL DWAYNE K7KSZ HE HAS ALL THE CLUB EQUIPMENT

DWAYNE,K7KSZ IS LOOKING FOR S ME CHEAP S-METERS. HE BENT THE NEEDLE ON ABOUT FIVE WHEN HE PUT THE BIG RIG ON. SOUNDS GOOD DWAYNE, AND VERY GOOD WORKMANSHIP. I'M WAITING TO HEAR IT FROM SPOKANE.

....BCNU.SCOTTY K7OYZ

FOLLOWING THE MEETINGS

THREE CHERRY PIES WERE RAFFLED OFF FOLLOWING THE MEETING OF THE 26TH. JOHN AUSTIN, DICK HARTZIL AND SCOTTY'S DAUGHTER SHAREN EACH W[illegible] ONE. TICKETS WERE SOLD FOR 10 CENTS EACH.

A TRANSMITTER HUNT OF A DIFFERENT NATURE WITH A CODE PROFFICIENCY TEST FOLLOWED THE REGULAR MEETING. THE HIDDEN TRANSMITTER WAS A FLASHLIGHT SENDING THE CODE. THE PRIZE WINNERS WERE SMITTY K7ATD FIRST, PATTY K7NQR SECOND AND JIM KN7WUH AND EMIL K7GPK WINNING THE BOOBY PRIZES. THIS WAS A LOT F FUN AND YOU THAT MISSED IT, SHOULD HAVE BEEN THERE

SUBSCRIPTION NOTICE

IF ANY OF THE MEMBERS HAVE FRIENDS WHO DESIRE TO RECEIVE "THE LOGGERS BARK" A DONATION OF $1.00 IN MONEY OR STAMPS WILL GET IT TO THEM FOR A YEAR. LET'S EXPAND OUR MAILING LIST!

FIELD DAY

NOW IS THE TIME TO START LOOKING AHEAD TO FIELD DAY. THE LAST WEEK-END IN JUNE IS COMING FAST, SO START THINKING ABOUT THE BAND OR BANDS YOU WOULD LIKE TO PUT YOUR EFFORT INTO. SHARPEN UP THE CW, CHECK THE TUBES IN YOUR GEAR AND TUNE YOUR FILTERS. FIELD DAY JUNE 27-28,1964.

PINOCHLE

PINOCHLE OF THE NIGHT OF FEB 29 PROVED TO BE A VERY INTERESTING EVENING. W7RGD AND K7AMJ PROVED THEIR ABILITY AS A TEAM IN DOING THE LUNCHEON DISHES AS THE RESULT OF BEING LOW SCORERS. HIGH SCORES FOR THE EVENING AND THE CUPS WENT HOME WITH W7MFG AND W7UYL.

.....RALPH W7COP

COMMITTEE REPORT

ON JAN 29,1964 A COMMITTE CONSISTING OF MAX W7AEA, ROY W7AZI, EV W7CZK, LAVERNE K7NKZ, JERRY W5YFX, TOM W7FUL AND MERL W7IKG MET AT THE CLUB HOUSE TO WORK OUT PROPOSED CHANGES IN THE BY-LAWS AND RULES OF ORDER OF THE RADIO CLUB.

IT WAS EVIDENT THAT THESE CHANGES WERE NEEDED FOR A LONG TIME AND THE PROPOSALS AND CHANGES AS SET FORTH SHOULD FULFILL THIS NEED AND KEEP PACE WITH OUR CHANGING TIMES.

CERTAIN CHANGES CLEARLY DEFINING THE DUTIES OF ELECTED OFFICERS, THE RESPONSIBILITY OF BEING PROPERTY OWNERS AND THE MAINTAINING OF THIS PROPERTY, THE QUESTION OF WHETHER THE MEETING S SHOULD REMAIN OPEN AS HAS BEEN THE CUSTOM IN THE PAST AND OTHER CHANGES PERTAINING TO AN EFFICEINT OPERATION OF OUR ORGANIZATION WERE THOROUGHLY DISCUSSED AND PROPOSED.

THESE CHANGES AND PROPOSALS WILL BE IN WRITING AVAILABLE TO ALL MEMBERS AT THE MEETING OF MAR 11TH. AS A MEMBER OF THIS CLUB IT IS YOUR DUTY TO TAKE PART IN THESE CHANGES FOR THE BETTERMENT OF YOUR CLUB!

FINAL ACTION ON THESE CHANGES WILL BE AT THE FIRST MEETING IN APRIL.

.....MERL W7IKG
PRESIDENT

IT IS NEVER WISE TO ARGUE WITH A FOOL. BYSTANDERS DO NOT KNOW WHICH IS WHICH.

OF COURSE LOTS OF LIVES HAVE BEEN DESTROYED BY WHISKEY, BUT JUST LOOK AT ALL THE BOATS THAT HAVE BEEN DESTROYED AND WRECKED BY WATER!

FREEDOM IS BEING ABLE TO DO WHAT YOU PLEASE WITHOUT CONSIDERING ANYBODY EXCEPT A WIFE, BOSS, STATE, FEDERAL AND CITY LAWS AND THE NEIGHBORS.

THE PRESIDENTS DESK

THE MONTH OF JUNE IS APPROACHING FAST AND OF COURSE WITH IT COMES FIELD DAY.

THIS CLUB HAS BEEN VERY ACTIVE IN THIS TEST AND THE SCORES FOR THE PAST YEARS HAVE BEEN AMONG THE BEST IN THE NATION.

NOW IS THE TIME TO START PREPARING YOUR PLANS AND TAKING THE ROUGH EDGES OFF THE OPERATING TECHNIQUES.

TO THOSE OF YOU WHO HAVE NEVER BEEN ON A FIELD DAY CONTEST BEFORE, THIS WILL MORE THAN LIKELY GIVE YOU A FEVER YOULL FIND HARD TO LOSE. A GROUP EFFORT WITH LOTS OF WORK, FUN, EATING AND OPERATING. IM SURE THAT YOU WILL FIND AS MANY, MANY OF US HAVE IN PREVIOUS YEARS. FIELD DAY JUNE 27, 1964, WILL LEAVE YOU WITH EVERY BONE IN YOUR BODY ACHING, YOUR EARS RINGING FROM C-W YOUR HANDS N MB FROM FILLING LOG PAGES, YOUR VOICE HOARSE FROM THE PHONE RIGS BUT MORE THAN EVER READY FOR THE NEXT FIELD DAY. AS I SAID, THE FEVER HAS NO CURE. THE ONLY ANTI-BIOTIC IS TO GET YOUR FEET AND ELBOWS IN THE QRM AND GO.

OUR FIELD DAY CHAIRMAN FOR 1964 WILL BE RALPH RAWLINGS W7COP, WHO IS NO NEW COMER TO CONTESTS. HE WILL HAVE A PAIR OF VERY ABLE ASSISTANTS, WHOM HE WILL INTRODUCE LATER. PLANS WILL BE UNFOLDED SOON SO LETS GIVE OUR BEST. RALPH HAS BROAD SHOULDERS BUT HE STILL NEEDS US AS WE NEED HIS LEADERSHIP, IN THIS 1964 FIELD DAY CONTEST.

.....W7IKG

=000=

RACES AND C-D NEWS

THERE WILL BE A MEETING OF THE WASHINGTON STATE COUNCIL OF C.D. DIRECTORS APRIL 9TH AND 10TH AT THE DORIC. RACES WILL RECEIVE A FULL ONE AND A HALF HOURS OF DISCUSSION. WE WILL HAVE A SUMMARY OF THE MEETING IN THE NEXT ISSUE.

PLANS FOR THE DAFFODIL PARADE WILL BE ANNOUNCED ON THE RACES DRILL NET ON APRIL 1ST. SEE CALANDER ON BACK PAGE. CHECK INTO THE NET SO YOU WILL KNOW WHAT TO EXPECT. 10 MOBILES AND 15 OPERATORS ARE NEEDED.

....SMITTY K7ATD

=000=

CLUB TOUR APRIL 8TH.

THE CLUB WILL TOUR THE SAGE BLOCKHOUSE AT MCCHORD AIR FORCE BASE ON APRIL 8TH. THE BUSINESS MEETING WILL ADJOURN AT 8.30 PM AT THE CLUBHOUSE AND MEET AT THE SAGE PARKING LOT AT 9.00 PM. TO GET TO THE SAGE PARKING LOT, ENTER THE MAIN GATE OF THE BASE, AND TURN RIGHT ON THE FIRST ROAD TO THE RIGHT. FOLLOW THE SAGE SIGNS. THE AIR POLICE AT THE GATE WILL BE NOTIFIED. JUST MENTION THE RALIO CLUB TOUR AND YOU WILL BE GRANTED ENTRY ONTO THE BASE.

THIS IS HONESTLY ONE OF THE MOST AMAZING ELECTRONIC SIGHTS TO BE SEEN IN OUR AREA, SO BE SURE TO MAKE THIS TOUR.

TION, THERE WILL BE A FREE DOOR
RIZE AT ALL REGULAR MEETINGS.

HERE IS JUST AS MUCH HORSE SENSE
EVER, BUT THE HORSES STILL HAVE IT.

HE TROUBLE WITH DOING NOTHING, IS
OU CANT STOP AND REST

MALL BOY TO HIS FATHER. IF MOMS
OLKS ARE IN-LAWS, ARE YOURS
UTLAWS.

POETS RETREAT

HERE I SIT, ALL BROKEN HEARTED
TURNED ON MY RIG, BUT THE FUSE
DEPARTED
IT WENT WHERE ALL DEAD FUSES GO,
TO THE HUNTING GROUNDS OF THE SHOT
SLO-BLO

IT WAS THE LAST, AS LUCK WOULD BEAR
NOW HOW DO I GET ON THE AIR.
THE TINFOIL IS HANDY, SO HERE IT GOES
I TURNED ON THE SWITCH AND THE BLUE
SMOKE AROSE.

THE SPARKS DID FLY, THE TRANSFORMER
WENT
THE AIR FILLED WITH A BURNING SCENT
I SHUT THE RIG OFF BUT THE DAMAGE
WAS DONE.
I SWORE LIKE A TROOPER AND A
SON-OF-A-GUN

THE MORAL OF THIS STORY GOES
THAT TINFOIL MAKES DARNED POOR
SLO-BLOS
LEAVE THE RIG OFF AND JUST RETIRE
UNTIL A NEW FUSE, YOU CAN AQUIRE.

TRIP TO CARLINGS

BY POPULAR DEMAND WE HAVE ARRANG-
ED ANOTHER TRIP THROUGH CARLINGS
BREWERY. THIS IS A VERY NICE TOUR
AND THEY SERVE A VERY NICE BUFFET
LUNCH AND THEY ALSO KEEP YOU FROM
GETTING TOO THIRSTY. THIS WILL BE
ON TUESDAY APRIL THE 28TH, AND
STARTS AT 7.00 PM AND LASTS UNTIL
9.30PM. I HAVE TO KNOW HOW MANY ARE
GOING SO BE SURE AND CALL ME AT
LEAST 1 WEEK BEFORE APRIL 28TH.
THERE HAS TO BE AT LEAST 50 PEOPLE
SO SIGN UP EARLY. THERE ARE NO
MINORS ALLOWED ON THIS TOUR AND IF
YOU ARE ONE OF THE MORE FORTUNATE
MEMBERS WHO LOOK YOUNG, BE SURE TO
BRING IDENTIFICATION OF YOUR AGE.
CALL MARGIE K7AMJ GR-5 2241 FOR
THE AMOUNT WHO WILL ATTEND.

BROKEN BITS

ONCE UPON A TIME THERE WAS A VERY POOR FARM BOY. ONE DAY HIS WIDOWED MOTHER GAVE HIM HER LAST COLLINS SET AND WITH TEARS IN HER EYES, TOLD STATIC TO GO DOWN TO G AND C AND SELL IT. STATIC TRUDGED INTO TOWN BUT ON THE WAY HE MET SHADY OP. HE TOLD STATIC HE WOULD TRADE HIM 6 MAGIC RESISTORS FOR THE RIG. STATIC, BEING A LITTLE DULL, FROM EXCESS ELECTRIC SHOCK SAID OK AND WENT RUNNING HOME TO TELL HIS MOTHER.

MAMA MET HIM AT THE DOOR TO GET THE MONEY AND WHEN STATIC TOLD HER WHAT HE HAD DONE, SHE GRABBED HIS EXTRA CLASS LICENSE AND TORE IT TO SHREDS.

POOR STATIC FELT SO BAD HE WENT INTO THE SHACK AND SOLDERED THE RESISTORS INTO AN OLD 683. TO HIS SURPRISE IT LIGHTED UP AND A STRANGE SPEECH CAME FROM IT. STATIC WAS SO STUNNED HE JUST SAT THERE STARING. HE KNEW NO ONE WAS ON 20,6 THAT SOUNDED LIKE THAT. AT FIRST HE THOUGHT IT WAS SOME SIDE BAND STATION BUT NO HE COULD TUNE IT IN WITH A CLARITY THE RIG NEVER POSSESSED. THE VOICE DIRECTED STATIC TO GO TO A MAN THAT HAD SUCH A BASEMENT FULL OF PARTS HE COULD BUILD HIS OWN KW STATION. STATIC LEFT AT THE WITCHING HOUR OF MIDNIGHT AND RAN SEVERAL MILES INTO THE COUNTRY. HE LET HIMSELF INTO THE BASEMENT WHICH WAS REALLY LOADED WITH GOODIES. HE GRABBED AN ARM LOAD JUST AS THE UNKNOWN MAN CAME THUNDERING DOWN THE STAIRS. STATIC RAN CARRYING HIS PAY LOAD AND MADE IT HOME JUST AS DAWN WAS BREAKING. HE SPENT THE NEXT WEEK SOLDERING AND PUTTING TOGETHER HIS KW. BUT ALAS HE RAN OUT OF PARTS. AGAIN HE TURNED ON HIS MAGIC 683 AND WAITED FOR THE VOICE TO COME. THE VOICE DIRECTED HIM TO GO BACK TO THE HOUSE FOR MORE PARTS. MIDNIGHT APPROACHED AND STATIC RAN THROUGH THE NIGHT. APPROACHING THE BASEMENT HE SAW LIGHTS. SNEAKING TO A WINDOW HE SAW A TALL LANKY STRANGER BARTERING WITH THE MAN OF THE HOUSE. THE STRANGER UNLOADED HIS ARMS AND THE MAN FILLED THEM AGAIN WITH OTHER GOODIES. WHEN THEY LEFT TO GO DRINK COFFEE IN ANOTHER PART OF THE HOUSE, STATIC LET HIMSELF IN AND RAN HOME WITH HIS ARMS FULL OF POWER TRANSFORMERS, RESISTORS, CAPICITORS, RELAYS AND MILES OF WIRE.

IN A FEVER THE NEXT WEEK WAS SPENT SOLDERING, SNIPING AND TESTING, AND GOING THROUGH PAGE AFTER PAGE IN THE SEARS CATALOG. A FEW MORE PARTS AND THE TOP DECK OF HIS BEAUTIFUL KW WOULD BE FINISHED.

THE VOICE AGAIN DIRECTED STATIC TO THE BASEMENT WITH THE GOODIES. THIS TIME HE FELT VERY BRAVE AND STOLE INTO THE BASEMENT BEFORE MIDNIGHT. DOWN THE STAIRS RAN THE MAN OF THE HOUSE FOLLOWED BY HIS WIFE. STATIC STOOD FROZEN WITH HIS ARMS FULL OF GOODIES. THE MAN WAS RAGING THAT HE HAD NOTHING LEFT AND HIS POOR WIFE WAS TRYING TO COMFORT HIM. SHE TOLD HIM HE HAD ENOUGH LEFT TO SUPPLY THREE STORES AND TO QUIT CRYING AS HE WAS FLOODING THE BASEMENT AND THE SUMP WASN'T WORKING. STATIC TOLD THE POOR FELLOW WHAT HE WAS DOING AND HE WAS SORRY HE HAD TAKEN THE PARTS. THE MAN BEING A TRUE HAM AT HEART HEAPED HIS ARMS WITH MORE GOODIES AND SAID HE'D BE LOOKING FOR HIS SIGNAL ON 160 METERS.

STATIC RAN HOME AND SPENT 4 SLEEPLESS NIGHTS FINISHING HIS BEAUTIFUL RIG. THE FINAL TUBES SET IN PLACE IT WAS READY FOR THE SMOKE TEST. AS MAMA HOVERED IN THE BACK GROUND THE SWITCH WAS THROWN AND THE METERS CLIMED AND DIPPED AND STEADIED. THE ANTENA WAS LOADED AND EVERYTHING LOOKED FINE. A BLACK CURL OF SMOKE ROSE OUT OF THE RIG AND SPARKS FLEW AND A ROAR OF DETUNED CIRCUITS FILLED THE AIR.

AS STATIC AND MA RIDE THEIR PEARLY WHITE CLOUD THEY KNOW THE WAYS OF US MORTALS NOW. THEY SET AND CHUCKLE OVER THEIR HAMMING DAYS AND WONDER IF LOW POWER WILL EVER BE THE ONLY THING AGAIN.

THE MORAL OF THIS STORY IS : DON'T BELIEVE EVERYTHING YOU HEAR ESPECIALLY ON 20;6.

-o-o-

SOME PEOPLE ARE SO BUSY LEARNING THE TRICKS OF THE TRADE THAT THEY DON'T LEARN THE TRADE.

WEST LIGHTS

NOTHING BUT THE USUAL RAG CHEWS ON 6 AND 2. A FEW NEW CALLS COMING ON EVERY MONTH. THE NEW CALLS ARE GETTING WAY DOWN IN THE Z'S. WHO WILL GET THE FIRST ZA CALL IN 7 LAND?

NEXT MONTH WE CAN TELL YOU IF SPOKANE CAN BE WORKED FROM TACOMA, OR LETS SAY, WESTERN WASH. A LOT OF BEAMS ARE GOING TO BE POINTED THAT WAY SOME SATURDAY AND SUNDAY MARCH 28TH AND 29TH. DUAYNE K7KSZ, WILL BE IN SPOKANE WITH 350 WATTS AND A BEAM HEADING THIS WAY. WE WILL HAVE A FULL REPORT IN THIS COLUMN NEXT ISSUE.

ALSO WE WILL TRY TO GET SCOTTY K7ATD TO GIVE US A REPORT ON THE HF AND UHF PARTICIPATION IN THE DAFFODIL PARADE.

THE WEDDING OF K7CYZ AND SISSIE WENT OFF AS PLANNED AND A WEEK LATER THE GANG HAD A SHIV-A-REL ON THEM. ASK SISSIE HOW A SIREN SOUNDS WHEN IT IS IN THE COLD AIR DUCT OF A FURNACE.

NO OPENINGS TO SPEAK OF ON THE HF BANDS. GUESS WE WILL HAVE TO WAIT FOR SOME BIGGER SUN SPOTS.

NOT MUCH OF A COLUMN THIS MONTH, BUT LOOKS LIKE A GOOD ONE NEXT MONTH, SO, SEE YOU THEN.

.....SCOTTY K7CYZ

-...-

FLYING CHIPS FROM 29.6

A LOT OF NEW CALLS, AT LEAST NEW TO THE FREQUENCY ARE SHOWING UP. ONE OF THEM IS DON K7DUT WHO RETURNED TO THE MONITORED FREQUENCY AFTER A LONG ABSENCE.

TWO OF THE VARC MEMBERS, STEVE K7KOT AND HAL K7DIU HAVE BEEN MAKING THEMSELVES KNOWN. STEVE WILL SOON HAVE A RANGER ON 29.6 WITH A GROUND PLANE. HAL PUTS IN A FB SIGNAL FROM THE VALLEY ALSO.

WE UNDERSTAND THAT CHUCK K7ETT, HAS BEEN ON CALLING BUT HAS HAD RECEIVING PROBLEMS.

REX K7VCX, HAS BEEN CHECKING IN WITH THE GANG ALSO.

IF ANY OF THE READERS KNOW OF ANY 603 OR 303 FOR SALE LET THE GANG KNOW. SOME OF THEM NEED ONE VERY BAD.

-...-

[illegible]

A NEW UNOFFICIAL NET HAS BEEN FORMED ON 20 METERS. IT IS CALLED THE "NITE-ALL" NET WITH NO NET CONTROL. LOTS OF QRM AND ALL KINDS OF SIGNAL REPORTS. IF YOU LIKE TO CHASE NIGHT CRAWLERS UP AND DOWN THE BAND, JOIN US. EVERY NIGHT AT 2200 ON 14.250MC. WE WHERE EVER CRAWLERS HAVE CREEPED.

DON K7DUT, CHECKED IN THE OTHER NIGHT AFTER SEVERAL 807'S WITH OLIVES. EVERYTHING HE SAID CAME OUT BACKWARDS BUT WAS OK AFTER A WHILE BECAUSE HE HAD OUT OF OLIVES.

WALT K7UAI AND JIM K7TEU FROM FORT LEE IS JOINED THE GROUP THE OTHER NIGHT. JIM K3EJX/7 WAS ALL AND UNTIL MERL W7IKG CAME ON WITH 8 WATTS PEP SSB.

THOSE INTERESTED IN WORKING FOR A CERTIFICATE MIGHT TRY FOR WINOW. (MONTANA, IDAHO, NEVADA, OREGON AND WASHINGTON) CERTIFICATE. YL'S WHO WORK 6 YL WINOWS AND 3 ABOVE STATES MEET EVERY FRIDAY GOOD ON 3870 KCS.

BOB K7SKS HAS HAD A FEW PROBLEMS GETTING HIS TCS-14 TO WORK. HE HAS BLOWN A FEW DIODES. DOES ANYONE HAVE ANY POINTERS?

.....SUE K7SKR

-...-

LATE FLASHES

ALMOST TOO LATE FOR THIS EDITION OF LOGGERS BARK WAS THE EMERGENCY SITUATION IN ALASKA DUE TO THE EARTHQUAKE ON FRIDAY, MARCH 27. THE REPORTS OF DAMAGE AND LOSSES ARE STILL COMING IN AT THIS TIME AND THE TOTALS WILL PROBABLY NOT BE KNOWN FOR SEVERAL WEEKS.

MANY OF THE LOCAL AMATEURS TURNED IN SOME FABULOUS OPERATING TIME AND THE MESSAGE TOTALS WERE UP IN THE HUNDREDS.

TWENTY METERS WAS A VERY BUSY BAND IN THE DAYTIME WITH INQUIRIES FROM ALL OVER THE NATION POURING INTO ALASKA. THE ALASKA STATIONS WERE THE ONLY MEANS OF COMMUNICATIONS FOR BOTH THE CIVILIAN DEFENSE AND COMMERCIAL COMPANIES.

THE AMATEUR FRATERNITY CERTAINLY ROSE TO THE OCCASION TO PROVIDE THE MEANS OF COMMUNICATIONS FOR THE PEOPLES OF ALSKA AND AN AMATEUR MESSAGE WAS CERTAINLY APPRECIATED

(CONT. ON PAGE 5)

CLIPS FROM THE LOG

THE LATEST FROM DOC, K7AYD AND HIS XYL, MARGIE; DOC IS SWIMMING 3 TIMES A DAY WHEN HE ISN'T LAYING IN THE SUN LOAFING. THEY WILL MEET ROGER, K7AYC IN CALIFORNIA FOR THE EASTER HOLIDAYS.

WE HAD A REQUEST FROM BERYL, K7NPG TO USE A SOFTER PAPER FOR OUR NEWS. NOW THAT HE'S OUT IN THE COUNTRY AND LAYED OFF OF WORK. ANYONE HAVE ANY OLD CATALOGS FOR HIM? ALSO A LATE FLASH BERYL IS NO LONGER A PORTABLE.

I WONDER WHERE THE LADIES AUX TEAMS WILL BOWL NEXT YEAR? I DOUBT IF THE TOWERS WILL LET THEM COME BACK. OF COURSE THE WORSE TEAM OUT THERE IS THE DX SPARKIES!! ESTHER PRUITT RUNS ROUND ON HER HANDS AND KNEES POLISHING THE FLOOR WHILE RENE SMITH BREAKS TIL EQUIPMENT. THEY AREN'T HOT BOWLERS BUT THEY HAVE LOTS OF FUN.

DOC, W7OS IS BRAGGING ABOUT HIS NEW GRANDSON, BORN BACK IN CONN. IN FEBRUARY. ILL BET THEY ARE MAKING PLANS TO GO SEE HIM ALREADY.

JIM MASHBURN, W7BSW JUST RECOVERED FROM A BAD CASE OF CHICKEN POX. BETTER STAY CLOSE TO HOME JIM. MEASLES ARE GOING AROUND.

A GET WELL SOON GOES TO JOE DONNELLY. GET A GOOD REST JOE AND HURRY HOME.

OUR ANNUAL SKATING PARTY WAS A REAL FUN TIME FOR ALL THE KIDS YOUNG AND OLD. EVERYONE CAME HOME WITH BRAND NEW BLISTERS AND FLOOR BURNS. NO SERIOUS ACCIDENTS TOOK PLACE SO WE ARE IMPROVING EACH YEAR. AT THE HOT DOG DINNER BEFORE THE SKATING SESSION, EVERONE ENJOYED A PIECE OF BIRTHDAY CAKE BAKED BY RENE SMITH FOR THE MARCH BIRTHDAY CELEBRANTS. DICK, W7RGD TOOK SOME REAL NICE PICTURES. ONE OF SMITTY, K7ATD IS A REAL DILLY..

THE CHURCHWARDS ARE ENJOYING A TRIP TO CALIFORNIA. THEY WENT DOWN TO VISIT SON DENNIS AND HIS NEW WIFE.

JOHN AUSTIN BUILT A REAL BEAUTY OF A TILT DOWN TOWER.

RALPH, W7COP WON THE DRAWING FOR THE ART-13. IS GOING TO SAVE IT FOR THE NEW BOAT HE HOPES TO GET. BELIEVE HE SAID SOMETHING ABOUT USING IT FOR A ANCHOR.

IF YOU WERE LISTENING TO STATION KVI ON FRIDAY AT 8.30PM AND THOUGHT YOU HEARD DON, K7DWT, YOU WERE RIGHT. STATION KVI HAD A PHONE PATCH CONVERSATION WITH DON WHO WAS GIVING THEM INFORMATION REGARDING THE EARTHQUAKE IN ALASKA APPROXIMATELY ONE HOUR EARLIER. POWER, GAS AND PHONES WERE KNOCKED OUT BY THE QUAKE AND DON WAS IN QSO WITH ALASKA GETTING INFORMATION AS TO WHAT WAS GOING ON.....MARGIE K7AMJ

—•••—

PINOCHLE

THERE WAS A TURN OUT OF 12 FOR THE PINOCHLE GAME ON THE 28TH AT THE CLUB HOUSE.

THE TOP PLAYERS FOR THE EVENING WERE RALPH FOR THE MEN AND MARY JO FOR THE LADIES. THE DISH WASHING CHORES WAS DONE BY BOB AND VIVIAN.

WITH ONLY TWO MORE NIGHTS OF PLAYING TO WIND UP THIS YEARS TOURNAMENT THE PLAYING IS GETTING TO BE MORE FUN.

AT THE PRESENT TIME RALPH IS LEADING ON TOTAL SCORE WITH 19,030 FOLLOWED BY DICK WITH 18,470 AND BOB WITH 16,360. IN THE LADIES DIVISION RENE IS TOP SCORER WITH 16,070 FOLLOWED BY ALICE WITH 15,380 AND MARGIE WITH 13,620.

SO THOSE OF YOU WHO ARE NOT ATTENDING, BE SURE AND LEAVE THE LAST SATURDAY OF APRIL AND MAY OPEN TO ATTEND.

—•••—

(CONT. FROM PAGE 4)

BY THE RELATIVES OF THESE PEOPLE.

SEVERAL OF OUR MEMBERS PUT IN LONG HOURS ON THE AIR, RUNNING MESSAGES BOTH TO AND FROM ALASKA.

WE WILL HAVE MORE ON THE SITUATION IN THE NEXT ISSUE WHEN THE NEWS IS MORE COMPLETE.

AMATEUR RADIO HAS AGAIN PROVED TO BE A DEFINITE ASSES$ TO OUR NATION AND GIVING IT'S ALL IN A CRISIS WITHOUT COMPENSATION. A BETTER PUBLIC SERVICE UNIT DOES NOT EXIST.

—•••—

DON'T FORGET TO SAVE YOUR MJB COFFEE BANDS AND LIDS AND GET THEM TO THE CLUB HOUSE.

HUNTOON TO VISIT !

— ··· —

EDITORIAL

WHEN A DISTINGUISHED SPEAKER FROM ARRL OR ANY OTHER GROUP ENGAGED IN AMATEUR RADIO IS ON A SPEAKING TOUR THROUGH THIS SECTION OF THE COUNTRY IT IS ONLY PROPER THAT A LARGE TURN-OUT BE HAD TO MAKE THE SPEAKER FEEL HE IS WANTED AND HIS TIME AND EFFORTS HAVE NOT BEEN WASTED.

ALTHOUGH ONES VIEWS MAY NOT PARALLEL HIS OR THE ORGANIZATION HE REPRESENTS, EVERY EFFORT SHOULD BE MADE TO ATTEND THESE OCCASIONS. LACK OF INTEREST OFTERS LACK OF KNOWLEDGE AND FOR ONE TO MAKE AN INTELLIGENT DECISION ON IMPORTANT MATTERS BECOMES DIFFICULT IF NOT IMPOSSIBLE.

ATTENDANCE AT SPECIAL OCCASIONS SHOULD BECOME THE RULE RATHER THAN THE EXCEPTION. WHILE IT IS REALIZED THAT IN SOME INSTANCES, DUE TO SHORT NOTICE OR OTHER PRESSING MATTERS ONE CANNOT ATTEND, IT IS ALSO FELT THAT MANY STAY HOME AND DO LITTLE OR NOTHING TO HELP ONES SELF OR THE CAUSE HE OR SHE IS SUPPOSED TO REPRESENT.

— ···—

A VERY SUCCESSFUL BAKE SALE WAS HELD AT THE APR.22ND MEETING. THE PROCEEDS TO GO TO THE LADIES BOWLING TEAMS. WITH THE BEST AUCTIONEER, STAZI, HOW COULD THEY MISS!! THE LADIES EXPRESS THEIR THANKS FELLOWS.

— ···—

JOHN HUNTOON, W1LVQ THE GENERAL MANAGER OF THE ARRL WILL BE THE FEATURED SPEAKER AT THE P.S.C.R.C. BANQUET, TO BE HELD AT THE WALLET ROAD GRANGE HALL ON EAST 64TH AND WALLER TACOMA ON MAY 24 AT 2PM.

TICKETS ARE AVAILABLE FROM DICK W7RGD, UNTIL MAY 14. TICKETS WILL BE AVAILABLE AT THE DOOR FOR THE LATE COMERS. PRIZES WILL BE MANY WITH FIRST PRIZE, A HAM-M ROTATOR. THE MENU IS ROAST BEEF, SALAD AND HOME MADE PIE! SOUNDS GOOD DON'T IT? A LARGE TURN OUT IS EXPECTED SO DON'T MISS THIS ONE. SEE YOU THERE!!

— ··· —

DEAR MOTHER

THE 8TH ANNUAL MOTHERS DAY BREAKFAST IS ABOUT TO TAKE PLACE. MAY 10TH IS THE DATE, THE PLACE IS OUR OWN LITTLE CLUB HOUSE. ALL LADIES ARE FREE AND CHILDREN 10 CENTS. MEN, IT WILL COST YOU $.50.

ROY STAZI, WILL BE THE COOK, AS HE HAS DONE THE LAST 7 YEARS, AND A VERY FINE JOB HE HAS PERFORMED. THE YNG MEMBERS WILL BE YOUR HOST AND DO THE WAITRESSES DUTY. SO BE PREPARED FOR SOME VERY DELICIOUS HOT CAKES AND LET'S SEE ALL YOU FAIR DAMSELS MOTHERS DAY. O'YES THE TIME IS 8:00 UNTIL 11:00 PDST.

FIELD DAY

FIELD DAY IS UPON US! JUST TWO MONTHS AWAY AND FELLOWS, THAT IS CLOSE! RALPH W7COP, IS W7DK'S FIELD DAY CHAIRMAN. LET'S ALL GET BEHIND HIM AND PUSH. RALPH GAVE US A PRELIMINARY OUTLINE OF HIS PLANS FOR THIS YEAR AT THE LAST MEETING. HE HAS NAMED THE STATION CAPTAINS AND HAS ASKED MEL K7ATF, TO BE GROUNDS DIRECTOR. THAT IS ONE PART OF THE ACTIVITIES WE HAVE BEEN LACKING IN THE PAST YEARS. LET'S GO ALONG WITH MEL AND KEEP W7IG'S PLACE CLEAN WHEN WE LEAVE. JOE HAS BEEN VERY GOOD ABOUT THINGS IN THE PAST, SO LETS KEEP HIM AS A FRIEND.

RALPH HAS ALSO ASKED DOC NACE K7AYD, TO BE HIS ASSISTANT. THAT IS ALSO A JOB DOC HAS HAD IN THE PAST AND HANDLES IT VERY WELL INDEED.

OF COURSE, ROY W7AZI WILL HAVE HIS OLD JOB AND WE WILL BE WELL FED AGAIN THIS YEAR. I NOW TAKE THIS OPORTUNITY TO NOMINATE MARGIE K7AMJ, VIVIAN MY XYL AND IRENE XYL OF EMIL K7GPK, TO HELP ETHEL W7WLX AS DISHWASHERS AND GENERAL KITCHEN HELPERS.

RALPH WILL HAVE A MORE DETAILED REPORT ON THE CLUB'S FIELD DAY PROGRAM AT THE NEXT MEETING, SO LET'S ALL BE THERE AND GET INSTRUCTIONS ON OUR DUTY'S FOR THIS YEARS FIELD DAY.

— . . . —

BLESSED ARE THEY THAT ARE KNOWN AS WHEELS, FOR THEY SHALL GO AROUND IN CIRCLES.

— . . . —

[illegible] RETREAT

HAMS THAT ARE AND HAMS TO BE
WE LOOK AROUND AND HAMS WE SEE
THEY'RE SHORT OR TALL, PLUMP OR THIN
60 LEAD AND 40 GIN.

THEY TWIRL THE KNOBS AND HOPE TO HEAR
THE OTHER HAMS FROM FAR AND NEAR
THEIR LUCK IS GOOD AND SOMETIMES BAD
THE Q R M SURE MAKES THEM MAD

SO SWITCH IN THE FILTER AND GO FOR BROKE
UNTIL NEXT MONTH---THAT'S ALL I WROTE
. . . . . .K7GPK

— . . . —

SAGE SAGA

THE TRIP THRU SAGE WAS A GREAT SUCCESS WITH APPROXIMATELY 60 PEOPLE SHOWING UP FOR IT. THEY WERE BROKEN INTO THREE GROUPS WITH THE LATTER GROUP BEING THE SMALLEST. AFTER A DELIGHTFUL TOUR A TRIP TO THE COFFEE SHOP FOLLOWED.(AT LEAST BY THE LAST GROUP) THERE WAS A CASUALTY HOWEVER. IT SEEMS THAT SOME YOUNG FELLOW PASSED OUT AND HAD TO BE OVERHAULED AT THE DISPENSARY. MAYBE THE GLORIOUS AND FANTASTIC ARRAY OF TUBES AND ELECTRONIC COMPONENTS WAS MORE THAN HE COULD TAKE, POOR FELLOW. WE WISH TO THANK THOSE RESPONSIBLE FOR THE TOUR AND HOPE ANOTHER CAN BE PLANNED IN THE FUTURE FOR THE BENEFIT OF THOSE WHO HAVE AS YET NOT BEEN THRU IT.

— . . . —

SOME PEOPLE ARE SO BUSY LEARNING THE TRICKS OF THE TRADE THAT THEY DON'T LEARN THE TRADE.

CARLING TOUR

THE TOUR THRU CARLING BREWERY WAS A BIG SUCCESS. THERE WAS 69 PEOPLE THAT ENJOYED THE VERY NICE TOUR THROUGH THE BUILDING. IT IS FANTASTIC, THE MACHINERY IT TAKES TO GET THAT DELICIOUS AMBER FLUID FROM THE AGING TANKS TO THE FINAL STAGES OF DELIVERY TO THE CONSUMER. I THINK THE TAP ROOM WAS THE MOST INTERESTING PART OF THE TOUR, AND LOOKING AT THE MANY HAPPY FACES THERE, I BELIEVE THAT ALL THE 68 OTHERS FELT THE SAME WAY. I HEARD THAT THERE WAS A CONTEST THAT EVENING BETWEEN OUR PRESIDENT AND HIS BROTHER-IN-LAW JOHN. MERLE BROUGHT ANOTHER HONOR TO W7DK BY TOPPING JOHN BY 2 GLASSES AND 3 CHEESE SANDWICHES. ALL KIDDING ASIDE, CARLINGS SHOULD BE CONGRATULATED FOR A VERY ENJOYABLE EVENING AND WE HOPE TO VISIT THEM AGAIN IN THE VERY NEAR FUTURE. ROY, W7AZI WILL ATTEST TO THE FACT THAT CARLING'S SERVE A VERY FINE BUFFET LUNCH ALONG WITH THEIR MAIN PRODUCT..... ..K7CYZ

—ooo—

DINNER

ANOTHER ONE OF OUR FAMOUS POT LUCK DINNERS IS PLANNED FOR MAY 23. THESE DINNERS ARE A LOT OF FUN AND THE FOOD IS OUT OF THIS WORLD.

GAMES ARE PLAYED AFTER DINNER AND EVERYONE HAS A GOOD TIME. WE START EATING AT 6:30 AND FINISH WHEN THE FOOD IS GONE. IT ONLY COSTS $1.00 PER COUPLE AND 10¢ PER CHILD, SO LET'S SEE A GOOD TURN OUT FOLKS.

—ooo—

DRAWING

DON'T FORGET, THERE WILL BE A DRAWING FOR A BC-603 ON THE MEETING NIGHT OF MAY 27TH. THE TICKETS YOU RECEIVED THE LAST MEETING NIGHT AND THE ONE FOR THE COMING MEETING WILL ALL BE GOOD FOR THE DRAWING.

LADIES AUX. BOWLING

THE LADIES AUX. TEAMS HAVE ENDED THEIR 2ND YEAR OF BOWLING WITH ONE TEAM PLACING 2ND IN THE LEAGUE. THE XYL'S CONSISTING OF; WILMA KANZLER, TYKE RAWLINGS, INEZ CHURCHWARD AND LAVERNE HOOK.

THE Q R MARY'S AND THE DX SPARKIES PLACED 7TH. RENE SMITH HAD HIGH GAME OF 198 AND HIGH SERIES OF 541 FOR THE AUX. TEAMS. MARGIE CHAVIS ALMOST HAD AN ALL SPARE GAME BUT HAD A STRIKE IN THE 10TH FRAME. TYKE RAISED HER AVERAGE 25 PINS THIS SEASON, WHICH IS VERY GOOD FOR A FIRST YEAR BOWLER.

THIS HAS BEEN A REAL FUN YEAR FOR THE GALS AND THEY HOPE TO HAVE 4 TEAMS NEXT YEAR. THEY WILL BE BACK AT PACIFIC LANES IN THE FALL. THEY WILL BOWL EVERY TUESDAY AM AT 9:00. CALL K7AMJ GR-5 2241 IF YOU ARE INTERESTED.

THE GALS ARE ALL GOING OUT TO DINNER AT THE TIKI THIS YEAR. THEY HAVE AROUND $85.00 IN PIN MONEY FOR THEIR DINNER THIS YEAR. IT SOUNDS LIKE THEY SHOULD HAVE DONE A LITTLE BETTER AT THEIR BOWLING AS THEY COLLECT THEIR PIN MONEY FROM THE STRIKES AND SPARES THEY MISS!!

—ooo—

ATTENTION OM BOWLERS!!

A MEN'S BOWLING TEAM FOR THE WINTER SEASON IS NOW BEING FORMED. ANY AND ALL AMATEURS ARE WELCOME TO JOIN. THIS WILL BE A HANDICAP LEAGUE, SO IF YOU HAVEN'T BOWLED BEFORE, DON'T LET THAT STOP YOU. SO FAR WE HAVE TWO COUPLETE TEAMS AND WOULD LIKE TO HAVE A THIRD. THIS WILL BE A NEW LEAGUE, BOWLING AT THE BOWLERO LANES ON STEILACOOM BLVD. TUESDAY NIGHTS AT 8:45PM. SO FAR THE PEOPLE WE HAVE SIGNED ARE; DICK RYAN, MAX BICE, TOM GILMORE BOB CHURCHWARD, CHUCK HUNGERFORD EMIL KOTH, RALPH RAWLINGS, OTHO SMITH CLIFF OSBORNE AND YOURS TRULY MERLE CHAVIS. WE HAVE SEVERAL MORE THAT HAVE STATED A DESIRE TO JOIN IF CIRCUMSTANCES ARE ALRIGHT IN THE FALL.

SO WHO KNOWS WHAT WILL HAPPEN, COME YOU GUYS AND LET'S SHOW THE GALS THAT WE CAN DO BETTER THAN THEY.(I HOPE) CALL MERL AT GR 5 2241.

.....W7IKG

—ooo—

OPEN LIMITS

SIX HAS BEEN PRETTY BUSY THIS MONTH. WE STARTED OUT BY RELIEVING THE LOG BANDS OF SOME TRAFFIC OUT OF ALASKA DURING THE EARTHQUAKE. K7CAZ, MIKE SEATTLE, K7QFV CHUCK BREMERTON, K7RCU NORM ALDERWOOD, K7OSN WILMA PUYALLUP, K7GLR MONT-LAKE TERRACE, K7WZG JIM NORTH SEAT-TLE, K7TDA JACK SEATTLE, K7ACC LEN SELLAC, K7PHZ AUBURN, K7VEK AL REN-TON, W7UWB STEVE MERCER ISLAND, W7IKK PAUL BAINBRIDGE ISLAND, K7UFL WILL EVERETT, K7BUI RAY MOUNT VER-NON, K7ITY BETTY TACOMA AND MYSELF K7CYZ WERE ON NET SUNDAY AND MONDAY UNTIL THE WEE HOURS. LOTS OF WORK BUT THAT IS WHAT WE ARE HERE FOR.

K7KSZ DWAYNE HAD A GOOD TRIP TO SPOKANE BUT 'HAM WISE' THE JOURNEY DID NOT PAY OFF. HE DID NOT MAKE CONTACT ON SIX WHILE HE WAS THERE. NEXT TIME DWAYNE, MAYBE THERE WON'T BE AN EARTHQUAKE TO COMPETE WITH.

I WAS GOING TO HAVE SMITTY, K7ATD GIVE A REPORT ON THE DAFFODIL PAR-ADE BUT HAVEN'T HAD A CHANCE TO IN-TERVIEW HIM. HE WAS TO BUSY DURING THE PARADE AND THE ONLY OTHER TIME I GOT A CHANCE TO TALK TO HIM WAS AT THE TOUR THROUGH THE BREWERY AND HE WAS ALSO TOO BUSY THERE. YOU WHO WORKED THE PARADE DID A GOOD JOB AND YOU STAND COMMENDED FROM THIS CORNER.

SOME DX HAS BEEN SLIPPING THROUGH LATELY. ONE GAL (CAN'T THINK OF HER CALL) HER NAME IS "JERRY" NEAR LAKE SAWYER, MADE A HAUL LAST FRIDAY WITH TWO ARIZONA STATIONS.

THE REPORTS ON THE BAND SAY THAT CALIFORNIA WAS ALSO WORKED FRIDAY AND SATURDAY. SUNDAY WAS MY BAD DAY. SAT HERE AND LISTENED TO KTCUI CALLING CQ FOR TEN MINUTES. I DID NOT RECOGNIZE THE CALL AND FIGURED HE WAS ANOTHER SEATTLE STATION. GOT TO THINKING ABOUT IT AND LOOKED HIM UP IN THE CALL BOOK, YOU GUESED IT, RENO NEVADA. SO, BACK TO SLEEP. KEEP A GOOD EAR GUYS AND GALS, THIS IS ABOUT THE TIME THE DX BROKE LAST YEAR.

ROY, K7USF IS IN CANADIAN GENERAL HOSPITAL AND HAS HIS RIG ON 51 MC. HE WILL PROBABLY BE HOME BY THE TIME YOU READ THIS. GOOD LUCK AND GET BETTER ROY.

(CONT. NEXT COLUMN)

(CONT. COL.1)

THE NEW SERIES OF X-MTR HUNTS WILL START FRIDAY MAY 1ST. K7ITX, DICK WILL BE THE FIRST HIDDEN BUNNY. CONGRATULATIONS DICK FOR TAKING THE TROPHY FOR THE LAST SERIES. (I GAVE HIM A RUN FOR HIS MONEY) THE HUNTS ARE ON 51MC AND START AT THE CLUB HOUSE, 8 PM EVERY OTHER FRIDAY. STARTING TIME 8 PM MAY 1ST. EVERY ONE IS WELCOME.

I GUESS THAT'S ENOUGH FOR THIS TIME. GOOD DX-ING AND I'LL SEE YOU NEXT ISSUE. .....SCOTTY K7CYZ

P.S.

GOLDWATER DON'T DARE PUT A 20 METER BEAM ON THE WHITE HOUSE. PROBABLY WOULD T.V.I. CASTRO.

-000-

CHIPS FROM 29.6

THINGS HAVE BEEN PRETTY QUIET ON 29.6 FOR SEVERAL DAYS NOW. THE TOP OF THE TOWN DIDN'T HAVE MUCH TO SAY AFTER BLOWING HIS PINOCHLE LEAD ON SATURDAY NIGHT. COULD BE HE COULDN'T TAKE THE RIBBING HE WAS BOUND TO GET. POSSIBLY HE WAS AFRAID THE TEARS WOULD GET ON THE RANGER.

MERL, W7IKC BEMOANS THE FACT HE HAS TO USE THE NC-300 FOR MONITORING AF-TER HIS 683'S POWER SUPPLY BIT THE DUST.

IT'S REAL NICE TO HEAR DOC NAC, K7AYD BACK ON THE AIR FROM HIS MOBILE HE IS ALSO FAT AND TANNED FROM HIS ARIZONA EXCURSION.

DON'T FORGET THE 1ST, 3RD AND 5TH WEDNESDAYS 1330 HOURS FOR THE ARC NET. 73.

-000-

PINOCHLE

GUESS WHICH"SHNOOK" DID THE DISHES AFTER THE APRIL 25TH PINOCHLE GAMES ALONG WITH MARY JO? IF YOU TUNE IN 29.6 YOU WILL HEAR HIM SIGNING "TOP OF THE TOWN".

BY THE WAY NKZ AND RGD TOOK HOME THE TROPHIES FOR THE MONTH.

INCIDENTALY, SOME ONE CALLED CUP SURE DID LOOK GOOD WITH A DISH TOWEL IN HIS FIST.

DON'T FORGET THIS COMING GAME ON THE 30TH WILL BE THE LAST ONE OF THIS SESSION. K7IPG

-000-

FLORAL SHOW

SATURDAY AND SUNDAY, MAY 16TH & 17TH IS GARDNERS OF PARADISE DAY AT POINT DEFIANCE PARK. W7DK WILL AGAIN FURNISH THE AUDIO PART OF THE PROGRAM UNDER THE DIRECTION OF ROY, K7AZI. ROY INFORMS US THAT HE IS GOING TO NEED SOME HELP. ANYONE WHO CAN DONATE A FEW HOURS PLEASE CALL ROY AT GR-2 4213.

—ooo—

CHIPS FROM THE LOG

BERYL, K7NPG IS WORKING IN CALIFORNIA FOR AWHILE. YOU CAN UNLOCK YOUR BASEMENTS NOW.

WORD IS THAT BARBARA, K7UYL HAS BEEN UNDER THE WEATHER. PERK UP BARB, WE NEED YOU AT PINOCHLE NEXT MONTH.

DICK, K7RGD HAS BEEN OUT ON THE LAKE EVERY AM TRYING TO OUT SMART THE FISH. HE'S DOING ALRIGHT TOO! I DIDN'T KNOW HE WAS SO SMART.

IT'S BEEN PRETTY HARD TO WRITE THIS ARTICLE TO NIGHT! DICK, K7RGB AND SCOTTY K7CYZ KEEP SINGING THE "MICKEY MOUSE CLUB SONG" AND IT BREAKS MY THINKING CIRCUIT.

DWAYNE, K7KSZ HAD A TOUGH FIGHT BUT FINALLY GOT THE 300 WATTS ON THE AIR.

WHAT WAS THAT CUTE THING MARGIE, K7AMJ WAS KNITTING AT THE GATHERING IN THE COUNTY-CITY BUILDING LUNCH ROOM? AND WHY?

WAS THAT WATER COMING FROM UNDER THE FRONT DOOR OF C & G CAUSED BY TEARS? GOOD LUCK ON YOUR NEW JOB DAVE W7QFR. MORAL; C & G LOSS-KTNT'S GAIN.

WOW! RICK, W7GTP'S SPORTING AROUND IN A NEW TEMPEST.

ASK MERL, W7IKG WHY HE'S NOT MONITORING 29.6 ANY MORE.

IS BOWLING TERRIFIC AT PACIFIC LIKE THE SIGN SAYS? ASK RALPH, W7COP

DOES DOC, K7AYD NEED A NEW SEARS CATALOG FOR LOADING HIS MOBILE ANTENNA, A WHIP SET FOR 20 METERS DOESN'T WORK VERY WELL ON 29.6.

.....K7ALS

—ooo—

G/G SPEAKER

ON MONDAY APRIL 27 A SMALL GROUP OF DEDICATED HAMS AND FRIENDS GATHERED IN THE CAFETERIA ON THE 11TH FLOOR OF THE COUNTY-CITY BUILDING TO HEAR REX ROBERTS, W7CPY, NORTHWESTERN DIVISION DIRECTOR FOR THE A R R L. HE WAS ACCOMPANIED BY BOB THURSTON, W7PGY, SCM.

THEY SPOKE ON CURRENT ARRL EVENTS AND THE PETITION BEFORE THE FCC ON INCENTIVE LICENSING. IT WAS VERY INFORMATIVE AND IT IS BELIEVED THAT EVERYONE HAD A GOOD TIME.

THE WAITRESSES AT THE DORIC MUST BE PRETTY GOOD LOOKING AS THEY STOPPED THERE FOR DINNER AND WERE AN HOUR LATE FOR THE MEETING.

COFFEE AND COOKIES WERE SERVED TO ALL THE DISTINGUISHED PERSONS PRESENT.

MARGIE, K7AMJ WON A QST BINDER AND MEL, W7ANI FROM THE LAKE WASHINGTON CLUB WON A DOW-KEY ANTENNA RELAY.

—ooo—

SAVE YOUR RUMMAGE FOLKS@@! THE LADIES BOWLING TEAMS ARE HAVING A ONE DAY SALE, COME SEPTEMBER.

WA7DK THE LOGGERS DARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA INC.

VOL 1 NR 6 JUNE 1964 29.6 - 51.0

NOTICE! NOTICE! NOTICE!

HEAR YE, HEAR YE, HEAR YE, IT IS FAST APPROACHING. FIELD DAY AGAIN 1964 STYLE. LET'S ALL PACK OUR GEAR, DON OLD CLOTHES, FILL YOUR POCKETS WITH STAY AWAKE PILLS AND JOIN THE FUN OF FIELD DAY AT THE [illegible] OF 47TH.

THIS YEAR PROMISES TO BE MORE ENTERTAINING THAN EVER. THE BANDS ARE OPENING UP, WHICH MEANS THE CONTACTS WILL BE THERE WAITING.

DON'T FORGET GUYS AND GALS FD JUNE 27TH AND 28TH.

P.S. "THERE WILL BE PLENTY OF GOOD EATS ALSO." .....RALPH 7COP

—ooo—

P.S.C.A.R.C.

THE NEXT MELTING OF THE COUNCIL WILL BE HELD JUNE 12TH AT THE RED CROSS BUILDING IN TACOMA.

SEVERAL ITEMS ARE ON THE AGENDA INCLUDING THE BANQUET AT THE MILLER ROAD GRANGE. VISITORS ALWAYS WELCOME AT THESE SESSIONS. FEEL FREE TO ATTEND ANY OF THE MELTINGS AND SEE FOR YOURSELF WHAT GOES ON.

PRESIDENT, GENE HUGHES, W7SUC OF THE LEWIS COUNTY CLUB WILL BRING THE GAVEL DOWN AT 8:00 PM.

—ooo—

NOTICE

SUBSCRIPTIONS TO OUR PAPER ARE AVAILABLE TO ANYONE WHO IS NOT A MEMBER OF DK. $1.00 PER YEAR BRINGS THEM 12 INFORMATIVE COPIES OF THE "LOGGERS DARK."

—ooo—

NOTICE

THERE WILL BE ONLY ONE MEETING A MONTH HELD DURING THE MONTHS OF JULY AND AUGUST.

DUE TO THE POOR ATTENDANCE DURING THESE MONTHS WITH VACATIONS, WORK AND ETC., THE BOARD RECOMMENDED THE SINGLE MEETINGS. THIS WAS PASSED ON THE FLOOR AT THE MAY 13TH MEETING.

HAVE FUN AND ENJOY YOUR SUMMER! THE FIRST MEETING IN SEPTEMBER WILL BE A HUMDINGER WITH AN AUCTION OF GOODIES. THESE GOODIES WILL CONSIST OF HAM GEAR AND PARTS AND ALSO A CAKE SALE. ARE YOU LISTENING YOYO DEVISH?

—ooo—

PSCARC BANQUET

GUEST SPEAKER FOR THE THIRD ANNUAL PSCARC BANQUET WAS GENERAL MANAGER OF ARRL, JOHN HUNTOON W1LVQ. OTHER SPEAKERS WERE; NORTHWEST DIRECTOR REX ROBERTS W7CPY, SCM BOB THURSTON W7PGY AND ASSISTANT SCM/SEC BUD YOUNG W7HMQ. THE SPEAKERS WERE AT THEIR BEST AND WERE ENJOYED BY EVERYONE THERE.

JOHN HUNTOON GAVE SOME INSIGHT ON THE VERY CONTROVERSIAL SUBJECT OF INCENTIVE LICENSING. WE WERE ENLIGHTENED ON THE FEELINGS OF ARRL ON THIS MATTER AS WELL AS THE NATIONS HAMS RESPONSE TO THE ISSUE. HE STATED THAT ARRL RECEIVED 6,000 LETTERS THE FIRST MONTH AFTER PUBLICATION AND 11,000 TO DATE. THIS MAIL HAS BEEN ABOUT 50-50 PRO AND CON.

THERE WAS A QUESTION AND ANSWER PERIOD FOR THE LOCAL HAMS TO AIR THEIR VIEWS AND THIS PROVED VERY IN-

PSCARC BANQUET (CONT. PAGE 1)

TERESTING TO US AS WELL AS THE ARRL REPRESENTATIVE. ALL QUESTIONS WERE ANSWERED TO THE SATISFACTION OF MOST OF THOSE PRESENT.

PRESIDENT OF THE COUNCIL, GENE W7ISC, GAVE A SHORT TALK ON COURTESY ON THE HAM BANDS, WHICH I THINK EVERYONE SHOULD HAVE HEARD AND LEARNED SOMETHING FROM. CONSTRUCTIVE CRITICISM NEVER HURT ANYONE.

W7DK WAS WELL REPRESENTED AT THE DINNER WITH 16 MEMBERS PRESENT. TWO MORE MEMBERS, WHO PURCHASED TICKETS, COULD NOT ATTEND. OUT OF THOSE PRESENT, PRIZES WERE WON BY: DON K7DUT, EMIL K7GPK, TOM W7FUL A.H.MITCHELL WN7AKW, CHIP, BOB W7RXS, DICK W7RGD AND MARGIE K7AMJ. THE GRAND PRIZE, A HAM-M, WENT TO ROY W7AZI.

121 ATTENDED THE BANQUET IN ALL. THE DINNER WAS VERY GOOD AND THE SERVICE WAS EXCELLENT. ROY DEVISH SAW TO IT THAT EVERYONE WHO WAS STILL HUNGRY, GOT A SECOND PLATE FULL. IT WAS A NICE BANQUET AND ANYONE WHO DIDN'T ATTEND REALLY MISSED A GRAND TIME.

AREC & CD NEWS

THE CIVIL DEFENSE WAS ASKED TO PROVIDE COMMUNICATIONS FOR THE ANNUAL BOY SCOUT CAMPORAL, HELD THE 22 AND 23 OF MAY.

RALPH W7COP DROVE THE C-D BUS TO THE OLD HIGHLAND GOLF COURSE WHERE THEY HANDLED THREE EMERGENCYS AND OTHER CALLS FOR SOME 2,500 BOYS.

ASSISTING RALPH WERE ROY W7AZI, MEL K7ATF, SMITTY K7ATD, ROY K7USF, STEVE K7SSC, EMIL K7GPK AND PERL W7IKG. MR. DARE, THE CHAIRMAN FOR THE CAMPING COMMITTEE FOR THE MOUNT RAINIER BOY SCOUT COUNCIL, WROTE A VERY GRACIOUS THANK YOU LETTER TO RALPH AND INFORMED HIM IT WAS A VERY SUCCESSFUL ADVENTURE.

WE WISH TO EXPRESS OUR THANKS TO ALL WHO TURNED OUT IN SEARCH FOR FIVE YEAR OLD JANNETT W.FLIS AT WAPATO LAKE MAY 31ST. SHE WAS MISSING AT 4 PM AND FOUND BY SKIN DIVERS FROM THE P.C.S.O. AT 8:05 PM IN TEN FEET OF WATER. DEATH WAS BY APPARENT DROWNING.

AUXILLARY NEWS

THE NEW AUXILLARY OFFICERS FOR THE NEXT YEAR 1964-1965 ARE AS FOLLOWS. PRESIDENT FAYE MONROE, VICE PRESIDENT RENE SMITH AND SECRETARY ETHEL DEVISH.

PLANS WERE MADE FOR THE POT LUCK DINNER, WHICH WAS HELD THE LAST OF MAY.

THE FOOD LIST FOR FIELD DAY WILL BE THE TOP DISCUSSION AT OUR NEXT MEETING JUNE 3RD. ANYONE WITH A SPECIAL INTEREST IN FIELD DAY SHOULD TRY TO ATTEND THIS MEETING.

THERE WILL BE NO MEETINGS DURING THE MONTHS OF JULY AND AUGUST. THE MEETINGS WILL START AGAIN IN SEPTEMBER ON THE 3RD. I WOULD LIKE TO INVITE ALL THE WIVES AND MOTHERS OF ALL THE MEMBERS TO COME TO OUR MEETINGS. THEY ARE A LOT OF FUN AND WE DO ACCOMPLISH SOME BUSINESS DURING THE MEETINGS. WE DO NOT DISCUSS RADIO AT ALL BUT DO HAVE SYMPATHY FOR ONE ANOTHER. LET'S SEE IF WE CAN SHOW MORE INTEREST IN OUR AUXILLARY MEETINGS LADIES. SEE YOU AT THE NEXT MEETING.

.....MARGIE K7AMJ

POT LUCK DINNER

OUR LAST POT LUCK DINNER WAS NOT TOO WELL ATTENDED BUT THE FOOD WAS OUT OF THIS WORLD. THE GANG THAT WAS THERE HAD A GOOD TIME AND PLENTY OF FOOD TO EAT. WE ONLY MADE $10.00, WHICH WE INTENDED TO GIVE TO THE MEN FOR FIELD DAY.

THE GALS FROM THE BOWLING TEAMS STAGED A CAKE WALK WHICH WAS A LOT OF FUN FOR THE KIDS AND GROWN-UPS TOO. THE FIRST WALK WAS ALL KIDS BUT 2, RENE SMITH AND JOE W7IG. LET US KNOW WHEN YOU WANT ANOTHER ONE.

.....K7AMJ

-000-

FIELD DAY

OH FIELD DAY WE HEAR YOU CALL,
THE TIME IS DRAWING NEAR
WE'LL PACK OUR CARS AND TRAILER HOMES
WITH ALL SORTS OF PARTS AND GEAR
ANTENNAS WILL GLISTEN IN THE SUN
OR WILL IT RAIN THIS YEAR
AT DK'S SITE UP IN THE HILLS,
NEAR BEAUTIFUL MT. RAINIER.

AZI WITH HIS POTS AND PANS
A'SHINNING IN THE LIGHTS
WILL FEED THAT BUNCH OF CANNIBALS
WITH THEIR TREMENDOUS APPETITES
IT'S BACON AND EGGS, HOT CAKES AND SUCH
FOR BREAKFAST IN THE MORN.
SPAGHETTI, SALAD "STRAWBERRIES" AND HAM
FOR DINNER WILL ADORN.

SOMEONE WILL STEP IN A PIE NO DOUBT,
AS THEY WANDER THRU THE NIGHT
IT'S NOT THE KIND THAT WE EAT OF COURSE
IT'S FROM A SOUTH BOUND COWS NORTH
SIDE
BUT IT'S ALL A PART OF FIELD DAY,
AND THERE'S NOTHING WE CAN DO
WE MAY CUSS A LITTLE AS WE FINDS A STICK
AND SCRAPES IT FROM HIS SHOE.

WHEN IT'S ALL OVER AND ANTENNAS COME
DOWN YOU'LL BE WORN OUT TO THE BONE
BUT FUN YOU WILL HAVE, YOU'RE GUARANTEED
OF THAT

BEFORE YOU HEAD FOR HOME
COME ONE, COME ALL, LET'S TURN OUT
IN FORCE
AND MAKE OUR BID FOR FAME
LET'S GO ALL OUT FOR FIELD DAY
AND PLAY A WINNING GAME,
WE'RE GOING TO WIN FOR SURE THIS YEAR,
AT LEAST THAT'S WHAT WE SAY
ARE WE GOING TO BE ALL LIMP,
OR ARE WE GOING TO MAKE IT PAY

THE CHOICE IS YOURS MY FELLOW HAMS,
NOW WHAT'S IT GOING TO BE
A FOOTNOTE ON THE LAST PAGE
OR BOLD TYPE IN Q S T

- K7EIK

UPPER 3 METER

1 GANG!
DON'T HAVE TO TELL THE 6 METER
[illegible] BUT TO YOU WHO DON'T KNOW, 6
AS SOME GOOD OPENINGS LATELY.
STATES COMING IN ARE TEXAS, UTAH,
ARIZONA, MONTANA, THE DAKOTAS AND
JUST THIS EVENING IOWA SHOOK THE
SEATTLE-TACOMA AREA UPSIDE DOWN.
IF ABOUT TWO DOZEN OF THE STATIONS
CALLING HIM HAD BEEN QUIET, ONE MAY
HAVE MADE CONTACT.
THERE HAS BEEN SOME TALK THAT THE
KA'S WERE IN BUT I WILL NOT CONFIRM.
NEXT YEAR PERHAPS BUT I DON'T THINK
THE SUN SPOTS ARE ACTIVE ENOUGH NOW
FOR THE JA'S OR KH6'S.(REMEMBER
IT & 58?)
WILMA K7OSN MADE CONTACT ON 6 WITH
BILL K7VJY IN WAPATO WASH. ON MAY 26
AT 7:40 TO 7:50 PDST. I WILL CON-
FIRM THAT WILMA. I WAS READING BILL
ALSO. DWAYNE, IF THEY CAN DO THAT
WE CAN HIT SPOKANE.
GENE K7EEK IS BACK TO WORK AFTER
A STAY IN ST.JOSEPH. THE 99ER GAVE
HIM THE 6 METER BUG, SO HE WENT
HOME AND PUT THE RANGER BACK ON AND
A NICE HUSKY SIGNAL TOO GENE.
DON'T FORGET JUNE 13 AND 14 IS
VHF QSO PARTY ALSO JUNE 27-28 IS
FIELD DAY.
SIX WAS WELL REPRESENTED AT THE
BOY SCOUT CAMP OUT. SEVERAL MES-
SAGES WERE HANDLED AND ONE QUICK
CALL VIA PHONE PATCH FOR A LOCAL
DOCTOR. THE PHONE PATCH WAS THRU
WAT K7NQR.
YOURS TRULY PUT IN A FULL DAY AT
T. DEFIANCE AS ASSISTANT TO ROY
7AZI AND ETHEL W7ELX AT THE GARD-
ENS OF PARADISE SHOW. MOSTLY ON
THE P.A. SYSTEM BUT WE DID USE 6FM
FOR COMMUNICATIONS BETWEEN LOCATIONS.
73 BCNU NEXT MONTH.

....SCOTTY K7CYZ

—•••—

CONGRATULATIONS TO JIM WASHBURN
WTBSW FOR PLACING SECOND IN THE
NATION IN THE 1963 S.S. CONTEST.
HOPE YOU SAVED SOME OF THIS FOR
FIELD DAY JIM.

—•••—

MOTHERS DAY BREAKFAST

THE 8TH ANNUAL MOTHERS DAY BREAK-
FAST WAS HELD SUNDAY MAY 10TH AT THE
CLUB HOUSE.
THE HOTCAKES WERE THEIR USUAL
QUALITY, A1. ROY W7AZI WAS HIS USUAL
JOLLY SELF, DRESSED IN HIS FAMOUS
APRON.
RED, WHITE AND PINK CARNATIONS
WERE PRESENTED TO ALL THE MOTHERS WHO
ATTENDED. THE TABLES WERE DECORATED
WITH APPLE BLOSSOMS BY ETHEL W7ELX.
IT IS A SHAME, AFTER ALL THE WORK
THAT ROY AND ETHEL DO TO PUT THIS
FUNCTION OVER, THAT THE ATTENDANCE
WAS AS SMALL AS IT WAS. ONLY 10
FAMILIES OUT OF THE LARGE MEMBERSHIP
OF THIS CLUB SHOWED UP.
WE ARE AFRAID, DUE TO THE POOR
SHOWING THIS YEAR, THE ANNUAL BREAK-
FAST WILL HAVE TO BE DISCONTINUED,
LIKE SO MANY OTHER CLUB FUNCTIONS,
BECAUSE OF SUCH POOR TURN OUTS.

—•••—

MEETING MAY 27

WE HAD A VERY GOOD SPEAKER TALK ON
AMATEUR T.V. AT OUR MAY 27TH MEETING.
GLENN RITCHEY W7SAB FROM BREMERTON
GAVE THE TALK WHICH LEFT EVERYONE
PRETTY ENTHUSED ON THE SUBJECT.
HE INFORMED US OF THE EASE OF GET-
TING ON T.V. AND THE GEAR AVAILABLE
ON THE SURPLUS AND COMMERCIAL MARKETS.
GLENN ALSO SHOWED SOME GEAR THAT HE
NOW HAS ON 436 MC., THE FREQUENCY
MOST HAMS USE ON TV. THE GEAR IN-
CLUDED AN APQ-2 TRANSMITTER, FOR 200-
500 MC. A CONVERTER FOR UHF, A UHF
TUNER, FIELD STRENGTH METER AND AN
ANTENNA FOR 436MC. BILL K7URZ,
WHO ASSISTED THE TALKER, HAD A HOME
BREW TRANSCEIVER FOR 432MC. HE HAD
SALE FROM THE MAY 1962 QST.
GLENN HAS A LIST OF ALL ARTICLES
AVAILABLE ON HAM TV WHICH HE IS SEND-
ING TO THE CLUB SO WE WILL HAVE THEM
AT OUR DISPOSAL.
THIS SOUNDS LIKE THE UP AND COMING
THING FOR THOSE WHO LIKE TO EXPERI-
MENT IN THE FIELDS OF ELECTRONICS.
HE SUGGESTED THIS WOULD MAKE A GOOD
CLUB PROJECT.
LET'S HOPE WE CAN GET GLENN BACK
AGAIN AND FILL US IN ON A FEW MORE
DETAILS.

—•••—

CHIPS FROM THE LOG

BERYL K7NPG IS WORKING IN CALIFOR-
IA. HE WILL SOON BE ON 75 FROM U6
AND.

THE WOMAN'S AUXILLARY HAD A SUR-
RISE STORK SHOWER ON PHYLLIS BEE
T THE LAST MEETING. WE HOPE TO
NNOUNCE THE NEW ARRIVAL IN THE
EXT PAPER.

THERE'S BEEN A FEW CALLERS AT
ERL'S W7IKG QTH LATELY TO SAMPLE
IS FIRST BATCH OF SUDS. HE HASN'T
LOWN ANYTHING UP YET BUT HE'S STILL
RYING. AS WE GO TO PRESS HE HAS
UST BOTTLED THE SECOND BATCH OF
OME BREW ALONG WITH SOME ROOT BEER
OR THE TEE-TOTLERS.

YOU SHOULD HAVE SEEN ALL THE MOTH-
RS ETHEL W7UEX FOUND TO BRING TO
HE BREAKFAST !! EVERY TIME SHE
ENT OUT TO FETCH ANOTHER MOTHER SHE
AD TO EAT AGAIN.

RENE SMITH IS SURE HEPPED UP ON
IELD DAY THIS YEAR. LAVERNE K7NKZ
NFORMED HER OF ALL THE "FUN" SHE
AS MISSING.

DICK W7RGD IS BACK FROM A TRIP ON
IS VACATION. DIDN'T FIND ANY GOLD
HAT HE WAS PLANNING ON FINDING IN
HE HILLS OF IDAHO. GOT HIMSELF
OME SUNSHINE THOUGH AND SOME GAS
ILLS. TRAVELED TO YELLOWSTONE AND
O SANFRANCISCO. CLOCKED HIS MOBILE
ROUND THE TRIP TO RALPH W7COP AND
ERLE W7IKG THROUGH THE MARTS NET.

LATE NEWS ITEM, BERYL K7NPG IS
ACK IN THE TACOMA AREA FOR A WHILE.

—ooo—

DRAWING MAY 27

THE DRAWING, FOLLOWING THE MEET-
NG MAY 27TH, WAS WON BY MARGIE
7AMJ. THE DRAWING PRIZE WAS A
C-600 FM RECEIVER.

DON'T FORGET FELLOWS EVERYONE
ETS A TICKET ON THE DRAWINGS BY
UST ATTENDING THE MEETINGS. THERE
S ALWAYS A DRAWING FOLLOWING THE
USINESS AND A GRAND PRIZE COMES
P EVERY MONTH OR SO AND ALL THE
REVIOUS TICKETS SINCE THE LAST
AJOR DRAWING ARE IN THE POT. HOW-
VER YOU CAN'T COLLECT UNLESS YOU
RE THERE TO CLAIM IT. IF NO
NE CLAIMS IT IT IS HELD OVER TILL
HE NEXT DRAWING. SO BE SURE TO
TTEND THE MEETING TO GET IN ON THE
OODIES.

—ooo—

PINOCHLE 1963-1964

THE 63-64 PINOCHLE SEASON IS OVER! TAKING HOME THE TROPHIES FOR THE LAST MONTH WERE, MARY JO COWART AND MERLE W7IKG. AT THE END OF THE MONTH THEY WILL TURN THEM OVER PERMANENTLY TO RENE SMITH FOR THE LADIES AND RALPH W7COP FOR THE MEN. THE RUNNERS UP WERE; WOMEN VIVIAN HUNTLEY, ALICE ERICKSON, BARBARA OSBORNE W7FUL, MARY JO COWART AND MARGIE CHAVIS K7AMJ IN THAT ORDER. FOR THE MEN; DICK W7RGD, BOB W7DXS, MERL W7IKG, DARRELL W7GDP AND CLIFF W7MFG IN THAT ORDER.

BEING LOW FOR THE EVENING, CLIFF W7MFG AND MARGIE K7AMJ DID THE DISHES. THEY ALSO BROUGHT HOME THE "CRYING TOWEL" FOR THE YEAR ONLY BECAUSE THEY ARE SUCH 'HONEST' CARD PLAYERS.

WE WILL START THE 1964-1965 SEASON THE LAST SATURDAY OF SEPTEMBER, SO BE PREPARED FOR A BIG BATTLE FOR TROPHIES NEXT YEAR. RALPH AND RENE WILL PICK OUT THE TROPHIES FOR NEXT SEASONS PLAY.

—ooo—

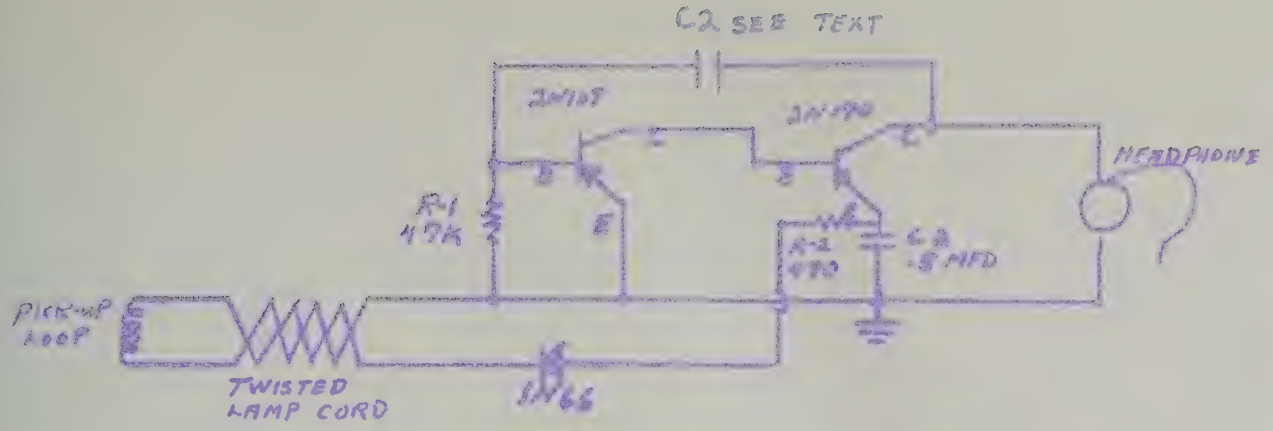

SILENT KEY

IT'S WITH REGRET THAT WE REPORT THE PASSING OF ONE OF THE LONG TIME MEMBERS OF THE RADIO CLUB OF TACOMA. LLOYD NORBERG W7EHQ PASSED AWAY SUNDAY MAY THE 10TH.

LLOYD WAS VERY ACTIVE IN THE CLUB IN IT'S EARLIER YEARS BUT DUE TO HIS BUSINESS AND OTHER COMMUNITY PROJECTS OF LATE YEARS, DID NOT ATTEND THE ACTUAL MEETINGS. HOWEVER, LLOYD WAS STILL AN ACTIVE MEMBER AND NEVER HESITATED TO GIVE HELP WHENEVER IT WAS REQUESTED.

WHEN BUSINESS ALLOWED W7EHQ COULD BE HEARD ON MOST OF THE BANDS 80 THROUGH 6 METERS. HIS PET MODE WAS CW BUT THIS DID NOT STOP HIS OPERATING AM, FM, SSB AND TELETYPE. MOST OF THE TIME LLOYD COULD BE FOUND ON THE 20 METER BAND CHASING A CHOICE PIECE OF DX ON CW. LLOYD WILL BE MISSED BY ALL.

—ooo—

TWO STAGE TRANSISTORIZED C.W. MONITOR

SOME AMATEUR RADIO OPERATORS LIKE TO MONITOR THEIR C.W. TRANSMISSIONS BY USING THEIR RECEIVER NEAR THEIR TRANSMITTING FREQUENCY. THIS SYSTEM HAS SEVERAL DRAWBACKS. NOT ONLY IS THERE A CHANCE OF OVERLOADING THE FRONT END OF THE RECEIVER, YOU MUST ALSO RETUNE TO THE INCOMING STATION'S FREQUENCY AFTER EACH TRANSMISSION. TO THOSE OF YOU THAT USE THIS METHOD, A MORE SIMPLE AND SATISFACTORY WAY OF MONITORING YOUR C.W. TRANSMISSIONS IS OFFERED IN THE FOLLOWING CIRCUIT.

THE MONITOR IS BASICALLY A TWO-STAGE COMPLEMENTARY OSCILLATOR, USING DIRECT-COUPLED PNP AND NPN TRANSISTORS IN THE COMMON EMITTER CONFIGURATION. POWER IS SUPPLIED BY R.F. ENERGY OBTAINED FROM THE TRANSMITTER, AFTER RECTIFICATION AND FILTERING. SINCE POWER IS ONLY SUPPLIED WHEN THE TRANSMITTER IS KEYED, THE OSCILLATOR CAN ONLY OPERATE AT THIS TIME AND SINCE ONLY A SMALL FRACTION OF A WATT IS NEEDED, THERE IS NO ADVERSE EFFECT ON THE POWER OUTPUT.

IN OPERATION, THE 2N107 PNP TRANSISTOR IS DIRECT-COUPLED TO THE 2N170 NPN, FORMING A TWO-STAGE AMPLIFIER. A PAIR OF HEADPHONES SERVES AS THE COLLECTOR LOAD IMPEDANCE FOR THE SECOND STAGE. RESISTOR R-1 SERVES AS THE BASE RESISTOR FOR THE FIRST STAGE. SINCE DIRECT-COUPLING IS EMPLOYED, THE SECOND STAGE REQUIRES NO BASE RESISTOR. CAPACITOR C1 IS CONNECTED BETWEEN THE OUTPUT AND THE INPUT OF THE TWO STAGES TO CONVERT IT INTO AN AUDIO OSCILLATOR. THIS CAPACITOR SERVES AS THE FEEDBACK PATH. R.F. POWER IS PICKED UP BY THE SMALL LOOP NEAR THE TRANSMITTER AND TRANSFERRED OVER A SIMPLE TRANSMISSION LINE. HERE, THE IN66 DIODE IS USED AS A HALF-WAVE RECTIFIER, WHICH TOGETHER WITH FILTER NETWORK R2-C2, FORMS THE D.C. POWER SUPPLY FOR THE OSCILLATOR.

WHEN ASSEMBLING THE MONITOR, PAY ATTENTION TO THE POLARITY OF TRANSISTOR AND DIODE CONNECTIONS. YOU MAY INTERCHANGE THE NPN AND PNP UNITS PROVIDED THE DIODE IS REVERSED TO INSURE PROPER POWER SUPPLY VOLTAGE POLARITY. THE PICK-UP LOOP IS ABOUT 10 TURNS OF INSULATED HOOK-UP WIRE, WOUND ON A FORM ABOUT 2 OR 3 INCHES IN DIAMETER. IT IS CONNECTED TO THE MONITOR WITH A SHORT (UP TO 3 FT.) LENGTH OF TWISTED PAIR LAMP CORD AND LOOSELY COUPLED TO THE TRANSMITTER. YOU WILL HAVE TO EXPERIMENT TO DETERMINE THE BEST LOCATION FOR THE PICK-UP COIL.

CAPACITOR C1 IS CHOSEN EXPERIMENTALLY TO GIVE THE AUDIO NOTE DESIRED. IT'S VALUE SHOULD BE BETWEEN .001 AND .1 MFD, BUT IT'S FINAL VALUE WILL DEPEND ON THE AUDIO TONE DESIRED AND ON THE IMPEDANCE OF THE HEADPHONES USED.

CIRCUIT VALUES ARE NOT CRITICAL AND YOU MAY WANT TO EXPERIMENT SOMEWHAT TO OBTAIN THE BEST PERFORMANCE TO YOUR PARTICULAR ASSEMBLY. ONE THING MORE, BE SURE THAT THE MONITOR IS GROUNDED.

.....DON KTDLT

K7NKZ & K7GPK – WATCH IT!

FIELD DAY 1964

Friday, June 26, found a few brave souls settling down at Asplund's for our most important week-end of the year. They decided to have a picnic together and set up card tables between K7NPG's camper and W7RXS's trailer. It turned out to be a lot of fun until Laverne pulled the plug in her sink and the water poured out on the food.

After singing "Happy Birthday" to K7NPG and his son Rusty we all retired to get a refreshing sleep to hold us until the wee hours of Sunday.

Saturday, started about 7:00 a.m. with W7IKG walking across the runway singing "Beans In My Ears". Lyle K7NHI arrived with the crank-up tower about 6:30 and had to sit out in the rain waiting for someone to let him in.

Dick W7RGD had to jump out of bed and put the top up on his car about 6:00 as the rain came down.

Troubles started with the late arrival of K7EEK who had the rotator for 20 CW and the ranger for 15 CW. Also K7DWT didn't show with the gear for 80 CW.

With the passing out of dupe sheets, log books and section lists, everyone headed for their respective stations all ready for the 2:00 p.m. starting time.

In the cook shack Doc was offered cookies by Ethel and he accepted.

The rain started pouring about 3:30 and it really came down. Made for pretty wet traveling in the tall grass.

Making the rounds we found 20 CW with W7FUL, K7CZF and K7CZM doing fine. Drinks in hand.

15 phone with K7SSC operating with K7AYC and Marsha to keep them on their toes.

K7NQR, Faye, K7NHI and K7KSZ all in a tent to keep out of the rain.. Working on 6 meters were Glenn W7CMZ and wife Sissy logging.

OUR CHAIRMAN W7COP
THE END OF A PERFECT F.D.

THE LODGERS BARN

W5YFS operating 75 phone with Tom Martin logging. Smitty was just loafing at this time.

20 phone found W7RGD logging and W7BSW operating. They were clocking right along.

W7AEA was pounding the key on 40 CW with K7ZVA logging. Signals were picking up..

10 phone, with W7RXS sitting at the mike and W7RXT taking a snooze waiting for the gib opening on the band.

Caught K7NPG napping at 40 phone. K7NKZ operating with K7OSN logging. K7OSM was just loafing around..

W7IKG was still having problems on 80 CW. His key clicks were tearing up all the other bands. A change of gear took care of that.

K7GPJ running the bug on 15 CW. Quite a hack in the back of W7IKG's truck.

Dinner was served at 5:00 p.m. with spagetti, potato salad, garlic bread, tossed green salad, coffee and lemonade. W7AZI, our cook, had it piping hot and served right on time. W7WLX was his willing helper. Comments through the dinner hour were coming too fast to get them all. We heard no complaints on the food but the garlic bread really got to everyone. Made it hard to get loggers that night.

65 were fed and sent back to their jobs.

We heard K7SSC tried to electrocute K7NKZ with a variac.

In the Indian wrestling contest Buddy Churchward beat K7AMJ and all the other girls in the cook shack.

Operations at midnight; 80 CW had plenty of help with W7IKG operating and K7GPJ logging. Loafing and drinking suds were K7MQJ and K7LXE.

K7DWT showed up around midnight to help 80 CW for an hour or so.

40 phone had K7OSN at the Mike and K7OSM logging. K7NPG and K7GPK were just loafing around.

K7AYC at the mike on 15 phone assisted by Marsha and K7PBF.

Down the run way the rest of the bands were hard at work and really making the contacts. 10 phone had folded up which was natural.

After a brief rest period for some, we all trotted over to have breakfast. Being half asleep but still willing to eat, K7CYZ ate so much he couldn't get off the bench.

Our chairman, W7COP exchanged a few words with W7WLX about being such a grouch.. K7CZF had tomato juice for breakfast. I wonder why.

Marge 8:40 goofen off after 3rd helping of chow. K7NQR and Faye Monroe went back for 3rds. 57 were served and no complaints were heard about our pancakes, eggs, bacon and ham.

9:00 a.m. Sunday found K7ATD swinging and the other 75 phone operators busy making contacts.

6 phone was dragging a little. Plenty of help though.

15 phone had K7AYC operating and K7AYD cleaning house trying to find K7AYC.

20 phone finally got a skip into California and they were really hopping logging two and three contacts a minute at times.

40 CW was going steady.

10 phone had W7RXS making the contacts while W7RXT was out strolling in her fancy pajamas.

80 CW with K7GPJ pounding brass and W7IKG sacked out on the bed and K7DWT on the floor.

A few hours earlier I found 20 CW dead with with the operators in the same condition.

40 phone still picking them out but a few of the ops were conked out here and there.

Dinner hour brought the flocks in to have another feast. Lots of pictures were taken and will be shown at a future meeting. 73 people had dinner.

The generator was shut down at 2:00 p.m. sharp and the quiet was deafening.. The mop-up operations started with the tearing down of antennas, rolling up of sleeping bags, picking up dishes and hauling garbage to the right places.

I forgot about the silly games of horse shoes which were playing Sunday a.m. Vivian Huntley and Petie Rawlings lost to Marge K7AMJ and Don Fuson.

This was one of our best field days and I'm sure everyone enjoyed themselves. See you all and many more next year.

—. . . —

A man visited a Seattle department store to buy a brassiere for his wife. "What kind do you want?" asked the salesgirl. "We have the Stalin, the Salvation Army and the Drew Pearson." Noticing that the man looked amazed, she explained, "The Stalin model uplifts the masses. The Salvation Army supports the fallen. And the Drew Pearson makes mountains out of molehills."

POETS RETREAT

THE BOWLERS

There is a group of screwballs
From the ranks of old DK
Who go out on Sunday morning
Just to bowl their time away

There's Ralph & Chuck, Merl and Dick
Just to name a few
Then there is the non-committed
Such as Bob and this author too

There's Wilma, Marge, Irene and Tyke
And Verna, bless her heart
And a few that I can't think of
Trying to tear the men apart.

They often are successfull
Much to our chagrin
But we figure there'll be a next time
So we take it on the chin

The coffee's hot the jokes are stale
And the low scorers suffer pains
But come on you would-be bowlers
We'll see you at the lanes

UPPER LIMITS

Hi again. . .

Hope you VHF'ers have been having fun with all the DX that has been on 10, 6 and 2 meters.

I haven't heard (or seen) of any 420MC TV signals on yet, even after the swell talk we had at the club meeting last month.

Jim K7TVO, is building a new rig. When are we going to hear it Jim? Better hurry the DX won't last long.

Where was everybody last Wednesday at 7:30? Just 3 stations checked into the C-D net on 6 meters am. W7CZK, K7AYD and myself.. Hope we do better next time.

A few of the six meter gang spent last Sunday putting up the beam for field day. After the beam was up, we spent the rest of the day loafing and pitching horse shoes at Ohop Point on Ohop Lake. Those taking part were: Dwayne K7KSZ, Pattie K7NQR and kids, Rich K7ONA and family, Roy K7USF and family, K7ATD Smitty and family, Scotty K7CYZ and family, Glenn W7CMZ and wife Sis, Bob and Barbara Smith and family and Tom and Jackie Martin and family. Everyone had a good time and the eats were just dandy. We also had a talk with Joe W7IG after the beam was up and tested.

See all of you on Field Day. Good luck and good DX'ing.

. . . Scotty K7CYZ

—. . . —

P S C R C

The Puget Sound Council held its monthly meeting June 12th at the Tacoma Red Cross Building.

The meeting started with a discussion and report on the banquet. Everyone considered it a success including the financing. The treasurer reported a net gain of $1.50. This amount would hardly support the council but at least it won't cost the council anything.

A long discussion on the date of the next banquet. was held.. The members were requested to check with their individual clubs and come back with some ideas.. It was decided that a different date might help to get a better attendance.. This year there were 112 attending.

EDITORIAL

The staff of the "Loggers Bark" is proud to announce that beginning with this issue a new and we hope better newspaper will be mailed to all members of the club and to all others concerned.

We are undertaking a new venture in the printing of our paper and like all new ventures, problems are certain to arise. We feel, however, with the cooperation of the club and the competent staff, the problems will be resolved as they occur.

Full details of this new undertaking will be presented to the club at the July 22nd meeting so all members can air their views on the merits of this new project.

Depending on the generosity of others should certainly be the exception rather than the rule and past issues have been possible only because of the above factor. We feel this method should be curtailed and we should try to stand on our own feet.

As stated above,, obstacles will have to be overcome but if we all do our part, surely our paper will be a success.

—. . . —

Subscriptions are still $1.00 per year and with this new and improved paper I'm sure we can sell this paper to other hams in the area. Lets see how many we can get to subscribe. . . . .

—. . . —

HORSE SHOE TOURNAMENT

The newspaper staff is going to sponsor a horse shoe contest this year at the two annual picnics.. The preliminaries will be held at Deweys up on Hood Canal and the finals at Churchward's on Fox Island. We will use tournament scoring. Come try your skill (or luck) at Dewey's and try for the finals. A trophy will be presented to the top men and the top ladies!! This should be fun for anyone who is game enough to try. Pick your partners and let's see who can win.

HAMFESTS & PICNICS

THE WARTS NET picnic will be held at American River Lodge on Chinook Pass July 11th and 12th. Good weather has been ordered.

GLACIER PARK International Hamfest (Montana) will be held July 18th & 19th.

CONCUNULLY STATE PARK (near Omak) International Hamfest will be July 25th and 26th.

COLUMBIA BASIN Net Hamfest will be held at Rustic Inn near Snoqualmie Pass August 8th and 9th.

– . . . –

DK CLUB PICNICS

The club has again been graciously invited to have our annual picnic at Dewey's W7HF on beautiful Hoods Canal. Bring the family and your swim suits because this will be held on the hottest Sunday in August, the 2nd.

The annual Fox Island picnic will be held at Churchward's on August 23. We also guarantee wonderful weather for this picnic. Come prepared to join or root for the finals in the horseshoe tournament.

– . . . –

ANTENNA PARTY

The Field Day Antenna Party was one of the most successful ones held. All the low band antennas were raised with little or no difficulty and plenty of time was left for a little fun!

We had a good lunch the ladies prepared for all. We also had a few drops of rain but they were welcome. It sort of settled the dust down.

Dick K7MQJ tried his hand at climbing the poles and gave us all a big laugh. He put on the spurs and went up but had to yell for help to get back down. Some guys will try anything once.

After the work was completed some of the old men tried to run competition with the young boys in a game of baseball. This was quite a sight. When the ball was hit, they all just layed down in the field so they wouldn't get hit. It was a game of work up and if the kids hadn't felt sorry for the fellas they'd still be out in left field. Playing in this great fame were; Bob W7RXS, Ralph W7COP, Dick W7RGD, Merl W7IKG, Beryl K7NPG amd Lyle K7NHI. The young fellows were: Jackie Elliot, Rusty Hood, Buddy Churchward and Paul Rawlings. I guess it's alright to play after the works done but the men were layed up for 3 days with their arms in slings.

There were 23 members there to help do the work and a special thanks go to those who were there.

W7COP

CHIPS FROM 29.6

We have some old familiar mobile calls on this frequency again. Welcome back Tom W7FUL. You better get the receiver on frequency though. And also real good to hear Doc K7AYD buzzing around town. We have heard that a few more plan to get on and make themselves known.

The band openings on 10 have been from all call areas except the New England area. This writer has worked several stations in various parts of the country on the old ground plane and the pair of weak 807'S.

Signals have been good and even QRM has popped up. Sounds like the old days!

Thats it for this time, we'll see you next month.

73's _ . . . _ W71KG

SLIVERS AND SPLINTERS

The Nashes, Bob and Sue, are roaming around the country side on their vacation. We worked them on 20 meters SSB the Friday night before field day. I hope they have a safe trip and a few nice days of weather.

Doc W70S and his XYL Helen are in Connecticut visiting a new grandson.

Our ex-president Chuck W7PWN is a proud new papa again. A baby girl named Maridy Jill. Congratulations to Chuck and Phyllis.

Doc K7AYD is hobbling around on a bum ankle. The story right from the horses mouth is, he slipped on the olive pits under the bar. How about that?

Jim K7GPJ is home for the summer vacation after a hard year at M.I.T. Welcome home Jim. I hope we have some nice weather so you can brag about our country when you go back.

Al Stenso K7LV brought his new bride to the May club meeting and introduced her to the members. They made a happy looking couple.

This is a short column this month due to Field Day.

88's K7AMJ

– . . . –

Many thanks to all for a real fine Field Day excursion this year. From the officers and the board of the Radio Club of Tacoma we sincerely wish to thank each and everyone who made this operation successful. There were rough edges to be sure, a few difficulties on some of the bands (mine to be sure - as always) but I'm sure that everyone had a good time.

Again many thanks to all who paritcipated.

. . . . . President W7IKG

F.C.C. BULLETIN

OFFICIAL BULLETIN NR 961. The U.S. court of appeals for the seventh circuit in Chicago on July 10 issued it's decision that the imposition of application fees by FCC is lawful and that amateurs are not exempt from the fees even though public service is rendered and there is no pecuniary value to the amateur service. The court's decision came in a suit against the FCC participated in by fourteen organizations, including ARRL. Unless there is an appeal or action by congress, the application fees may therefore be regarded as permanent. Further information will appear in September QST.

FIELD DAY RESULTS

I would like to report that field day was a whopping success this year and thank everyone for their fine cooperation. Below are the results of this years field day score and also last years score for a comparison. The results look very encouraging.

BAND	1963	1964
6 meter phone	177	151
10 " "	142	77
15 " "	234	247
15 " c-w	111	86
20 " phone	446	678
40 " c-w	231	237
40 " phone	316	292
75 " phone	249	396
80 " c-w	106	161
Claimed score	17517	18201
stations worked	2292	2532

The cooks gave a report on our field day food and considering the quality and quantity of the meal I think they did very good. They served 193 meals to those hungry souls up there. They had $14.20 plus $10.30 from the aux. to return to the treasurer. This made each meal cost 12¢ per plate. You sure can't beat that price.

Our cook and his helper should have a big vote of thanks!!

I'm sure everyone had a good time and it was a great pleasure working with all of you.....Ralph W7COP, field day chairman.

—. . . —

We want to extend our sincere sympathy to Don K7QLC who's mother passed away recently.

THE LODGERS LIBRARY

EDITORIAL

The staff of "The Loggers Bark" enjoy putting this paper together with the hope that it is enjoyed by all who receive it and/or read it.

Pleas have been made at the club meeting for members to present material to the paper for publication but the results to date have been very discouraging.

It is difficult indeed to present a worthwhile publication when material is scarce and far between. Consequently the burden falls on a few and our paper is not what it could be if more material were turned in by the rank and file.

—. . . —

UPPER LIMITS

The VHF activity has slowed down since field day. The openings into the east didn't last as predicted but the summer is not over yet. (we hope)

There is an upturn in interest in ham T-V. Looks as though we may have some 432 sigs. On around the Puget Sound soon.

K7EEK has been keeping the 2 meter band hopping, at least from Vancouver B.C. to Tacoma.

We will have some 6 and maybe 2 meter rigs on the picnics at Dewey's and Churchward's, so you who can't make it, keep your ears open for sigs from Hoods Canal and Fox Island. Maybe I can give you a shoe by shoe run down on the horse-shoe tournament.

Some of the gang met at Dwayne & Patty's K7KSZ-K7NQR to celebrate the birthday and anniversary of two of our non-ham members, Mr. & Mrs. Dick Hazelmeyer. Attending were Roy K7USF and XYL Faye, Gene K7EEK and XYL Hazel, Scotty K7CYZ and XYL Vivian. The cake, ice cream and coffee were swell. The gathering was held after the last club meeting July 22nd.

That is my alotted space for this time, so see you next month. . . . .Scotty K7CYZ

—. . . —

---BAKE SALE---

Don't forget the Bake Sale during the auction on Sept. 8th. Lets show the ladies how well we like their cooking by taking home some of the delicious bake goods they will have there. Start saving your quarters and dimes for this great event.

LADIES LADIES LADIES

We are holding a rummage sale at the club house this year in Sept. This will be a little different than before but none the same we hope to have a good turn out! Bring your rummage to the club house or call Marge K7AMJ and she will be glad to pick it up. If you care to work on this sign up early so you won't be left out. Save your rags also, they are worth cash to us!!

THE POETS RETREAT

A Daughters point of view

My pop is pres. of Radio Club,
My mom is sec. of bowling.
So I never get much time with either,
Unless they both start rolling.

Pop's and Mom's hamshack is under the stairs,
So think of the racket they make,
And it's not until they're off the air,
Do I take off my earmuffs, for safty's sake.

And T.V.I. Oh! what a mess.
With the neighbors and all their complaints,
But Pop does nothing but act real calm,
And they would think he was one of the saints.

So now you have seen my point of view
Of my Dad and his clunky old rig,
And to get his hand on all the junk,
Is something I don't dig.

. . . .Marie Chavis

—. . . —

SLIVERS AND SPLINTERS

Jim Keselbert K7WUH got his General class ticket. To late for field day but appreciated just the same. Keep up your c-w for next Field Day Jim.

Our sympathy goes out to poor Irene Koth, who ran a nail in her foot. Some women will do anything to get out of work.

Ralph W7COP had a sport car in his lawn a few days ago. One of these days they'll drive in for coffee.

Doc K7AYD took a trip to California. Must be resting up from his Geoduck hunting trip with Roy W7AZI.

Beryl K7NPG tangled with a car on his way to get a quart of ice cream. It turned out to be a pretty expensive dish of ice cream.

Jackie and Tom Martin will be celebrating their 23rd wedding anniversary on the 23rd of this month.. Congratulations and we hope for another 23 for you.

Speaking of anniversaries. Dick Hazelmeyer treated his wife to a show on their big day. The only reason was he had two free passes. These boys!

Jerry W5YFS and family are touring around the state hitting all the hamfests. We hope he has a full report for the next issue.

Vivian and Scotty K7CYZ attended a class reunion at Centralia last week-end and one of Vivian's old class mates who was chairman of the affair is Bob W7ECX who is also secretary to the Puget Sound Council. It's a small world among us hams.

See you next issue.

. . . .88's K7AMJ

HORSESHOE TOURNEMENT

Entry fee . . . . 25¢ per person
Game . . . . . 21 points
There will be two tournements. One at Dewey's and one at Churchward's. The winners of each tournement will meet in a play-off of the best 2 out of 3 games at a future date. Date and place to be announced at the last club meeting in August. There will be a ladies and mens trophy for each tournement and a grand trophy for ladies and met at the grand play-off. Judges will be Marge K7AMJ, Dick W7RGD and Scotty K7CYZ. Judges word will be final! Pit and scoring rules will be as per National Horseshoe Pitchers Association of America.

SCORING RULES

A shoe must be within six (6) inches of the stake to score.
Closest shoe to stake scores . . . . . 1 point
Two shoes closer than opponents . . . 2 points
One ringer scores . . . . . 3 points
Two ringers scores. . . . . 6 points
One ringer and closest shoe of same player scores 4 points
Party having two ringers against one for opponent 3 points
All equals count as ties and no points are scored
In case each contestant has a ringer,
The next closest shoe, if within six inches, scores 1 point
A leaning shoe has no value over one touching the stake.

Partners will be picked by drawing from the hat. Come one - come all - see you at the pits.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

L 1 NR 9 SEPTEMBER 1964 29.6 – 51.0

PROGRAMS FOR SEPTEMBER

Vice President, Jerry W5YFS, has announced (what we think should be) two very good programs following the next 2 regular meetings at the club house.

The first meeting, on Sept. 9th, will be followed by a club auction. Actually this will be two auctions on one night. The first will be ham parts and equipment. Everything from tubes to teletype equipment. The club members are requested and urged to bring along your own equipment or parts to put up at the auction.

The second part of the auction will be a bake sale. The gals will have all their goodies up for auction. If you remember the last one we had everything from cookies up to cakes and pies.

Remember the highest bidder on both auctions gets to take home the goodies. Oh yes! Don't forget the pocket book.

The second meeting, on Sept. 23, will be followed by a guest speaker, Harold Todd W7ZXM from Seattle. Harold is the leader of the amateurs in Seattle who are working with the Amateur satellite program. He will give an extremely fascinating talk about the OSCAR III Satellite scheduled for launching late this year.

So what ever you do this month, don't miss these two programs at the club house following the regular business meetings.

P.S.C.A.R.C.

The 44th meeting of the Council was held at W7DK's. The minutes of the previous meeting were read and corrected.

8 of the 13 clubs were represented, which constituted a quorum. The treasurer reported $71.15 on hand. A discussion was held regarding the date to set for the next council banquet. Nothing was decided but lot of different suggestions came up.

John W7MEU made a motion the committee on the ARRL convention be cancelled. Herb K7GEX seconded. The motion passed 7 to 1.

A discussion was kicked around regarding programs for the clubs to use for the informal periods following meetings.

The meeting adjourned at 10:10 p.m. with cookies and coffee following. The next meeting to be held August 28 at the Handcrest Building 3314-4th Ave. South Seattle. This is 4th and Hinds, 1 block north of Spokane Street.

.....W7RGD

CLUB BLOOD BANK

At the last club meeting August 26th a request for blood was made by Emil K7GPK on behalf of Margie K7AMJ, whose mother has been seriously ill for some time and in need of blood.

Roy W7AZI, who is the club's appointed blood bank chairman, advised the club's account at the Pierce County blood bank was closed off since it hasn't had a credit in some time. Roy requested the Logger put a notice out to all of the regular donors and those others who are fortunate enough to be able to donate to contact him and help to alleviate the situation and build up a few pints of blood ahead for future needs. If you do go direct to the Pierce County blood bank be sure and specify that it is for the Radio Club of Tacoma. They in turn will notify Roy of a credit as soon as it exists.

It has been over a year since the club has needed any blood or called for same, so let's turn out and get a needed job done.

AMATEUR RADIO COURSE

The Tacoma Vocational-Technical Institute will start a course for the beginner who wishes to obtain a novice or general class license. The course will include radio theory, code, FCC regulations and operating procedures. Length of course is 18 weeks. The cost is $8.50 for each 9 weeks. First class will be on September 10 and will meet on Tuesdays and Thursdays from 7 to 10 p.m. Sign up at the school at 11th and Yakima Streets before September 10. Sign up for "Communications I".

MENS BOWLING TEAM

The mens bowling team will be turning out for their first league play on Tuesday evening at the Bowlero lanes at 8:45 p.m. That will be on September the 1st. The picture shows the complete two teams minus Max W7AEA and Tom W7FUL.

In the picture are left to right: Doc K7AYD, Bob W7RXS, Merl W7IKG, Cliff W7MFG, Smitty K7ATD, Chuck K7ETT, Dick W7RGD, Ralph W7COP and Tom Martin.

Doc K7AYD will be a substitute bowler along with Dick's brother and dad and Ralph's neighbor Jack. The teams would sure like to see some rooters out helping the teams on any Tuesday night you have free.

PICNIC NEWS

August was picnic month for DK. Two of the annual picnics, Dewey's and Churchward's, were big successes again as usual. Churchward's, on Fox Island, drew 72 people. Dewey's, on the Canal, attracted 52. The weather on Fox Island beat the Hood Canal by about 30 degrees. The food was "the tops" at both places. The biggest attraction, aside from the food and gals in bathing suits, was the horseshoe tournament sponsored by the Loggers staff. After a full stomach and about five hours on two courts the final results are: Hazel, xyl of Gene K7EEK and Scotty K7CYX came through the day unbeaten.

Everyone enjoyed themselves immensely. The weather held until the end of the tournament, then the rains came.

We had a good time Dewey, thanks a million and we are all looking forward to next years visit with Dewey W7HF on Hood Canal.

The Churchward's picnic, on Fox Island, took first prize on the weather. One of the best days this summer. Again, except for the wonderful food, horseshoes topped the day. After another five hours of pitching, Lavern K7NKZ and Tom Martin came through on top. Max W7AEA tried to claim 2 points for ringing Irene's leg and Jerry W5YFS wanted 5 points extra for getting his shoe in the opposite court. Sorry Jerry you have to stay in your own court.

We want to thank Inez and Bob Churchward for the wonderful time all of us had as their guests. Bob, the courts were in fine shape. We know you spent long hours on them and we appreciate your hospitality. We are also looking forward to next year's day on Fox Island.

Now to Joe's W7IG for the final pay-off. That will be September 6. Come one, come all. Bring a lunch, pot luck as usual, and watch the winners of the two tournaments play-off for the W7DK's champs. Sudden death it will be. The two out of three type. The contestants are Lavern and Tom, the Fox Island champs and Hazel and Scotty, the Hood Canal champs. Come and support your favorite and after the club champs are established we have another little contest that will interest the ladies.

Here it is. A ladies ringer pitching contest. Here is the way it goes. Entree fee 25¢; 16 shoes and we count ringers only. In case of a tie you get 4 shoes at a time until the tie is broken. So come on you gals and get a first, second or third prize.

We should have some time left for some grudge games. Don't forget the place is Joe and Helens chicken ranch. The time, as early as you wish. The day is Sunday Sept. 6. Let's have a good crowd. Oh! yes. The trophy's for all the tournaments will be presented to the luck winners at the regular W7DK club meeting September 23.

------- Scotty K7CYZ

PINOCHLE

Pinochle players attention!! Don't forget Pinochle starts September 26 at the club house at 8 p.m. The session will run for nine months and trophies are awarded to the top man and woman.

There is a potluck lunch when everyone is through playing cards so bring a dish and come up to the Pinochle games.

A.R.R.L. BULLETINS

NR 964

Through an unfortunate error, figure 3C, page 53 of August 1964 QST, shows the white and green wires incorrectly connected to the transformer and shield. This is hazardous because the safety ground wire should not carry current. The white wire should go to the lower end of the transformer winding and the green wire to the shield. Please correct the circuit in your copy. A revised diagram will appear in September QST AR

NR 965

All amateurs are invited to participate in the ARRL September frequency measuring test, Sept. 10th. Signals for measurement will be sent simultaneously from W1AW 0130 GMT September 10 on approximately 3505, 7403 and 14,048 KC., and at 0430 GMT on approximately 3512, 7022 and 14,080 KC. Complete details will appear on page 102 of September QST. With increasing needs to observe and rectify signal deficiencies to promote clean operation on amateur bands, SCM's invite experienced amateurs to apply for official observer positions AR

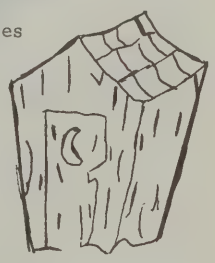

NR 966

The annual simulated emergency test will be held October 3 and 4. All ARPSC amateurs, both in AREC and NTS, are urged to participate in local exercises and nationwide traffic handling activities involving traffic for the Red Cross, Civil Defense and other agencies. Much ARRL administrative traffic will also be flowing through regular traffic channels. ARRL precedence designations will be in use. Your local emergency coordinator will soon receive full details and additional information will appear in October QST. If you want to be a part of this nationwide demonstration of amateur radio public service facilities, contact your emergency coordinator now and sign up in the AREC so you can be worked into the plans AR

POET'S RETREAT

The horseshoe players took their stance
The U-shaped irons flew
Some went wild all over the place
And others ones went true.

Ringers were made and ringers were lost
As the players battled it out
And the hollering from the side lines
Put the throwers on the spot.

They pitched at Dewey's picnic
On a cold and nasty day
Then all went out to Churchward's
Where the sun was bright and gay

The winners had their pictures took
By Ryan with his lens
His camera hasn't worked right since
Because it got the bends.

The play-off is at Asplund's place
Up near Mt. Rainier
On the sixth day of September
Let's hope the weather's clear.

HUNTING WALLPAPER

Every new ham likes to get QSL cards, as proof that he has made contacts. As time goes on, and he accumulates a great number of cards, he finds that it is expensive, and his next thought is to make his contacts accomplish something. The novelty of just accumulating cards has worn off, and he becomes interested in wallpaper. The new ham might think that wallpaper was just the cards, but wallpaper is now generally understood to mean "Certificates of Accomplishment".

There are hundreds of different certificates, some of them very distinctive and beautiful, some easy and others very difficult to earn, and of course nobody has them all, so that his search for more Wallpaper never ends.

Probably the most sought after Certificate is the "DXCC" - worked one hundred different countries (with QSL cards to confirm them). This is put out by the ARRL and an additional seal is given for every ten additional countries. Some hams do practically nothing else but hunt new countries for DXCC, and a select list is shown every month in QST who have confirmed over 300 different countries.

There is no question about it, making a contact with a new country is one of the biggest thrills in amateur radio. Real DX hounds frequently sit up half the night just listening for a new country. This sounds like it takes a big power house transmitter with lots of other expensive gear to hunt for certificates.

Not so! There are a number of Certificates that a new Wallpaper Hunter can start with, that are relatively easy to get in this area, and they make awfully nice decorations on the ham shack wall.

The first certificate most people acquire is the "Rag Chewers Certificate". It is necessary to "chew the rag" for at least a half hour with another member who has a certificate. You should report the conversation by card (show date, time and call) to the Rag Chewers Club c/o ARRL, Newington, Conn. Ask the RCC member to do the same, independently. After the reports are matched you will be sent a certificate.

Another certificate you should have is our own "Loggers Certificate". Contact any 10 active members of the Radio Club of Tacoma on any frequency. Give the list of contacts and dates to the 10th person contacted, or the list may be sent to

Barbara Osborne W7UYL
1825 So. Bennett Street
Tacoma, Wash. 98465

Each time you contact 10 more members, send them in, the same way for an additional seal.

The Mike and Key Club of South Seattle has a certificate for contacting 5 members of the club. Send a list of the contacts with dates to

Pop Brown, K7LED
19687 Military Road
Seattle, Wash. 98188

The Tacoma Amateur Radio Society has a "Sunshine Sticker" for contacting 5 members when it is raining. Send list and dates to

Ralph Westgrund W7IJJ
2106 So. "K" St.
Tacoma, Wash.

The Fort Lewis Amateur Radio Club has a FLAM Certificate. Contact 5 members and send calls and dates to

Post Signal Officer K7WAT
Fort Lewis, Wash.

These simpler certificates are all available to holders of novice, technician and general licenses. In writing for a certificate you should always enclose a legal sized stamped, self addressed envelope. These should keep you busy for a while.

More Next month.
Ed K7CZM

W7ATB and W7AZI each contributed a dollar to the Loggers Bark in appreciation for the birthday greeting in last month's issue. Thanks fellows and may you each have many more birthdays to celebrate.

We, of the Loggers staff, would like to give out with a large bark of appreciation to Max W7AEA for his voluntary contribution to the financial status of the newspaper.

So many things going on this month I haven't had time to ham. Some DX has been coming through and still is. Nothing to get ga-ga over but you new-comers probably will get a little excited over them.

Yes this month was a busy one. Two camping trips, two picnic's and two 2-11 fires on top of the regular transmitter hunts.

First was the camping trip to Ft. Flageler with the six meter gang, then over to Dewey's on Hood Canal with all of you and the start of the horse shoe tournament. (I won't brag about Hazel and I) Then down to lake Quinalt on another camping trip with the six meter bunch. Then to Fox Island for another grand picnic (as usual) and the second horse shoe tournament. This one was won by Laverne K7NKZ and Tom Martin who have to play Hazel and I at Joe's W7IG Sunday September 6. Here is a warning to Tom and Laverne, "Hazel and I are unbeaten."

The first 2-11 fire was on the tide flats, with Ralph W7COP, Smitty K7ATD and Dwayne K7KSZ turning out with mobiles and the bus. Pattie K7NQR, Roy K7USF, Ritchie K7ONA and myself stood by in case they needed more help. The second 2-11 was at the Pt. Defiance Park. Smitty K7ATD, Dwayne K7KSZ, Merl W7IKG and myself turned out in mobiles. Ralph W7COP got sent back with the CD bus almost before he started. Again Pattie K7NQR, Roy K7USF and Dick K7ITX on stand-by at home.

Sorry I didn't list all of you by name and call letters who were at the picnics and camping trips but we don't have ths space.

See you next month.

SLIVERS AND SPLINTERS

This column will be short this month since most of the news of happenings to members has been reported on in the other articles.

Ralph W7COP is still busy working on the new house over on the penninsula. His oldest boy is starting to build a home now too up near Cliffs W7MFG and it looks like Ralph will have a never ending job.

Our editor, Emil K7GPK, is also working like mad in between the rain and lousy weather on his house. Won't be long and he will be able to move upstairs. Even the XYL Irene has been known to drive a few nails in between her practice sessions out on the horseshoe pits.

There was an antenna working party out at Phil's W7AQB a few weeks ago and Doc Kohler was up on the triax tower getting ready to lower it. He removed the dogs in preparation to lowering it when the tower started down. Doc's hand got caught and he ended up with having to have 14 stitches put in his hand. Later after that mishap, while trying to lower it again, the cable snapped and down came the tower. They haven't given up yet though are scheduling another antenna party this Sunday August 30th. Good luck fellows!

The reason Phil wasn't on the tower was because he is on crutches. Seems he fell out of the boat previous to the antenna episode and the prop struck his foot and cut a tendon. Has the foot in a cast now.

Our president has been shopping around for equipment for printing our newspaper. We want to keep the quality of the present newspaper up but still trying to get the cost down. If any members have equipment or ideas we are still open for suggestions and help.

If any of you members have news items or articles you want in the paper please contact one of the members of the newspaper and we will incorporate it in this section or even put the article in with a byline for you.

We have received information that two of our club members received "public service awards" certificates from ARRL for their part in the emergency communications in the Alaska earthquake. Ed K7CZM and Merl W7IKG received the awards. Possibly more were sent to this area but if so they have failed to communicate this information to the Logger. How about it fellows who are you? We know that Don K7DWT was active in the first few hours.

That's about it for this month.

Don't forget to let us know what is going on around your QTH or even you fellow ham neighbor.

AUCTION SALES

The Auction Sale, the club sponsored on the 9th of September seemed to have been a success with a large turn out of members and visitors.

The take was $98.00 that will go to the club for whatever purpose the members propose to do with it. Items were auctioned off at 25¢ and up.

Roy W7AZI, was the auctioneer and he was trying to squeeze the last nickel out of everyone there. But time ran out and at 11 o'clock the sale had to be called off with items still waiting to be auctioned. We hope everyone had a good time.

...K7CYZ

BLOOD BANK

Roy W7AZI, reports that the blood bank is getting low. Anyone wishing to donate blood can do so by reporting to the blood bank at South 12th and K street. Be sure to tell them to credit the donation to the Radio Club of Tacoma, Inc. Roy also wishes to tell you hams or interested donators in other cities, reading our paper, that you can donate to our blood supply by reporting to your local blood bank or hospital and ask them to credit it to the above account. The Tacoma Blood Bank mobile unit makes trips to outlying citys in Pierce and South King County. You can check your local papers for the time and place. Next issue we will have a list of cities and the date and location of this mobile unit. If you donate to this bank, let Roy or I know and we will see that you get your name in this column. This blood is available to radio amateurs and their families. Roy Devish, 1330 East 64th, GR 2-4213 is the one to call. We need the blood and ask you to give as much as you can.

...Scotty K7CYZ

A.R.E.C.

Ken K7PXG announces that the Western Wash. Arec Net meets every Monday night at 8:00PM on 50.85MCS.

Arec members or interested persons are urged to check in.

OSCAR III

Our last meeting was visited by two very interesting speakers from Seattle, Harold Todd W7ZXM and
Both are prominent workers with the Seattle section of the Oscar III Project. They gave us a very thorough run down on the part the Seattle gang is planning for the day Oscar III is launched. They also gave us a demonstration on two meter Slow-Scan T-V. The gear will be used for tracking and for relaying signals via Oscar III. I believe they may have recruited some Slow-Scan fans and I know that they will have some Tacoma monitoring stations.

Good luck to the Seattle Hams in this project. We wish you good searching.

...Scotty K7CYZ

OCTOBER MEETINGS

The first meeting in October will be a resistor hunt on the 14th. If you have never attended one of these, bring a warm coat and a flash light and it's really a lot of fun.

The second meeting, on the 23rd, will be a drawing for a Brazer. Save your tickets from each meeting until then.

Folks we do need more advertizers. Who can help us!!? Come on out and get us some money to run this paper on. If you have anyone in mind, call W7RGD, MA 7-0922.

P.S.C.A.R.C.

The August meeting was held at the Handcrest Building in Seattle. A brief on the Minutes follows.

Only 3 Clubs have turned in their interference committee forms and several more were hurriedly made up and presented. The balance of these must be in by the next meeting. (The Tacoma Radio Club's report will be turned in at the Sept. meeting on the 25th)

Hughes asked if the Handcrest Building would be available as a permanent meeting place. Bill K7GQJ advised that it was and members oked it.

Bill K7GQJ said Helen K7HSD would start an on the air code practice on 21.120MC, 1830 PDT, Sept. 13 Sunday thru Wednesday for about 40 minutes.

Bill K7GQJ suggested we send the minutes to all clubs in the area with an open invitation for them to attend and for all delegates to try harder to get the regular member clubs to attend.

Fred W7EJD brought up call plates. W7HMJ from Olympia is to check with the License Department on current procedure and if they are putting a dash or leaving a space in plates.

A letter from the Regional Office of The Department of Health, Education and Welfare concerning setting up amateur radio back-up communications was read and discussed. Bud W7HMQ made motion the Secretary and President draft a letter to John Huntoon of ARRL, sending a copy of HEW letter, asking the leagues views on it. Fred W7EJD seconded and motion was passed.

The next meeting will be Sept 25 8PM at the Handcrest Building, 3314-4th Ave. South. Visitors always welcomed.

. . . . . W7RGD

THANKS

As a special thank you for the hospitality shown W7DK on field day, the club voted to buy Helen a gift. The committee selected a lovely brown hand-bag to present her with our whole--hearted appreciation. We figured Joe W7IG could keep it full for her. Thanks Helen and Joe.

...W7DK

I would like to write a special thank you to all who contributed to the Orthopedic in my mother's memory.

A special thank you also to Emil K7GPK who had donated 4 pints of blood throughout my mother's illness, to keep the supply up that she needed.

...Margie K7AMJ

RUMMAGE SALE

The ladies of the womans bowling league are holding a rummage sale at the Club House on October 7. There are some real fine bargains here folks. Come get your new Fall wardrobe.

The sale starts at 9:30 and will run until 8:00 or 9:00 if we have customers. The auxilliary meeting will follow.

Don't forget, ladies, we sell rags also; so give us a call, GR 5-2241, or JU 8-4669. Thanks.

A.R.R.L. BULLETINS

NR 969

United States amateurs are again reminded that the following countries object to communications between their amateurs and those of other countries. Cambodia, Indonesia, Veit Nam and Thailand forbid such radio communications. The prefixes to avoid are XU PK JZ 3W8 and HS.

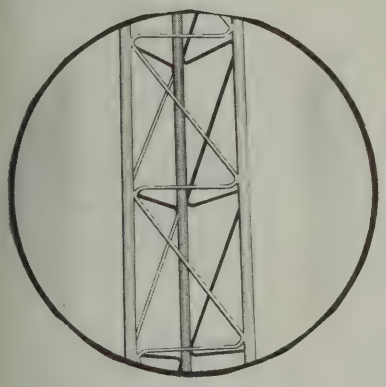

NR 970

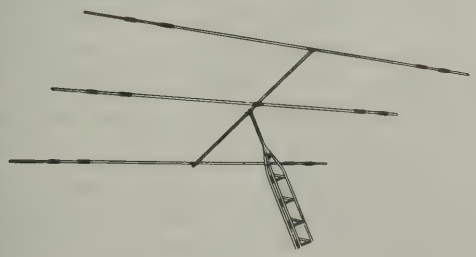

The Federal Communications Commission will no longer return expired or superseded license cards to amateurs. FCC feels that a copy of the old document must remain attached to the application for it's replacement to insure completeness and accuracy. However, the Commission recognizes that many amateurs wish to maintain complete files of their licenses. Accordingly, FCC will accept a photocopy of your license attached to a Form 610 application, in lieu of the original..

A couple more 2-11 fires headline the doings on six and above gang this month.. Although only 2 mobiles were used, there were quite a few standing by at home for action if needed. Mel K7ATF was bus driver while Smitty K7ATD, and Dwayne K7KSZ were at the scene with mobiles.. Patty K7NQR, was at her usual station as relay. Roy K7USF, Dick K7ITX, Betty K7ITY, Ken K7KRD, Rich K7ONA and ScottyK7CYZ were standing by with mobiles and fixed stations.

The bus rolled again a few days later when a light plane went through a house roof. No mobiles were called out but K7KSZ, K7NQ and K7CYZ were at the scene. Dick W7RGD, was the driver and Smitty K7ATD, and Rick W7GTP were aboard as operators. Smitty activated the emergency nets but no help was needed.

The transmitter hunts on 51mc are still going strong. Smitty and I are neck and neck with 3 wins. Ken is pushing us hard with 2 wins.

That's all for this time. See you next month.

...Scotty K7CYZ

MENS BOWLING

As the Fall Season is upon us the Bowling Season is in full swing. The Radio Club has two Mens Teams to knock the pins down with. At press time the teams have bowled a total of three games.

The first night out, Team One bowled up a storm and set some pretty high averages. Thus they have to spot the other teams quite a few pins. Team Two started out with a lower average but has been steadily bringing it up.

The second night of bowling saw the two teams bowling opposite each other. Team Two won them after a hard fought battle. The rooting section had a hard time figuring out who to root for.

At the present time Team One is at the bottom of the list, while TeamTwo is in First Place.

Team One consists of; W7IKG, W7RXS, W7COP, K7ATD and Tom Martin.

Team Two consists of; W7ETT, W7AEA, W7RGD, W7FUL and W7MFG. Also substituting for Team Two have been W7RGD's Dad and Brother. The Team Captain W7ETT is going to have to leave the Team. A bid has been made for Jimmy Churchward to join and keep the ranks filled

Don't forget that we bowl on Tuesday nights at 8:45PM and would lide to see the Gang out to watch if you have a free evening.

PICNIC REPORTS

The picnic at the Asplunds for the horseshoe nals was a real success with a large turn out and enty of good food.

The play-offs for 1st and 2nd place were a real ntest between Laverne and Tom against Hazel and cotty. 2 out of 3 games were needed and Scotty d Hazel won the first two games and placed them s winners.

The ringer contest for the women was fun for me but pretty frustrating for others. Irene Koth ok 1st place with 4 ringers. Hazel Welcome 2nd ith 3. Helen Asplund with 2. Honorable mention ith 1 ringer were Rene, Mchiko and Vivian. Crying ars were: Margie, Laverne, Marge, Jackie, Betty d Vallie Davis. M.J. withdrew from the competition.

Next year we will have a bigger and better one lks. In the meantime, Tom Martin and Scotty will hallenge all comers in Team play.

...K7AMJ

Sore losers would!t you say ?

SLIVERS AND SPLINTERS

Art, W7JGN bought 2 cakes and plenty of cookies at the Bake Sale. He said he had about 20 girls to feed! You hear suprises every day!

Steve, K7SSC sat and ate the pie he bought at the Bake Sale, during the Auction. He offered to sell it at 10¢ a bite.

Bob, K7ZVA and XYL Kay took a trip to Canada. Had a good time I hear.

K7EEK'S XYL Hazel seems to have secret admirers who leave her bottles of Wine. Better watch her closer Gene.

The Smith's K7ATD added a new member to their family lately. A Son-in-Law. Lots of happiness to you Linda and Gary.

Our President W7IkG came home from the Lewis's K7KSZ'S with a split eyebrow that required a couple of stitches. Said he ran into a door! What did you use Patty, a frying pan?

Welcome home to Jimmy Churchward. He's willing to join any of the bowling teams if there are any drop.outs. Which one do you want on Jimmy? The womens or the mens?

Roy W7AZI is back on 29.6. Time to sharpen our receivers and give him a shout.
88'S K7AMJ

POETS RETREAT

My life seemed lonely as could be.
"Oh, empty silence you are through,"
I said and threw a tiny key,
That opened space I called "CQ".

"CQ - CQ" my signal went,
"Come in, my friend, let's chat awhile.
A swift response was quickly sent
From some sharp "ham" across the miles.

Exchange of thoughts continued then
And time stood still and cares all fled
As to this distant unseen friend
I bared my heart; lost silence dread.

My world enlarges, friendships grow.
I'm debtor for life to "Ham" Radio.

A.R.R.L. BULLETINS

R 974

The GMT dates for the Annual Sweepstakes in 64 are November 15, PHONE and November 22, W. This year PHONE and CW are being held on parate weekends with a full 24 hour period for ch mode. The exchange information will follow t used last year and will once again be explained full in November QST. Log forms and operating l NR 6 to avoid duplicating QSOS are available thout charge from the ARRL Communications partment, 225 Main Street, Newington, nnecticut.

R 973

FCC has issued a notice of proposed rulemaking ich would limit the eligibility for the nditional Class License to applicants residing re than 175 miles from an FCC District Office a quarterly or semiannual examining point. Present nditional licensees would not be affected, nor uld eligibility of handicapped or overseas personnel. e date for filing comments on this proposal is vember 16. See November QST for the full t of the proposal.

R 975

Once again ARRL reminds league affiliated clubs d their members of the continuing availability of ining aids designed to enhance Club Education d interest. The Training Aids Library includes chnical films, film strips and slide collections as ll as quizzes and tape recordings on many phases amateur radio technique, operation and history. RRL affiliated club officers should request training ds well in advance of the date required. Full formation is available from the ARRL Communications partment, 225 Main Street, Newington, Connecticut.

SILENT KEY

W7EHH, Hugh Christopher, licensed since 1934 ned the ranks of "Silent Keys" October 6, 1964. gh was a member of the Spokane Amateur Radio Club, Q.C.W.A. and Warts Net.

RESISTOR HUNT

Jerry's resistor hunt of October 11th had a very good turnout. With wet feet and slippery streets to contend with, the Gang came in, in record time. Steve Morland took First Prize, while Emil K7GPK wound up with the Booby Prize. Let's have the next one in the Summer Time Jerry, my shoes are still wet.

. . . . . K7CYZ

BLOOD BANK

Sorry but the Blood Bank could not furnish us with a schedule of the mobile unit. We are still working on it and will get one as soon as possible. Remember to donate blood and have it accredited to the Radio Club of Tacoma Inc.

W. C. D. C.

The 3rd Annual Womens C. D. Conference was held in Olympia Oct. 9th. It was well attended by our city C. D. gals. From communications there were Rene Smith, Faye Monroe, Betty K7ITY, Patty K7NQR, Verna Ryan, Tyke Rawlings and Margie K7AMJ.

The meetings started with an introduction of officers from Washington, Oregon, Calif., Idaho, Mont. and Wyoming. A speech was given by Governor Rosellini praising our state for their C. D. activities. Another very good speaker was General Ensley M. Llewellyn. His speech was on the Alaskan Earthquake and the important roll C. D. played in Alaska and Wash.

The work shop attended by our radio group was "Search and Rescue Operations". This was a very informative workshop with General Llewellyn as speaker. Slides were shown on equipment of Wash. C. D. and where it is located, and how it it is used.

After lunch everyone boarded a bus and rode to the Armory where a 200 bed emergency hospital was set up with real live casualities.

Presiding at the afternoon tea, held at the Executiv Mansion, were Governor and Mrs. Albert Rosellini.

I'm sure everyone will look forward to going to this event next year.

Thank you Joe and Helen for your contribution to our paper.

SLIVERS & SPLINTERS

Another month gone by and Winter is starting to show. Activities should start picking up and we will have more to report.

If Beryl K7NPG doesn't get busy and finish that linear, his harmonic Rusty will have to get a sleeping bag. Seems Beryl has the parts for the linear strewn all over the floor blocking the entrance to Rusty's room.

A subscription to the Loggers Bark was sold to Gene Dodge W7BTV last month. Gene was very active in the Radio Club in past years but due to his working hours can't participate with the club as he did in the past.

Dick W7RGD just had his ham shack re-wired for 220. Beryl K7NPG did the work while Dick supplied the coffee and worrying. Now his Mom can do the ironing while Dick is on the air without plunging the whole house in darkness.

Merl W7IKG has another batch of home brew bottled and it does help get the news out.

Ralph W7COP is still busy helping number one son Tom in building Tom's new home up in Cliff, W7MFG's, location.

Two new beams up in Tacoma area, Gene K7EEK and Cliff W7MFG,

W7RFL has been on 29.6 while passing through.

Dick Keselberg K7NQJ has had some TVI problems since getting on SSB. Oops! There goes the phone again.

Latest News Item: FCC has placed new restrictions on the Citizen Band Operators. Clamping down on types of transmissions, distance, quiet periods, revisions on Marine Operations etc.. This will put a stop to ham type operations. They further stated if their operations did not comply, the Citizen Band Operations would by suspended.

Doc Spike, W7OS is back at meetings after a long absence. He brought up the Fire Insurance due on the Club House and the amount was raised from 3 Thousand to 4 Thousand Dollars. Also Doc is going to speak to the Club on the 27th of October meeting. Sorry we could not report on it in this month's paper.

John Austin had a little seige with the hospital but was back to meeting this month.

The Hunting Bug has bitten Merl, Dick Hazelmeyer, Scotty Huntley, Otho Smith, Tom Martin, Jim Cowart, and Jimmy Churchward. No kills reported. Some near hits but no meat on the table.

Duane Lewis and Roy Monroe made a trip up to Jim Creek to get some ideas on big antenas.

Don Perry will probably be more active after November the 3rd.

What happened to Ev Syverson? Haven't seen him at meetings.

Don't forget the Loggers Contest has been set for January 16th & 17th. Start planning for that weekend and start talking it up when you are on the air.

73 for this month.

. . . . . Dick W7RGD

UPPER LIMITS

Another 2-11 fire brought the C-D Bus into action with Ralph W7COP and Cliff W7MFG as drivers. Glenn W7CMZ operated 6 meters and Smitty K7ATD was in charge. Smitty used his Mobile at the scene running errands for the Auxillary Police.

Heard Dwayne K7KSZ work at California Station the other night. They wern't in very long. Some fellows reported Arizona and Nevada but I can't confirm them.

The Mystery Carrier is at it again on six. Who ever he is had better read the FCC Rules on unidentified carriers. We have a pretty good bunch of hidden xmitter hunters and it looks as though we may have a real hunt one of these evenings with an FCC man riding with us.

Two meters is on the upswing in the Seattle-Tacoma area. K7KSZ has 2 meter FM in his Mobile along with six. The activity on 2 AM and FM is building by leaps and bounds. Heard Seattle talking with Portland several nights in a row.

Happy Thanksgiving to each and all and don't eat too much.

. . . . . Scotty K7CYZ

The womens Bowling league, The DK Loggerettes, r really going great guns! The teams as the stand r Big Spenders, 26-YL's, Hot Tubes, Short Circuits, Sparkies, Loud Speakers, Bowling Bags, Fire Balls. game goes to Jeanne Fenimore and Hi-series goes to el Devish. Our Sub., Sophia McCullough topped all ors with a 233 game and a 555 series. Some of us n't too hot but we sure have a lot of fun trying. one who would like to sub. give us a call GR 5-2241 we'll try to get you on with us. We Bowl Tuesday . at 9:30, Bowlero Lanes.

Ax. News

Discussion on the up coming X-Mas dance was etty enthusiastic. Advance ticket sales were the g answer to the problem of no money. So get your kets early.

The bowling gals held a rummage sale and made ough money for the plaques for their bowling shirts d a few dollars to turn over to the Aux. Treasury.

A nice lunch was served by Helen Asplund and hel Devish.

Remember fellows, all wives and mothers of D K mbers are a Member of our Auxillary. Lets see ew new faces at the meetings. All ladies are more n welcome.

MEN'S BOWLING TEAM

The two men's bowling teams have not changed r standings now for a couple of weeks. The Number o Team is tied three ways for third position. The mber One is in third place from the bottom.

Merl W7IKG, who is on Team One, still holds high re of 212.

Ralph W7COP is still working towards his goal of n average of 180 by the end of the season. Good k Ralph!

Margie K7AMJ, has been keeping score for Team .

Don't forget we still like that routing section. ry and Verna Ryan, Beryl Hood and Emil Koth have n regular rooters. Sometimes it's hard to tell ch team they are yelling for but it sounds good the Radio Club of Tacoma.

. . . . . W7RGD

PINOCHLE

The second Pinochle Session was held a week early this month to avoid having it on Halloween night. A good turn out this month with 4 tables going strong.

High scorer for the men was yours truly. High for the ladies was Rene Smith. Vivian Huntley & Merl Chavis had to do the dishes. Speaking of dishes, the ladies got their signals crossed as to who was bringing what for the lunch. We ended up with enough sandwiches to feed the whole Club Membership, however they were good and they were disappearing left and right.

The next session will be on the 28th.

. . . . . W7RGD

POETS RETREAT

Eat hearty of the Turkey warm
Eat hearty of the spuds and corn
Eat hearty friend, and bow Thy head
And thank Him for this table's spread

Not only for this one fine day
When gobblers on the platter lay
But thank Him for each rising sun
And all the tables one by one

Among the many operating aids available without arge from ARRL are the following, all designed to your operating effectiveness: pointers for good erating, was map and card record, net directory, onetic alphabet, ending signals, RST System, DX de, Contest QSO Record, Safety Code, ARRL DXCC untries List, QN Signals for C.W. net operation and T Time Conversion Card. Any or all of these are ailable from the ARRL Communications Department, 6 Main Street, Newington, Connecticut AR

978

FCC has extended from November 16 to December the time for filing comments in Docket 1564. This cket proposes that the distance beyond which plicants are eligible for conditional class license raised from the present 75 mile limit to 175 miles m the nearest FCC office or quarterly examination int, and that semi-annual examination points also counted for this purpose. Amateurs may file reasons support or opposition to the proposal, direct to the mmission Office in Washington D.C. 20554, the stomary original and fourteen copies of comments ing asked for. The Docket does not affect present ensees, nor does it affect future applicants whose ason for seeking the conditional is physical disability, litary service or absence from the U.S. AR

BOWLING NEWS

Oh, the Ladies are really having a battle among mselves for Top Honors on our DK Loggerettes ague. At this writing, the "Big Spenders" are on with the "DK Sparkies", XYK'S and the "Hot bes" right behind them. The " Short Circuits" are and running and we have to watchout for the "Loud eakers" as they are coming up fast. This is quite citing expecially with so many in the race for 1st ace. Part of the money left from our Rummage Sale nt to buy plaques for the 2 Mens Teams so they n show off who they're bowling for too. They really k sharp.

P.S.C.A.R.C.

The next meeting of the Puget Sound Council will be held January 8, 1965 at the Handcrest Building in Seattle.

At the meeting of November 20 the Technical Assistance Committee Roster was passed out to the delegates to be forwarded to their various agencies.

The discussion turned to the possibilities of a Western Washington Hamfest. A motion was made, seconded and passed to instruct the Secretary to contact the various groups and clubs for their feelings. Each delegate was also instructed to sound out their own clubs on this project.

Further business included the appointment of committees for the Annual PSCARC Banquet. The delegates, present, expressed satisfaction with the dinner served by the Waller Road Grange and the Valley Club was instructed to secure it again for the comming Banquet. Out own Radio Club was assigned the ticket printing and sales.

. . . . W7IKG

AUXILLARY NEWS

The last meeting consisted of plans for our Annual Dance and the preperations needed to make it a good one. We have an advanced ticket sales this year so if you want to buy a ticket call Margie K7AMJ. There will also be tickets at the door. A wonderful dinner will be served at midnight with the Aux furnishing the ham. The Gals are going to a lot of trouble to make this a "Dance to Remember" so lets see some of our DK Members out there to at least show their appreciation.

The music will again be by Bill Hall and his Combo and anyone who went to the Dance last year will know, what wonderfull music he can provide. Let's see you all there and really make this a good one !!

Merry Christmas.

. . . . Faye Monroe

PROPOSED CHANGES IN BY-LAWS

1. Regular meetings shall be held on the second and fourth Wednesdays of each month at 8:00 PM at a place designated by the Club. Special meetings may be called by the President at the written request of five or more members and the membership must be notified of the time and place of such meetings.

2. The regular dues for all except students and special members shall be nine dollars ($9.00) per calenday year, except when more than one member of the same family is a member of the Club. In such cases, on dollar ($1.00) additional per member per annum shall be levied. Dues for students up to and including seniors in high school shall be four and one half dollars ($4.50) per calendar year. All dues shall be paid semi-annually in advance.

3. Members will be credited with a maximum of three dollars ($3.00), students one dollar and fifty cents ($1.50), on the following years dues for a minumum of two hours work on the Club House or grounds in a calendar year.

4. Applications for membership dated prior to June 30 of any year must be accompanied by full dues for the calendar year. Applications dated after Jone 30 of any year must be accompanied by seventy-five (75¢), students forty cents (40¢) for each remaining month in the year or fraction thereof.

5. All dues from members shall be paid to the Treasurer and the Treasurer shall immediately acknowledge receipt of same.

6. A member three (3) months in appears shall be automatically dropped from membership in the Club without further action.

7. Application for reinstatement of a member whose name has been stricken from the rolls of the Club will be at the descretion of the membership. Application for reinstatement will not be considered if the applicant is indebted to the club.

8. It shall be the duty of the members to report any change of residence as soon as possible to the Secretary of the Club.

9. The depository of the Club funds shall be designated by the Club in regular session.

10. The Treasurer will render a report on the condition of the Treasury at each regular meeting. The Treasurer shall be instructed to submit a complete financial report at the first meeting of each each calenday year.

11. The President shall appoint all committees and set forth their duties upon appointment.

Continued next column

12. The Club shall maintain its affiliation with the ARRI and members are requested to become associated with the League and take part in its efforts to promote the welfare of amateur radio.

13. The Vice President in addition to his regular duties will serve as Program Chairman.

14. The President shall appoint a committee to secure memberships for the Radio Club of Tacoma, Incorporated and the American Radio Relay League Incorporated.

15. All meetings of the Club shall be considered as open meetings. Action on applications for membership or reinstatement shall be considered only in that portion of a regular meeting which shall be designated as closed by the chair.

16. These by-laws may be amended by a 60% majority of the membership present at any regular meeting providing the membership has been notified at least thirty (30) days previous in writing.

HUNTING WALLPAPER

The simpler certificates mentioned in my article in September did not require QSL cards and there was no charge on them.

The cost of having a nice certificate designed and printed as well as postage and handling charge is quite high so that many certificates do require a fee. Also, the cost of postage is high for mailing batches of QSL cards so that many sponsors of certificates will accept GCR. GCR is General Certification Rule in which the sponsor will accept reasonable proof that applicant has the QSL cards as listed, if two licensed amateurs have examined them and will certify to that effect, followed by their full names, calls, and full QTH.

A popular award is the Royal Order of Hoot Owls. You must work another member of the order for one hour from 2400 to 0100 any Saturday night on 6 meters. You send a statement of the contract, date etc., also the "Hoot Owl" member sends confirmation of same with his Hoot Owl number to Lee Singleterry W7YJE - 1914 Ballinger Road - Seattle, Wash. There is a 50¢ fee for the Hoot Owl Certificate.

To earn the "Northwester Certificate" you must make 7 contacts on 6 meters. Two must be in Seattle and the five others in different cities in the Puget Sound area. There is a 50¢ fee. Send list to Dan Marx W7CYQ - 11140 Luther Ave. - Seattle, Wash.

The Apple City Award is put out by the Wenatchee Radio Club. Contact any 5 stations in Wenatchee or East Wenatchee for the award. (No fee) Send lists and dates to Al Freeman - 1030 Lindy St. Wenatchee, Wash.

You can earn the Atom Smasher Award by contacting 5 members of the Richland A R C, any frequency, any mode. Send list and dates with 50¢ to Richland A R C - P.O. Box 73 - Richland, Wash.

To get the YL Coffee Net Award, you must work seven members in the Puget Sound area, on 6 meters, for a minimum of 15 minutes each. Send the log data and 25¢ to Puget Sound YL Coffee Net c/o K7QMG 4514 So. Juneau St. - Seattle, Wash.

You can earn the Old Old Timers Award (Type E) by contacting 10 members of the Old Old Timers Club. These are generally operators with two letter calls, who have been operating for 40 yrs or longer. Send the log data (call and date) with GCR and $1.00 to P. B. Dunn W6WPF - 18123 Marilla St. - Northridge, Calif.

During this period you have been accumulating QSLs of different states. When you only have a few missing, put out a CQ to particular states. You may be surprised at the results. When you have a QSL from each of the 50 states, arrange them alphabetically by states, and send them with a request for your certificate to ARRL for your "Worked All States" award. Also send postage for the return of the QSLs to Achievement Awards Section - American Radio Relay League Newington, Conn.

You do almost the same thing for WAC - Worked All Continents. When you have QSLs from each of the Continents; North America, South America, Europe, Africa, Asia and Oceania (This includes the islands of the Pacific). Send them and a request for Certificate with postage for return of the QSLs to Achievement Awards Section - American Radio Relay League - Newington, Conn.

Some of these are not as easy as they sound, but will be a good test of your equipment and operating ability. Happy hunting.

Ed K7CZM

UPPER LIMITS

Six meters has been very active locally but DX is real slow. However we didn't expect much during November, December or January. California may break through during the Winter cold spells but we don't look for anything great. I hope I'm mistaken.

Two meters is gaining more and more favor in the Pacific North West. It is like six was five or six years ago. New calls are coming on the band every day. It may take over six for local rag chews and emergency communications soon. The gear is no more expensive and you can get a lot more antenna in the same space. So watch two, it's comming along fast.

I hope that each and every one enjoyed a very good Thanksgiving and I wish each and all a joyous Christmas.

If I don't see you before the New Year comes in, A Happy New Year.

. . . . Scotty K7CYZ

SLIVERS AND SPLINTERS

Guess who was on 29.6 Monday night. Mel K7ATF. Let's hear you on again Mel!

Of course we still have Old Faithful Ralph W7COP and good ole Doc K7RGD. Even W7IKG gets on once in awhile then of course there's W7RGD Mobile and if it gets too dull K7AMJ will come on to liven up the frequency!!

Ten has been opening up lately. Heard lots of signals on Sunday from the East. In fact it sounded almost like old times. I hope it stays in for good this Winter.

Merl W7IKG worked Bill W7ZFY on 2 Meter Phone for 2 hours and 15 minutes, Saturday. He had a schedule for Sunday but the Band was too crowded to even get a KW Signal through.

Beryl K7NPG is having his troubles building a KW Linear. Come close to having to call the fire department last Sunday. They say where there is smoke there is fire and he had smoke filing up the Ham Shack. Finally got things fixed up after having to find a new filament transformer.

Dick W7RGD has his J Antenae back up on the roof top after getting some help on putting it back together from Merl.

Tom W7FUL has a new Hallicrafters HT-32B in the Shack. Gave up on the home brew and going first class.

Gene K7EEK has retreated from the out house into the home, with his Ham gear.

We would like to wish Judy Mashburn a speedy recovery. She is convalesing at Madigan Hospital.

Dick K7MQJ has a new HW-32 Side Band Transceiver. Watch out everyone He's out scrounging parts for a power supply.

Merl W7IKG and Cliff W7MFG are still waiting the arrival of their NCX-5's. Hope they start making them soon.

Emil K7GPK says he's waiting for his ship to come in. Aren't we all!!

Just received word that Bob Thurston W7PGY has won the election for Director of the Northwestern Division.

The Amateur Radio Commemorative Stamp will go on sale December 16th. They will be on sale one day earlier in Alaska.

POETS RETREAT

A LETTER TO ST. NICK

Dear Santa; when you ride this year
With bulging sleigh and cute reindeer,
Please stop upon this roof - top small,
And pay this humble Ham a call.

I'll sweep the fire-place chimney clean
The hearth I'll polish to a sheen
And on the table, Santa dear,
You'll find a glass of Christmas cheer.

I am not hard to please you know,
And O' this aging heart would glow
To wake on Christmas morn and see
A Collins S Line neath the tree.

And in the candle's twinkling light,
With silver plating shining bright,
I'd cry with joy and ask no more,
An Electro Voice Six Sixty Four.

But Santa you can surely see
Tis not complete beneath that tree
To fill the package it would seem
T'would take a Mosley Tri-Band Beam.

Dear Santa if you'll ride my way
I'll gladly ease that bulging sleigh,
And give to you a list of gear-
To put beneath my tree next year!

. . . . Scotty K7CYZ

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

OL. 2 NR 1 JANUARY 29.6 – 51.0

ELECTION RESULTS

The final nominations for the Club Officers were ld December 23 with the actual election following. here were no additional nominations from the Floor th the exception that Roy K7USF was nominated for cretary.

For the Office of President, Jerry W5YFS is the w President. He won with a very close ballot with rl W7IKG and Dwayne K7KSZ.

For the Office of Vice President, Scotty ran with opponent and was voted in by acclamation.

For the Office of Secretary. Steve K7SSC won the fice in another close ballot with Art W7JGN and Roy 7USF.

For the Office of Treasurer, Rich, K7ONA won the fice running against Tom, W7FUL.

For the Office of Board Member (2) Doc K7AYD d Laverne K7NKZ were reelected.. Also in this race s Roy W7AZI who has served many times in this office.

Congratulations to all. Now it will be up to the mbers to get behind the Officers and help them to ep the Club growing and expanding in all fields of nateur radio. Remember the Officers Guide but it up to the Membership to get in and help them to keep 7DK one of the Top Clubs in the Nation.

We also want to thank the out going Officers for eir efforts and guidance in the past year. We did ll in Field Day, completed quite a few services to e public etc. This takes time and energy to complete, once more Thanks and a Vote of Confidence to u all.

Let's make 65 a Year to Remember in the W7DK cord Book.

. . . . Staff

COMMING EVENTS

As your new Vice President, I also take on the job of ogram Chairman. I do not have a definite program anned on so short notice, but will have an interesting ogram for both meetings for this month. I am open for ggestions. Also I ask your help in arranging the ograms.

. . . . Scotty K7CYZ

ARRL BULLETINS

NR 982

All amateurs planning participation in the 18th ARRL VHF Sweepstakes, January 9 and 10, are reminded that convenient free Log forms are available free on request from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Please specify the number of reporting sheets desired. Page 105 of December gives full details on this top VHF operating event. Be sure you are ready to help your Club's standing for the Engraved Gavel in the VHF Sweepstakes, January 9 and 10.

NR 983

The 1964 Sweepstakes has drawn to a close. To date the following high claimed C.W. scores, over 65,000 points, have been received: W4KFC WA4NOG W6KG K4BAI W3FLY W9RQM W3MSR W1JYH W8RSW K0SLD KZ5OP K5RUO W4PTR W9GFF W3GAU K5OCX W6RW K2EIU/5 W3GQF WA5CBL W7TDK K4TEA W2NNL W1BGD W1WPO W1ECH W9YT K2ZYR and W3EIS. Claiming over 55,000 points on phone are W7ESK W4KFC W3ZKH K4BAI W9IOP K4LPW K8TIG WA4NOG W7WLL W6KG W7AYY K1DIR K8YCM/5 WA5CBL K1YRT W9RQM K4YYL K9ZBI K0UWZ K8DOC WA9AAD W3PQT WA0ACI K7AQB and W4BVV. High claimed Sweepstakes scores will appear in February QST. Please get your Logs in before the December 16th mailing deadline.

NR 984

A recent CRPL Forecast Bulletin notes that solar activity will soon be increasing following the sunspot minumum which probably occurred in late summer of 1964. The occurrence of flare producing solar regions will soon be on the increase and associated shortwave fadeouts, SWF, will become a more significant factor in long distance communications. Radio communications may then be abruptly interrupted by sudden large increases in absorption. On the average, communications may be impossible for twenty to thirty minutes after which normal field strength is gradually recovered.

1964 FIELD DAY

We came through again! 3rd in the Nation and 1st in the 7th Call Area in the 10 Transmitter Class. Congratulations to all of you who had a part in this. Special thanks to Ralph W7COP for his efforts as Field Day Chairman. Let's see what we can do now in 65.

. . . . Editor

MEET THE LOGGERS

This month we are beginning a new feature that should be interesting to everyone who reads our Club Paper. Every issue will feature one of our Club Members and their Ham Shack. We are starting at the top of the Club Roster by last name, so Rich Anderson K7ONA, will have the Honor of being first.

Rich and his wife Mae, moved to Tacoma from Anchorage Alaska in 1959. They are originally from Spokane. While in Alaska their interest was in taking care of Native children. They had to cook for as many as 22 children in one day. Their interests turned to "Ham" Radio when Mae received a couple of phone-patches from her relatives in the States via Mars Radio. Returning to the States Rich started his Ham Career.

Rich is a Sgt. in the Air Force at McChord Air Force Base and there are 7 Harmonics around the house at 519 North L Street. The coffee pot is always available for the fellow Ham, who may drop in for a visit.

Rich acquired his Technician License in 1960. Besides being a Member of the Radio Club of Tacoma Inc., he is a Member of the Tacoma Civil Defense and T.R.A.M.S.

As you can see in the picture, Rich uses a Gonset 6 & 2 VFO to drive a Communicator III 3., on Six Meters. The Mike is the familiar D-104. There is a S.W.R. Bridge Indicator on the shelf. He uses a 5 Element Hygain Antena up on the roof and rotates it with an AR-22 Rotator. The Rig can be put on Mobile within a few minutes notice.

The Ham Shack displays numerous QSL Cards and the following certificates; Banshees, Loggers, R.O.O.H. and R.C.C.

We had a very nice visit with Rich and Mae and had some very good coffee.

Next issue we will feature Joe and Helen Asplund. We are looking forward to the visit Joe so be looking for us.

. . . . Dick W7RGD-Scotty K7CYZ

CHRISTMAS PARTY

Our Annual Christmas Party was a wonderful success. The music was provided by Bill K7SMZ and his Combo. Food was provided by everyone and if you don't think it was delicious just ask Roy W7AZI.

It was nice to see so many of the long time Members of DK there. Nice to see Bob W7RXS doing the Limbo. Doc W7OS, was there without Helen! Steve Moreland also came stag.

The dance floor was crowded and so were the tables. The decorations were so pretty, I'm sure it put everyone in the Holiday Spirit.

I hope we can have as much success next year.

. . . . Margie K7AMJ

PAST PROGRAMS

We had a visitor from Bell-Telephone at the December 9th meeting. Ralph Hoglund W7MZT, who gave a very effective demonstration and talk on effective communication in presence of noise. Ralph is Radio Engineer for Bell-Telephone and knows of what he speaks. I am sure that everyone present learned something from his talk. We thank Ralph and hope to have you back in the not too distant future.

3/USB 14,300,21,410,21,440, and 28,690.
TY 7105 and 21, 140.

Your Logs should be in the mail before the end of month and this year they go to the Party Chairman; Clifford J. Spike W7OS, 1015 Medical Arts Bldg., coma, Washington 98402.

. . . . Doc W7OS

Seven of every 10 drivers involved in traffic mishaps resided within the city or within 15 miles of the accident scene.

One out of 5 of the fatal accidents on urban state highways occurred at intersections or driveways.

Falls from moving vehicles accounted for one rural death and 68 injuries. 500 bicyclists were injured in traffic mishaps and eight of every 10 were youngsters under 15 years of age.

POET'S RETREAT

A TOAST

e Barkeep is a Friend of Friends
And mine he e'er shall be;
long as he so deftly blends
That Liquid Ecstasy

long as he, no matter where,
In Alaska or Bermuda;
nkocts within his silverware,
A tasty Scotch and Soda

y, Many Friends I boast,
And all them I do Treasure;
now I raise my Glass To Toast,
The Barkeep and his Shaker!

RULES FOR LOGGER'S CONTEST

This contest will be referred to as "Tacoma Loggers Contest".

The purpose of the Loggers Contest is to publicize the Radio Club of Tacoma and the Loggers Certificate.

Contest will be held on the week-end of January 16 and 17, 1965 between the hours of 1600 January 16 and 1600 January 17, Saturday and Sunday respectively.

Any Band or Bands may be used. No limitations to power or mode of operating.

Foreign Stations need only contact five club stations.

Each contact claimed will count as one point, with the exception that if the contestant holds a Novice License he will receive two points for each contact.

Each contestant who turns in an application for a Loggers Certificate will receive an additional 5 points for each one.

Each contestant will submit a copy of his claimed contacts. This copy will contain the time, call letters, signal report and QTH of the station worked. This copy to be in the hands of the contest committee no later than January 27, 1965,

Prizes will be awarded for first, second and third place, In case of a tie, top score will be decided by the toss of a coin. The awards will be announced the first regular meeting of the Club. in February.

All entries to become the property of the Radio Club of Tacoma and committee decisions will be final.

Committee: Roy Devish
Ed Coles
Scotty Huntley

CODE CONTEST NOVEMBER 11

The QFL Contest held on November 11th was won by p K7VPF. This Left-Footed Code Contest was tinguished from all similar events by the use of a y Automatic Electronic Keyer. Each contestant had send a sentence, which contained every letter of the habet, with their left foot! The honorable Judge was -W" Piqette W7LEC, who finally decided it was ier to count the number of correct words sent, rather n the greater number of mistakes! The way Chip dled that Keyer Paddle, it became obvious that he s born with a "Bug" between his toes!
st Prize was a $10.00 Gift Certificate for C & G chased by the Radio Club.

W7DK

1964 was the 50th year for the A.R.R.L. Our Club,)K, will not be out classed. This year, 1965, W7DK will brate it's 50th year as an Organized Club. I am not one to recount the History of our Club, that should ne of the "Old Timers", but I will list the First cers of W7DK in Honor of the Occasion.

sident . . . . Howard Reichert
e Pres. . . . . Dwight Mason
retary . . . . Ed Moe
asurer . . . . Al Stenson

Howard and Ed still live in Tacoma. Dwight is in ghn, and Al just moved to Oregon. These names uld be entered into the Annuals of the Club as ored Names. One meeting of this year should be aside for this one purpose. To these men – nk You – We hope each of you another 50 Years.

. . . . W7DK

SLIVERS AND SPLINTERS

Joe W7IG is running a new Heath SB-400 Transmitter. hear Dewey W7HF had to smoke test it for him.

Max W7AEA had to go to breakfast in his row boat high tide. I wonder, did you have fish Max?

From all the batches of Champagne going in the Club, eryone should be pretty well winterized for this season. uldn't need any Anti-Freeze!

Due to the fact that Pinochle wasn't won by this writer not going to write a special article. The trophies re won by the Smiths, K7ATD and XYL Rene and the ll Throwers went to Cliff W7MFG and XYL Barbara UYL. It was family night I guess and I'm glad this ily didn't have it's usual luck.

Scotty K7CYZ won the 12 volt battery charger at last Club meeting. It pays to attend those meetings.

Bob W7RXS is working on the pipes in the Club House ce they froze up in the cold spell. Has replaced ipes all ready and there are more to go. Ralph COP spent a night in the Club House getting the nace back in running order. We now have heat thanks Ralph.

Don't forget when you are reording subscriptions QST, to contact Marion Wylie of the Radio Club. renewing or getting a subscription through the Club Club benefits also.

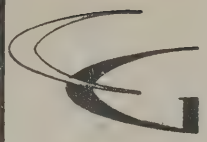

The 1965 Dues are due now and I'm sure the new easurer will be glad to take your money. Remember r subscription to the Newspaper is automatically ewed along with your membership.

We ncticed a couple of faces at meeting during the ristmas Holiday Season that have been absent for ne time. Roger K7AYC and Jim K7GPJ were there, ne for the Holiday Season. Welcome back fellows.

Don't forget the Loggers Contest fellows and gals! ts get Tacoma back on the map again Ham Wise.

The staff of the Loggers Bark wish everyone of you very best in the comming year.

UPPER LIMITS

This month was a little better on six. California busted through several times. Some of the skips weren't too good, but two of them lasted for about two hours, so there was time to grab some new calls from six land.

Two meters is still showing the up-swing. Roy K7USF and Don K7PIB are now solid on F.M. and myself K7CYZ, is now on two AM. Now I can experiment with some two meter antenas.

The six meter gang turned out for the transmitter hunt and slid and skidded on about two inches of snow, but we all found the transmitter with no dented fenders.

Seen a lot of V.H.F. people at the Christmas Party, too many to list here. Hope to see all of you at the next Club meeting.

. . . . Scotty K7CYZ

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

L 2. NR 2 FEBRUARY 29.6 – 51.0

CLUB BY-LAWS

The new By-Laws for the club were voted in as printed in the December issue of the Loggers Bark. One ammendment was added to paragraph number 2. It was ammended to read that the new dues will go into effect on January 1966. The credit (3.00) may be earned before that date and applied to the the 1966 dues. The board of directors will appoint a committee to keep the above work credits and apply it to your 66 dues, also lay out plans for the work to be done in and about the club house.

ARRL NATIONAL CONVENTION

The National Convention will be July 2,3,4 and 5, 1965 at the Civic Auditorium, San Jose, California. The Convention Hotel will be the Sainte Claire.

Pre-registration awards! Special treats for YL'S! Amateur T-V-Technical Talks - UHF/VHF and Microwave - Transmitter Hunts - RTTY and SSB Confabs - Programs by ARRL - Wouff Hong Ceremony - Western Steak B-BQ - Dance Awards Entertainment - Mobil Judging - Manufacturers Exhibits.

Please qsl P.O. Box 6 for special consideration.

73 . . . Hoib WA6YDF

C-D DRILL

On January the 27th the City of Tacoma held a simulated bombing down in the court of the Vocational School. The C-D bus was activated for the test. About a dozen students of the school volunteered to be patients of the simulated bombing. The authorities went to a lot of pains to fix the patients up with wounds ranging from cuts to a heart attack case. The wounds were plastic and stuck onto the subjects making them look quite hurt. Ambulances were dispatched to the scene and removed the patients to St. Josephs Hospital. The bus was to be used to relay traffic to the Hospital as to how many patients were enroute and the extent of the injuries.

Participating in the drill were Dick W7RGD, Cliff W7MFG, Smitty K7ATD, and Roy K7USF. Also, not on the bus but participating as relay were Patty K7NQR and Dwayne K7KSZ.

. . . . Dick W7RGD

ARRL BULLETINS

NR 987

The Department of Transport has changed the rules for Canadian amateurs to permit only c.w. in the lower 100 kc. of the six and two meter bands. The changes, effective immediately, are intended to protect stations involved in weak signal work, such as moonbounce, auroral reflection, and the like, and particularly in connection with the Oscar III repeater which is scheduled to operate in the two meter band after launch sometime this year.

NR 988

February presents an excellent opportunity for every amateur to test his frequency measuring skills by taking part in an ARRL Frequency Measuring Test. W1AW will transmit signals for measurement on February 12 at 0230 and 0530 GMT. This will be the evening of February 11 at 2130 EST on approximately 3510, 7047 and 14,137 kc. A second series of test signals will be transmitted three hours later on about 3522, 7055 and 14,059 kc. Each participant will receive an individual report comparing the accuracy of his measurements with those of a professional frequency measuring laboratory. Further FMT details will appear on page 86 of February QST.

NR 989

The ARRL Committee of Tellers met today to count votes in reballoting for the office of Director of the Hudson Division. Harry J. Dannals, W2TUK, was declared the winner with 2651 votes to 2639 votes for Howard W. Wolfe, W2AGW. Director Dannals takes office immediately for a term which ends at noon January 1,1967. The reballoting became necessary when the Tellers declared the regular election a tie at 2426 votes each on November 20, 1964.

RADIO CLUB DUES

Hear ye! Hear ye! January 1st was the day your club dues became due. Remember, 90 days is the grace period, and March 31st is the deadline. After that you lose your membership and no more free Loggers Bark. So don't let your membership lapse and lose your club benefits.

. . . . EDITOR

MEET THE LOGGERS

Meet John Austin K7CZF

This month we interviewed John Austin. We would like to apoligize to Joe Asplund for skipping over him after going up to Eatonville and taking pictures and getting a interview with free coffee. It seems our photographer goofed up on the picture taking and all pictures of Joe did not register. This will be remedied by the next issue. John was good enough to give us a quick interview by phone to get this article ready in time for our deadline.

John was born and raised at Dash Point, Washington, where he still lives with his wife Gertrude. They have four children and six grandchildren.

John went after his novice license in 1958, which he used for the full year and didn't go after his technical license for a year and a half later. After several trips to Seattle he made General in 1961.

In the shack he has an Elmac AF-68 transmitter with a TMR-8 to make a matching pair. He runs this either fixed or mobile. For antennas he has a dipole for 75 and a vertical for 40-20-15 and 10. Also he has a 15 meter quad 55 feet in the air. His 6 meter beam has 6 elements and puts out a pretty good signal.

For wall paper he has a Loggers Certificate and Royal Order of the Hoot Owl. He is very active in WARTS Net, holding the position of South West Director for the Net.

Outside of camping in the summer, ham radio is his only hobby. John has been a regular participant in the DK's field day activities. Those of you who have been to field day the past few years have probably noticed his house trailer all set up on 20 cw.

One of John's past projects was the building and installing several "happy lights" in his home. This is his own pet name for the project. At a later day he will give the paper an article on the construction and use of these "happy lights". Briefly these "happy lights" help purify the air and remove odors and smoke.

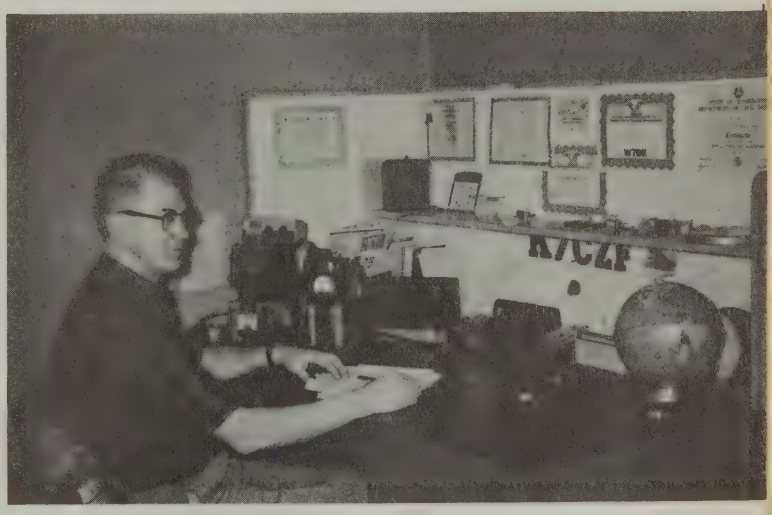

Another project was a cw monitor. This sure beats sending blind.

Want to thank John and Gertrude for the coffee that came with the picture taking. Also we will be waiting for the details for the rest of the club on the "happy lights".

CLUB EQUIPMENT

The following is a list of equipment that the club owns as reported by the club custodian, Dwayn Lewis. All equipment is in working order and for the use of club members.

3 - 800 watt gas generators
1 - 500 watt gas generator
1 - 10,000 watt gas generator mounted in jeep trailer
1 - B & W grid dipper
1 - Millen ant. bridge
1 - Jones micro-match
1 - Harvey Wells TBS-50 transmitter
1 - Johnson Ranger transmitter
1 - RME receiver
1 - Collins TDO transmitter
1 - BC-603 receiver

SUNDAYS: 11 A.M. TO 5 P.M.

BOWLING NEWS

It seems some of the hams should stick to amming and some of the bowlers should also try am radio. If the end results would be anything like ne scores that have developed in the past few weeks, he qrm would be terrific!

Our fair lady from the high side of the swamp Ethel Devish W7WLX) knocked off a 212 game. heard tell you couldn't talk to her for a few days. Congratulations Ethel!

The top of the town (Ralph W7COP) got nervous n the tenth frame and gocfed up a good 200 score. don't think Ralph realizes that the ball goes on op of the boards, not around them! Don't panic, Ralph!

Another high score we have to mention is Merl's W7IKG with a 223. This happened on a Sunday night league.

One men's team, Radio Club #1, will roll in the ity tournament of the New Frontier Lanes on February 7, Sunday at 3:30 pm. All cheering and nd enthusiastic support will be welcomed.

One women's team, the DK Sparkies, will roll February 14, Sunday at 11:00, Paradise Lanes in womens city tournament. On Saturday February 6, 1:00 am. Margie K7AMJ and Sally Devish vill bowl in the doubles at Paradise Bowl. We wish ll the above bowlers (?) the best of luck and lots f strikes!!

. . . . Merl W7IKG

SLIVERS AND SPLINTERS

Gene K7EEK lost his antenna during a big blow the first part of January. Just don't take it down when it's windy huh Gene.

Cliff W7MFG and Barbara Y7UYL scrubbed the floor at the club house after the last pinochle game. Guess who was low for the night?

Who was driving the Civil Defense bus on the day of the big drill? Heard there was a slight accident between the bus and a red car.

Art W7JGN left for Mexico January 28th. He would like to work some of the Tacoma gang on the high end of 40 meters ssb.

Al Stenso K7LV is leaving shortly for Medford, Oregon to take up residency.

Heard W7JHU Dick on the air after a silent period of 5 or 6 years.

Dick W7RGD has saved so much money smoking bull-durham he's going to buy a new car. To each his own as the saying goes. I think I'take up snuff!

Ralph W7COP is sporting a new mobile in his Mercury! We hear him all over town with his converted c-b transceiver. Works real fine on 29.6 with less than 5 watts.

Beryl K7NPG had his HT-37 on the bench again. He said he had sick tubes. Transmitter that is.

John K7CZF has some "happy lights" burning in his home. Quite a story about them. Next time you see him let him explain. Dick W7RGD got the scoop from him and is going to build some of them for his qth.

POET'S CORNER

They say that Hams are crazy
I say now if that's true
Just bring that old transmitter here
We'll show what we can do

The filament volts is zero
The B+ is soaring high
But with our ingenuity
We'll put R F in the sky

Don't underestimate us
We're not all nuts at heart
With skill and luck aplenty
We build and tear apart

Somethings work and somethings don't
Mostly don't, I'd say
But after all, who's perfect
In this or any day?

PAST AND FUTURE MEETINGS

Here is a summary of what has been going on in the club the last two meetings.

The first meeting of January we took a trip to the Tacoma Vocational School's T-V Station, KTPS-TV and KTPY-FM. Dave K7MJG was our host and he gave us a very fine tour of both stations.

For our last meeting, Max W7AEA supplied us with some slides made by Hal Gulstad the ex FCC representative for this area on his recent trip to England, Norway, Belgium and France. We had a little trouble with tape but the slides were fantastic.

For the first meeting in February I have secured two films from Bel-Tel on the Alaska communications system and the problems they had keeping it going. 45 minutes of very interesting film. For the second meeting I am hoping to have Dennis from C & G with some gear new to all of us.

. . . . Scotty K7CYZ

UPPER LIMITS

Six meters was well represented in the Loggers contest January 16th and 17th. Ed, K7CZM, Merl W7IKG, Don K7QLC, Doc K7AYDand myself K7CYZ entered the contest. I am sure all of them made contact with the following club members. Margie K7AMJ, Dwayne K7KSZ, Roy K7USF, Ritchie K7ONA, Gene K7EEK, and Don K7PIB. I was too busy on six to even listen on two meters to see if any of our club members were on that band. In fact my two meter converter is minus a tube for the last three weeks, should by back in by the time you get this paper.

I have been driving to Seattle for three weeks and the only contacts I have made on the mobile is with Tacoma stations. Whats the matter Seattle, loose interest?

Better get your rigs oiled up gang, March is when the bank is supposed to start opening up. This summer is supposed to be a lot better for UHF than last year was, so happy hunting.

Straighten this one out if you can. K7AYD transmitting on 10 meters, received by K7KSZ and rebroadcasted on 2 meters FM, received by K7PIB and retransmitted on 6 meters AM for all the gang on 51 mcs. Also on the same evening a transmission started by Cliff W7MFG on 6 meters FM and then on down the above chain. Local contacts aren't interesing, huh?

Pd. Adv.

The September, 1964 issue of the QSA 5, Club Paper of the Marin Amateur Radio Club of San Rafael, Claif., offers an infallible, tongue in cheek method of classifying Hams by their call sign prefixes. Here it is in abbreviated form:

WB's don't know anything, even though they may may hold EE Degrees, be members of the Institute of Radio Engineers and members of the Quarter Century Wireless Association:

WA's are a small step above the WB's. They can act as net control stations and do similar jobs, but don't pay too much attention to their opinions:

K's sometimes say something worth listening to:

W's have worked everywhere and know everything. They are as clannish as a herd of buffalo. To one W, the only thing higher than another W is . . . . A Ham with a two letter call. When you hear one you naturally think of Mother and hear a distant band playing "There's A Star Spangled Banner Waving Somewhere".

MINUTES OF P.S.C.A.R.C.

The 49th meeting of the Puget Sound Council was ought to order at 2015 PST, January 8th 1965.

Minutes of previous meeting read and approved. reasurer reports $58.29 on hand.

Herb Graham K7ZEP, new delegate of the BEARS, as introduced.

Fred W7EJD reported the SSB net on 3805 KC had en issued pink tickets and have not been heard since.

The secretary read a letter from the Amateur adio Council of Arizona asking for a copy of our onstitution and By-Laws. They would also like history of our council and how it was organized. red W7EJD volunteered to answer their letter. ud W7HMQ wanted to be sure Fred mentioned the CC's roll in the organizing.

The banquet time was kicked around with the ajority finally deciding to hold it in the fall. he delegates are to poll their club and set a date etween Sept. 1st and the week before Thanksgiving. 7HMQ Bud said the Waller Road Grange would be vailable.

The next meeting will be January 29th at which me nomination of officers will occur.

Don W7HMJ told of the work the gang in Mason ounty did during the snow storm handling communi- ations around Cushman and Shelton. They wanted thank the stations on 53.29 MC FM for standing y while they handled traffic.

Bud W7HMQ reported the League building fund Washington has reached 92% with only $316 more put it up to 100% which would make it the 3rd ection to do so. A certificate will be issued for ach donation.

He also said the Valley Amateur Radio Club is utting on it's 17th code class at the Puyallup chool, with code practice on 29.51 OMC Tuesdays nd Thursdays at 7:00 PM. VARC has code tapes om 6 to 18 WPM.

We missed Bill K7GQJ. He underwent minor urgery and is reported doing fine.

Remember the next meeting January 29th at the landcrest Building 4th and Hinds. Visitors are lways welcome. Meeting adjourned at 2115 PST.

LADIES AUXILIARY MEETINGS

Ladies, please let's have a bigger turn out for the aux. meetings. For the size of the club we should have many more women at the regular meetings, so let's turn out.

Patty Lewis K7NQR will give a demonstration on cake decorating at the February meeting. She promised to let us eat the cake when she is done. We should have a lot of fun. Remember that's the 3rd of February at the clubhouse.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

C. 2. NR 3 MARCH 29.6 – 51.0

EDITORIAL

Our Annual Banquet will be quite an affair this ear.

This is our 50th year as an official Amateur Club! rrangements are being made to have the first officers the club and their wives attend the affair. It would e real nice to see as many present as possible to eet these men who started our fine club. If it wasn't r them and their early views of Amateur Radio, here whould we be today? They deserve a vote of anks from all of us who are members now for the lid foundation they laid for the club.

The intention of the Banquet is to introduce the w officers of the club and give everyone a chance talk to the members they don't see every day.

Let's see a good turn out to meet the fine staff f officers we have today and the fine staff that arted our club 50 years ago.

Marge K7AMJ

GOLFERS ATTENTION

The club has agreed to sponsor a golf team on the ame basis as the bowling teams. So anyone interested n golf, get in contact with Scotty K7CYZ. I will have urther information at the club meetings and will also ave a complete outline in next months Loggers Bark.

So come on you golfers, the weather is fine and ost of the courses are in top shape. If there is nough interest we may be able to get a beginners chool going. So give me a call.

Scotty K7CYZ

NOTICE!

This is the last paper you will receive unless ou have paid up your club dues for this year.

If you like our paper, let's get the dues paid nd not miss an issue. We enjoy putting this aper out for you so don't let us down.

Your dues should be mailed to Rich Anderson 16 North L Street. If that is not convenient ring the check or cash to meeting this month. emember this is the dead line month!

Editor

ANNUAL BANQUET

March 6th at the Top of the Ocean

Smorgasbord

6:00 P.M. $3.75

Space has been reserved for our banquet and the social hour begins at 6:00 P.M. Scheduled until 7:30, I feel it only fair to warn you that the smorgasbord closes at 8:00 P.M. so don't get too engrossed in happy conversation and miss your food.

For those like Roy, AZI, there is nothing stopping you from starting in on the food table at 6:00 P.M. (if you've paid your $3.75) and adding to that plate right up to 8:00 P.M.

We tried hard to find good food – plenty of space and also dancing and this was it. Anyone having knowledge of a better place would do well to bring it up before next year's banquet because most places have no dancing anymore and some if you bring your own music. We may have done better if we could have taken more time but February's banquet is already in March, and we decided to settle on something immediately.

This is our 50th year and Scotty has planned an appropriate program so make this a big night our and phone your reservations to Ethel GR 2-4213 or Margie GR 5-2241.

Ethel W7WLX

WOMEN'S BOWLING

The DK Loggerettes are still rolling the "ole" ball down the lanes, or gutters, which ever they prefer. I can tell we will never make the television leagues, but we have a wonderful time out there. We are nearing the end of the season now and the Short Circuits are in first place. The XYL's are in 2nd place and the Hot Tubes in 3rd. Ethel Devish holds high game honors with a 212 and Margie Chavis has high series with a 550.

We are there every Tuesday A.M. at the Bowlero Lanes at 9:00. We could use a cheering section too.

Marge K7AMJ

P.S.C.A.R.C.

Minutes of previous meeting was read and approved s corrected. No treasurers report.

Fred W7EJD read copy of letter he sent to the mateur Radio Council of Arizona and filed copy with cretary.

West Seattle suggests last Sunday in September r Council Banquet. Mike Lamb would like to be lieved of Publicity responsibility.

A letter from FCC pertaining to roster of interfer- ce committees was read and filed. Fred W7EJD pressed dissatisfaction with assignment of sponsibilities and suggested some geographical nits be established. Fred was requested to have arked up maps at next meeting.

Mr. Roach of the FCC reported most complaints e from Bellevue Area-North Seattle is second. ost complaints from new General Class Stations.

Fred W7EJD and Don W7HMJ reported on efforts find special blood for Chicago.

Don W7HMJreported a case of local interfenence Olympia area caused by Thurston County Sheriff uipment. Mr. Roach suggested complaint be filed th Western Washington Cooperative Interference ommittee Seattle City Light, 1015-3rd Ave.

hn K7JBZ volunteered to attend as delegate of S.C.A.R.C. Meetings usually quarterly.

Frank K7VMG reported he has obtained some uipment for the Briscoe School from estate of 7KX.

Nominations of Officers;

7ISC Nominated for Pres. by K7JBZ
7MEU Nominated for Pres. by W7ISC

7HMF Nominated for Secretary by W7EJD
7HMQ Nominated for Secretary by K7VMG
7ZCT Nominated for Secretary by K7VMG

7JBZ Nominated for Vic Pres by W7EJD
7VMG Nominated for Vic Pres by W7HMQ

7EJD Nominated for Treasurer by W7MEU
7ZEP Nominated for Treasurer by W7ISC

lominations from the floor at next meeting and lection.

Visitation Trophy held by Macs. Next meeting eb. 28th at the home of W7BFJ.

Next Council Meeting February 26th at Hand- rest Building 4th and Hinds.

Ed K7CZM wishes to remind the members that ore liberal deduction allowed this year, for Civilian efense activity on your long form Income Tax Return

You can deduct all your car expense while on oluntary Civil Defense Work, or if you keep no cords, you can deduct 5¢ per mile. Any other ivil Defense expense can also be deducted with he exception of rental or depreciation on ham gear nd special insurance.

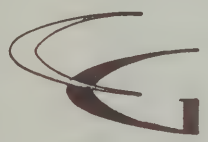

LOGGERS CONTEST

January 16th and 17th were the days to work the Loggers Contest and I hope a goodly number of our members were on the air for a few hours at least. With only six logs turned in, I suppose the rest hadn't made enough contacts (they thought) to warrant turning in their logs. It only took 72 contacts with 1 No. 10 contact and list to win the beautiful first prize. C & G donated a $20.00 Volt Ohm Meter and it was awarded to Skip, K7VPF. Second prize of $5.00 C & G gift certificate went to Scotty, K7CYZ and third prize of $2.50 C & G certificate was won by Ed, K7CZM.

Others turning in logs were Don, K7QLC and Smitty, K7ATD who tied for fourth place, and Roy, W7AZI.

Did you notice that our contest did make the January QST in the Station Activities? Only two certificates were issued as a result of this year's contest, which was too bad, but probably most appreciated by our busy custodian Barb, W7UYL. Watch out tho Barb, next year if 10 is open things will be different.

Roy, W7AZI, Chairman

C AND G ELECTRONICS CO.

HOWDY!

Well we finally received some NCX-5s and delivered them to three Happy Hams. Now is the time to get your name in.

Just received a truck load of Rohn Towers. We can now take care of your Tower needs for just about any type installation.

Have real good stocks of all the new HY-GAIN TRAP ANTENNAS and should receive the NEW 4 ELEMENT TWENTY METER JOB any day.

Remember it's getting around to that time of the year to SPRING for that ANTENNA you've been dreaming of.

"Dennis W7UBA"

MEET THE LOGGERS

Meet Joe W7IG

Joe Asplund and wife Helen live on a chicken anch near Eatonville. Between qso's, Joe tends to 600 chickens, 600 baby chicks, cows and for a ideline runs an airport.

Joe was born in Norway and came to the Ohop Valley in 1908. His family moved to his present ocation during that same year. He has four hildren and 14 grandchildren.

Joe was first licensed in 1922 and it had to be enewed every year. He received his advance class icket in 1950.

He runs a Ranger and a SB-400, using a Drake -B receiver. A 10 meter veam and a 75 meter center ed zep with tuned feeders gets the signal out of the hack. He works all bands c-w or ssb. His wall-aper consists of WAJP (worked all Johnson point), hich is a one man population ham-wise, R.C.C., Quarter century certificate #495 and an ARRL 0 wpm certificate.

Helen held the call WN7WRI but let it lapse. he may get started again though. She is active n Auxillary, just finished a term as secretary-reasurer. Bowled with the Short Circuits until he had to fill in as a substitute teacher at atonville High School.

Joe has his own plane, a Luscombe 8*E, which hey use to go clam digging or to Tacoma to make oll free phone calls.

W7DK has been having field day at Joe's farm ince the early 1950's. It was after a field day ance, in 1951, that they started the Radio Club rchestra. The dance was held in the chicken ouse and everyone brought their instruments. hey adopted the name "Zero Beats".

Give Joe a call on 29.6 or run up to see him. hey have fresh eggs for sale and a beautiful view f the mountain.

UPPER LIMITS

A couple of short opening in to California, is bout all there is to report on six as far as d-x is oncerned.

The six meter mobile hunts are going along fine, nd the six meter check ins are holding up good on he C.D. net. The next big turn out will be for the affodil parade, of which you will see in an article lsewhere in the paper.

Two meters is gaining fans by the dozen, both .M. and A.M., with the relay station on F.M. They ave complete coverage from the California border o Canada, both mobile and fixed stations.

Ten meters has been opening up lately so watch ix, it usualy comes along right behind.

See you on the air and here next month.

Scotty K7CYZ

LADIES AUXILLARY NEWS

The annual skating party was brought up and the details will be discussed at the March meeting.

Patty K7NQR gave a nice demonstration on cake decorating. If we can get a few more to our meetings we will have more of these demonstrations.

Inez is still trying to make roses, I think.

Come on wives and mothers, you are already a member so come to our meetings and see what we should (but don't) accomplish.

Faye-Auxillary Pres.

MEN'S BOWLING

We have two teams of men bowlers that are in the Astronaut League on Tuesday nights. They are known as Radio Team #1 and Team #2. They bowl at the Bowlero Alleys at 8:45.

We are now well into the second half of the season and we sure could use some spectator supporters. While neither team is in first or second place, almost all of the bowlers are bowling in their first league. It is a lot of fun for the bowlers and the few spectators really make a noisy cheering section.

Maybe if we has more of a cheering section, it would spur us on to greater achievements. Come on out on Tuesday nights at 8:45 for a good time.

Smitty K7ATD

IT'S A PLEASURE TO SHOP AND SAVE AT THE

SHOP MART

Department Store

133RD & PACIFIC AVE., Tacoma

OPEN WEEKDAYS: 10 A.M. TO 9 P.M.
SATURDAYS: 10 A.M. TO 6 P.M.
SUNDAYS: 11 A.M. TO 5 P.M.

PAST AND COMING EVENTS

We have scheduled, for this month, some films for e first meeting. For the second meeting of the onth I am planning on having the W7DK "Zero eats" give us a sample of their music. This should e a big hit with the members. I have heard, and ven danced, to this orchestra and they were good. o don't miss this meeting.

I would like to have anyone that has taken any ctures, either movies, slides or glossys of club ctivities, such as field day or club parties and ances to get in touch with me. I would like to show em at one of the clubs meetings in the near future. o let me know right away. Call Scotty SK 2-0332.

On the meeting of the 24th, Dennis Reanier 7UBA, from C & G, gave a talk and demonstration f some new Hy-Gain attena equipment. Dennis is eady fellows for your orders. Thanks Dennis for the emonstration. Also we would like to welcome him to he club. It seems that he joined the club during the egular business part of the meeting.

Don't forget fellows and gals, these programs re planned for each of you and your wishes are eeded to help plan ahead. Any suggestions or ffers would be appreciated.

Scotty K7CYZ

The Daffodil Parade Committee has asked the Civil Defense communications to assist in the harshalling and policing of the Parade.

This year as last year, we will use several requencies, one frequency for marshalling the parade nd one frequency for policing the parade and the eep club frequency for other emergencies.

We will need a lot of operators this year as we vill have two radio stations, two public address tations, one T.V. station to furnish up-to-the-minute rogress of the parade. Also we need operators at ach of the intersections, the reviewing stands and he break-up points. We also need operators to keep he assembly marshals in direct contact with each rogress point.

The police department has promised us more arking spots for those assigned to intersection work. All of this excellent cooperation is due to the fact hat everyone that worked in last years parade perform-ed so excellently.

We are planning a dry run several nights previous o the parade of April 10th. This will help us to work ut the bugs so we won't be bothered with them the day of the parade.

POETS RETREAT

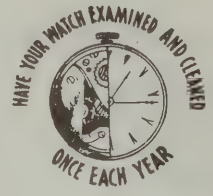

The paper staff is under stress
To get this paper to the press
So you can read the latest news
Of DK members and their views.

We hope you all enjoy this mess
Of chitter chatter from the press
We try to please most everyone
From novice to the tech-ni-shun

So settle back and read these lines
Enjoy yourself till better times
Come rolling round for all of you
Until next month we bid adieu.

SLIVERS AND SPLINTERS

Well here it is coming up on income tax time, as u will note by one of our articles and advertisers. e hope you all receive a sizeable return.

We have a report that Gary W7PZM was involved a car accident and got some injuries due to it. pe you are on the mend and back on the air Gary.

George VanKleeck announced at meeting that he ssed his general class. Since George's call has pired he will be issued a new one shortly. ngratulations George, will be looking forward to aring you back on the air.

Bob W7RXS, has had a little session with the bug. Must be bothering him since he did not wl on Tuesday night. Takes quite a bit to keep b away from the league.

We hear Dwayne and Patty Lewis spent a few ys in bed. This is the way it was reported to us.

W7IKG Merl, talked to Len W7DZX at Seattle U. st week on 20 meters.

Scotty, K7CYZ who won 2nd place in the loggers ntest spent his well earned certificate for a new nd book, 1965 edition.

Bill, W7ZFY, was home long enough to buy a new TO to drive back to Washington D.C. where he is on ty at the Pentagon. He is now Ensign Rohrer.

Has anyone found Art, W7JGN, on the air yet? ess he is too busy fishing to get on the air.

Tom, W7FUL, has added another section to his tenna and Gene, K7EEK, has his tall antenna ck up.

Dennis Reanier, W7UBA, is the newest member DK. Dennis is manager of the ham shack at &G. Everyone go up and shake hands with him.

Lloyd Larson is on a curling team. This has thing to do with hair. We bet he has dimpled knees der the kilts.

Chuck and Phyllis Nee are now in their new me.

Come on you Members
Bowl up a storm
At Bowlero Lanes
On Sunday Morn.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

. 2. NR 4 APRIL 29.6 – 51.0

50TH ANNIVERSARY BANQUET

With 50 people present to enjoy a delicious meal, e celebrated our 50th year as a radio club. The bles were decorated with cedar bows and golden ffodils and greens made by Wyn Paus. Ethel WLX made name tags for everyone, a square card th a gold 50 and the club call letters.

A table was set up with the records of the club everyone to see. We had articles and pictures ting back to 1915, when the club originated.

The original officers that were present were, Moe the first Secretary and Dwight Mason first Vice-President. Howard Riecher, first President and Al Stenso, the first easurer were unable to attend.

The picture shows Dwight receiving his tificate from Doc W7OS. Ed Moe is seated on left hand side with Max W7AEA seated on right.

Doc W7OS was Master of Ceremonies and sented Ed and Dwight with certificates and ife membership of W7DK.

Max W7AEA was the main speaker and gave alk on the highlights of our club up from 50 rs and also a few peeps into the future of at the next 50 years may be.

This was the nicest banquet I think, we have and everyone enjoyed the speeches, food the dancing.

. . . Margie K7AMJ

SKATING PARTY

The annual skating party will be held April 8th, a Thursday, at the Roller Bowl at 74th and th Tacoma Way. There will be a pot luck ner at the club house before we go to the roller k. Dinner will be served at 6:00 and skating rts at 7:00. This is a lot of fun for kids and lts and you'd be surprised who you find on tes out there.

. . . Margie K7AMJ

TACOMA AMATEUR RADIO EMERGENCY NET

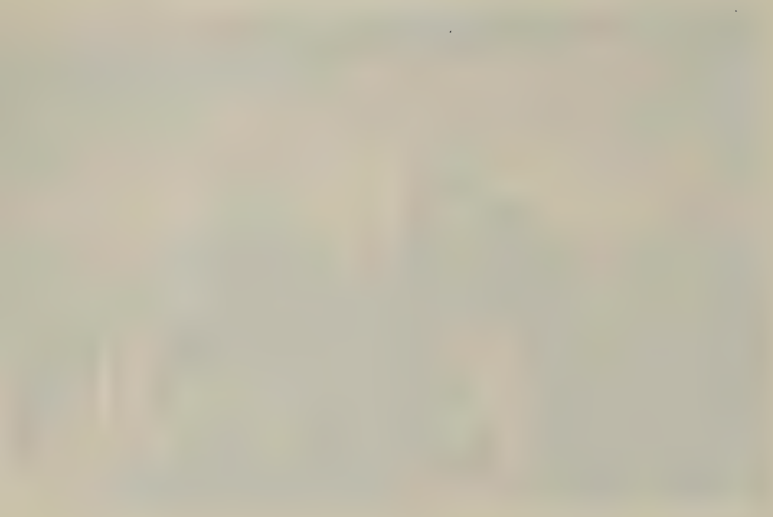

"This net convenes on the 1st, 3rd and 5th Wednesdays at 1930 hours pst on 29.6, 51.0 and 53.290 mc." As most of you know this is the beginning of the preamble of the TAREN. How many local amateurs shrug their shoulders and never bother to check in?

According to the log, we have a few very consistent amateurs that check-in every time. These people we can count on. How about those of you on the hit and miss bases? We need more capable stations on the three frequencies, whether mobile or fixed you can be of great help in an emergency. Of course mobile operation is desirable, but the fixed only stations can also be an asset when the condition arises.

Out RACES program is one of the best any where and the mobile bus is envied by other amateurs in civil defense communications. We have all the facilities and the co-operation of our city government at our disposal.

All we need now is more active, interested and willing amateurs. See you on net.73.

. . . Merl W7IKG
Alternate R.O.
City of Tacoma

SLIVERS AND SPLINTERS

Michiko, XYL of Jerry W5YFS, is going to Japan or a months visit. She's leaving her boy, Kenny ehind to take care of Jerry. Have a nice trip ichiko.

I wonderhow the accident prone spikes are? ear Doc W7OS, and his XYL had quite a time etting ready to go to the Banquet.

Smitty K7ATD, had a few dents put in his new lymouth. He drives one for 6 years without a cratch and gets a new one and POW!

Heard Doc K7AYD, on 29.6 the other day. ish I had a transmitter Doc, and I would have ven you a shout.

The traveling Devishes are off to Tahiti the 23rd April. Wait till Ethel shows us her grass skirt d a Hula Dance at one of our club meetings.

TYKE, XYL of Ralph W7COP, had to join the oken finger club. She smashed her finger in a car or and broke the end of it off. She joined Verna, 7RGD's Mother and Margie K7AMJ, they had oken fingers and she didn't want to be left out.

The Hoods, K7NPG and K7NKZ, are sporting new car. A pretty blue Plymouth.

Art Wing has taken off again. He was mad because one talked to him from here when he went to exico so he left again. This time it was Bermuda. e may join Ethel in the Hula Dance.

Merl W7IKG, is making a move with his ham shack ain. Just finished painting the new quarters and ould be moving the equipment one of these week ds.

Ralph W7COP, is just about through with the ilding of number one sons home. Should be back the air one of these days.

Welcome back to the club Alex W7AZR. Good to e you back at the club. Also want to welcome an W7LIR, back into the fold.

There will be a Ham Party at Chehalis Elks Club. 00 P.M.,April 17th. $2.00 buys a Top Sirloin eak Dinner. Dancing etc. afterwards. Reservations st be made by April 15th to Gene Hughes, 1149 rk Street, Chehalis, Washington.

See you here again next month.

. . . 88 Margie K7AMJ

AMATEUR CLASSES

Advanced Amateur classes will be starting at e Tacoma Vocational School at 11th and Yakima April 6. Classes will be held there on Tuesdays d Thursdays for nine weeks. The cost is $8.50. e classes will cover theory of vacume tubes, odes, power supplies, antenna and amplifiers c. Also there will be practical work and code actice. This is a good chance for the Novice d Technicians to get their General license.

. . . Jerry W5YFS

UPPER LIMITS

This column is a roughy during the winter months. There isn't much to report. We did have a stand-by on 51 mc. March 19th, when someone tried to burn Northeast Tacoma up.

The hidden transmitter hunt is still holding a lot of interest. There were seven cars out last time and your's truly came in first, so I will be the Bunny April 2nd. Be at the Club House 8:00 pm, Friday, and have a good time.

51 mc., the club listening frequency, has been very active this month. It is more of a yacking frequency, instead of a listening frequency. I understand that 53.290 mc. is very active and it is now being used as a state-wide emergency monotoring frequency. Will get more info on this and maybe we can have some news reports from that gang.

Dwayne, K7KSZ and Patty, K7NQR received a nice letter of commendation for giving assistance to a freight truck in need of help. It was a very will worded letter thanking them for their assistance. This is the kind of publicity the hams need and it makes one feel that your help was appreciated. Let's have more of these kink of letters.

If any of you come up with any news items during the month, send it on to me so I can get it in this column.

. . . Scotty K7CYZ

2502 JEFFERSON AVE. TACOMA WASHINGTON

Hi:

Received the NEW SWAN 350. They look real nice and more coming.

Have been selling a lot of the Rohn Towers. Had to bring in another Load. Most fellows are buying the 25-G Type as it's Zig-Zag Bracing and Heavier Construction does a real fine job at a reasonable price. See us so we can quote on your needs.

Rotary Beams of all types, sizes and varieties moving real well. Hy-Gain's NEW 204-B A 4 Element 20 Meter Beam now in stock and have delivered two.

Now is the time to shape up your Antenna. We have everything in stock for your needs.

"Dennis W7UBA"

MEET THE LOGGERS

leet Max Bice W7AEA:

Max was born and raised for eight years in Toppenish nd Yakima, Washington. From there his folks moved o Seattle and in about 1937 came to the Tacoma rea. His first residence was in the Dash Point area.

In 1941 he dropped his single status and joined rces with M.J. and set up housekeeping in Fircrest. n August of 1953 they moved to their present home n Cherry Cove in North Rosedale.

Max and M.J. were blessed with three lovely aughters. The oldest, Kathee, is a Sophomore at .P.S. Next in line is Marilyn, who is in High chool and last but not least is Luann, 11, ho according to Max seems to have the most terest in amateur radio. In her case I think is would be a welcomed second harmonic on e air.

Max was first licensed as an amateur in 1928 d now holds an Advanced Class License. He so holds a 1st Class Commercial License as of 936.

Max also held a Portable Amateur Call of W7BHJ ck in the days when it was required for portable eration. This call was dropped about 1940 when e call was no longer required.

Most of his operating was the 100 or less watts till about 10 years ago and all of the equipment as home brew. His first real commercialy built ece of equipment, in way of transmitters, was Johnson Ranger. His present station consists ainly of a Hallicrafters SR-150, Collins 75A4, hnson Thunderbolt, G.E. 100 watt FM on six eters, Motorola 2 Meter FM, Walki-Talkies on FM and a home built SSB Monitor. This list uld keep on going with a long list of home de gear but let's just say that he can get on m 160 Meters on up to and through 2 Meters.

My first love, said Max, is SSB and CW. To ve it he has wallpaper hanging in the shack with ards to back up his claims. To list a few here e some of them: DXC with a Confirmed 159; also s cards to send in to confirm 172; WAC;DXCC; C; Royal Order of Wouf Hong; Quarter Century rtificate; Hope Certificate (Worked in Indonesia rbor); and Tops CW Club. The last one listed is so held by Phil True W7AQB. Max advised us t these two are about the only ones in this area.

Max also has had time on the air on radio teletype wever, at the present time the machine is not in t ack. Max and Alex W7AZR were some of the sts in the Tacoma area on teletype with two way mmunications.

Max is General Manager of KTNT Radio, FM and V. This keeps him fairly on the go. With his veling and other commitments he doesn't get to join in with the club activities as he would like to. He does join with us on field day, you have probably seen him pounding the key in the 40 CW Shack. Also he is on one of the Bowling Teams.

This year he will be the Daffodil Chairman which will tie him up a little more with activities. I think Max would readily agree that with all the projects going on a 48 hour day and a 24 day week wouldn't be long enough to get everything done.

I could go on for another page or two listing his activities outside of his job and amateur activities but will have to stop and just say he is busy every minute and most of it is with some aspect of radio communications and construction both commercial and amateur.

We will close this article with a Thank You to Max, M.J., and the girls for a nice visit with a piece of pie and the usual good coffee.

Here's wishing you a good piece of DX and may your power ever run cool.

. . . Dick W7RGD

POETS RETREAT

Let's all head out ot the skating rink
And try our skill on skates.
For spills and thrills and all that junk
We hope you won't be late.

Let's all meet up at the club house first
And have a bite to eat.
There's a Pot Luck Lunch for all of us
Made by the Gals so sweet.

So we'll see you all on April 8th.
That's when the date's been set.
At the Roller Bowl on 99,
You will all have fun I'll bet.

HAM FEST

The Skagit County Ham Fest will be held this year n April 24th at Arlington. This will be a one day ffair starting noon and going till midnight. There ill be activities for all including the XYL'S and he Harmonics. The tickets are $3.00 and must be urchased ahead of time since there will be no ickets sold at the door. Write or contact "Foxy" 7TWA for information or tickets.

. . . Jerry W5YFS

THIS MONTHS GOLF

The first golf contest sponsored by our club was layed at Meadow Park on March 20th. It was a est ball two-some. The contestants were; Roy K7USF and Smitty K7ATD as one team, Scotty K7CYZ and Glenn W7CMZ were the other team. Roy and Smitty took the match with 40-40 total 80. Glenn and Scotty ended with a 43-46 total 89. Roy had low score for the 18 holes with 42-43-85.

We are still open for people who are interested n playing golf and are planning a 36 hole open contest for this summer with trophys and prizes. So come on and get your name on the list so you an get your handicap.

You who want to play a best ball two-some let me know and Ken K7KRD and myself K7CYZ will give you a chance to whip us.

I will be at the Ladies Auxillary meeting April 7th to establish a Ladies Golf School and at that time I will cover a few of the fundamentals of golf. So any of you gals that are interested, be at the Aux. meeting April 7th.

. . . Scotty K7CYZ

LADIES AUXILLARY

The next meeting of the Ladies Auxillary will be on Wednesday, April 7th. This is an important meeting because we will have election of officers. It is the duty of all members to try and be present so that we can have enough members there to have a good election.

There is a lot of important business to handle in the coming year. It will be nice to have better turn-outs at the meetings. Everyone whose husband or son belong to the radio club is automatically a member of the auxillary and no dues are required. If you don't have transportation call someone and ask for a ride.

It has been a pleasure serving you as president of this wonderfull organization. I hope the next president will have the fun I did this year.

See you at the meeting.

PAST AND FUTURE PROGRAMS

At the regular meeting of March 24th, our program got switched on us. The DK Zero Beats did not show up, but we had a very interesting program anyway.

Jim W7BSW gave us a talk on his experiences in Europe on his last trip. It was good information for anyone planning on a trip to Europe and planning on operating in any of the countries, you should get in touch with him.

Gene K7EEK played us a tape of Oscar in orbit. To fill out the evening we had a hole-in-one contest. The only ones sinking the putt, were Merelin W7IKG and Al K7LWE, who came up with one each, so we had quite a play-off. After about sixteen putts each, Al came up with another sink to take the prize for the evening.

The auction held after the March 10th, regular meeting, was a big success. The club made $79.80 and a lot of people got some real bargains. There were some real good gear in the pile and some of the bidders got a steal.

Next month Bud Young, W7HMQ will have a talk on emergency communications and also will be looking for someone to appoint for the E.C. position for Tacoma.

The second meeting we have some more film scheduled

See you at the meetings

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

VOL 2 NR 5 MAY 1965 29.6 - 51.0

ARRL BULLETIN

FCC today proposed extensive amateur rules changes and solicited comments by July 15. Highlights include new First Class license requiring one year experience plus 16 wpm code and written test between General and Extra in difficulty. One year after rules are effective the lowest 25 kc., and after two years the lowest 50 kc. of 80, 40, 20 and 15 meter c.w. bands would be restricted to Extra Class. After one year lowest fourth, and after two years lower half of 80, 40, 20 and 15 meter phone bands would be restricted to Extra and First Class. Advanced Class would be renewed only as General. Extra and First Class licensees would get two letter calls, Advanced and General would keep standard calls, Conditionals would have WC prefix and Technicians WT prefix. Present holders of two letter calls would retain them. ARRL is sending text of docket to all clubs and May issue QST will have complete details. Because of complexity licensees are advised to await publication of proposed rules and stucy the matter before commenting.

R 1000

In their Notice of Proposed Rule Making the CC explained at length the need for an incentive license structure which would encourage mateurs to increase their technical knowledge nd operating skills. Incentives are proposed y reserving certain portions of the 80, 40, 20 nd 15 meter c.w. and phone bands for the two ighest classes, Extra and a new First Class, nd by the use of call signs which would identiy the class of license of the operator. A new irst Class license is proposed requiring one ear experience plus 16 w.p.m. code and a written xamination between General and Extra in diffiulty, and two letter calls might be available nder certain circumstances. In addition, FCC roposes that Novices have a two year license term and retain present privileges except no two meter voice operation. The notice invited constructive comments and suggestions by July 15. The league's Executive Committee has reviewed the proposal and , in recognition of the importance of his call sign to most amateurs, has requested Headquarters to study possible revisions to minimize the possibility of drastic call sign changes and other hardships. The complete notice has been sent to all affiliated clubs and will be published in May QST. All amateurs are urged to withhold judgement until they have read and studied the notice and then to submit their suggestions to their Directors prior to the annual board meeting to be held on May 21.

-... -

NOTICE

Starting with this May issue the Loggers Bark will be printed by the members of the Radio Club. We will no longer send the material out to be printed by the J & D Printing but will print the paper on the staff's own printing press, which was obtained from Alpine Printing on March 27. J & D Printing has published our newspaper since last June and we have been well pleased with the workmanship and quality that John has put into the paper

Please bear with us during the transition period. The quality of print may not be that of the last 7 or 9 months but as the staff learns the operations of a press our quality should improve also.

We will thank you in adv ance for your patience. .....The Staff

FIELD DAY ACTIVITIES *

With Field Day* just around the corner
s time to get in gear and start think-
of station equipment, antenas, gener-
rs and the fun of putting them all to-
her and keeping them working for 24
rs continuous.
We need operators and station equipment
usual, so call me up if you have a sta-
n you'd like to set up. We especially
d c.w. stations, so give me a call.
We'll have fun and feed for sure.
F-D chairman Beryl K7NPG

ucky boy.
Scotty K7CYZ has retired Vivian as his
olf caddy. He got a new golf cart for
is wedding annaversary.
Jeanne Hood, harmonic of K7NPG, is of-
icially engaged. Good luck Jeanne.
Wayne K7HBO is in the hospital. Get
ell soon Wayne and see you on the air
oon.

Ev W7CZK is leaving Sunday April 25 for an extended trip around the United States. He's picking up a new trailer in California. Have a good trip Ev.

Have you noticed the printer's ink on the Loggers Bark staff members? They go around muttering something about justifying, new blankets, playtex solutions, etc.

Dennis W7UBA has acquired a model 26 teletype machine and is making plans to get it going and on the air. Good luck.

Doc Nace K7AYD was overheard on 29.6 giving a run - down on the details of the Tacoma General Hospital fire, shortly after the fire was under control.

The Devish's left on schedule for their trip to Tahiti. Understand Roy has the camera with him so we should get some pictures when they get back to the States.

Jerry W5YFS was overheard mobiling on his way to the Skagit County Ham Fest on Saturday, on 75 meters ssb. Real f-b signal Jerry.

That's about it for this month.

MEET THE LOGGERS

et William Chovil K7VQM:
Bill was born in Tacoma and lives now 3117 North 19th, with his lovely wife gela and daughter 8 who also is named gela.
Amateur radio is but one hobby in a st of other interesting hobbies, that he s and is doing with his spare time. Arery and photography have been on his st list and presently the study and use f Morse Land telegraphy keeps him busy.
Bill obtained his amateur license back n 1963 and is presently keeping the qrm oing on 40 meters c.w. He uses a SX-117 allicrafters for a hearing aid and a DX-0 Heathkit to get his fist across the air aves.

BILL AT THE KEY

At the present time he is employed by the Post Office Department as a Postal Letter Carrier. Before working with the Post Office Department, Bill was a Public School teacher and taught math and science in the Jr. and Sr. High schools. At the present time he tutors adults and children in Spanish, English, Math and Science.
One more late study he has taken on, is the study of parliamentary procedure, presently being a member of the American Institute of Parliamentarians.
With all of Bill's abilities he would be a good prospect to put to work on the newpaper to keep them in proper order.
Good luck to you and thank you for your hospitality. May your key never get rusty.
.....Dick W7RGD

IMPORTANT NOTICE

There will be a special vote taken at the next Auxillary meeting on releasing part of the money in the Lounge Fund. Any one interested should try to attend.
....Pres. Fay Monroe

LATE FLASH !

We have just received information that our present treasurer of the club, Rich Anderson K7OMA, has received traveling orders from the Air Force and will have to move out of the Tacoma area.
This will mean the members of the club will have to nominate and elect a new treasurer for the club, so if you want to nominate and vote for a new one be sure to attend the first meeting of the club this month.

MOTHER'S DAY BREAKFAST

The annual Mother's Day breakfast will be on May 9th this year at the Club House. Stan, W7LIR will be our chief cook this year and will be out to show the gang his cooking abilities. The menu will consist of the usual pancakes, eggs and bacon. The food will be served starting at 8:00 am.

Remember ladies, this is your day and you will be queen for the day. No cooking, serving or cleaning up. The OM has to do it all.

Remember also fellows, this is a two-fold activity. One, we honor the ladies and give them the day off and second the breakfast will be a fund raising project for the club.

There will be a change in the admittance fees this year from the previous years. The fee will be $1.oo per adult and 25¢ for all children under 16.

So don't forget the date May 9 at the club house for a real first class breakfast and watch the fun when the fellows try to take over the gals job. We will be looking for you there and see how many pancakes you can put away. I'll take all comers on this score and eat any one under the table.

POETS RETREAT

BUILDING BLOCKS

ve you ever built a project,
With the parts all scattered 'round
d lost the one you needed,
Mids't the crud that lies in mounds
saw it just a minute ago
To yourself you say
w where in *&%# did it go
Let's get this done today!

's probably right in front of you,
But see it you cannot
has it moved itself around,
And found another spot?
e tensions mounting slowly,
And a hammer's lying near
t whats a hammer got to do,
With the parts you need so dear?

you take a break, relax a while,
And take it kind of slow
you head for that old coffee urn,
To pour a cup of jo
does your gearbox keep on churning
With the gray stuff getting hot
you rummage thru those piles,
Looking for a mislaid pot.

es the essence of this story,
While we sit here in a lull
ally hit the nails head,
Or is it just a bunch of bull
these crummy lines are boring,
We will try to toe the mark
d write some better poetry,
For next months "Loggers Bark".

BASKET SOCIAL

YES---RR--REE we are going to put on a real old Basket Social!! In case some of you young gals and guys dont know what we are talking about, here is the low-down.

Saturday, May 22nc, at 8:00 p.m. at the Club House, is the place and time The way things go is this; The ladies, gals or women bring a basket filled with good things to eat. The basket is put on the auction block and the highest bidder (men) gets the basket and the priveledge of eating with the lady who brought the basket. So, ladies, be sure that you have enough goodies for yourself and a hungry man. After the auction and eats, we will spend the evening at cards and games, or maybe a little dancing.

So, get ready dor a lot of fun and we hope that there is enough baskets for all the men, The proceds from this little caper will be used to repair the club house and pay off the street L.I.D.we just got stuck with. See you May 22nd and I will bid on the fullest basket.

....Scotty K7CYZ

ON THE TEE

The golfers are doing OK. Roy K7USF is getting to be quite a chipper. If he don't forget how to drive and putt, he will be in shape for the big game. Roy and Ken made a bet on 51mc. the other night. I will let you know who collected after Saturday. As some of you know, I visited the Ladies Aux. meeting April 7th and found that some of the gals are interested in the game so one of these days you will see some of the ladies names in this column.

Any of you gals that did not attend the April meeting and are interested in golfing (beginner or pro) let me know and we will get you in on the fun.

The challenge between W7DK members and any other radio club was announced in the last meeting of the Puget Sound Council of Radio Clubs. As yet we have not received any commers but we are expecting some in the near future, I will keep you informed. ....73 (one over par) and [illegible]

UPPER LIMITS

Another 'turn out' of the C.D. bus and and-by by the gang, hi-lights this months civities on six. The 3-11 fire at Tacoma neral Hospital on Easter Sunday could ve a disaster far greater than the Good- laday disaster in Alaska. Although the netary loss was great (50,000.00) the t that there was no loss of life, can be edited to only one thing. The sheer rage of the nurses and staff in handling e patients and preventing a panic. One s-step could have turned the orderly acuation into a frantic stampede.

The idea of Fire Chief Reiser "more than ough equipment is far better than to ttle-to-late" has been proven before and ain Easter Morning. The sight of ladders l fire rigs responding, with smoke billow g out the roof is a heart chilling sight say the least but the fact that the ucks were there in numbers could well be e controling factor that a holocaust was evented. To hear the check-ins on the and-by frequency was heartning. It shows e people of Tacoma that the Hams are ady at a moments notice to give of their me and knowledge in a time of dissaster.

This sounds like an editorial but there n't anything else to yak about except the ffodil parade and there is an article sewhere in the paper covering that, so anks to the UHF gang for a job well done the fire.

.....Scotty K7CYZ

WOMENS BOWLING

The DK Loggerettes bowling league are king their plans to continue the league ain next season. If any of the gals at read this paper would like to bowl lease call either Rene Smith, JU 8-4669 Inez Churchward, SK 9-7970.

This has been a lot of fun for the irls this year and I'm sure next year ill be as much fun!!

Rene has been elected President and nez will be the secretary for next year's eason.

Our season ends May 11th and we will et you know the trophy winners next month.

....Margie K7AMJ

WHY IS A HAM A HAM?

For years amateur radio operators have cheerfully accepted the appellation "ham." But no one. . . not even the most ardent ham. . . knows for sure why he is called a ham!

George Grammer, technical editor of the American Radio Relay League's monthly publication "QST", has said that prior to amateur radio, in the days of the early telegraph, operators who sometime blundered with their keys were called "hams" because their hands were referred to as pieces of ham. The label carried over, he says, to amateur radio operators.

Edward Handy, former president of the ARRL, gives most credence to the English derivation that amateur athletes in the British Isles were referred to abbreviatedly as "ams" with the resulting Cockney pronunciation of "h'am".

Arnold Tressman, editor of the radio amateur's journal early station operating out of Harvard University was manned by three operators named Harold, Arthur and Michael thus the first initial of their given names formed the basis of the abb reviated call "H-A-M".

Now along comes Chief Postal Inspector Henry B. Montague, speaking at the dedication ceremonies of the new Amateur radio commemorative stamp, to say that in 1909 one of the first amateur radio stations operated under the call letters "H-A-M". The letters were composite of the first letter of the surnames of the three amateurs who operate the station at Harvard, Albert Hyam, Bob Almy and Peggy Murray. When proposed Federal legislation threatened to destroy amateur radio several years later, Albert Hyman went to Washington to testify and to defend his station "H-A-M". As a result, the word "ham" came to mean all amateur radio operators.

So now we have at least these four versions. Perhaps some reader, ham or otherwise. can shed some light on this problem.

-... -

DAFFODIL PARADE

On Saturday April 10th, the Civil Defe Communications performed in their hal excellent manner. They furnished h communications for the marshals of the rade, using the City Light radio frequ-y. Not one float, band, or marching t was lost or delayed. This year's par had as many marching units and float any year, even if several nearby com-nities were not represented.

The policing frequencies were on 51MC 53.290 MC. We had mobiles and walkie-kies scattered all through the parade te and at the local TV station and io stations as well as public address tems.

By using the C.D. Bus as a headquart-where we have police, fire and the rrif, we can correlate all the requests help.

Right in the middle of marshalling the ade, we had a 211 fire at Paulson's, at h & K sts. Fire alarm excused us from ticipating, keeping us on a ready alert case they needed us. There were two er 101 fire calls during the parade. o, just after the parade started, we e alerted about the holdup in Lakewood.

One of our greatest needs is for more kie-talkies, especially on the ham fre-ncies. If any of you have any walkie-kies, please keep us in mind for next r.

Commissioner Jerry Bott told us that s years communications was the best t they have ever had, and a great big rty thanks from the parade officials s to every one who helped.

....Smitty K7ATD

C-D DRILL MAY 7TH

On Friday May 7th, there is going to be a Civil Defense drill starting at 7:30 p.m. This drill is going to try and fore-cast what would happen to the city if we had a earthquake equal in intensity to the Alaska quake, but being a continuous quake of four minutes duration.

We are trying to determine what would happen to commercial radio antennas, fire antenna, and police antenna. Also what would happen to the electric power? What would happen to the telephone lines and the water supply? All of these questions are being taken under consideration, and what Civil Defense should do to restore order and to relieve any distressed person

We think that our first job would be to restore police and fire communications. This we could do with our bus. Next would be to furnish power to any commercial radio station so that they could give dir-ections to a greater number of people. All of the hospitals have their own emergency power, so our responsibility would not be needed in that direction.

What would happen to our own a[illegible] Could we rig up a temporary antenna [illegible] get on the air? We do have several port-able generators strategically scatte[illegible] around the city and these stations ha[illegible] great responsibility to get their stat[illegible] on the air as soon as possible.

Mobiles are going to be a great value during a calamity such as this. Both for temporary communications and mobility.

All of these problems are bein[illegible] con-sidered by your civil defense and an exercise such as this helps to pin-point any areas that are not provided for in our emergency procedures.

A number of you will be called on to lend us some support and it will be great-ly appreciated.

....Smitty K7

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

V 2 NR 6 — June MAY 1965 — 29.6-51.0

EDITORIAL

WHAT KIND OF RADIO CLUB DO YOU WANT?
do you even want a radio club?
Shall we have our club be a strictly
chnical club with speakers and programs
oted only to amateur radio in it's
chnical form? Or, would you rather have
variety type" of program, which will be
f interest to the ones not blessed with
trictly technical minds.
ow about supporting and maintaining
club? Does your $6.00 per year take
e of all expenses incurred during the
r and release you from further obliga-
n. If you think so, you are wrong!
many organizations would survive if
members just paid their dues and no-
ng more? Why have meetings? Why elect
ficers? Why do we need a club house?
I paid my dues, what more do you want?
this the attitude the majority of the
bership has taken?
ur club has been assessed with an LID
$600.00 to resurface Washington Ave.
the $6.00 per year membership dues
m 53 paying members going to pay that,
taxes, and fuel and insurance? You
sure bet it won't.
o how will we assume this added debt
towed upon us.
Our vice president suggested we hold a
social events to raise part of the
ney we need. A worth while suggestion
say the least.
First we had a mothers day breakfast.
of 92 members, 8 members with their
milies attended the function, which is
ss than 7% of the membership.

(cont.)

Second we had a basket social, which if well attended, could have been a lot of fun as well as lucrative. As it was only 3 members and their wives attended, which is about 1%. Pretty sad isn't it? Don't we believe in fellowship anymore?

What is the answer to the apathy of our club? Shall we demand a pledge from our membership to cover the cost of the lid, or do you want to have social events and get some fun and fellowship for your money?

Here is a balance sheet of our years receipts and debits to give you an example of what we are up against.

DUES		$326.00
Taxes	$80.00	
Maintainance	240.00	
Insurance	35.00	
Council dues	10.00	
Generator lic.	9.40	
Secretary supplys	71.05	
Misc.	50.00	
Total exp.	495.45	

This is how the record stands. It's up to each and every one of you to sit up and take notice. Write a letter or bring your suggestions to a club meeting on how we can lick this problem. Don't leave it up to the next guy, this is the problem we have now.

Let's be proud of W7DK and make it an active club like it used to be. If we are proud enough to pay our dues, lets be proud enough to tell people what we can do for the club. .....Editor

LETTER TO CLUB

May 23, 1965

dio Club of Tacoma Inc.
59 So. Washington
coma, Wash.

r Friends,
I was hoping I could make this Wednes-
rs meeting, but I have other committ-
ats, so I'll write and discuss Field-Day
bit. Most of the old timmers in the
ub know my views but thought that a re-
w might be in order.
Please don't forget that most of yeu
ll be camped along side my airstrip,
ich by the way is listed on both state
nd Nationas maps as such, and landings
nd take offs can't be interfered with.
Nr do I want any unnecessary driving on
e strip.
Please don't climb fences. They are
tting awfully tired and ready to
ollapse. Use the gates that are there
r that purpose.
If someone wants to see my airplane,
st ask me. I'll be glad to show it to
em. Last year someone had climbed in
d left the ignition switch turned on.
ease pardon me for being "touchy" about
plane. Remember my neck rides in it.
Bring some extra horse shoes and let's
t in some practice between contacts.
Please let me know when you plan to put
antennas.

73,
Joe Asplund W7IG

NOTE

Remember, our Field Day site is Joe's
rivate home as well as his sole means of
pport. Act like a guest while yeu are
ere and you might be welcomed again next
ear.
There is plenty of work to be done in
e club house yard if you want to work
t your 2 hours for the year. All you
ed to do is put in 2 hours work and re-
rt it to Ed K7CZM.

...Beryl K7NRG

WOMEN'S AUXILLARY

The Women's Auxillary met at the home of Phyllis Nee for our May meeting, and we had a very nice time. We are looking forward to a return visit.

Plans are being made for a rummage sale the date and place to be announced later. So begin to gather your rummage.

The next meeting will be at the club house June 2nd. It will be our last meeting until fall, so let us have a good turn out. ....President Vivien Huntley

BOWLING

Well, the bowling season finally came to an end, and several members received some nice trophies.

Cliff Osborne, W7MFG, received a trophy for the most improved bowler in the Astronauts league. The two men's teams didn't finish very far up towards the top of the list, but we sure did have fun. Merl, W7IKG, split second prize in the sweepers. Also Merl received a trophy for the most improved bowler in a Sunday night league.

ON THE TEE

The golfers have been practicing every Saturday and Sunday and are improving all the time. We have a tournament tentively scheduled for the latter part of July. It will probably be a two day affair,36 hole. This will be sponsored by and for Radio Clubs only. In other words, a player must be a member of an Amateur Radio Club and sponsored by said club. Clubs may enter as many players as they wish. There will be invividual low - score trophies, also a sponsor trophy. So far we have four entries from two clubs and we would like a lot more. So any golfer who would like to get in this play, talk to your club and see if they will go along with you. We figure on the player to pay his own green fees and each club will pay the $2.00 entry fee. This will include all players from that club. I will have the exact rules in the July issue. For any information, contact me.

.....Scotty K7CYZ

HORSE SHOES AND STAKES

The rules for this summer horse-shoe tournament will be in the July issue. So get the old arm warmed up. We had a ball last summer & this year should be better.

.....Scotty K7CYZ

DON'T FORGET TO DONATE TO THE FIELD DAY GOD KITTY!!!!

GARDENERS OF PARADISE DAYS

On May 15th and 16th some of the members of The Radio Club of Tacoma helped to set-up and maintain two public address systems for the entertainment of visitors at the Annual Gardeners of Paradise Days at Point Defiance Park. The weather did not cooperate at all as it was one of the worst days we have had all Spring.

Roy and Ethel Devish usually make all of the arrangements for the public address systems, but this year as the Devish's were travelling in Tahitii Dick Ryan and Otho Smith helped by attending the briefing meetings and arranging for the P.A.'s. However, the Devish's made it back in time and set the equipment. Dick Ryan, Roy Monroe, Otho Smith and Roy and Ethel Devish did the operating.

This is another way that we can be of help to the community.

CHEAP & EASY TRANSCEIVER

Numerous articles have appeared in the rnals concerning the modifications of izens Band transceivers. Most of these ricles featured one manufacturers model. changes will fit most all the gear a lable with the exception of a few.

Taking the transmitter section first, t of the rigs employ a third overtone illator operating directly on the out- frequency. Usually a triode section illator followed by a pentode P.A.

Note that some of the rigs use a 13 MC stal and double in the oscillator plate cuit. Either circuit may be used and very easy to push up to 10 meters or 6 ers operation. For 10 meter operation, plate of the oscillator is tuned to 29 with the aid of a GDO. Some will vary this respect and may need 3 or 4 turns en off the tuned coil in the oscillator te circuit. The final tank coil is ated the same way, To maintain good Q, 4 turns are also removed. Resonance checked with a grid dip oscillator.

For 6 meter operation a 6AK5 oscillator employed ahead of the original circuit then multiplied on up to the operating quency, through the triode and pentode. er? Most of the rigs will do 5 watts n no strain and a number of them will ten watts with the proper tube and er supply. More on this later.

The receiver sections are for the most at the real bargain part of the trans- ver. They range from variable tuning crystal control, squelch, noise limit- , dual conversion and single conver- ns. Again this conversion will vary in the model you may have. The first illator will have to be aligned and ed to the injection frequency required 10 or 6 meter operation. If it is cry- l controlled, a crystal with output on injection frequency will be needed. If turns will have to be removed toobtain right "Q". The I.F. will be any freq- cy-262KC - 455KC - 1750KC etc. that the ufacturers used!

The receivers are very sensitive and e an excellent signal to noise ratio.

My own particular rig was a Lafayette B115A. The power was hopped to ten plus ts input. The transmitter tube was nged to a 6KR8. The audio system, ch doubles as a Heising Modulator uses 6AQ5 choke coupled to the final. The ke is the primary of the output trans- mer.

(cont)

We have had the rig in the car now for a month and have had very good success on 29.6. Contacts have been maintained on ground wave from Auburn with the signal opening the squelch on the BC 683. For mobile or fixed operations, these are nice units and very reasonable priced used. See you on the air!!

....Merl W7IKG

SLIVERS AND SPLINTERS

Ken K7KRD, one of the local golfers ought to move to Arizona. He wouldn't wear his new hat last Saturday because it was sprinkling.

One down and two to go for Beryl K7NPG and Laverne K7NKZ. Congratulations to their daughter Jeane and the bridegroom, Buck.

Some people know how to play poker but Scotty K7CYZ takes home the money.

I hear Roy W7AZI really went for the grass skirts in KH6 land. He says the best time to visit the islands is between 20 and 25. We wonder if Ethel W7WLX brought home any unatached grass skirts?

If Emil K7GPK doesn't move Irene up- stairs pretty soon, we will have to take up a collection for ash trays.

Have you listened to 29.6 lately ? There were 15 check-ins on the Wednesday night net. Tune in most any night and see.

Verna and Harry Ryan are on a trip a- cross the United States to visit the great state of New York. We received a card from Mt. Rushmore stating they were having a great time.

Ev K7CZK is back from his trip to the south. Probably will take off again after resting up for awhile.

Anyone want to practice horseshoes? Come see W7IKG. We will challenge anyone!

The teletype bug has bit another mem- ber of the club. Chuck W7PUN has a model 26 teletype machine and is getting ready to build the necessary equipment to go with it. Good luck Chuck.

Don't forget, field day is on the 26th and 27. What band are you helping to set up in operation? What bands do you want to operate on?

Do you remember one of our past presi- dents Ernie Ripoli W7NIL? We heard him on the air one night on 29.6 talking to the gang.

Now that the toll is off of the Narrows bridge, we might get to see the churchward group more often. ....Margie K7AMJ

MEET THE LOGGERS

eet Russ Chryst W7ATB.

Russ got started in this world in 1893 ck in Leroy Illinois. They even had a rld's Fair that year there to celebrate. 1910 he moved to California. At that ime he got interested in electronics and d a Ford spark coil for a transmitter. is was in the days before calls were ssued.

When the first world war started, Russ me to Washington and joined the army at rt Lewis. This same year, 1917, he took wife. When the war came to a end and he ft the service, he decided to make his me in Washington. This was in 1919. He tarted to work as a chief engineer with he school board. While at this job a ed for a radio school class arose and ss was the instructor.

During the second world war another job me along in the same class and Russ ught code and theory nights at Clover rk School.

RUSS AT THE CONSOLE

Currently, Russ holds a General Class cense and has been a member of W7DK for out nine years. Quite a few years ago attended some of the Radio Club's meet-gs at the old club house but did not in at that time.

He has a lot of projects going on a-und the shack. Among them he is working a pulse generator for muscle exercising d most of the projects are with transis-rs. We noted he has a couple of "happy ights" to help overcome the cigar smoke d I guess they do work since he had the ual cigar a going in his mouth.

(cont)

To get on the air the shack consists of a Hallicrafters SX 101 A, Heathkit DX-100, Model 26 Teletype machine Gonset 20 meter bow tie, Dipole for 10-15-20-40 and a long wire for 75.

When we asked him if he had any certificates hanging on the wall, he advised me no he didn't go in for that kind of thing. Of course there is the club membership certificate. After checking the station log we determined that he was definately entitled to a Loggers Ccertificate and he should at least have one of them on his wall. So a list was taken and maybe we will be able to start him on the road to papering the ham shack.

After having a cup of coffee and doing a little chit-chatting about teletype I left Russ and he went back to his latest project.

Good luck Russ and may your supply of cigars never run out.

....Dick W7RGD

LOGGERS BARK DRAWING

Don't forget that on June 23rd we are going to have the drqwing for the tickets that we have been selling. It is very important that we have the tickets turned in to Margie, K7AMJ, before June 23rd so that they can be in the pot for the drawing. Don't forget that the first prize is a [illegible] inch portable T.V., 2nd prize is a Admiral table radio, 3rd prize is a 6 transistor portable radio.

The proceeds are going to pay for the equipment necessary to run the "Loggers Bark". So if you like having the paper, sell all of your tickets, and then be sure and turn your tickets into Margie.

NEW TREASURER

At the meeting of The Radio Club, Otho Smith was elected treasurer to succeed Rich Anderson, K7ONA, who had to resign due to be transferred to Korea. We are sure sorry to lose Rich and wish him the best in his new tour of duty. We will also be looking forward to his returning.

OFFICIAL ARRL BULLETINS

4

It has been called to the attention of oject Oscar that the 145.95 Mc. coherent acon has been heard at times, very akly. Project Oscar urges that all in ested amateurs monitor this frequency l report reception of the beacon. It very important that it be established this beacon is operating, and to note type of emission, keying, or other aracteristic of the signal. Please re- t reception the coherent beacon, h all data, at once to Project Oscar, thill College, Los Altos Hills, Cali- nia. The latest sequences of orbital dictions will be mailed from the Oscar ject on request with a self addressed mped envelope AR

5

All amateurs located in the ARRL field anization, individuals as well as clubs l groups, are invited to participate in annual Field Day June 26 and 27. This nual exercise of emergency powered equip t is the ideal time to test gear such generators, batteries, mobiles, porta- rigs, east to assemble antennas, etc. venient log forms and summary sheets now available on request from the ARRL mmunications department, 225 Main Street ington, Connecticut 06111. Official les for the Field Day will appear in e QST.AR

POETS RETREAT

Do you just belong?
Are you an active member,
The kind that would be missed?
Or, are you just contented
That your name is on the list?

Do you attend the meetings
And mingle with the flock,
Or do you stay away
And criticize and knock?

Do you take an active part
To help the club along?
Or, are you satisfied to be
The kind that "just belong"?

Do you ever go to visit
Or call a member who is sick?
Or leave the work to just a few
And then call them the "clique."

Think this over members,
You know right from wrong.
Be an active member
And do not just belong.

UPPER LIMITS

Shades of "58". If you remember May 58, the six meter band opened into the iddle west and a night time opening too. is May 5th, "65" the same thing took ace. Yes! a night time opening into 9 i Ø land. WAØGKU, Fred, in Rapid City, uth Dakota, told me that he was hearing e West Coast at 5:00 PMMT and I signed th Gene KØUDZ also in Rapid City at :25 AM. I could have made more con- cts if I wanted too stay up longer but l papa sand man got the best of me. Us ngsters have to get our rest, you know. Had a good old rag-chew with Gene, DZ in Rapid City and Chuck, K7SZS in rtland, made contact at 11:00 and signed 12:25. Gene's signal was rolling into coma almost broadcast quality, the best gnal out of the plains that night, bar he. The first contact was with Lou CD in Omaha Nebraska. She was operat- g out of her basement and was going to ay in it all night because there was a ort of tornados in the area. Hope you dn't get blown away Lou and would like thank you again. The next was KØTVX, and his xyl in Paola Kansas. I'm rry I didn't get your xyl's name Fay. be it will be on the QSL card. Then ØITC, Warren also of Rapid City, South kota. Then Jerry KØUFO in Scottsbluff braska. Bill WØYYM informed me I was gible for "worked all Mc Clelland, Iowa rtificate". He is the only ham in town. looking for that piece of onion skin l. It was the most enjoyable evening I e spent on six for many a moons. I l rag - chew with guys and gals like t any time.

Remember gang in 1958 the band opened o JA and KH6 land about ten days after opening into the middle West. So take advice and keep at least one element of r antenna pointing west, because I nk things are going to "pop" this mmer.

Speaking of "popping", how did you like rock and rolling we got April 29? te a shake up wasn't it? Smitty, K7ATD d to thank all of the VHF gang for the ck response you made in an emergency. approximatly 15 minutes there were 8 ck - ins on 51 MC. They were K7s NQR, , ITY, KRD, KSZ, W7JHK and myself K7CYZ s of course, K7USF and K7ATD at c.d. dquarters.

In less than 45 minutes after the quake, re were 3 portable stations set up in

(cont)

the industrial section of town. They were W7ZTG, K7KSZ and myself. I'm sure glad it wasn't a wee bit stronger or a couple sec onds longer, we all would have had our hands full. In fact we probably wouldn't have had time for any D-X openings. I did not mean to ignore you low band check-ins. Smitty will have an article elsewhere in the "Loggers Bark", for you fellows.

You people on two-meters who have been hearing all the click, click, clicking on 146.76 FM, here is the answer. Dwayne, K7KSZ has a stepping relay hooked up to the speaker so you have to key your xmtr. five times and then call. Don't forget to hold down on the fifth squash because the relay has more than five notches, but dont forget to hit it five times or he won't hear you. Dwayne says he is going to start a new klan on 6 FM. The "squash 5 times and holler club". What a nasty trick ten guys with nervous fingers, could play on him. (Will have to remember that one for Haloween.)

Dwayne also reports that some of the mobiles were called out on a lost girl on may 11th. The mobiles reporting were Dwayne K7KSZ,Don K7PIB, Roy K7USF and Jim K7TVO in the police car. I guess they tried to get more of us but nobody was home. The girl was found by Jim, with no harm to her.

The openings into California and Arizona have been short and spotty,although 6 meters was open to 51 MC Monday evening, May 22. We have a rport from the Seattle gang that K7BAG and K7QFW worked Alex XE2PIO on May 8th. I heard the 5s working VE6s and VE8s Sunday May 22, but they wouldn't answer me or the Seattle stations calling them. The SSB boys have been having a ball below 50.1 MC. They don't leave room even for the c.w. gang.

I am starting something that might interest some of you. Starting with this issue, I am sending one to each of the DX stations I have worked. How about that gang, they only cost 10¢ and postage and a good QSL card will cost you that. (Yeh I'm a scottsman." So any of you East coast or XE2s want some news of the Pacific Northwest, just squirt your 6 meter signals this way.

NOTES MAY 26 MEETING

Only 17 members were present at the art of the meeting and a few more came later.

A new club station custodian was ppointed during the meeting, by President rry. Scotty K7CYZ will get the station ck into shape. Merl W7IKG and Emil GPK VOLUNTEERED to help Scotty on the oject.

After the routine business was complet-d, a coffee break took place and that was llowed by a talk by Beryl K7NPG, on some the prelimanaries regarding field day.

....Dick W7RGD

DON'T FORGET JUNE 26 AND 27!!

WE DIDN'T DO IT

No, we didn't do it. After the last issue, in which we talked about an earthquake, we have been accused of causing the earthquake of April 29th. But we didn't. However, it did make a lot of our predictions come true. We also made some firm believers of our forecasting ability.

We had radios on the air within 15 minutes after the quake, and were one of the first to check with the State C.D. Headquarters in Olympia. The phone lines were almost inoperable so every radio was presed into use. It just goes to show you that nothing will take the place of radios in an emergency.

The earthquake C. D. drill on May 7th & 8th went along the same lines as our actual experience during the real quake.

On May 27th we are going to have another drill. This time it will be about a nucleur blast. This time NO predictions. Only C. D. Headquarters will be activated and will only be from 10 a.m. until 4 p.m. The messages that we will send to Olympia are all canned, but the pattern of fallout and decay will take place according to a predetermined schedule.

There will be an article in the Sunday magazine section during one of the coming Sundays on the C.D. Communications bus. A reporter has interviewed some of us and has written an article and taken some pictures. I am sorry that I don't know the exact date, but look for it soon.

....Smitty K7ATD

PINOCHLE

Saturday night May 29th was our last game of Pinochle for the year.

Taking home the trophies for the month and the year were Barbara W7UYL and Smitty K7ATD. The "Bull thrower's awards" went to Vivian Huntley and Merl W7IKG.

The highest score for an evening was 4180 by Margie K7AMJ. Highest game of 2310 was made by Margie K7AMJ and Smitty K7ATD.

See you all the last Saturday of September for a brand new tournament and new trophies to be awarded.

FIELD DAY 1965

Our chairman started Field Day out on ght foot by showing everyone he could lk a cow.

We arrived on Saturday am bright and rly and caught everyone in bed but the vishes. Roy, AZI, was having a hard me trying to get the stove working. The icken house was full of smoke, but very ttle fire.

Beryl, NPG, came wandering through the icken house about 9:00 to get started on s hard 24 hour chore.

Jim, GPJ, was scrubbing the floor in the ont chicken house so he could set up 80 in a corner there.

Huntley's rolled about 10:00 just me to have a fresh p of Ethel's cof- e.

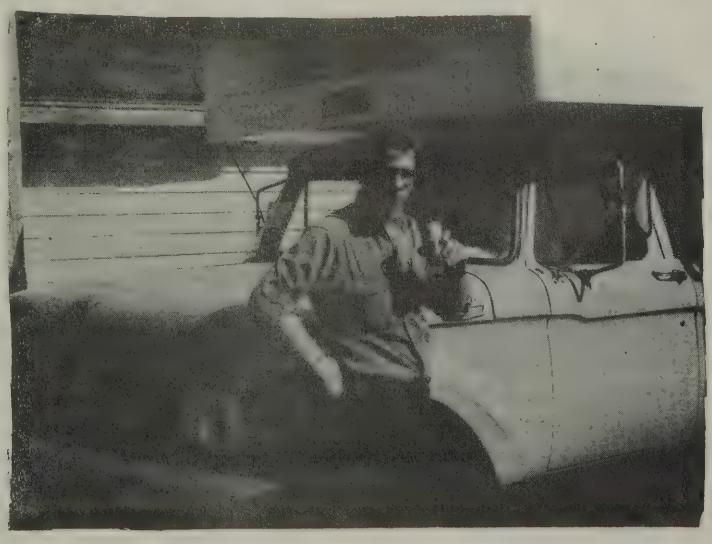

Scotty CYZ, left e coffee to set up phone across the n way.

Jerry BUN, drove in so to set up 75 one in his trailer.

Smitty ATD, was ght behind him to his share.

Dave ASY, was up etty early and was nning errands and lping with the last minute antennas.

Bob, RXS, and Nr. 2 son Jim blew in to t up 10 phone. Bob forgot his eating e- ipment. Forgot to check your list, Bob? Laverne came in with her arms loaded wn with food. One thing this Field Day, WILL EAT!!! And we did!!!

A check around the site at 12:00 we found everyone working hard. Doc, AYD, and Roger, AYC, were setting up 15 phone in the back of a truck.

Max, AEA, came to help for awhile. He had to catch a plane for New York.

Jim, GPJ, was up in a tree putting up the antenna for 80 cw.

Laverne, NKZ, has 40 phone ready to go with the help of John, CZF. Steve, SSC, and Bob, ZVA, had a nice set up in a panel truck for 20 cw. Scotty, CYZ, has 6 phone in his panel truck and things are ready to go.

Found Vivian, Rene Marge and Hazel holding up a tent while Gene, EEK, walked around trying to figure what to do next. He rented a tent and forgot to get the instructions.

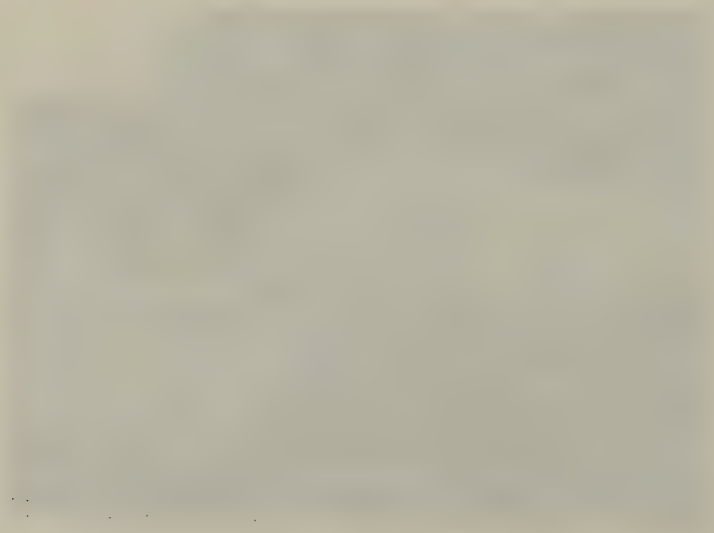

Caught Smitty, ATD playing horseshoes with Paul Rawlings.

20 phone is all set up in a trailer. The operators were out helping everyone else at this time.

40 cw was set up in a tent with Dave, ASV doing the finishing touches.

Bob, RXS, has 10 phone in a carry all truck and relaxing waiting for the deadline.

Walking back along the runway 15 minutes later I still find Gene, EEK, trying to set up his tent. The poor women are wear-

g out and he now has Smitty, ATD and
ck, RGD, helping also.

averne, NKZ, was out riding the tractor
h Jackie, Joe's Grandson.
gave the operators a one hour start
ore I started checking the stations.
3:00 we found Bob, RXS, was leaning
k waiting for 10 to open.
ax, AEA, was CQ ing 40 cw and his log-
, Dave ASV was up in a tree.
alph COP, was operating 20 phone with
l logging and Dick RGD, fixing a ground
le.
ene EEK, on 2 phone with XYL Hazel
ding him toasted marsh mellows.
cotty CYZ, holding the mike on 6 phone
Jim Churchward logging. Band was
tty dead.
oy AZI, on 15 phone with Doc AYD, log-
g. Just Island stations so far.
ifficulty on 20 cw.
5 phone had Jerry BUN, operating and
tty ATD, logging fast and furious.
0 phone was a jumbled mess of cq field
s. Steve SSC, operating and John CZF
ging. Laverne NKZ, was handing out
a pop to the young boys.
im GPJ, running 80 cw with Ken Peterson
g.
t 4:30 things really got to hopping at
cook shack (chicken house). Roy AZI,
his "radio operated" garage door open-
started getting the first meal ready.
tan LIR, brought us a real suprise this
r. He brought some delicious clam
wder to serve our poor frozen operators
sure warmed the bones at midnight.
im, BSW, brought his boys, Gregg and
k along to explore the farm while he
20 phone off to a winning start.

Dinner was served at 5:00 sharp! I must say the cooks get better and better every year. I lost count on the amount of garlic bread Ethel WLX, ate. Stan LIR, didn't get the clam chowder hot enough for dinner, so we ate it for dessert.

Art JGN, and Merl IKG, arrived just in time to eat along with Joe IG, and XYL Helen.

Checking the stations at 7:oo we found 70 cw clicking the ole bug for a fair amount of contacts. Jim GPJ, on the key with Ken still logging.

Laverne NKZ, was qrzeding 40 meters phone with John CZF, logging and Steve SSC just loafing.

Jerry BUN, was working 75 phone all alone. That will teach him to eat so much garlic bread.

Ed CMZ, was handling 20 cw all alone while Bob ZVA, was reading the latest QST.

Doc AYD, and Roger AYC, were on 15 phone waiting for something besides Hawaii to come in.

6 phone was still awaiting an opening with Wayne HBO, on the mike and Dick Hazelmyer logging.

2 meters was abandoned for the horseshoe pits.

At the pits we found Vivian, Paul, Rene Dodie, Hazel, Scotty, Gene and Steve Burnham.

Ralph COP, was walking around relaxing while Jim BSW, was working 20 phone with Dick RGD, logging as fast as he could.

On 10 phone Bob RXS, was sitting eagerly waiting for his first contact.

Back to the stove in the cook shack we caught Beryl NPG, eating his second bowl of clam chowder.

After a nice visit in the kitchen to bring my body temperature back up to normal, I made rounds again at 9:00.

Merl at the key on 80 cw, and Dick MQJ, logging. Contacts were coming pretty steady.

Smitty ATD, and Jerry BUN are doing well on 75 phone.

Ethel, Rene, Vivian and Paul Rawlings were still at the horseshoe pits. At least they knew how to keep warm.

On 15 phone Doc worked Rex VCX, aeronautical mobile over Guam. If our members can't be at Field Day they give their support where ever they are.

Back to the stove to thaw out. It was too cold to write anymore.

Vivian, Rene, Helen and Joe stayed up

played pinochle until 1:00 and poor JGN, had to sit up and wait for the lunds to leave so he could go home with m.

Stan LIR, kept the fire going all night kept the chowder hot for our freezing rators. Sandwiches and chowder were t to all stations at midnight to keep operators strength up. Merl and Dick itted they had 7 cups of chowder dur- the night.

I went to bed about 1:00 after taking e of Nr. 3 daughter Melissa who waited il then to get sick.

Up early the next morning around 5:15, found Roy and Ethel on the job in the k shack.

Breakfast as usual was wonderful. The was shinning, birds singing, roosters ving and pancakes floating around the m. The early crowd for breakfast was a ley crew of bearded, blurry eyed men ll half asleep and ready to fall asleep Jerry BUN, had two hollow legs to fill so he was our champion breakfast eater. el was second. I lost count after the egg.

Joe IG, and XYL Helen came in for akfast and awaited Roy with a trick tle. After playing pinochle half the ht I don't see how Joe can be so bright full of fun so early in the morning.

Doc tried hard to enjoy his breakfast with Ralph just in the same room with , shook him up. They had every one in tches with their remarks to each other. check on the stations at 8:30 we found erne, NKZ, barking out CQ with a hoarce e on 40 phone. John CZF, logging. 5 fone had Smitty with his earphones on

just listening. Jerry, Steve and Art were out side just gossipping.

Bob ZVA, on 20 cw with Ed CZM, logging them down.

15 fone was cleaning house so they could find their station. Sweeping out wax paper, dried up Bologne sandwiches and cans with snap open lids.

20 fone had Ralph and Jim working.

40 cw was keeping Dave ASV, and Jim WUV, busy in their tent.

Checking 10 fone, there was nothing to say but "poor Bob".

We found 80 cw had an odd contact during the night when Merl IKG, send out a CQ and had two stations come back to him. One was fast and one slow so while the slow station gave his exchange, he exchanged reports with the fast one and made both contacts good. Nice operating, Merl!

The women desserted the kitchen for the horseshoe pits again. My daughter Marie, won a game from Ethel so Ethel came back to the kitchen.

We found Jim GPJ, asleep in his car.

Bob ZVA, was laying out in the sun snoring away.

Caught Roger telling someone about how nice the weather was here for the week end but he forgot to mention that we froze to death during the night.

Beryl was drinking a cool one just in case it got hot.

Steve SSC, goofing off again and reading my notes over my shoulder.

Smitty and Doc discussing world affairs over a cup of ???

Vivian was letting the air out of an air mattress. She found it easier than blowing them up.

Went for a walk down to Joes pasture to see his dwarf calf. It was a cute little thing and worth the energy it took to get there, on the way back we passed the KTNT truck with driver John KKN, ready to take pictures of our activities.

Elmer, LVL, arrived to see how we operate.

Stan LIR, had to leave for Westport, so Doc gave him a prescription to help on the long drive down there.

Our big Sunday dinner was the best ever, We decorated a cake with 21 matches for Beryl to celebrate his birthday.

We were suprised and happy to see Dennis UBA, and his XYL Joan come to join us for dinner. They were headed for Bremerton and stopped in on their way.

FIELD DAY (cont)

Ethel wouldn't let Rene have a second lping at dinner because it was her turn do the dishes, so, Rene poured water l over Vivian because Vivian had hit her th a horseshoe earlier. Some of these nen are sure mean!

Bob IMB, and XYL sue, stopped in to say llow to the gang.

At 2:00 the generator was shut down and ld Day 1965 was over. Now the work rted on cleaning up the mess.

Down came the antennas to be stowed away the top of the chicken house for next r along with co-ax and grounding rods.

The women started rolling sleeping bags l collecting their dishes and things to k.

Ethel was working like fury to get ngs washed up so people could take them e.

With cars and trailers all packer the s started driving away. The end to a ly wonderful week-end.

My own comments on Field Day 1965 are t it was the most relaxing, fun day I e had in the 9 years I have been going there. I think if the members of our b would pull together it would make an n nicer event for all instead of just a . Let's all pull together for a great-Field Day next year.

I want to give a special boquet to yl NPG, our chairman this year. He did ine job of trying to keep everyone ppy and in accord and I think he did a nd job.

nother boquet to Roy AZI, and Ethel WLX did their usual efficient job in the chen. Another boquet to Stan LIR, for thoughtfullness in bringing the clam wder and also for keeping the fire go- all night for our operators.

don't want to forget the ladies who ped Ethel in the kitchen either. Thats main purpose of the women coming to ld Day, doing their share and most of m lived up to it in the fullest this r.

ll in all it was a grand year, maybe in scoring but in a real enjoyable r.

ee you all next year.

73's and 88's
Margie K7AMJ

POETS RETREAT

FIELD DAY LAMENT

"C Q Field Day, C Q Field Day"
That's all I seem to hear
As I dodge around those cow pies
At Joe Asplund's place so dear.

The bedlam is terrific
At the stations scattered round
Are they really making contacts?
Or are they just a bunch of clowns.

As I stick my lousy head in,
At a trailer house at night
A nasty snore will greet me
And I jump back out of sight.

The next door's opened slowly,
And I'm stifled from the heat
As a lousy stench did hit me
From a pair of stinking feet.

But let's not be down hearted
It's for the good of men
We'll see you up there next year
So save your strength till then.

PICNIC ON AUGUST 1ST

The Radio Club has been invited again to have a picnic at the summer home of Bob and Inez Churchward on Fox Island. The date has been set for Sunday August 1st. This is pot luck so bring your food and enjoy a thoroughly relaxing day. This will be one of the days of our annual horseshoe tournament so come join the fun. Cars will meet across the Narrows Bridge at 11 a.m. Remember no tolls now on the bridge. See you there.

-... -

HORSESHOES

This year the Horseshoe Tournament will be scored differently than last year. We will have individual scoring. You will be able to play at each picnic and also every one will play at the final play-off to be held on the Asplund courts. The play will start at the first club picnic either at Churchwards or Dewey's.

....Scotty K7CYZ

W7DK ON CHANELL 11

On Monday night right after Field Day hanell 11 had pictures of W7DK Field Day ctivities. There were pictures of our ook house and some of the chow hounds, m Mashburn on 20 phone. Ralph filling e gerator with gas, Gene Welcome on 2 ters, some of our trailers and a lot of r antennas. These were pictures that hn Kelley took. It was nice to see our-lves on TV and it was nice that chanell presented us in such a vavorable light.

If the public were informed of more of r activities, there would be a lot less iticism of hamming. It is very fortun-e that several members of our club have e facilities of presenting our activi-es before the public.

Len Higgens did a good job of narrating e pictures that John Kelley took and our anks to them for a fine job.

DRAWING WINNERS

The staff of the Loggers Bark wants to nk each and everyone of our club member helped us on our drawing. We are hap- to announce our winners. A.H. Mitchell AKW won the television set. The table io was won by Eloise Babbitt, a member the DK Loggerettes Bowling team. The nsistor was won by M.N. Schafer,a work- at St Regis who boutht his winning tic- from Emil K7GPK.

Our total amount taken in was $275.50 ch gave us a $195.50 profit. This will for our multilith printer and keep our er in the black. This was to keep our er from drawing away funds from the p, and in due time we hope to relieve club of buying the postage. This also ures our club of having a newspaper.

Thank you everyone again.

....The Staff

NEAR ACCIDENT

The Saints were with us during the ant a party before Field Day. We were put- g up one of the 50 foot towers for 75 he when one of the ropes broke. Luck- the tower was only up a few feet when came down on top of Bob Jenk's back. hin three minutes he was up and around n, but really sore around the shoulder back. Bob could have been knocked un cious or badly hurt, but thank good- he wasn't. Let's all be careful on our projects!

Anchorage Alaska

Radio Club of Tacoma Inc.

Dear friends:

I have been receiving the "Loggers Bark" for the past few months, and wish to express my appreciation. I must confess that I don't know very many of the hams mentioned in the club paper, since I have been away from Tacoma for many years now. I hope to rectify this situation next year at which time we will be moving down to our home on Vashon next to that of my very dear friend Bill Reuter W7KT. As some of your are aware, I operated W7KQ in Tacoma in the late 1920's and up to the mid 1930. My amateur activity was interrupted for some 27 years until I again joined the ranks with KL7KQ.

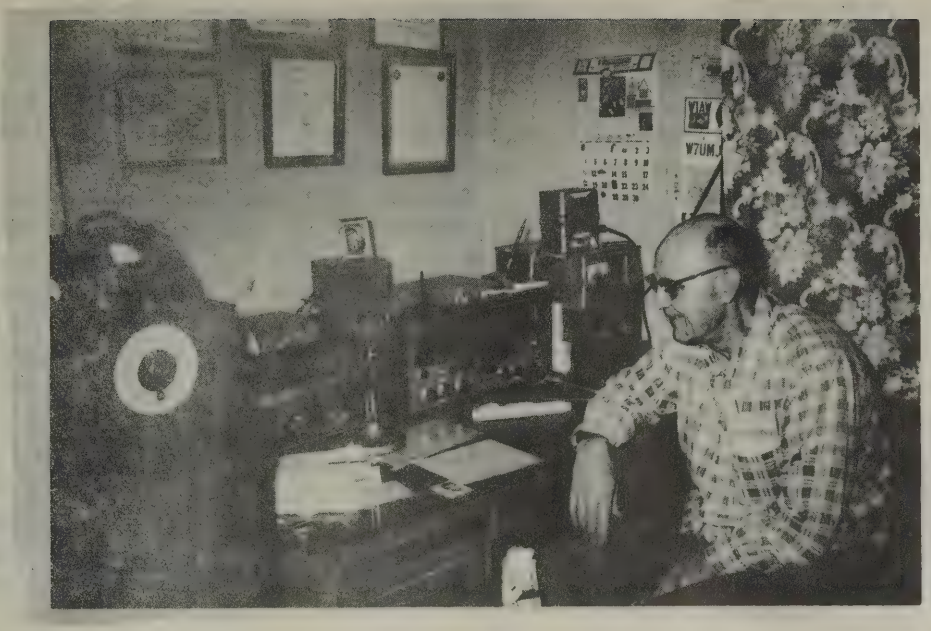

My interest in the Radio Club of Tacoma goes back to 1921 or 1922 when I was in grade school. At that time I was an Associate Member, Members had to have a license, and I did not qualify in that respect. I very well recall the first one to welcome me into the club at that time was Karl Weingarten W7BG. You fellows (and gals) who knew Karl will appreciate that amateur radio and the Tacoma Radio Club never had a more ardent supporter. He was an outstanding amateur in all respects. The club met in the old Tacoma Building, 11th and "A" streets in the early period. A lot of hard work on the part of Karl, his contemporaries and those who followed in the footsteps of those old timers built up a very fine club one you should all be proud of. It is a little disconcerting to note in the June issue of the club paper that club finances are in somewhat sad shape. I can understand concern for a $600.00 repaving assessment. Please accept my contribution of $10.00 to be applied against the assessment. Consider it given in memory of Karl Weingarten.

I frequently have qso's with W7MX John Mardesich, now in Seattle but formerly in Tacoma. John and I were both very good friends of Conny (Conrad) Gaines W7AAX. We would like very much to get in touch with Conny. Can anyone help?

Again thanks for the "Loggers Bark" you have been sending. I will be looking forward to again joining the club next year.

73,

Kenneth F. Hager KL7KQ
Ex W7KQ 950 P Street
Anchorage, Alaska

TIP CASTOR W7REZ

MEET THE LOGGER

t Tip Castor, W7REZ.
Tip was born and raised in the corn
te of Iowa, and is now retired from the
lroad and lives at 11323 Holden Road
.
Tip met and married his wife in Iowa
k in 1919. He and his wife Violet had
irls and three of them married Marines.
there are 11 grandchildren.
His first license was issued in 1933 in
a. The first call was W9SCV and then
er was WØSCV. Has had a call ever
ce. Also he got a commercial license
1942 In Iowa but it has since expired.
He came to Washington to work with the
lroad then went back to Iowa and after
ears retired from the railroad and came
k to Washington to stay. Iowa's loss
Washington's gain.
Currently in his radio shack he has a
llicrafters SX-101, Hallicrafters HT-37,
e brew K-W linear, Boehme RTT convert-
model 15 teletype machine, 2 meter
(cont)

(CONT)

home brew transceiver and a home brew phone patch. In order to get the signals out he has a 15-20 meter quad, 50 feet up in the air and a 3 element wide spaced 20 meter beam.

I noted that on the wall of the shack there were a few pieces of wall paper that Tip has earned over the past few years. Among them were WAC, WAS, NARS, Rag Chewer, Old timers Club, Armed Forces Day Award, letter of commondation from the Army and Loggers Certificate.

While we were visiting Tip there was another young fellow visiting him and Tip was in the process of teaching him the code on a sounder for getting a job with the railroad.

As I climbed into my car I heard the sounder start up with it's clackety clack clack and Tip was back busy again helping another young fellow get started with the railroad.

A busy man Tip Castor, W7REZ.

UPPER LIMITS

The openings on 6 meters have been pretty good the last month. There have been reports of contacts into the Canal Zone and also Mexico. The Plain States from the Gulf to and including Central and East Central Canada have been coming into the Northwest.

The Aurora openings have not come into the Northwest as yet. The Eastern States have reported Auroras into Alaska and Montana.

Of all the skips we have had this year, where was it Field Day? Our club only worked four stations from Arizona and two in British Columbia.

Keep your rotators oiled up, we will get something good yet.

.....Scotty K7CYZ

POT LUCK DINNER

There will be a potluck dinner at the club house on September 18th. Everyone be sure and reserve the day.

We are still collecting rummage for the rummage sale that the auxillary is planning. ....PRES-Vivian

THANKS

Just a little "thank you" to everyone for the help and cooperation preparing for and during Field Day operations.

We didn't have a single"break down".

Sincere thanks.

EDITORIAL

I hope everyone is looking forward to ng on our annual picnics again this r. It looks like perfect weather for m so don't miss them. These picnics e been well attended every year because the hospitality of our hosts and the nic locations of their beach homes.

I would like to say a word about our ponsibility as guests at these affairs. to the location of both homes, a hiway to be crossed to get to the water. t year, one host had to watch children ss the road safely because the parents e too busy playing horse shoes. This 't fair to the hosts or to the child- . The games are fun and I would like see everyone take part in them, but a nts first responsibility is to take of their children or have someone h them while they play their games. here are teenagers that attend these ics that would no doubt watch young- s for a half hour or so if they were d. I don't think they should be ex- ed to watch the little ones for any er than that, because they like to fun too. I have 3 teenagers this and 3 younger ones and I have to h them. I don't expect my older ones o the entire job.

o parents, with young children, keep eyes on them this year!!! It's your onsibility, not your hosts. Also see his home is left like it was when we ved. Don't throw papers around or e bottles laying around. Treat their s like you would your own home.

et's give our "hosts" our biggest k you for inviting us and make our day hy of being invited again next year. ee you at the PICNICS.... Editor K7AMJ

PICTURES JULY 14 MEETING

After the regular meeting on July 14, the Roy and Ethel Devishes showed us pictures of their wonderful trip to Tahiti, Hawaii, and Bora Bora. After looking at the beautiful pictures all of us would liked to have gone with them. The wonderful colors and beautiful flowers and pretty girls were enough to make us all dream of such a paradise. The luaus and feasts were of such exotic foods that many of us had never even heard of them. We can also see why Ethel kept a tight leash on Roy. And by the way, didn't Roy look good with a bunch of flowers in his hair. The native dancers had real pretty costumes. So many parts of their costumes have a historical meaning. It was sure an enjoyable evening to see their pictures.

.....Smitty K7ATD

WOMEN'S BOWLING LEAGUE

The women's bowling league will have an organization meeting at Churchward's Fox Island home on August 17th, at 11:00. This will be a pot luck and anyone needing transportation can call Rene Smith, JU8-4669 or Margie, K7AMJ, GR5-2441. If anyone doesn't know the way, meet across the Narrows bridge at 10:30.

Anyone interested in bowling this fall should either come to this meeting or phone one of us and let us know you will be bowling.

-.-.-

POETS RETREAT

There's a picnic at Churchward's
On August the 1st
So jump in your whoopee
And to heck with your purse.
Cause the tolls have come off
The bridges you know
It's a free gratis ride
Lest your gas tank is low.

There's another at Dewey's
Up on Hoods Canal
It's the 15th of August
And we think that's just swell
The above also holds
For the tolls and such
So join the club members,
Give your gas that light touch.

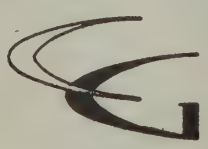

The food will be plenty
We're quite sure of that
Fried chicken and salad
And a tasteless old hat
The horseshoes will jangle
Gainst a rusty old stake
And I'VE oft heard it said
The swimmings just great.

So join all your freinds
And have a good time
We'll see you all there,
Let's hope the weather's fine.

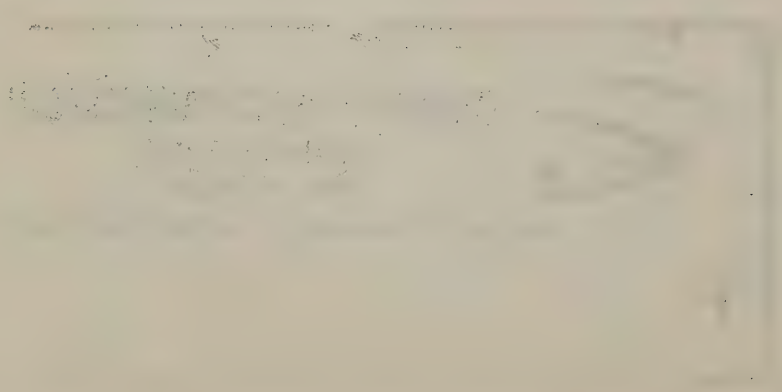

.....Emil W7GPK

MEN'S BOWLING 1965-1966

Anyone interested in bowling on the Radio Club's bowling teams this season contact Dick W7RGD, Smitty K7ATD or Ralph W7COP. We had a lot of fun last year even though we wound up the season in the bottom of the pile. We now have two teams in the fold with some replacements for a few of the guys that won't be back this year. So come on and join in the fun. Merl K7IKG

SALMON BAKES

The Radio Club, once more for the third year, has been called on to help out by furnishing the public address system and background music for the Salmon Bakes sponsored by the Metropolitan Park Board. This year the plans call for 4 evenings. The last 2 weeks of July and the first 2 weeks of August.

On the first evenings activities the Clubs p.a. amplifier developed troubles. Everytime the gain was moved up on the microphone channel, r.f. was being picked up and rectified causing unwanted background music and voice. Several local stations were being picked up at the same time.

The club was well represented on the first night. Dick W7RGD, Roy W7AZI, Ethel W7WLX, Joe W7IG and XYL Helen, Smitty K7ATD and XYL Rene, Churchwards W7RXS-W7RXT and Jim and Connie and Rusty Hood.

The fire boat broke down in the middle of their colored water display and were forced to drop anchor to make the needed repairs.

The Seattle Seafair Pirates arrived in force in a motor boat floatilla and after scaring half of the young folks (and a few of the older ones) they kidnapped the Daffodil Queen and left in a flurry of out board motors.

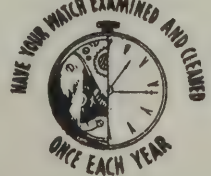

The evenings activities ended with a fireworks display.

If you can make it, it is worth the trip down for a fine meal of corn on the cob, Salmon, baked potatoe, salad and coffee or a cold drink. The entertainment is changed from week to week so something new can be seen each week. ....Dick W7RGD

MEET THE LOGGERS

t the Chavis's
l W7IKG
gie K7AMJ
Merl was born in Prosser, Washington was raised in the Skagit Valley. Dur- WW 2 he saw service in the Merchant ine and sailed the wide blue Pacific.
He got interested in ham radio about 5 and got his license in 1957. He also ned the club in 1957. Some of his ach- ements are, worked all states on 10 and worked over 200 countries. He is al- ctive in Army Mars and is the Emergen- coordinator for the AREC and an Alter- Radio Officer for RACES.
He was President of the Radio Club in and Vice President in 1962. He has on various committees.
favorite band is 10 meters.
a painter by trade and is presen- employed by the Jardeen Brothers Buil- Contractors, for whom he has worked last 6 years.
esides ham radio Merl enjoys bowling salmon fishing.
Margie was born in Algona, Washington was graduated of Auburn High School.

MEET THE LOGGER (cont)

She got interested in ham radio in 1957 and got her call the same year. She said "If you can't lick em, join em".

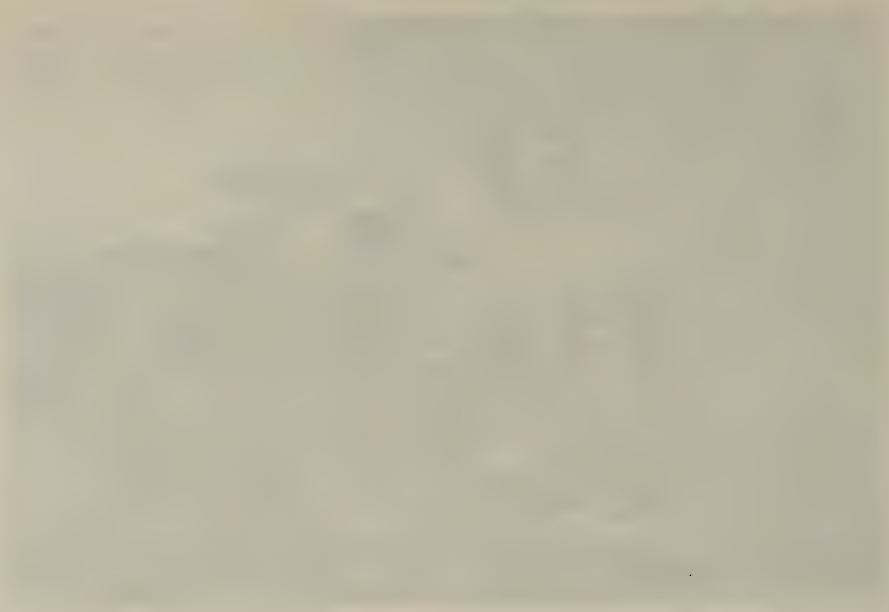

She was President of the Ladies Auxillary in 1960 and Secretary in 1958. She helped organize a bowling league for the auxillary in 1964 and served on it in an official capacity. She is an ardent bowling fan.

Among Margie's other interests is preschool work and this writer understands she has become interested in salmon fishing. In all probability her list will become bigger than the fish that she catches?

Merl and Margie reside at 5640 South Yakima with their six children whose ages range from 6 through 16 years.

Their station consists of a Viking II, a pair of AR-88s, a 683, a 603 plus a bunch of odds and ends too unimportant to mention.

This writer has enjoyed many an eyeball QSO and cups of coffee with the Chavis's and we wish them all the success in the world and especially luck in their fishing. Let's hope the salmon strike their lures. .....Emil K7GPK

SLIVERS AND SPLINTERS

With such a nice summer, we have been nding every evening, swimming at lake os. Merl W7IKG, has a cut finger from nting over a beer can. He and Dick GD, were diving for it.

Emil K7GPK, Merl W7IKG, and Margie MJ, were fishing out in the bay a ole of times. No luck, no fish, just burn.

We hear Dick W7GDW has the measles! 's a heck of a way to spend the summer.

Emil K7GPK, is sporting a broken toe. ink Irene stepped on him.

Dick W7RGD, has a sore finger. It ld heal up pretty soon now after my er-in-law treated him with some med- for Mastitis. She had it for their That should heal it one way or the r.

Jim W7BSW, is spending all his spare with the little league again this mer. In a few years he may have a ble of big leaguers.

Jax W7AEA, is still at the sailboat s up in the Canadian waters. Sounds hard work!!

Steve K7SSC, has been spending the sum- painting the house.

Laverne K7NKZ, was home sick with the a few days. Can't keep a good woman and she's back at work again.

Chuck W7FWN, was working over a 10 K-V rator, simular to the clubs, purchased TNT. He finally had to get help and k it to get it started. They finally it going and everybody was pleased it's performance.

Heard Alex W7AZR, on 29.6. He was tes- out a new vertical dipole that he put up. Sure good to hear new calls here.

group of the club members consisting 7IKG, W7RGD and his dad, W7COP and his ns, got together and made a day of it estport. The fishing was good and in group of 7 there were 11 fish caught. ee you all next month here in this er of the paper.

COMING WESTPORT PICNIC

eptember 11th and 12th should be cir- on your calendar so that you won't the weekend at Westport.
tan and Greta Warburton have invited gang to their place for picnicing, ing, clam digging and fishing. Clam ing at low tide just before 8am will a lively start in your day and leave of hours for swimming and beachcomb-

here will be lively competition among fisherman and the following have re- ed space on the Sunday charter: AEA, AYD, IKG, GPK, JGN and LIR. We tried contact everyone but if you were away n vacation and missed the call and you d like to join the fellows, please GR-2 4213 right away and we'll do our to include you. Fee is $10.00, plus ing on board for $1.00 a dozen and .0 for pole rental if you don't have own. We are signed up for Offshore ters on the boat Chinook, Sunday, Sep- er 12th. The fellows will report at fishing dock at 6:00 am. The fishing been very good lately and we'll all be ing to see who landed the big one.
e're obligated to pay for the above rvations so notify me immediately if find you won't be able to go.

....Ethel W7WLX

MEETING OF SEPT 8TH

t the Club's meeting Sept. 8th, we have a surprise contest with prizes!

FIELD DAY 1965

The final field day score for 1965 has been mailed to the field day contest editor. The usual precautions were taken to see that the results were mailed air mail special delivery.

Our total contacts were lower this year from that of last years field day. We made a total of 2,192 contacts compared to last years total of 2,557. This is a drop of 365 contacts from the previous year.

The total points, after multiplying by the various multipliers, was 13,592, a drop of 4,609 points from last years total of 18,201. The final scores and lists of stations participating in the field day activities will be published in the December issue of QST, so we will have to wait until then to see what our standings will be.

This year we operated with one less band. Due to lack of equipment, to set up we did not have 15 cw to turn in a score for us. We hope some club member or members will come up with something next year to remedy this situation. While some stations were enjoying good skip conditions, others, like 10 phone, had no openings or very little, which hurt the total score.

Rather than try to list reasons why we didn't do better, let's try listing things we might do next year to come up with a bigger score.

dian amateur rules have been changed ctive immediately as follows. The uencies 50.0 to 50.05 and 144.0 to

BULLETINES (cont)

144.1 Mc. are restricted to A-1 emission only. The permissible power input, except in the 1.8 to 2.0 Mc. band, is raised from 750 to 1,000 watts, on condition that no interference is created to other services thereby. Maritime mobile operation on the high seas is now permitted on the entire 14, 21 and 28 Mc. bands and additionally on 7 Mc.within ITU Region Two, roughly the Western Hemisphere, Frequency swing permitted to amateur f.m. stations in 52 to 54 Mc. and higher bands is now plus or minus 15 kc. Further details on changes to the Canadian regulations will appear in the October issue of QST AR

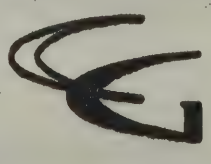

UPPER LIMITS

As you probably noticed, we missed this column last month, One would expect a column twice as long this time, but that is not the case. The VHF bands have been suprisingly quiet this month. The trend to 2 meters (especially f.m.) is the biggest thing and after using one for awhile we can see why so many of the gang are up there.

Oscar II is in the news again! Across the Atlantic and Maine to South America. Records are falling and more will fall! All on 2 meters. No, we are not going to give up 6 meters, we are just adding 2 so, don't sell out.

The S. S. B. is not growing as fast as was first expected. However one or two new stations have been heard lately. When the manufacturers come out with S.S.B. rigs, a little less costly, things should liven up some. We have also notified some new c.w. stations on 6 meters. Come on you old timers, get your fist in.

See you next month and hope there is more to report on. 73s...Scotty K7CYZ

MEET THE LOGGERS

(cont.)

et the Churchwards
b W7RXS
ez W7RXT

This summer we find the Churchwards ending their days in the cool shade of ll fir trees and a pleasant breeze blowg off the sound at their Fox Island me. It is a familiar sight to those who pept their hospitality every summer for r annual picnic and horse shoe contest. ey normall reside at 3719 South 7th.

Bob started his career in ham radio in 52, when he passed his novice, technian and general within a few months of ch other.

Bob was born, raised and now lives thin the same block here in the city. graduated from Stadium High School and en served in the Pacific Theatre during II, in the Navy. He was discharged m the service in 1946.

Bob is a Pipe Fitter by trade, working HK Western.

Besides ham radio, Bob is an accomphed musician and plays with the Radio b Band, The Zero Beats. He plays the cordian, piano, xylophone and a beautiThomas organ, that he built himself m a kit.

Bob has served as Treasurer, Vice Presnt and President of the Radio Club durg his years as a member. He was Radio ficer for Civil Defense and now is an ternate Radio Officer. He also serves the army MARS program.

Inez was born in Chehalis but raised in coma, where she graduated from Stadium. Her radio career parallels Bob's as you can see by their calls.

They have 4 children and as of August 15, they have one Grandson.

Inez is an active member in the women's auxillary and has served as President, Vice President and Secretary-Treasurer.

The Churchwards dropped their hobby of tropical fish raising to become bums and now their side line is bowling. Bob bowls on the Radio Club team #1, while Inez bowls on the XYL's team in the DK Loggerettes League.

During their early days in radio, they ran phone patches constantly for the armed service personnel stationed in the Pacific.

Their station consists of a Viking II and a 75A1. Also they have a URT transmitter, which Inez says should be used for a boat anchor. Bob runs a teletype model 19 and monitors on 6 fm on 53.290 mc.

Surrounding them at Fox Island is a mother cat with 6 kittens, 2 ducks, a dog named Cindy (who thinks she's people) and a chipmonk, the cats drug in. Besides the pets that reside there, Inez puts up a syrup bottle feeder to feed the humming birds.

They spend plenty of time out on the sound fishing for Salmon. They didn't say whether they caught any or not.

After several good cups of coffee we headed back for the main land, where the temperature was at least 10 degrees higher.

We hope to have our annual picnics there at Fox Island for many years to come.

PICNIC AT CHURCHWARDS
A HUGE SUCCESS

On Sunday August 1, our Radio Club had a picnic at Churchwards on Fox Island and it was a huge success. Everyone there had a real good time, and those that were not there really missed a real swell time. The weather was ideal for swimming and boating and water skiing. And then we had the first day of our horseshoe tournement. The fest of all, though, was the good food that everyone brought; fried chicken, cake beans, salads -- it just makes me hungry thinking about it.

The club sure owes Churchwards a big vote of thanks for having us over for this picnic. This could be a hint for another invitation next year. Huh!!!???

....Smitty K7ATD

HORSESHOES

The second round was held at Dewey's Picnic on Hood Canal and things are becoming to get interesting.

In the men's division, Bob Mc Cullough W7SFO, is on top. Smitty K7ATD is two points behind after riding in first place for a short while. The rest of the field is following close and pushing at their heels.

The woman's division is a little different. Merlinda, number 1 daughter of W7IKG, is number one on the list. She has been on top from the start.

The next round will be held at Joe's chicken ranch and airport (also golf course) on September 19th. W7IG and his charming wife are expecting you, so don't disapoint them. The horseshoes are furnished but bring your own flying machine and golf clubs.

See you at Joe's September 19th.

EDITORIAL

Summer is over and it's time to settle wn to our winter activities and jobs at were left undone. With the wonderful ather we had this summer everyone spent eir time camping swimming and picnicing. w that the kids are back in school and e weather is cooling down, it's time to art the winter projects at our club use.

There's enough work to satisfy an amaur carpenter, painter, plumber, electrian and just plain laboror. Beryl K7NPG chairman of this project and really eds a helping hand to get these jobs out the way, one at a time. He knows what eds to be done first and with help can rk this project the way it should be. t's give our support to him and get our ub house fixed up the way it should be.

Another social evening is coming up on tober 9th. This will be to raise money help buy materials for "Beryl's oject". If you've never attended one of r pot luck dinners you just don't know at you've missed. The food is delicious d the atmosphere is the very best.

Let's have a turnout at this dinner, to ally be proud of. We will have games ter the dinner and a lot of fun for eryone. Bring a white elephant prize r the games.

See you at the Pot Luck....Margie K7AMJ

NOTICE

The Radio Club was sorry to hear of the ath of Bob Jenks father. Our sympathy extended to Bob and his family.

-...-

C.D. NEWS

This last week has been a pretty busy week for the fellows that man the CD bus. First of all, on Sunday the 19th, the city had need of our bus as a headquarters for the search of a missing girl. That kept us busy from 2 to 10 p.m. We are sorry to report that the girl was not found.

Next on the list was the fire on the next Tuesday morning at 3:20 a.m. The bus was secured from that fire at 9 a.m.

During the Sunday search, Mel, K7ATF noticed that the microphone on the police rig was not working as good as it should, so on Monday, Dick, W7RGD, took the bus down to the police radio repair. While he was there, they decided to check all of the other radios and in doing so, they found that the fire radio had a blown out tube, which was replaced real quick and that put that radio back in proper service. Just imagine what the consequences would have been at 3 a.m. during the fire. Thank goodness for small kindnesses.

The new bus is in the talking stages yet, and is now in the budget negotiations and should be out in the next month. We will not get the new bus until after the first of the year. We have suggested several drastic changes in the physical operating positions and also the placement of the new generators and the new storage areas. We think that these new changes will make operating a lot easier on the personnel and also provide a lot more room for planning and office procedures. As soon as there is more official information on the status of the new bus, we will go into more detail. Don't forget the nets

UPPER LIMITS

Things are about the same on the upper bands. Some of the gang got in some extra work this last week-end. Dwayne, K7KSZ, spent last Sunday for the lost girl, who has been missing now for several days. Dwayne brought some sugar over to help the fellows down the 9 gallons of coffee that was made on the bus. Mel, K7ATF, and Cliff, W7MFG, were the operators on the bus, and the rest of us were out of town at the picnic at Asplund's.

Saturday and Sunday found Ken, K7KRD, and Dick, K7ITX, and XYL's working for the out-board races on Lake Lawrence. They report that they had a good time and were congratulated for their work. The six-meter gang used to handle the communications for the out-board association, and we hope that this is a chance to get back with them. Good work, fellows, and a good job done.

The CD bus was called on for the lumber yard fire last Tuesday morning. Due to the early hour and the location there was no general call for help. So you can thank your lucky stars that you got some extra hours of sleep than the three fellows that manned the bus. More on the fire elsewhere. ....Scotty K7CYZ

-...-

LOSS FIELD DAY

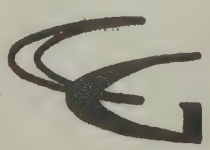

Bob Jenks has advised the staff that he has lost one set of earphones with extension cord during the Field Day activities. Any one who has an extra pair from field day please contact Bob and see if they are the ones. Check your equipment fellows and see what else you might have left over from field day. With everyone borrowing during those hectic times its easy to get something and not know where it belongs. If you have anything extra brought back list them with the paper and possibly we can help get things straightened out.

WESTPORT

ay we go, it's Westport ho
To catch a salmon or two
t I'll be dunked if I didn't get skunked
Like a few from the rest of the crew.

had one on but my leader broke
I swore out loud, you can bet,
that's not enough, I'll tell you more
My gizzard was sure upset.

en there were the lucky ones
Doc Nace who limited out
d Dick who landed a mighty King
Which sure put up a bout.

that's the way the story goes
For the Westport trip this year
ere will probably be another one
So run down and get some gear.....K7GPK

RUMMAGE SALE

The ladies auxillary has set a definite te for their forth coming rummage sale. e date will be November 8th & 9th at a ilding located at 30th and Portland Ave. Start cleaning your attics and closets d we'll be glad to come to your home to k up anything you have. You can bring to the club house. Anything you have, thes, electrical appliances (whether ey work or not,) furniture or what have l.

We will have work parties during the th of October, so if you are called, ease give us a willing hand.

We will cut rags at the next auxillary eting so try to be there and bring your issors.

To get rid of your rummage or rags, ll Margie GR 5-2241 or Vivian SK 2-0332 d we'll see to it that it's picked up.

Thank you.....Chairman K7AMJ

MEN'S BOWLING

The two teams from the Radio Club have arted bowling on the Astronaut League. ey bowl every Tuesday night at 8:45PM. dio Club Team Nr 1 has won 8 out of the games and Team Nr 2 has won 3 games.

It is a lot of fun and it is more fun en there is a rooting section. So, how out coming out and cheering the teams a- ng.

Smitty K7ATD

SLIVERS AND SPLINTERS

We hear that Dave Erickson, son of Darrell W7GDP, is recovering from the burns received in a mishap a short time a- go. Quick thinking and cool heads avert- ed what could have been a more serious accident.

The Washburns, W7BSW, have returned from their vacation to the east coast. Travel- ed from the deep south to the northern parts of the eastern seaboard. Had a min- or car accident but no one injured. Glad to have you back Jim and family.

Emil K7GPK, is back on the swing shift. Also he has been getting a Salmon now and then out at the mouth of the Puyallup riv- er.

Ralph W7COP, has been working on the Loggers Bark camera. The camera was moved to his basement from the club house and the staff will be using it shortly. He has the lense mounted and is currently working on the lighting problems.

Margie K7AMJ, Dick W7RGD and Tykie, XYL of Ralph W7COP made a trip to Seattle to purchase some new supplies for the Loggers Bark.

Bud Lefler K7TZA and XYL Elaine celeb- rated their first wedding anniversary this month. Had a big cake presented to them during their lunch hour at the County/City building. Completely surprised. Also Bud and Elaine volunteered to give some help on printing the Loggers Bark.

Tom W7FUL and Max W7AEA were discussing DX and some of its problems after the bow- ling game on Tuesday night. Were discuss- int the use of 2 meters for a back up fre- quency for chasing down the rare DX.

Beryl K7NPG still trying to get some of the boys from the club together to start on some of the work parties.

Bob W7RXS and Inez W7RXT have been en- joying a visit from their son Dennis and family, including the new Grandson.

Bill W7ZFY has just announced his forthcoming wedding. Congratulations Bill.

Dick Hazelmeyer busy showing his new camera while at the horseshoe tournament. While busy taking pictures, his XYL Marge, was throwing the horseshoes. One got away from her and struck one of the watchers. That's right, she picked Dick out of the crowd and tried to ring one around his leg. Right again, she made the ringer a- round his leg. Just ask Dick if you doubt it.

.....W7RGD

WESTPORT PICNIC

The Westport picnic and fishing party as held over the week-end of Sept. 11th nd 12th at Stan Warburton's, W7LIR. Some f the group went down on Friday evening nd spent the whole week-end.

Most of the group showed up at various mes all day Saturday and into the late ours. Part of the gang stayed at the lo-l motels and the rest were spread all er Stan's place. All beds in the house re used and most of the bunks in the nk shack. Besides these places, there re some sleeping in their cars and one use trailer was loaded.

There was a poker game going on Satur-y night. Art W7JGN, contributed to the me quite generously along with a couple hers. Margie K7AMJ, was the big winner r the night. The game finally broke up irly early since most of the players had get up early for the fishing trip.

About 2 or 3 in the morning there was a ise outside in the Chavis's trailer. ems the bed collapsed and a couple of dies hit the deck. After some time of ises, consisting of some grumbling, ings quieted down for the night only to interupted by some noisy fishermen get-ng up.

Breakfast was served up consisting of me W7AZI type pancakes with fresh Blue rries in them, which were picked the evious day by Ethel W7WLX and Vivian.

With a good breakfast under their belts e fishermaen set off on the briny deep, ile the rest spent the day beach combing.

Out of the 11 that went out, 4 got sea-ck and lost their blue berry pancakes. A pot was collected from each fisherman. e third of the pot to go to the man with e first fish, one third for the first mit caught and one third to the largest sh. Doc K7AYD, collected on the first o and Dick W7RGD, collected on the last. e had 4 fish, one being the first and no e could keep up with him. Dick netted a pounder.

On returning, the gals had warmed up me of Stan's famous field day chowder to sh the salt taste out.

The turn out was good and the fishing s pretty good.

A big thanks to Stan for his hospitali-!!

.....Dick W7RGD

-...-

HORSESHOE RESULTS

Summer is over and also the Horseshoe Tournament for 1965. Below is the top ten winners in each division. We had a good turn-out this year and everyone had a good time. The scoring this year was different from last year, but is still in the trial stage. Next year we will have a system so we can not only have high score, but also a separate score for ringers. So get prepared for a better year in 1966.

The prizes will be given at the club meeting on Oct. 13th. See you then.

the Coles

K7CZM

eve K7CZT

Ed Cole, his wife Delphine and son eve live at 5007 North Vassault.

Ed was born and raised in Portland Ore-n. Came to Tacoma in 1925, where he met lphine and settled down and has been rking with the City Light Department as office manager. Has been with them for years. Delphine originally came from aho. Steve was born and raised here in oma.

Aside from amateur radio, the family ve many other projects going on. Ed has stamp collection that he has been work-g on for some years. Primarily in U.S. ocks. He is a member of the Elks and e Masons. Also he used to do a lot of lfing and bowling but since his wife's ness has dropped them for other activi-s about the home.

Delphine is an accomplished painter and veral of her pictures grace the walls in eir living room.

Steve, being the youngest and boiling r with energy, has many projects going ng with attending the U.P.S. (ah!!! h). In the living room there is a 10 gallon tank with tropical fish and a home-brew hi-fi set up. On a previous visit we hear him picking on an electric guitar.

On September 5 there was an article, with pictures, in the News Tribune on a project down at Yelm. There is a club constructing a 24 inch telescope. Steve has joined the group and also has a tele-scope at home.

The amateur rig at home consists of a Valiant, SX-96 and 3 different rigs for 6 meters. Ed's primary interest is c.w. on the 20 meter band. Steve has been very active on the u.h.f. bands. Lately he has been trying contacts on the 420 mc. band.

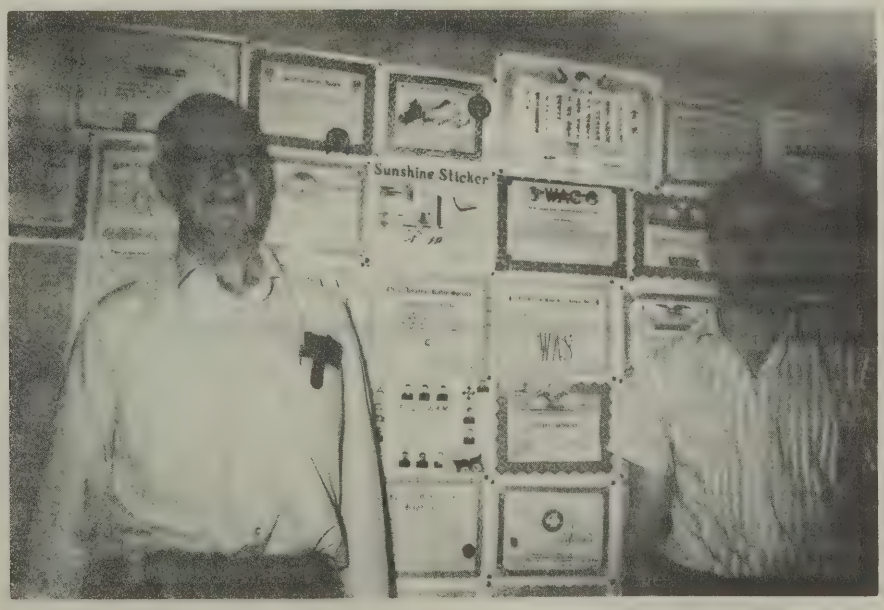

The antennas consists of a 2 element tribander beam, a trapped doublet for 75 and 40 meters and a 4 element 6 M beam.

You will note, by the picture they have made quite a few contacts to earn all of the certificates on display on the wall behind them.

Ed has served in the club as secretary and is currently on the building committee taking care of the grounds.

The Coles are not lacking in interests or activities, I would say. Good luck and good health to them all!

.....W7RGD

PINOCHLE

This month we are going to press a few ys before the first Pinochle game of the ason, so we will not be able to give the sults of the first game until next month. know, however, that everyone will have good time. Don't forget, the games are r the radio club members and their ests, so bring all of your friends (we ed the dough) and encourage all of the mbers to come to the games.

Next month, October, the Pincchle game ll be on October 23, as the last week d will be Halloween weekend and we will t want to be away from home at the time.

You can't have a better time than at r Pinochle parties and it is only 50¢ r person. K7ATD

WOMEN'S AUXILLARY OCT. 6th

The Women's Auxillary will have its October meeting on October the 6th.

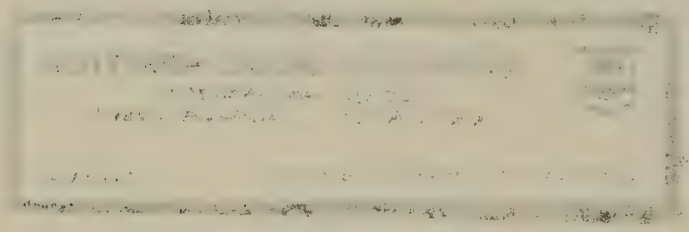

There will be a Pot Luck dinner on Oct 9th at the club house. A donation of $1.00 per couple and 10¢ per child will be taken Let's try and have a good crowd for the first dinner of the fall -- Time 6 p.m.

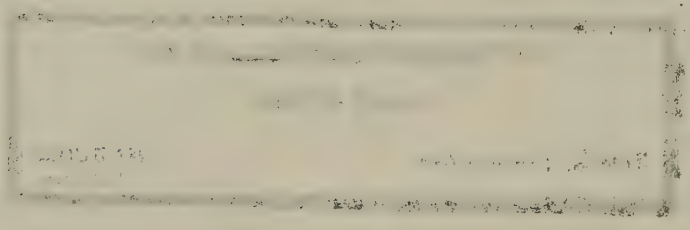

We would like to see all of the wives and mothers at the auxillary meeting. A lot of important business will be coming up during the fall and winter months, and we need all of your ideas and help in the planning meetings -- so come and give us your support.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

L II NR XI NOVEMBER 1965 29.6 - 51.0

EDITORIAL

With just two months left of 1965 it's me to start thinking of officers for e coming year of "66".

It's the officers of a club that lead to prosperity or ruin. Without good adership we are headed for destruction. We need officers who are interested in king our club grow and prosper in all ys. Men who will devote as much time possible to the club for the benefit all. Being a leader is a big responsility for anyone and if a person can't fill the duties of his office, he uld not accept it.

Our club has hit an all time low as far activity goes. The last 4 years have wn a steady decline of attendance at tings and a bigger decline in other tivities. Once a club has fallen to h a low ebb it will take some real dership from officers who are intered in keeping our club alive and also e of the members who, dispite the inivity, have stayed by DK hoping for a urn of the fold.

Some people are leaders and some are llowers. This is needed in all organtions to make a club work.

Followers can't follow without leaderip and leaders can't lead if they have one to follow them. Some people will back and criticize the followers and l them the "clique" because they are ones who do the jobs, but the ones complain, certainly aren't the ones will find volunteering to do anything structive. It only takes a few of se complainers to break the moral of club as a whole!

CONT.

Start thinking, fellows, of the election in December. This is important! Our club can't go any lower without disbandenment. If you think anything at all of DK get to these next meetings and start thinking of a slate of officers that will do our club justice and show some interest in it.

I've written editorials before on our inactivity but to no avail. Either our members don't read the Bark or they just don't care. The last article was answered by an old time DK member in Alaska. Ken, KL7KQ, was still interested enough to send a donation and a very nice letter. If only a few of our local, fallen away members would feel the way Ken does, we'd have the best club in the U.S.A.

Perhaps the newspaper is the reason our members aren't attending the meetings. If so, maybe we should discontinue our publication. If you can read it in the paper, you don't have to attend the meetings. This is a thought. Let our staff know. A letter of any kind, whether to criticize or to compliment, we want to know. We of the staff enjoy publishing this paper but we also want to see our club active again.

What is the answer? You, reading this paper know the answer. You are DK. We want to help and in order to do so,we need some answers, Either send a letter by mail or bring it to the meetings.

AUXILLARY MEETINGS

The Ladies auxillary met Oct. 1st. for a ry enjoyable meeting.

We are making plans for our Christmas nce to be held Dec. 18th. and our rumm- sale on Nov. 8th. and 9th. Anyone at has any rummage they need to have oked up please call Margie GR5-2241 or ivian SK2-0332. We need more rummage so through your attics and basements.

Every one that missed the pot luck that s held the 6th. of Oct. sure missed a od time.

Our next meeting will be Nov. 3rd. Let's ve a good turn out ladies.

....Pres. Vivian Huntley

UPPER LIMITS

I feel guilty this month trying to write a column when I haven't been on the air. The antenna and tower are still not up, so you probably know more of whats going on than I do.

One thing sure, the transmitter hunts are going strong. We have had real good turn outs and, as the long winter creeps upon us, we expect more. There is no news from the two meter gang but, you can bet they are still there.

One of the six meter men has been caught by cupids arrow. Jerry K7YCI and Odessa Holt have made plans but the date has not been set as yet.

Ken K7KRD is home from the hospital and we hear he is doing fine.

See you next month.

....Scotty K7CYZ

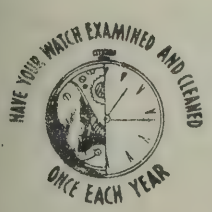

CLUB MEETINGS

The meeting of Oct. 13th. seen about 25 members present. The club house repair was discussed and a work party was set for Oct. 30th. Doc W7OS, said that the USO will want the club to handle the holiday messages again this year. Doc will have more on this at the next meeting.

After the business was taken care of, Doc passed out the horse shoe trophies. This tournament will be held again next year and I hope we have a good turn out for it. The more people we have the more fun these are.

At the Nov. 10th. meeting we will have films and slides of our picnics and other activities of this past summer. Come and see for yourself the green fisherman from Westport in technicolor.

3-11 FIRE

The C-D bus was activated early in the on the 19th at the Western Boat & chfield Boiler plant at 11th and Port Tacoma Road by the Civil Defense Radio icer. It turned out to be quite a ctacular fire and lacked one day of be- 1 month after the Ross Lumber Co.fire.

....Ralph W7COP

CONGRATULATIONS

Congratulations to Ed Coles K7CZM on ng elected a 33 degree Mason. In the t issue, he and his son Steve K7CZT e subjects of "Meet the Loggers". There are only a very few 33 degree ons who are amateur radio operators.

-... -

WOMEN'S BOWLING

After 6 weeks of bowling, the teams on the DK Loggerettes bowling teams are still fighting over top position. The standings now are XYL's first, Hot Tubes 2nd. and the DK Sparkies 3rd. Next months report we will no doubt find the teams all in different standings than they are now.

The 3 high series winners so far are Gloria Ryan 480, Ethel Devish 473 and Dee Maddon 472.

Top ladies, for a single game are; Gloria Ryan 205, Dee Maddon 194 and Lorna Shaw 180.

This is a great league of bowlers. We may never be on T-V but we sure have fun trying to out do each other.

OCTOBER 22 FIRE

There was another 2-11 fire in October, s one at about 10:40 Friday evening on 22nd. Cliff W7MFG and Ralph W7COP re- nded to the bus barn to get the C-D bus and this is where the story starts. It seems that for the first time in tory, Cliff got there first and was king the bus out when Ralph pulled up climbed on the bus. Cliff then headed across the bus parking area towards gate and all things considered, had bucket of bolts wound up pretty good. the way across the parking area one of bus mechanics yelled to him asking ere is the fire?", whereupon he closed rear door to keep some of the motor se down and yelled back that the fire at Aaberg's. If the mechanic hollered thing further at this point it was lost the roar of the motor and squeal of the s as Cliff rounded the last corner and led down the straightaway for the gate. s was truly shaping up to be a run to a e that would parallel the efforts of y in Old 97 in the annals of history. ll of a sudden a voice from the rear the bus called "hey Cliff." Cliff ked the inside mirror and could not a living soul with him in the bus. the heck had happened to good old h?? Again the voice called "hey f," and be assured it was considerably er and somewhat panicky this time. , you don't have to hit this guy Cliff the head with a stick, he began right e to figure out that a problem was de- ping. There wasn't enough air in the s yet to work the air brakes so by g the "Johnson bar" he stopped the bus down from the top of the bus climbs old Ralph! It seems that as soon as rrived he got on the bus, got a wrench went up on the roof to put up the an- as. When Cliff closed the back door began picking up speed, Ralph started seriously finding out how loud he d yell!!

o continue the story, with both Cliff Ralph inside the bus they started a- for the fire and went exactly six ks, when the fire dispatcher reported fire under control and asked the bus to rn to quarters.

h well, Ralph can at least say he kept rom the pages of history.

... Cliff W7MFG

POETS RETREAT

THANKSGIVING

Pass the turkey, pass the dressing
Pass the candied yams and all.
The wrinkles in my belly
Will not permit a stall.
It isn't that I'm hungry
As you can plainly see,
It's just that I like eatin
All this food in front of me.

These pickles are delicious
And this gravy swallows smooth,
It's the utmost in perfection
Like that little ole jug of booze.
This turkey is fantastic
The juice runs as I squeeze
And this salad is just scrumptious,
Fresh as an ocean breeze.

Lastly come the Pumpkin pie
Or minced meat if I wish
Or maybe a hunk of apple
With some ice cream on a dish.
My stomach's getting heavy
And the pains commence to creep
The odds are that the last bite
Will be the hardest one to keep

BOWLERO LANES **JU 4-0212**

3852 Steilacoom Blvd. Pd Adv.

Hear Rene Smith does the twist like a . All she needs is a little liquid suasion.

Heard Doc, K7AYD on 29.6 relating his eriences at the golf course to Ralph, P.

Rick K7ONA, former treasurer of W7DK is ing his family to Korea for the time of stay there. Hope they have a safe ney across the big Pacific.

Rick, W7GTP, known to many DK members moved to a new QTH, He had a new e built near Wapato Lake. I wonder if ad a room built for a ham shack.

here is a cup and a ribbon waiting for W7SFO and his XYL, Sophie for their and 3rd place standings in the horse- tournament.

here's John, K7CZF? Never see him or from him on the air anymore.

was a big surprise to see Dick, K7MQJ son Jim at the last meeting. You see o notice when you're not there.

teve, K7SSC took almost all the white hants from our pot luck dinner. It sure his lucky night.

erl W7IKG is still hunting for that ive 4 legged deer on the week ends. uck so far, but he hasn't given up on g.

il K7GPK has temporarily given up on fishing in the bay and is back hard at working on the house. It's looking r all the time Emil.

itty K7ATD, Dick K7ITX and Dick W7RGD t an evening at the club house and got loor to the upstairs hung. Also the room was painted with it's first of paint. As an after thought the transmitter case was removed from am shack.

ught Dave W7ASV pounding the key to er hard to get one. Stoped him long h to get a picture of him for a fu- "Meet the Logger article".

at happened to Alex W7AZR? He put up antenna and got on 29.6 but since night no further signals. Possibly another band huh?

u have to be pretty fast to beat W7COP to the bus barns when there is l fire and I guess Cliff W7MFG must cause on the Aaberg fire it was Cliff ad the bus rolling first. A little ast for Ralph on that one.

ed some lessons in the twist? Come to the Bowlero on Tuesday nights and watch Scotty K7CYZ, give lessons right after he throws the ball down the alley. It helps sometimes doesn't it Scotty?

David Erickson is doing fine now after his bout in the hospital. He was working on the car Sunday and I'm sure he was watching out for any back fires from the motor.

Joe W7IG was back on the air on 29.6 trying out an addition to his 10 meter antenna. It was doing a pretty good job of reaching into Tacoma with it.

Lavern K7NKZ busy making up a Christmas card greeting to put in the December issue of the "Loggers Bark".

Beryl K7NPG finishing up the trimmings on his new lawn just put in. Looks good with the green stuff coming up.

Sharp eyed Ethel W7WLX, found herself a diamond in Seattle last week. At a convention she attended, they had a Brandy snifter full of artificial diamonds and five real diamonds among them. It pays to be a rock hound because Ethel picked out one of the real diamonds.

.....Margie K7AMJ

MEN'S BOWLING

There hasn't been any big changes in the standings of the two teams on the Tuesday night bowling league.

Merl W7IKG had another game with over a 200 score on the last week of October.

Jim Churchward and Scotty W7CYZ have started substituting.

When the two teams bowl at oposite ends of the lanes, it keeps the rooting section pretty busy running back and forth. The rooting section may not be getting any larger but I think they are getting more voiceful. If you are in the building there is no doubt when a strike or spare has been picked up by a Radio Club team member.

MEET THE LOGGERS (cont)

et the Devishes
r W7AZI & Ethel W7WLX

Roy was born at Clear Lake, Washington cated near Sedro Woolley. He moved into s present home in 1918 and has lived re since. He graduated from Lincoln h School in 1931. He became interested amateur radio while attending Lincoln. y had a very active group of hams, at time, with Russ W7ATB as their advisor got his license in 1931 and joined the L the same year. He has been a contin- s member ever since that time and has the QST's since that date if anyone need for them.

e also spent 8 years in the naval re- ve in Doc, W7OS's communication depart- t.

e has served as President of DK, three es, and was serving in that position n we purchased our present club house. has been an active member of the Quart- Century Wireless for 10 years. He is a ber of the Royal Order of Wouff Hong displays a Loggers Certificate.

thel was born in Bremerton, Washington came to Tacoma in 1926. She also is a graduate of Lincoln. The Devishes were married in 1937 and have a son and daughter and 5 Grandaughters.

Ethel was licensed in 1955. She won first place in the 7th district, in the YLRL anniversary party in 1957. She also holds a membership in the Wouff Hong and a certificate for WAS, YL Century and Logger Certificate. She was active in the YL net up until a few years ago. She has been Secretary for DK and President, Secretary and Vice President of the Auxillary. She bowls with the Hot Tubes on the DK Loggerettes bowling teams.

The shack has a NC-300 and a B & W 5100. Overhead is an all band beam, which they decorate each Christmas. They work all the low bands and monitor 29.6.

They are active in the Tacoma Agate Club in which Roy serves as president. They spend their spare time rock hunting but still devote a great deal of their time to W7DK.

We spent a most enjoyable evening with the Devishes and hope they have many more enjoyable years of ham radio

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

II NR XII DECEMBER 1965 29.6 - 51.0

FROM THE PRESIDENT

ll members should make every attempt attend the next few meetings. Nominat- and election time is perhaps the most rtant time of the year to the Radio of Tacoma. Leadership for the next ve months and the prestige of the Club t stake. The members should look upon office in the club as an honor and a ilege, as well as an opportunity to be eal service to Amateur Radio. I have ted the responsibility of leadership the past year and did the best I could do an acceptable job. After twelve hs a person gets stale on the job and ld be entitled to a rest. Too many nizations tend to work a good horse to h and railroad the same people into ce time after time. This is a plea the members to accept the honor and onsibility, and turn out to elect h Club leadership for the next year.

.....73's, Jerry W7BUN

NEW CLUB MEMBERS

e wish to welcome two new members to roster of DK. Norm Miller WN7EFN and s Kelly WA7DWG. Come to the meetings neet these new members and have an eye QSO

MEMBER 1966 CLUB DUES

DUE NOW!!

DK TO WORK WITH USO

The Radio Club of Tacoma has again been asked to send messages home for our service men here in Tacoma.

A station will be set up in the USO building at 13th and Fawcett on Saturday, December 18th and Sunday, December 19th.

Doc W7OS, will be in charge and has set up a work schedule for the week-end. On Saturday the working hours will be;

11:30am to 4:00pm
4:00pm to 6:30pm
6:30pm to 9:00pm.

Sunday the working hours will be;

10:00am to 2:00pm
2:00pm to 5:00pm
5:00pm to 8:00pm

Doc needs more help on this as 4 operators should be there for each shift. If you haven't signed up for this project, please call Doc W7OS at SK 92300 or MA 7-2424.

This is a very worth while project and in the interest of community service, we should be proud to serve in the capacity which we are able. These servicemen want to send messages to their homes to help them and their families feel closer at the Holiday season.

Our club was contacted by Mr. J.P. Ragsdale, manager of the USO, requesting this wervice and let's all do our part in showing him we are able to comply.

Be sure to call Doc, You are needed!!

MENS BOWLING

liff W7MFG, really tore up the Bowlero s a few weeks ago!! He missed the t game due to a meeting, but it was as well because that was his best out of 3. His total series was 2 less than Dick's W7RGD and Dick didnt bowl. You can't win every night Rev- d Osborne.

he Bowlero was asked to have a ham an emergency message to Alaska. They ght we had a preacher bowling on our s and the only one they could think of could possibly be a preacher was if W7MFG. We had a revival meeting af- bowling to discuss a building fund for rend Osborne. After a few foamy ks it was changed to a survival meet- and they drank up the building fund. on't know about these bowling teams, can't bowl so well but they sure have after the bowling is over.

eam #1 is still up in the standings ting for first place. At present they tied for 2nd just one game out of t place.

eam #2 has first place all tied up by selves, that is if you turn the stand- upside down. Oh well we have fun (?) ay!

-...-

UPPER LIMITS

Still haven't put the tower and antenna up yet. Have been on mobile some and the gang says that not too much has been going on.

The 6 meter x-mitter hunts have hung on good this fall. There was five cars hunting last Friday and each car had an average of 3 people. The next hunt will be December 10 at 8:00 o'clock at the club house.

Haven't talked to any 2 meter boys so can't give you any information on the activity up there.

We have a visitor from Oregon in town these days that some of you guys know. He is W7ZTI, John is the handle. If you want to get in touch with him, give a call on 51.0 mc. John will be in town till after the X-mas Holidays.

Merry Christmas to all.

PINOCHLE

There was a real first in Pinochle this month. When only six players showed up to play we really had a problem. In the rules it states you need 8 players to hold a game, so there we were, ready to have some Jim Dandy games and not enough people to play. After several phone calls with no luck, Ralph W7COP solved our problem. We got out the phone book and drew numbers for the page, column and line. This gave us the name of Tom and Mary Blake. We phoned them and told them our problem and asked if they played Pinochle. They said they did and would be glad to come to the club house to play.

The evening wasn't wasted after all and we had some wonderfully unbelievable hands

Ralph W7COP served the coffee and W7PWN served the doughnuts.

Ralph won the trophy for the men and Mary Jo won it for the women. Low scores went to Tom and Mary Blake. Try and make the games in January, Pinochle players or you may be replaced by number.

The December Pinochle game will be postponed until January 8th due to Christmas and New Years. The January games will be held on the regular night.

MEET THE LOGGERS

Steve Dightman K7SSC

eve was born and raised in Tacoma. urrently lives at 2610 North Puget .

s first interest in the electronic was aroused when a relative gave him ebox amplifier. He combined it with cnograph player and ended up with a set up. The amplifier is still in oday. Using it for a modulator in a n use today.

ter he took the course at the vocat- school, where Jerry got him started e fundamentals of amateur radio.

1962 he obtained a Technician's li- and in the next year he passed the al Class and still holds his present K7SSC.

ong the way a 2nd class commercial se was obtained and he is currently

studying for a first class license.

The shack contains a Drake 2BQ receiver and a TCS transmitter, for the low bands. There is some home brew equipment on 6 meters. A Motorola rig for 2fm. The mobile rig is a modified WR2 rig.

The antenna consist of a sloping v for 75 meters and the MARS frequencies.

His main interests in amateur radio is the technical part and secondly rag chewing.

Steve has been with the Radio Club of Tacoma for 4 years and is presently the clubs Secretary.

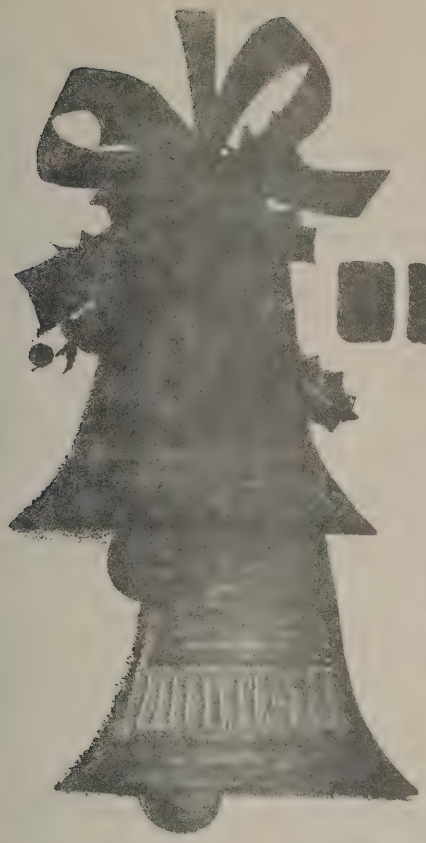

Currently he is attending Olympic College and working part time behind the hamshack counter at C & G Electronics.

Good luck to one of DK's younger but active club members.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

VOL III NR I JANUARY 1966 29.6 - 51.0

FROM THE PRESIDENT'S DESK

t is a little late to wish you a Merry rstmas, however we do wish you all a r happy, healthy and prosperous New Year 966.

hat happened, at the last meeting of Radio Club, is also history and most ll now as we are about to start out a year, I would like all members to join me in keeping the Tacoma Radio Club, BEST".

here is so much to be done and my s are that with your help we will;

Make our meetings so interesting you will never want to miss a single meeting.

Have a BOARD MEETING once a month at the club house. All the officers and Committee Chairman are expected to attend. Regular date to be announced. Also any member of the club may attend.

Continue the good work of modernizing the club house facilities so that we can be proud to hold all of our functions there. Even dances and parties. Ask every member to call and invite and even go and pick up another member and bring them to the meetings with you.

Rebuild, enlarge and put to use the club radio station W7DK at the club house.

Hope that the Board and the club will encourage the QCWA to install its library and museum in our museum space of our club house.

Encourage all social activities such as the Annual Banquet, Bowling, Pinochle, Field Day, Loggers Contest and over so many other activities.

8. Encourage the auxillary to send a representative to all board meetings and to let them know we appreciate their tremendous help.
9. Try to revise that portion of the by-laws pertaining to dues right away.
10. Urge any member or members to make suggestions to the board or to me personally, where we, together, can improve our Radio Club.

When you are asked to help - join me in considering it to be "a privicage to serve your Radio Club".

And now I can not close these thoughts with out expressing my appreciation for having been elected to be your President for the fifth year, being mindful that you have confidence that I can be of some help to the Radio Club. We express our appreciation to the officers and committees who served so well in 1965.

May the Good Lord give me the strength and health to carry out your wishes. I will surely try. Please join with me for I can't do it alone.

.....73 President W7OS

LOGGERS BARK NOTE

Another year is starting and we of the Loggers Bark are very proud to say we are starting our third year of publications. So far our paper has been able to take care of its own expenses and we hope to continue on, on this basis.

We are also happy to announce we have a new staff member. Steve K7SSC will be our

BLOOD BANK REPORT

oy Devish, W7AZI, chairman of the d bank, reported in the last club ng that the blood bank was out of . Anyone wishing to give blood will e thank welcome to do so. Just re- r to have it credited to the Radio of Tacoma, Inc. account. Also your nds may give to the club account. So the word along and fill the account. never know when you may need it.

....Scotty K7CYZ

UPPER LIMITS

Well, Christmas is over for another year, and we hope Santa brought you everything you wanted. As soon as you get the new rig on the air give us a call.

We had a good turn-out for the U.S.O. message handling this year. The number of messages was not as great this year, but we got them on their way a lot quicker. We sent them to K7TCY, Marion, in Puyallup and he put them on the nets as soon as he received them. Good work, gang, we will see you next year at the U.S.O.

Six meters is about the same, we lose some older calls and then new ones come on Two meters sounds like six used to. Most of the calls on two a.m. were the six meter gang five or six years ago. A lot of the two f.m. old timers are on six.

Oscar 4 is up and flying. It is supposed to be on 432 Mc. Has anyone heard it yet? If so, let me know and we will run a feature on it.

Happy New Year.

10 METER MOBILE HUNT

Don't forget the hidden transmitter hunts on 29.510. The next one will be on Jan. 9, 1966. Come one, come all. You don't need a transmitter to participate in this free-for-all on the air. Tune up your converters or what ever you may have and come and join us. Details are elsewhere.

...Merl W7IKG

MEN'S BOWLING NEWS

Radio Club Team #1 is presently holding down first place by ½ game. The first half play-off is Tuesday night the 28th. By the time you read this the play-off will be over and the winner declared. Members of team #1 are; Merl, W7IKG, Bob, W7RXS, Smitty, K7ATD, Ralph, W7COP, and Jerry Bourque, who has no call.

Radio Club Team #2 is firmly entrenched in last place but don't sell them short. Jack the giant killer didn't have a thing on these guys. They love to knock off the big guns. Members of this team are, Max, W7AEA, Scotty, K7CYZ, Dennis, W7UBA, Dick, W7RGD, and Cliff, W7MFG. Jim Churchward, ex-KN7ATC, has been substituting.

The teams wish to thank the supporters and rooters who have been showing up to encourage the teams. We have the best and loudest rooting section out there. Come out and join the fun.

POETS RETREAT

To readers of this loggers bark
I say with pen in hand
May sixty six be bright for you
To reap this fruitfull land

May your wishes be fullfilled this year
Provided theyre in reason
May lady luck be by your side
So you'll be here next season.

Keep a shinning smile on your face
A grin will do the trick
And fortefied with that, good friends
Things will work out slick.

And so these lines must end once more
This hand is getting tired
I leave with you and mean it too
May your New Year be inspired.

...Emil K7GPK

U.S.O. TRAFFIC

This year, as we have done several times in the past, we set up a station at the Tacoma U.S.O. to send Holiday messages for the service personnel that were still in Tacoma during the holidays. We had 42 stateside messages and 5 APO's. This year we set up a 6 meter station at the USO and had Marion, K7TCY, Puyallup, standing by to pick up our traffic. Marion checks into several nets, so the traffic was on its way in very short order.

I would like to suggest two changes for next year, if we undertake this project again. One is that we set up the station no later than the first week-end in Dec. Most of the service men had been given leave by the time we set this project. The next thing is that we should set up a station to feed the traffic directly into the nets. This is much more impressive for the on-lookers, and not much more work for us. We have done this before, and had wonderful results and comments.

Doc Spike, W7OS, was the chairman of this project this year, and under his leadership we had lots of operators and typists, but not much business. Good job, Doc.

SLIVERS AND SPLINTERS

7NIL has been on the air testing and ing to some of the guys. W7NIL is e Nipoli, an old time member of W7DK. lso a late flash! W7LB was heard on eters testing.

he band openings are few and far be- n, right now and it seems you have to there at the right time. Openings to Southeast U. S. have been good and as l good old Californian's.

mil, K7GPK, can be heard at 1 o'clock he morning on his way home from work. uency 29.6.

t is time to polish up the old ten r beam and put it to work. The sun cycle is on the upswing.

here is still a need for blood for Tip Z. He is recuperating very nicely surgery, but still has a few pints of d to replace. You can donate by going he blood bank and donating to C.C. or, Vets Hospital, Seattle. Please Marge, K7AMJ, and tell her if you did te, as Tip wants to have all the names he donors.

l Hoskins has settled down in San Rap- , Calif. His new call is W6CPP.

erry, W7BUN, is off to New York again usiness. He is going to Binghamton visit their local radio club. He also s to visit ARRL Headquarters so we ld hear a report on the goings on from East when he returns.

here is a pyrex bowl up at the club e with the name Cramer on the bottom. as left at the dance. You can pick it uring any meeting.

There will be a work party at the club e on January the 15th starting at 9:00 There is still a lot of work to be .

There was a beautiful Christmas card Glenn Ewing K7GBW/5 received and on lay at the club house. It has a color ograph of the Naval Academy, which he ttending.

Merl W7IKG had to relenquish his driv- priveleges the other night while out ating the C-D bus. Seems his birthday up on the 27th and he forgot to re- his driver's license. Remember fel- and gals, the new law requires you to the test again if your license is 60 overdue.

M.J. Bice, XYL of W7AEA, showed up he bowling lanes on the final night of offs with a Polaroid Camera. Seems

SLIVERS AND SPLINTERS (cont)

if you got a strike she caught you with the sheepish grin on your mug.

Russ W7ATB was back on the air, checking into the Emergency net this month, after quite an absence. Welcome back Russ.

Roy W7AZI is going into the hospital after the first of the year for a tune-up job. Doesn't expect to be there too long.

Beryl K7NPG working on the new rig for the mobile. Still having a little trouble trying to get the right antenna to match the fixed output of the transmitter.

Dick W7RGD still experimenting on the picture processing for the Loggers Bark.

A few of the club members are planning to get together on the 7th to have a practice session with their musical instruments. Might be able to talk them into playing again at some of the club's functions. ....Margie K7AMJ

COFFEE NEWS

It occurs to me that some of you may be wondering what ever becomes of all those MJB coffee lids you are asked to save and turn into the Radio Club.

By collecting 900 credits we receive case of 24-one pound cans of MJB coffee for our club's use. In December 7th I traded lids for coffee which is pretty good considering the fact that we turned in 1,000 credits in June for a nice new 84 cup automatic percolator.

You are helping us, and we are using those lids, labels and box tops so keep in mind the following items to save;

Labels	2 oz. jars MJB Instant	- 1 point
"	6 " " " "	-3 points
"	10 " " " "	-5 points
Lids	1 lb. can MJB Coffee	-1 point
"	2 " " " "	-2 points
"	3 " " " "	-3 points
Box tops	½ lb & 16 MJB Tea Bag	-1 point
" "	½ " " 48 " " "	-3 points
" "	100 bag size" " "	-5 points

... Ethel W7WLX

LATE FLASH ! !

Radio Club bowling team number 1 has won the first half of the bowling season. These fellows worked awfully hard for this standing and they should be congratulated.

Remember, Tuesday nights 8:45 at the Bowlero lanes on Steilacoom blvd.

LEFT THE LOGGERS

Irma Duncan W7OVW

rma was born in Des Moines, Iowa but to Tacoma when she was 3 years old. attended Central School and then went ason Lee.

he went after her amateur ticket in ber 1950 when she found it was easier oin the group than to fight them.

n 1951, Roy W7AZI, president of DK at time, asked Irma to form an auxillary. purpose was to let the wives get aqua- d with one another and to hatch plots w to blow up their husbands equipment. as truly a "widows club." The auxil- is still a big part of our club and n all thank Irma for the good found- n she layed in starting it.

rma was the warning officer for civil se for 2 years and was a faithfull tor of 29.6 which was DK's calling ency at that time. Our civil emer- y call, W7BMG, was the call letters of s late husband, Chuck Aufang. It was amed because of the time and effort ubangs put into the civil defense.

(cont)

Interest in ham radio was lost after the death of her husband but she still keeps in contact with her ham friends.

New hobbies have taken over since her marriage to Joe and they are pretty busy with them. Irma works at C & G Electronics and keeps their home at 11214 So I St. She has her hands full keeping two freezers and a fruit shelf full of food. Their main hobby is eating I'm sure. Their two Siamese cats, Uno and Dono, keep them from getting lonesome.

Irma has two sons and 7 grandchildren that visit frequently.

Irma and Joe both enjoy getting the Loggers Bark and hope to see it continued. They feel it is one of the most worthwhile projects ever undertaken by DK which, really pleased the staff.

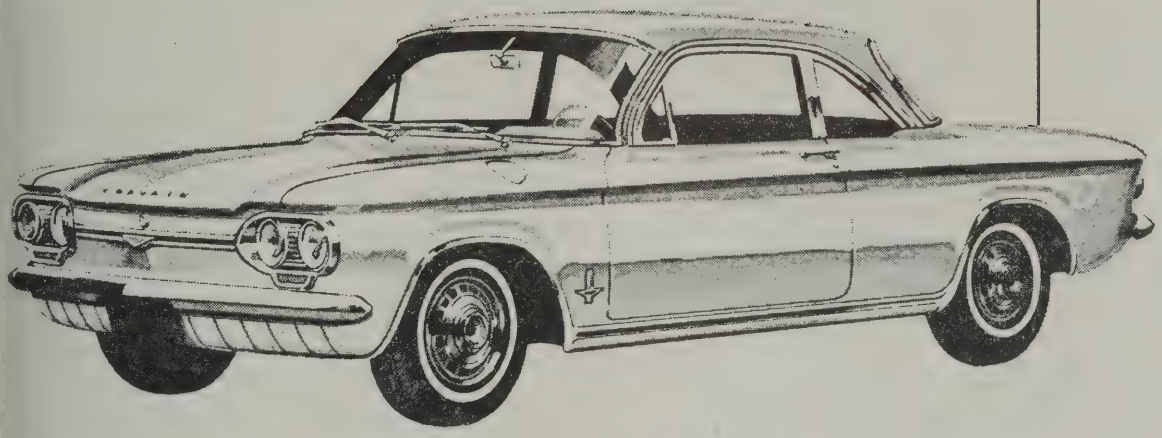

It was a very enjoyable evening with the Duncans and we hope to have more of their delicious coffee and apple pie in the future.

We want to wish Irma and Joe the best of luck on their fishing and camping which takes up their time in the summer.

....K7AMJ

CONTEST REGULATIONS

for the VALLEY MOBILE HUNTS

Amateurs of the Puyallup-Tacoma area interested in conducting Mobile Transmitter Hunts have formed togeher and will schedule a Hidden Transmitter Hunt every other week, with exceptions, as announced.

The following rules and prizes offered will be followed unless modified or changed by a majority of the hunters:

NAME OF HUNT

The name of the hunt shall be called Valley Mobile Hunt.

REGISTRATION FEE

Fifty cents will be submitted by each mobile unit as registration in each hunt.

POINT SYSTEM

Points will be awarded on the following schedule:

Starting hunt	5 points
Finishing hunt	5 points
First place	90 points
Second place	60 points
Third place	40 points
Fourth place	25 points
Fifth place	15 points

DETERMINATION OF PLACEMENT

Each hunter will be scored according to the distance he has driven and the amount of time consumed until he has discovered the hiding place of the

CONTEST REGULATIONS

for the VALLEY MOBILE HUNTS

Amateurs of the Puyallup-Tacoma area interested in conducting Mobile Transmitter Hunts have formed togeher and will schedule a Hidden Transmitter Hunt every other week, with exceptions, as announced.

The following rules and prizes offered will be followed unless modified or changed by a majority of the hunters:

NAME OF HUNT

The name of the hunt shall be called Valley Mobile Hunt.

REGISTRATION FEE

Fifty cents will be submitted by each mobile unit as registration in each hunt.

POINT SYSTEM

Points will be awarded on the following schedule:

Starting hunt	5 points
Finishing hunt	5 points
First place	90 points
Second place	60 points
Third place	40 points
Fourth place	25 points
Fifth place	15 points

DETERMINATION OF PLACEMENT

Each hunter will be scored according to the distance he has driven and the amount of time consumed until he has discovered the hiding place of the

'Bunny'. The following formula will be used:

$$\frac{t}{5} \text{ plus Mi.}$$

where t equals time consumed

Contestants will be placed First, Second, Third, etc. beginning with the lowest number according to the above formula.

FREQUENCY

The hunts will be conducted on the ten meter band on 29.510 Mc.

'BUNNY' RULES

The 'Bunny' is required to locate within a ten mile radius of the starting place. At the time the hunt begins the 'Bunny' must not change transmitting conditions. i.e. power, antenna, location. The 'Bunny' must have a readable (Q5) signal by one hunter at the starting point.

He must be located within 50 feet of a passable road by modern passenger cars. The hunter will be allowed to walk up to 100 feet to the hidden transmitter.

The 'Bunny' must transmit at least 30 seconds total in each 5 minute period. No transmission being less than 5 seconds. The 'Bunny' is further required to give one substantial boundary clue in the first 30 minutes of the hunt. And to give further clues (at least one) each 15 minutes thereafter until found by the last active hunter.

The hidden transmitter operator will be granted 25 points plus one (1) point per minute until found by first hunter (max 60 points).

The 'Bunny' will be required to furnish a 'Booby' prize for each hunt.

If he fails to provide a 'booby' prize his initial 25 points will automatically be forfeited. Furnishing of a 'booby' prize by the operator constitutes his entry fee.

PRIZES

A trophy will be awarded at the end of the contest year as Grand Prize to the hunter with the highest total points.

A small prize will be awarded at the end of each hunt to the winner of that particular hunt. The 'booby' prize will also be awarded at such time.

At the end of the contest year an Inspirational Award will be given who the majority of the contestants feel deserves it the most.

HUNT SCHEDULE

A hunt will be scheduled every other week (with exceptions) thirty days in advance.

CONTEST YEAR

The last Saturday in October will be the end of the contest year and a meeting of the hunters will be held on that date for the purpose of awarding prizes and holding a general meeting preceded by a dinner and followed by entertainment.

Any money remaining after the purchase of the prizes and other expenses will be used for the purpose of defraying costs of the annual meeting.

INFORMATION

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

III NR II | FEBRUARY 1966 | 29.6 - 51.0

FROM THE PRESIDENTS DESK

"One down and eleven to go"
During the first month, after three rd meetings, your radio club has many s in the log, and some already well r way.
ommittee chairmen are all hard at work results are beginning to be seen all nd us.
are so grateful to so many, for the derful job done on the powder rooms, will surely come in handy as our ings become more and more interesting. we can stay as long and as late as we .
r first meeting we all enjoyed a wonful, instructive talk by Darrell, W7GDP, chairman of the TVI committee. Those missed his talk will find a report in issue of the paper.
surely appreciate so many accepting intments and assignments to make this a success. There are plans to have programs at all of our meeting this .
r club radio station committee is makplans. Watch them develop and look where and when you can lend them a .
are all looking forward to the annual uct, loggers contest, field day and spring weather so we can get out and the landscape committee and the paint ittee doll up the outside of 1249 h Washington.
anks to Gene Dodge, W7BTV, for his tion to the club radio station.
personally am so happy with so many ring their help, especially several are sorta shy and timid, <u>every little bit helps</u>.

PRESIDENTS DESK(cont)

Many signs of a rising spirit so characteristic of our Tacoma Radio Club, keep up the good work.

Don't forget my suggestion to call up some member and ask him or her to go with you to our regular club meetings and functions, or better yet, go pick them up and bring them with you !

See you There.

73
President
W7CS, Doc

$50.00 FOR OUR CLUB???

That's right-we can make the club $50.00 but we need everybody's help to do it. Now here's how!!

Almost everybody uses pepper. On your eggs in the morning and on your charcoal broiled steaks in the summer. And how about vanilla? For baking cakes, making puddings and also during the holiday season for making egg nogs (yum) Now here is all we do. Through the courtesy of Bob, K7ZVA, Watkins products dealer, the following offer is made--------we sell 50 bottles of vanilla and 50 cans of watkins pepper.

This is fairly easy to do. The products are well known and of a high quality. You can get any amount to sell you want by calling Bob at Ju-8 6090.

These must be sold in 30 days so lets start sellin'. Vanilla sells for $1.97 for an 11 oz. bottle and pepper sells for $1.67 for ½ lb. this includes the tax.

Let's earn this money we need so badly.

or contacts be sent to project Oscar at Foothill College, Los Altos Hills, Calif. AR

UPPER LIMITS

January was slow on six and two meters. There were some California and Arizona stations on for short spurts on January 15 and again on the 18th. Generally it was slow for January.

The six meter hunts are still going strong. Since the holidays, they have picked up and should be real good this spring and summer.

This winter has been unusually slow for the mobiles on c.d.. There has been no 2-11 fires, no storms and although the police radio has been busy, they seem to take care of our fair city without our help.

In a couple of months the D.X. should be rolling in again.

See you next month.

NEW CD BUS IN OUR POSSESSION

During this last week, Tacoma CD received the new bus for the communication section. We will sure be blad to get this new bus and be able to get up the hills without having to get out and push. What relief!!

We let a contract to the City Transit to remove all of the old seats and stanions. Tomorrow we will get the final plans for the work benches and storage bins, and the wiring plans are ready for final approval. We will have two generators with provisions for using both or either of them. Also flood lights will be available for the top of the bus.

There will be a complete and separate operating section that is separated from the meeting and coffee section.

We hope to overcome all of the objections that we have had to the physical arrangements of the old bus. Time will tell.

POET RETREAT

"WHO'S WHO"

read in "The Loggers Bark" somewheres
A month or so ago
hat a bunch of DK bowlers
Rustled out and stole the show.

ome came in first, some came in last
At least that's what I read
it how in the world do you tell "who's who"
When the B.S. starts to spread.

he winners will pop their buttons off
Unless I miss my guess
he loser's will likely pray for help
To raise them from their mess.

if you don't know "who's who" these days
But would like to find out with ease
st look for shirts without buttons
Or pants with well worn knees.

....Emil K7GPK

CLUB BANQUET

The annual club banquet date has been
t. It will be held on February 26 and
ll be at the Top of the Ocean.
President Doc W7OS, appointed Chuck
PWN, and Roy W7AZI, as the banquet chair
n and they would like to know how many
ll attend so that the reservations can
set up. Please call either Chuck or
y as soon as you decide on attending so
at this can be taken care of. They must
e the information by February 18th. So
in touch with them right away.

FIELD DAY 1966

The President has assigned the job of
ld Day Chairman to Scotty K7CYZ and his
-chairman will be Steve K7SSC.
It isn't too early to give some thought
field day as you probably know. The
irmen will be looking around for ideas
a lot of help so be prepared to give
m the help they will need. This is a
job for any one member to take on and
much easier even with two so do your
re when asked to.
Field Day normaly falls on the third
k-end of June. The actual date has not
n set as yet.

.....Dick W7RGD

SLIVERS AND SPLINTERS

Do you have some spare blood? If so, contact Roy, W7AZI. Tip, W7REZ is still in need of at least 8 pints. A gold star to Emil, K7GPK who was first in line.

Ev, W7CZK is back home after 5,000 miles through Oregon, Nevada, Arizona and California. He said the rain in Phoenix made him homesick.

Heard on the air: W7COP talking to K5WZN/7 on ssb. on 29.6. W7CZK also on 29.6 on ssb. Boy! how those 603's and 683's groan with donald duck chatter.

Joe W7IG, just about gave up on calling Roy, W7AZI the other night. It's a good thing some listens to that frequency and have a telephone.

Dwayne KyKSZ has a new way to rotate his beam when the rotator gets stuck. Just get out ye ole fly rod and made a good cast and pull! It works fine but at 1:30 in the morning the neighbors think you're slightly batty.

Well, our President, W7OS, was the first to use our brand new facilities in the mens room. Quite a cheer went up from the crowd at the work party to know the job was finally completed. Who will be first in the Ladies Room???? Let's attend all the meetings and find out.

Doc K7AYD, is vacationing in California and will be there till middle of February.

You may have noted a change in the paper this month. A new press has been obtained and it is taking the operators some more time to get used to it. We hope to be able to pring QSL cards with the new press in the not to far distant future.

Margie K7AMJ, Dick W7RGD and Max W7AEA made a pact on quitting the smoking habit and so far after two and a half weeks none have broken training. Seems there is a $10.00 bet along with it to help.

Roy W7AZI is back home from the hospital and back on the air. Nice to have you back again Roy.

A little short on news this month, but will try and make it up next month.

T V I INFO T

If you believe that it is possible to perate an amateur radio station without using some kind of interference you are ot fully informed. It seems that it is mpossible to completely eliminate all the terfering signals from your transmitter nd antenna system. There is an equal or reater chance that poorly equipped or nufactured devices are made that will ot reject certain signals. There is no rtainty that erratic conditions will not our at any time. Therefore your trans-tter and/or receiver can and does inter-re with the people who own and attempt operate electronic devices while we are the air.

Every attempt should be made by each one us to uphold the good name of our club DK. We should not think or say profan-y to the people. Think twice before you eak! Don't ever tell one of your neigh-rs he has a poor piece of equipment. member this may be the best he can ford, and may have every right to be oud of it. Cooperate in every way, up and including operating only at times at are least likely to interfere with eir pleasures. Our licenses are privil-ge, not rights, and can be revoked by e FCC.

For several years I have attempted to ist W7DK in upholding a tradition of h-interference. We have one of the best putations in the entire country. In ne years we have as few as five or six mplaints, This is an accomplishment of ich we can be proud. I have again reed to serve as chairman. It is time, wever, that all of our members be alert-to what I would like to have attempted fore I am called.

To begin with the chapter on broadcast terference in your radio handbook should read. I think each amateur should a-pt to solve his own problems to the ex-t he is able. Those matters that are clear to you could, perhaps, be clear-up by a fellow amateur, who may have a similiar problem. By all means tend your club meetings, it is there t you will meet the fellow with the wers. Remember, there is no person or ece of equipment that is perfect, so e the proper allowances. Leave your-f room to return to your neighbors, and ho we can cure the problem.

....Darrell W7GDF

WORK PROGRESSING AT CLUB HOUSE

Within the next few weeks, we can say that we have finished all of the necessary work on the inside of the club house.

There are more projects that we will want to undertake in the future, but with the finishing of the bathrooms, we can take a vacation until we can work outside.

During the last few weeks we have had a work party and have installed the wash-basins and toilets in the men's and wo-men's restrooms. We also put tile on the floors and plaster board on the walls and ceilings. The front door jamb had slipped out of plumb and that was fixed. The back door light was fixed, and new wiring in-stalled. The drapes were put back up.

The next project will be a console for the club station.

Within a few months we will need a work party to start on the outside of the club house. We need to scrape all of the peel-ing paint to get ready for another coat. There will be some landscaping to be done as to cutting the lawn and getting the gardens weeded. We will want to repair the foundation. So that at the end of this year we will have all of the needed repairs done. At the end of this year, this committee will leave with only the expected and yearly upkeep.

There is one thing that I would like to request, and it is this:

WILL ALL OF THE SUB-COMMITTEE CHAIRMEN ATTEND THE BOARD MEETINGS. It is only by attending the board meetings that you will get the full and complete story of what is necessary.

To all of you who have worked hard the last few weeks, many thanks from all of the members.

VALLEY MOBILE HUNT

The Valley Mobile Hunt had another ssion on Sunday, January 23. Three hun- rs were in the field with Hal, W7DNU, dden bunny. Hal was hidden near the yallup River in the city of Sumner.

First place was taken by Merl, W7IKG, d second place by Beebe, W7SLB. Steve, KOT had to quit early due to swing shift rk. Riding with Merl was XYL, K7AMJ, il K7GPK, Ev, W7CZK and Steve, K7SSC.

The next hunt will be on Sunday, Feb- ry 6th at 1:30 pm. Starting place; Hi- Shopping Center in Puyallup. The bunny ll be W7IKG, and the frequency is 29.510 ere will be a second hunt on February e 20th.

Come and join the fun!!

...Merl W7IKG

NOTICE

A special notice was mailed out to all ub members during the month of January, minding everyone that club dues are due this time. If your dues have been id previously please disregard the no- pe and thanks for the prompt payment. number of the club members complained pause they did not get a notice of dues e at the end of the year simular to the tices of some of the other membership bs. It was decided on by the Board to d out the notice. The newspaper was ld to make up the form and get it into e mail.

WOMENS BOWLING NEWS

Here is the standing of the womens wling league. The XYL'S took the first f of the bowling season and the other ms are going to fight for the second f. The standings to date are:

1. Gutter Gals
2. Bowling Stones
3. Hot Tubes

series scratch: Vi Bourque 527
game scratch: Margie Chavis 209

dicap series Joyce Vigus 672
dicap game Greta Ryan 264

See you next month with up to the min- t news on the league.

...Inez W7RXT

MEN'S BOWLING

The bowling teams are still going strong in the Tuesday night league. Team #1 is in second place and team #2 is about in 7th place. Everyone should come out and cheer for the members of the radio club teams. It sure seems like they bowl better when there is a rooting section.

Both men's teams are entered in the Greater Tacoma Bowling Tournament. Team #1 will bowl on Saturday night at 6:30 pm, and team #2 bowls at 12:30 on Sunday. Saturday is Feb. 19 and Sunday is Feb.20.

Come out and cheer the teams.

RULES FOR THE LOGGERS CONTEST

This contest will be referred to as the "Tacoma Loggers Contest".

The purpose of the contest is to publicize the Radio Club of Tacoma (W7DK) and the Loggers certificate.

The contest will be held from 2000 GMT Saturday March 19 to 0400 ~~2359~~ GMT Monday March 21, (1200 PST Saturday March 19 to 2000 PST Sunday March 20) with no more than twenty-four (24) hours of operating time.

Any band, power, frequency or mode, within provisions of FCC regulations, may be used. Suggested frequencies are;

PHONE	C-W
Within 30 Kc plus or minus of 3900 Kc	Within 10 Kc plus or minus of 3600 Kc
" " " " " " " 7250 "	" " " " " " " 7075 "
" " " " " " " 14250 "	" " " " " " " 14075 "
" " " " " " " 21300 "	" " " " " " " 21075 "
" " " " " " " 29600 "	" " " " " " " 28050 "
" " " " " " " 51 Mc	" " " " " " " 50.1 Mc

The following information must be exchanged in order to count a contact as valid: (a) The QSO number (b) Signal report (c) QTH. Only one contact may be counted for each station, even though one or more contacts may be made with that station on different frequencies or modes.

Stations outside the United States (50 states) will receive a Loggers Certificate for each 5 contacts with a member in good standing of the Radio Club of Tacoma. In the same manner, stations located within the 50 states will receive a Loggers Cerfificate for each 10 contacts.

Each contestant will submit logs showing dates, call letters, time, signal report and off times. Time will be shown in GMT. Logs will be completed and transmitted so as to reach the Loggers Contest Committee no later than April 4, 1966.

First, Second and Third prizes will be awarded for the three highest scores to members in good standing of the Radio Club of Tacoma. To count toward these scores, points will be as follow; (a) one point for each contact, except that any novice contestant will be awarded two points for each contact (b) five points(in addition) will be awarded to a contestant who receives from a station with which he is in contact, a valid request for a Loggers Certificate and enters such information in his log. The information will include the call letters of the stations claimed and the dates of such contact. Those who are entitled and are claiming a Loggers Certificate may however submit their request with pertinent information to the Contest Committee.

All entries shall become the property of the Radio Club of Tacoma Inc., and decisions of the Loggers Contest Committee shall be final.

LOGGERS CONTEST COMMITTEE:
Bob Jenks K7ZVA chairman
Charles Margelli K7VPF
Hunt Mitchell WA7AKW

MEET THE LOGGER

ot Dave Edmondson .A7ASV

Dave lives presently with his folks at 513-48th ave. east and is traveling back nd forth to Auburn each day to attend the een River College. Also he is working days a week for his father, working in ssel Marine Equipment. Since working th his father in this line of work, Dave longs to the International Association Machinests.

He was first licensed in amateur radio a Novice June 12th, 1964. The General ense was obtained a little over a year ter on June 21 of 1965. He got it just time to be able to operate with DK on old day. The first year he attended old day with DK, he logged for 40 s.s.b. e following year, after obtaining his neral license, he operated on 40 c.w..

Uncle Sam just mailed notice to Dave to port to Seattle, in the first part of bruary for his first physical exam. for services.

The ham shack, at the present time, nsists of a Hallicrafters HT-37 for the ing out part and a Drake 2B with a q-mul- plier for the coming in part. Presently hone brew 4-1000 is on the bench getting dy for the big fire test. Having some oblems with the power supply but expects have them ironed out shortly. As for overhead wire-works there is no short- of wire around the house. There are dipoles on 20, two dipoles on 15 and dipole on 10. There is an inverted V

LOGGER (cont)

for operations on 75. A TA-32jr. (2 element short spaced tri-bander) graces the premises also. Operates all modes. C.W., am and ssb. His favorite bands are 15 cw and 10 ssb.

At the present time Dave is looking for a two meter mobile rig for the car.

Last summer got involved with some experimenting with low powered transistorized transmitters. The rig was copied in Bremerton and even up in Bellingham. The rig was running 30 milliwatts of power when it was copied in Bremerton. The test was tried on 80 meters. He wanted to try his luck in the 432 mc band but the equipment was too hard to come by.

Dave has a RCC award hanging in the shack and also a section award for 1964, for the highest score in the sweepstakes for the novice section in Washington. Remember, this was accomplished during the first year of Dave's being licensed as an amateur.

Currently, Dave has night classes on Wednesdays, so can not attend DK'S regular meetings. This is the reason you will have noticed his absence from the crowd as of late.

It was hard to catch Dave home long enough to get a picture and interview, since he keeps a pretty tight schedule with his schooling and working two nights a week. Good luck Dave on your future projects and your possible job working for Uncle Sam.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

VOL III NR III | MARCH 1966 | 29.6 - 51.0

FROM THE PRESIDENTS DESK

"Two down and ten to go".

During this second month, seldom in the history of the Radio Club, have we seen such activity__HAPPY DAYS__ Our regular board meetings are held on the 3rd Wednesdays right after the AREC at 8 PM at the club house. There were almost as many present as at our regular meetings and they are open to all.

Field day got a good start with Scotty, K7CYZ at the helm assisted by Steve K7SSC. The annual banquet plans were firmed up with Mr. Frank Roach of the Federal Communication Commission as our speaker, at the Top of the Ocean on Saturday February 26th.

The Watkins Plan for helping our our treasury is in high gear. Helen Spike turned in $18.80 from her sales so far and we hope everyone will get in and help, so please call Rene Smith and ask for your Vanilla and Pepper.

Sharpen your pencils and tune up your rigs for the Loggers Contest. Your President W7OS is working on his third endorsement and hopes to get every member listed on his certificate number 14, before this year is up!

Thanks to Wallace WA7BZY for the nice program on the "Eye Bank" and the splendid color film. Al has applied for club membership too. Let's all make him feel welcome by becoming acquainted.

Our old friend Howard Nichols, W7HWD has rejoined our club, and are we happy about that. Let's see if we can find some other former members who have been away and who want to get back with us.

"THE NEW LOOK at the club house". Our attendance on meeting nights is bursting our seams. We have a new parking plan and our Vice President, Roy Devish W7AZI has scheduled a real interesting list of programs, so don't miss a single one of them.

Your President is going to start a code class starting at 7 PM at the club house on regular meeting nights, 2nd and 4th Wednesdays. Let's show some interest in the code and get some more General Licenses.

We are saddened by the silent key of Doctor Faye Nace K7AYD, who passed away in Los Angeles February 14th.

We will surely all miss Doctor Nace and our sympathy goes out to Mrs. Nace and Roger K7AYC. Many of our members attended the services the 18th.

Don't forget my suggestions to call up some member and ask him or her to go with you to our regular club meetings and functions or better yet, go pick them up and bring them with you.

See you there.

....President Doc W7OS

PROGRAMS

Don't forget the March 9th meeting. Alex W7AZR, will be there with slides on his recent trip to Cape Kennedy. He watched some very interesting things while there and will be at the meeting to share them with us.....

DUES DEADLINE

Remember fellow members, dues are due If you do not want to lose membership in DK and continue to get the Loggers Bark, they will have to be paid by the end of March.....

In Remembrance

DOC K7AYD

Doc Nace, a true amateur, a true friend and a real gentleman. Though his mike and his key no longer echo on 29.6 or other familiar frequencies, his every present spirit will give us help and consolation in days to come.

His cheerful and elaborate phonetics are a part and tradition of amateur radio in Tacoma and particularly in our radio club. His friendly work or helpful hand made this world a better place for all of us.

May his QSO'S be ever cheerful and his DX always plentiful.

Silent Key "Doc" K7AYD was licensed in 1957 after attending classes at C & G with his son Roger, K7AYC. After a few trial runs to Seattle he received his General class ticket in the same year.

Doc, was one of the big supporters when we decided to buy our present club house and through his hard work and the help of others it now belongs to DK.

He served as field day chairman for two years, bringing in some of the biggest scores we've had to date. He also served as co-chairman one year and was there every year to lend his willing hand to win or lose.

There were two well done programs by Doc at the club meetings on electrical shock and how it affects our body. He also arranged a program for us to tour Mary Bridge Hospital to see the newest of electronic machines in use with medicine.

Doc served as a board member for many years and gave his faithful support to all activities and social functions.

He will be missed on 29.6 by all who monitor that frequency. As he drove around town talking to all who were there to hear. He helped keep our club calling frequency alive.

Farewell to a wonderful friend and fellow amateur.

ARRL BULLETINS

NR 45

FCC this week dismissed a request for rulemaking RM-562 January 23, 1964 which would have outlawed on-the-air amateur contests and operating awards, and which would have forbidden the playback of recorded amateur signals. FCC found that such activities may well help amateurs meet the objectives of section 97.1, as for instance Field Day serving as practice for emergency communications and proving ground for emergency equipment. It further found that the non-contest operator could always find available channels for his desired operations. FCC felt that since so little playback of recordings was taking place on the amateur bands no FCC action was required. Further details will appear in April QST AR

NR 46

All amateurs are reminded that New England first ARRL National Convention will be held in Boston, Massachusetts, April 22 through 24. There will be three days of exhibits, group meetings, technical talks, tours, a banquet and other special events. Information has appeared in February QST with further details to appear in the March issue. Those planning to attend should write the Federation of Eastern Massachusetts Amateur Radio Associations, The FEMARA, care of Mr. John McCormick, W1KCO, RFD 1, Berkley Street, Taunton, Massachusetts 02780 AR

NR 47

The ARRL Intruder Watch has completed it's first full year since reorganization of it's operations with several intruders having been removed from the amateur bands as a result. However, much additional work and constant vigilance are necessary. The Intruder Watch welcomes additional volunteers with two or three years amateur experience and good receiving equipment who can spend at least two hours a week logging the calls of non-amateur stations in the amateur bands. RTTY operators, especially those with access to sophisticated gear, are still urgently needed. Volunteers please write Intruder Watch, ARRL, Newington Connecticut 06111 BT

UPPER LIMITS

Six and two meters have been very active locally. Six has been trying to open up. California was in twice this month. As we said last year at this time, keep your ears open from now on. The DX can start rolling in.

Tuesday and Wednesday (22-23) the characteristic Aurora Borealis waterfall roar was on six for over three hours each day. Don't overlook this! Out of this noise comes the rare ones from Alaska and Northern Canadian Provinces.

Two am is picking up fast. Two fm is so busy one has to wait his turn.

The 51 mc x-mitter hunts are the main activity for the local members. Again this month, our city had no major fires or emergencies to call out the mobiles. Both hunts were attended by no less than seven cars, each with an average of four to a car. There were 28 people for coffee after the hunt. This month the hunts will be Fridays, March 4th and 18th. It starts from the DK club house parking lot, 8:00pm sharp. Come on out if you do not have a six meter rig, there is room to ride with one of the gang.

See you next month and happy dx-ing.

....Scotty K7CYZ

MEN'S BOWLING

The first three Tuesday nights were fair nights. One could even call them good nights for the bowling teams. Team number 1 won a total of ten games for the three evenings. Team number 2 won a total of nine. All team members agree that they should forget last Tuesday night February 22. Both teams lost three games each. Merl W7IKG, was high game and high series with a 214 game and 566 series. On team 2 the Rev. Cliff W7MFG, took the honors with a 186 game and 453 series. The two teams efforts in the Greater Tacoma bowling association, are not worth mentioning. As Cliff said, "it was an expensive practice session".

Come on out and watch us, every Tuesday at 8:45pm at the Bowlero Lanes. Leave the crying towels at home. We all have our own.

Sunday, March 13, starting at 1 pm at the Bowlero Lanes, the men's teams will be holding a tournament with the ladies teams made up of their wives. Each ladies team will play both men's teams in a three game series. Come out and cheer them along.

FIELD DAY

YES! It is creeping upon us again. As we have learned in the past, it is never too early to start planning.

In the regular meeting of January 26, 1966 President Doc, W7OS appointed yours truly K7CYZ as Field Day chairman for 1966 Following is the first report and general outline submitted to the club members at the meeting of February 23.

First: the big question is shall we continue as in the past with the antenna parties 2, 3 and 4 weeks before the big day? Or shall we join the growing number of clubs (and individual hams) who believe that field day should revert back to its original meaning and purpose, IE: to demonstrate to the public of the radio amateur to set up and operate one or more stations in the least possible time in an emergency, using emergency power under emergency conditions: to tally and submit to the ARRL the number of contacts made in one 24 hour period! The tallying is simple but do we have the power to detect an emergency 2, 3 or 4 weeks in advance ? Will a voice whisper to us in the next meeting and inform us that an earth quake will hit two weeks from now, that we should go out this Saturday and put up antennas? Or will that disaster hit three minutes from now?

No matter in which way we decide, advance antenna parties or spur of the moment emergency type. We must be prepared! Not only for field day but for any emergency that may befall us. That is why I have asked Doc to appoint two men as my assistants. Steve K7SSC and Wayne K7HBO.

Steve's job will be to see that all field day antennas and associated equipment, are located and in good working order for field day. Steve also will assist me in the location of stations and obtaining station operators and loggers.

Wayne will be in charge of grounds. He will have parking space for all and will spot the trailers and camps that are to be used for stations. He will know the location of all stations and be able to direct you to them. Also he will be in charge of the generator (s) and see that they have gas and oil at all times.

Members, who will be called upon for assistance are, Roy W7AZI in the kitchen as in the past. He will see that we have food to go on for the 24 hours. Roy also will see to it that all stations have power and hope he will do the same this year.

Margie K7AHJ, Smitty K7ATD and Dick W7RGD will be asked to take care of publicity. We would like to see advance notice in the local news and of course as many pictures as possible, and a story for our Loggers Bark.

Dick K7ITX and W7 GD will be asked to set up a repair shop and to assist in setting up stations. Also to take charge of all stand-by equipment.

We are going to need station captains and operators for all bands, phone and cw. We are going to need loggers and runners. We will be strained for help. Each and everyone will be called upon to perform several duties, be it large or small.

I will keep you informed as things progress.

Late note: The members attending the February 24th meeting, voted to have this years field day held as mentioned above. We will set up Saturday morning, operate the alloted time and close shop. More on this later. ... Scotty K7CYZ

SKATING PARTY

Remember the skating party and hot-dog feed on March 17th, at 6:00pm. Those planning on attending should bring salad, cup cakes or potatoe chips. The feed will start at the club house at 6pm and leave to the skating rink at 7pm. Lots of fun for the young and old alike.

-... -

AUXILLARY NEWS

How would you like to take a free trip to Columbia, South America? At the next meeting, Heanne Fenimore, formally of the Short Circuits bowling team, will show pictures of her recent trip there. These are quite facinating, as they show exactly how the people live with no frills added. Let's have a good turn out to make this worth her time.

....Vivian Huntley

THANKS

A note of thanks to Lloyd Larson K7IUD for his pint of blood donated to Tip.

-... -

NOTICE

There will be new printed copies of the revised by-laws of the club. Pick one up at your convenience. Every member should have one.

-... -

PARKING AT CLUB HOUSE

There will be a new parking arrangement from now on at the meetings. Come early or you won't be without a front row spot. There should be plenty of room for everyone, but it will take a few times to realsee which system will be best.

STATION NOTE

Max W7AEA, will take the duties of the trustee of our club call W7DK.

THANKS

Thanks to Tom W7FUL for his donation of radio gear for the club auction.

SLIVERS AND SPLINTERS

Emil K7GPK, is back on day shifts again Will see him at some of our meetings again.

Everyone had quite a shock at the last club meeting. Cliff W7MFG, appeared and had to be introduced to our President even He's been a member for 50 some years and the only one who knew him was Roy W7AZI.

The Huntleys are missing a coffee cup with "little angel" printed on the side. They suspect Margie K7AMJ, after noticing the halo around her head.

Have you noticed the extra weight around the middle of Dick W7RGD and Max W7AEA? They gave up smoking and the extra pounds have sure started piling up in one spot. Try Jack La Lanne boys, he's done wonders for some people.

Congratulations to Tom W7BQL And his wife Mary on the birth of another son.

Where is John WN7AAG? Haven't seen him at a meeting in a long time.

Ralph W7COP, youngest son Paul banged up Ralphs pick-up. No injuries except to the truck. Ralph is shopping around now for fenders and grill to get the old bus back on the road.

Hunt WA7AKW, advised at the February meeting, his wife was now home after a short stay at the hosital and is doing fine now.

The attendance at the February 9th meeting was, without a doubt the largest one of this year and last year as well. A count of noses showed 36 members and guests. We need more like this one.

Don't forget the Loggers contest on the 19th and 20th. A note is on the calendar to remind you this month.

The Hoods, K7NPG and K7NKZ, just received word their daughter Bonnie has won first place in the Puyallup Elks Club. This will mean a free scholorship for her and a chance at the state Elks award. Lots of luck Bonnie and congratulations.

A big thank you to Elaine Lefler, XYL of K7TZA Bud, who has helped the publisher of the loggers bark with suggestions and assistance in setting up this publication.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

III NR IV APRIL 1966 29.6 - 51.0

FROM THE PRESIDENTS DESK

ree down and nine to go".
Today is the day, as I jot downthese
es, the Loggers contest is under way,
n we annually parade out the Loggers
tificates and endorsements. I am after
4th endorsement by working a few more
the members of the Tacoma Radio Club.
Those of you who were not at the meet-
on March 9th, missed a once in a life
meeting. We had two of the old tim-
come visit with us and I was so pleas-
o greet and visit with my personal old
members and friends of long ago.
were KL7KQ, Kennith Hager from Anch-
e (now settled on Vashon Island) and
, John Mardesich, both of whom were
er members. W7MX and KL7KQ drove over
Seattle just to attend our Club's
ing. We hope that they both will re-
their membership soon and come to
o Club whenever they can.
ur Vice President, Roy W7AZI, is gath-
g together so very many wonderful pro-
s. Look over his schedule and don't
a single meeting.
our board meetings are really produc-
results, so watch the club activities.
R Stan is going to put on the Mother's
reakfast. The Daffodil parade, auc-
May 11th, Field day and so many other
ities are just around the corner.
nt to thank Alex W7AZR and wife Helen
their wonderful program on the 9th.
s a program long to be remembered.
n't forget CODE PRACTICE before each
ng at 7PM.
e you all at all of our meetings.

.....Pres. Doc W7OS

range as it may seem, most fatal
ric shocks happen to people who should
better.

PROGRAMS

On April 13 the Radio Club's meeting will have, as it's guest speaker, Mr. R.E. Young. Mr.Young is Public Relations Supervisor with Pacific Northwest Bell, in Seattle. He will give a talk and demonstration of LASER beams. He will have equipment with him to give a practical demonstration. There will be a change in the meeting time this night. Due to Mr. Young's other commitments, he will present his program at 8:00PM sharp. Following his program the club will have it's regular business meeting. So if you don't want to miss an interesting and different type program be sure and be at the club house before 8:00PM.

On April 27, Dr. Del Kohler W7UMJ, will be the guest speaker following the regular meeting. Del will give us some of the details on satellite tracking. This is a new subject for meeting nights so don't miss this one.

A little farther in the future, we have an auction scheduled for May 11th. Start thinking about this one. It's lots of fun and will benefit the club at the same time

.....V-Pres. Roy W7AZI

NEW MEMBERS

Let's all welcome aborard four new members to the Radio Club;
Louis Anderson W7UZE
Roy Monroe K7USF
Al Wallace WA7BYZ
Charles Nichols W7HWD

NOTE

Your new roster "book" will be out in April. These will be at the club house and you will have to come there to pick them up. These will be a much nicer book than usual and will also have the club contitution and By-laws in it.

ELECTRONICS WORLD

ARRL BULLETINS

NR 48

Provided their correct club mailing address is on file, about 1300 active ARRL affiliated radio clubs should receive during the next few weeks their 1966 Club Bulletin, containing the annual club survey forms. In cases where recent officer elections have been held, our information may reach a former officer. If your club is affiliated but has received no bulletin by mid-March, it is suffested that the current club secretary's address be sent to ARRL with a request for a duplicate Club Bulletin. All clubs receiving these forms are urged to return the information on the annual survey to ARRL as quickly as possible BT

NR 49

FCC has extended until March 30 the time for filing comments in Docket 16420, which would make RACES a permanent part of the amateur service. Reply comments may be filed until April 14. The extension was requested by ARRL so as to allow fine for publication and discussion of the ratter. Further details are on pages forty and forty-one, March QST BT

NR 50

U.S. authorities in Viet Nam point out that the operation of KlYIE/XV5 by Deputy Ambassador Porter is a special exception to the otherwise complete prohibition of amateur radio in a country at war. No other applications for licenses are being considered. Additionally, U.S. military regulations prohibit any operation by serviceman amateurs stationed there except through MARS on military frequencies. Further details will appear in the May issue of QST BT

NR 51

A new manual on Amateur Radio Public Service communications is now available free of charge from ARRL Headquarters. The new publication on emergency and traffic operations discusses the Amateur Radio Emergency Corps, the National Traffic System and the Radio Amateur Civil Emergency Service. This twenty-six page publication is available from the ARRL Communications Department, 225 Main Street, Newington, Connecticut AR

How about our President? Signed two applications blanks on the wrong line. Come on Doc, that's no way to get new members into the club.

MEET THE LOGGER

Meet Darrell Erickson W7GDP.
Darrell was born in the City of Tacoma.
lives at 871-119th Southwith his wife
ice and fine family of five.
He attended the Parkland School up to
8th grade and rode the street car to
ewert and Lincoln High, where he grad-
ed in 1938.
From there he spent 2 years at San
ao Jr. College and then 2 years at
nford, which was paid for by the Gov-
ment.
Continuing on from there he went to the
l Labs in New York City to assist in
tting a repair manual for Raytheon Ra-
. Worked om model with serial #8.
Since that time Darrell has been work-
for the City of Tacomainterupted
y by a 18 month tour in the Navy.
Darrell was first licensed as an ama-
r in 1936 and has been active ever
e that time. Joined W7DK in 1936.
The first rig was a pair of 45's and

LCGGER (cont)

we're not refering to guns.. The filter condensors were tinfoil from cigarette packages and pages from the Popular Mechanics magazine dipped in parafine. The transformer was hand wound.

The receiver was a regenerative type. 24A, 27 detector and a 47 amplifier.

At the present, Darrell is working on convincing Alice that he should have a S. S.B. rig.

Darrell has been with the club for some time as you all know and for the last few years has done an excellent job on the T. V.I. committee.

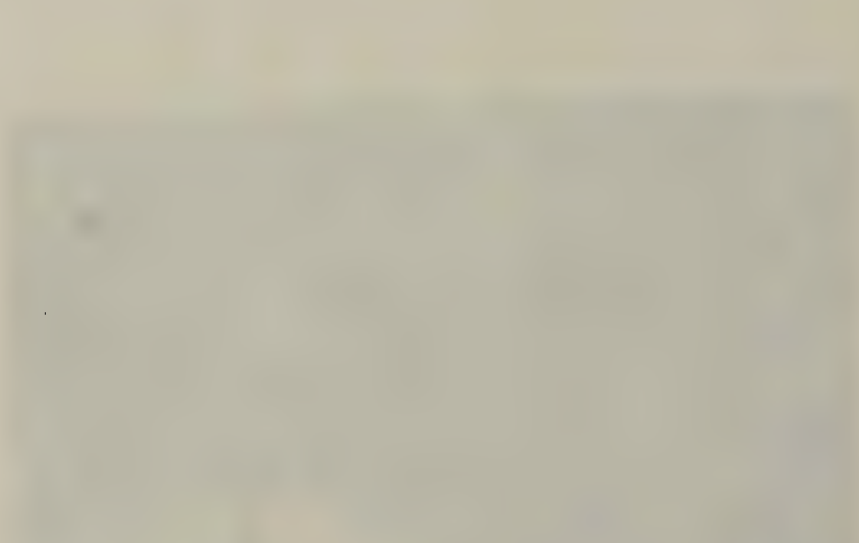

Besides being a member of DK, Darrell belongs to the Toast Masters, APCO, etc. Has been teaching extra at the vocational school for some time also. (1954)

Alice, not to be left behind, is teaching at Park Ave. School.

Good luck to Darrell W7GDP, a hard working fellow club member.

.....Margie K7AMJ

LADIES AUXILLARY

The Womens Auxillary met March 2nd. with an interesting talk and pictures on Columbia South America by Mr. and Mrs. Stanley Fenimore.

BOB W7RXS & MARITA CHAVIS

The kids and their parents all enjoyed the skating party and hot dog feed on St. Patrick's day.

The next meeting will be April 6. Let's have a good turn out. This will be election night for officers.

Pres. Vivian Huntley

-... -

DAFFODIL PARADE

Operators are needed for the Daffodil Parade this year. Walkie Talki operators, Miles etc. If you are interested, please call Smitty K7ATD or be at the bus at 7:30am on Saturday the 2nd or at 9th and Broadway at 8:00am. If we don't have enough operators the Citizen Banders will take over next year. Let's go fellers before we are edged out of the picture.

717 So. 38th St. (near Park)
ED COLES K7CZM
2431
2130 open evenings pd. adv.

FIELD DAY

Things are shaping up fairly good. We will start work at 8:00am Saturday June 25 Put up your antenna's and start operating. We will spread out this year to the limits (1,000 ft.) to "try" to eliminate the interference we encountered last year.

So far the station line up is something like this; Bob W7RXS on ten meters, Merl W7IKG on 80 c.w., Smitty K7ATD and Jerry W7BUN on 75 phone, Max W7AEA on 20 c.w. and yours truly will operate on 6 phone. Forty meter phone and c.w., 20 phone, 15 phone and c.w. and 2 meters have not been spoken for and available. All bands will need help for operating.

So as you can see, there is still lots of room for everyone, if they want to take part. The technicians and novice operators are needed.

We will have the station locations for you next month.

UPPER LIMITS

So far the upper bands have not opened altho every thing points to an opening. meters is breaking in and out, which is sign that six and two will soon follow. Heard Ed K7CZM and Dick K7ITX exchang- points for the Loggers contest. Tried break in but could not hear my mobile m Olympia.

Speaking of Olympia, you fellows should n your beams that-a-way once in awhile. re is quite a gang down yonder.

Hope to see all of you at the Daffodil ade. Smitty K7ATD needs operators bad. buss will be at 17th and Broadway. Be re early. Before 8:00 am or you won't in. This is one of the main V.H.F. ngs of the year, so let's all show up. We are going to need help on V.H.F., on d day also, so get in touch with me.

.....Scotty K7CYZ

COLUMBIA SLIDES

You, who missed the meeting of March 23 missed one of the best programs we have had in many moons. Shirley and Dan Martin gave us a talk and showed us slides of their trip through Columbia, South America. These were slides not of the usual "run of the mill" tourist trips but slides that most countries don't want the tourist to even see, let alone take pictures of. Besides the slides, they had on display, some of the fantastic carvings, samples of silversmith and leather work of the peasants and samples of the blanket and cloth weaving.

From the slides of the country, you could see why the Columbia coffee company can truthfully say their coffee beans are "mountain grown" and why the horses have two short legs.

Many thanks to Shirley and Dan for the most interesting evening the club has had in some time. If our guess is correct Columbia may have more visitors from Tacoma.

If you don't want to miss this kind of evening, you should make it to club meetings more often. .....Scotty K7CYZ

The Yakima Amateur Radio Club is hav-g their annual hamfest April 2nd and 3rd ey have a full 2 days of activities for eryone. Listen in to the various traff- nets for the latest information. There e brochures at the club house on Hotel & tel accomodations. Sounds like a good me. Head for Yakima to join the fun.

-... -

We will have our annual Mother's day eakfast next month. Stan W7LIR will be e head chef this year. Start planning w to take the wife, mother and all the is to breakfast next month. We'll have re details in the next month's issue.

-... -

John K7CZF is in Louisiana. From the test reports he is operating on 14.290 ound 6:30 pm PST. He is on a job for ker Chemical and will be there for 2 ths or so. He will no doubt love to r from some one in Tacoma.

-... -

BLOOD BANK

Roy W7AZI advises, we still need blood. ember your friends can donate into the b's bank. Just have them tell the od bank to credit their donation to the io Club of Tacoma Inc. That's all it es.

-... -

LADIES BOWLING

The XYL's are in undisputed 1st place in this half but 2nd place shows a real uggle going on. The Loud Speakers are with 23½ games won and the Hot Tubes Bowling Stones are tied for 3rd with games. It's anyones game yet with 6 s left to place. Helen Asplund picked a rare split this month. The 2-4-7-10. even hit the big paper with that one.

.....Inez W7RXT

COMING AUCTION

Following the regular business meeting of May 11th, the Club will hold the annual club auction. The club has gathered several items of ham gear to auction off. We can use more however if you have gear to donate. If you do have parts or gear to donate, please bring it early so that it will avoid confussion on the night of the auction. If there are any questions regarding the procedure, call Roy W7AZI who will be the auctioneer for the evening.

-... -

MEN'S BOWLING

Radio club team #1 split (2 and 2) last Tuesday night the 22nd. Jerry had the high game, 225.

Radio club team #2 didn't fare quite so good. In fact the Monta Vista Drug team sure can build a brick wall fast. With the help of Jim Churchward's 202 game, they came out on top one game. Come out and cheer the fellows on every Tuesday night at the Bowlero Lanes at 8:45PM.

...-.-

SPECIAL NOTICE !

This month the staff has mailed out copies to the complete mailing list as of last month. For those of you who have not paid your dues this is a complimentary copy. We sure don't want to lose you as a member and don't want to drop you from our mailing list.

EDITORIAL

It has happened at last! The day of ognition is here upon us and as every- could see in the Sunday Ledger of il 24th. the citizen banders has topp- the amateurs.

This has been a long time in coming but bound to happen.

This editor has felt this way for a g time! When we sit back in all the ll and large disasters that strike our a and do nothing, then go all out for ades, salmon bakes and parking attend- s, we sound like a lot of "Glory Seek- " among the cities chosen few!

Do we really care about the Mr. Big Shot his staff or do we want to honestly p people who need help in time of dis- er whether they hold a civic position or !!

How many of us in Civil Defense know rgency procedure? VERY FEW. How much e do we devote per year for practice? E! It's up to us if we want C.B. to re- ce us. We can have a good emergency w without Civil Defense. Let's get be- d our AREC which is for emergencies, y and let C.B. have the Parades and Park- lot attendants jobs.

We have a wonderful Civil Defense bus h all the equipment in it. We can only this when the higher-ups deem it nece- ry. With the amount of mobiles and good nization we can have an emergency corps ce as good as anything C.B. or C.D. has e out with. It's up to our AREC leader- p and the good people who are willing to low. I'd like to see something come of s. If this is what we needed to wake up of our dreamland, then let's give nks to the C.B.ers. Come on AREC and e some drills to get us in practice.

I've belonged to civil defense for five rs and never been on a drill. This leaves me with no experience for any kind of emergency.

Let's drill fellows, and get something going just in case we need it. You never know when, so let's be prepared.

K7AMJ

EDITORIAL (cont)

POT LUCK DINNER

Let's all meet at the club house on May 6th for a wonderful night of eating and playing games. Bring a dish and the recipe for it and we'll exchange recipes and get to try all the different kinds of food. These are a lot of fun and we hope to have a big turn-out.

PRESIDENT'S DESK

"Four down and eight to go."

Is there any wonder that your President is confused, frustrated and a little bewildered, (but very grateful) to all who have been helping so very much, for we are having such good, enthusiastic crowds, at all of our meetings and the programs are out of this world. All of you who haven't been to the Club lately are missing a great deal. First, such interesting programs and second it's nice to see your old friends.

As I write these notes I'm wondering how we will ever be able to handle the crowds who have said they wouldn't miss hearing all about the program on LASER lights by Mr. R. E. Young tomorrow night the 13th of April. We'll see!

(eds note: seats were at a premium during the meeting and a picture of Mr. Young is elsewhere in this paper.)

We are also looking forward to hear ing Del Kohler, W7UMJ speak on satellites,

POETS RETREAT

I WANT TO BE A HAM

by

Dorothy C. Grassman

My coffee mugs are gathering
In the back room, on a shelf
I speak new words and numbers,
And I'm simply not myself.
I've been bitten by the "HAM BUG,"
And the fever marks are deep,
I haunt the receiver every night,
When I should be asleep!
My friends have ceased to ask me out,
My golf clubs gather dust.
The lawnmower bares its blades at me,
And the rake's encased in rust.
I study, practice, listen and dream,
Of the day I'll pass my test,
Hopeful, to soon be "on the air",
To mingle with the rest.
You're a special breed of people,
Who willingly help one through,
You're a friendly, noble bunch of hams,..
AND I WANT TO BE ONE TOO!!

FINANCIAL REPORT

The following is a financial report of Loggers Bark as requested by the Board the last board meeting.

During the first half year, January to y 1964, there was no cost of operation. o there was no income involved. The er and equipment to print the paper was plied by KTNT-TV through the generosity Max Bice W7AEA.

From July 1964 through April 1965, the er was printed for us by the J & D nting company.

From May 1965 until this printing the ff has been printing the Loggers Bark. ce we have started printing the paper selves, the staff has acquired a good ck of equipment and supplies. We are in the position of being self suffic- t.

In the first period of July 1964 thru ember 1964 the following amounts were eived and payed out;

ertising & Subscriptions	$89.00
ations	+69.70
TOTAL income	158.70
t of printing paper	-141.93
NET balance	16.78

In the second period of 1965 the follow amounts were received and payed out;

ance forwarded	$ 16.78
ertising & Subscriptions	209.00
ations	+293.56
TOTAL income	519.34
of paper and prize(drawing)	-405.53
Net balance	$113.81

In the final period from January 1966 the present date April 1966 the follow- amounts were received and payed out;

ance forwarded	$113.81
ertising & Subscriptions	54.00
ide printing jobs	64.25
ations	+ .00
TOTAL income	$232.06
d out for material	- 77.59
Current NET balance	$154.47

The checking account has a balance to- of $87.88 and the cash on hand totals 59. This totals $154.47.

t the end of 1965 the staff's books audited by the Clubs auditting comm- e and a $20.00 surplus was found e that time a new system of book keep- simular to the Clubs books are being

(cont. next column)

kept. In the future a full accounting will be published in the paper in the January issue of the Loggers Bark.

.....W7RGD

MENS BOWLING

As usual Radio Club bowling team #2 gave team #1 a lesson on how to bowl. Yep #2 took three games out of four. Cliff W7MFG, was the inspiration with high games of 204 and 212, with high series of 560.

This took place on April 12th and on April 19th team 2 repeated by taking three games from Canteen Service. Max W7AEA led with the high game of 173 and high series of 475.

That same evening Bob W7RXS, came up with a high game of 233 and high series went to Merl W7IKG with a 540 score. Team 1 split the series two and two with B.F. Goodrich.

In the above picture you will note some of the bowlers taking in nourishment after the games.

Don't forget to come out to Bowlero Lanes om May 3rd and cheer your bowling teams on in the big play off's for the 65-66 season. Starts at 8:45 PM and we would like to hear you cheering.

.....Scotty K7CYZ

SUMMER MEETINGS

Don't forget that there will be only one meeting per month during July and August.

_ ... _

WOMENS AUXILLARY

The Women's auxillary met April 6 and ection of officems for the year was held th the following results;
esident-------Mae Anderson
ce President--Faye Monroe
c-Treas-------Mary Jo Cowart
ard----------Ethel Devish
I hope everyone will continue to give e the fine croperation that I have had. anks to everyone.
Remember the auxillary meeting May 4th. e Pot luck dinner will be May 6 and the her's day breakfast May 8th.

.....Vivian

NEW MEMBERS !!

We would like to welcome into the club new members.
Dorothy Grassman and Larry Cruise K3MKK. othy has no call at the present but a ck elsewhere in the paper in the Poet's ner will give you an idea of her inten- ns. Larry has a call and is currently tioned at McChord AFB.
Welcome to the club and we hope you rticipate in its many activities.

SLIVERS AND SPLINTERS

Come summer we should really have some fine activities coming up!! Our chairman for activities will be Bob W7RXS, Joe W7IG and Dewey W7HF. I hope they are good friends of the weather man.

Guess who lost $5.00? Max W7AEA and Dick W7RGD. Guess who won $10.00? Marg K7AMJ. Hope those cigaretts taste good fellows.

Glad to hear Tip W7REZ is doing better. We were informed he had a lung collapse but is home again and feeling much better.

Jim W7BSW is just starting on his little league baseball season. No rest for a father of little boys.

Jerry W7BUN and family took a trip to Japan to see Micheko's father who is quite ill. Hope he is better by the time our paper goes to press.

John K7CZF is still in Louisiana.

Dewey W7HF can be heard on 28.6 talking with Joe W7IG and Ev W7CZK almost any night around 9:30. Don't expect to hear them on Tuesday because Joe has to watch Red Skelton on the boob tube.

Nice to see Lloyd K7IUD up at the last work party at the Club house. They really put you to work when you show up Lloyd.

Dwayne, K7KSZ is working day shifts now as maintanance electrician. We'll see more of him at the meetings now.

Louie, W7UZE is putting up a new Gonset Tri-bander on his tower. More QRM on 20 from the south end of town.

May 28th is our last Pinochle night. This should be a good night. If the top players will just be there the rest of us should have fun just watching them fight it out.

Dick, W7RGD still trying to tune up and operate his new Johnson K-W rig.

Merl, W7IKG has lost count of the new countries he has worked with his new SSB rig up on 20 meters.

Emil, K7GPK is still working on adding SSB to his rig and get in on some of the good DX that is coming in.

Beryl, K7NPG just received his order of QSL cards printed for him by the Loggers Bark and now will have to get on the air to put them to use.

Quite a bit of work was accomplished on the Club house and yards during the last work party. The old club house is looking better all the time. A big thank you to all the workers.

That's it for this month.....K7AMJ

UPPER LIMITS

Spring has sprung and the mobiles are king. The last two 6 meter hunts have n the best we have had for a long time. is good to see Dwayne K7KSZ, back on hunts. Better get a new loop Dwayne.

K7USF-K7ATD-DICK-W7RGD

We had a good turn out on the Daffodil ade. Special thanks to the mobiles n Seattle way. Smitty needs help at Field house for the April 29 th and 30 the Scoutarama. Come on you mobiles, e is a chance to limber up that rig for comming summer.

Don't forget to keep an ear open. This the time the d.x. starts breaking, or you miss the Aurora during the last 2 s.

More news next month, we hope.

D-X COLUMN

We haven't had a DX report from anyone for a while so here goes.

VK9JK on ssb, mostly during evening hours. Look around 14.240 for this one. Also FW8RC, Wallis Island on 14.245 ssb.

The band has been good for the better part of the month with short path openings very good. The early morning path to S.E. Asia has also been very good. A beam heading of 340 degrees will net you the likes of 9M2AV on 14.02 cw also 9V5AZ on ssb.

Openings to South - Central Asia have been fair with OD5EE showing up along with ET1AC in Ethiopia on ssb.

Either cw or ssb will net you any number of countries, so have at it.

.....Merl W7IKG

THANK YOU

We want to thank everyone who sold or bought the Watkins Products for our money raising project. We made $31.00 for the club treasure. Every little bit helps.

h a QSO may be carried on in another
age. The amateur regulations are not
fic in requiring English identifi -
ns, but advisory notices are being
d by FCC to amateurs who are over -
identifying only in the foreign lan-
being used for a QSO AR

PAST PROGRAMS

During the meeting of April 13 the club was fortunate in having as a guest speaker Mr. R.E. Young. Mr. Young, who is Public Relations Supervisor with Pacific Northwest Bell, gave a talk and demonstration of LASER lights and some of the products of the telephone company.

As you will note in the picture Mr. Young is disasembling part of the equipment used in his talk.

He had an actual LASER (pronounced to rhyme with blazer) to demonstrate with. It was very effective, sending speech and music over a short distance by means of the light beam.

He showed some of the phones in use today that use the new touch-tone dial and explained the operations of computors via telephone lines.

As for the future, he showed a new system, by which you will be able to pay your local bills entirely by phone without the help of any human. All done by punch cards, which will be fed into a slot provided on the telephone. What next?

All in all if you missed this one you are letting things slip by that you should not.

Thanks to Mr. Young and to our Vice-President for making the program available.

...W7RGD

EYE BANK

Forms for the eye bank are at the club house if anyone cares to donate their eye. Ask Al WA7BZY for more information on this worthwile cause.

ROSTER BOOKS

Be sure and come to a club meeting and ck up your new club roster booklet. These are very nice and well worth the fort to get out of that easy chair and ke in a Wednesday night at the Club use. There are good programs and swell ople to meet. This is the only way you n get a roster this year so we'll see u. K7AMJ

MOTHER'S DAY BREAKFAST

Our time to honor our Mothers and Wives here again. Stan, W7LIR, will be the ef for a pancake breakfast on Mothers y morning from 8:00 AM to 11:00AM. He ll need some volunteers to help with the rving and the dishes. Aprons are furn-hed fellows. The men pay 50¢ and wives d mothers are free. ...K7AMJ

AUCTION

ter the regular meeting of May 11th, the ub will hold the annual auction of radio ar. Don't forget to bring the dimes and arters that you have had in the sugar wl. Also bring along some of the gear u have had around the shack. The Club n use the money for up keep of the Club use and some of the young fellows would ke to get that old gear you were going throw away for a bargain. Roy W7AZI ll be the auctioneer again this year.
.....K7AMJ

COMING PROGRAMS

The Radio Clubs annual participation in the Gardners of Paradise display at Point Defiance will be held on May 21st and 22d, from noon till 6pm both days. We supply radio communications, amplifiers and technical engineers, so be ready if called upon.

May 25, Will England, Field Engineer Manager for IBM, will talk on development of transmission of data-information over communications facilities.

....Vice President W7AZI

:T TOM GILMORE W7FUL

Tom was born in Tacoma and lived here his life except for adventures over-as with the Navy. He graduated from idium High School in 1936.

In 1936 he joined the Naval Communicat-.. as reserve under Doc W7OS, and stayed in s organization until he entered active y in 1939.

He was licensed in 1936 and held his sent call until his overseas duty when operated from Dutch Harbor until the rt of World War two, when all Amateur ivities came to a halt.

He returned to Bainbridge Island and there from 1946 to 1948. From 1948 to 0 he was in Hawaii and operated a club tion, KH6UL. Then back to the states to the East coast where he held the 1, W4RXS. Back to Bainbridge and W7FUL in from 1950 to 1953.

Two years of duty in Japan found him ng a club call again, KA2KS. Back to aii and KH6UL. He also worked mobile s time as W7FUL/KH6. He then used the l KH6CMC until 1958. From there he t to Cape Chiniak, Alaska. Here he ked as W7FUL/KL7 and also the club sta-n KL7CYU, which is still operating. went from Alaska to Washington D.C. and t there in 1960 to retire here.

He and his wife, Mona have lived up at wn's Point since his retirement.

For his station he operates a HT-32B iter and two 811's. A Drake 2-B is the receiver used. He has a 4 element beam for 20 meters up on a 65 foot tower. Also an end fed Hertz antenna 280 feet long.

His favorite bands are 20 and 40 on both ssb and cw.

At present, he and John K7CZF, are working on one of the clubs 5 kw generators. He also has plans for a 10 meter rig for C-D.

He is a member of QWCA. He has awards for DXCC with 220 confirmed countries, WAC on cw, back when they were hard to come by also a Loggers certificate, he got during one of our Loggers contests. Also WAZ on cw. He won the DX contest for the Washington Section for cw in 1938, which is quite an honor.

Tom bowled on Radio Club #2 team for 1 year but had to give it up this year due to a bad elbow.

Tom usually works 20 or 40 cw on Field Day.

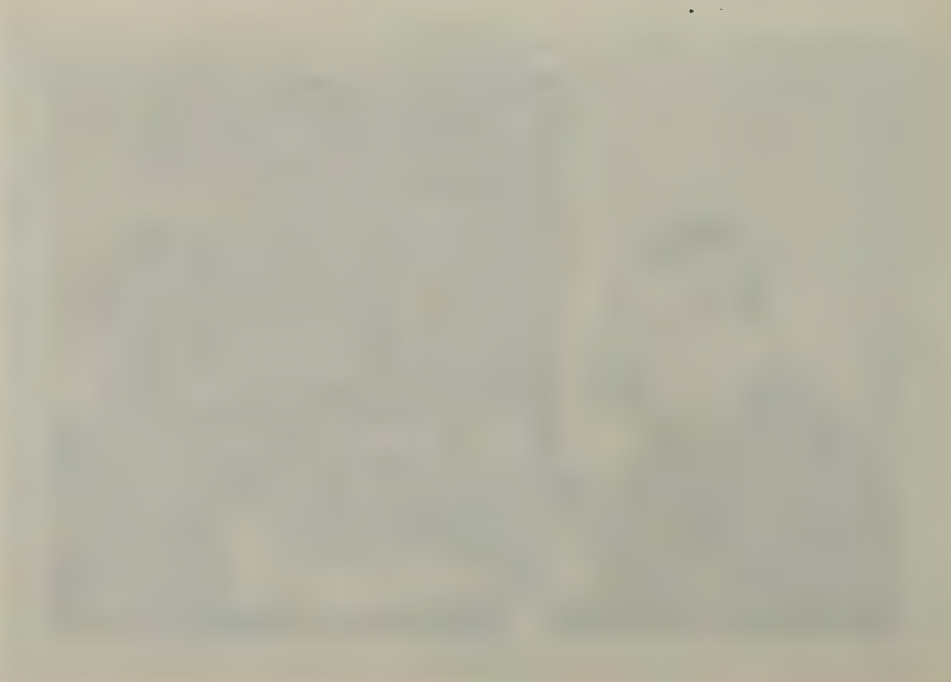

He was Treasurer of DK during 1963 and 1964. He's been a Club member since 1960 when he returned to Tacoma to live.

Here is a true amateur. He carried his hobby to foreign lands for some 20 years and has been active regardless of where he went.

Lots of DX-ing in the future Tom and let's hope you stay here where we can have eyeball QSO's as well as contacts on the air, ssb and cw.

them as soon as possible.

Our auction was well attended and was as always, a ball, thanks to our favorite auctioneer.

I want to thank personally Dwayne Lewis K7KSZ, Roy Monroe K7USF and Dennis Salitino W7ZTG for helping me get my antennas back up again. I guess my climbing days are gone.

Our sympathy goes to Ed Coles K7CZM at the loss of his wife, to Steve K7CZT at the loss of his mother and Ralph W7LIL at the loss of his mother.

Code practice classes are growing each regular meeting night at 7pm until 8pm. I hope that it is helping, so we will continue thru the regular summer meetings of July and August.

Let's all attend the summer functions, and now have a good vacation.

Our regular schedules of meetings will start in September.

Your President visited Howard Reichert ex-7HR at his home some time back and found that he was recuperating from his illness of last fall. It was wonderful visiting with Howard and his XYL, Sidney, who I haven't seen for too many years. We were in Franklin grade shool together.

....73, Doc W7OS Pres.

PSCARC

The June Puget Sound Council meeting will be held at the Club House on June 8. Anyone wishing to attend and see the operations of the council are welcomed to attend.

The new elected officers for 1966 are President Bud Young W7HMQ, Vice President Bill King K7IMN, Secretary Herb Graham K7ZEP and Treasurer John Middlekauff W7JBZ

SUMMER ACTIVITIES

tarting with Field Day June 25th and this summer promises a lot of out- activities for the members and family. irst, we are sorry to report that the ic at Churchward's on Fox Island has canceled this year. Due to previous itments and personal reasons, Bob asked ancel it for this year. To take the e of this trip, the staff of the Log- Bark will sponsor a Salmon Derby.

he first picnic will be on Hood's l. Dewey W7HG has invited the club to place on the 17th of July. This has ys been a wonderful trip, rain or e. This will be the first round of horseshoe tournament for the summer so t miss this one. We will have a map he July Loggers Bark, so you won't get .

nen there is the salmon derby, which entatively set for July 31st, with a on bake at Owens Beach in the after- . The derby will start at sunrise and fish must be weighed in by 2pm. We bake em and eat em on the spot. The is $2.00 entree fee. This will be o- o members and friends.

ext we go to Westport. This is August , at Stan's W7LIR. On this outing we a fishing trip and camp out. Stan a lot of room so some can sleep inside e also has a bunk house and a lot of for tents or campers and trailers. will charter a boat for the ones who to fish and there is a lot of ocean for the land lubbers. You shouldn't this one! The charter boat will be ved for the 14th. (Sunday)

xt comes Eatonville and a visit to 7IG and Helen Asplund for the play- f the horseshoe pitching and a grand c. This takes place on September 11. ways have a good time on this outing. are miles to roam in and Joe has 3 shoe pits to keep the afternoon live. oks like we have a full summer ahead.

.....Scotty K7CYZ

CONGRATULATIONS

XYL'S

PUBLICITY

Does anyone have any pull with the Tacoma News Tribune? Are there enough Tacoma people subscribing to the Seattle P.I. to make it profitable to put our news in that paper?

For the Gardners Paradise Days week-end we were to have a picture and write-up of the Club but everything else made the 2-week spread except ours.

We were there! Smitty K7ATD and Scotty K7CYZ manned the mike and amplifier at the Funland area for 8 hours last weekend and I manned the picnic area setup with the help of Dick Hazelmyer on Saturday. We did get credit on the printed programs but the Boy Scouts never showed to pass them out, so we did that job also in our areas.

I'll try again to get an article in our TNT about club activities but you'll probably have to search for it.

...Roy W7AZI

you next month. .....Scotty K7CYZ

POETS RETREAT

Oh Field Day we hear you call
The time is drawing near
We'll pack our cars and trailer homes
With all sorts of parts and gear.
Antennas will glisten in the sun
Or will it rain this year?
At DK's site up in the hills
Near beautiful Mt. Rainier.

AZI with his pots and pans
A shinning in the lights
Will feed that bunch of cannibals
With their tremendous appetites
It's bacon and eggs, hot cakes and such
For breakfast in the morn.
Spaghetti, salad, "strawberries" and ham
For dinner will adorn.

Someone will step in a pie no doubt,
As they wander thru the night
It's not the kind you eat of course
It's from a southbound cows north side
But it's all a part of Field Day
And there's nothing we can do
He may cuss a little as he finds a stick
And scrapes it from his shoe.

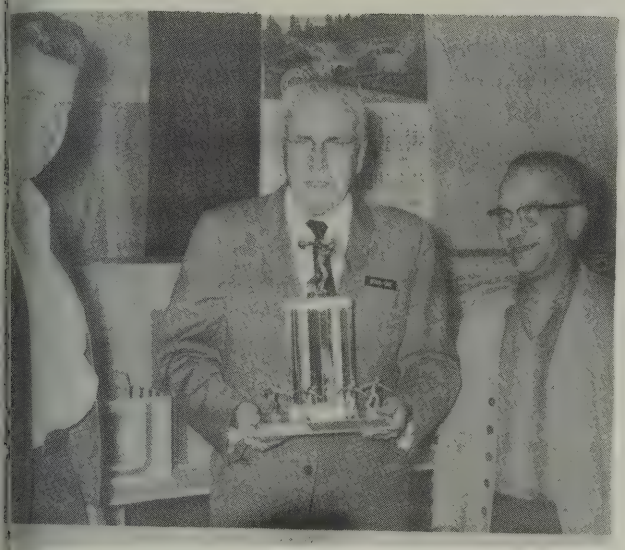

When it's all over and antennas come down
You'll be worn out to the bone
But fun you will have, your guaranteed of that
Before you head for home.
So come one, come all, let's turn out in force
And make our bid for fame
Let's go all out for Field Day
And play a winning game.

We're going to win for sure this year
At least that's what we say
Are we going to be all liars
Or are we going to make it pay.
The choice is yours my fella hams
Now what's it going to be?
A footnote on the last page
Or bold type in Q S T.

Q.W.C.A.

On April 30th. the Northwest Chapter of the Quarter Century Wireless Association held a district dinner meeting at the Lewis and Clark Hotel in Centralia.

There were 54 in attendance and everyone enjoyed the fine dinner arranged by Bob Stewart, W7ECX.

Dewey Wilson W7HF had a fine display of museum items that brought about much reminiscing of hamming activities way back when.

Horace Geer W7AG brought tapes which he ran of old commercial telegraphy stations, which could be identified by distinct keying variances.

After our fine dinner we enjoyed slide pictures of Northern Alaska from the collection of Horace W7AG who was communications officer on St. George Island for many years.

The Radio Club of Tacoma was well represented with W7OS and Helen, W7IG and Helen, W7ER and Ruth, W7HF and W7AZI and XYL, W7WLX. .....Ethel W7WLX

SLIVERS AND SPLINTERS

Ev W7CZK is leaving on a trip with his ailer. He will be looking for contacts 14.270 or thereabouts on s.s.b of urse.

Also Dewey W7HG has been heard from his mmer home on the canal on 28.6.

It seems that Ralph W7COP has a second equency on his mobile now, 29.510. He s heard checking into the county C.D. c.

The 10 meter band has had a few opening t nothing spectacular. On May 24 a KH6 s heard working Ø land and an XE2 call- CQ.

This fall and winter will show up a few e openings that's for sure!

Emil K7GPK is back on mobile 29.6 a- n - generators do use brushes Emil!

Don't forget the AREC net on 29.6 and 0 MC on the 1st, 3rd and 5th Wednesdays 7:30 PDST.

Thanks to Joe Swank W7GIP for fixen clubs receiver.

What's the "stomach" doing now-a-days? e miss those Tuesday nights at the lero.

T'was good to see Al Stenso K7LV at our t meeting. He just stopped in while up e in Tacoma for a V.F.W.meeting. He his wife are living in Medford Oregon. lcome back to John K7CZF. Back from job out of state, and looking good.

d and Steve Coles K7CZT and K7CZM , h showed up at the meeting for the auc- n. Haven't seen Steve in some time.

Merl W7IKG, working overtime again and ting ready for the big paint job com- up at the club house on the 11th.

Gene W7BTV, visited with Dick W7RGD all ning while his car got it's spring tune Spent the morning drinking coffee and ching a print job coming off the clubs nting press.

Beryl and Laverne K7NPG and K7NKZ busy ting ready for their vacation trip to ada in June and also the graduation ac- ities for the twins, Bonney and Connie.

Scotty K7CYZ busy with arrangements for summer picnics and Field Day. He has many notes in his note book he will an I.B.M. memory unit to keep up.

Bob K7ZVA busy cutting the lawn. Hard work any dx while pushing the mower a- nd huh?

See Bob W7SFO at the meeting a couple weeks ago. Long ways to come for Bob.

Dick K7ITX got under the Club house to

SLIVERS (cont)

get the power lines up to the new console. Understand he worked on it till about 2am. just to get it finished. Looks good Dick.

Art Paul W7EVW has a green thumb in his home. Seems his XYL took a few honors in the Gardner of Paradise Show just a few weeks ago. If you've ever seen their yard you would know why.

Jerry W7BUN back from his trip to Japan and getting ready to show pictures and play some sound tapes from the visit.

Haven't seen Art Wing W7JGN in some time. Off on another fishing trip Art?

That's about if for this month.

.....K7AMJ & W7RGD

FIELD DAY 1966

Sure creeps up on you doesn't it? So far the only change is that we will not have the antenna raising party that we have had in the past. As you all know by now, we will put up the antennas on June 25th and start operating. So everyone show up early. We will operate the usual stations, 80 through two, altho 6 and 2 may be operated as one station by closing one down while the other is on. If 6 is open we will have to count them as two stations. So far the line up is as follows

80 cw Merl W7IKG
75 am Jerry W7BUN and Smitty K7ATD
40 cw O P E N
40 am John K7CZF
20 cw Max W7AEA
20 am Ralph W7COP and Jim W7BSW
15 cw O P E N
15 am O P E N
10 am Bob W7RXS
6 am Dwayne K7KSZ
2 am Scotty K7CYZ (if K7KSZ not there Scotty will cover 6 and 2.)

Most of you know what to bring with you on Field Day. For those who do not we are making a list for you to go by. We will have copies of the list to pass out at the June 8th meeting. Don't forget this meeting. It will be devoted to field day and there is a lot to go over, especialy the members who have stations to set up. We need a lot of help so everyone will have a job.

See you at the June 8th meeting.

....Scotty K7CYZ

Attention DXers. Announcement is hereby made of the addition ot the ARRL Countries list of Desroches. Formerly one of the Seychelles, Desroches is now one of the islands making up the British Indian Ocean Territories. Contacts made with Desroches stations November 10, 1965 or later will be counted as separate from the rest of the Seychelles. Honor Roll credits may be claimed for Desroches in September, all others in accordance with DXCC submissions as announced in January, 1966 DXCC note AR

PAINT PARTY

Have any of you members ever experienc- ed the fun of playing with a paint brush?? If you have never had this fun come to the Club house on June the 11th. The hats (genuine painter type) will be furnished but be sure to wear your work clothes.

The working conditions are "tops" and the bosses are easy to work for. Lunch will be served.

The foreman for the job will be W7IKG and he's really not a hard man to work with.

This is to paint the outside of the Club house so let's have a real show of hands.

...Merl W7IKG

PAST MEETINGS

Del Kohler W7UMJ, one of our newest bers, gave a very informative talk on elite tracking at the April 27th meet- . The talk was of a general and tech- al nature and was enjoyed by all.
dy Syverson, W7CZK also gave a demon- ation on selsyn controlled devices.

EYE BANK NOTE

Al Wallace WA7BZY and Marion Wylie K7TCY are the co-chairman for the eye bank in the Tacoma area.

Contact them for any information or donations blanks needed.

THANK YOU !

Another thank you goes to Alex W7AZR for his donation of a 60 watt amplifier to our much needed warehouse.

Thanks to Dick Hazelmyer for his donation of a mike to go with the amplifier. This is a much needed item for the club's use.

MEET THE LOGGER

DICK HAZELMYER.

ick was born and raised in Spokane and ed the army in Spokane. He reported he reception center at Fort Lewis in . From there he reported to Camp Gor- ft. Monmouth N.J. They, in turn, sent off to Korea. After that situation cleared up he returned to Fort Lewis his discharge.

returning to Spokane he met Margie they joined forces at the alter in

1956 he rejoined the services, this with the airforce. He was stationed xas at the Scott A.F.B. They shipped ff to a California air base. In 1959 ent east. This time all the way a- the States and the big pond to Ger - After three years, the return trip made to Madigan Hospital. After a stay at Spokane, he returned to Mc- A.F.B., where he is currently sta- d.

the present time, Dick is assigned

LOGGER (cont)

to clericle work and is doing part time work as a movie projectionest in the base movie theatres on McChord.

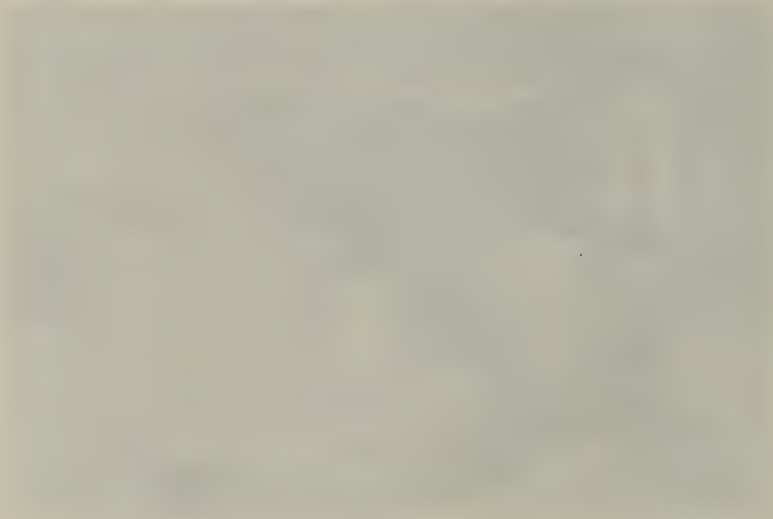

Dick has the basement for a work shop. Amongst the equipment on the bench, that can be seen in the picture, is a BC-312, BC-683 and a BC-639. There are a few pieces of test equipment there also including a v.t.v.m,, tube checker etc.

During Field Day, Dick logged for the Club to gain experience for the day when he will be operating. When we entered his house he was in the basement copying cw on the BC-312. Still working on cw for the day he applies for an amateur license.

Also along the clubs activities, Dick has four trophies, won on the 6 meter mobile transmitter hunts and he donated the mirror for the new powder room at the Club house.

We wish Dick lots of luck on his code practice sessions and hope that in the near future there will be a new call to add to the Club roster.

THE PRESIDENT'S DESK

IX DOWN AND SIX TO GO"

This year of 1966, now is half gone and can look back on these past few months d feel so very proud, as we re-read ose objectives I outlined in the January sue of the Loggers Bark. We find that st all have been accomplished with the lp and enthusiasm of all our membership, d now with a vacation program designed bring fun and rest and renewed vigor r the start of the fall activities, we pe that you all will look forward to a ll and Winter with your Tacoma Radio ub.

Our summer activities started with the st successful Field Day. Thanks to so y for helping in so many ways our Field Chairman K7CYZ and his handy crews e up--ped my weight and waste line as l as our Field Day score, I am sure!

To W7BTB and friends of W7REZ. Report m Vi, XYL of W7REZ, Tip Castor. June h, 1966. Tip is now comfortably settl- in room 7, Vista View Nursing and Conv- scent Home, 4910 South Wilkeson Street, oma Washington 98408. I suggest we er the walls of his room with cheery ds on QSL cards right away.

Kenneth Hager KL7KQ, was over to visit h your president and announced that he received his old call W7KQ, (the ham had been holding the call gave it up that Kenneth could have it back again ch is a real ham spirit)and Ken said t he was sending his application to re- his membership in the Radio Club very n to Doc W7OS.

I could go on but our Editor has all data, for she was the busiest person the field day site, and we will all d her impressions of this years Field

Day activities!

Have a good summer, and DRIVE CAREFULLY

.....President Doc W7OS

PICNIC AT W7HF

July 17th is the picnic date on Hoods Canal. Don't miss this one. Rain or shine. This will be the first go round at horseshoes. This has always been a grand outing in the past and will be this year too, so come one come all.

.....Scotty K7CYZ

FISHING DERBY AND SAIMON BAKE

Sunday July 31st, at Owens Beach. Fee 50¢ per person. Prizes for 1st, 2nd and 3rd heaviest fish.

Tickets will be on sale at the July 13 club meeting. After that date contact any Loggers Bark staff member.

Fish must be weighed in at Owen's beach not later than 2PM.. Dinner at 4:00 PM.

.....Scotty K7CYZ.

APSCO MEETING

The Associated Public Safety Communications Officers will meet in Seattle Aug 2-5. Since many of these people are hams, the Puget Sound Council of Amateur Radio Clubs is considering setting up a station at the meeting place to handle messages back to these people's homes. More information next month. .....JERRY W7BUN

COMING WEDDING

Doug Garman K7EVI announces his marriage to Delores Hammeck. They will be married July 2nd in Sand Point Idaho.

JUNE 22 MEETING

On June 22nd Mr. Fred James, engineer for Tacoma City Light, gave us a very informative talk on the complex system of Communications necessary to keep all of their plants, substations, field men and work crews in touch with each other as well as electronic equipment set up to detect and report any trouble anywhere. His slides showing many of these installations and the control centers were well received.

During the question period he was asked how far off an electric clock could become and when it would be re-regulated. Fearing he might have given the wrong impression, he called me on Thursday morning to report that an electric clock could not become more than 2 seconds off and would be corrected between 2:00 and 3:00 AM..

.....Program Chairman, Roy Devish

Did you know that Hunt WA7AKW has to ask his wife if he can come to a work party. If she says no the first time, he just asks again.

TVI REPORT

The following letter is a copy of the nal report on a recent TVI complaint. rrell W7GDP, DK's TVI chairman, has giv- us permission to print it so that the nbers will be aware of the work going on garding the complaints received.

June 6, 1966
TVI report

. Grady:

Mrs. Brown's complaint that Officer art's amateur station is interfering h her television is groundless. Mrs. wn had never been in contact with Off- r Cowart prior to the time of her com- int. On June 6, 1966, at 8:30 p.m. Mr. ckson, the Television Interference irman for the Tacoma Radio Club, in- cted Officer Cowart's amateur station l all channels on Mrs. Brown's televis- . The inspection revealed that there e no interfering signals being trans- ted or received. Through Mr. Cowart's gestion Mrs. Brown will call Officer art at his home when she is troubled by erference in the future, so that he may ist her in locating the source. All ties at this time are in complete and cable agreement.

OLE BREWERY TRIP

Many thanks to Chuck Southerland of Olympia Brewery for the swell trip through their place of business. Also thanks to P.D. Carey and Bob Andrews who conducted the two groups through the plant and served us the very delicious liquid afterthe tour.

There were 28 of us on the tour and you who did not, missed a wonderfull trip.

Let's go again soon. ...Scotty K7CYZ

UPPER LIMITS

Aren't you sorry you didn't get that beam up! Yep, the DX has been rolling in fast and furious during the last month.

Everything from the Gulf to the East Coast and up to and above 51MC. The SSB boys even worked the KH6's.

146.76MC sounds like 3.7MC these days. You're going to have to stretch the freq. fellows. 2 meters AM is growing up also. Should be as lively as 6 pretty soon.

Things were slow on C.D. this month. No fires, no lost children so nothing to say on that subject.

The transmitter hunts are rolling along fine. 8 cars pluss the hidden xmitter last time out.

Best DX-ing fellows .....Scotty K7CYZ

SCHOLARSHIP AWARD

We are pleased to note that Bonnie Hood daughter of Beryl K7NPG and LaVerne K7NKZ, graduated from Puyallup High School with a 4.0 average. She has won a scholarship to send her to Western Washington College.

We of the Radio Club are very proud of Bonnie and wish her success in the coming years.

CONGRATULATIONS!!

Congratulations to one of our newest ...s. Mary Jo Cowart just received her ...ice call WN7FNC. Lot's of luck and ...k plenty of DX.

CERTIFICATES

Two new certificates are hanging on the ...ls of the club house. One from the ...fodil Festival and one from the Gardner ... Paradise.

JULY 13 PROGRAM

Claire Sherrod, retired Tacoma Police ...artment radio technician, will show ...tures of his trip to Baja Mexico. ...s will be something you won't want to ...s so put a bix X on your calender.

FIELD DAY 1966

As 2'0 clock comes nearer and nearer ...ryone is working feverishly to put the ...ishing touches on their antennaes.

What? No power? Just a blown fuse. ... fixed and on the air at last. 20 CW ...ll has Gordie, K7LXE and Merl, W7IKG ...king on the rigs but they will soon be ...the air and operating.

40 fone is logging them down real fast ... the very start. John, K7CZF and La...ne, K7NKZ are doing the honors to start ...h.

F-D (cont)

Roy, K7USF has 15 fone going nicely with the help of two good looking females like his XYL Faye and XYL Dorothy Grasman to help him do his logging. Some guys get all the breaks.

Found XYL's Vivian, Marg, Rene and Maralee playing cards on the picnic table over by the air strip.

20 fone was quacking away with Ralph, W7COP on the mike and Steve, K7SSC doing the logging.

40 CW with Don W7WST and Jim, K7WUH still looking for a receiver.

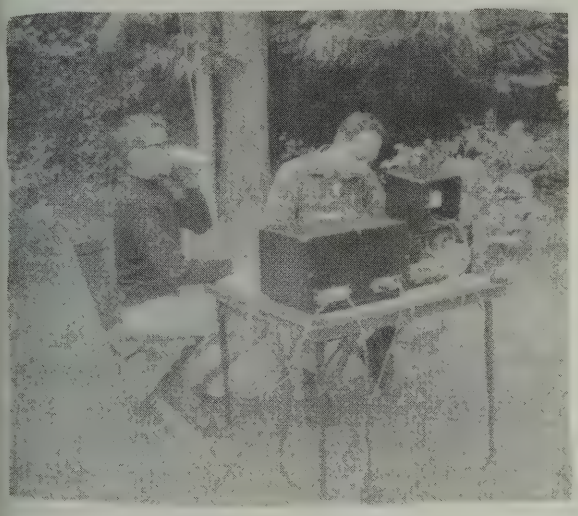

After wondering on various trails and fencing with giant mosquitoes we found 75 fone. Jerry, W7BUN and Smitty, K7ATD were really logging them down.

FIELD DAY (cont)

80 CW had Rex, K7CVX and Chip, K7VPF ing a good job.

Around the corner a little ways we find ck, W7PWN screaming into the mike try- desperately to make a contact on 10 e.

As we waunder back along the runway we XYL Mitcheko taking Jerry, W7BUN his ch in great style on the tractor.

Back at the cook shack we found Roy , ZI with his blood pressure up because eone stole his card tables. Our very d diplomat Doc, W7OS did his level best sooth him as you can see in the follow- picture.

(see next column)

FIELD DAY (cont)

At dinner the remark Rene made to Beryl K7NPG is unprintable but it sure made a hit in the cook shack.

What a dinner, Spagetti, salad, jello and garlic bread. Top it off with any kind of cake and a real good cup of coffee and you've had a meal to last til midnite.

Hold everything! Steve, K7SCC lost his car keys. Thanks to ham radio Paul, K7TLA will bring them up on the next day.

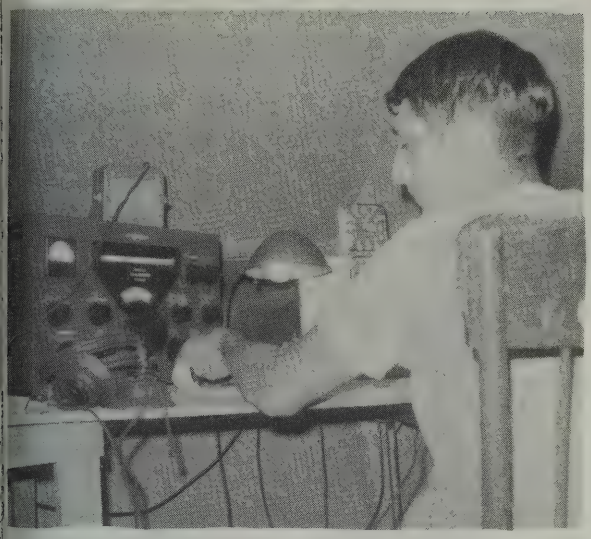

At the end of our perfect dinner, Doc presented Joe, W7IG and XYL Helen, with a gift to show our appreciation for using their farm for our field day site. It was an aviation clock for his airplane.

Touring the field again at 7' O clock we find Chuck, W7PWN still hoping ten will liven up a bit.

40 CW with Jim K7WUH on the key. Don resting for the moment.

(see next page for picture)

At the horseshoe pits are Rene, Marg, ian and Dorothy playing a game. In the er pits are Ralph, W7COP and Smitty, TD trying their skill.

With the bands pretty well dead, we nd Ken K7KRD on 2 and Ken, WA7EDD on 6 much doing on either band.

Another trip to the foreign country and found Smitty back on the mike at the 75 er shack. Helping him was Jim, WA7BBI. With the reving of his airplane motor , W7IG found all the ladies lined up ting their turn to go up with him. Fay first in line and XYL Joan Reanier was t.

Max, W7AEA arrived to give a willing l to the CW operators. You just can't y away huh, Max?

Steve, K7KOT and Donna, K7LPZ came to e for dinner but put in some operating

time just the same.

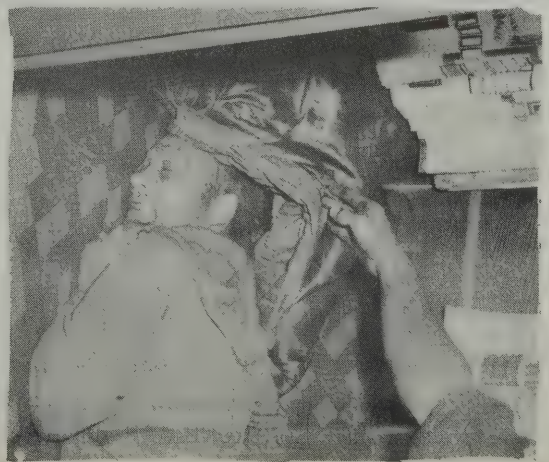

T'was nice to see W7UZE and his family up for a little while. It shows interest in our activities.

In the cook shack the slackers gathered round for some card games or just plain bull sessions, Merl, W7IKG and Art, W7JGN teamed up against Joe, W7IG and myself in a wicked game of Pinochle. We won!!

At midnight the good ladies of the camp brought around sandwiches and hot bean soup to the tired and hungry operators. The soup was Stan, W7LIR's contribution this year instead of clam chowder. Ask him why. It was mighty good though and put some get up and go back into some mighty tired hams.

I just had to go to sleep for awhile, so what happened between 1' 0 clock and 4:30 is all hearsay.

It pays to get up early though and catch everyone unaware.

FIELD DAY (cont)

Coming over to the cook shack we found
an all alone and reading. 20 CW had
ck, K7MQJ running the rig alone. He
oked Merl out to take over though.
40 CW had their "on the air" light on
t would you believe not a soul was stir-
g in there.
Sloshing through the grass to 20 fone
found Dick, W7RGD on the mike and Ralph
l Steve both sacked out.

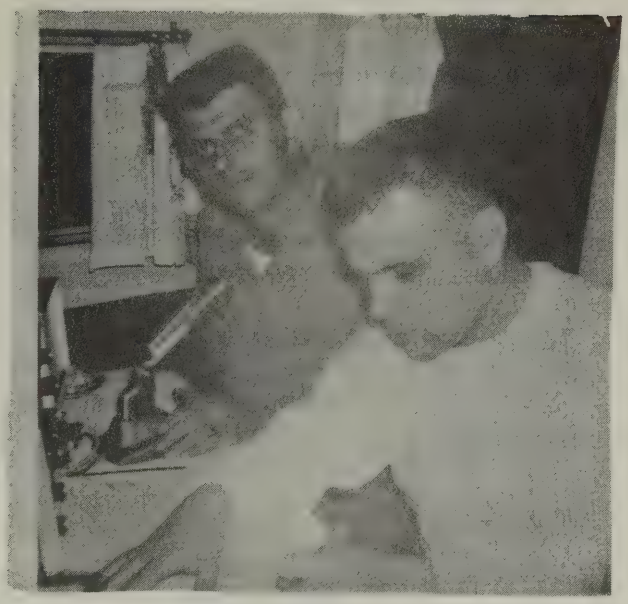

At about 6:00 AM we heard Dick, W7RGD
eaming along the runway that the gen-
tor was out of gas. These things do
pen. No harm done. At that time in
morning everyone needs a 10 minute
t.
I really caught it at breakfast because
had given the batman figure out of the
ato chips to Greg Maner. If anyone has
extra one around, please save them for
el, W7WLX, she is an avid collector.
What a breakfast!!! Eggs, bacon and
lightest pancakes you've ever eaten.
Roy, W7AZI brought his garbage disposal
in this year. Ethel. 5 times in the
e.
After all that breakfast I had to take
lk around to wear off some of the
l. Over at 15 fone I found Roy, K7USF
Dennis, W7UBA still trying for con-
cs.

(see picture in next column)

n 40 fone John, K7CZF had Noreen,
S bring in some of the remaining con-
s on the air.
unday morning is always the time for
tors. Marion, K7TCY brought along
ge Machin, W7CHX from Seattle and Jim
reit, K7YLM/6 from Santa Clara, Calif.

FIELD DAY (cont)

Paul, W7TLA brought Steve his car keys and looked around for awhile.

Roger, K7AYC FLEW in to see how things were going.

Jim, K7GPJ came up for awhile. He was really missed by more than one CW op this year.

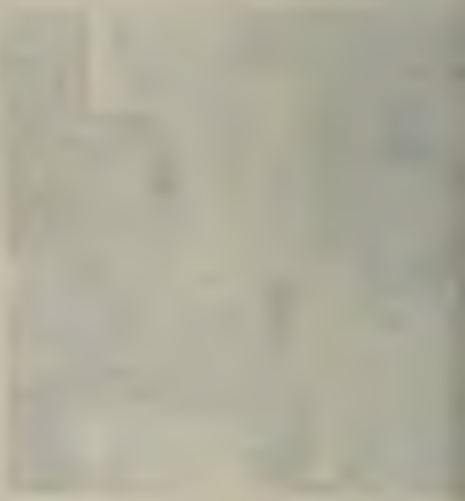

We had a report about Steve, K7CZT who had been in an auto accident the night before, that he was doing fine. He had to have 16 stitches in his shoulder. We are happy to say that was all that was wrong.

Dinner was well attended and I know why. The food was even better than the day before. We had baked beans, ham, potato salad, green salad and spaggetti.

After that chow it was time to run around the airstrip a few times. The following picture on the next page shows a few of the fellows who did not get around the

FIELD DAY (cont)

strip with me. Rest period I guess.

As 2:00 nears the blurry eyed hams are ing for one last contact to end another r of sleeplessness and over eating.

(cont next column)

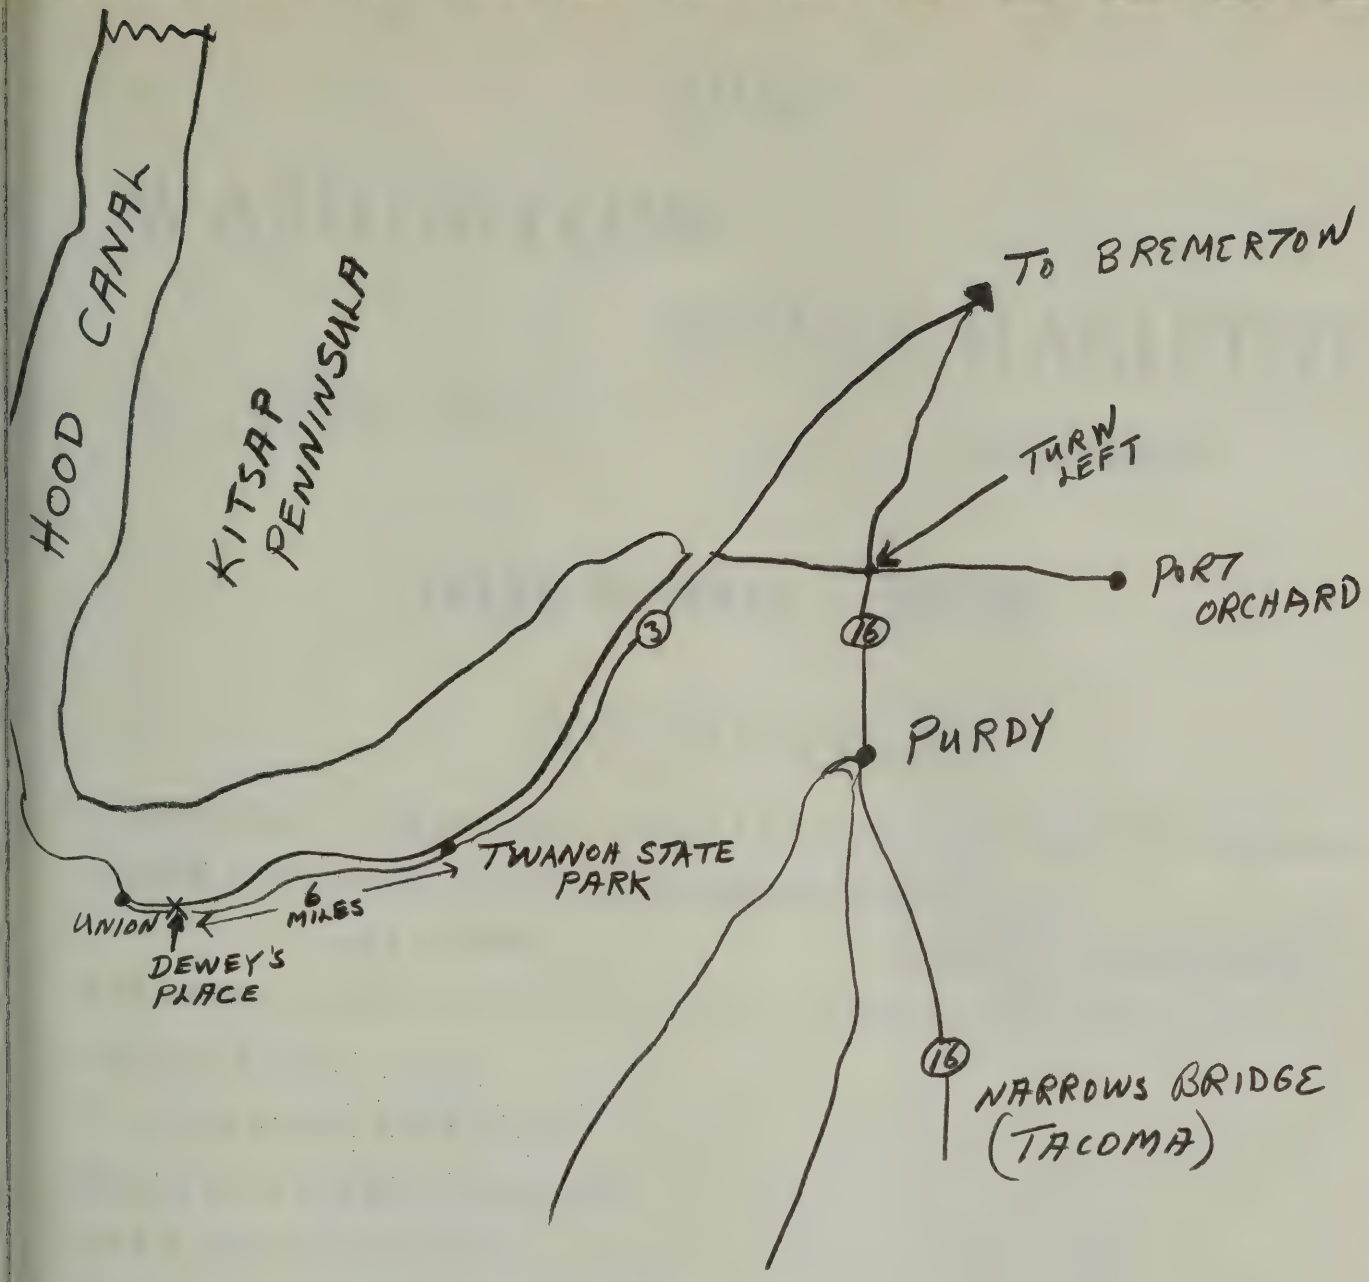

FIELD DAY (concluded)

The generator is shut off and the job of tearing down anttenaes and folding tent begins. It is supprising how fast these tired people can work when they know they can go home and get some sleep.

I want to give a special thanks to Steve, K7SSC and Scotty, K7CYZ for the fine job they did on field day this year as chairmen.

Another thanks to Roy, W7AZI, Ethel W7WLX and Stan, W7LIR for the food they prepared and served.

t Beryl K7NPG & LAVERNE K7NKZ.
Beryl was born in Plaza, Washington at
r he moved to Idaho, where he attended
ool. He joined the navy in 1941 and
ved in the South Pacific Theatre during
ld War II.
On December 7th, 1947 he started a long
sonal war with LaVerne. They were
ried in Winnemucca, Nevada.
They moved to Tacoma in 1952.
In 1960 he got his Novice and his Gen-
l in 1961.
He served as Vice President of our club
has served on numerous committees. He
also chairman of Field Day one year.
LaVerne was born in Plainsville, Kansas
moved to Nebraska at the early age of
r. She attended school there and then
ed to Idaho where she met Beryl.
She got her Technician License in 1960
her General License in 1961.
LaVerne was secretary of our club for 2

MEET THE LOGGERS

years and served as Board Member for two years. She is an active auxillary member and has served on numerous committees.

They have a SR-150 and a Hallicrafters SX-117 for a home rig mounted in a home made console. In the car they have a SR-160 for mobilling. They have a tri-band beam on top of a 70 foot tower for operating on 10, 15 and 20. For 40 and 75, they have a long wire. Also there is a model 19 teletype machine with a converter, ready to go.

Their awards consist of a Loggers Certificates numbers 176 and 181 with 5 endorsements on each.

Beryl works for Honeywell Heating Controls and LaVerne works for the County Assessor's Office.

After a good cup of coffee and a lot of extra information, we couldn't print, we swam out to our car.

Lots of DX to you both, ...K7AMJ

THE PRESIDENTS DESK

EVEN DOWN AND FIVE TO GO"

Not only is this year half gone but so the summer and while slipping away fast can report loads of good fun this va-tion time.

Our meeting on the 13th of July was a l treat for some of us who could for a rt time, relive our own University ex-riences and for others a rare insight in what can be valuable College education-training as was so ably reviewed by our Jim Small K7GPJ.

We were so happy to receive the appli-ion for membership from Kenneth Hager Q. Welcome home Ken. We were happy to among others our old friend Mel Pruit TF - come again and often Mel.

I am sure elsewhere there will be re-ted the summer activities as; Picnic at eys, Salmon bake and fishing derby, the hington State ham fest and the QCWA ual meeting at Portland, which many of members attended.

Congratulations are in order for the n wedding anniversary of MJ and Max W7AEA.

Your President sent to the various ama-r nets, reports on our good friend Tip tor W7REZ including three personal its, ending with his passing on July 21 joined with his many freinds at his eral sercices. Our sympathy goes to Vi her family. We all were sorry to hear he sudden passing of Roma Nichols, XYL W7HWD Howard Nichols, Cards of sympa-have been sent to Howard.

We hope to see a new coat of paint on club house, while the weather is good.

Helen Spike, wishes to thank all who been so kind to think of her and now eport she is doing nicely.

PRES. DESK (cont)

The fall season starting in September, will bring many good programs and much activity and we hope to see you all as often as you can take part, and come to club meetings. In the mean time have a good vacation, and do drive careful.

.....73 President, Doc W7OS

NEW BY-LAW PROPOSED

As per the by-laws of the Radio Club of Tacoma Inc., the following notification to the members is made in the official bulletin of the club.

A new by-law has been proposed to be added to the present by-laws.

By-law numbered 15, and reads as follows;

The sunshine fund will be disbursed by the Womens Auxillary according to the by-laws of the Womens Auxillary.

According to the present by-laws of the club, 30 days notice in writting must be given to the membership before any changes or additions to the by-laws can be made. This will mean it will be on the floor of the club for a vote in the September meeting.

If you have any ideas on the new addition, pro or con, be sure to be there at the meeting to voice your opinion and vote.

D O N ' T F O R G E T T O P A T R O - N I Z E O U R A D V E R T I S E R S .

UPPER LIMITS

The DX-ing has been fabulous so far this mmer on 6AM. 2 AM has been slow for any but local activity is growing fast.

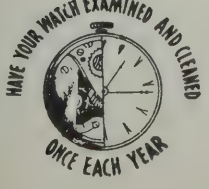

Gene K7EEK is keeping an almost nightly ed with VE7BBA on the N.W end of Van- uver Island. Also Oregon stations are ing worked regularly.

Visited the 6 FM gang a couple of weeks o. Lyn W7JHK was host to the North-west ergency mobile club and asked yours- uly to come out and meet the gang. A ne group of hams.

Don't like to desert the AM bunch but u will hear this ham on 53.290 and 146.- mobile real soon. Not going to give up but for mobile work FM is the thing.

Remember the Club's listening freqs. VHF are 29.6, 51.0, 53.290, and 6.76 MCS.

POETS RETREAT

WESTPORT

Fishings good at Westport
At least that's what they say
But how are you going to know for sure
If you stay at home each day.

So jump in your little old whoopee
And head for Stan's; who is host
And even if you don't fish
You can hear those liars boast.

...Emil K7GPK

NEW ARRIVAL

We are happy to announce the arrival of a Grandson to Mr. and Mrs Stan Fennimore. They showed pictures of Columbia to our club a few months ago. Their son, Bob and wife Mary Ann, are in the Peace Corp in Calli, Columbia. The Grandparents were informed about the new arrival via phone patch from W4FA in Tenn. He ran the patch from HK4CY. To say the least; Amateur radio is a real bright spot in the Fennimores life.

C.C.(Tip) Castor, W7REZ passed away July 21 after a long illness. A long time Radio lub of Tacoma member, Tip will long be remembered for his unselfish willingness and de-ire to help newcomers to the field of amateur radio.

Tip was an expert on American Morse code and helped many of the present railroad oper-tors to acquire this talent.

To the boys overseas he was a constant source of phone patches. "His boys" are scatt-red aound the world and always will remember his casual and friendly manners on and off he air.

Tip was first licensed as W9SCV, in Iowa in 1933 and later as WØSCV. Upon arriving in shington he recived the call W7REZ.

We shall miss his familiar voice on 20 meters single side band, along with the thous-ds of others that knew him.

As one that knew him and all that he believed in, Tip Castor has QSO'd his way to the avenly hall of fame for radio amateurs.

.....W7IKG

YAKIMA HAMFEST

The boys at Yakima did it again!! We d beautiful weather. The temperature s in the 80s and made the whole affair ry enjoyable.

The attendance from Tacoma was really rrific and W7DK was well represented.
This was our first year to attend the mfest but you can bet your bottom buck, won't be our last. It really gives you chance to meet some great hams from all er the state.
Portland Radio furnished everyone with ee cokes on Saturday and with the temp- ature up to 90 degrees it was a life ve r.
The ladies played "BINGO" during Satur- y afternoon while the OM's were on the ansmitter hunts.

K7SSC RESTING ON HUNT

QCWA had a wonderful display there. ite a collection of antique gear.
The dinner on Saturday night was de- cious but you had to wait an hour in ne to get it.
Hams got together and had eyeball QSO's d liquid refreshments, that evening.

HAMFEST (cont)

Early Sunday morning (around 11:00 for us) people got together for a resistor hunt. The prize drawing was definately too drawn out for most of us, especially when you didn't win a prize. K7AMJ

Meet the ARRL appointies for the Washington section taken at Yakima Hamfest 1966. Left to right they are;
Pete W7LEC (PAM)
Bud W7HMQ (SCM)
Ev W7OEB (RM)
Ray W7UWT (SEC)

SLIVERS AND SPLINTERS

After all the good food at Dewey's picnic who can think to write!

Bill W7ZFY was in town with his new bride on a short trip. Marge K7AMJ and Merl W7IKG attended a reception at Bill's parents house. Lots of luck and DX to a real nice couple.

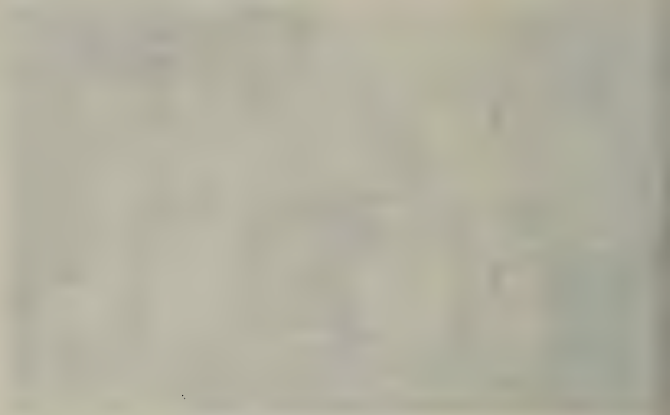

While in Yakima at the state hamfest, we renewed aquaintances with Gene and Ed Snow, former W7DK members who now live in Seattle.

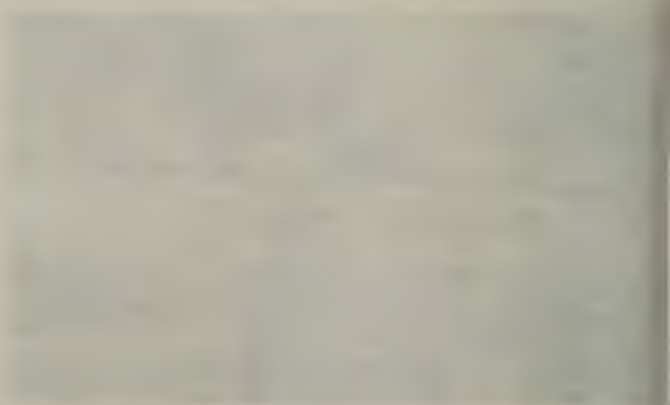

Herman is a crow that came to stay at W7RXS and W7RXT's place on Fox Island. We hear that his antics are keeping the Churchwards and guests greatly amused.

Ralph W7COP is remodeling the house with all new siding. Also he has a new road bull-dozed into his beach property.

Roy W7AZI and Ethel W7WLX are entertaining guests from Florida. Treated them to a fish feed at the salmon bake at Owens beach.

SLIVERS AND SPLINTERS (cont)

Also seen at the salmon bakes were the sbornes, W7MFG and W7UYL with the whole amily. If you missed it both boys were n the News Tribune in the July 28th edit-on. Both were putting away the salmon, most as fast as Pa.

Max W7AEA and XYL MJ busy getting ready or their daughter Kathy's wedding coming at the end of July.

Heard Steve K7SSC on 29.6 ssb. Trying get the mobile going and putting out ite a signal. Doesn't do too much for e BC-603s though.

Beryl K7NPG and Laverne K7NKZ settle-g down after the vacation in Canada and tting together film from the trip. The ctures will be good therapy during the ng cold winter nights ahead.

Emil K7GPK just finished working on s riding lawn-mower. No excuse now for t keeping the lawn short. Also he is tting ready for some fishing on the kes now that the good weather is with .

Roy K7USF has a new watch repairing b over in the Auburn area. Also Roy s a case of the measles passing around e harmonics. Why is it when the weath-turns good and the kids want to go out ings like this have to happen?

Steve Moreland also showed up at the lmon bake with his camera

With the summer months here and few b meetings, it is hard to gather much s for this column. That's it for s month. K7AMJ

FISHING TRIP JULY

On Monday July 18, Ralph W7COP, Ralph's . 1 son Tom, Dick W7RGD and Merl W7IKG biled to the Westport fishing grounds. Needless to say the fishing was very od. Tom topped the list with a 28 pound ng and Merl hooked the most with a limit us one. Dick came up with two nice silrs. For a while it looked like Ralph ght go back empty handed but the luck of e Irish was upon him and he finally came rough. (Just barely, huh Ralph?)

MERL RALPH DICK TOM

The picture shows what can be done Aug. h at Westport with the gang.

HOODS CANAL PICNIC

The trip to Dewey's proved to be a grand one. One of the largest crowds we have had on any outing. The weather was perfect and the swimming was swell.

OUR HOST DEWEY W7HF

The first round of horseshoe pitching was held. The next round will be at Joe's WIG. So far we have several ties, so we won't list them.

The food, as usual, was the tops. Anyone leaving hungry was just plain bashfull. Thanks Dewey for the wonderfull time. We hope to be invited again next year.

SWAP COLUMN

FOR TRADE

General Electric ET-1 -- 2 meter FM base station. Original condition. 5290 in the dial. Need heavy duty rotator. Mail or contact Merl W7IKG GR 5-2241

FINAL F-D RESULTS

The final results of field day have been completed and mailed into the QST F-D chairman. The results were good this year even with our lesser multiplyer figure. Using higher power did not hurt our final score as was anticipated. Good band conditions and good operations by the many who participated, made the final score possible. A big pat on the back to all who helped to make it possible.

The following is a comparison with last years totals;

BAND	CONTACTS 65	CONTACTS 66
75 PHONE	362	433
80 C-W	166	144
40 PHONE	269	241
40 C-W	141	179
20 PHONE	882	499
20 C-W	62	314
15 PHONE	174	239
15 C-W	Ø	135
10 PHONE	20	56
6 PHONE	82	54
T O T A L	2158	2194

The totals, with multiplier and message totaled 13,592 for 1965 and 15,300 for 1966. The latter includes the 500 bonus points for the "spirit of field day".

The totals have been dispatched by Uncle Sams mail with some pictures of the activities enclosed. W7RGD

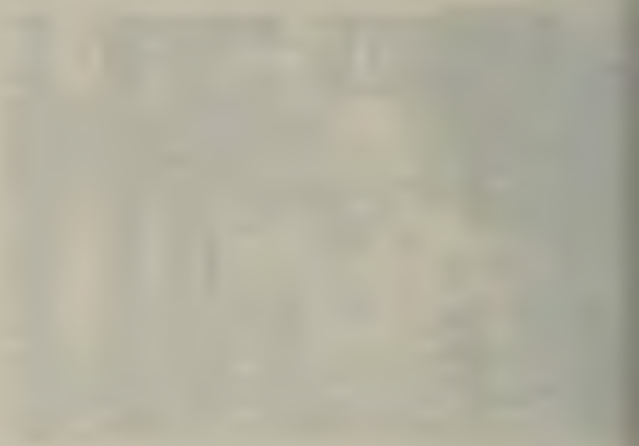

JULY 13 MEETING

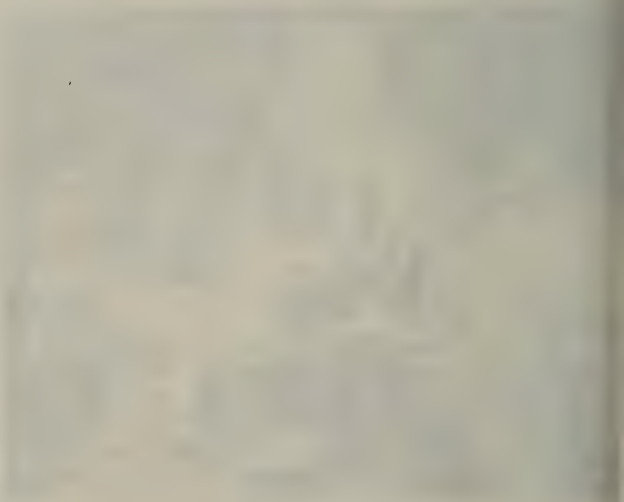

The July meeting was one to be remembered. Jim Small K7GPJ gave us a run-down on his experiences while attending MIT.

Jim said, "the radio club of MIT, (W1MX) is supposed to be the oldest club of its type in the nation." "They meet only once a year but give all members a key to the station." (The only radio key club in the world. ED.)

Jim also said there are so many foreign students attending MIT, it's like working DX while walking down the halls.

He will be returning soon for his senior year and plans to enroll in a Pacific coast University for his graduate course to acquire his masters degree. Good luck to you Jim, we hope to see you next summer.

eet Scotty Huntley W7CYZ.

Scotty was born in Anacortes and got is formal schooling there also. He lived n Seattle in his earlier years until he ent into the army. From 1929 to 1933 he erved with Uncle Sam with in a machine- un troup and was stationed in the residio in Monterey California. He was erving the army at the time of the big ongbeach earthquake and was called out by he local police to help in the emergency. ood training for later years.

Scotty met Vivian in Seattle and took er to Centralia and changed her name and agged her with XYL. They have 3 children nd a son-in-law Glenn who also has a call W7CNZ).

He joined the club in 1957 and obtained is first license in 1958. His primary nterest in amateur radio has been and till is experimentation in both gear and ntenna designs.

Scotty was Vice-President of the Radio lub in "65" and also served as field-day hairman this year. He also has been on he "Loggers" staff since its start. At he present time he is the Co-editor on he staff. Outside of the club activities e has served as President of the TRAMS in

1965. He also is a charter member of the Covered Wagon Circle. (VHF on the air club)

Being an active club member he has a Loggers cerficate hanging on the wall, but admits that he is not much of a certificate hunter.

As for equipment goes, there is a Clegg 99'er for 6am, Gonset on 2am, 30-D for 2 fm and a Comco for 6fm. Besides this line up there are several other pieces, which are home brew variety.

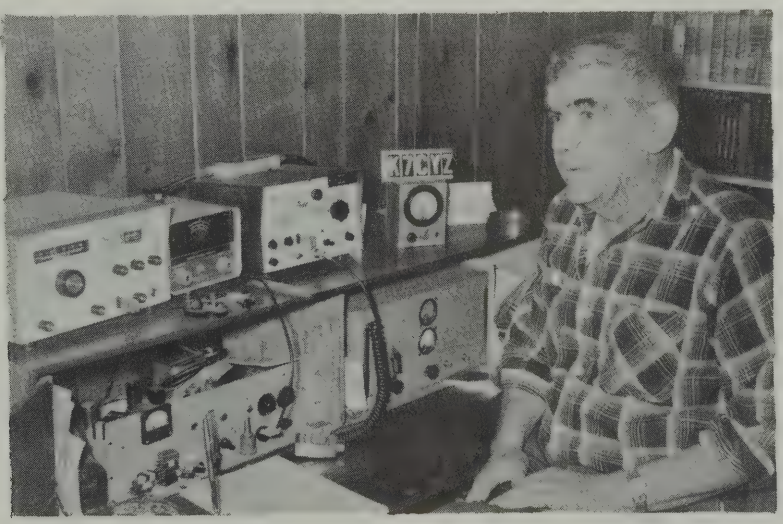

In order to get these rigs to communicate he has a 5 el. beam on 6am, 3 el. quad on 2am, verticle co-linear on 2fm and of course a mobile antenae to operate in the mobile. Along this latter line Scotty has been very active in the club's transmitter hunts doing his share of the hiding also.

At the present time he is working with Martinac Shipbuilders as a pipe fitter foreman to help finance his many projects.

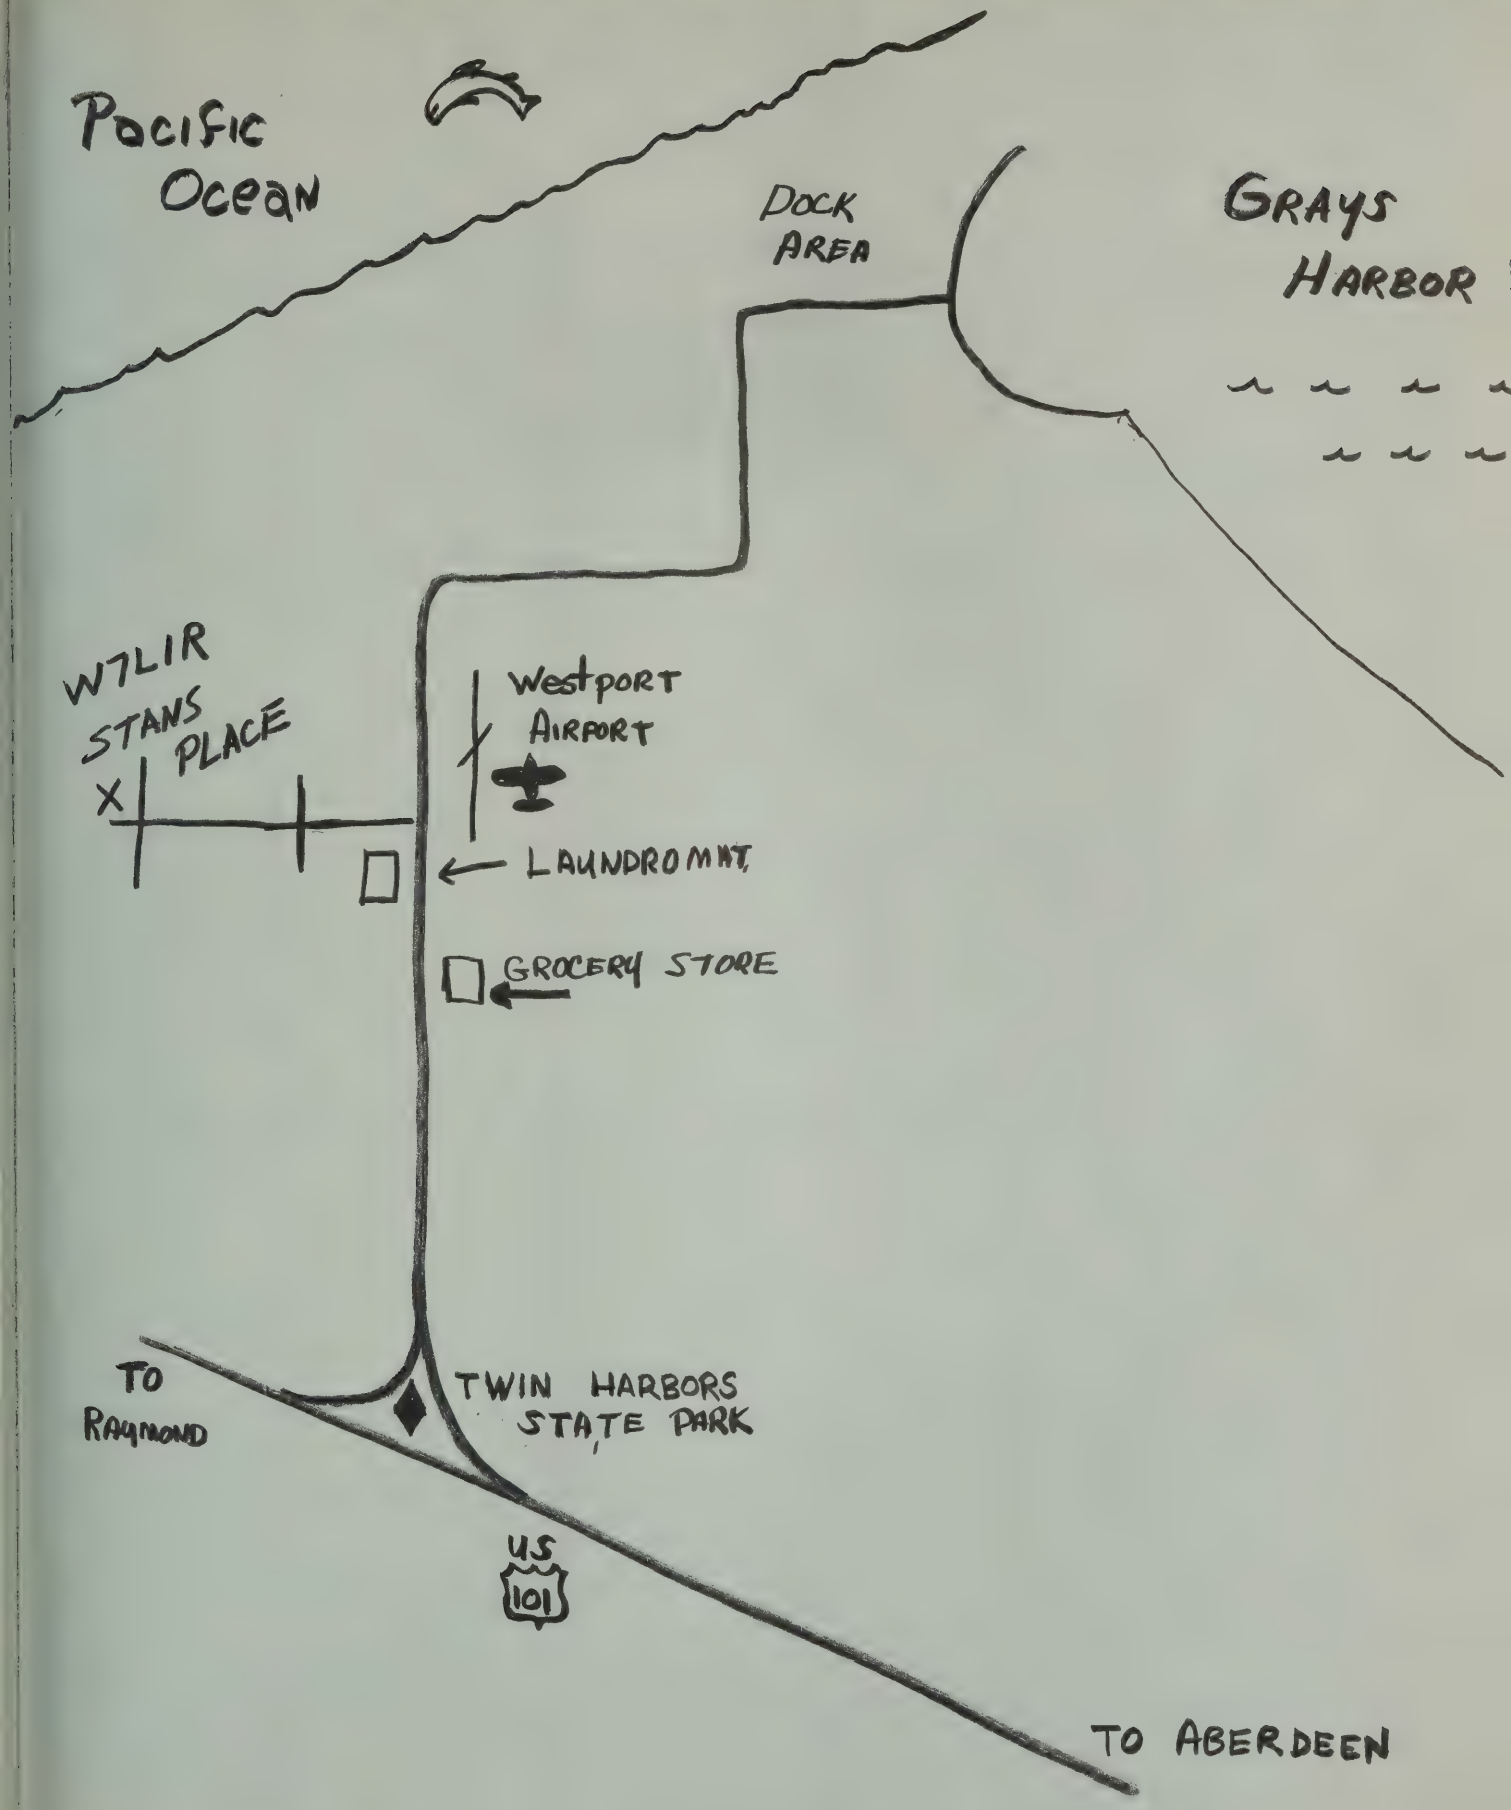

So if you hear K7CYZ on the upper bands give Scotty a call and he will bend an ear with you for a short QSO or chew one over uhtill you holler Uncle.

Good luck to an active member of the Radio Club.

THE PRESIDENT'S DESK

IGHT DOWN AND FOUR TO GO."

Our summer vacation is about over and hope that you all have enjoyed a good st, some exciting trips and that you all e ready for a vigorous fall season at ur Radio Club.

Our August meeting was one we will all ember, with an official visit from Mr. Thurston W7PGY, the ARRL Northwest Di- ion Director and Mrs. Thurston. We e they both will visit with us often.

A Happy Birthday was sung to our Vice sident W7AZI. Congratulations were ex- ded to Dorothy Grassman WN7FUF and Tim ir WN7FVT upon receiving their Novice enses.

Those who missed the August meeting e missed one of the most interesting wing of colored travelog pictures of an with naration by our past President, ry W7BUN. It was a profesional type sentation.

Memorial services were held for W7REZ, Roma Nichols, XYL of W7HWD.

We are sorry to hear about those who e been ill-Stan W7LIR-the youngster of W7BSW-Ray Etherington Jr. son of Ray C who was injured on August 17th in a accident and has been in St. Joseph ital. We hope all have a very speedy very.

We will resume our regular meetings on 2nd and 4th Wednesdays and regular d meetings on the 3rd Wednesday, which he way is open to all members. The for the board meeting is 8:00 PM.

ur program chairman W7AZI has a mar- us program lined up for the months a . Don't miss a one of them. Let's behind the AREC - CD - and most of all s fill the club house on regular Club

PRESIDENTS DESK (cont)

meeting nights.

"CALL AND INVITE SOME MEMBER OR VISITOR OR BETTER YET GO AND BRING THEM WITH YOU."

I am sure glad that the airlines strike is over, for tomorrow our daughter, Marilyn and family of five will be with us for ten days from Connecticut. How about that? (Pardon the personal note)

.....73 President Doc W7OS

LEAGUE OFFICER VISIT TO DK

Bob Thurston W7PGY, ARRL Northwest Division Director, visited our August meeting and advised he had no news on the incentive licensing bill other than it is now out of the ARRL hands and now in the hands of the F.C.C. All we can do now is wait and see the final results.

Let's hope that Bob can find the time to visit with the Club more often and the welcome mat will always be out.

WOMEN'S AUXILLARY NEWS

The women's auxillary will meet for the first meeting for the coming year in September on the 7th. We would like to see a good turn out for this one. There is a lot of very important business to be taken up. So please try and be there.

Patty, the meeting starts at 8:00 PM.

.....President Margie K7AMJ

F-D REPORT

Roy W7AZI reported on the field day eats. He advised he served 150 meals and the cost was 14.6¢ per head. He turned in enough money from this years kitty to feed 7 3/8 persons for next field day.

Thanks Roy for a job well done.

UPPER LIMITS

If you haven't hooked up with the DX on six by now, you never will. Your's truly worked 5 states in exactly two hours. Several locals have been working the XE2's during the day but they do not come thru in the evening. KH6 has also favored the day time hours. The east coast and middle west seem to break through in the evening hours, as late as 11 PM.

The SSB stations start working the DX about one hour before the am starts breaking through so when you hear them gargling start warming up the rotator.

Heard K5TLM on cw the other night and it was twenty minutes before a brave soul in Seattle answered him. (That was on six)

The ssb boys on 144 mc are also good sentrys for two meters. Just listen to who they are working, it is usualy a DX station. So far the best in two am is Oregon and Canada. (VE6 and VE7)

The big news on 2 fm is the relay station that Phil W7PUG has put in commission under his XYL call K7NXO. The thrill was listening on 146.64 and hearing B.C. in QSO with Portland Oregon. Both stations sound every bit as good as the local fm stations sound on 108 mc. We are going to ask Phil to give us a first hand run-down on his project for next month's upper limits column.

See you next month.....Scotty K7CYZ

A.R.E.C. NEWS

We will be looking for check-ins on the frequencies 3987.5, 29.6 and 51mcs. Don't forget the new frequency of 3987.5 mc.

We are in the process of meeting with the air sea rescue service to set up a communication department with them. More on this next month.....Merl W7IKG

The Bowling Season

e bowling season's bout to start
Out at Bowlero Lanes,
t the women teams need bowlers now
Who can stand the aches and pains.

all you spry young ladies fair
And you older glamourenes
sure and get your names down now
nd join the fowling scenes.

e men are fairing better tho
Their teams are hot to trot
ey're all set to give those balls a roll
nd put others on the spot.

wish them all the luck there is
he men and women too
hope their season is the best
nd their bowling balls run true.

.....EMIL K7GPK

So your girl friend jilted you when you
d her about your rich uncle?"
Yeah, now she's my aunt."

BOWLING

O.K.! We are ready for some winter fun. The club will enter two men's teams again this year.

Team #1; Merl W7IKG, Bob W7RXS, Smitty K7ATD, Ralph W7COP and Jerry Bourque. This team was second place winners in the Astronaut League last year.

Team #2; Max W7AEA, Scotty K7CYZ, Cliff W7MFG, Dennis W7UBA and a new member this year, Jim Churchward, who is replacing Dick W7RGD who is unable to play due to working hours.

Roy K7USF and Dick Hazelmyer will be the subs, this year.

Tuesday nights, 8:45 pm, Bowlero Lanes. Come out and support your teams, September 6th.

The ladies bowling league will start September 13 at 9:30 am. Any lady wishing to bowl, please contact Inez W7RXT. They are urgently in need of bowlers.....

Mistress (to new maid)-"Now, when you wait on the guests at dinner, I want you to be very careful not to spill anything."
Maid-"Don't worry. I won't say a word."

e Federal Communications Commission has dernized its Novice examination and consquently has released eight additional estions for study by prospective Novic-. ARRL has prepared question and answer eets on this supplemental information, ailable upon request from ARRL, 225 Main reet, Newington, Connecticut 06111. ease enclose a stamped, self addressed velope with your request. The material ll also appear in the September issue of T BT

72
l amateurs are invited to participate in e ARRL September Frequency measuring st, September 8. Signals for measureit will be sent simultaneously from W1AW 30 GMT September 8 on approximately 3502 l and 14,034 kc., and at 0430 GMT on roximately 3545, 7070 and 14,094 kc. plete details will appear on page 99 of tember QST. With increasing needs to erve and rectify signal deficiences to mote clean operation on amateur bands. s invite experienced amateurs to apply Official Observer positions AR

73
United States has renewed a temporary eement with the International Telecomications Union in Geneva, Switzerland, nitting the handling of third party munications be-tween amateur station ITU and amateurs in the U.S. until ch of 1967. The messages must be reively unimportant personal communicans, involving no pecuniary interest BT

74
reciprocal operating agreement is now ctive between Kuwait and the United es. Amateurs of one country visiting residing in the other may obtain persion to operate their own amateur stas there. The United States has presly reached reciprocal agreements with ralia, Belgium, Bolivia, Canada, Cola, Costa Rica, the Dominican Republic, dor, France, Germany, India, Israel, mbourg, Paraguay, Peru, Portgual, ra Leone and the United Kingdom. Many rs are being negotiated and successes be announced as they occur BT

75
Federal Communications Commission this denied a petition, RM 519, filed some ago by WA2VAF. The amateur had asked the maximum permissible input power

BULLETINS (cont)

for U.S. amateur transmitters be reduced by steps over a period of years, finally to reach 125 watts. The Commission did not feel that a power reduction of this order would reduce mutual interference between amateurs significantly AR

NEW MEMBER

The Club has a new member, who joined the club during the August meeting. Actualy there were two members. The new members are a husband and wife team. They are Edwin Baker K7LRA and wife Eleanor. Welcome to the Club, new members.

Don't forget to add their names to your roster sheet in the page provided for this purpose.

Edwin Baker K7LRA

NOTICE

The Novice licensed members of W7DK are starting a "Novice Net." When they decide on a frequency and notify the paper we will list the time and frequency on the calendar.

CLUB HOUSE ACTIVITIES

The Landscaping Committee has been busy with the lawnmower. If we just had a weebit of rain now the yard will be in good shape.

NOTICE! NOTICE!

The date for the horseshoe play-off at Joe Asplund's has been changed to September the 18th. Remember September 18.

MEN WHO TALK LIKE BIG WHEELS USUALLY ARE JUST SPOKESMEN.

-... -

The teacher was explaining the wondrous things which science has discovered about the universe. "Just think!" she explained "The light we need comes all the way from the sun at a speed of 186,000 miles per second. Isn't that unbelievable?"
"Aw, I dunno,"retorted one unimpressed youngster,after all it's downhill all the

SLIVERS AND SPLINTERS

Nice to see Rick W7ZCJ at a meeting.

Let's have some more orchestra practice the members would let their hair grow could, no doubt, make the T-V circuit.

Stan W7LIR had a illness last month but back up and at them again.

Emil K7GPK's oldest harmonic, Kay won a non fishing pole complete with star- reel in the St. Regis fishing derby month. Don't know who is the proud- Kay or Emil.

Don't forget we still are saving M.J.B. ee bands. Leave them at the club e and the auxillary will take care of rest.

alph W7COP had on a grandaddy salmon in front of his beach place during his tion but it shook the plug at the last te. It's hard to watch a grown man

om W7FUL and XYL took off for a camp- trip over east of the mountains with l K7NPG and Laverne K7NKZ. probably last one for the season as fall is ng fast. The Hood's camping trailer a good work out this season.

im K7TVO and Mary Jo WN7FNC have had nge of QTH. Now living at 9601 East n. Also take note of Mary Jo's new

SLIVERS (cont)

Merle W7IKG working like mad to get his mobile set up and working to take along on a week-end camping trip. Most of the troubles seem to be in the antenna hookup.

Scotty K7CYZ busy designing a new QSL card for the Loggers Bark to print.

Along the same line, Dennis W7UBA just received a order of QSL cards from the Loggers printing press.

Bud K7TZA and XYL Elaine are getting ready for the vacation trip.

Roger K7AYC busy on new project. Going to build a world war one airplane. Going to be an exact replica including the motor if one can be found. Good luck Roger. Maybe you will have it ready to fly into Joes place next year for field day.

Cliff W7MFG and Barbara W7UYL just returned with the boys from a long camping trip. Didn't look any the worse after a few thousand miles trip.

Don K7QLC down at the last night of the salmon bakes shaking hands. Getting ready for this fall Don?

Beryl K7NPG went over to Jim W7SVV QTH and helped put up a new 50 foot tower for his new antenna.

That's it for this month. Don't forget we are back on the fall schedule and there will be 2 meetings per month. See if you can attend.

....W7RGD

MEET THE LOGGER

eet Bob Jenks K7ZVA.

Bob was born and raised in Lancaster, ennsylvania. He didn't get out to Washngton till 1962.

The army claimed 20 years and 5 months f his time and he has been around the orld stationed at many good DX locations. run down of some of the calls he has eld sounds good to the amateurs ears.

His first license was issued in August f 1959 and was K5YGW while stationed at ort Sill. Next he applied and got a call n Germany. (DL5CR)

After coming back to the states he was alled on the air by WA2WKT while near iagra Falls N.Y.

Then the army sent him off to Korea here he was known by HL9TH.

Then in 1962 after his 20 years with ervice he retired from service and reeived his present call K7ZVA.

The shack, he operates from, looks like typical ham shack. Parts and projects attered around. Among the parts and odies there is a file card drawer, which s full, of all the stations worked over e years. The biggest section was of urse the state-side section. However e section to the rear of foreign calls s considerable. There were prefix lettered stations unfamiliar to this operator

MEET THE LOGGER

On the main bench in front of the operating position there was a Johnson Valiant and a NC-270. We had to wait a few minutes for Bob to clear from a CW net in progress. Also for operating there was an Eico 720 and Globe VF-10 v.f.o. for standby. Back in the other room he had a Hallicrafters SX-99 which served as a broadcast receiver.

Out in back and overhead was a 70 foot tower with a TH-3 tribander beam. Also there were dipoles up for 80 meters and up to 10 meters.

All of this equipment and antennas are used primarily on cw. Bob is interested in DX or just plain rag chewing.

The wall was covered with QSL cards and some awards. Among the awards we spotted an ARRL cw proficiency award for 35 wpm. Armed Forces Day certificate of merit, Nevada Centenial amateur radio award, ARRL certificate for contribution to the headquarters building fund, Stampede City award and a certificate from the B.E.A.R.S.

Since Bob retired from the service he has had the time to do the hamming that a lot of the rest of us would like to do.

Good luck to Bob and keep that key bouncing. W7RGD

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

, III NR X | OCTOBER 1966 | 29.6 - 51.0

FROM THE PRESIDENTS DESK

NE DOWN AND THREE TO GO".

Cur Radio Club home has a new coat of nt and those members who have not at-ded meetings lately should see how much rovement has been accomplished. We all grateful to Merle W7IKG, Otho K7ATD, tty K7CYZ, Roy W7AZI and others who e made this possible.

The winter schedules are already under with the AREC keeping 29.6 -- 51.0 _-- 290 and now the new ssb frequency 7.5 buzzing. I hope that we can get to full time monitoring of 29.6 this er.

The Loggers contest will be guided by following committee, Chairman Ed s K7CZM, John Austin K7CZF and Robert htman, who we hear will be getting his et soon.

ur September 13th meeting was very in-sting with our speaker Darrell Erick-W7GDP and we hope to hear him again on the subject of solid state conduc-.

t was good to have visitors Elwyn A. man W7CBE of Seattle, who was treasur-of the Radio Club of Tacoma in about year of 1932 and who by the way was ing for Ken Hager W7KQ to meet him at meeting? We also were glad to see Dodge W7BTV visit with us. Come a- whenever possible.

ur immediate past President Jerry N has been providing us with door pri-galore at most of our regular meetings s to go into the hospital for surgery ptember 21. We all hope he will get care at Madigan Hospital and will be at the club real soon. (eds note; has undergone the surgery and doing Let's all send him get well cards

PRES.DESK (cont)

to help cheer him up.

The title, "NINE DOWN AND THREE TO GO", reminds us that this year is coming to a close all too soon and so at the next meeting we will announce the names of the nominating committee. If you have any suggestions, contact the nominating committee, about officers for 1967.

Welcome to our new members William J. Bacevic age 14 and George R. Abbott WA7BHH

Let's all call some member or visitor and invite them to our regular meetings or better yet; go pick them up and bring them with you.

There are a few of our members who haven't been to any meetings this year and I miss them, some of which have said they would come while I was President.--How about real soon?!.....73 Doc W7OS

EDITORIAL

by K7AMJ

As the year of 1966 comes to an end, so does the terms of our present officers. As leadership goes, I think 1966 will be well remembered by everyone, as one of the most productive years in a long while!! The only way to continue this production is to have the same type of leadership!

I'm sure everyone will agree with me in saying our President has done wonders for ole DK as a group. His spirit and enthusiasm just seems to rub off on everyone to make everything seem worth while.

Our attendance has come up some 100% this year. That in itself is a compliment to our President. Our membership has risen some 25% over last year. That too, was quite a fete. I could go on for some

me singing the praises of one Doc, W7OS t I'm sure everyone feels the way I do they don't need me to remind them.

The point of my editorial is; Doc can t run for the office of President anoth- term. It will be a great loss to us t we must remember that health and fami- must come fefore hobby.

There are, I'm happy to say, quite a v other men in our club that can fill c's shoes. It will be a tough job and ever is voted in will need the full pport of the membership.

This is no easy job for anyone and I'm re everyone will start thinking about s upcoming election and make some sug- tions to your nominating committee. If are asked to run for an office, think your loyalty and duty to your club!! are needed or you wouldn't be asked.

BY-LAW #15

The new by-law numbered 15 was read and ed upon during the first meeting of the th of September. It passed and you may add it to the by-laws in the back of r club roster book.

The ladies auxiliary now has the job of ing care of the Sunshine fund for the io Club.

EMBER TO ATTEND MEETINGS ! !

AUXILIARY NEWS

by Pres. K7AMJ

A pot luck dinner is planned for October 14th. At this time we will have a drawing for a man's knit sweater, grape cluster wall plaque, piece of Tupperware embroidered pillow slips and a dressed chicken.

If you haven't a ticket for this drawing yet, be sure and call some auxiliary member so you can get your name in the pot. Tickets may also be obtained the night of the pot luck dinner.

Patty K7NQR is the chairman for our upcoming rummage sale. If you have any rummage, call her at GR 4-1688.

Let's have some new faces at auxiliary meetings ladies. Every wife of every member is automatically a member with no dues charged.

Our next meeting will be held at Joan Reaniers home in Desmoines,at 204 Normandy Road. A caravan will leave the Club House at 7:15 PM.

See you there...

PSCARC

by Dorothy WN7FUF

Report on the regular meeting of the get Sound Council of Amateur Radio Clubs ld September 26, 1966.

There were nine present representing clubs.

Official bulletin cards from ARRL were ad and discussed. The club is still re-iving requests for "World's Fair Certi-cates." The latest request came from n Larson (K7BZE.) Copies of an ARRL re-rt on "power company line noises" were rculated and will be sent to local power mpany officials.

The President (W7HMQ) reported that 400 sts attended the August convention of sociated Public Safety Communications ficers held in the Olympic Hotel in ttle. The PSCARC had a booth to assist guests with contacts via amateur radio hams signed the guest book. In the 32 rs of APSCO conventions this was the rst time an amateur radio club offered help. Jerry W7BUN spent a day there presenting our club.

The October banquet will be served at Waller Road Grange. There will be a st speaker and other entertainment. date is Sunday October 23rd. Tickets 00. Dinner at 2:00pm. Prizes will be en. Radio Club of Tacoma is printing tickets.

The next meeting CF PSCARC will be held the new building, the Lighthouse for blind, 4th Friday in October.

Radio Club of Tacoma was thanked for a ge poster donated to the convention by club.

W7DK CALL CHANGE

The trustee for the Radio Club call, K, has how been officialy changed. Previously the call was under the care Dick W7GDW but due to his other duties not being able to be active in the o it was thought adviseable to change trusteeship to someone more active in club.

Max W7AEA volunteered for the responsi-ity. The new license, with Max listed trustee, was received in September.

If there are any problems or communi-ions regarding the Club's call W7DK, ase contact Max.

ANTENNA PARTY

by Dick Hazelmyer

On September 10th, a call for help was made by W7AHM, Jim of McChord AFB, to help take down his 42 foot tower and 20 meter beam. He contacted me and I enlisted the help of one other person here on the base.

We started about 2pm, removing the beam and getting it on the ground in one piece. Then we went back up and cut the top four guy wires and removed the top section, which contained the rotator.

After lowering that section to the ground, we took the next section down by cutting it's top guy wires.etc.. We left the bottom 10 feet up and attached to the house, leaving an access to the roof to clean up the mess. The total time for the job was 35 minutes to take everything down and roll it up. The answer to antenna raisings or lowerings, is the use of a 60 foot scissors cherry picker boom.

After all was well and done we went inside the house and W7AHM tuned across the receiver and there was a chap from Fort Lewis in contact with another ham in Hardy Iowa. He broke on their frequency and the ham in Iowa came right back and acknowleged the break. When we lowered the tower we also dropped his inverted "V" and it was coiled up on the ground. The ham at Fort Lewis couldn't give a reportalbe signal report. Antenna's are funny aren't they?

NEW MEMBERS

We want to welcome three new members to the membership of the Radio Club. Please put them down in your roster book on the pages provided for this purpose.

PICNIC AT IG'S

by Ethel W7WLX

By counting a lot of small fry I can come up with 32 people at Asplund's for the picnic Sunday, September 18th. That's not very many for the lovely day and wonderful surroundings.

Joe has expanded the hanger-airstrip area picnic facilities and now he even has a place to plug in the coffee maker -- a real boon to this caffein-fluid- drive radio club. There were three large picnic tables set up and a nice outdoor fireplace with cooking surface and it's also dandy for roasting weiners.

After stuffing ourselves with goodies we tried heaving those heavy horseshoes all the way down to the next post and the first few tries fell way short. With three pits now it didn't take long for all of us to get our first game played and then we hiked the "Wonder Trail". Just like the State and National Parks, this trail is marked by hand-hewn signs and we followed the route to Iron Springs. Along the way we identified the trees and plants and breathed deeply of the fresh and fragrant woods-scented air. When hiking, one soon realizes just how much coffee he has consumed but no need to duck behind a tree on the Wonder Trail -- instead you duck in one. Another Asplund touch,the national parks haven't even though of.

We reached the Springs and found that the iron content was really sufficient to give a rust-color to the bouncy little recoils and we all stopped to admire natures accompishments.

Continuing on we approached the Pond, a real delight in winter when it becomes the Asplund's private ice skating pond. It is the home of 75 meter phone during Field Day too. Back to the fork in the trail and this time we followed the marker to the airfield and then back to see if the picnic table still held a stray potato chip or two.

Scotty called the horseshoe tournament to action again while the younger set engaged in golf practice and football. We counted 10 boys in one scrimmage and were amazed. The Chavis girls missed a fine time! So did everyone else that didn't make it.

O N I Z E O U R A D V E R T I S E R S ! !

MEET THE LOGGER
by Merl W7IKG

t Emil Koth K7GPK.
Emil first became interested in amateur
io while working with another ham em-
yee at St. Regis. This was in 1955 and
years later he received his call.
new Heathkit Apache soon followed and
was a familiar voice on the bands.
When he isn't busy building his new
e, he can be found ragchewing on forty
ers. Emil does a lot of building and
kering with his well equipped electron-
shop. His second class radiotelephone
ense is put to use with his interest in
p-shore radio.
visit to the Koth emporium will keep
visitor well occupied, what with XYL
ne, YL's Kay, Rene and Nita. In addit-
there is 1 dog, 1 parakeet, (sitting on
L's shoulder in the picture) 2 ducks, 6
cocks, 1 turtle and numerous tropical
h.
Emil's station consists of an HQ-170
eiver, Apache transmitter with a B & W
51 for single side band and a BC-683
a 10 meter monitor. His antenna sys-
has a Hornet tri-bander, Hy-gain 14AVQ
tical and assorted dipoles.

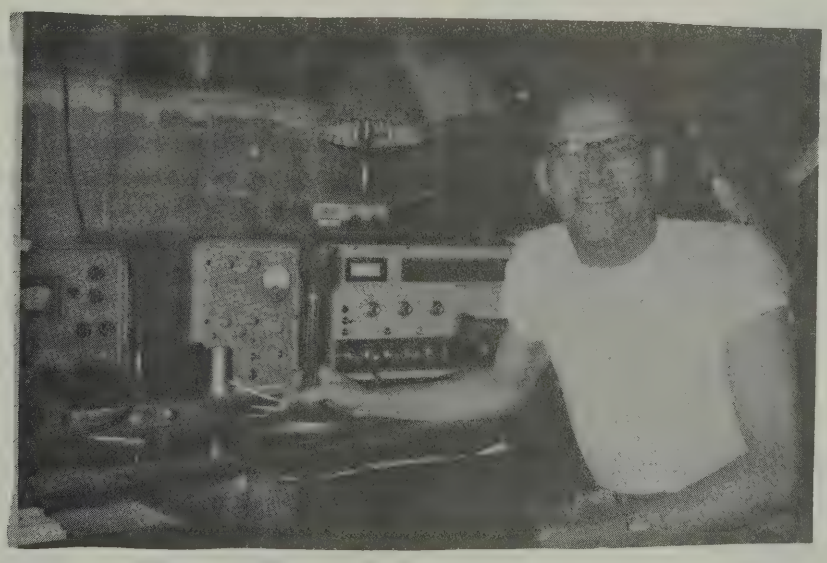

LOGGER (cont)

Besides his interest in finding out what makes things work like they do, Emil takes part in the hidden transmitter hunts on ten meters. His Johnson mobile and Elmac PMR-6 takes care of the job there. Also when he doesn't have a mike in his hand, or a soldering gun, you would more than likely find him building cabinets for the new house. A well equipped woodworking shop is just another hobby for this very busy man. He has been known, on occasion, to drop all these activities to pursue the wily salmon at Westport, Columbia river or our own Commencement bay.

The nice part about this guy, whether it's fishing, hamming, building a house or even drinking coffee, he normally does a real fine business job of it.

In conclusion, with all the activities listed, he still finds time to take part in his union affairs, credit union, water skiing, writing for this newspaper, Emergency communications, trout fishing, raising a family, and in general has a sympathetic ear and willing hand to help his fellow amateurs with their problems.

Lots of luck to K7GPK.

AREC NEWS

by EC Merl W7IKG

First and foremost, our new frequency 3987.5 kcs was used for the last two sions. The initial session was very d with many new ssb stations coming in. ase remember that this frequency is not tricted to ssb. We welcome am and cw o.

To make our AREC a going thing, we need ticipation in our "on the air" sessions frequencies are; 3987.5 - 29.600 - 0 and 53.290. The time is still 7:30PM the first, third and fifth Wednesdays. The idea has been kicking around to run various frequencys at staggered times also to hold weekly sessions in hope t we might catch more participants. Any worthwhile ideas to advance the gram will be welcomed.

Drills - we hope to have some activis along this line with mobiles and fixstations on all our operating bands.

The AREC is a public service outside of ficial channels. Our success depends on h and everyone doing a small part, with or her own equipment.

If anyone has any questions about how y can help AREC and at the same time ve the community feel free to call anye.

LOGGERS CONTEST

by Dick W7RGD

During the regular Club meeting of September 14, President Doc appointed a committee of three to make the necessary arangements for the annual Loggers Contest. He appointed Ed Coles chairman and also on the committee is Bob Weightman and John Austin.

As yet there is no definate date set for the contest and if you have any ideas on the contest, contact one of the members of the committee.

In past years this contest has really put Tacoma on the map as far as amateurs are concerned. One year you could tune across the bands and hear "CQ TACOMA," and this is the primary purpose of the contest, to make known what a Loggers certificate is.

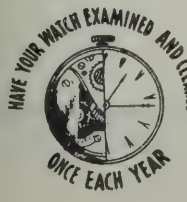

As soon as the rules and date are set, the Loggers Bark will publish them for you and we hope you will set the dates aside to help publicize the Radio Club of Tacoma and the Loggers Certificates.

PROGRAMS

On October 12, Chuck Emigh W7ER will give a talk to the Club members on sun spots.

On October 26 we'l have a speaker, who will be announced later.

On November 9, Warren Green W7JY, will speak to the Club. The talk and accompanying display will be on, "The evolution in Electronics." Warren is presently employed as an engineer with the telephone company. Also he is the curator of the Quarter Century Club. We will have further information regarding his talk in the next issue of the Loggers Bark.

SLIVERS AND SPLINTERS

The ten meter band has had some good openings of late and fifteen is doing fine also. On twenty, the long path to Africa has been good for some at the right time. Stations in Mexico, Canada and Hawaii were heard on ten meters, with the usual skip into California.

Emil K7GPK woorking hard to get on ssb, now that he has his antennas up.

Dick W7RGD was heard working K7UPT/m on 29.6. UPT was east of Chehalis on State highway 7.

Patty K7NQR and Marge Hazelmyer are on a weight losing kick. They rode their bikes out to the bowling alley.

Mel K7ATF and family leaving the Puyallup fair grounds.

Ethel W7WLX nursing a sore shin. Good thing the horse wasn't still wearing the shoe. Also Ethel and her OM Roy W7AZI are packing up their belongings getting ready for their month vacation. Going to Mexico for vacation and rest. That's old Mexico, not New Mexico. Going to drive all the way down in the bus, camping out whenever possible. Good luck and remember gas and alcohol don't mix. (Use 7-up)

Dick W7ITX busy working on the club's ham shack. Going to have a work party soon to get the antenna situation straightened out. Got any ideas, contact Dick.

Ralph W7COP working on the Club's heating plant. All back in working condition, ready for the fall and winter cold. Also he has finished on the refinishing job on the sides of his own QTH.

Dorothy Grassman working on the new front page design for the LoggersBark in between contacts on 40 cw. Also Dorothy announced that Jerry W7BUN is scheduled to be home on September the 29th. from Madigan Hospital after his surgery.

If any of you catch a big salmon out in the bay and it has a hook dangling out of the corner of its mouth, you had better check with Jim W7BSW. Jim was out at the point recently and tied into a big one and almost had it in the boat but at the last minute it straightened out the hook, and you know the rest.

Guess Ed K7CZT is going to have to get the crew out once more this year to cut the grass up at DK. Had it made for the rest of this year until the new lawn was fertilized and now it's growing like weeds.

(cont. next page)

SLIVERS (cont.)

all owe Ed and his crew a pat on the k.

Dick Hazelmyer standing around on Tues- night hoping someone would not show up bowl so that he could get a chance to l as a substitute for team #2.

Dennis W7UBA proudly showing a picture the new addition to the family Timothy. nis claims that Tim is a good little low and sleeps all night but at the same e can't explain the reason for the bags er his eyes.

More next month.

HORSESHOE PLAYOFF

by Scotty K7CYZ

September 18th was the picnic and fi- s of the horseshoe play for the summer. turnout was rather small but thoes who show up had a good time and as usual a y fine table was set and anyone who did get enough to eat was pure bashfull.

The following list is the results list- only the higher scorers for the three e totals.

LADIES		MEN	
e Smith------	52	Scotty K7CYZ----	63
el W7WLX-----	47	Joe W7IG--------	57
ian Huntley--	43	Louie W7UZE-----	54
en Asplund---	43	Smitty K7ATD----	50
gie Hazelmyer	42	Roy W7AZI-------	50
s" Smith-----	42	Glenn W7CMZ-----	49

In the "most ringers" department the lined up like this. Louie W7UZE and tty K7CYZ tied with 5. Smitty K7ATD, W7AZI and Merl W7IKG tied with 4. ve K7SSC and Bob W7RXS tied with 3.

In the ladies department we had the lowing. Ethel W7WLX with 3. Sophie ullough and Rene Smith tied with 2.

UPPER LIMITS

by Scotty K7CYZ

Six meters is fairly busy of date, not so good for dx but locally the lines are hopping. A lot of new stations showing up every week.

Two meters is about the same. Nothing in the dx department but local traffic is very good. The two meter fm boy's are all hepped up about the repeater that we told you about last month. Also we said that all this and following is a detailed report of the set up by Phil W7PUG.

SEATTLE REPEATER

by Phil and Joan

Inputs: 146.76MC. (normal)
146.34MC. (priority)
Output: 146.58MC.

The two input receivers are Motorola Sensicons which share a common antenna. A signal on either input frequency will key the repeater, but the 146.34 Mc. receiver always has priority in that it always "captures" the repeater audio channel. The receiver location is in Skyway (South Seattle) and is also the remote control (by radio) point for the repeater transmitter. Remote control, command, and audio functions are accomplished in the 420 and 450 Mc. amateur band.

The transmitter is located about 1 mile Northwest of the receivers to eliminate desensitization so common to most amateur repeaters. The power output is 30 watts on 146.58 Mc. and is radiated from a Mark Products VHF colinear (4.8 db gain over a dipole) on top of a 50 foot tower. This system is licensed as W7PUG.

Future developments include another transmitter location, possibly on Cougar Mountain licensed under a separate call but controlled from the present receiver location.

For the technically inclined, the system amounts to a "double repeat" first to 450 Mc and then back to two meters. Audio quality is maintained birtually intact by the use of wideband lead - networks at both "repeats." Control logic is RTL (resistor-transistor logic) with FET (field-effect transistor) interfaces.

This system is completely compatible with the WA7ANG 146.76 to 146.58 repeater located on Skyline Boulevard in Portland, Oregon and maintained by W7DET.

BOWLING

by Scotty W7CYZ

September 6 was the start of the 1966-67 season, at Bowlero Lanes. W7DK has two men's teams entered into the Astro-nuts league again this year.

The first night, team #1 split. (2 & 2) Team #2 won 3 and lost 1. Ralph W7COP rolled high game (176) and had high series (480) for team #1.

Dennis W7UBA took honors for team #2, with a high game of 192 and high series of 517.

September 13, Ralph again had the high game 204 but had to step down for Jerry Bourque, who had high series of 474 for team #1. That night they won 1 lost 3.

Team #2 lost 4 games that evening and again Dennis run off with high game 171 and high series with 455.

September 20 team #1 won 3 and lost 1 and Jerry was high game 199 and high series 545.

Team #2 lost 3 and won 1, with Max AEA taking all honors with a 187 game and 452 for series.

To date team #2 has won 4 and lost 8. Team #1 has 6 wins 6 losses. (Batting .500)

The following is the line up of your men's bowling teams.

TEAM #1	TEAM #2
Carl W7IKG	Max W7AEA
Whitty K7ATD	Scotty K7CYZ
Bob W7RXS	Roy K7USF
Ralph W7COP	Dennis W7UBA
Jerry Bourke	Cliff W7MFG

Substitutes; Dick Hazelmyer and Jim Murchward.

Come out and cheer these fellows on every Tuesday night 8:45pm at the Bowlero Lanes.

HELP FOR THE SCOUT JAMBOREE

by Dorothy WN7FUF

Morris Malakoff, a 9½ year old Cub Scout, contacted Doc Spike (W7OS) asking if there were any HAMs in the Radio Club of Tacoma who would be willing to help the Scouts during their 9th JAMBOREE-ON-AIR. They need HAM operators to establish the contacts and help them participate in this WORLD-WIDE operation. Let's invite the Scouts into our homes and give them a hand.

J.O.T.A. is not a contest, but a friendly promotion to exchange ideas between boys, girls (Yes, Girl Scouts are included) and adults of all nations. QSL cards from K2BFW can be had after the event by sending a report to Boy's Life Radio Club, New Brunswick, N.J. 08903. CW is encouraged, for many Scouts in other lands can "talk" only this way with their special amateur Radio license. It is also hoped that HAMs pass up the technical radio small talk to give the Scouts time to talk about common interests with other Scouts in distant countries.

The Jamboree goes on the air between 0001 GMT Saturday October 22, until 2359 GMT Sunday October 23. CW or voice may be used.

K2BFW (Boy's Life Station) will operate on frequencies: 3,560; 7,050; 24,050; on code and 3,950; 7,290; 14,300 and 21,300 on phone. VE3WSB, (Boy Scouts World Bureau Station) will be on: 28,490; 28,510 21,195; 21,350; 14,310; 12,020; 7,190; 7,290; 7,020; 3,790; 3,805 and 3,510.

Anyone who can help this event along, please call Scotty Huntley K7CYZ. Telephone SK 2-0332.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

VL III NR XI NOVEMBER 1966 29.6 - 51.0

FROM THE PRESIDENTS DESK

"TEN DOWN AND TWO TO GO".

This past month has been so full of activities, there is no way to adequately press my gratitude to all those who have helped so much to make our Radio Club so successful, except to say--thanks to all.

I personally blush with humility to read the encouraging words of our editor of the Loggers Bark and I will try to live up to her expectations.

So much interest was shown in the nice talk given by Charles Emigh W7ER, during his discussion of the "sunspot activity" on October 12th. Thanks Chuck.

We are all looking forward to our next speaker, past President Jerry W7BUN, when on October 26 he will be discussing "message handling".

Code practice will take a new look with the installation on our new console of the automatic tape code machine on regular club meeting nights at 7pm.

We are all looking forward to hearing Warren Green W7JY of the Pacific Northwest Bell Co., engineer talk on "Evolution in Electronics" and seeing his display, November 9th. (See picture next column.)

We were happy to see Merle Handy W7QLG at the PSCARC Banquet and we invited him to come and renew acquaintances at our Radio Club. He is now living in the Puyallup area.

So many of our members have been working like beavers on the Club House, putting up new down spouts, rebuilding antennas, rerunning new coax to the new console in W7DK and getting our station in operating order. Thanks to all.

We are always happy to welcome visitors both old and new members at our meetings, Mike Dodge, Elyn Eastman W7CBE, (Eds note: Eastman now full member) and Ken Hager W7KQ of Vashon Island and others.

WARREN W7JY

We extend our sympathy to Merl W7IKG and XYL Margie K7AMJ on the passing of his father, Samuel M. Chavis.

I earnestly hope every member will attend our meeting November 9th, Wednesday to help me welcome my long time friend Warren Green W7JY, our guest speaker. Let us really make this the event of the fall season. Please come and bring some other member or visitor with you.

Hey - does it show! Doc and Helen have a new look, a GRANDSON and I hope "a Ham". Born October 24th, 1966.

73....Doc W7OS

B.S.A. JAMBOREE
by K7CYZ

The Boy Scouts of America on the air Jamboree was held the week-end of the 22 and 23 of October. This was also the week end of the CQ world wide dx contest.

The boys heard a lot of foreign stations but the dx contest fellows didn't want to stop and rag chew.

The Club members, who entertained the Boy Scouts at their homes were, Doc W7OS, Dick W7UMJ, Jerry W7BUN, Merl W7IKG, Margie K7AMJ and Rex K7VCX. Each had five to eight boys and the reports are that they had a ball. Next year we will be more organized and hope to have more hams take part and show the Scouts what amateur radio is all about.

Remember there will be a drqwing at the next meeting to determine which of the Boy Scouts participating will be the lucky winner of the receiver donated by Jerry BUN for this occasion.

LOGGER'S CERTIFICATE
by K7CZM

There have been 306 Logger Certificates issued, according to Barbara W7UYL, custodian. There have also been several hundred endorsements issued, each for 10 additional contacts but the total isn't available at this time. Only one foreign certificate for five contacts has been issued and that was for a VE6. The last certificate issued was in April of this year.

The Logger Certificate has been in existance for 13 years. The Radio Club of Tacoma has a supply of stickers, available to any member, and these should be attached to your outgoing QSL's indicating that you are a member of the club.

When making a new contact, I would like to suggest that you tell the other party that you are a member of the Radio Club of Tacoma and explain to him that he should keep track and when he has nine more contacts he can get a Loggers Certificate.

Foreign stations need only 5 contacts to get a certificate.

Let's get some interest going in the "LOGGERS CERTIFICATE."

UPPER LIMITS

by K7CYZ

The DX on six is hanging on this fall It is spotty but every now and then you can collect an out of State contact.

Sunday, October 16th., we worked Texas on 50.4 from Boistfort Peak. The next Tuesday evening Tennesee and North Carolina came in. You have to listen and listen some more. If you can get in between the local stations you should get a new QSL.

Two am is lacking for stations, you have to hunt. There is a lot of room on 2 and we welcome any new stations. The monitored frequency on 2 am is 145.35. You can call on 146.76 but be sure you state that you are on am. That is the fm. frequency and we may try to answer you on that mode. 146.76 is very popular, so take a listen some evening.

See you next month.

POT LUCK DINNER

by WN7FUF

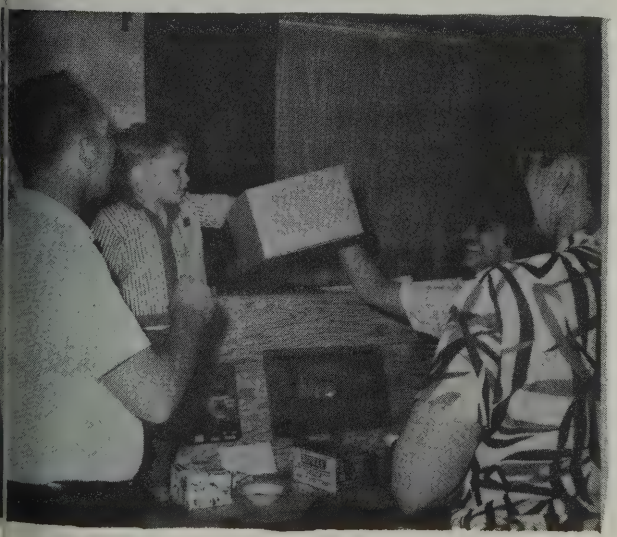

The October 26th Pot-Luck dinner, spon-ed by the Ladies Auxiliary was a big cess. Attendance was wonderful! More ks turned out for this event than have hered in a long time. The selection of d was exceptionally good and in abund-e.

Following the clean-up detail (see pic-e)

GO games were enjoyed by all.

Just before the BINGO games started, drawing of the tickets for the prizes e made by Otho and Rene Smith's Grand-.

POT LUCK (cont)

One of the lucky tickets drawn belonged to Grandma Rene. How about that? Also among the lucky winners were Beryle K7NPG, Mary Jo Cowart WN7FNC, and first prize was won by a neighbor of Dick Hazelmyer.

The ladies who worked so hard to make this a success receive the thanks of us all. Do it again soon.

MEN'S BOWLING

by K7CYZ

The 27th of last month, team #1 went wild and won 4 games. Merl W7IKG led the pack with a 213 game and a 546 series.

Team #2 went the other way and lost 4 games with Cliff W7MFG, having the gigh game of 171 and high series with 455.

On the 4th of October the two Radio Club teams met head on and comming out even steven. (2 & 2) Merl W7IKG, again led team 1 with high game 183 and 478 for series.

Team #2 was led by Dennis with a 171 game and a 457 for series.

On the 18th team #1 came up with 3 wind and one loss with Jerry holding his clean-up position with high game of 171 and high series of 457.

Dennis W7UBA took over clean-up position with a 181 game and 451 for series and the team took 3 games, losing 1...come on Cliff, let's get back into the anchor spot.

Come out to Bowlero lanes on Tuesday nights at 8:40 and give these fellows a lift.

PSCARC BANQUET

by K7AMJ

The annual P.S.C.A.R.C. Banquet was ld at the Waller Road Grange on Sunday ctober 23, St. Cathodes Day.

President, Bud W7HMQ, opened the speech- with a short talk on the accomplish- nts of the Council.

The promotion of radio at Briscoe Boys hool.

The T.V.I. Committee with a direct lia- n with the F.C.C..

The clubs in our area should start inking of having the Governor make the ek of Field - Day proclaimed as National mateur Radio Week."

The master of ceremonies for the day s Gene Lewis, who is in the News Dept. KTNT-TV. Gene is all ham, altho he s not hold a call. He told quite a few ories on himself and also some good ories about the work he knows the ama- rs have done in remote places like aska.

A few words were spoken by our North st Director, Bob Thurston W7PGY.

Ted Johnson W7TMP, a research scientist m Boing, showed some slides on an ex- iment at Antartica on antennas. They lt a 21 mile long dipole under the ice. ice was 9,000 feet thick. Two meter gear was used for communications be- en themselves however no outside con- ts were made. There were some real e pictures in color.

(cont. next column)

BANQUET (cont)

The Radio Club of Tacoma was well represented with 21 of our members there. All won a door prize with the exception of Steve K7SCC and Jerry W7BUN.

The dinner was real good and very well served.

NEW MEMBERS

We want to welcome the following new members to the membership of the Radio Club Please put them down in your roster book on the pages provided for this purpose.

Elwyn Eastman W7CBE
3360 East Laurelhurst Drive N.E.
Seattle 98105 LA-2 9308

William Harris WA5EVW/7
Unit 1 Box 1337
McChord A.F.B. 98438

We hope the new members will attend meetings regularly and participate in the clubs many activities.

NOVEMBER PROGRAMS

November **9th.** meeting should be of interest to **all members, young and old.**

Warren Greene W7JY will speak on the **evolution of electronics.** Warren has been a **ham** since the infantcy of amateur radio and can really tell us "How it all began."

Warren is still active and can give a good account of our present day electronics. Don't miss this meeting!

November 23rd we will have an auction of some real good gear and parts. If you have anything to auction, bring it to the Club house. Have your money and please bring a friend. Let's clean out the upstairs and sell all the gear we have.

Roy W7AZI will be our auctioneer for the sale and he does a bang up job.

The new C-D bus will be at the Club house for everyone to see at this meeting also. So don't miss these next two meetings.

SLIVERS AND SPLINTERS

One member has already made a New Years olution...She will not donate fertilyz- to the club in 1967.

W7JHK sawing up an old antenna to get e elements on six meters. Better save e Lind, ten is opening up.

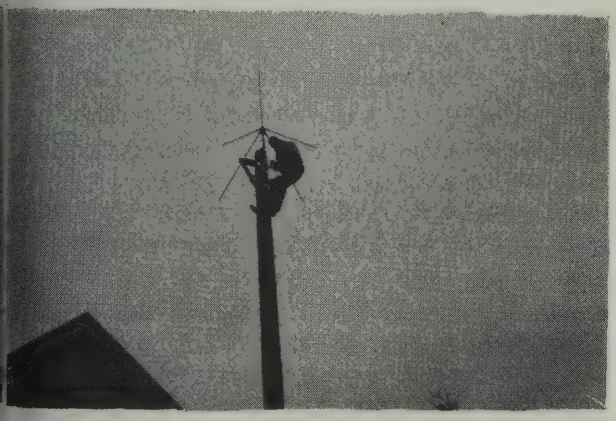

sk K7KSZ what happens to r.f. chokes n you put 12 volts on the antenna.

K7AMJ trying to get five girls to bed n wonder boy is on T.V.

Ed K7CZM had a ball at the P.S.C.A.R.C. quet drawing antennas on the place mat. place mats had pictures of dairy pro- ts on them and he had a real snazzy m on a block of cheese.

Those of you that haven't been on 10 ers the last few weeks have been miss- the boat. The band drew more attent- in the CQ World-wide DX contest than can emagine. W7IKG Merl worked all tinents on 10 meters Sunday October 23 ing the contest. SSB of course. Also ked up four new countries.

Scotty K7CYZ still looking for that tle deer with at least a dipole on it's d.

K 7 I U D

Lloyd K7IUD up the pole behind the club se putting the antennas back in order.

Del W7UMJ busy working another hard one le having his picture taken for the ers Bark.

George WA7GSF and Dick K7ITX very busy the club house getting the radio con- operating. Made a few contacts to ve a point.

Dick W7AGD still serving on Federal y duty.

Ralph W7COP mumbling something about

SLIVERS (cont)

603 making a lot of noise during the ten meter openings.

Rex K7VCX buty trying to find a good spot to hide on the next hidden transmitter hunt.

Roy K7USF baby sitting and posing for a picture for the Loggers Bark.

Jim W7BSW showing a few of his hundreds of QSL cards to a club member and telling the advantages to ssb and cw.

This column now has become a joint effort by the staff of the Bark. Will have more next month.

See you at the Club meetings and on the air.

W 7 ? ? ?

This subject in the picture is currently, an active member of the Radio Club.

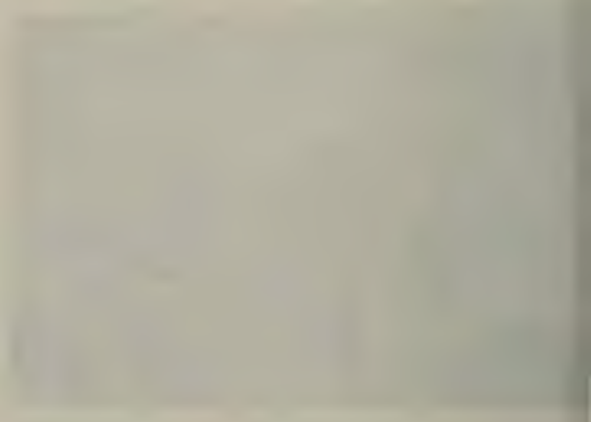

Is a DX amateur and works ssb and cw.

Has been active in the club for over ten years. If you have been to meetings we are sure you have met and talked to this person.

Next month we will have another member and give you the name and call of the above member.

SUN SPOTS

by WN7FUF

hen Chuck Emigh W7ER entertained the o Club at the October 12 meeting, his interest in sunspots not only opened w field of thought for most of us but f me with a desire to know more about subject. At first I thought I'd write rticle to enlighten anyone else who as little as I, and wanted to know . But, to mention the subject to any- brings forth books, cherished arti-, and further reference that is over-ming, for one cannot think of sunspots out involving the whole galaxy.

his glowing globe of gas known as the located 93,000,000 miles from earth, he center of our solar system. The of the rotation of the sun is determ- by the rate at which sunspots are to swirl and move across it's sur-. Besides rotation, the sun is mov- through space among the stars at a d of about 12 miles a second, or 00 mph with respect to the nearest s. The earth, with the other planets, carried along with the sun so that the al path of the earth's motion in space gigantic HELIX or spiral-like curve, mbling a winding staircase. At the nning of each year the earth is not at same point but is about 380,000,000 s farther on it's journey through s. It is also probable that this o of stars, within which the sun is ng, circulates about the center of its y (the milky way), in about 200,000, ears.

his whole mass of nature is playing s on amateur radio, but amateur radio lso on the threshold of action, exper-ting with new techniques that might come the difficulties. Sunspot moni-ng, satelite reflections, moonbounces, ing the Ionesphere, orbitical scatter nications and various projects, might the key that will permit amateur o to hurdle new communication fron-s.

he electrified region, high in the 's upper atmosphere, called the Iono-re, acts somewhat like a mirror that cts short wave radio signals over distances. The Ionsphere's inten- depends upon ultraviolet radiation the sun. The more radiation electri- it, the better are shortwave radio tions. There are year -to - year

SUN SPOTS (cont)

changes over an eleven-year cycle and these changes are due to the difference in the number of sunspots seen on the face of the sun.

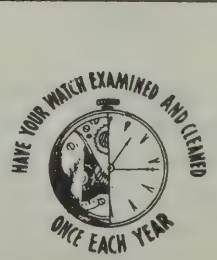

The current cycle, (the 19th, observed since accurate records have been kept) reached a record-breaking peak during March, 1958, then declined steadily, reaching it's minimum peak in 1965. This means that it is on the rise again, but it is predicted that solar activity may remain at a relatively low level for the remainder of the century on high frequency bands, 6, 10, 15 and 20 meters. However conditions on 40, 80 and 160 meters will be greatly improved.

So, no matter what your interests are in ham radio, most of the end results are determined by solar activity. You don't have to be an astronomer to keep track of sunspots, yet few amateurs delve into the subject.

By keeping daily monitor records of the sun's activity, anyone interested enough to build himself an aurorascope can be aware of the approach of an auroral activity. The sight of a cluster of sunspots is a good indication that within the following 26 days, dx-ing will be good.

Altho we do not anticipate history-shaking events such as occurred in 1958, we could plan to make the most of the openings when they do come. These dark spots on the sun's surface give a fairly accurate indication of the general strength of the Ionosphere. The Ionosphere is electrically strong and shortwave radio conditions very good when the sun's surface is covered with many spots.

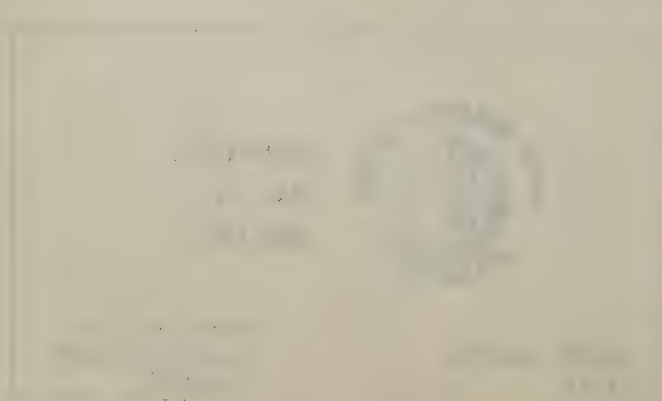

Anyone interested in building an aurorascope for the sheer self-interest in monitoring sunspots, check the July 1964 issue of "CQ" magazine. The lenses cost only $4.10 and the balance is made from $\frac{1}{4}$ inch plywood.

TEN IS IN

e you tuned up on ten meters lately?
'm sure that if you did
've heard the dx boiling in
nd the locals making their bid.

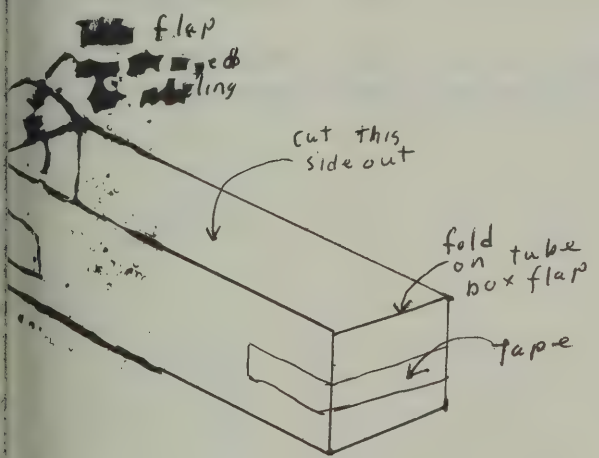

those who like ten meters
nd I'm sure that most of us do
s music to our ears up there
o hear that band come thru.

things are looking up for sure
n the old ten meters band
let's enjoy it while we can
nd ham all we can stand

BUILDING CORNER

by K7SSC

Do you get disgusted at your small
ts (resistors capacitors etc.) because
don't have an efficient way to store
m so the correct value can be found
ckly?
Using old tube cartons has helped me
this situation. Cutting one of the
gitudinal sides out with a sharp knife
ves a small shallow container. The
s of the box should be taped for addi-
nal support.

A group of boxes can then be taped to-
ner. The resistors and capacitors or
t have you may then be sorted accord-
to value and size. Remember, you dont
e to have one box for each exact size
rather each box should be designated
a range of sizes.
Should you have large quantities of a
cific value, you need not put them all
he box. Usually 2 or 3 will be plenty
your projects. If you do run out,
can go back to the big junk box.
A good source for these tube boxes
d be the local T-V repair shops.

CLUB'S $ LOSS

by W7RGD

Are you guilty, as I am, of giving away money that the Club could receive?

If you have subscriptions to magazines that you renew or order new from other than Marion Wylie K7TCY, you are giving away money that the Radio Club could receive.

It costs no more to order a new subscription or renew and old one. In fact it would cost you less in the long run if you call Marion by phone, since he will do the paper work for you.

In return for the orders, Marion is returning a per - cent of the order to the Radio Club. If everyone would call Marion on renewal dates and renew thru him, the club would realize a sizeable amount of hard cash to help pay the Club's LID.

Remember Xmas is coming and a subscription to a magazine makes a wonderful gift.

WOMEN'S BOWLING REPORT

by W7RXT

The following report lists the status of the women's bowling teams.

SCRATCH SERIES:

Mary Jo Cowart	492	(10/18)
Mary Jo Cowart	484	(10/25)
Rene Smith	477	(10/18)

SCRATCH GAME:

Mary Jo Cowart	191	(10/18)
Mary Jo Cowart	186	(10/11)
Eleanor Dorson	184	(10/18)

HANDICAP SERIES:

Verna Ryan	651	(10/25)
Eloise Babbitt	644	(10/11)
Pat Schaffert	629	(9/27)

HANDICAP GAME:

Verna Ryan	240	(10/25)
Dee Madden	236	(10/25)
Eleanor Dorson	235	(10/25)

The teams positions are as follows; 1. XYL's ($23\frac{1}{2}$) 2. Fireballs (18) 3. Loud Speakers (16) 4. D-K Sparkies (15) 5. Bowling Bags (14) 6. Hot Tubes (9) 7. Tumble Bums ($8\frac{1}{2}$) 8. Butter Fingers (8).

NOTICE

Dorothy Grassman WN7FUF will finish out the year as secretary for the Radio Club of Tacoma. Rene Smith, the present secretary, had to resign from duty. We will miss Rene's smiling face up front. Also we owe Dorothy a vote of thanks.

SWEEPSTAKES

W7DK is going all out for Sweepstakes
is year. Get those antennas tuned and
ir gear all ready to go and plan to spend
e or both week-ends on your rig.
We need at least 5 entrants on each
le of transmission to qualify for a club
ore. If you only work 10 stations
ease turn your score in so it can be
nted.
Last year we didn't have enough cw en-
nts to qualify for the cw portion, so
e on you cw fans and oil up your"bugs."
The phone week-end is the 12th and 13th
the cw will be 19th and 20th. We will
you on the air.

LADIES AUXILIARY
by K7AMJ

The Holiday season is fast approaching and the ladies are busy planning the annual holiday dance to be held on December 3rd. Marge Hazelmyer and Patty K7NQR are co-chairman for the dance and are planning a real swinger this year.

The Club orchestra will supply the music and it will be held at the Hammond Organ hall on 30th and Starr Street. Tickets will be available after November 1st. and will be sold to Club members and friends only. This dance is for all members, so plan on attending if only to hear your own orchestra play.

I would like to thank Mary Jo WN7FNC for the fine job she did on the Pot Luck dinner and the prize drawings.

Our last meeting was well attended at Joan Reaniers in Seattle. Gave us all a chance to see that new addition to their family.

Our next meeting will be held at Patty Lewis's at 8:00pm sharp. (Patty can't possibly be late to this one, can she?)

Let's see some new faces at auxiliary. Call a member and bring them along.

On Using Numbered Text Messages

ARL is inserted *in the check* before the figures to show that the text of a message is *from this list.* ARL also must appear before *each* spelled out number in the text. It is an identifier and also separates the numbers representing fixed-texts, avoiding confusion if more than one such text is sent in a message. The check in our example, as in all messages, gives the actual count of the full number of words or groups sent in the text. For text accuracy *all numbers must be spelled out.* Delivery caution: Every delivering station must expand the text to the full written version (no numbers). The ARRL fixed-text radiograms are special purpose forms, for use in the latter stages of emergencies, also for holiday season requirements. See the ARRL publication, *Operating an Amateur Radio Station,* for additional ARL-text examples and full information on message forms and net procedures.

F. E. HANDY, *Communications Manager.*

A.R.R.L. NUMBERED RADIOGRAMS

(Effective Sept. 1, 1966)

I. For Possible "Relief Emergency" Use

ONE	All safe. Do not be concerned about disaster reports.
TWO	Coming home as soon as possible.
THREE	Am perfectly all right. Don't worry.
FOUR	Everyone safe here. Only slight property damage.
SIX	Everyone safe, writing soon.
*SEVEN	Reply by amateur radio.
ELEVEN	Conditions do not permit me to come home at this time. Am perfectly all right. Will be home as soon as possible.
*TWELVE	Are you safe? Anxious to hear from you.
*THIRTEEN	Is ..... safe? Please advise.
*FIFTEEN	Advise if you need help.
*SIXTEEN	Please advise your condition.
*EIGHTEEN	Please contact me as soon as possible (at .....).
*NINETEEN	Request health and welfare report on ..... (state name, address and, if known, telephone number).

II. Thanks or Social Messages

TWENTY	Thanks for the wonderful time.
TWENTY ONE	Your gift greatly appreciated. Many thanks.
TWENTY TWO	Many thanks for your good wishes. Happy to hear from you.
TWENTY THREE	Your amateur radiogram appreciated. Many thanks.
TWENTY FOUR	Your letter appreciated. Many thanks.
TWENTY FIVE	Your package received. Many thanks.
TWENTY SIX	Delighted to hear the good news.
TWENTY SEVEN	Congratulations on your promotion.
TWENTY EIGHT	Congratulations on your election.
THIRTY	Good luck in your new position.

III. Anniversaries

THIRTY ONE	Heartiest congratulations on your wedding anniversary.
THIRTY TWO	Love and best wishes on the anniversary.
THIRTY FOUR	Wish I could be with you.
THIRTY FIVE	Wish we could be with you.
THIRTY SIX	Wish you could be with us.
THIRTY EIGHT	Congratulations and best wishes on your retirement.

IV. Weddings and Birthdays

FORTY	Congratulations and best wishes for health, happiness and prosperity.
FORTY ONE	Hearty congratulations and wishes for your happiness together.
FORTY SIX	Greetings on your birthday and best wishes for many more to come.
FORTY EIGHT	Congratulations on the new arrival. Hope mother and child are well.

V. Greetings and Seasonal Messages

FIFTY	Greetings by amateur radio.
FIFTY TWO	Love and best wishes. I am thinking of you most affectionately on this day.
FIFTY THREE	Best wishes for a Thanksgiving Day full of cheer and happiness.
FIFTY FOUR	Victory or defeat, our best wishes are with you. Hope you win.
FIFTY SIX	All the best for a Merry Christmas.
FIFTY EIGHT	Wishing you a very Merry Christmas and a Happy New Year.
FIFTY NINE	Merry Christmas from all of us. Wish you could be here.
SIXTY	All the best in the New Year.
SIXTY ONE	Love and best wishes for a Merry Christmas and a Happy New Year.
SIXTY TWO	The heartiest of seasons greetings.
SIXTY THREE	Most sincere wishes for health, happiness and prosperity.
SIXTY SEVEN	Most sincere wishes for health and happiness on this Easter Day.
SEVENTY	Best wishes for a very pleasant journey.
SEVENTY ONE	Have not heard from you in some time. Please write or answer by amateur radio, through the station delivering this message.
SEVENTY TWO	Wishing you and yours the best this holiday season.
SEVENTY FOUR	Hope you have a wonderful vacation. See you when you get back.
SEVENTY FIVE	Having a wonderful time. See you when I return.
SEVENTY SIX	This message is sent free of charge by amateur radio from an exhibit at the (name of fair, exposition, hobby show, etc.)
SEVENTY SEVEN	Having a wonderful time at (name of fair, exposition, exhibit, etc.). Wish you were here.

VI Miscellany

SEVENTY EIGHT	This acknowledges receipt of your letter.
SEVENTY NINE	This acknowledges receipt of your message.
EIGHTY	This acknowledges receipt of your recent communication.
EIGHTY ONE	Please acknowledge receipt of this message by return radiogram.

As operating Signals:

ARL? ..... Do you have the list of A.R.R.L. Numbered Radiograms, and are you ready for such message?

ARL..... .....I have the A.R.R.L. Numbered Radiogram list. I am ready for such a message.

An Example:

NR 1 R WIAW CK ARL 3 NEWINGTON CONN MAR 5 (ADDRESS) BT ARL TWENTY SIX BT JACK ROBINSON AR

*Not to be *solicited* in emergency. Messages *out* of disaster areas must receive precedence.

Certain deleted ARL texts may appear for a time. Delivering stations may use substitute texts as noted below.

Old Text	*New Text*	*Old Text*	*New Text*	*Old Text*	*New Text*
5	3	33	32	57	56
17	18	44	46	64	63
8	6	45, 47	46	65	53
10	11	51	52	66	61
14	12 or 16	55	58		

MEET THE LOGGER

t Dr. Del Kohler W7UMJ ex W9CCF-W8WNW-CF.

Del resides high on Brown's Point Hill rlooking Commencement Bay. This is bably the best DX location in the North t as his record of 319 ccuntries worked 313 confirmed will prove.

His station, only partially shown in picture, consists of a SR-150 transver, HT-32B transmitter, 75A4 receiver a 4-1000 linear amplifier. A 2 meter rig ties him into the dx network here the area.

Next to the car-port is a 100 foot pole ped off with a 6 element quibicle quad. also has teletype gear, which will be the air soon.

In 1957, the last high of the sunspot le, Del lived on North Proctor street operated with 500 watts of rf and 1 kw audio. (He was heard)

LCGGER (cont)

He holds the amateur Extra Class license, is a member of the Western Wash. dx association, ARRL and of course the Radio Club of Tacoma.

The family consists of XYL Cathy, 5 boys and 3 girls. Daughter Christy was KN7WAC and son Eric was KN7VVV.

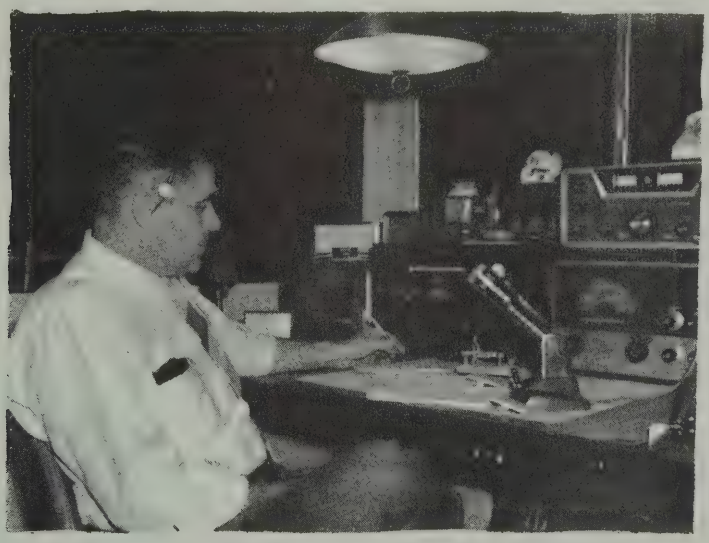

Del's wife Cathy was a lab technician but now her full time job is raising the 8 children.

He attended Creighton University and interned at St. Joseph Hospital here in Tacoma. A General practitioner, Del has offices at Federal Way Washington.

When he isn't busy on the air chasing a new one, his big signal will be found running fone patches for his many friends around the world.

The best of luck and dx to a fine fellow amateur.

THE LOGGERS BARK

OFFICIAL PUBLICATION OF
THE RADIO CLUB OF TACOMA, INC.

III NR XII DECEMBER 1966 29.6 - 51.0

FROM THE PRESIDENTS DESK

"ELEVEN DOWN AND ONE TO GO".

Today is Thankgiving Day and wee all so much to be thankful for. As this the last oportunity I will have as your sident to express my gratitude for the derful cooperation I have enjoyed in king with so many of you, I want to ak the officers; W7AZI our Vice Presi-; WA7AKW our Treasurer; Rene Smith and UF our Secretaries and W7IKG and K7ATD Board members.

We could not have such successes with our very efficient committee chairman their various members, W7COP heating; X Club radio station; K7ATD building; I V.P., auction, blood bank, program publicity; W7WLX Auxilliary; W7RXS bing; K7CYZ field day; K7CZM grounds Loggers contest; W7UYL Loggers certi-tes; K7LVL auditing; W7AEA trustee for ; K7AMJ and W7RGD who have made this so successful through the Loggers and WA7AKW who is hard at work as our rman of the nominating committee.

e all have appreciated the many prizes ted by our past President W7BUN and I onally for his much needed help and estions through out the year.

e have tried very hard to make each of programs interesting and informative much credit is due to Roy Devish, our President and program chairman.

hrough-out the year we have enjoyed ng many visitors at our meetings and last meeting we were glad to welcome ers of the North Seattle Radio Club. ctober we welcomed a visit from W7PGY nwestern Division ARRL. We have re-nded to the Director, the appointment 7AZI as assistant to the Director for Radio Club of Tacoma.

PRESIDENTS DESK (cont)

I urge all of our membership to give to the new officers for 1967 the same wonderful cooperation as you all have given to me, and with such help we will all make this comming year even better for W7DK.

Thanks to all from Helen and Doc, and may you all have a very Merry Christmas and a healthy and prosperous 1967.

73 ... Pres. Doc W7OS

ANNOUNCEMENT

A group picture will be taken December 28th, 1966 at the Radio Club-Club House at 7:30pm. All members are urged to attend. This is just before the regular meeting time.

There hasn't been a group picture of the membership of the Radio Club of Tacoma for a long time and is way overdue.

Don't forget the date. December 28th.

COMING CLUB BANQUET

The annual Club Banquet will be in February or March. Be sure and attend this annual affair.

President Doc has appointed Cliff W7MFG as the Chairman of the committee to make arrangements and serving on the committee with him will be Dennis W7UBA, Max W7AEA and Gene W7BTV.

If you have any ideas or suggestions regarding the affair contact one of the committee members and make them known.

The actual date for the banquet will be set as soon as availability for a place is known and the preferences for the date is checked with the club.

BOB THURSTON'S TALK

Bob W7PGY, Director of the N.W. Divi-on of ARRL, was guest speaker at our vember 9th meeting, replacing Warren en W7JY, who was unable to be there.

Bob is planning a big year for 1967 and the present time has 8 assistants but l raise the number for the big things ing in 1967.

Ours is the largest territory, next to ada, with 3,500 ARRL members in our NW strict and 25,000 in the Division.

One of the problems to be considered is FCC-CB problem. "It is like having a er by the tail and not knowing which to throw it," he said.

A higher degree of license may be con-ered, for the manufacturer is putting equipment that encourages violations ond the 5 watt legal limit allowed CB.

One of the issues up for consideration the Emergency Communication between L & CB's. There are too many conflicts the present time and Bob wrote to head-rters asking that the "item 16" not be sued any further but look to building ARRL, instead.

In answer to a complaint re: Russian hing boats using CW on the lower end of , Bob said anyone interested in the truders Watch Program" should write to istant General Manager, Richard Baldwin KE at the ARRL headquarters in Newing-

W7PGY TALK (cont)

ton, Conn.

Bob is always welcomed at our meetings and has been good to keep us up to date on important issues. WN7FUF

LID REPORT

At the last meeting of November, Roy W7AZI reported on the present status of the LID for the paving of the street in front of the Radio Club House.

He advised there will be a hearing on the LID in January. If and when the bill is passed a billing could be received in February at the earliest. The amount then would be due by the end of a years time from the billing date.

NOTE

Let's see a nice turn out for our elec tions this year, fellow members. This will show your interest in the Club for 1967 and also show you're willing to sup-port the newly elected officers for the coming year.

S.W. RECEIVER WINNER

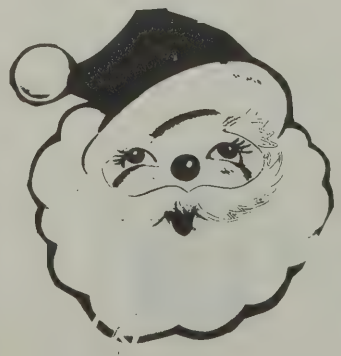

Boy Scout Rhys Davis, who visited Hunt WA7AKW's ham shack for the B.S.A. on the air jamboree, is the winner of the receiver donated by Jerry W7BUN. Rhys was presented the receiver at the November 23rd meeting and a very happy boy was there.

MEN'S BOWLING

by K7CYZ

Four weeks of bowling have past since the last Loggers Bark. In that time, team #1 won 10 and lost 6 games. Bob W7RXS holds the best game 209 and best series 536. Bob is going to be a hard man to beat.

Team #2 won 6 and lost 10 with Max W7AEA having the best game 205 and Cliff W7MFG having the best series a 538. Tuesday night 8 o'clock Bowlero Lanes. Come out and give them a boost.

Although this
"Merry Christmas"
Has the old. familiar ring
It comes to wish you
gladness
And the best of
everything.

From: K7NPG and K7NKZ

AUCTION NOVEMBER 23

by WN7FUF

The auction netted $64.85. What a lot fun, and what a crowd!

Roy W7AZI, our outstanding ONE MAN TIONEER, acting as his own BLOCKMAN, TTER and DOOKER, was so keen to the ds of bidding that when Hunt Mitchell, Treasurer, who was orally counting nge, said "50¢" Roy banged the hammer boomed: "SOLD FOR 50¢".

Talk about a bunch of women going wild a rummage sale...you should have seen menfolk reaching, grabbing and gouging the auction table before the meeting rted.

There were 22 visitors at the meeting-tion. Lots of folks from Seattle clubs nks to Jerry W7BUN's getting on the air inviting them. Also 6 came from ry's radio class at the Vocational ol. Nice going Jerry.

A special thank-you to Father Kauffer KH for the goodies donated to the auc-n. Nice to see you Father Len and be-se we know you read the Loggers Bark n cover to cover, thought this would be her way of saying so.

What happened to that fancy lamp Doc ght to the auction?

Let's start saving again for next year.

NOTE

A thank you from the Radio Club goes out to Bill K7VQM for his donation of time to the Radio Club. Bill has been helping the club by giving practice on c-w just before club meeting time. Due to his other commitments, he has not been able to stay for the meetings but has taken the time to perform this task for the club.

Thanks Bill.

NEW MEMBERS

We wish to welcome the following new members to the membership of the Radio Club. Please put them down in your roster book on the pages provided for this purpose.

This amateur is a real devoted HAM and active on all bands but six and two. Last month's picture was a big mistake we well give our apologies. There e two boys in the picture and our prin- used the wrong boy. It was Merl W7IKG ther. We sure kept everyone guessing.

UPPER LIMITS

by K7CYZ

Those of you who were listening on 6 ers on November 16th and 17th, this item l not be news. To you who were not, l on and see what you missed.

The meteor shower caused 6 meters to nd like 20. Every state from Idaho t and Oregon South was heard from. The comers were lost, you had to be a sea- ed vetran with all the tricks of the le to make a contact. The big openings 8 and 49 were pikers although no JA's ved. It was a ball just sitting back listening. The openings went up to mc. It was real short and spotty a- 144 mc but if you were quick you had n.

Other than this opening, 6 and 2 have very quiet. The winter skip will bably be about a month late, should hit nd January. Keep your eye on the sky. old night with storms 100 to 150 miles nd us should bring some out of state acts!

Happy tuning.

POETS RETREAT

by K7GPK

Come to the Party

There'll be a Xmas dance at Hammond Hall
On December 3rd, come have a ball
About 8 P.M. or somewhere near
Be sure and bring your Christmas Cheer

Now even if your on the wagon
Come anyway, and quit your braggin
The orchestra with it's rendition
Will put you in the right condition.

A potluck dinner's on the sked
So rest assured, you'll be well fed
Door prizes for some lucky stiffs
Who can add them to their Xmas gifts.

Reserve the night of December 3rd
And dance to the tune of "Yellow Bird"
I'll close this poem with a thought so dear
Merry Xmas to all and a Happy New Year.

-... -

It is on a sad note that we report the passing away of Hunt WA7AKW's wife and Jerry W7BUN's father.

The club extends our sympathy to Hunt and Jerry at their great loss.

MEET THE LOGGER

t Jim Kelly WA7DWG.

Jim was born out in Minneapolis, Minn. came out West to Tacoma in 1928. His , "Lucy" and four children (2 boys and irls) live presently at 4505 North 26th is currently employed by the Tacoma ice Department.

From 1943 to 1946, Jim served in the vices with the Navy as a shipfitter.

His first license (Novice) was obtained k in 1963 and a Technician license now displayed, which he got in July. He is sently struggling along to get his code d up so that he can make that trip to ttle and prove to the FCC that a Gener- ticket should be hanging on the ham ck wall.

Lucy does not hold an amateur license is on Jim's side regarding his amateur ivities. She even went so far as to o build his shack in the basement and room boasts of a rugged floor. One of few basement shacks in the city to e such a luxury. Got to be careful h the coffee. Lucy also works evenings Mary Bridge Hospital as a nurse, which

LOGGER (cont)

keeps her from the Club's activities. Along this same line, Jim works split shifts, which keeps him away from the Club meetings part of the time.

Jim joined the Club a year ago and is also currently a member of the REBELS. He has been active with them on their cook-outs and other activities.

Presently there is a Swan 250 transceiver in the shack. For his mobile activities, he has a HE-45B on 6 meters and has participated in the hidden transmitter hunts. There is a 6 element Hygain atop the home to pull in the r-f. Most of his action on the air has been d-x chasing and he said "sure would like to have more time for hamming."

Jim has come a long way from his first interest in amateur radio back in 39, when he bought a Hallicrafters Skybuddy receiver and started to listen in on a long wire hung out the window.

Good luck Jim and we hope you have good luck in Seattle with the FCC soon.

.....W7RGD

SLIVERS & SPLINTERS

Merl W7IKG left all the Elk at Forks this year. The Chavis family will have to eat beef this winter.

Scotty K7CYZ did the same with the deer. Better luck next year fellow and by the way, there's always HAM or CROW!

Congratulations to Roy W7AZI for the nice picture in QST. How about that?

The Loggers Contest is coming in February. Better be prepared.

Scotty will have square toed shoes at the Christmas dance party. He'll then be square at both ends.

Mary Jo WN7FNC and Jim K7TVO are now in their new home at 9601-226th East, Puyallup and getting settled down.

Please note that the "E" ub W7CBE's call stands for "Easty."

Rex K7VCX was asked how many contacts he made during Sweepstakes. His quick answer gave all the details: "A whole glob!"

Congratulations to Max W7AEA for being elected to Presidency of the Downtown Kiwanas Club. Also he made a 205 game, while bowling the same week. How lucky can you get Max?

Patty K7NQR is the new Club Historian. All newspaper articles and such can be handed over to Patty to put in the Club's scrap book. Margie K7AMJ who resigned as historian received a sincere thank-you from the club for the fine work she has done on the book.

Speaking of Margie, she didn't know how to "mention", daughter Marie's installation into the Jobe's Daughters, without sounding as if she was bragging. So here is a clear go-ahead, Margie, we all do it.

More congratulations to Roy Devish for his appointment by the Club as ARRL assistant Director to Bob Thurston W7PGY, our NW. Division District Representative. Roy will receive letters from headquarters with all the latest info. and as the 1967 year is due to be a big one for ARRL members, we are proud Roy is representing our Club.

Nice to hear that Pete W7LEC is doing so well following surgery at Tacoma General Hospital. Heard he was even whizzing around in a wheel chair. Take it easy Pete.

From the first reports coming in on the Sweepstakes contest, The Club should realize near half a million contact points. A big thank you to all the members who participated in the contest and made this

SLIVERS (cont)

score a possibility.

See you all at the Christmas Party and Dance.

NEW C-D BUS

The new Civil Defense Bus will be put in service on the 1st day of December. A driving course for the operators of the bus was held on November the 26th and not a single scratch was put on it. It is planned to have it on display for the Radio Club members at the Club house on the meeting night of December 14th.

THE LOGGERS BARK

VOL IV NR I W7DK JANUARY, 1967

FROM THE PRESIDENTS DESK

"TWELVE DOWN AND NONE TO GO"

As time has slipped away, so has this year, leaving me with many wonderful memories, great pride and much humility. It is now time to pass on the responsibilities given to me just a year ago.

We are so very fortunate to have Roy J. Devish W7AZI and his fine group of officers to take over. With them leading us, we have nothing to fear and I know 1967 will be a most successful year.

Last month I thanked all for such wonderful help with the exception of Darrell Erickson W7GDP, our TVI committee chairman Please forgive me and a big thanks for a job well done.

Now it is time for all of us to pledge now, all of our abilities, our imaginations and our loyality to our Radio Club of Tacoma and to help when ever we are called upon.

Helen joins with me in wishing the best to you all for the New Year.

73.....Doc W7OS

DON'T FORGET DATE

JANUARY 25TH 1967

Trip to Auburn F.A.A. Meet at the club house at 7:00 pm.

EDITORIAL

Our Club has shown a very successful year in 1966. The attendance at meetings; the committee work, increased membership and last but not least, I believe, an improvement in our monthly paper.

We had a great slate of officers to lead our club and a pretty good staff for our paper. This is what made both of them good in 1966. In 1967, our newspaper is going to show even greater improvement and our new slate of officers are a fine selection of leaders. If all the people in the club will give their support and offer their enthusiasm, this will be an ever greater year.

This is our 4th year in putting out the Loggers Bark and we, of the staff feel it is a real pleasure to serve the club in this manner. When we started, four years ago, it was only a trial but now it is so much a part of the club and our way of life, that we feel it is important to keep it up.

The paper will never be a proffessional type of publication but that is because we are as much amateurs in putting out a newspaper as we are in the radio field. This, we feel, is what makes our paper a part of W7DK. There are plenty commercial periodicals you can buy but our Loggers Bark is a personal paper with only YOU in mind.

If anyone in our membership has any items or suggestions to help in our paper, please let us know. 73..... K7AMJ

POETS RETREAT

by K7GPK

HAPPY NEW YEAR

Ring out the old, ring in the new
To "66", we bid adieu
May "67" be full of cheer
And everything good, for the whole darn year.

May DK's members grow in numbers
We'll have a club that's full of thunder
Primed for progress and all of that stuff
And can cut the mustard when the going gets rough.

I say to each, A Happy New Year
And especially one whom I hold dear
It's Verna with a heart so sweet
And I thank her for that date-nut treat

So I'll leave you all with food for thought,
Success can neither be sold nor bought
It all depends which end you choose
Heads you win or tails you lose.

A.R.E.C.

by W7IKG

Well, this is the time for a "swan ong", I guess. Due to coming work commitments out of the state, it will no longer be possible for me to continue as EC for the Tacoma Area.

Many thanks are due to all participants and the faithful members for their activities this past year. Also thanks go to CD and RACES for their cooperation from the city.

Someone will surely have to step forward to take this post, not only for our club, but for the general interest of amateur radio. Take a good look at yourselves and get with it - you're needed!

Meanwhile, I will be here for a few months yet and will be a regular check-in. After that look for me on s.s.b. from coming.

Again, thanks and good luck to AREC.

MOTION PASSED DEC. 28TH

During the December 28th meeting a motion was placed before the club members for their action. The board members presented the motion which was considered at the board meeting of the 21st.

The motion was worded as follows; "The Radio Club of Tacoma Inc., as an organization, will hold to a policy of not sponsoring or helping to finance any person or group running for an office or position." The motion was open to debate and then voted on. The motion passed by majority vote.

QST AWARD

by W7WLX

Roy W7AZI, as assistant to Bob Thurston W7PGY, requests each member's opinion as to the best article in DECEMBER QST. He will tabulate your results at the Jan. club meeting and send the name of the winning article to Bob to compete for the Front Cover Plaque award.

SILENT KEYS

All Hams will mourn the passing of Art Budlong W1BUD, Secretary and General Manager emeritus of the A.R.R.L.. Art was well known and respected by all amateurs, League members or not , and will be missed by all.

Closer to our club and known as a stalwart on 2 meters was K7ZLR "Babs" Babcock, who passed away last month. "Babs" will be missed by many Tacoma and Seattle Hams especialy on 2 meters.

P.S.C.A.R.C.

by WN7FUF

The Puget Sound Council of Amateur Radio Clubs will be nominating new officers at their December 30th meeting.

At the November meeting future projects got under way and member clubs were asked for suggestions and "listings of activities."

SWEEPSTAKES RESULTS

by WN7FUF

Sweepstakes tallies were turned in by 10 club members with an estimated point value of 373,668 on phone and 178,817 on c.w.. Thanks fellows!

PAST PROGRAMS

by WN7FUF

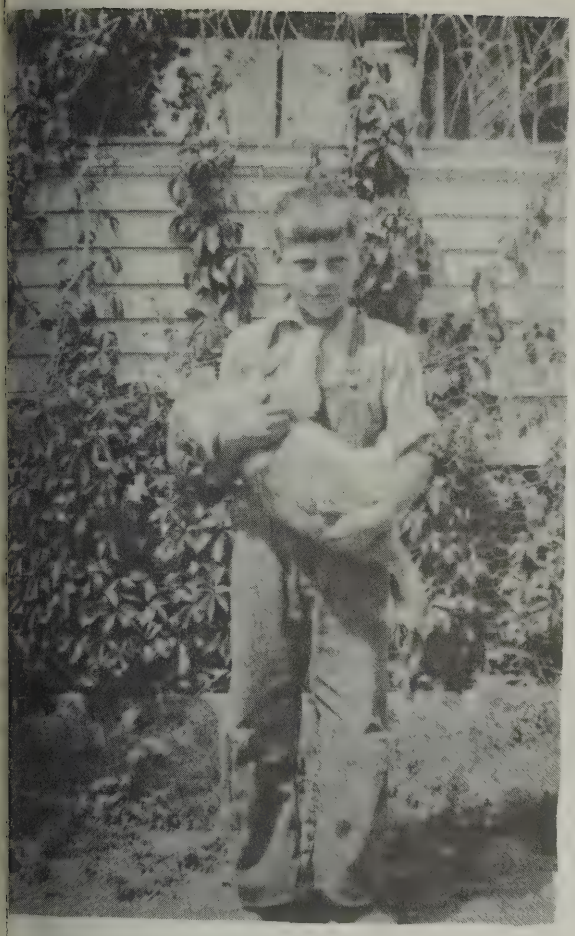

Folks at the December 14th meeting certainly enjoyed Captain M.J. Thomas, Field Chaplain of McChord A.F.B., who was our guest speaker.

His topic "Humor, a form of communication" was well presented and his keen wit kept us laughing the whole time. George WA7CSF helped the Captain with a minor skit using an ash tray and some transistors. A return engagement, later in the year is planned.

N O T E

The staff of the Loggers Bark wants to wish everyone a Very Happy & Prosperous New Year. Lot's of DX in 1967.

NR 89
A reciprocal operating agreement is now effective between Panama and the United States. Amateurs of one country visiting or resideing in the other may obtain permission to operate their own amateur stations there. The United States has previously reached reciprocal agreements with Australia, Belgium, Bolivia, Canada, Colombia, Costa Rica, the Dominican Republic, Ecuador, France, Germany, India, Israel, Kuwair, Luxembourg, Nicaragua, Paraguay, Peru, Portugal, Seirra Leone and the United Kingdom. Many others are being negotiated and successes will be announced as they occur BT

NR 90
Attention VHFers. The long continued moonbounce efforts of VK3ATN paid off on November 28 when a 6 minute QSO was completed with K2MWA/2, the Crawford Hill VHF Radio Club. The distance was 10,300 miles on 144 MC., almost double the previous record, and set a new moonbounce distance record, regardless of band. Antennas were a large stacked rhombic at VK3ATN and a 60 foot dish at K2MWA/2. Further information will appear in January and February QST BT

NR 91
All amateurs planning participation in the ARRL VHF Sweepstakes, January 7 and 8, are reminded that convenient free log forms are available free on request from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Please specify the number of reporting sheets desired and remember to place your zip code on your mailing address. Page 61 of December QST gives full details on this top VHF operating event. Be sure you are ready to help your affiliated club's standing for the engraved gavel in the VHF Sweepstakes, January 7 and 8 BT

NR 92
All amateurs in the ARRL field organization are urged to take part in the annual Novice Roundup to be held February 4 thru February 19, 1967. The leading Novice in each section will be awarded a certificate of achievement. Page 55 of January QST has all the details on how to participate. Send a postal card or radiogram to ARRL for free contest forms and a map of the United States. Address your requests to the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Be sure to include your zip code with your address AR

MEN'S BOWLING

by K7CYZ

The men's bowling teams have held there
this month. Placing in the League, is
same. Team #1 won 9 and lost 7. Bob
XS took honors with a 215 game and 594
high series this month. Also in the
list was Merl W7IKG with a 205.
Team #2 won 6½ games and lost 10½, but
d their place on the board. Cliff
FG held the honors with a 194 for high
e and a 514 series so he keeps the
an up spot.
We are about half way for the season.
re is still time for you to come out
root for your favorite team.

LOGGERS CONTEST

by K7CZM

Again, the Radio Club of Tacoma, Washington will hold it's annual "Loggers Contest" amongst it's members February 25, 1967 from 1600 PST to February 26, 1600 PST. This is a fine chance for other operators to get a "Loggers Certificate". Contact ten members in good standing in the Radio Club of Tacoma and give list of stations worked with dates to the 10th member worked.

Just break in on "CQ Loggers" from members in the Tacoma general area. No fee - and your log will be checked with the members.

The above is a copy of the notice that has already been sent to the SCM of ARRL. Also QST Magazine" direct and "CQ magazine." Let's see if they will give us a little publicity for a change.

This notice will also be sent to about 35 different Radio Clubs in the west and Amateur Radio Supply Dealers with requests that they read them at their meetings and put them on their bulletin boards. I believe there are a lot of operators who would like to get a nice Loggers Certificate, absolutely free. Don't forget you can get another seal to put on your certificate for each additional ten contacts.

This writer has three additional seals. How about you?

C-D ACTIVITIES
by W7RGD

he new Civil Defense Bus was on dis- at the December 21 meeting at the House. All the members attending the ng had the chance of inspecting the ment.

e following week the bus was on dis- at Ceccantis at 38th and Pacific. Pierce County Dental Association re- ed a demonstration at their banquet c W7OS. Doc installed a 6 meter rig e the banquet hall and communications established between him and the bus. Dental Association members were im- ed with the equipment and were very ised to discover that the bus was ped to work the hospitals by two way i.

e bus has not been called to any ma- ires to date but has been out for the clubs drills and is ready now for mergency.

UPPER LIMITS
by K7CYZ

Happy New Year gang, hope you collect on the d.x. this coming year.

The 6 meter band has been real good this last year and all the signs point to a lot better year in 1967. So keep the dial knob well oiled and the long wire well cleaned and you should do real well.

The week of Christmas was the last opening, not too good but at least it was out of state.

The ssb boys on 2 meters have come up with a few dx contacts but on am and fm. It has only come up with locals. (Portland and Vancouver B.C.)

Believe it or not 220 mc. is starting to come alive. More stations would help a lot. I believe this band will become popular in a couple of years. For local contacts, 220 is as good as 2 meters and the gear is not as hard to come by as one would think. A 16 element beam on 220 can almost fit in your hip pocket.

Happy dial twirling.

L.I.D. NOTICE

The Radio Club's bill for the LID has finally arrived with an assessment of $671.00, payable in one lump sum; partial payment, with the remainder in yearly installments or the whole balance in yearly payments. There will be interest based on a per anum if the installment plan is used. The sooner this is paid off the less it will cost the club in the long run.

Due to an excess in the Women's Auxiliary treasure, they donated $100.00 to the men's club to be used toward the LID. The women should be given a vote of thanks for their thoughtfullness. They worked hard to earn this money and then turned it over to the men. That's real generosity!!

We will keep you up to date on this LID AS payments are made and the balance is depleted!

WOMEN'S AUXILIARY

by K7AMJ

The Auxiliary will meet at the Hazelmyer residence this month with Marge Hazelmyer and Vivian Huntley as hostess & co-hostess. It would be nice to see a real nice turn out at this meeting and start the New Year out in grand style.

The women turned over $100.00, hard earned dollars, to the men's club this past month and this money was made by a very few women compared to the amount that belong to the auxiliary. It would be real nice to see a few more active xyl's. Just think of what we could do with more help. All women, wives or mothers of the regular or special members of W7DK are automatically members of the auxiliary. There are no dues to pay. We do take up a sunshine collection to purchase flowers and cards for the sick members of both clubs.

If any lady needs a ride call any of the officers of the auxiliary and they in turn will find you a ride.

See you all at the next meeting.

MEET THE LOGGER

Meet Lloyd Larson K7IUD.
Lloyd presently lives at 1102 North
hington with his wife Evelyn and three
ghters Deanna 10, Kristina 9 and Debbie

Both Lloyd and his wife were born and
sed in Tacoma, He graduated from Lin-
n and she from Stadium.
During WW-2 he served in the Army Air
ce and later served in the Korean con-
ct, both times as an aircraft radio op-
tor.
Presently Lloyd is employed with the
y Light Department as a line man. He
spent some time climbing poles and
s for the Radio Club on field days.
His first license (Novice) was obtained
1959 and the following year he obtained
General License. His primary inter-
in "ham" radio is cw on the 40 meter
l.
Currently a Globe Chief 90 puts a sig-
ut on the ether into a 40 meter dipole

LOGGER (cont)

and a RCA AR-88 helps gather them back into the shack. The Globe has an outboard modulator, that he occasionally uses, and a vfo for mobility.

Attendance at the Radio Club is hampered on Wednesday nights because of his activities with the local Civil Air Patrol. At present Lloyd is an instructor with the boys in the 13 to 19 age group. Lloyd, at one time, held a private flying license, but at the present time is busy helping others and his license has lapsed.

Lloyd has a few projects going on at home when he can find the time. He is in the process of making a rock tumbler. He also has an old fm receiver that he is in the process of converting up to the 2 meter band and possibly the police band frequencies.

We hope to see you more at the club meetings Lloyd and wish you good luck on your activities. W7RGD

THE LOGGERS BARK

VOL IV NR II W7DK FEBRUARY, 1967

FROM THE PRESIDENTS DESK

The new year is rolling along to a good tart and it pleases me to see that Doc's ollowing is staying with me. I'll try to eep thr meetings snappy and interesting. ou can help with your suggestions as a eparate item we'll detail.

I'm sorry to hear Art Paul W7EVW has ad a sick spell and spent some time in he hospital. Sure hope you are feeling ood again Art.

In this regard, I urgently request that henever any of you know of any illness a- ng our members that you will let me or ny officer or newspaper staff member now. We want to send words of cheer and eep up to date on the welfare of all the lub members. .....Roy W7AZI

ANNUAL BANQUET NOTE

by W7BUN

The annual banquet wikl be held Satur- ay March 4th at the McChord A.F., N.C.O. lub. The club will serve a roast beef nd fried chicken buffet. Tickets will be 1.65 per person, this includes tip. Af- r the buffet, the club invites us to ay for four hours of dancing and enter- inment to the live music of Jan Curtis chestra. Cocktails are available from 00pm and club members and guests are minded that no children allowed due to e location of the bar but teen agers are vited until 9:00pm.

CLUB PHOTOS

Don't forget the Club photos are on le for 75¢. Max W7AEA donated 45 copies the club and they are going fast!

FEBRUARY PROGRAMS

by W7BUN

The February 8th meeting guest speaker will be Bill Watson, K7JHA who will talk on "Vital and interesting aspects of amateur Radio." Bill has been nominated (officially) for Washington Section S.C.M. for the next two years and this will give us all a chance to meet him. Bill will be driving here from Ellensburgh to visit us and there wikl be several guests coming also from other clubs.

The February 22nd program will be a very interesting program, so be sure and plan to attend all the meetings so that you won't miss out.

MUNSON--SMITH FIRE

by W7RGD

On Friday January 20th, Tacoma had another 3-11 fire at Munson Smith's on South Tacoma Way. K7ATD was notified at 8:30 or shortly after that time to activate the bus to the scene for communications. Dick W7RGD got the bus from the bus barn and went 4 bell to the scene.

The bus was parked dirrctly across from the scene but had to move shortly after arriving because the heat was to terrific that two of the side windows on the bus cracked.

The bus provided the necessary communications and also about a hundred cups of coffee for some mighty tired firemen.

Mel K7ATF and Roy K7USF arrived to help out with setting up the equipment.

The bus was advised to secure about 2pm and the Fire Chief was well pleased with the new bus and it's operation.

WOMEN'S AUXILLIARY

by K7AMJ

The next auxilliary meeting will be held at the home of argie Chavis. there are a lot of things to be brought up at this meeting.

Faye Monroe and Vivian Huntley went as a committee to find a bigger hall for our Christmas Party for 1967. They have put a deposit on a beautiful hall owned by the Tacoma Fire Fighters at 50th and South L. This should take care of the crowd this coming season.

We would like to have some ideas on money making projects for the coming year. We have s few expenses coming up and we want to have some money for our annual dance.

We will be issuing membership cards to all auxilliary members from now on, so you gals come to the aux. Meetings to get these. They will be issued to all wives and mothers of the regular men's club.

See you at Margie's house on Wednesday, February 1st.

LOGGERS CONTEST

by K7CZM

Let me remind you again that the LOGGER Contest is almost here and the dates are from 4:00 P.M. Saturday, February 25th. to 4:00 P.M. Sunday February 26th. The contest committee has been fortunate in getting a valuable prize (donated by C. & G Electronics) for first place in the contest. There will also be 4 other worthwhile prizes, one of which is reserved for high novice contestant.

We have tried to keep the rules simple so there will be no confusion. We have already heard discussion of our contest on nets and even if you don't expect to win a prize, get on the air anyway, for a little while. You might be just the call somebody needs to get that certificate. Also, if you are in position to use two or more frequencies, please do so, so we can say we were represented on several bands.

We have changed the rules to give the Novice a better chance and we hope to have several novice logs turned in.

Anybody who was a member in December 1966, or has paid his 1967 dues is eligible to compete.

The full rules for 1967 contest fillow.

1. The contest will hereafter be refered to as the "LOGGERS CONTEST."
2. The contest is only among members in good standing in the Radio Club of Tacoma. The object is to publicize the Radio Club of Tacoma (W7DK) and the Logger certificate and to try to make as many contacts with any other amateur radio stations as possible.
3. The contest will be held from Saturday, February 25, 1967 1600 PST., to Sunday, February 26, 1600 PST.
4. Any band, frequency, power or mode may be used, within the provisions of the FCC regulations but only one contact will be counted for each station, regardless of frequency or mode.
5. In order to count a contact as valid, it must be a two way contact, and the log must contain the date, time, a signal report and the stations QTH.
6. To count toward a score, one point will be allowed for each contact, except that any novice contestant will be allowed 4 points for each contact when using his novice call. Five additional points will be allowed to a contestant who receives from a station with which he is in contact, a valid request for a Logger certificate and enters such information in his log. The information will include the call letters of the stations claimed and

CONTEST (cont)

the dates of such contacts.

7. There will be 5 prizes awarded for the five highest scores, one or more must be Novice operators.
8. Each contestant should submit a log of his operations to the contest committee by March 11, 1967.
9. All entries shall become the property of the Radio Club of Tacoma and the decisions of the Logger contest committee shall be final.

LOGGRR CONTEST COMMITTEE

..... CHAIRMAN ED COLES K7CZM

JOHN AUSTIN K7CZF

BOB WEIGHTMAN

MEMBER NOTE

We hear that Jan Gilbertson K7HTU is very anxious to work someone from Tacoma so we found out the time and frequencies he is on. He can only operate from 1700 to 1900 GMT. You will find him on upper side band 14.210 to 14.225 and 14.050 to 14.100 on C.W. He is aboard the USS Sylvania on the coast of Italy.

He wrote to Gordon K7LXE and told him he heard Del W7UMJ one day but failed to make contact with him.

We will send this issur of the paper to Jan and he may want to write us with some more information.

Keep your rig tuned for him fellows.

WOMEN'S BOWLING

BY W7RXT

At the end if the first half Mary Jo Cowart is out in front with a 194 and 516 scratch. With handicap--Mary Hartzell 251 and Verna Ryan 651. The XYL's took the first half and the Loud Speakers came in second. No 200 games among regular team members but sub Sophie McCullough hit good for 212 and 528.

Most everyone's bowling has improved from last year;-Mary Jo has raised her average 12 pins and Helen Asplund has come up 11 pins.

January 3rd (end of 1st half)

High game by sub Evelyn Larson 183 and high series by Faye Monroe 461.

Januaty 10: Mary Jo had high game of 174 and sub Evelyn high series of 473.

UPPER LIMITS

by K7CYZ

If you six meter fellows have been listening, you no doubt have come up with a DX contact or two. They have been there off and on all of this month. I have New Mexico, Arizona and California. The ssb stations are getting the chicken while the am stations just get the gravy.

The cw boys are pulling a chicken leg out of the pot every now and then also.

We haven't talked to any of the 6 meter fm gang so have no report on them this month.

The 2 meter fm gang are getting so big they have spread out all over the band. The biggest bunch are on 146.76 but you can pick them up all over the band. The am on 2 meters is the same old gang, with one or two new ones. SSB is also comming along on two. One of our Ckub members, Bob W7SFO can be heard every now and then. Listen down around 144.050 or 144.150. Also you will hear yours truly on cw if you listen real good.

THANK YOU NOTE

We can thank Merl W7IKG and daughter Merlynda for the new heading designed for the front page of the LOGGERS BARK.

If you noticed the background picture on this month's calendar page, we have another daughter, Melissa to thank.

NEW ADDITION

by W7RGD

The Loggers Park newspaper has acquired a Veri-typer. It is a used one but in d working order. We hope that it will ed up the composing time and help to the paper out on time. You will note ifference in the type used, from the vious months copy. This type is supposed to make better stencil cuts and uld improve the quality of the finished duct. At the present time we are limited to only 3 different styles of letter but we hope to acquire more fonts for machine.

We hope the new style meets with our ders approval and any comments pro or are welcomed. We want you, the reader be proud of your Club Paper.

MEN'S BOWLING

by K7CYZ

We can only report on three games this month or I should say three weeks of bowling.

Team #1 won 10 games and lost 12. Bob W7RXS had high game of 233 on January 10 and on January 3rd he had a 545 series..so Bob has the honors for this month on team #1.

Team #2 won 5 and lost 7 this month but they did climb out of the basement position.

Dennis W7UBA had high game of 197 on January 3rd but Cliff W7NFG came up with the highest series of 488 on January 10th.

You're men's bowling teams have signed up for the Greator Tacoma Bowling Tournament in February. This will be held at Secoma Lanes on old 99 Hiway. Both teams are scheduled ti bowl on Saturday, Feb. 01 at 4:00 pm. So come and root for your favorite team.

T.C.F.S. CONVENTION

by K7CYZ

The Radio Club of Tacoma has agreed to furnish communications for the T.C.F.'s convention. The date is June 14th and 15. We will need mobiles on 29.6, 51.0 and 145.35 mcs., so keep this date in mind.

Further details will be given at the club meetings and here in the Loggers Bark.

SUGGESTION BOX

A suggestion box is to be installed in the Club House. Roy W7AZI will donate it. Let's have some good suggestions folks.

The box will be locked and suggestions read at the board meetings.

IF YOU GO OUT

W7???

This month's picture is one of a cur-
nt active member. This amateur will be
und on all bands 80 thru 10 on cw or
b.
Did you guess last month's amateur or
d you know? He was featured one month
one of the Meet the Logger. That's
ght, it was Emil K7GPK.
Will have the answer to this month's
??? in next month's paper.

PAST PROGRAM

by WN7FUF

Ed Dahl W7DYM opened his talk about
he Sheriffs Department Radio Communica-
ons" with the statement, "I was a member
the Radio Ckub of Tacoma back in 1929,
ne faces have changed but the Club
rit hasn't!" Then, even though he had
old, he gave a good description of all
e equipment used on the County's 3
tems. The hiway maintenance, C-D and
riffs Department Traffic operations.
h from 700 to 900 messages handled a
, it is quite an operation.
Thanks Ed for an interesting program.

P.S.C.A.R.C.

by WN7FUF

The Puget Sound Council of Amateur
io Clubs January meeting is slated for
inations of new officers. President
W7HMQ, our present S.C.M., and others

PSCARC (cont.)

will meet with Gov. Dan Evans to initiate an Amateur Radio Week in conjunction with our announced Field Day Week.

SLIVERS AND SPLINTERS

How about that department. Jim K7TVO can't tell a go-go girl from a long gone boy!! Oh well Jim, after that many years of married life that's the way it goes.

Then there's Scotty K7CYZ who got up at the meeting and tells us what TOPS stands for. It's (according to him) Take Off Tops Society!! That sure confused him for awhike.

What is Cliff W7MFG doing towing a trailer around in circles over in Fircrest when it isn't even camping season.

Thanks to Roy W7AZI and Ethel W7WLX, who took time out on their 30th Wedding Anniversary to help on the Loggers Bark.

The last board meeting came up with some good stories,(not the pink elephant type either.)

The Club members voted the article "The Automatic Keyer" in the last month's QST, as their choice for the most interesting article for that month. Roy W7AZI will forward the information to W7FGY as the Clubs vote for the QST award. The article on WWV moving got second choice.

Ralph W7COP is going around with a wild look in his eye trying to figure out what makes an intercom system not work, when you hook up all the hundreds of wires according to the instructions.

Dick W7RGL trying to figure out akl the tricks to operating a vari-typer that he acquirrd just previous to this printing.

Emil K7GPK has half of his family moved into the new section of his home. Won't be long and there will be a big house warming. Working swing shift may keep Emil away from the Club meetings but it sure keeps him glued to the saw and hammer. Except, of course. the fishing season.

Max W7AEA took time off from work long enogh to come aboard the C-D bus while it was parked at the Munson Smith 3-11 fire.

Dorothy WN7FUF having troubles with her rig. Have to get out the screw driver and soldering gun and put some of that theory to use.

Steve K7SSC is taking his basic training at McChord. How lucky can you be?

68 people on tour to Auburn FAA. Very nice tour - Nice electronic oven they have.

* HAPPY BIRTHDAY

THE LOGGERS BARK

OL IV NR III W7DK MARCH ,1967

FROM THE PRESIDENTS DESK

I'm very pleased with the way things are going th the club. The new console is getting that nished look and what's more it works! Code actice will be much more effective with those dividual jacks for headsets, the mike and PA stem are 5X9 plus with the 3 speakers placed st right for complete room coverage (even the vie projector sound track can be jacked in), and e station gear looks A OK! Dick K7ITX and his w have put in many hours for the benefit of DK i we're all grateful, fellows. More painting been done (with more to come of course) but it ks better Smitty.

My job has been made so very much easier than I ected because I've been honored with the full peration of last year's committees. That is mendous and gives me new enthusiasm to do my t to keep the Club active and progressive.

The new suggestion box has already produced two d ideas one of which will be in action immedia- y.

Ethel says reservations are coming in for a good n out to the annual banquet, March 4th. Jerry UN promises good food and a good time at the Club at McChord. Be sure you're on the list!

W7WLX, K7AMJ and myself enjoyed our visit to Lake Washington Amateur Radio Club's get-to- her and I hope more of us can do more visiting other clubs. .... Roy W7AZI

EDITORIAL

Our guest speaker, Bill W7JHA, at the February meeting, gave a very informative talk on our ffic nets in the Pacific Northwest. Bill is rently the manager of RN7.

Not every ham is interested in traffic or how is handled but if you ever have a need to use se nets you will find what a wonderful job se men and women can do.

It so happens that Merl and I needed to handle

(cont.)

emergency type traffic the week before our speaker visited our club.

Our Nephew, Gary Fenimore, was lost on a hunting and fishing trip up in Sitka, Alaska. When Merl got on 20 meter ssb calling CQ Sitka, he had answers from Prince of Wales Is., Nome and Juneau.

Chuck KL7FBD at Tinakee put out a message on the Sourdough Net to set up a station in Sitka for the next night to keep his family here in Tacoma informed of how the search was going.

The message to us, that everything was ready, came through the Western Country Cousins net that same night. The message was phoned to us by Ro K7NZO in Bremerton.

At 6:30 the following night we had Al, KL7BFV and Chuck, KL7FBD on frequency. Chuck kept the frequency clear while we talked to the boy's father via phone patch. As the results of the search were negative for that day a sked was set up again for the following night. Excellent conditions were in our favor and Chuck helped by keeping the frequency clear while Al ran the patch. Again the search was futile and Gary was presumed drowned.

These boys in Alaska are really to be congratulated on their fine traffic handling.

This is just a sample of what our traffic nets can do under an emergency.

The next time we need to handle any messages, I hope they are under happier conditions.

PROGRAMS FOR MARCH

rch 8th.
e history of DX. A 75 minute slide show with commentory covering DX from 1921 to the nt time. A very fascinating show for all DX'ers or not. Loaned by ARRL.
rch 22nd.
ur to the new C-141A flight simulater at rd AFB. A chance to fly without ever leaving round.
s trainer has all the sounds and motions of eal aircraft and is controlled by a digital er.
will leave the Club House at 8:00 pm sharp!!

UPPER LIMITS

The DX is very scarce these days. About the only stations getting any is the ssb boys. Six is busy but only with local traffic.

Two is getting livlier by the day. It is safe to say that in three years, two meters will be more popular in the Pacific Northwest than six for local rag chewing. That means the entire Puget Sound Area, not just one or two towns. Right now two fm has better coverage around the Puget Sound than six. In one night (from 5 to 11pm) there was twenty seven (27) stations logged on 146.76. This is an unusual night but you can always get some one.

The six meter gang, in Seattle, have started a six meter x-miter hunt. They start at 1:30 pm and have coffee afterwards. So far they meet at 50th and Fremont. They are having real good turn-outs. So if you want to have some fun on a Sunday afternoon and have a 50.4 rock, go up and join them once in a while.

The six meter hunts in Tacoma are still going strong. They meet at the Club House at 8:00 pm on every other Friday. 51.0 Mc is the Tacoma freq.

Guess that's all for this month. Hope to have more to report next month.

A MEMORIUM
of
7 H R
HOWARD GREY REICHERT

Howard Grey Reichert was born January 4, 1896 n Belvedere, Illinois and came to Tacoma in 1912, nd died February 19, 1967.

In those early years many of us made many a rip to Howard's home on Mckinley hill, where we ooked longly at our first glimpse of a HAM radio ack, with it's all home built radio set, where proudly showed the first radio telephone ation.

Howard was the first recorded President of the dio Club of Tacoma. Many of our first meetings re held in his motorcycle shop on the south side 9th street between Tacoma Avenue and G Streets. With Mr. Little, he conducted one of the first radio stores on Pacific Avenue near South 8th St. ring some of these years Howard developed some the early radio gear used in locating metal ore om the earth deposites.

He built, conducted, managed and programed the rst radio station, which later developed into at is now KMO, in his home on North 7th or 8th and L Street, Tacoma.

Howard, with another amateur, cast and machined the first quench gap plates I ever saw. Just a few years agi he gave the Quarter Century Wireless Association Museum, two of these plates. He could not part with them all for he treasured them highly.

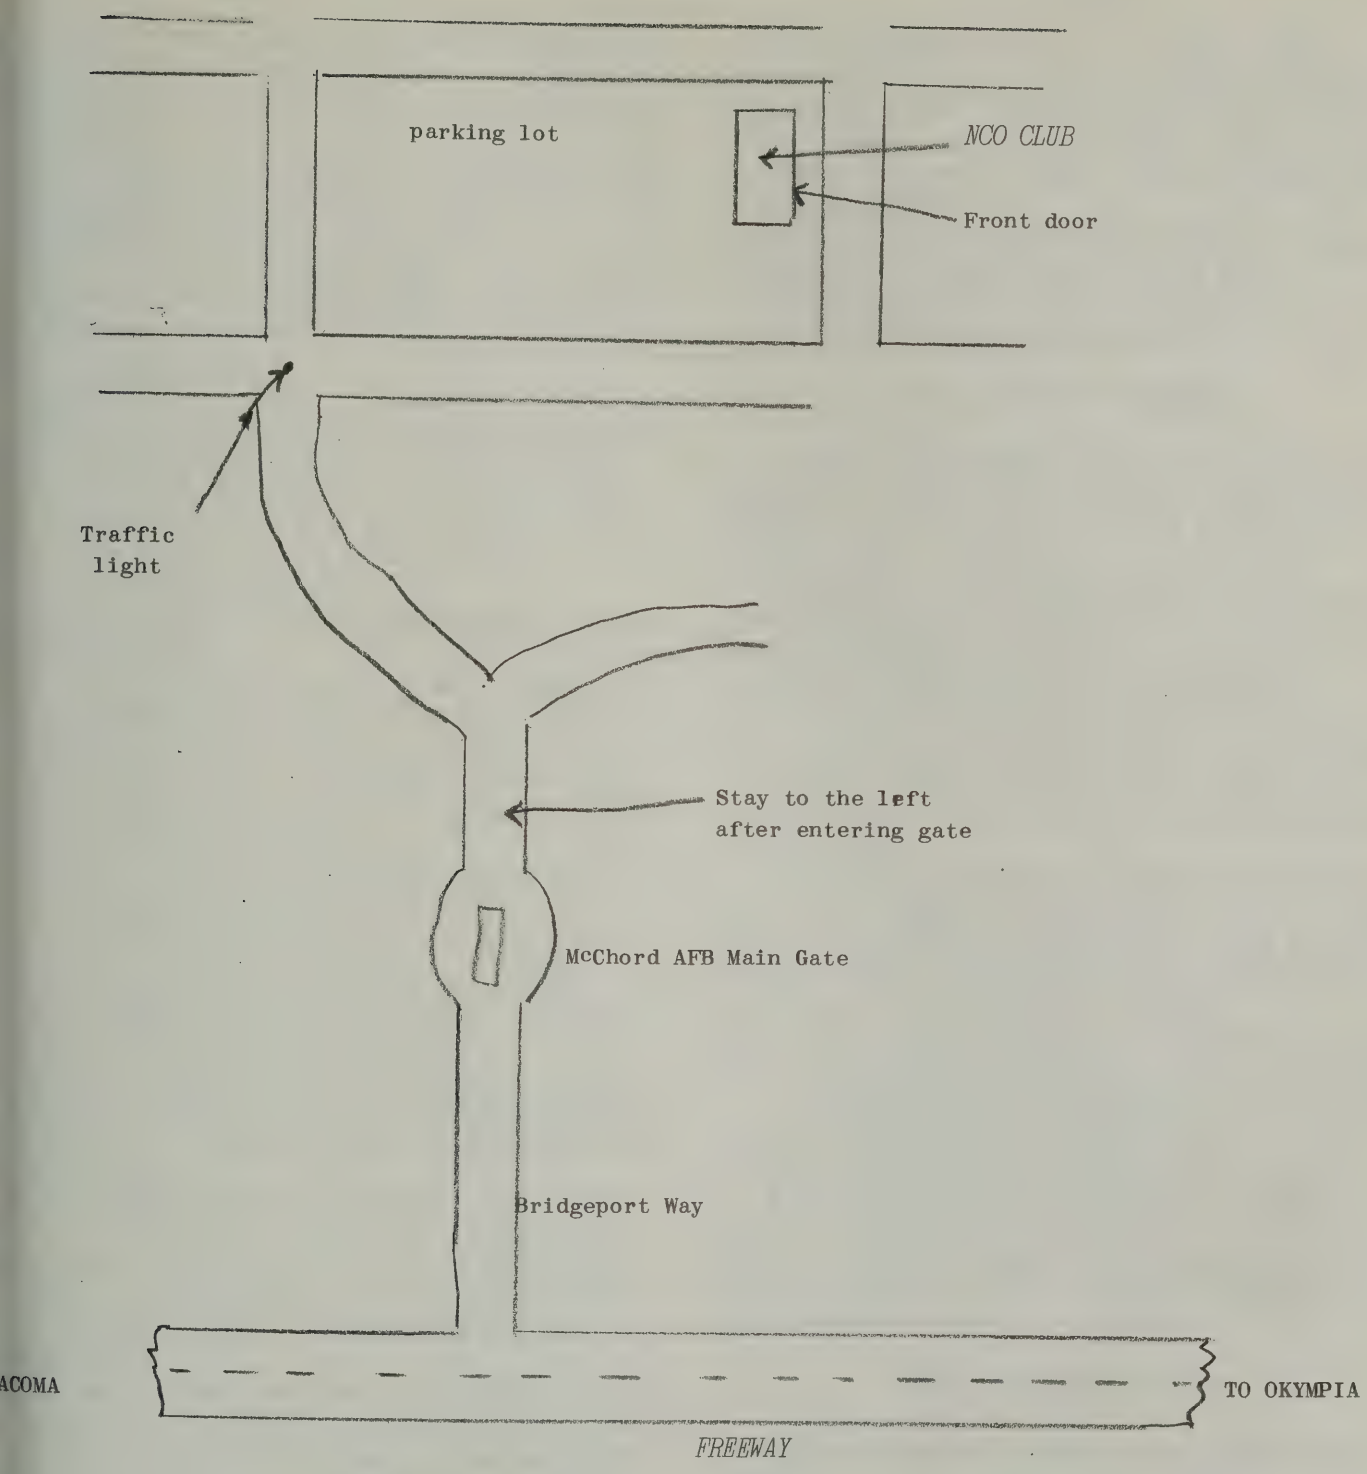

For some years Howard was engineer in communications for the Navy yard in Tacoma. He worked in radio in one form or another all of his productive years.

He was instrumental in inspiring very many of the old time hams in building their radio gear and to get their licenses. His friends, acquaintances and associated, in amateur and commercial radio, including many outstanding personalities.

We of the Radio Club of Tacoma are proud of our heritage and of our friend Howard G. Reichert. We extend our sympathies to his family.

Dr. F. Clifford J. Spike, W7OS

he above map was drawn to assist you in find- the McChord NCO Club. Don't forget the date ch 4th. Buffet dinner at 7:30pm in the ade Room. Bar will be open at 7:00pm. From 9:00pm til 1:00am. stay for the entertainment and dance music of Jan Curtis and his orchestra. Price $1.65. (Includes tip) Contact Ethel Devish GR 2-4213 for reservations.

SLIVERS AND SPLINTERS

We want to wish a speedy recovery to former DK ember, Gene K7EEK who had surgery on his back. good time to catch up on the rag chewing while ecuperating.

Did you hear about the new "Cold Cure" Roy 7AZI has discovered? Try screwdrivers!! The range juice has lots of vitamin "C".

Another "first" for Jim W7BSW!! He hit the ront page of our local tabloid, when he married a irl in Texas to a soldier in Viet Nam via amateur adio and phone patch.

Roy W7AZI, Ethel W7WLX and Margie K7AMJ toured o Issaquah February 17th to a ham get-together ut on by the Lake Washington Amateur Radio Club. very enjoyable evening with a delicious ham pot-uck dinner and plenty of rag-chewing. Some laska hams brought some Caribou sausage that was orth the long trip up there.

Congratulations to Phil W7AQB and XYL who are ew Grandparents!!

We would like to extend our best wishes to argaret Churchward, daughter of Bob W7RXS and ez W7RXT, who recently became engaged to Mr. erry Law. The young couple plan a June wedding.

Congratulations to Tim WA7FVT on getting his echnician license just recently.

Thanks to Joe W7IKG and XYL Helen for the nation made to the Loggers Bark.

Art W7JGN is off again to the south for the shing season. Flying of course!

Smitty K7ATD and Dick W7RGD had a little go-und with the Flu bug this past month.

Glad to see Russ W7ATB at the February meeting. ng time no see Russ. Also at the meeting was eve K7SSC just back from Texas and now stationed McChord AFB.

Missed Smitty K7ATD at the F.A.A. tour. First saw him and then he was gone. Next time we tend, Smitty, you'd better file a flight plan en they can bring you in by radar and you will t become lost again. We miss you and Rene at etings also.

Have you noticed the indexed picture, framed d hanging on the Club House wall? It is the ub's copy of our recent group picture and Ethel WLX did the honors and framed it for the Club. anks Ethel.

Bonnie, the lovely daughter of Beryl and verne Hood, who is attending Western Washington llege on a scholarship awarded to her by the yallup Elks Club, has been chosen as First bator on the school debate team.

Jim W7BSW was notified by letter that he had minated for the A-1 award but will not be alified for it since at the time he was operat-g with the Club call.

SLIVERS (cont.)

A big thank you goes out to George Abbott. At the last meeting in February, George donated to the club a tape machine. Not another code tape but a regular audio tape recorder. Thanks George!

Late new item.... W7EEK is back from the hospital and doing fine.

Did you know department? George Vankleeck WA7CSF is the new President of the TARS.

Don't forget to get your national ZIP code book from the Women's auxiliary members.

NEWS FROM ARRL HQRTRS

George Hart W1NJM, is the new communications manager. He succeeds F.E. Handy W1BDI, who retires after more than 40 years on the staff of ARRL.

The F.C.C. has a new form 610 for amateur applications. For renewals or modifications it is now permissable to attach a photocopy of the current license instead of the original.

Help spread the word--it is *not* permissible for U.S. amateurs to communicate with any Vietnamese station. Some U.S. hams have been handling traffic for 3W8D against all International restrictions.

The League membership at the end of 1966 was down 0.4% compared to the figure a year previous. The N.W. Division was up 0.5% with 3403 full members. Total League membership is 80,944 full members and 8,965 associate members.

F.C.C.'s total of amateur operator licensees for December 32 is down 10,000 from a year earlier.

The General Manager turned down the possible assigning of each League member with an identification number as impractical and meaningless.

Within the next few weeks all full members in the Washington Section will receive ballots to vote for Section Communications Manager (SCM) for thr next two year term. Be sure to exercise your right to vote!

you haven't made reservations, call Ethel
right away.

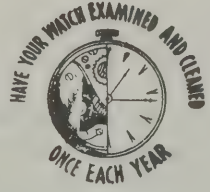

MEN'S BOWLING

This time we have four (4) weeks of bowling to report on, so we will condense it a little. During this time team #1 has won 7½ games and lost 8½. Also in this time period, Jerry Pourque and Ralph W7COP tied for high game with a 211. Jerry's game was on January 31st and Ralph had his on February 14th. Ralph also rolled a 207 on January 24th. Jerry has honors for high series with a 561 for the night of January 31st.

Max W7AEA took the honors for high game of 187 and Cliff W7MFG has high series of 467 for team number 2. Team 2 lost 10½ games and won 5½.

In the City Tournament, team #2 came through with one of their best nights this year. The total pin fall with handycap was 2572. We won't know until next Saturday how they stand for sure, but in the Tacoma News Tribune on February 20th, the third place team is listed as 2681, so we have hopes of placing in the money.

Team #1 fell back to a 2531 with handycap, so they may hang in the pay-off also.

CLUBS VISIT TO F.A.A.

y Club members and friends visited the Federal tion Administration Center in Auburn on the ng of January 25th.

e spent an exciting and informative evening the "Traffic cops of the airways", those d controllers who cover the Nation, handling ic if all aircraft in the clouds. There are ch agencies throughout the U.S.

e talked with, and closely observed, the tors of the radar screens as they watched for aching, scheduled planes to appear on their r of the radar screens.

observed patterns of flight as the sensitive not only flashed the progress of the planes, icked up such detailed shadows as storm- d waves in the nearby Pacific, and wind- ed forests on a mountainside in Oregon. Even ms of lights from motor vehicles appeared, g been picked up by radar from a busy freeway Eugene Oregon.

was an experience we will not forget. The ement, the new and the wonderful.

r Club thanks Leonard Westbo Jr. W7MCU a l and welcomed visitor, who arranged the tour s and also thanks to the Puget Sound Council teur Clubs for the invitation.

SO YOU WANT TO WORK DX?

by W7AQB

If this applies to you, now is the time to get started. The sunspot cycle is well on the upswing and there are good openings on ten and fifteen, as well as on the old standby, twenty.

In this first article, I will try to outline for the beginner some tips on hearing DX. (You have to hear them before you can work them.)

Requisit number one is *PATIENCE*, number two is knowing when and where to listen. On twenty meters the ssb DX stations tend to operate between 14100-14120 and 14190-14200 and from 14200-14235. This morning at my QTH, ZC4RM was on 14196 Kc, XW8BS on 14205, VU2FV on 14185, VU2JN on 14211. This was between 1600 and 1750 GMT (8:00-9:30 am.) All were S-8 to 30 DB over 9! and could be worked with 200 watts and an average tribander.

When, out of American bands DX is heard, working W's, you can usually spot the W he is working, zero his frequency and when the QSO is finished, give the DX a call.

There are about 50 countries in the Pacific and Pacific rim area and these are the easiest to work from here. From now on the Pacific rim countries will be coming through on 20 and fifteen with 9 plus signals in the mornings. Stations like Macao CR9, Hong Kong VS6, Singapore 9U1 and many others. Working places like Kohul, Kandaher, Katmandu, Calcutta, New Delhi, Vientinne, Nairobie Mombasa, Damascus, Asmara and many others holds a fascination for the DXer and I hope it will for you!

LATE FLASH!

On February 3rd the F.C.C. proposed new rules under which the existing 27Mc. citizen band, will be closed to the millions of small unlicensed walkie-talkie units now in existance. Those, who own such units, would be granted a years use after adoption of this standard. The F.C.C. proposes opening a new band for unlicensed walkie-talkies between 49.9 and 50.0.

CODE PRACTICE

The classes, interested in code practice, are gathering each meeting night and speed is progressing. This will certainly help toward that Novice or General license.

THANKS

Thanks to Easty Eastman for the donation of 16 phone jacks to be used for the code practice oscilater at the club house. Dick Ohls and his crew are installing them for future use at this time.

MEET THE LOGGERS

Dwayne K7KSZ and Patty K7NQR Lewis.

ayne was born and raised in Spokane Wash.
ated from Lewis and Clark High School.
tty was born in Tacoma and raised in Tenasket
gton.

ayne served in the army from 1953 to 1954 and
n a tour in the Korea area. Then when out of
ervice he went to Spokane where he married
.

1959 they moved back to the Tacoma area from
ne and at that time became interested in ham
, thru Mel K7ATF. Both signed up and went to
l at the MARS program at Fort Lewis, where
teacher was Paul Gatts from the Philco Corp.
ayne got his first license (Technician) in
and Patty followed suit by getting a Novice
se. In the following year, in April, Patty
her Technician exam.

for gear in the ham shack they have a home-
300 watt transmitter on 6 am with a WRL
rter fed into a HQ-129X and tied onto a 30
ong John.

(cont)

For 6 fm there is planned a 100 watt rig, which us in the final stages.

They also have a 60 watt base station on 2 fm.

There is a 100 watt mobile and a 5V Motorola on 2 meters that is portable. Also for 2 meters there is a 5 element verticke.

The latest project will be a rack mount 6 fm-2 fm dual channel job.

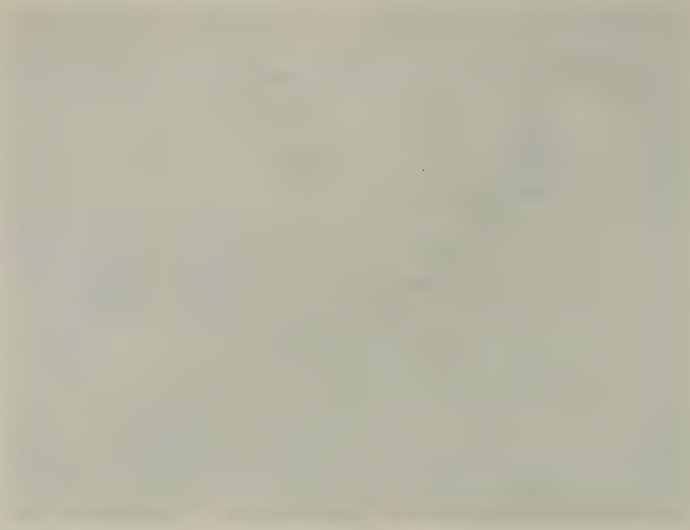

Dwayne has a good workshop to go along with his projects. Nothing to small or to big to tackle.

Of course Patty is kept busy with three harmonics to keep track of. (Danny, Johny and last but not least Vicky.)

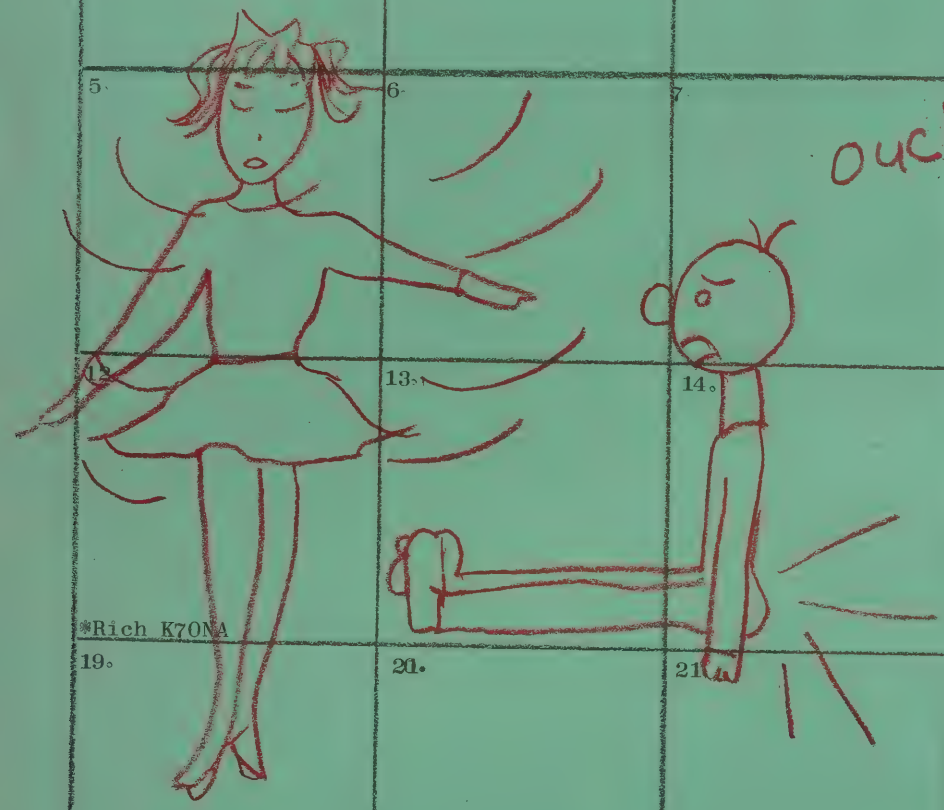

Both Dwayne and Patty have been active in the Club's activities. Dwayne was Club Custodian for 2 years and in charge of 6 and 2 meters on field day for a couple of years.

Patty has served as President of the Auxiliary 2 years and was head of several committees. Presently she has the job of Club Historian.

When in their area be sure to stop in and visit and I'm sure you will find the coffee pot on.

THE LOGGERS BARK

VOL IV NR IV W7DK APRIL ~~MARCH~~, 1967

FROM THE PRESIDENT DESK

In spite of the rain at hand, it is pring and immediately after the first day f summer, we have Field Day. The calan- er forces our actions as well as the lock so we are starting the plans for the ig day. Steve Dightman, K7SSC, has greed to be F-D Coordinater, with Dick azelmyer as his assistant. Everyone hould be anxious to help in every way, nd I hope you are, because in addition to great Field Day you will all be the cast f the new movie to be made for ARRL. We ad a wonderful time last year and made a od score too, so if we all pitch in and ake Steve's job easier we can look for- ard to some real hamming fun for June th and 25th.

The Loggers Bark does a good job of tting you know what is going on but let impress upon you that you are missing me of the great events that don't get to the Bark, just because you missed the etings. Come and take part and if it esn't suit you put your suggestions for provement in the new suggestion box next the bulletin board..President Roy W7AZI

EDITORS NOTE

From now on, starting next month, (May) am going to ask a member each month to ite an article. This will be announced the first meeting of the previous month. u will have two weeks in which to write ur article. This will give our paper me variety and also give our members a ance to display their talents.

Please give this a try when you're as - l. Remember, we are all amateurs!!

AUXILIARY NEWS

The ladies aux. is going to have a bake sale, April 12th. right after the regular- meeting. Come buy some cakes, cookies, fudge and pies. The variety will be ter- rific and the prices will be just what you're willing to pay. The profits from this worthwhile event will go to help pay for the dance at Christmas.

Let's see a good turn out at the meet- ing boys! You'll be sorry if you miss the chance to buy some of that extra special bake goods.

I would like to take this opportunity to thank the girls who helped at the Skat- ing party, Ethel, Vivian, Faye and Mary Jo. They did a real fine job.

We will meet at the Club House this month on April 5th. All you aux members please try to be there. We will have our elections for the coming year. If you want to run for an office, please be there so we can vote for you.

This is my last meeting as President and I would like to thank all the girls for their support during my term. They're a great bunch. The rest of you ladies should come and meet them.

See you at the next meeting.

ast month we gave a report on the .A. tournament held at Secoma Lanes. number 2 hit the pay-off. Each mem- received $5.40. Not much, but $5.40 etter than last year's. Sorry to re- that team 1 didn't place in the pay-

EMEMBER NO DUES NO NEWS

SO YOU WANT TO WORK DX!

by W7AQB

Let's look at 15 meters this month. The band opens usually about 1600 GMT for Europe and stays open until around 1800. I have been using a homebrew 4 element yagi at 30 feet and with the bare-foot exciter I can work Europeans with no trouble.

After the Europeans fade out the skip lengthens and the Africans start to come through. 7Q7EC Malawi, 5Z4IR Nairobi, 9Q5EP Republic of Congo have been quite consistant here about 1900-2100 GMT. In the afternoons JA's, HL9, 9V1, VS6, CR9 and KR6 come through from the Northwest path with very strong signals. Power is not so much a factor on this band as it is on 20 or 40. When the band is open it doesn't take much to work DX.

Remember, the band isn't open every day so if you don't find good conditions, when you first try, listen again the next day. The first rule of DX operating is *PATIENCE*! Good hunting

rt Paul is no longer with us in
on, but for all of us fortunate enough
ave been his friend, he will forever
ith us in spirit. His was truly a
time of service to mankind. And
woven throughout was his love of ham
b. A true amateur in every sense of
word, Art shared his talents and his
with everyone. As a police officer
gave of his radio knowledge and
gned and built the first radio
unications system for the City of
ma.
later years, he joined the staff of
where he helped to pioneer FM and TV
in Tacoma. He used his many talents through the years to build a lovely home on Fox Island, to build a comfortable cruiser and to work on many projects for his friends in his shop at his home. No area of ham radio escaped Art's curiosity. CW, Phone, SSB, Teletype, FM, the low frequency bands and the high frequency bands....Art used his talents to explore them all.

We can join with his wife, Win and his son Gil, in the knowledge that this old world is a better place because of the 'three score and ten' plus, that Art Paul, W7EVW, spent with us. ..... Max W7AEA

ARRL BULLETINS

NR 101
ARRL afiliated Clubs and their members are reminded of the continuing availability of training aids designed to enhance club education and interest. The League's Training Aids Program includes technical films, film strips and slide collections as well as quizzes and tape recordings on many phases of amateur radio technique operation and history. Affiliated Club officers should request ARRL Training Aids well in advance of the date required. Full information is available from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111 BT
NR 102
Among the many operating aids available without charge from ARRL are the following all designed to aid your operating effectiveness: Pointers for Good Operating, WAS map and card record, net directory, phonetic alphabet, ending signals, RST system, Q code, contest QSO record, safety code, ARRL DXCC Countries List, QN Signals for .w. net operation and GMT time conversion card. Any or all of these are available from the ARRL Communications Department, 225 Main Street, Newington, Connecticut, 06111. Be sure to include your zip ode with your mailing address BT
R 103
he annual meeting of the ARRL Board of irectors will be held in Hartford om May , 1967. League members and affiliated lubs having suggestions about the course f ARRL affairs during the coming year hould communicate with their appropreate ivision director at the address shown on age 8 of any 1967 QST. If time is short, ou may write to your director in care of RRL Headquarters, 225 Main Street, ewington, Connecticut 06111 BT
R 104
our times a year, during the ARRL quarterly CD Parties, many amateurs become interested in the activity called a CD Party his operating event is limited to competent radio amateurs in the ARRL Communications Department Field Organization. hese appointees serve amateur radio and he public in many fields of VHF, the mergency planning, bulletin transmissions raffic handling on all modes, etc. Only RRL appointees may participate in the uarterly CD Parties, but all qualified mateurs are urged to contact their section Communications Manager, page 6 QST,

BULLETINS (CONT)

to see how best they too can serve along the lines of their natural operating interest BT
NR 105
Many rare countries were active in the Thirty Third ARRL International DX Competition held over four weekends in February and March. Those who took part are reminded that convenient reporting forms are still available from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Please be sure to indicate the number of contacts made and number of bands worked. Entries must be postmarked by April 22, 1967, to be eligible for certificate awards and QST listings AR

MEN'S BOWLING

There are three weeks of bowling to report on this month. The Radio Club team *1 won 4 and lost 8 while team *2 won 5 and lost 7. Ralph, W7COP, had high honors with a 211 game and a 587 series. Smitty, K7ATD, got in the 200's on March 7. He rolled a 203 with a 511 series.

On team number 2, Cliff, W7MFG, had high game of 179 and high series, 517.

Last month we gave a report on the G.T.B.A. tournament held at Secoma Lanes. Team number 2 hit the pay-off. Each member received $5.40. Not much, but $5.40 is better than last year's. Sorry to report that team *1 didn't place in the pay-off.

UPPER LIMITS

Things are rather slow on the VHF bands as far as DX is concerned. The bands are alive with local rag chewing, but that is all.

Two f.m. is comming alive and one needs a tuneable receiver to keep up with them. So far 9 our of 10 rigs, comming on f.m., are x-tal controlled and one or two channel rigs. So they think that only a few stations are on. What a surprise you are in for when you get a tuneable rig. The band is full, not only f.m. but a.m. and ssb. Listen for W7OS, who has a 5V and Doc will have it fired up soon.

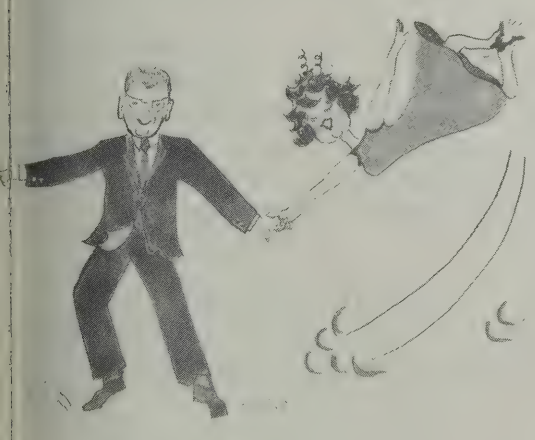

More next month. (I hope)

REMEMBER...NO DUES--NO NEWS.

.C. W7MFG
BANQUET

Seventy members attended the Annual quet at the McChord N.C.W. Club and had and time.
Cliff, W7MFG, *(see above picture)* .C. *did the* ors and introduced the new Officers the 'Loggers Bark' crew.
Compliments were many for the outgoing cers also! Those who cared to dance *the drawing by WN7FUF below)*
yed to enjoy the fine music of Jay is's Orchestra. We had some good dan- in our Club and what a bunch to get ther for a night of fun!

FUN AT THE ANNUAL BANQUET.

hanks are extended to Jerry, W7BUN, romoting such a successful Banquet. the same procedure in mind for us er year, Jerry.

We hope the new members will attend the meetings regularly and participate in the Club's many activities.

SLIVERS AND SPLINTERS

Radio is not the only hobby for some of our members. Scotty, K7CYZ, won 2nd place in the South Sound Sports Car Club 100 mile road rallye. Glenn, W7CMZ, won 1st place in the same race.

W7IKG, Merl, had his big 20 meter beam come crashing down after a guy wire broke. It smashed a couple of the elements, so after an overhaul job, the entire beam returned, he received several 5-9-9 reports from Russia. Maybe it pays to let em come crashing down sometimes.

The return address design on the 'Loggers Bark' was drawn by Rusty Hood, son of K7NPG and K7NKZ. Future artist coming up. If you don't believe us check for his initials on the picture.

Gene, W7BTV, was heard on 20 running phone patches to Antartica with that big booming signal of his.

Elmer, K7LVL, has been off the air with antenna troubles, or is it bad tubes?

One of our new members, Gene WA7BVG, has a novel design for quad spiders. Simple, strong and a good engineered and welded design.

(Seen at the Banquet-Dance)- Margie and Mitchiko, with their heads together discussing how to teach the Chavis's talented daughter, Merlynda, how to speak Japanese for her part in the school play- Teahouse of the August Moon.'

Didn't Chip, K7VPF, do an excellent job of displaying his DX-ing records and map, at the last meeting (18th) under the Hints and Kinks part of the meeting? Keep it up Chip!

If a fellow (looking like a traffic cop) pulls up along side of you while you are driving, don't think you're caught at speeding. It might be Jerry, W7BUN, on his new BMW road bike. He did just this *to one of our lady members. With those* sunny days, you won't be hearing him on the air now.

Steve, K7SSC, is still checking with members to see who would be interested in getting some c.b. rigs and converting them over to the ten meter band. These are much needed items. So if you are interested be sure to contact him. He has also offered to design the conversion details.

Jim, W7BSW, has had another car accident. This makes 6 times for this car. Three times while parked. Guess he has overtaken Dick, W7RGD, in this department.

NEWS FROM ARRL HEADQUARTERS

Copies of the Stanford Research Institute report are now available to individual members and clubs from ARRL headquarters for $2.00. This is an overall survey of amateur radio activities.

Following inquiries from DXCC amateurs, the League has investigated authority for W9WNV and K1IMP to operate from Navassa Island last October with the call W1IMP/KC4. Since the US Coast Guard, which has jurisdiction over the island, reported the operation to have been lacking proper authorization, DXCC credit is being denied for contacts with the improper operation.

The Chief of Army MARS has announced that the 'terms kilocycles per second and megacycles per second will continue to be used when expressing Army MARS frequencies,' and expressly forbids the use of the term 'Hertz' inexpressing frequencies.

THE POET'S RETREAT

the pages of the Loggers Park
Every month you'll usually find,
Poets corner with it's little shack
nd words from a nimble mind.

this nimble mind has ceased to function
he wheels are welded with rust,
y one phrase gets through his brain
I'll build this house or bust!'

ll build this house, or bust!' he says
ou can bet he'll probably do both
until he's here with his pen in hand
'll fill in for 'Mr. Emil Koth/'

THE KING WINS

by K7CZ

'Rex' Manner K7CVX is the winner of the
7 Loggers Contest and he won it going
y. He will receive the Editors and
ineers Radio Handbook (donated by C & G
ctronics). There was a tie for 2nd,
and 4th places among George WA7BHH,
othy WN7FUF and Roy W7AZI. George
CSF was 5th and logs were also turned
by Ethel W7WLX and Ed K7CZM.
I am sorry to say, no requests for
ger Certificates were turned in for
siders, although two requests were
ed in for our own members and request
four additional seals. I am sure that
ewed interest in the Logger Certificate
been generated and there will be re-
sts for certificates at a latter date.
Analyzing the logs, I find we were on
10, 15, 20, 40 and 75 meters in the phone
ds, and on 15, 20, 40 and 80 meters on
. Apparently about 25 members were
tacted in the contest, although most
them did not turn in logs. Contacts
e made in 28 states, as well as four
dian Provinces and Porto Rico, Hondur-
Russia, Japan and of course there
d have been more foreign stations if
e had been a multiplier given.
ll in all, I would say the contest was
essful and there certainly was inter-
by outsiders, but they couldn't find
members. Maybe we are spread out too
. Something to think about next year.

FROM ASSOCIATED PRESS

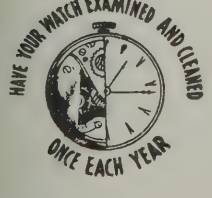

(WASHINGTON)--The Chairman of the Federal Communications Commission told a group of senior amateur radio operators tonight that they'd better attract more youth into the ham ranks or risk loss of valuable space on the radio spectrum.

Resel Hyde made his remarks before a local chapter of the Quarter Century Wireless Association, membership in which is restricted to those who have held amateur radio licenses for 25 years or more.

Hyde said he noted a 'disturbing trend of lessening interest in the amateur radio service...statistics seem to suggest for reasons not fully understood some lack of interest...by our youngsters.'

Hyde said any decrease in the number of amateurs could undermine the importance of amateur radio to the nation and could lesson the need for reserving large blocks of frequencies for the hams.

Hyde also praised the amateurs for being pioneers in the use of high frequencies, developing many of the techniques used in modern-day communications, supplying technicians and engineers for the armed forces and 'handling a large share of very important personal messages between our soldiers overseas and their families at home.'

MEETING NOTES

The board members presented a proposal to the membership during the March 22 meeting. The proposal was to have one meeting during the months of July and August. (2nd Wednesday of each month) The proposal was made in a form of a motion and was seconded. The motion was passed, so please make a note of it on your calander for July and August.

Also, during the meeting, the problem of two conflicting programs set for April 12th was settled. There had been planned a trip to Seattle to try and capture the traveling trophy and a home-made bake sale for the members at the Club House. It was decided to have the Bake sale and the trip to Seattle could be put-off till a later date.

Another motion was presented and seconded to apply another $200.00 on the LID bill. It passed without a nay vote.

A motion was made and seconded, for the Radio Club to draw up a written agreement with the Northwest Chapter of the Q.C.W.A regarding the use of the upper front room and a section of the downstairs Club House for the display of the Q.C.W.A. museum pieces. Another motion followed and was seconded to table the matter until a committee could be set up to check into the matter further. The second motion was passed and the motion was tabled.

PROGRAMS FOR APRIL

April 12th.
Women's Auxilliary Cake Sale followed by the showing of two 25 minute films from ARRL. 'Every Single Minute' made by the Philmont Radio Club showing how hams take their hobby with them and its uses helping in emergencies. 'Hams World Wide' expreses the true story and meaning of amateur radio.

April 26th
A very interesting slide show of a recent tour of Europe by H.W. 'Tex' Miller of Lakewood. Tex has some great pictures of European castles, buildings and scenery.

ET THE LOGGER.

Meet Jim Mashburn W7BSW.

Jim was born in blairsville, Georgia d attended school there but came to shington and went to school in Bremerton r a time before returning to Cleveland, io where he finished his schooling.

In 1940 he joined the Navy and served a radar technician until June of 1947. ter a brief period (one month) he could t stand being free and joined the rforce in July of the same year, and has en with the Air Force ever since. e Air Force lists Jim as an electronics chnician and cryptoligist however his imary job is working in the air force S station as McChord AFB MARS Director.

In 1952 Jim met his lovely wife Judy in lorado Springs Colorado. They were rried the same year in Pueblo Colorado. dy originaly came from Nebraska. As me passed they welcomed three harmonics, egg 12, Mark 8 and last but not least mela 4.

Jim obtained his first amateur license, ass B on January 4, 1933 and advanced a class A in 1934. In 1935, he passed e Extra Class requirements and has held is license to date.

In listing the calls he has held, it unds like a DX column. During his tours dutied, there are few areas he has not erated from. His present calls are of urse W7BDW and W7AKI. The other calls has operated under are; WØSDW, WØHKE, ZDP, W1UOA, W4BSW, W8BSW, W5JNQ, JA1BS, 5BS, KZ5GG, KW6BS, KS6BS, KM6BS, KG6BS, 7FBC, DL4AD, F7CC(2)., OX3BD, X3BQ, 1OS, PX1OS and TA2BS.

At the present time Jim has no station home but has his equipment at the MARS ation at McChord. His equipment consists of KWM-2, 75S3 and a 32S3 Collins and to help boost them up into sizeable signals he has several home brew linears. There was a 105 foot tower with a Telerex, TM30C (tribander) in his back yard but it is down now and being saved for future use at the new QTH planned in the near future.

Along this line, Jim is planning to retire from the Air Force this year and will be moving up towards Mount Rainier. (about half way between Tacoma and Eatonville on the mountain highway) The plans call for an antenna farm on the 10 acres of land he has up there. There are two 140 foot towers put aside for this project. Also planned are a 5 element full size on 10-15 and 20. There will be a 3 element job on 40 and a Bob-tail curtain on 75.

Follows a partial list of some of the numerous awards that Jim has accumulated in past years. A-1 Operator, TOPS, (Englands A-1 Operator) Public Service Award (8 times), DXCC for 312 verified, WAS, WAZ, FHC, Loggers Certificate *10, OTC and ARRL CP-35. Also he has won the Club 3 awards using the Club's call W7DK.

He is presently a member of DK, Western Washington DX Club, Willamet Valley Glub and has been a continuous member of ARRL for over 30 years. At one time he was a member of the TAFS.

At the present time Jim is pretty well occupied with the South End Boy's Club coaching the football, baseball and basket ball teams. This has kept him from attending the regular meetings as much as he would like to.

Here's wishing you luck on that 313th DX station Jim and we hope you get the chance to get down to meetings more often.

DAFFODIL PARADE

Remember April 8th is the big Daffodil Parade and Smitty needs operators for fixed, portable and mobile stations. You people who have been looking for something to do, here is your chance. Call Smitty, K7ATD, JU 8-4669 and get your name in.

FROM THE PRESIDENT'S CONSOLE

From here it all looks very good. The good turnouts at the meetings are very gratifying and much credit goes to Jerry for programs and door prizes and to the Loggers Bark for excellent reporting of all of our activities. Even if you aren't able to attend you do know what's going on and keep that feeling of belonging and are anxious to make the next one. It really works that way.

Congratulations too, to the artists, Rusty Hood and the Chavis girls. Keep it up, we like it.

Be sure to contact Steve, K7SSC, our field day coordinator, and reserve the spot you want. Steve is devoting the month of June to field day -- free of any other obligations -- we've NEVER had it so good! Nevertheless he can't do it all alone so pitch in and help wherever you can.

The suggestion box, located next to the bulletin board, has already produced 3 ideas put into action and we open it eagerly each board meeting. Please sign your call or name, we won't reveal it, but it puts a lot more weight on your idea.

As assistant to the Director of ARRL, I'm supposed to turn in a vote for the best by-lined article appearing in the current QST. You will find the blank to fill out and turn in on the bottom of one of the back pages of this paper. Last month no slips came back so we voted at the Club meeting on the "Solid-State Receiver Design" with three authors, one being W7OI. The ARRL is trying to give recognition to the authors of the most popular article with the Front Cover

(CON'T.)

Plaque Award, and we should help with the Radio Club of Tacoma's vote, so mail or bring your slip to the clubhouse for the first meeting of the month...73, Roy W7AZI

AUXILIARY ELECTION RESULTS

Our election was a real success this year. We had enough women there to select a complete slate of fine officers for the next 12 months.

The new President is Marge Hazelmyer.
Vice President - Pat Maner.
Secretary-Treasurer - Betty Ohls.
Board members - Verna Ryan and Margie Chavis.

These gals are real workers, so we should have a profitable 1967-68 year.

We only made $26.00 on our bake sale. Maybe we'll have better luck if we have it else where next time. Due to the programs for the men's club, it leaves too short a time to have a sale. We had a splended supply of baked goods. In fact there were 22 things to sell. That's a lot of goodies. Thanks again gals for your contributions.

MAY PROGRAMS

May 10th.
ARRL slides and tape show.

May 24th.
JOINT meeting with TARS
Speaker on antenna theory and construction.

BOWLING

There are only two more weeks of bowling, so next month's report will have the teams standing for this year.

Since the last report, team number 1 has won 9 and lost 11. Team number 2 has won 7 and lost 13.

Bob, W7RXS, had 3 games over 200.(202-227-204), but Ralph, W7COP, with a 567 series, beat Bob for high series.

On team number 2, Dennis, W7UBA, had a 191 game two weeks in a row to take the honors for high game. Also, he captured the high series with a 496.

It looks like team number 1 will be in the top 5 but team 2 will have tough hoeing to make the top 10.

We will have the final report next month.

TRANSISTOR NOTES

DOES THIS SOUND FAMILIAR?

You would like to figure out how some transistor circuit works or design a circuit?

You go to your favorite handbook only to find high power mathematical formulas and some foreign sounding language?

If this is your problem; may I suggest you pick up a copy of Sams Photofacts Publication number TTT-1; Industrial Transistor & Semiconductor Handbook. I was amazed at the simplicity of R. Tomer's presentation. In many cases he presented techniques to bypass the high power math. He shows how to use several short cuts in transistor circuit design. In all cases where any math is used, step by step, easy to follow examples are given. This book is by far the best transistor book I have yet seen-even at it's $4.95 price.

DUES

"I'VE BEEN LOOKING FOR YOU FRIEND....AND I WANT $6.00 PLEASE"! That's President Roy's way of telling you, your dues have not yet been paid. Roy is working hard to pull in the ranks and keep the membership going strong. He has whittled the the list of those who have forgotten to pay their dues, down to nil. Roy says he likes to see the new ones coming in the front door but doesn't like to see any of the regular members going out the back, just because they forgot to send in a check.

SO YOU WANT TO WORK DX

A few notes on QSLing.

Suppose you have just finished a nice thirty minute QSO with Harroun, 5U4GTB in West Burlap. His card will be your number 100 and you qualify for DXCC. First try sending your card airmail with two International Reply Coupons (obtainable at the Post Office) together with an addressed envelope. If you do not receive a reply within two months write him a long letter about yourself your rig, hobbies, family and anything else you can think of. Perhaps you vill touch a responsive chord. If this does not bring results, write to Sax, W2SAW, who is a stamp dealer and obtain a West Burlap airmail stamp. Next, homebrew a 5U4GTB QSL card with all the necessary information. Mark the card "MADE BY-your call" and leave a space for Harroun's signature. Glue the stamp to to the card with epoxy and mail it. Wait a couple months, remembering that the first rule of DX is patience and if still no reply, you probably have had it. This is an extreme case, as most rare DX stations have stateside QSL managers and a SASE brings quick results. For the more common European and such DX, good results are obtained by the bureaus, whose addresses are listed in QST, BE SURE you have an envelope on file with the W7 bureau, whose address is also listed in QST. Our servicemen abroad, have APO numbers and are generally excellent QSLers.

If you have any QSL problems, I will be glad to help. Just give me a call. I have not been on much lately, as I am building a new antenna, but I understand the bands have not been exceptionally good.

ARRL BULLETINS

NR 106
With the coming of the travel season, amateurs will be taking advantage of reciprocal operating agreements. Amateurs traveling across the Canadian/U.S. border should apply for an operating permit 30 to 40 days in advance. W/K licensees apply to the Department of Transport in Ottawa or its six regional offices. Canadians apply to the FCC, Washington, D.C. 20554 Travelers visiting elsewhere should allow at least two months for processing of requests. Write to ARRL Headquarters for details on a particular country BT
NR 107
Argentina and the United States have agreed to permit the handling of messages or other communications on behalf of third parties. Messages must not be important-enough to be sent by commercial channels and neither operator may have any pecuniary interest in the traffic. In addition both countries have signed a reciprocal operating agreement. The agreements were concluded March 31 and became effective April 30. The full list of reciprocal and third party agreements will appear in May QST BT
NR 108
Many parts of the United States will shift to Daylight Savings Time effective April 30, on which date all W1AW operation will change to Eastern Daylight Savings Time Amateurs in areas remaining on Standard Time are reminded that W1AW Official and Special Bulletins, twice daily code practice transmissions, propagation forecasts and any other announced ARRL Headquarters Station operating activities will have to be tuned in one hour earlier than usual. Further details and the complete W1AW summer schedule will appear in May QST AR

NR 109
During the weekend of April 15-16, successful QSOs were made between W2IMU/2 and HB9RG and G3LTF on 432 Mc. moonbounce. A similar series of tests are scheduled for April 22 between 1900 and 2400 GMT and April 23 between 2000 and 2400 GMT. W2FZY/2 will be transmitting on 432 Mc. plus or minus one kc using a 60 foot dish antenna, for example 1900 to 1905, 1910 to 1915, and listening during the even minute periods. Stations wishing to schedule W2FZY/2 should call Dick Turrin 201-949-3504 or Roger Abson 201-949-4152. During the tests the operators may be contacted at 201-949-2611 or via WB2NDH on 21,308 Mc. s.s.b. A full report will appear in June QST AR

UPPER LIMITS

Six has had a couple of openings since last month. The first and perhaps the best was on 4-3-67. The DX started to show shortly after 7 o'clock pm and faded out around 9:30. 4s, 5s, 6s and 7s were heard and worked. The other openings were into Arizona and California only. The openings are getting higher in the band and should work up to two meters one of these days. The effort that ARRL has put into getting more hams to use the UHF bands is paying off. The bands are coming alive fast. Six is like a buzz-saw and 2 is fast catching up. 450mcs is starting to show and will be included in the report from now on. See you next month.

CONTEST NOTE

You members that didn't work the Loggers contest sure missed a good deal!! Everyone that turned in a log received a prize. In a contest like that, you can't lose. This will be some incentive for next year.

FRONT COVER PLAQUE AWARD

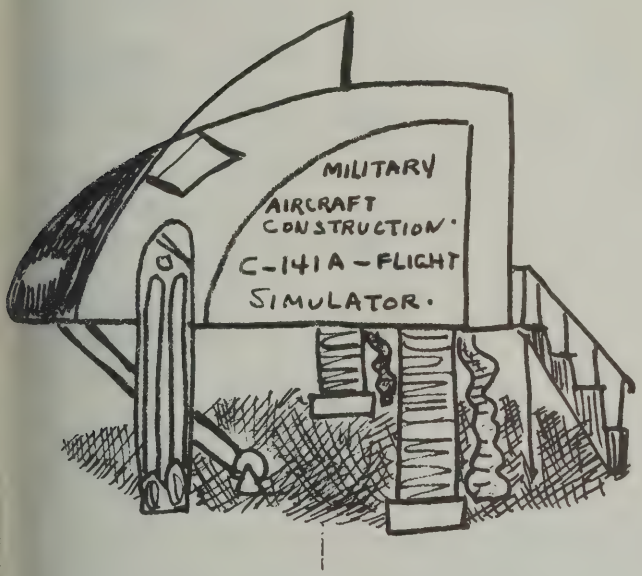

Every month we will put in a form to fill out to be sent to the Club by the 15th of each month. Please vote for your favorite article that has a by-line published in QST for that month. The bottom half will be for your choice of best article in the 'LOGGERS BARK'.

LOGGERS BARK Article .....

MCCHORD TOUR

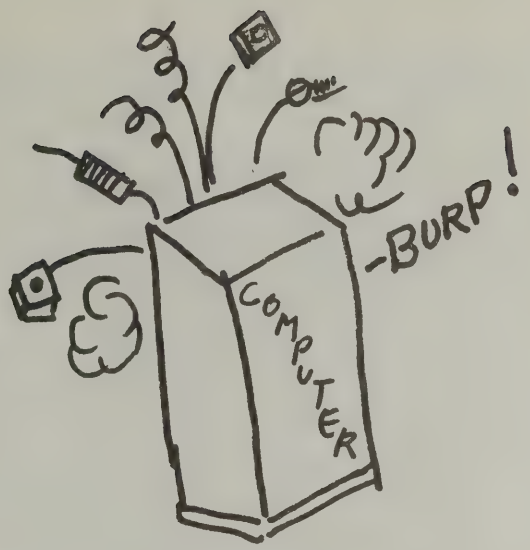

Following a hurried meeting March 22, the members and 18 visitors drove out to McChord Field where Jerry, W7BUN, had arranged for the group to tour and inspect the flight simulator (digitalis computer operated) of the famous Starlifter. Don Peacock met us and we were introduced to the airmen who operated a panel, where the flight is recorded and pilot-operator communications are continuous. The simulator is an impressive piece of equipment, resembling a big, black and white beetle, whose movements are lumbering and awkward.

A cabinet, filled with miles and miles of red and white wire that was located out beside the simulator, drew the attention of all. Said a member,(a doctor) "Looks like my wife's knitting bag". Said another, "Man, that looks like the back of Merl's desk". Another, "Wow! that's pretty hairy".

Another cabinet housed a 3,000 lb hydraulic pressurized unit. It wheezed and wrenched with the action of the flight patterns used aboard the simulator and it had quite a work-out when our editor Margie Chavis took over the controls. Inside the cabin it appeared that Margie was doing A-OK, but out on the panel it registered a high-speed stall, a crash landing with the wheels up, and an erratic course that took the plane THROUGH Mt. Rainier, at 4,000 ft. while the mountain is over 14,000 feet!

One group aboard, experienced quite a a jolt and learned later that they had received the effect of a COMPUTER BURP!

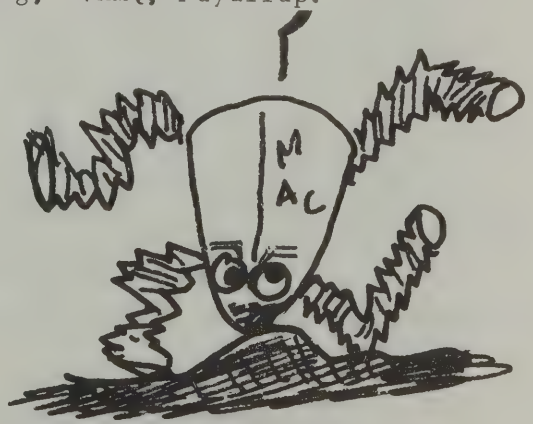

We were deeply impressed by all we saw, and felt the pride each airman had in the project. Their enthusiasm was contagious and we left wishing we were all airmen and able to receive the training. Proud too that our Vice President, Jerry, W7BUN had been one of those responsible for the successful operation of the Digitalis Computer systems.

This tour is another example of the wonderful programs being offered by the the Club to it's members.

ELECTION RESULTS

by W7BUN

Bill Watson, K7JHA, Ellensburg has been elected Washington Section SCM (Section Communications Manager) for a two year term commencing May 8th. Bill will take over the office, currently held by Bud Young, W7HMQ, Puyallup.

We hope the new members will attend the meetings regularly and participate in the Club's many activities.

" YOU CAN HELP "

Most every one knows that I am trying to get together a list of all those who have ever held a membership in the Radio Club of Tacoma through-out the many years we have been organized. This is no easy task, for some of the records are not complete and we must call upon our memories and the occass-

(cont)

ional chance some one drops a little information here and there. All will help in piecing this bit of history together.

So if you run into any one who may have information about a former member, try to get as much information as possible including (1) Name, full and the handle they may have used (2) age (3) any address available (4) year they may have joined the Club (5) any office they may have held (6) all the calls they may have held and the year or years (7) this goes for not only the living but the Silent Keys (8) any other bits of information, no matter how sketchy. Put it down on paper and send it or bring it to me personally.

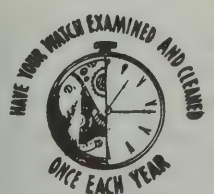

Thanks, Doc W7OS

SKAGIT HAMFEST

A beautiful day and a program so well organized, that something of interest was going at all times. Twelve attended from Tacoma. Roy and Ethel Devish; Jerry, Mitchiko and Kenny Seligman; Ed Coles & Elmer Bergstrom; Marion & Louise Wylie; Dorothy Grassman and two of Jerry's students, Omar Haugen and Barry Simpson. 300 hams mingled and talked shop. XYLs getting acquainted.

The tour of Jim Creek U.S. Navy Communications installation was the outstanding event of the day.

The banquet and evening program was outstanding too. There were prizes, 54 for the ladies and 75 for the men. All items left on the swap and shop tables were auctioned off. A magician act and a group of barbershop singers "The Anachords" were were preceeded by introductions to N.W. division Director, Bob Thurston, W7PGY, and our new SCM, Bill Watson. A 75 and 2 meter transmitter hunt was held also in the late afternoon. It was a well organized hamfest and we are looking forward to returning next year.

TOPS CONVENTION

The TOPS Convention is under our belts now. The turn out of mobile and fixed stations was marvelous. 16 members took part and every thing worked like a Swiss watch. There were mobiles on 29.6 - 51.0 146.76. The C.D. bus was stationed at the Field House and the W7DK Club House was used as a control station and motor-pool.

Thanks a million for all the help. A special thanks to the ladies for the coffee and lunches.

NEW F-D PICTURE

The Club has decided to up-date our field day film that was taken back in 1956. This film will start with our planning and go right on with antenna raising; on the air; bringing down the antennas and the final clean-up.

This will be taken by John, W7KKN, who is a proffessional in this field and was the photographer on the first film job.

This new film will be sent to ARRL to replace the present film, which is one of the League's most popular film. It is out on loan all the time.

COMING HAMFESTS
by W7BUN

The Bremerton Hamfest will be held May 20th at the Westside Improvement Club, National and "E" Streets, Bremerton. Registration at 1:00 PM and Dinner at 6:00 PM. See W7BUN for tickets.

The Oregon Amateur Radio Association Convention will be June 2nd, 3rd and 4th in Portland. ARRL President and Bill Orr, W6SAI, are among the guest speakers. See notice on Club bulletin board for more information.

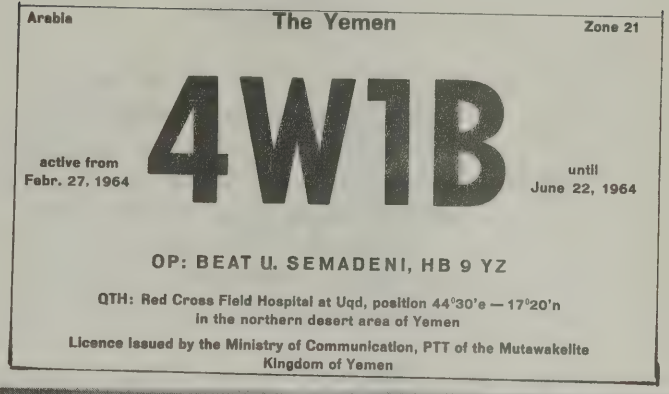

The Washington State Hamfest will be held the second weekend of July, in Yakima. This is the BIG ONE! Keep that date open--more details next month.

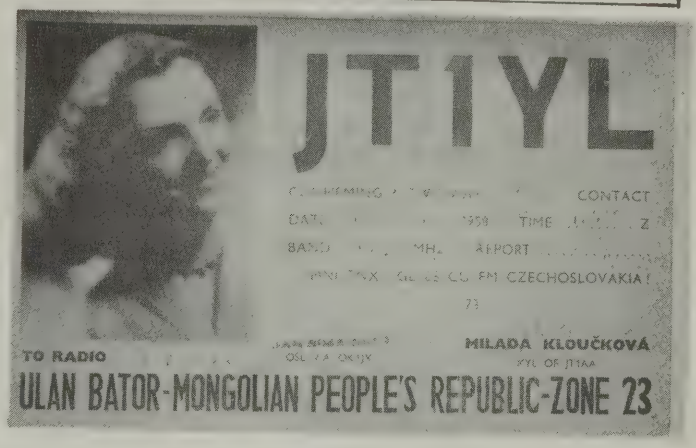

MAY PROGRAMS

May 10th - Two slide shows from ARRL (with narration on tape) including pictures of the new Headquarters Building.

May 24th - A joint meeting with the Tacoma Amateur Radio Society (TARS). Guest speaker will br Ken Glanzer, K7GCO, who is an antenna expert and has written a current antenna manual, recently published by CQ magazine.

DROOLING CORNER

NEWS FROM ARRL HQTRS.

The ARRL staff, along with Public Relations council Don Waters, has completed a study of ways and means of affording Citizen Radio Service licensees a greater opportunity to obtain licenses in the amateur radio service. A complete report will be made at the Directors Meeting in May.

The Federal Communications Commission has issued a Notice of Proposed Rule Making to outlaw (after an amortization period) the 27-Mc. 100-mw. "walkie-talkie" units needing no license, and permit the the same type of operation in several channels between 49 and 50 Mc.: 49.91, .93, .95, .97 and .99 Mc. Type approval would be required, of course crystal control, and 0.01% frequency tolerance.

FCC has acted to delete Section 97.35(b) of the amateur rules as no longer necessary. It previously gave the Commission specific authority to call a Novice, Technician or Conditional Class license up for re-examination in the event of violation of amateur regulations. We note that paragraph (a) of the same section gives ample FCC authority to check such licensees whenever it desires.

SLIVERS AND SPLINTERS

Roger, K7AYC, is now working full time in Seattle.

Pete, W7LEC, says "thanks to the Club for their thoughtfulness and the flowers they sent him during his recent illness.

The editor wants to say thanks to Andy, WØNL for the Vari-typer fonts. I intend to write Andy very soon and give a personal thank you.

Everyone attending the April 12th meeting had a chance to have a piece of the beautiful decorated anniversary cake that Patty, K7NQR made for Scotty, K7CYZ & XYL, Vivian on their 26th Wedding Anniversary.

W7WLX and K7CYZ sure gave W7AZI and K7VCX a lesson in Cribbage.

Smitty, K7ATD, is gonng to submit a bill to the Club for some new shocks for his car.

Dick, W7RGD, has a new HT-18 Hygain tower and antenna to put up. Beryl, K7NPG, over to Dick's to figure where to dig the necessary three foot hole to mount the antenna on.

Cliff, W7MFG, having a little trouble copying the mobiles and stations in his mobile on ten meters. Receiver is just a little too sharp.

Jerry, W7BUN, running around making contacts at the latest possible minute, to get some articles to the Loggers Bark befor closing time.

George, WA7CSF, having quite a time trying to get more than one gal from the TOPS bunch into his little Volks Wagen. Tight squeeze, huh George?

Art, W7JGN, is back from the fishing trip down South. How about it Art..how was the fishing?

Stan, W7LIR, breaking out the griddle and the chef's apron, getting ready for the big Mother's Day Breakfast.

Del, W7UMJ, over to Dick's place to pick up a crystal, which was on the questionable list. After checking out the x-tal, by substitution, a gab session started over a cup of coffee. (The crystal checked out o-k)

Mel, K7ATF, got the call on the City's last 2-11 fire and got the job of taking the C-D bus to the scene.

The Club was honored on the last meeting night in April, to have the ARRL N.W. Director, Bob Thurston, W7PGY, as a visitor. He talked to the membership regarding his pending trip back to headquarters. To top the evening off, Bob submitted an application for membership into the Club, which was voted on, and we now are proud to say Bob is one of the regular members of the Club. Doc, W7OS, made the presentation of the new membership certificate and card to one of our newest members. Interesting to note: there were a total of 6 new members initiated into the Club that night.....73

THE LOGGERS BARK

VOL IV NR VI W7DK JUNE 1967

FROM THE PRESIDENT'S CONSOLE

Thanks fellows for the good turnout May 18th when we called a special meeting to meet Ted Hunter, WØNTI. He renewed our faith in brotherly love, the value of our hobby as a servant to others and made us aware of the tremendous good accomplished by the eye bank's across our nation. We are happy to welcome Ted as a Special member of W7DK.

Dave, W7QFR, and Dwayne, K7KSZ, had a successful meeting scheduling our participation in the Memorial Day boat race up the Puyallup river - so amateur radio will serve again and not be outshined by CB - and I'm glad they have the manpower to do a good job.

June brings two more projects to which we need to give our energy. Let's help the Auxiliary all we can with their rummage sale (with the sneaky hope we'll be helped in the longrun). Bring to the clubhouse those boxes of things your XYL has stacked up and ready. The sale is June 12, 13 and 14.

Field day is the other project. June 24 and 25 is the date. Steve, K7SSC, is the man to see with your ideas and offers of help.

July and August will be semi-vacation. We'll hope for picnics and fun and have just one meeting a month. Keep July 12th and August 9th in mind for Club meetings.

My thanks to Stan, W7LIR, and Patty, K7NQR, for making all the mothers feel extra "special" on Mothers Day. Smitty, Jerry and Scotty served them well too, and supported the busy kitchen crew all morning. They were appreciated on both sides.

..... CU June 14th, 73 Roy

EDITORIAL

June is the month of many things! Schools out, vacations start and especially we have Field Day!

(cont. next column)

(cont.)

This is the one day a year that most hams in W7DK look forward to.

It's time to start getting your gear assembled and in top working order; shake out your musty ole sleeping bags; and start preparing your ears for the QRM you'll be getting on field day.

This is the one big contest that really shows how prepared the hams are, if an emergency should arise. It's no easy task to get together all the gear needed and enough emergency type power to operate the gear. This takes at least 2 months, in hard work and planning, to arrange a co-ordinated operation. (Considering this, let's hope we never have an emergency to meet.)

The best possible gear goes up to the field day sight. The gear you use and the antennas you have up make the differences between the winning Clubs. With all the hard labor that goes into this, once a year event, you need good food to keep the inner man satisfied. Without contented operators, even the best of gear won't win a contest. That is why we spend as much time preparing the food for field day, as does the chairman arranging for gear and operators.

The coordinator, Steve K7SSC, has a big job to do in getting his teams arranged. He needs the full co-operation from every member of DK, whether you plan to attend field day as an operator, cook, gas carrier or just plain message runner. Your

job there is an important one. If each person carrys out his own job well, Steves job will be so much lighter.

Our Club has always stayed pretty close to the top scoring clubs in the nation. We needn't knock ourselves out anymore trying to be #1. We've had the pleasure already and now we can relax with a well organized team and still come out with scores like the big boys.

The station heads are the main men again this year!! You old timers, that haven't arranged for your stations, should contact Steve very soon. Plenty of good operators will be needed on all the low bands, so pick your station and sign-up now. If you have gear that's needed, sign it up also!

Don't forget to be at the next two meetings! They are very important. Be sure and donate your lose change to the Field Day food fund. All contributions are accepted.

FIELD DAY NOTES

If we had room in our paper this month we would try to print part of the book of etiquette. This is something that everyone that is going to field day should study-up on.

We will be enjoying the hospitality of Joe, W7IKG, and his XYL Helen. When you're a guest in someones home you don't throw things on their floor or cut down their shrubs or just plain wreck the joint. Well, remember, this is Joe's home, not house but home, and it should be treated as such.

Absolutely DON'T throw anything on the ground!! Even cigarettes should be ground out thouroughly.

DON'T climb over fences, use the gates and close them behind you.

DON'T cut any trees without Joe's permission! Don't take any ones word for this either. If Joe hasn't told you "OK" personally, it isn't "OK".

I will personally be out on the grounds most of the time watching for any infraction of these ground rules or any rules Joe may want enforced.

Remember also that no cars will be allowed to drive up and down the runway except to move to a position to operate and park there till the time comes to leave.

I will take down the names of the offending parties and they will be published in the July Loggers Bark.

Let's hope we don't see YOUR NAME on the list!

... Editor

MOTHER'S DAY BREAKFAST

Our annual Mother's Day Breakfast was a huge success again this year. Some 74 mothers, sons, fathers and daughters were served. I'm sure all the mothers wish to thank our Chef, Stan, W7LIR and his hard working staff. Such pancakes!! They were really the most!!

All the mothers were presented with a very pretty corsage, made of white Spider Mums with red ribbon. A big, "thank you", also goes to Patty, K7NQR, who made these thoughtfull gifts.

UPPER LIMITS

Anyone not making contacts on six meters this last month, just doesn't have an antenna. The band has been open two and three days a week.

Sunday, May 22 was one of the first Central California openings this year. Lower California has showed up several times but this is the first "Bay Area" opening. Even Portland Oregon was doing their share of QRM-ing.

Louisiana, Oklahoma, Texas and New Mexico have had some very good signals up this way (short but solid) and things look good for the rest of the summer. Don't forget to point your antenna east once in awhile, Montana and VE4's and VE5's were showing signs of landing in solid.

Don't turn the volume down when the band gets noisy, just grit your teeth and bear it, they are in there and you won't hear them with the volume turned down. If the XYL screams at you, just throw a shoe at her and turn the volume control clock-wise.

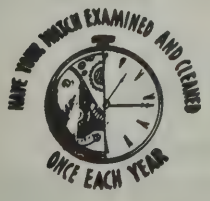

Two meters has not opened as yet, but keep your ears open. The Aurrora has come up there two or three times, though nothing has "busted" through yet. The VE7's have been on 2 F.M. for some time and are now showing up on the A.M. section of the band. When they get better antennas, we will be glad to talk to them.

See you next month.

SLIVERS AND SPLINTERS

Scotty, K7CYZ, won first place in the DoubleA Stock Car Race in Olympia in May. Won in the large sedan class.

Don't forget the dates July 12, 19, 26 and August 2 for the Salmon Bakes at Point Defiance.

Understand that a profit of $7.39 was made on the Mother's Day breakfast, which was turned over to the Club to apply towards the food for Field Day.

Some of the old Pinochle gang got together May 27th and a good time was had by all. The Chavis family took the boobie-prizes for the night and Max Bice and Phylis Nee took the top honors.

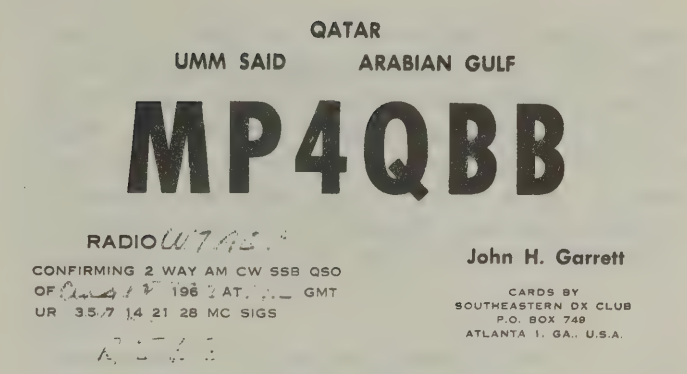

Alex, W7AZR, busy showing Dick, W7RGD, some of the tricks to use on Dick's gold hunting expedition on his vacation coming up.

Dwayne, K7KSZ, busy with the plans for the big Puyallup River race which will be old news, when this goes to press. This has been a mighty big project and Dwayne has had a lot of help but being the coordinator still has a lot of extra work involved. Good luck Dwayne and we hope it all works out like clock work. It has been well planned and if everyone is on the ball it should be a good job.

Wonder if things are back to normal for Cliff, W7MFG and Dennis, K7UBA after the big sale at C & G Electronics last month? They were really jumping around when this writer was in the store. Seen quite a few other Club members in there also on the other side of the counter. Spending money? Or was it just another bull-session?

Stan, W7LIR, did a fine job on the Mother's Day Breakfast. Now I wonder if he will do the same good job on Field Day with his clam chowder?

DROOLING CORNER

MARKING DISHES FIELD DAY

by K7CZM

Every year on Field Day, someone loses dishes, and the kitchen detail has some left over. This is due to improper marking.

We have tried nail polish for markers, and it surely stays on, but is difficult to get off at all on plastic dishes. I have tried writing my call on a small piece of paper and then fastening it with scotch tape. Sometimes these come off in hot water.

The best thing I have found, is one-half inch of white adhesive tape (like you get in the drug store.) Write your name or call, with a ball-point pen and stick it to the dry dishes. I left some of these markers on dishes since last field day and they have been in hot water and detergent many times since; the markers are still there, and legible, but they come off easily when necessary. One other tip, if the tape sticks out over the edges of silverware, trim it up a little with some shears.

ARRL BULLETINS

NR 110

FCC has issued a notice of proposed rulemaking, Docket 17377, to change amateur identification rules. The amendments require transmission of call signs of both stations only at the end of a contact. At other required identification points the call of the transmitting station alone would be enough. Thus, the proposed rule would appear to legalize tail-ending. Also, stations operating portable or mobile would need to transmit only the call area numeral instead of the exact location. The comment deadline is June 30 and full details will appear in the June issue of QST BT

NR 111

The ARRL board of directors met at Hartford Conn. May 5-6 with two days of informal sessions preceding. Membership dues were raised to six dollars fifty cents ($6.50) effective August 1 to cover costs of League operation and permit continuance and expansion of membership services. A life membership was established at twenty times the new annual rate, or at present one hundred thirty dollars ($130.00), payable if desired in 8 quarterly installments. All applications received by August one will result in charter life memberships. By-laws were amended to provide for minimum age of 21 for Director candidates. Rejected were proposals for four year Director term, to provide classes of affiliated clubs, to put QST back on newstands, and to pay QST authors. The present executive committee was reelected. Studies were ordered by board committees or Headquarters staff on Novice voice privileges at top end of ten meter band, extra voice subbands in Puerto Rico, establishment of an outgoing QSL Bureau, possible reduced membership rates for new amateurs, technician priveleges on novice cw bands recognition of continuous ARRL membership, and the scope of QST treatment of recent equipment. The technical merit award was made to W6DNG and VK3ATN for outstanding moonbounce work, and the board provided funds for support of an amateur space communications center at or near HQ. Early implementation was urged of plans for reinstallation of the W1AW rhombic antenna for better west coast coverage. The board thanked numerous League volunteer officials and others who have contributed to the advancement of amateur radio, renewed travel authorizations for QSL managers, SCM, SECS and NTS managers. Requests will be made of FCC to establish regulations for repeater stations to obtain more examination points for amateurs, to provide adequate controls for non amateur operators in RACES activities, and to implement the proposed rule making on relaxed requirements for call sign identification but to additionally ease requirments in short contacts such as in contests, and to ease the requirement on RTTY identification. Highlights will appear in June QST and full minutes in July QST BT

NR 112

A study is under way to determine to what extent, if any, normal propagation conditions were disrupted by the artificial ionosphere cloud fired by rocket from Wallops Island Virginia the evening of March 30, Amateurs having knowledge of disruption of normal conditions that evening, on any frequency, are requested to forward complete details to ARRL Headquarters, 225 Main Street, Newington, Connecticut 06111 BT

NR 113

A reciprocal operating agreement is now effective between Trinidad and the United States. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. The United States has previously reached reciprocal agreements with Argentina, Australia, Belgium, Bolivia, Canada, Columbia, Costa Rica, the Dominican Republic, Ecuador France, Germany, India, Israel, Kuwait, Luxembourg the Netherlands, Nicaragua, Panama, Paraguay, Peru, Portugal, Sierra Leone and the United Kingdom. Many others are being negotiated and successes will be announced as they occur AR

P.S.C.A.R.C. TROPHY

On May 10th, a delegation from W7DK visited the N.W. Emergency Communication Club (53.290 Gang) in Olympia, to claim the P.S.A.R.C. traveling trophy. We did just that and what we received is out of this world! You have to see it to believe it. The "THING" will be on display during the meetings in June. Max, W7AEA, has promised an odd tube to add onto the monstrosity.

To get this trophy(?), another club has to send a delegation of at least three members, to demand it. The members who visited Olympia were; Scotty, K7CYZ and XYL Vivian, Patty, K7NQR; Glenn, W7CMZ and XYL Sissie. A very nice welcome was received by the delegation and we had a very enjoyable visit with the 6 meter F.M. gang.

W7DK extends an invitation to any club to pay us a visit and take this (shudder) trophy away from us.

NEW SPECIAL MEMBERSHIP

Twenty-seven members and visitors attended the Thursday night (May 18th) Board Meeting to hear Ted Hunter, WØNTI, talk about the Eye Bank.

Ted and friend Jack Radford, WA7AUO, were in Tacoma attending the Lions Club Convention and the Thursday night meeting was arranged so that all could meet them.

A Special membership was presented to Ted by President Roy, on behalf of the R.C.T.. Ted has an impressive background as was revealed when Jack introduced him.

We learned that Ted is an Electronic Engineer, a retired professor of Engineering at the U. of of Iowa, Retired professor of Physology, was affilliated with the Collins Radio Company and designed the Hunter Bandit equipment.

It was after an eye operation, that saved his sight, that he began to work to help others in this respect. The Eye Bank started in December 1962 and today, in 32 states, there are 57 banks with facilities to handle requests for eyes or corneas. Today they have 18,038 eyes or 1.7 per day needed for surgery.

After the meeting, a ssb station, set up by Merl, W7IKG, was used to handle the Eye Bank Net, with Al Wallace, Ted Hunter and Jack Radford at the mike.

Ted left supplys with the Club and told how the members, through a telephone campaign could supply cards to prospective donors and continue help of the Eye Bank. "Through Eye Bank Week" he said, "Organize your club and with the help of the Washington University you can learn how to help. Offer to sign Donor Cards and set up a telephone call system or a relay mobile." In his city of 40,000, with the help of amateur radio clubs, in 3 hours they averaged nearly 300 cards.

Ted appreciated the Special membership presented to him and said it gave him the same good feeling that he experienced, when working with the Eye Bank..IT'S THE SHINY PART OF OF NOT HAVING FORGOTTEN ABOUT EACH OTHER.

SO YOU WANT TO WORK DX!

Ten meters had not shown much in the way of long skip of late. Fifteen has been rather spotty, with a few openings to Europe and Africa in the mid-mornings. Twenty meters has been open quite often to Europe in the evenings as well as to Antarctics and the Antipodes. Mornings on 20 usually produce strong signals from the Pacific Rim. This morning (May 20) 1400-1530Z, DU1PET, VS6FS, HL9TM, 9M2GR and XW8AX were easily worked from here. Almost every morning about 1400-1500Z, Vlad, UA1CK/JTI, is on from Ulan Bator, Mongolia, zone 23. He transmits on ssb on about 14195 and listens on approximately 14205. He will be there for some time. As this is written, I am in the process of experimenting with and evaluating a 15-20 meter 4 element quad. Del, W7UMJ and I have been having a lot of fun comparing signals around the world. More on this later, Hi.

My spy reports that ten has been quite poor of late but on May 23 there was a good opening.

W7IKG reports he is readying a 4-1000 bomb for the DX wars. W7UMJ is looking for a good 4-1000.

73.....Phil

ARRL NEWS ITEMS

ARRL membership dues will be raised to $6.50 effective August 1st, due to increased cost of League operation. A life membership will be available for $130.00, payable, if desired, in eight quarterly installments.

The recently elected Washington SCM, Bill K7JHA, has appointed Van, K7CTP, of Seattle as the new Route Manager and Jerry, W7BUN, of Tacoma as the new Phone Activities Manager.

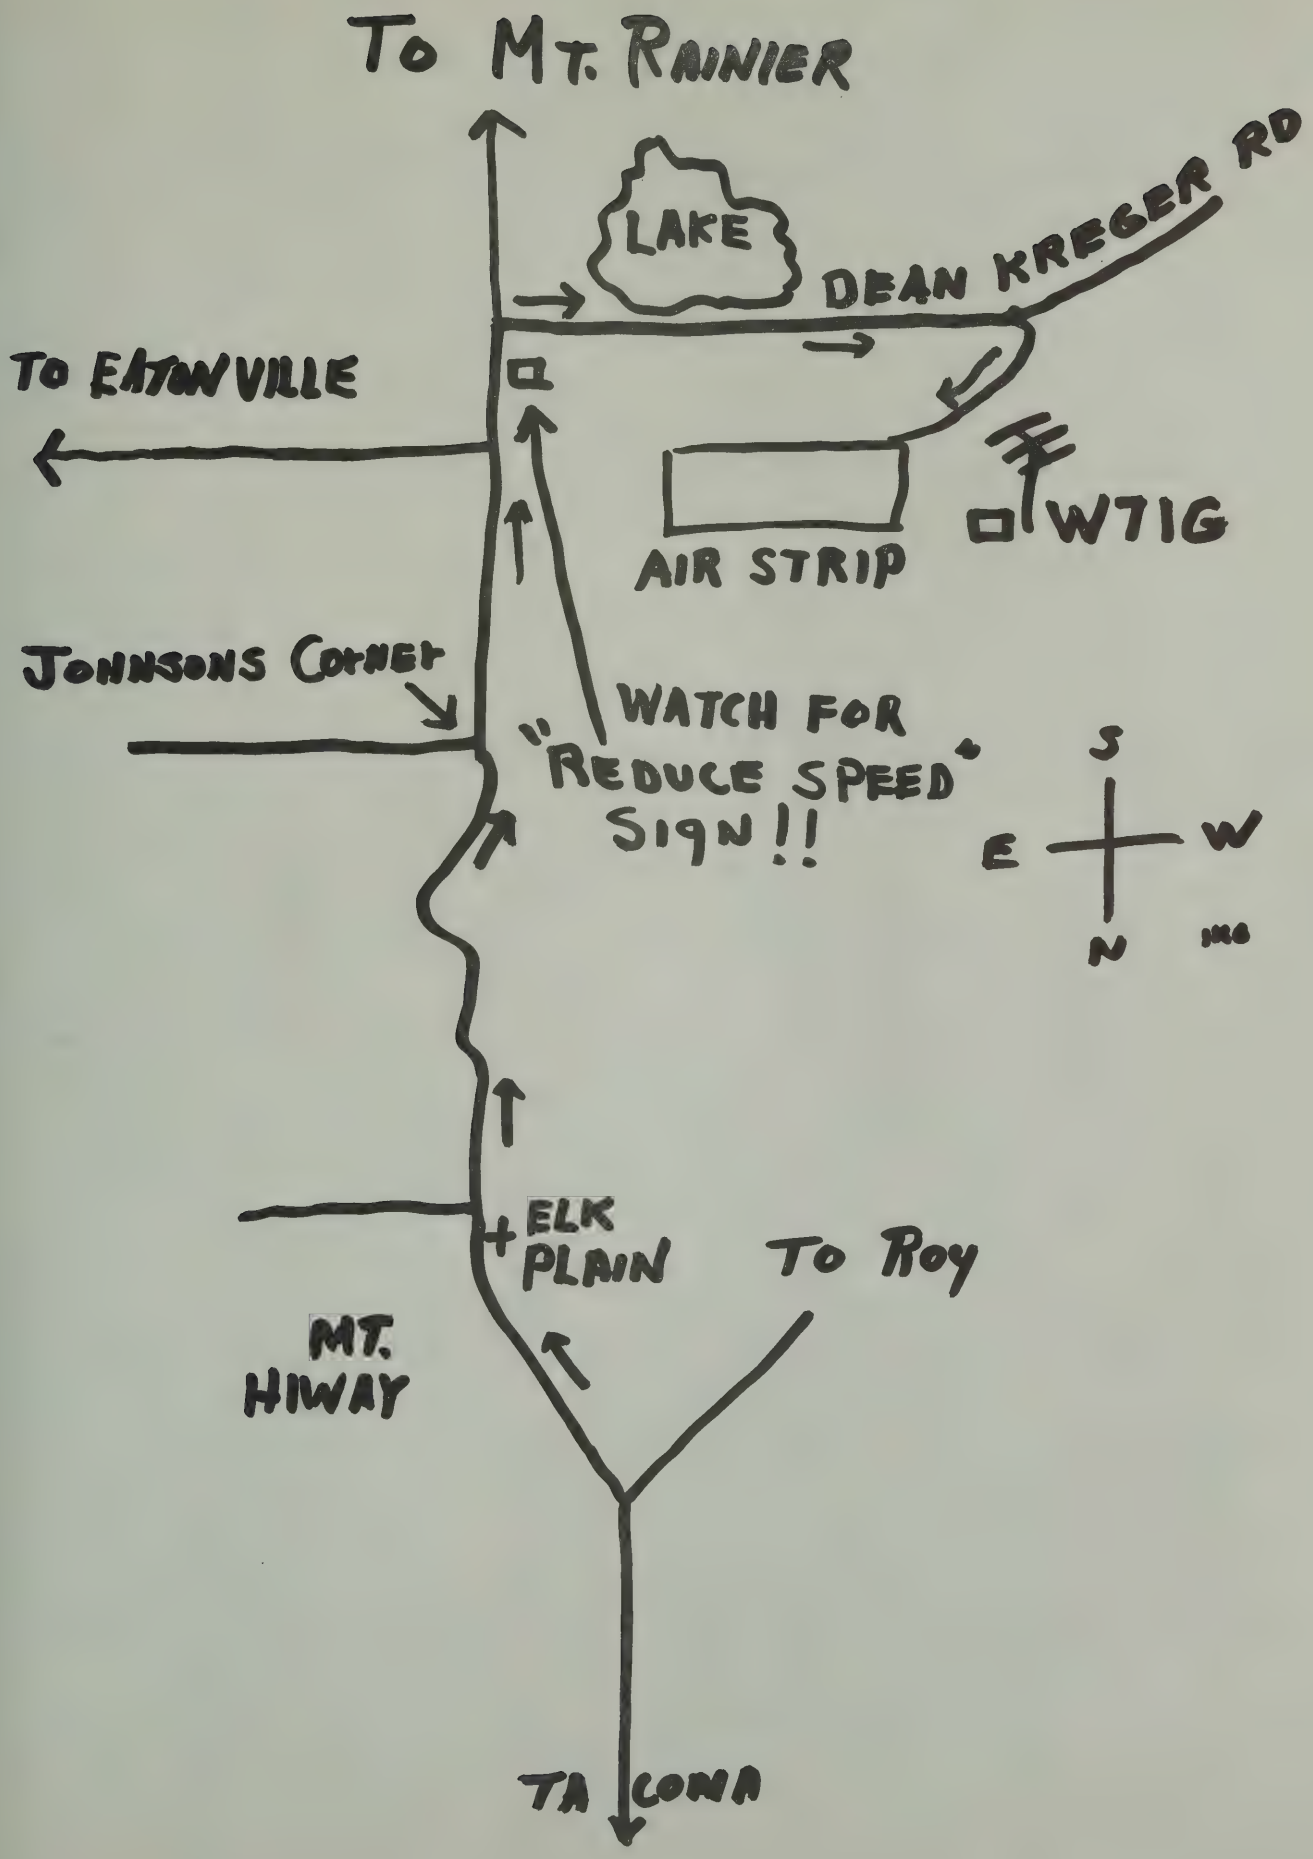

FRONT COVER PLAQUE AWARD

THE LOGGERS BARK

VOL IV NR VII W7DK JULY 1967

FROM THE PRESIDENTS DESK

We've enjoyed another good Field Day with our fine hosts, W7IG and Helen. I hope we left the the farm and airstrip in as good shape as possible after a thundering herd of our size has decended upon it. We all had a fine time and the weatherman did his part.

We have been asked to help with the Soap Box Derby race this year. One more opportunity for favorable mention of amateur radio. These are the things we need to do to keep our abilities before the public so they will support our requests when we need their help in keeping our ham bands. This event will be July 16th and will be assigned at the July 12th meeting after discussion at the June 29th meeting.

The reports from the Memorial Day Puyallup River race were good -- I think we really did the job they wanted better than they anticipated. Our next public service is the PA system we set up annually for the Salmon Bakes at Point Defiance. This year's feeds will be the last three Wednesdays of July and the first Wednesday of August.

Don't forget to make use of the suggestion box if you have any ideas you'd like the board to consider. This is your Club and we want every - one to express his opinions of changes to make it better.

MOTION PASSED

At the last meeting of June, the Club had a motion presented to it for action. The motion was as follows; Motion that if the President of the Radio Club was approached to help on any public projects, such as the present projects to give assistance to the soap box derby and the Tacoma Salmon Bakes - that he (the President) would have the authority to accept or decline, depending on the feasability of the project. The motion was seconded and passed without a dissenting vote.

PUYALLUP RIVER RACE

Our Club finally has received some favorable publicity through public assistance. One of the best chances came along in June, with the Puyallup River Boat Race.

Dwayne, K7KSZ and Dave, W7QFR, did a wonderful job of setting up and getting every one on station on time. The river was covered from the Puget Sound up to Orting at every bend.

There were 2 meter portable rigs in the starter boat, in the U.S. Coast Guard boat, in the Air Force chopper, on every bridge crossing, and in the areas feasable, there were mobiles. Dwayne set up and operated the central station, which was half way up the hill, near Fife and handled the affair like a pro. The turn out of operators was splended and there were no rigs left un-used due to lack of operators.

This project proved that the Club can handle any public assistance affairs no matter how large or small. We have the equipment to do it and the operators to man the equipment. We can't thank each individual but do thank all who made it the success it was.

The Club expresses a sincere "Thank you", to Gary, WA4KES/7, for the Puyallup River Race photos he donated to the Club. He said they were taken at station fl23, near Orting, where the boats would never be able to reach. Then four boats sweeped past his station, 20 minutes after the race had started, with 40 minutes left to go "up the river!"

ARRL NEWS

by W7BUN

The ARRL Awards Committee has deleted DXCC credits for contacts with VQ9AA/C due to evidence received that indicate this station never actually did operate from the location claimed.

Remember that ARRL dues go up to $6.50 on August 1st. Be sure to renew for several years at the old rate. The Club Secretary has application forms for the new Life Membership at $130.00. If you apply for Life Membership before August 1st, you will be considered a Charter Member.

If you hold an OPS or ORS appointment, contact Jerry, W7BUN. ARRL records of such appointments are very incomplete and the SCM is attempting to get all certificates endorsed and records up to date.

NEW MEMBERS

We wish to welcome the following new members to the membership of the Radio Club. Please list them in your roster book on the pages provided for this purpose.

Gary Ebhardt WA4KES

ARRL BULLETINS

NR 114

All amateurs are reminded that Canada's first ARRL National Convention will be held in Montreal, Quebec, June 30 through July 2. There will be three days of exhibits, meetings, technical and and operating talks, tours, a banquet and other features uniquely Canadian. Accomodations may be scarce due to Expo 67 and you are urged to make arrangements immediately by writing Doug Shaw, VE2BSX, 7401 Mount Avenue, Montreal 16, Quebec, Canada. Information has previously appeared in in April and May QST and the June issue features full details on this first ARRL National Convention to be held outside the United States BT

NR 115

Attention VHFers: The Smithsonian Astrophysical Observatory at Cambridge, Massachusetts, says the Earth will intercept a recently discovered comet on June 6 at 1000 GMT, 6 a.m. EDST. The Observatory says the comet's radiant is from near the sun so visual observation is not likely. However, the Observatory expects a major high intensity, short duration, meteor shower perhaps equal to, or better than, the Leonide showers of 1965-1966. The shower might recur at the same time on June 7. VHFers should be alert for meteor scatter propagation and report any results to ARRL Headquarters 225 Main Street, Newington, Connecticut 06111 BT

NR 116

The United States has concluded reciprocal operating agreements with Norway, Honduras and Switzerland. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. These countries, with Trinidad, are in addition to the list appearing on page 86 of June QST BT

NR 117

FCC has added another nine questions to its study material for the Novice license. The questions with answers prepared by the ARRL headquarters staff will appear in future copies of the License Manual and in the July issue of QST. In addition preprints are available and will be sent by ARRL upon receipt of a self-addressed stamped envelope BT

NR 118

Two amateur stations will be operated at the World Scout Jamboree in Farragut State Park, Idaho, August 1 to 9, 1967. The call K7WSJ will be used for general contacts and K7BS for traffic. The weekend of August 5-6 will feature the tenth Jamboree on the air in which Scouts visit amateur radio stations and talk to other Scouts. Amateurs wishing to help may offer their services to the nearest office of the Boy Scouts of America. Full details appear on page 10 of July QST BT

NR 119

July 15, 1967 is the deadline this year for registering nets in the annual ARRL cross indexed net directory. If your net registration has not been renewed within the past year, you should register again following the directions shown on pages 66 and 67 of June 1966 QST. Please give your winter net meeting time in GMT with an asterisk(*) if the net meets an hour earlier six months a year during daylight savings time. Form CD-85, the Net Registration Card, is available upon request from the ARRL Communications Dept., 225 Main Street, Newington, Connecticut 06111 BT

UPPER LIMITS

Well fellows and gals, how do yo, like six meters now? How many new States do you have? Just about all of the States have showed except Idaho. About every type of skip including Aurora has been with us.

June 24th and 25th (field day) was a ball. A good 'hip'op should have won a W.A.S.. The Aurora opening occurred on June 9th and 10th. It was also noted on 144 MC. but this station didn't make any contacts.

Have a new project going on in the basement, a 12 element broadside beam. When it is operational, we will see about getting WAS on 2 meters. The signals were there, we just couldn't 'drag em in'.

The June V.H.F. Party had the boys hopping. Six was open and two was as active as it has been for a long time. Four stations had 220-450 and 1296 MCs set up. 220 and 450 got a few but 1296 just burned up the wattage. Keep working fellows the September V.H.F.Party may have better results and listen for the 12 element broadside.

See you next month.

WASHINGTON STATE HAMFEST

By W7BUN

Let's get a nice representation from our Club at the Washington State Hamfest in Yakima, July 8th and 9th. This is the really BIG amateur event of the year in our area. Those who made it last year can testify what a swell affair it was, and this year's promises to be bigger and better. See separate page in this month's Bark for further details on the programs, prizes, etc.,

On June 6th, Governor Evans signed a historic document, proclaiming the kast week of June as Washington State Amateur Week. Attending the signing were (left to right) Norm, W7LFA, (assistant ARRL Director) Bill, K7JHA, (Washington SCM) Van, K7CIP, (Route manager) Mr. Ed Link (Washington State Director of Civil Defense) Bob, W7PGY (ARRL Northwest Division Director and Jerry, W7BUN, (Phone Activities Manager).

Among other items discussed with the Governor, was the problem of the additional $30.00 cost of obtaining Amateur Radio Call-letter plates. He said that the Legislature didn't provide any funds to implement the various amendments to the highway regulations and therefore he doubted if any of the bills would go into effect before the next legislature meets. ARRL officials are continuing to work on this.

SO YOU WANT TO WORK DX!

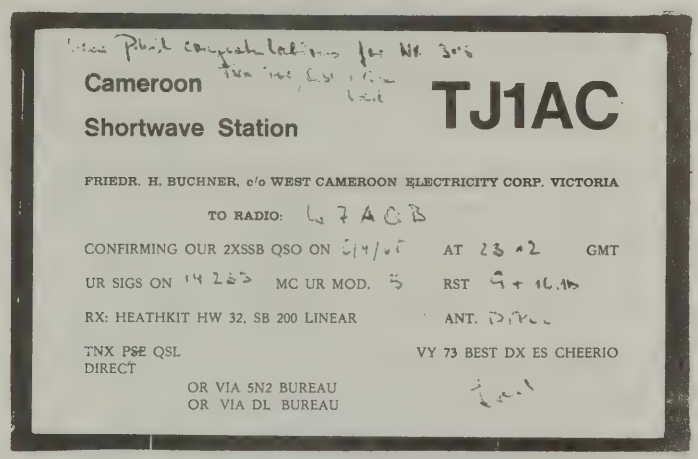

This past month has produced some good openings on occassion on the 15 and 20 meter bands but conditions have been erratic and unreliable.

This is to be expected at this time of the year with the long periods of daylight in the northern hemisphere.

Last month I promised a report on the 4 element quad at W7AQB's. Compared to the 3 element wide spaced monoband Yagi, it replaces, it is an improvement. The half power points are about 10 degrees sharper, indicating somewhat more forward gain and it is a little better signal to noise on receiving. However, it is not as broad banded as the Yagi. The swr vs. frequency curve is sharper but acceptable over the entire band, both on 15 and 20. The 20 meter driven element is gamma matched and the reflected power at resonance (14150) is 0 watts. The front-to-back ratio has been measured by local hams as anywhere between 30 to 38 db. The side rejection is exceptionally good. Don Miller and WA6SBO resume the DXpedition the first of July so there will be some monumental pile-ups, as the boys activate some more spots in the Indian Ocean.

QCWA CONVENTIONS

Four amateurs, from Tacoma, attended the QCWA convention in Spokane. President, Roy, Dewey, W7HF, Doc, W7OS and Ray Etherington.

The convention will be held in Tacoma, next year. The Radio Club of Tacoma has been requested to assist them at that time.

A fund raising project was held and $400.00 was raised to purchase equipment to be loaned to members, who might become ill and confined to hospital, nursing home or at home.

PAST PROGRAMS

Clare Sherrod, recently retired from the Tacoma Police Radio Shop and an instructor at the Tacoma Vocational School, entertained the Club members and visitors at the regular Club meeting, June 28.

Clare advised, this was the 72nd showing of his colored slides of his trip to Baja Calif. and Mexico.

His ability to narrate and keep the scenes moving, proved him to be an interesting and fine lecturer. We hope that Clare makes his planned return visit to the Club soon. Such photography and those beutiful Cactus flowers!

Thanks Clare and good luck on your planned return trip to the area.

SLIVERS AND SPLINTERS

Believe it or not - people can read cw on 51 MC. Sorry about the ac on the first BK. The vfo plug was in the crystal socket, upside down. (It is marked now)

Sorry to hear that Elmer, K7LVL, was under the weather. Perk-up Elmer, like to see you around,

Glad to hear Easty, W7CBE, is recovering. See you at the Club one of these days Easty. We received your thank you card.

Jim, K7GPJ, home after graduating from M.I.T., looking real healthy after all that studying.

Some one should tell Scotty, K7CYZ, what 'Ole Sols' rays do to a crystal mike. You may have a potential customer Dennis.

When is Roy, W7AZI, going over to the 'other club', to cut their lawn? Reciprocal agreement Roy!

It takes a brave man to bring a Volkswagen to haul members of the T.O.P.S. Club! "Hi George"

The Sagging Volkswagon

Notice to the Ladies of W7DK. A new column will soon be initiated, heading will be "Dear Dick of the Loggers Bark-"

Did someone lose a crystal at the field-day site? It is marked '50.750' Contact W7BUN

Jerry, W7BUN, has the stickers for QSL cards on sale for 2 for 1¢. Profits from sales will go to the Club.

George, WA7BHH, will be taking over the code classes at the Club house, at 7pm on meeting nights, starting with the August meeting.

The Club is in need of a lawn mower to keep the grounds presentable. If you have one around no longer needed, why not give it to the Club, where it can be put to a good use.

Jim, W7BSW, slowed down a little lately. Got across some high voltage and agravated his bad shoulder, that he injured earlier in a car accident. Made it through field day with some pain-killer pills.

The Club received a letter from Bob Bennett, WA7FWN, USAF, stationed in Bangkok, Thailand. He has been a frequent visitor to our meetings and says he will become a full member on his return to State side this Summer. How's that for DX-ing new members?

Has everyone seen the gold sample that Dick, W7RGD, brought back from his vacation trip? Be sure you have a magnifying glass with you, when he shows it to you in case he doesn't just happen to have a eye loupe to show you the sample.

CONGRATULATIONS

Graduation congratulations are in order for;
Glen Ewing, K7GBW, Naval Academy, Annapolis, Md.
Jim Small, K7GPJ, M.I.T.
Mark Avakian, WA7FLI and Tom Manley, WA7FGV, both graduating from Bellarmine
Barry Simpson from Mt. Tahoma
Darrell Erickson, W7GDP, passed his College course.

FRONT COVER PLAQUE AWARD

Every month we will put in a form to fill out to be sent to the Club by the 15th of each month. Please vote for your favorite article that has a by-line published in QST for that month. The bottom half will be for your choice of best article in the 'LOGGERS BARK'.

(tear off here)

QST: Best article ..... Page .....
LOGGERS BARK Article .....

TOPS DONATION

The Club received a generous donation of $125.00 from Mrs. Paula Brongil on behalf of the T.O.P.S. organization for the assistance the Club gave their organization recently at their convention held here in Tacoma.

The letter, which was addressed to "Dear Dick" of the Loggers Bark, stated that the donation was for "your kindness in furnishing courtesy cars and the excelent job that you apparantly did as we have had many nice reports."

A letter of acknowledgement has been sent to Mrs. Brongil, offering the Club's assistance at any future occasions,

TRAVELING TROPHY

During the month of June, Scotty K7CYZ and XYL Vivian, Glen W7CMZ and XYL Sis and Patty K7NQR attended the meeting of the 53.290 gang in Olympia and captured the Traveling Trophy. It has been on display at the Clubhouse during the last two meetings of June.

Scotty has added to the trophy a videcon tube, donated by George WA7EDM, and is rather an awesome looking object. At the same time George donated to the Club, an ammeter for the console.

Scotty said, "It is now up for grabs by any other PSCARC Club."

C/C BUILDING DISPLAY

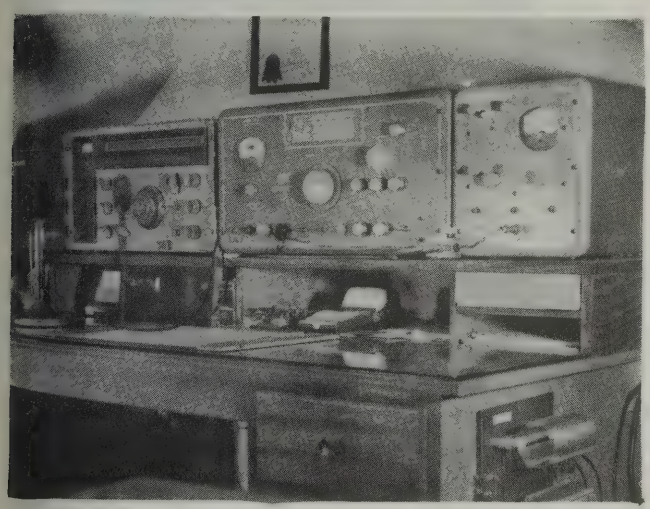

The display at the County/City Building was outstanding. A 1917 station, provided by the QCWA, was set up by Doc, W7OS and Roy, W7AZI side by side with a 1967 station, which was installed by Dennis, W7UBA and Cliff, W7MFG, in conjunction with C & G Electronics.

Photographs have been taken. One copy will be on display at the Club house and another copy has been mailed to A.R.R.L..

PANCAKE CONTEST

The Pancake Contest, held at Stan's, W7LIR, cottage on Spanaway Lake, was well attended. The feverish contest between Stan and Roy, W7AZI, again ended in a tie.

With "Secret Recipies" floating around, a challenge has come out of it all, to duplicate the event next year.

W7???

This month's baby picture is of a current member of the Radio Club. Has been an active member for over 10 years. Currently on the air both fixed and mobile.

Did you guess our member from May's picture? If you guessed Bill Rohrer, W7ZFY, who is currently living back in Greenbelt, Maryland, you win the slightly used, burned out 6146.

Sorry we did not give you the answer last month but it was overlooked by the publisher's in the last minute rush. Will have this month's answer for you in August.

PROGRAM FOR JULY

On July 12th, we will have Dyer P. Downing, W7COP, as our guest speaker. Dyer is in charge of communications for the State of Washington Civil Defense. Here is a chance to find out about the RACES program and how it ties in with Civil Defense. As usual, lots of nice door prizes --- be sure to attend.

Remember only one meeting during the month of July and August. ..... Jerry W7BUN

FIELD DAY NOTES

Here we go again with another early hour to start off our annual week-end of hard work and pleasure.

The early riser at the site weren't much ahead of the town folks who left their beds even earlier to get to the antenna parties. Things went so smooth, with the antennas this year. Everything was up and working, way before the 2:00pm deadline.

UP GOES THE 20 CW BEAM
DICK K7MQJ DES THE HONORS

At the starting time a few stations were frantically trying to get their rigs on the air. 15 c.w. kept blowing up. Bob, K7IND, helped Chip, K7VPF, get it going.

Making rounds about 3:30pm, we found 15 phone really logging them with Dennis, W7UBA, on the mike and Roy, K7USF, logging.

Right next door we had Ken, WA7EDD, on the mike in the 6 phone, with Al, K7LWJ, logging.

On down the air-strip we find Scotty, K7CYZ, mumbling about the antenna on 2 am and fm. No contacts were being made at the time.

20 phone was going very good with Ralph, W7COP, on the mike with Dick, W7RGD, handling the log and dupe sheet.

We fought mosquitoes all the way down to 75 phone, where they were parked in a dried up ole swamp. Jerry, W7BUN, had the mike while John (no call) did the logging.

WHAT A POKER GAME! THEY BET EVERYTHING THAT WAS ON THE TABLE, CRACKERS, SALT SHAKERS, EMTY CANS-YOU NAME IT!

Poor 80 c.w. was having an awfull time. They had a rough time getting their x-mtr going. John WA7GDA, Dan WA7FWH, Mark WA7FLI and Tom WA7FJV were working feverishly trying to do something to get the station going.

40 c.w. had Rex, K7VPX, using the key and Burt, WA7ABO, doing the logging.

George, WA7CSF and Bob, K7IND, had 10 phone going like crazy. The band kept going in and out so it was pretty hard to keep a contact long enough to log it.

Back across the airstrip to the kook shack for a refuel job and then we went to check on 40 phone. Beryl, K7NPG, had the mike and LaVerne, K7NKZ, had the pencil. That's team work!

20 c.w. had a real team working. Dick, K7MQJ, with the key and Merl, W7IKG, on the log sheet.

Down the long path to 15 c.w. we found Chip on the key with Bob Jr., K7INE, logging.

That was a long walk to visit all the stations and you can bet we didn't make the trip as often this year as last year.

At the Saturday evening meal, 63 dinners were served. If you just sit in the kook shack and listen to the talk, you can really find out a lot of things about what is going on. Bob, K7ZVA, came up with a box of the most beautiful green onions from the Fife Valley.

Things ran pretty smooth during the evening. After the sun went down and things cooled off a bit, a few of the extra hands got together in the kook shack for cards. Vivian, Faye, Marge H., Joan and Ethel played crazy-8, while Joe W7IG and Art W7JGN tried their best to beat Margie, K7AMJ and Jeanne Baughn at Pinochle.(they did) About midnight the Crazy-8 game broke up to make sandwiches for the crew. Ed, K7CZM, made some hot clamchowder and the gals, with the help of the 2 Chavis girls and Rusty, Jackie, Scot, Greg, Mike and young Mike H., delivered it to all the stations around the 1,000 foot perimeter. That's no easy task, when it's pitch black out and trees, bears, coyotes, cougars and who knows what all, out there in the woods.

It's best to get up early in the a.m. to catch all the late (or is it early) operators, with their eyelids down. Breakfast is always the best meal of field day. Ethel, W7WLX, didn't fair so well this year at breakfast, she only had 2 servings instead of 5. There were just too many hungry people there to get their share of the pancakes, bacon and eggs and some good black coffee to wake them up.

75 PHONE HARD AT WORK -OLYMPIA?

You hear all kinds of wild tales at breakfast. One station filled 2 log books during the wee hours. Another had to shut down for health reasons. All in all I think most of them worked to capacity for the full 24 hours.

We had no generator shut down this year. The gas man dept the tanks full!!

Instead of going around to see how things were going, I spent my time in the kook shack with Diane Salatino, Jean Baughn, Joan Reanier, Vivian Huntley, Faye Monroe and Marge Hazelmyer folding and putting together our new 1967 Club roster book. I want to take time in this article, to thank all these gals.

We cleaned up our mess and started to prepare our final meal for field day. WOW! What a menu - baked ham, potatoe salad, baked beans, tossed salad and coffee. Somewhere around 70 people were served and I'm sure they left the table - full. A special thanks here for the good cook Roy, W7AZI and his right hand man(?) Ethel, W7WLX and Faye Monroe, who co-ordinated the clean-up help. Things went real smooth in that department.

The 2:00 pm quitting time was really welcomed this year. I do believe this was one of the warmest days I remember for field day. Each year seems a little harder and a little more tiring. It's not old age, there's more hours in a day.

The antennas came down without incident and things were all put away for next year.

I'm sure everyone wants to thank Joe, W7IG and XYL Helen, our host and hostess, for the week-end. They don't come much better than these people, who open their farm for the likes of us.

It was a good field day this year, regardless of where our score stands. Everyone did their utmost to make it a success and the fact that we tried makes us a winner. 73 K7AMJ

THE LOGGERS BARK

VOL IV NR VIII W7DK AUGUST 1967

FROM THE PRESIDENT'S DESK

It was very gratifying to me to see such a good turnout for our July meeting. I'm sure all, who the extra effort to attend a meeting on such a nice evening, felt rewarded when we were shown the uncut run of John, W7KKN's pictures of Field Day. What a difference color makes and John has some excellent shots of all the activity.

The good turnouts make it easier to get good speakers and those on that committee and any other committee, are not reluctant to work when they know their efforts will be appreciated.

By next meeting the Salmon Bakes will be over and another Radio Club civic participation concluded. Dick, W7RGD, and Smitty, K7ATD did most of the ball carrying on this one. Merl, W7IKG, handled the Soap Box Derby and we'll hope to hear more about how that went at the next meeting.

I hope the Club house committees can plan to take up again as the summer wanes and that the station committee will schedule the completion of the console and parts room for September. The Clubhouse committee may need help with it's work, so we'll be listening for the assistance call.

Only one meeting in August and that's the 9th, so I hope you will be there.

..... 73 ROY W7AZI

SUMMER PICNICS

AUGUST 13TH

Our first annual picnic with the Puyallup's Club, W7HZ, will be held at Spanaway Park this year. This will be the usual pot-luck type. This is a beautiful park since they remodeled it and everyone will have a good time. There will be swimming, eating, horseshoes, eating and eating. Let's have a good turn out for this picnic. We can't have HZ beat us on attendance.

AUGUST 20TH

Be sure and save the date, Sunday August 20th.

PICNICS (cont.)

That's the day we all pack a picnic and head for Dewey's, W7HF's place on Hoods Canal. This annual picnic is one of the things we all look forward too!!

Dewey is the best of hosts and always orders sun-shine (and gets it too!) for the occasion.

This is pot-luck so make your favorite dish (and plenty of it) bring your family and your swim suit.

Just remember, your host would like things kept in order for next year so watch your youngsters, don't tear up the place and also watch them cross the road so they will be back again next year.

You will find a map for directions on how to locate W7HF's place on beautiful Hoods Canal, elsewhere in this issue of the paper.

We want to see a good turn out so make your plans now!

AUGUST 26TH & 27TH

Our Club is invited to an overnight picnic at Stan W7LIR's, place at Westport. Bring your food and family!! As yet, there will be no charter boat, due to the activity at Westport this year. If a chance comes up to get a boat, everyone will be notified by phone.

FEEDBACK

All members of the Radio Club please note! Check your Club roster book and make the following corrections.

Al Wallace, WA7BZY, had an incorrect phone listed to him. Correct the phone number to 267-2177.

Also last month, under the new member column, Lennart Wikstrom, W7ZZL, was listed incorrectly. Correct the address to 1812 South Adams and add a phone number, SK 2-1270.

THE PROGRAM FOR THE MEETING OF AUGUST has not been announced.

ANOTHER POET IN CLUB

The 7:00 pm program on July 17, 1967 was Exploration Northwest. The topic for the show being 'Harbor Tugs'. It showed crews working on various tugs in the Puget Sound Area, featuring the importance of ship-to-shore radio communications and etc. Captain Puget narrated the scenes and summed it all up by saying:

"To quote Scotty Huntley...
The Captain may curse and flay 'em
The Mate may cuss and shout
The Engineer may call 'em poizen--
But the deckhand, they can't do without!"

On checking to read the balance of Scotty's poem I found that it was a prize winning poem printed in the 1951 issue of Piling Buster Year book, a series of stories of towboats, by towboat men.

POETS RETREAT

AUGUST FESTIVITIES

The month of August is full of glee!
Just look at the calender and you will see
There's picnics, fishing, horseshoes and such
A lot going on but not too much.

Come join your friends at Spanaway Park
And discuss this issue of the "Loggers Bark"
The 13th of August is the date
So do come early and plan to stay late.

It's Dewey's place on Hoods Canal
Where the scenery's great and the waters swell
A Shindigs scheduled for August twenty
With delicious food and there's always plenty.

And last but not least, to make things terrific
Is a trip to Stan's, out on the Pacific
It's the last week end of the August round
So wind up the fliver and it's "Westport Bound."

YAKIMA HAMFEST

July 8th and 9th, the Yakima fairgrounds rang with dits and dahs, CQ's, antennas hanging from trees and campers, trailers and cars with call letters and in fact call letter license plates all over the place,

Hidden transmitter hunts, walking transistor hunts, guessing contests, rag chewing, drooling over new gear, dining in the 4H hall and hoping our tickets are the lucky ones, occupied the hours until the big drawing on Sunday.

Radio Club of Tacoma was well represented, with 24 people, most of them in the above picture except for some of the XYL's and harmonics. Herb and Stella Campbell, W7SEM couldn't be found at picture time. Sorry about that!

At the drawing, our club members did all right, but Puyallup did even better. Six prizes came our way, with Pete, W7LEC, winning a power supply.

Bob Thurston, W7PGY, (DK member) discussed the possibility of a Northwest ARRL Convention in 1969 but no location was definately set. The finger was pointed at Doc, W7OS, who in turn pointed his at other R.C. of T members but no commitments were made.

We saw George, WA7CSF, with a whole bucket of onions and wondered!

We observed Doc eating all of his dessert, like calories didn't count at all and my notes also say something about Margie, K7AMJ--third finger left hand--Coke bottle. Surely she didn't!

....Ethel W7WLX

K7???

This month's picture is of a current active Club member. If you attend the regular Club meetings, I'm sure you have met and talked to this member.

Last month's member was Dick, W7RGD.

If any club member has a baby picture of themselves, we would like to get it for future articles. If you have one or even one of another Club member, slip it to one of the members of the Loggers Staff.

DX CORNER

The high frequencies have been better than expected during July, with the 20 meter band staying open almost 24 hours a day on occasion.

Fifteen has shown promise at times, with openings to VU, YA, 4X4 and Europe.

Ten meters has been dead the few times I have checked it.

A word of caution about working stations in South Viet Nam. There is only one legitimate station there, a K1/---/XU5, forgot the call, but the FCC has been issuing pink tickets to W's contacting other stations there. Also check your 3rd party traffic lists carefully before phone patching to some stations in the Pacific and Pacific rim.

I understand that John Alverez, CR9AH, who has been so active from Macao for many years, is moving to Vancouver, B.C., this fall.

The 4 el Quad here, continues to work very well. DX here this month, includes YA1DAN, YA1KO, 9N1MM, 4S7PB and VS9MB.

Larry Sweeney, W7ZAS, well known DX'er, has moved here from Bellevue and has a fabulous location in Fife, on Fife Heights Drive between W7UMS and W7ATB. Will have to see what we can do to sign him up with W7DK.

Max, W7AEA, continues fairly inactive due to pressures of work. We miss you Max. Maybe this fall?

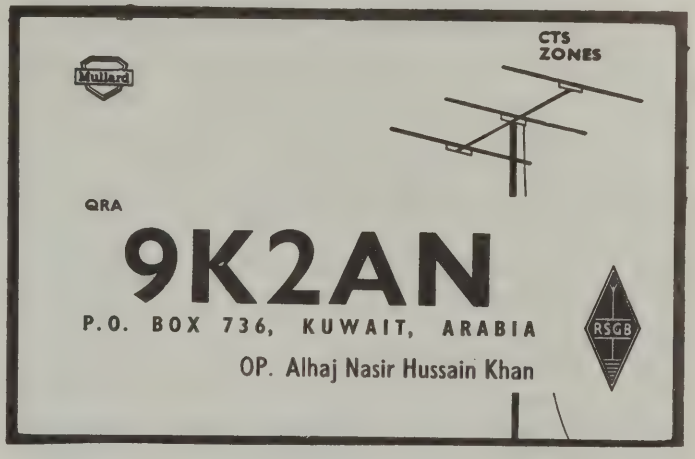

Since I have had the quad, several fellows have stopped to see it and ask questions. Visitors are welcome and I will be glad to give what help I can to anyone. My phone number is TH 5-4042. I would welcome suggestions for topics for this column.

I was asked to comment about Don Miller but don't feel I should however the ARRL has suspended DXCC credit for his operations from Heard Island VKØ, St. Peter and St. Paul Rocks PYØ and Chagos Archepellago VQ8.

CU next month.....Phm1 W7AQB

DROOLING CORNER

CONGRATULATIONS

Gosh, Hunt, we thought you were thinking about a NEW THUNDERBIRD. How about bringing the bride to the Club meetings so that we can meet her and extend a warm welcome, from one and all.

FIELD DAY FINALS

The last log book has been checked, tabulated and mailed off to ARRL. 1967 Field Day is finaly behind us for this year.

There were 3,512 contacts made this year, with 11 rigs on the air ranging from 2 meters thru 80 meters. With multiplier, the score is 23,967. This does not include the bonus points (500), which was claimed.

This is a considerable higher score from last years score but still not higher than our top year some years back. With this score, we should place in the top ten and possibly tops for our section. A great job fellows and gals,

A big thanks to all, who helped with the checking of the logs for dupes etc and copying of all the entries on the official forms. Many hours on the typewriter and pushing the pen goes into this job.

Because Steve, K7SSC, was not at the last meeting, he missed-out on the nice things said about him by President Roy. Quote: "Steve managed the job of Field Day Activities in a very friendly way and asked for help in a very nice way. Steve spent a lot of time and effort. It was the most successful F-D the Club has ever had!"

SPEEDY STEVE-COORDINATOR!

Steve extends a thank you to all who assisted him on this effort. He had a lot of fun and the cooperation made the work a lot easier than ever before. Claims he railroaded two or three groups or teams into spots but the end results were excellent. He is already looking forward to the next Field Day Activities.

Thank you Steve.

PAST PROGRAM

Dyer Downing, W7CGP, and wife Sherri were guests at our regular July meeting. Dyer, who is in charge of the Communications for the State of Washington Civilian Defense, spoke to a full house of HAMS who were fresh from Field Day, where Emergency Communications were highlighted. He defined C.D. in two ways:

1. Local Government expanded to meet an emergency.
2. Personal Survival--knowing what to do in an emergency and doing it.

All governmental agencies have a responsibility spelled out by LAW. The police, health department and many other agencies are all in action, over and above their regular responsibilities.

His topic for discussion was "Amateur Radio in Relations to Civilian Defense." It proved to be a controversial subject when he spoke on "Would Amateurs, with training, ability and stations be able to assist in the event of nuclear attack?" He chose three people from the audience, at random to prove his point. One was from the police department, the 2nd worked at radio station KTNT and the 3rd at Fort Lewis. Each one with an essential job to do in their own field and expected to stay at it. The CD would not be able to depend on their home stations, in the event of an emergency, even though they would be willing. The CD has to think about these things in planning CD strategy. In their planning, if 12 are assigned to emergency communications, 8 might start out and only 4 get there to man a station. Amateurs, self trained, pressed into service as back-up to industry or commercial fields would be helpful. The office of emergency planning is claimant on the resources available and if you are needed, you become a part of government. There is much planning because YOU CANNOT PLAN A PERFECT DISASTER. There is plenty of room for thought here...He believes the at-home wife, neighbor or someone who might be near the home station, should be trained to operate it in the event the licensed HAM could not reach his home or have other duties.

SLIVERS AND SPLINTERS

John Kelley, W7KKN, and XYL Mary, W7SKR, attended our last meeting where John gave us a preview of the motion picture taken at Field Day. His talents as a cameraman were evident. . The day was perfect and colors came through with outstanding clearness. The final documentary film for ARRL should be a dandy. At the end of the reel he took some poses of the Reaniers baby, reclining in an improvised swimming pool...not old enough to talk but grasping a mike (disconected of course) and making like a real HAM!

Jerry, W7BUN, and XYL and son Kenny are traveling through the beauty spots of Canada. Jerry has his motion picture camera along and will have another program for us again. After the success of his wonderful photography and well presented program on Japan, we will look forward to this one on Canada.

W7IKG does it again!

We understand that Merl, W7IKG, and Ralph, W7COP made an assault on the salmon fishing at Westport. The score? Merl 3 - Ralph 2. Nice fish and nice weather made the trip well worthwhile.

The Club had a request for help on the Soap Box Derby, which was held July 16. Merl, W7IKG, gave John, W7KKN, a hand with the PA system the day before the race. The system, donated by KTNT, worked fine and the coverage over the entire track was the best ever.

Just how hot did things get at John's, WA7BDZ? Sure sorry to hear about the fire and hope things are back to normal for him.

Dick W7RGD, Gene W7BTV and Max W7AEA were over in the Gig Harbor boat haven looking at and pricing boats. Most of it was drooling however.

One more salmon bake at Point Defiance to go. Wednesday August 2 Several of the members of the Club have been down to them enjoying that good baked salmon and live entertainment.

Emil, K7GPK, is expecting a fellow amateur from Hawaii during the first week of August. Just an acquaintance made on the air. Making plans to show him our great Northwest.

Ed, K7CZM, getting anxious to start working on the logs from field day to get out the QSL cards from the contacts made during F-D. Be glad Ed that it is not required to QSL all of them. Hi!

Tim, WA7FVT, busy running a new net up on the 6 meter band. Getting some certificates printed by the Loggers Bark press.

The C.D. bus was called out on July 19 to look for two different lost children in opposite ends of Tacoma. Also some of the Radio Club members were called out along with the Tacoma Auxiliary police. However by the time the bus was on the scene in the south-end the lost child had been found. Then the group along with the bus started for the second lost youngster but again he was located before the arrival of the search party. Although the incidents were over before a good search could be started, it was very gratifying to see how many turned out on such short notice.

The Hood's (K7NPG & K7NKZ) camper was in the wrong spot again. Seems the neighbors car, parked on a hill, got away and took deadly aim at the Hood's trailer. Luckily no one got hurt in the incident except one poor camper. Going to have to build a concrete garage to put the pickup and camper in Berl.

Been trying to get in touch with Roy, K7USF, lately? Try looking out on the golfing greens. Caught him pushing the little white ball around the greens with Smitty, K7ATD.

FRONT COVER PLAQUE AWARD

Every month we will put in a form to fill out to be sent to the Club by the 15th of each month. Please vote for your favorite article that has a by-line published in QST for that month. The bottom half will be for your choice of best article in the 'LOGGERS BARK'.

Response to recent Board action providing for Life Membership in the League has been gratifying. This is a reminder that Charter Life Membership is available only to those whose applications are received and completed by August 1, 1967. See page 78 July QST for details AR

UPPER LIMITS

Things are about the same on six meters. The topic of conversation seems to be reports of what out of State contacts each one made the day before. The band is interesting, that's for sure, and one can get some good dx if he takes the time and picks a hole.

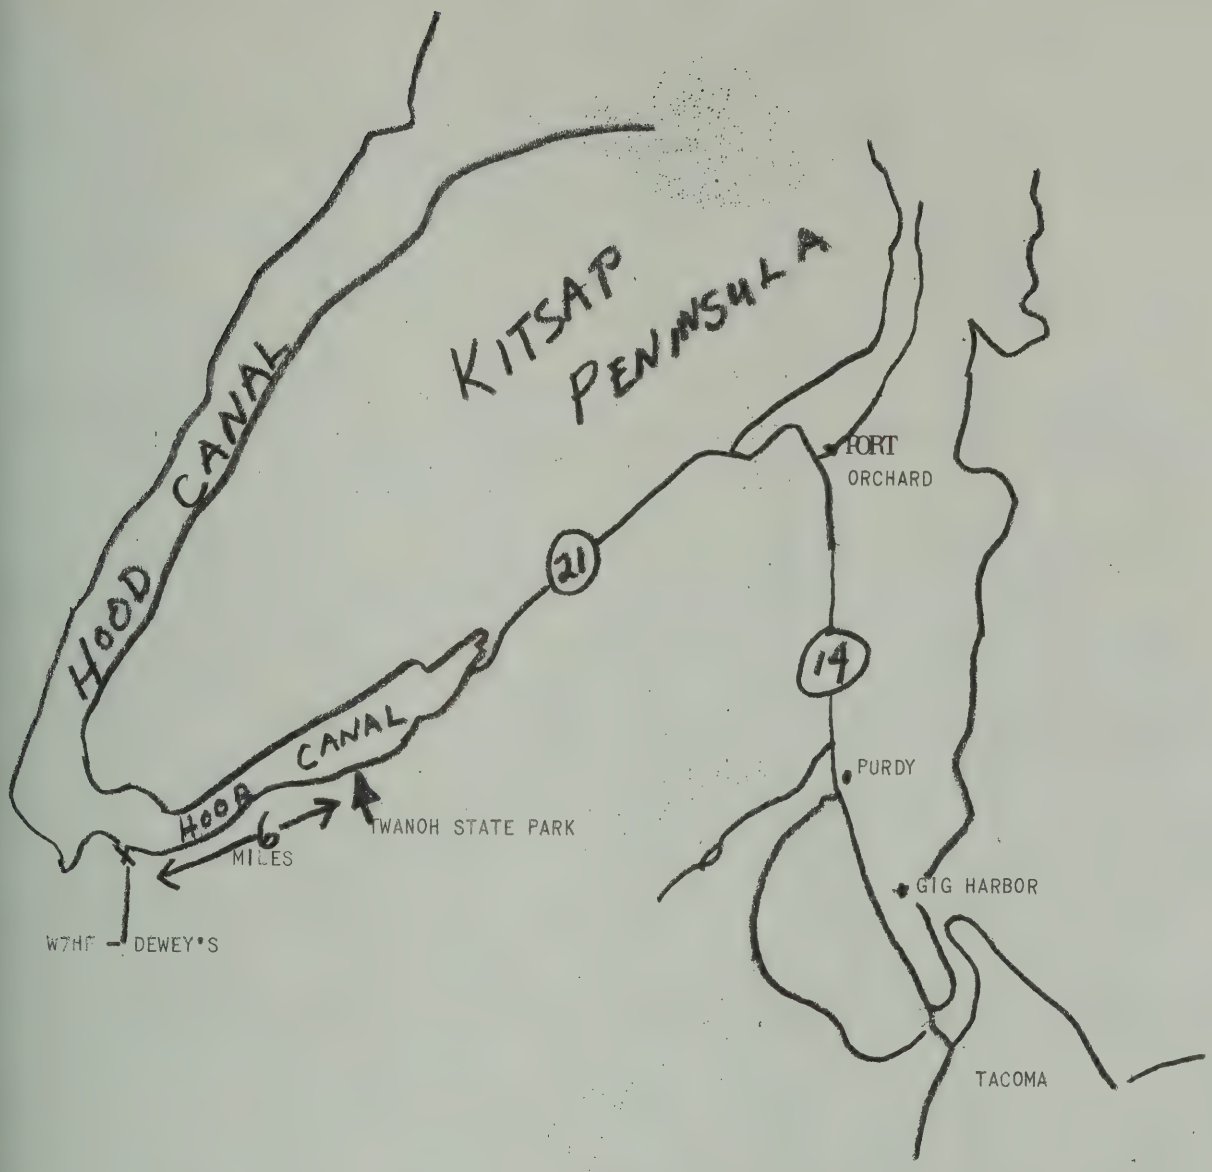

The 53.290 gang had their annual outing on Indian Creek, July 15th and 16th and they had a good turn-out. Yakima, Sunnyside, Prosser, Centralia, Olympia, Shelton, Seattle, Tacoma and way points were represented, plus one hundred and fifty zillion mosquitoes. (The large type)

Last week-end, July 22 and 23, the TRAMS had their annual camp out. This year it was Ipsut Camp on the Carbon River. Only five families turned out this year but everyone enjoyed themselves. Eastern Washington take notice, NO mosquitoes!

The gang, at Indian Creek, made contact with the Yakima mountain climbing outing on Mt. Adams. Also yours-truly heard them on 146.76 but they didn't answer. The same week, a couple of Seattle hams were on Mt. St. Helens, talking up a storm. Hill-topping is fast becoming a favorite pass-time.

Two meters F.M. is growing by leaps and bounds. It is now the busiest part of V.H.F..

Get up on a hill pardner, things are popping.

P I C N I C — DEWEY'S (W7HF) ON HOODS CANAL

SUNDAY AUGUST 20

Bring the whole family - Picnic lunch - Swim gear

A Caravan will leave from east approach of Narrow Bridge at 11:00 A.M.. If you can't make the caravan follow the map to Port Orchard and then out the Hood Canal Highway. Dewey's place is six miles beyond Twanoh State Park, on Calm Cove.

THE LOGGERS BARK

OL IV NR IX W7DK SEPTEMBER 1967

FROM THE PRESIDENT'S DESK

The month of August has been a very busy one r our club. Our only meeting was well attended d I'm sure all there enjoyed our speaker Mr. iver Edwards, brought by Lydia Branchflower, 7HMR. Having just been to Mexico and also in- rested in artifacts, possibly I was prejudiced, t I hope we can get him back again sometime.

Hasn't our weather been great? And, doesn't at go for great picnics? Our first joint picnic th Puyallup, we did out number them three to one d we've our fellowship started with our neigh- ring club. I hope next year we can promote more tivity.

Our congenial host Dewey, W7HF, really out did nself again this year. With good weather, about turned out for this annual affair and all that od food. Does anyone know where Jerry, W7BUN, ored all those oysters?

I'm writing this letter before the Westport thering takes place but I'm sure it'll be a huge ccess. Stan, W7LIR, and Greta are such gracious sts, who could possibly have a bad time?

The month of September, Jerry W7BUN will be in arge. I'm taking Ethel on a vacation trip dur- g the meetings period, but I'm sure you'll be in ry capable hands. I promise an interesting sume of our trip sometime in October.

With summer outside activities drawing to an d, I hope a renewed interest in getting the terior of OUR clubhouse completed will be forth ming. With the membership constantly growing, need to provide more desirable quarters to tract their friends. I'm sure just completion started projects would make a big improvement, d it wouldn't take much work or expense either. e you in October.....Roy W7AZI

ON'T FORGET TO PATRONIZE OUR ADVERTISERS

LATE BULLETINS

FCC today took final action on incentive licensing docket 25928. The proposed first class license concept is dropped. Instead the advanced class is reinstated with new 50 questions technical exams available later in the year, with code speeds of 13 wpm, but code credit given to General class holders. Current advanced class retain their status. Effective November 22, 1968, all segments lower portions of 80, 40, 20 and 15 meter phone bands available to only extra or advanced holders. Effective November 1969 approximately half of each such phone bands available only to extra or advanced. However 3800 to 3825 and 21.250 to 21.275 Kc is granted to extra only. Effective next year lower 50 Kc. c.w. pertaining to each named band restricted to extra only in steps over next two years as originaly proposed. A special call sign system of identifying prefixes is completly dropped. Novice term will be two years but 2 meter voice priveledges withdrawn effective next year. Details in October QST.

As of October 21 all non ARRL members receiving a DXCC or WAS certificate will be charged a fee.

The Fall 1967 addition of the Amateur Call Book will carry listings showing the license class identification of each member. The price up $1.00

PROGRAMS FOR SEPTEMBER

Sept. 13th..Paul Herlinger will show slides of a trip to Greece and the Greek Islands

Sept. 27th..K7YZZ and W7FEN will have a working demonstration of slow scan amateur T-V.

POET'S RETREAT

'GET READY!

The long hot summer is about to end
The long wet winter is about to begin
So dust off your gear and get ready for ten
Or other bands that happen to be in.

And the bands will be in, you can bet they will
So turn on the heaters and listen for Bill
And if you are mobile, park on a hill
When you hear DX you can make your kill.

ARRL NEWS

by W7BUN

For some time the ARRL has been exploring the possibility of legalizing phone patches. The FCC has now issued it's proposed findings, saying that telephone companies cannot prohibit the use of such devices "for any purpose that is privately beneficial to the customer and not publicly detrimental." The findings would direct the phone companies to re-write their tariffs to make provisions for such devices.

The matter is not final, but it does appear to open a door for a later approach by the League concerning amateur phone patches.

K7GPK & KH6CLV
VISITORS TO LOCAL AREA
by K7GPK

On August 5th, this writer and family took a trip to Sea-Tac Airport to welcome George Do, KH6CLV and his XYL, Barbara and their 4 harmonics, on their arrival from Honolulu. After many a QSO on the bands, we finally met for an eyeball QSO.

George is on vacation and is taking his family for a trip down the west coast and was mainly for the youngsters to see Disneyland, but a few stops to see friends, relatives and scenic spots were also on the list.

We enjoyed their company immensly and were sad to see them leave on the 14th but all good things must come to a conclusion. We are in hopes they will come back again for another fine visit.

George can usually be heard around 14.320 and 28.7, when ten is in, so if you hear him on give him a call and get acquainted with a swell guy. Here's wishing George and family the best of 73.

UPPER LIMITS

This summer is a six-meter man's dream. Five watts and a di-pole is all you need. Some of the new commers get a little frustrated but they get through after a little trying.

As we reported last month, hilltopping is getting quite popular. So far, Mt. Rainier and Mt. St. Helens are the favorites but you can hear them from all parts.

Dwayne, K7KSZ, is the last to report on his hilltop work. Worked Portland from a peak above the east fork of the Humptullips river. This was on 146.76 Mc, direct and on the Portland repeater. He did not get into Seattle but could copy them ok. If wires had not crossed and a certain antenna had been on, things would have been a little different.

Swing your beams around the horizon and you may pick someone off of a hill somewheres.

See you next month.....Scotty

FEEDBACK!

This month the publishers of the Loggers Bark have quite a few corrections to be made in the roster book, so get yours out now and make the corrections to your copy so that you will be up to date...Some of the changes were typographical errors and the remainder are additions made by the member, due to change of address etc..

Change address of Timothy Blair to 3013-6th Ave Apt. 2, same zip.

New address for Ens. Glenn Ewing USN, 702 North 65th Ave., Pensacola Florida.

Change address of George Cassin, 2703 W. 8th Street, Los Angeles, Calif. 90005.

Correct phone number for Russ Chryst to SK 2-7303.

Correct the call letters of William Harris to WA5EVW.

Correct the call letters of Herb Campbell to W7SOM.

Change address of Dick Hazelmyer to 4303 S. M Street, City 98408.

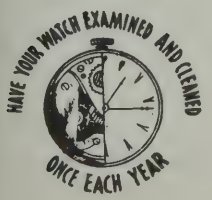

The coffees hot the jokes are stale
And the low scorers suffer pains
But come on you would be bowlers
We'll see you at the lanes.

PAST PROGRAMS

Oliver Edwards, local school teacher, was our guest speaker at the August 9th regular meeting. He was introduced by Lydia, WN7HRM.

Edward narrated a fine collection of colored slides, taken on his trip to Mexico, in search of artifacts.

"Radio is communications over vast spaces", said Edwards, "and artifacts are communications over centuries of time."

He showed slides of dry lakebeds, with segments of broken pottery and slides of beautiful buildings whose decorations were sometimes massive and stern.

Modern Mexico City has risen above the ruins of old cities and artifacts are ever coming to light, revealing living habits of people who existed years ago.

Edwards' told of the Pyramids, that are not completely solid but containing inner rooms housing valuable anthreological material. Some of the building have designs made from small pieces of stone, which are still in almost perfect condition.

We enjoyed the presentation.

DX NEWS

The fifteen and twenty meter bands are beginning to show some improvement as we approach the fall season.

Ten is still not good and probably won't be for some time. This morning, 0120 August 28, from 1430-1600Z I worked CR7, 9M2, ZE8, VQ8, UW8 and UM8. Heard 7Q7 and VU2 plus several Europeans. Both short and long paths were open with good signals. I look forward to excellent conditions in the fall months to come.

Don Miller has been on from St. Brandon, VQ8CBB, but will be gone by the time you read this and should be on from Redriguez Island a few days after September 7.

Fifteen meters is alive this morning (10 am pdt) and 20 has gone almost dead at this time. Most of the DX on 20, will be found between 14200 and 14230 Kc. Beams headings for long path 240 degrees and short path about 15 degrees.

I would like to hear from you about your rigs, DX worked/heard, etc.

W7???

This month's picture is of a current club ember. Been a member for over 10 years and is urrently on the higher bands, however is capable f getting on all bands. Will have a answer for ou next month.

Did you figure out last months picture? It was airly easy for most, since a couple of her armonics look very simular to her. It was argie, K7AMJ, our present editor of the Bark.

The following is a letter from Rich Anderson, K7ONA, in Korea. It was received in August by Smitty, K7ATD, and he has graciously allowed us to reprint excerpts from it.

Long time no hear or see. Haven't forgotten you people. Hope this finds you all happy. We are all doing real well and very happy over here. We have been really having hot weather again. Yesterday it was in the 100s, plus a very high humidity, so we all look like we have been standing in the shower. The children go swimming every day, since we have a pool at Camp Henry. We have been so busy lately, as Daddy has been teaching English conversation to 7 Korean students, 3 nights a week at the house here and I have been teaching two nights a week down at the academy but gave that up as it was too hard.

We are in the process of adopting two little Korean children. We decided to keep little Susy, who will be 2 years old the 25th of August and now we have a darling little boy, 7 Korean years old and 6 American years old.

Rich has finaly decided to retire and is filling an application for civil service and stands a good chance of getting it. We will be back in the States about the 15th of September 1968. Seems like a long time, but it has been going real fast.

Tell all the people at the club, hello for us and we sure enjoy the paper, which keeps us up on what is going on up there.

As ever, The Anderson's

OGGERS BARK Article .....

SEPTEMBER PROGRAMS

On September 13th, Paul Herlinger, formerly of NT-TV and now with Clover Park's KPEC-TV, will ow his slides taken this summer in Greece and e Greek Islands.

On September 27th, K7YZZ, of Bellevue and W7FEN Duwall, will give an actual working demonstra- on of slow-scan amateur t-v.

SLIVERS AND SPLINTERS

OK Emil, K7GPK! How about getting that torcycle for Irene and the girls (Kay, Rene', d Anita?

Each year Roy's August Birthday cake is an ject of art but this year Ethel topped them all h a beaut!

OOK WHO'S STEALING ROYS THUNDER!

Jim Small, K7GPJ, is working for his doctorate Stanford this fall with another 4 or 5 years at d work ahead. We're proud of you Jim.

Hunt, WA7AKW, sent in his treasurers report n Madigan Hodpital, where he underwent surgery. mised to bring the XYL to the next meeting.

Stan, W7LIR, was at the last meeting and was t back from California.

Remember! Two meetings and a boardmeeting in tember.

The Boy Scout Jamboree report, revealed poor erest on the part of the Scout Headquarters, s year. Some contacts were made by Jerry, JN, when he had 3 Scouts to his home. They contacts with Australia and New Zealand.

Merl, W7IKG, has been named Emergency Coordi- or for Tacoma by the ARRL.

Next time you are in Dick, W7RGD, ham shack

SLIVERS (cont)

please notice his latest pin-up (framed). He just passed his toughest test and got his High School Diploma. Congratulations Dick!

Last month we reported Gene, W7BTV, was drooling over boats at the Gig Harbor yaht basin, Well he quit the drooling and is now sporting a new 28 foot Fairliner. I guess we can figure out now where he and his family will be on week-ends.

The club has a new project to work on. Dorothy WN7FUF, displayed a banner at the meeting in August. The banner would be used at hamfests, picnics, etc. The President of the club is in the process of checking for suitable material to make the banner. Then it will be up to the club members to put a design on it, in some manner, so that it will hold up in the weather.

A present has been obtained, for Joe, W7IG, and his XYL Helen, in thanks for the use of their place on field day. A 84 cup electric coffee maker. The Asplunds have a need for a large coffee maker due to the activities occurring on their air-strip.

Roy, K7USF, out on the golf course again. His two pups (not so small now) are guarding the home while he is away. At least they bark loud enough to discourage anyone from sneaking around the QTH.

Dave, W7QFR, is going into the hospital for a few days for dome surgery. By the time this goes to press he should be back up on his feet. We wish you a speedy recovery Dave.

Beryl, K7NFG and Laverne, K7NKZ are sporting a new camper. Has all the comforts of home. Just in time for vacation too!

Ed, K7CZM, picked up the log books from field-day and will be starting to QSL the requests received. Aren't you glad it's not 100% QSL?

Inez, W7RXT, is back from the hospital after a few days there and looking good. Fox Island is a good place to recover. I'm sure it will be a short time before she will be out wrestling with the salmon.

Radio amateur classes will be starting at the Tacoma Vocational School on September 7. The classes will be held on Tuesday and Thursday nights from 7 to 10 pm. Jerry, W7BUN, will be the instructor again this year. Classes will be for both Novice and General.

FEDERAL COMMUNICATIONS COMMISSION
Safety and Special Radio Services Bureau
Washington, D. C. 20554

SS BULLETIN 1003e
October 1964

RENEWAL OF AMATEUR RADIO LICENSES

The Novice Class Amateur Radio license is not renewable. All other classes of Amateur Radio licenses may be renewed upon proper application on FCC Form 610. Application for renewal of unexpired licenses must be made during the license term and should be filed within 90 days but not later than 30 days prior to the end of the license term. Applicants who file an application for renewal with the Commission prior to the expiration date of the license can continue to operate the station until final action is taken on the renewal application. A one year grace period is allowed for filing an application for renewal of an expired license. However, during this one year period of grace, an expired license is not valid. Any application for renewal may include a modification of license.

In order to be eligible for renewal of license, the applicant must have a minimum total operating time of either two hours during the last three months or five hours during the last twelve months of the license term at any amateur station licensed by the Commission. In addition, the applicant must certify that he has maintained a sending and receiving code speed of not less than that which was required in qualifying for an original license of the class being renewed. If the above requirements are not met or if the application is received after the grace period, an examination for a new license must be taken.

The operating time requirement is waived if the applicant certifies that he has not been able to obtain the operating time because of active duty overseas in the Armed Forces or if he furnishes a statement signed by his superiors certifying that he has not been able to obtain the required operating time because of continuous service in a foreign country as a Federal Government employee, during the last year of the license term.

An application for renewal of an Amateur Radio license should be mailed to the Federal Communications Commission, Gettysburg, Pennsylvania 17325. The filing fee for renewal of an amateur radio license or for a combination of renewal and modification of license is $4.00. Fees should be paid by check or money order payable to the Federal Communications Commission. The fee will not be refunded even if the application is not granted. Also fee overpayments of $2.00 or less will not be refunded.

EDITORIAL

Well summer is over (I think) and as fall and ter approach we all will settle down into our tines of 2 meetings a month; Auxiliary meet- s; Pinochle games and some band openings on meters.

This was really some summer this year. I'm e any native Washingtonian will agree that this the most summer we've had in a century or two. Now that the short evenings and long nights are n ud, we can sit in the ole ham shack and burn e dust out of the x-mitters. Ten meters should w some real improvement this year. That's re working dx is a real challenge. Just try to a signal report before the band either nges or folds up entirely.

The faithful monitors of 29.6 will always know n there is an opening.

v that the Incentive licensing bill has been sed, I wonder how many will be going in to up- e their license. For some, I'm sure this will quite a chore, for others it will be something y've probably wanted to do for some time and didn't get it done.

Enough talk for this month. Let's see every - at the Pot Luck Dinner..... K7AMJ

WOMEN'S AUXILIARY

The first fall meeting of the Women's auxiliary held at the Club house, on September 6th. We e all very pleased to hear that Inez, W7RXT, well on the way to complete recovery. Hope to you soon at Club meetings Inez.

Rene Smith reported that the Pinochle parties l be starting soon. The first, to be held at home on September 29. The second will be held the home of Dick Hazelmeyer on October 27th. one interested is welcome to come try their for the trophy or just to have a good time.

There will be a pot luck dinner at the Club house on Friday, October 13. Everyone come and bring your favorite dish. The cost will be $1.00 per couple and 10¢ per child. There will be BINGO after dinner and white elephants are needed.

We will be selling tickets soon for our annual raffle. The lucky numbers will be drawn and prizes given away at the Christmas party. Some of the prizes you will be trying for will be a dressed chicken, a pair of hand embroided pillow cases, Tupperware, a raspberry cluster, a decorated cake and a decorated candle. Some really nice prizes to try for.

The October meeting will be held Wednesday, October 4th at Helen Asplunds, near Eatonville. Cars will meet at the National Bank of Washington at 112th and Pacific Ave., at 7:15 pm. Please be at the bank promptly. There will be a demostration on cake decorating. Phylis Nee and Helen will serve.

AUX. NEWS (cont)

K7LRA, Ed Baker is aboard the research vessel, Thomas T Thompsen, presently in the Bearing Sea. Ed has several rigs aboard and would like the club members or anyone in our area to listen for him. If contact is made, contact his XYL in South Seattle if you get through to him. The phone number is CH 3-0595.

29.6

Whatever happened to 29.6
The frequency of, Club DX
My 683 sits on the shelf
And it's on all night and day.

Nary a peep do I hear come out
That worn old speaker cone
As I go on about my business
Doing odd jobs around the home.

I call CQ on my mobile rig
But do I get a reply?
You can bet your bottom dollar I don't
There's no R.F. in the sky.

So come on you silent Loggers
Cook those finals for awhile
Just push that button on your mike
The results might make you smile.

I think that I shall never see
A thing as ugly as a knee
Above whose gnarled and knotty crest
A mini-hemline comes to rest
Or one that's ever worse than that
When padded with repulsive fat.
A knee that may in summer wear
Nothing at all, but be quite bare,
Behind whose flex there oft remains
A network of blue and broken veins.
Some knees continue to perplex--
How they can form the letter 'X'.
While in another set one can see
A pair of true parentheses?

Small nuts write verses such as these
But greater nuts display their knees!

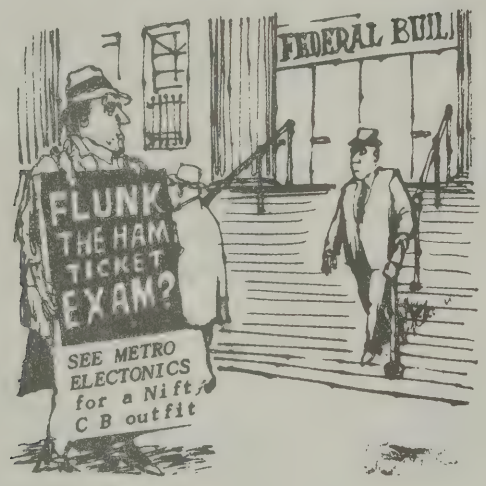

From the Fresno Cal. "SKIP" by WB6OSH)

OCTOBER PROGRAMS

October 11th.
George Harper, director of the Evans Atkinson Observatory at the University of Puget Sound, will speak on "The Applications of Electronics to Astronomy." Mr.Harper also holds an MA degree in philosophy and reportedly is a very fine speaker. We are promised a very interesting evening.

October 25th
DR. Ralph Bolstad who is K7TBE and 5R8AL, just returned from several years as a medical missionary to Madagascar. He is going to show us his slides of Madagascar. He has some very nice pictures, so don't miss this meeting.

October 18th
Regular board meeting--everyone is invited.

MEN'S BOWLING

Yes, it's that time again! Next thing you know it will be Christmas.

The bowling teams have just about the same line up as last year. Team number one consists of Merl W7IKG, Smitty K7ATD, Bob W7RXS, Ralph W7COP and Jerry Bourque. Team two consists of Max W7AEA Scotty K7CYZ, Roy K7USF, Dennis W7UBA and Cliff W7MFG. Dick W7RGD is the sixth man for team 2 and Dick Hazelmeyer is a substitute. Every Tuesday night at 8:45 at the Bowlero Lanes on Steilacoom Blvd. just off old 99 or South Tacoma Way.

So far they have bowled three nights.

The first Tuesday, team 1 fared very good. Won three games and three men had over 200 games. Bob W7RXS had a 219 for high game and 544 series. Ralph, W7COP, and Jerry busted the 200 mark. 216 and 214 respectively.

Team 2 lost three games. Dennis, W7UBA, had high game 174 and high series 471.

On the 12th. the two teams hit head on, with team 1 comming out on the winning end. On team 1, Smitty had high game, 175 and Ralph had high series, 471. On team 2, Cliff had high game, 153 and high series 459.

On the 18th Jerry came through with a 213 high game and 477 for high series, for team 1. Cliff had a 168 for high game and a 457 for high series.

Come on out and watch the gang bowl. Someone will surely roll a 200 and we are sure Scotty will roll a couple of gutter balls for you.

ARRL NEWS

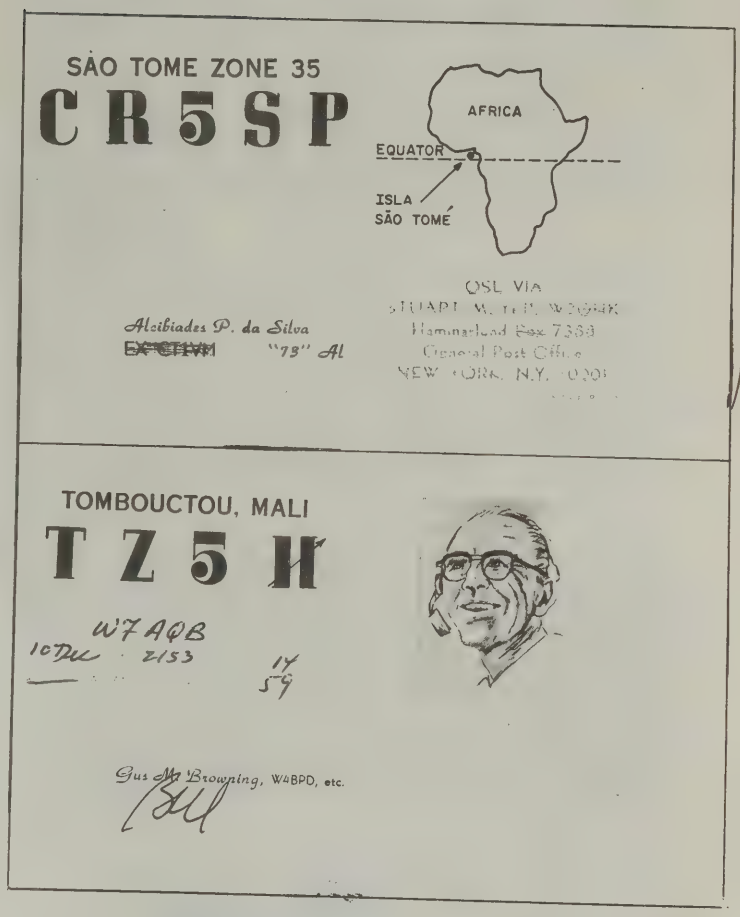

by W7BUN

The FCC has announced that holders of a Novice Class license, which are for one year, will not receive an extension of their license as a result of the amendments in Docket 15928. However, Novices are presently being issued licenses with a two year term, even though the new amendments were not supposed to go into effect until November 22.

- - - - - - -

DON't forget pinochle, the last saturday of October at the Hazelmeyers.

DROOLING CORNER

UPPER LIMITS

This will be short and sweet this month, especialy six meters.

The ssb fellows have pulled in a few out of state. The am boys are spending the time re-resistoring or yaking among themselves. Strange too, because the reports have been that the T-V channels are acting up. Ch.8 and 2 have showed up around the Puget Sound.

Two meters is picking up, station wise but no reports of any openings. Two fm is hopping wild. We have no report on 220 or 440 this month.

We will have a report on the slow-scan T.V. next month.

NR 130
FCC took final action August 24 on Docket 15928, dropping the proposed First Class License concept and reinstating the Adv. Class with a new 50 question technical exam later in the year, with code speed of 13 words but code credit given to General Class holders. Current Adv. Class retain their status Effective Nov. 22, 1968, small segments of the lower portions of 80 40 20 and 15 phone as well as 50-50.1 Mc. available only to Extra or Adv. holders. Effective Nov. 1969, approximately half each such phone band plus 50-50.25 Mc. available only to Extra or Adv. 3800-3825 and 21250-21275 kc. reserved for Extra only, effective next year. As originally proposed, the lower 50 kc. c.w. portion restricted to Extra only in steps over the next 2 years. Special call sign identification system is dropped. Novice term will be 2 years but 2 meter phone is withdrawn effective 1968. Full details in October QST BT
NR 131
The Montreal Amateur Radio Club invites all amateurs in the ARRL Field Organization to participate in the 1967 VE/W Contest to be held from 2300 September 23 to 0200 GMT September 25. Full details on this popular annual affair, sponsored to foster friendly relations between Canadian and American amateurs, appear on page 55 of September QST BT
NR 132
United States amateurs are reminded that the rules changes implementing incentive licensing go into effect November 22, 1967. Applications for two letter calls by Extra Class licensees with 25 years service and applications for the Advanced Class license examination may be made after the above date. Please note that the first group of special frequency privileges will not become effective until November 22, 1968 BT
NR 133
With the approach of the Fall season, many clubs renew scheduled monthly activity and training classes. All ARRL affiliated club groups are reminded of the extensive ARRL training aids library continues to make available technical films, film strips, slide collections, tapes and quizzes. The demand is brisk and ARRL affiliated club officers should request items well in advance of the date required. Full information is available from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111 BT
NR 134
The annual ARRL cross indexed Net Directory is now ready for distribution, in a new convenient size. Copied are being mailed to those who have requests on file. If you have previously made such a request, and have received an acknowledgement

BULLETINS (cont)

card, please do not request another Net Directory. All others wanting a copy should mail or radio a request to the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Be sure to include your zip code with your return address. Please mention the call of the station transmitting this bulletin and the frequency you copied BT
NR 135
The United States has concluded a reciprocal operating agreement with Venezuela, effective October 3. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. This 30th reciprocal agreement, along with Trinidad, supplements the list appearing on page 70 of August QST BT
NR 136
Following up the FCC Report and Order in Docket 15928, the Commission has already begun to issue Novice licenses with a two year term. Responding to a League request, FCC also has corrected the new rules for two letter calls. Extra class licensees who held either a regular combination license or an operator only license at least 25 years ago are equally eligible, effective November 22, 1967 AR

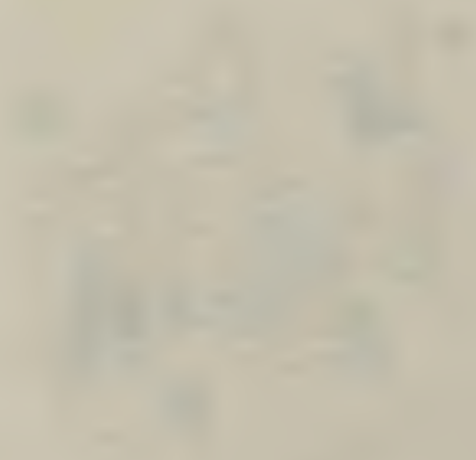

"I've gotta pass the General test. My kid's only 11 and he's got an Extra Class ticket."

P.S.C.A.R.C. NEWS
by W7BUN

The Puget Sound Council of Amateur Radio Clubs is proceeding with plans to issue a certificate during Amateur Radio Week next year. The certificate will be signed by the Governor and will be available by working a specified number of Washington State Amateur radio stations.

There is some talk of having Washington State Amateur Week changed to the week ending in the Washington State QSO Party (3rd weekend in Sept.) instead of the week ending in field day as it was this year.

The Boeing Employees Amateur Radio Society (BEARS) are going to ask all the clubs in the Council to participate in the QSO Party next year, to make it a bigger and better event.

Work is progressing on elimination of the new $30.00 fee for call-letter license plates. Several legislators have been lined up to work on this at the next meeting of the State Legislature, next fall.

Work is proceeding in plans to form a state-wide council of amateur radio clubs, with delegates meeting twice each year.

SLIVERS AND SPLINTERS

Congratulations to Doug, K7EVI, and wife Dee. They had a nine pound boy on September 4.

SLIVERS (cont.)

We finally found out why Roy, W7AZI, makes such swell hot-cakes. Ethel, W7WLX, is the official batter-stirrer. We saw her with our own eyes down at Stan's, W7LIR.

We would like to say a special get-well to Vickie, junior op of Dwayne, K7KSZ and Patty, K7NQR. Vickie has been in the hospital with quite a high fever. Get well soon Vickie.

Merl, W7IKG, is working to put a roof over the heads of the family. That's right, he is re-roofing the house again. This time the other side. Has to keep the rain off the new little arrivals, expected in about a month. Their Beagle will have pups about then,

Ask Bob, W7RXS, about the car deal he had. It is a long story but a good one. The upshot of the whole thing is that he has a new Comet to mobile around in.

The C-D bus was out on another 2-11 fire last month down on the tide-flats. Turned out to be an arsonist on the loose. Two fires within a 2 block area. Cliff, W7MFG; Smitty, K7ATD and Dick, W7RGD were on the scene with the bus.

Roy and Ethel (W7AZI-W7WLX) still on their vacation in Canada at press time. Should have a lot to tell when they get back.

Emil, K7GPK, on 29.6 mobile calling CQ. Dick, W7RGD, was answering from the home rig but not getting thru to Emil. Dick finally called his house on the land line and got in touch with Emil, who was parked in front of his house. After a short discussion the trouble was located. Emil had been working on the rig earlier and had removed the antenna from the receiver section. You can't work them if you can't hear them. HI.

Hunt, WA7AKW, kept his promise and brought his lovely wife to the Radio Club meeting. Hunt said he was going to start building up his code speed, to upgrade his license and the XYL is going to practice along with him. We may get another ham in the club before too long.

Dennis, W7UBA, missed bowling last week, due to a bad cold. Only 2 regular team members showed for that night's bowling.

On the last meeting night, in September, both the President and Vice President were not available to preside over the meeting so Doc, W7OS, very ably took over the proceedings and things went along in apple-pie order. As you all know, Doc has his initials carved on that chair. Thanks Doc for a job well done.

PAST PROGRAMS

..WN7FUF

Paul Herlinger, formerly of Station KTNT and now at Clover Park Educational TV center, entertained the members and guests at our regular meeting September 13th, with many beautiful slides of Greece and the Greek Islands.

These pictures were taken for the Travel Center Program, a TV show on Channel 11, and we were shown a small section of a 6,000' film. The deep blue hues of the Aegean Sea proved to be an excellent background for the professionally chosen scenes presenting view of historical sites, places prominent in the news of today, and others of just sheer beauty. Many photos were taken aboard a beautiful cruise ship.

The most colorful shot was of the Tivoli Gardens a-glow with the many bubbly lights and taken at night. We saw Athens as a colorful, hustling city with bikes and motor-cycles ebbing through pedestrian traffic. One of the many Acropolis, an ancient remains of a once beautiful citidel, sat on top of one of the highest points in Greece, while far in the distance the Parthenon was visible, sitting on top of a second highest point, a mighty cross perched high that could be seen for miles from land or sea.

We saw shots of the Isle of Crete and Paul told of historical interests there. We met his professional guide "Zeeah". Miss Greece, who modeled new fashions was of interest to the ladies present also.

The famous Clifourn, who was practicing for an evening concert, posed for Paul. We learned, as he showed slides of Greece's Hilton, that Americans, while in Greece stay at and eat American food and mingle mostly with Americans. When Paul finished his program, we relaxed for the first time as though we had traveled the lands with him.

We realized too that we had indeed viewed a program that normally would have cost a price to view. The descriptive words that seemed to be spoken by all were; Gorgeous, Exquisite, Ornate and Breath-Taking.

We are indeed indebted to Paul Herlinger.

FRONT COVER PLAQUE AWARD

Every month we will put in a form to fill out to be sent to the Club by the 15th of each month. Please vote for your favorite article that has a by-line published in QST for that month. The bottom half will be for your choice of best article in the 'LOGGERS BARK'.

LOGGERS BARK Article .....

MEET THE LOGGER

eet Roy Monroe K7USF.

This month's Logger was born in our neighboring ity, Seattle. From there his family moved to nemclaw, where he was raised and attended school.

Roy joined the Army in 1942 and retired from ervice as a S/Sgt. in 1962. During his service, n operations and inteligence, he spent time in 22 ountries, among them, Japan, Germany, Korea etc..

Roy met Faye in 1955 and they were married in acoma. Since that time two harmonics arrived on he scene, Steve 11 and Mark 6.

After retiring from the service, Roy took up a ew vocation.. After years of study and apprenti- hip, he now works at the bench, repairing and er icing watches. Presently he manages the watch epair shops at Madigan General Hospital and the scadian Service Club on the base.

Back in 1959, Roy obtained his first license Novice) while in California and operated under he call WN6RUK. This was in the Spring and by

LOGGER (cont)

Fall of the same year he obtained a Conditional license. It wasn't until 62 that he obtained his present call, K7USF.

His present station consists of a SBE-3V with a SB-2 linear. Operates the rig both fixed and mobile. When operating at home a AVS-14 antenna slips the signal into the ether and a Band Spanner does a good job while mobiling. For 75 meters, at home, there is a dipole strung out through the property.

DK signed him up in 62 and he has been an active member ever since. He is presently active on the Club's bowling team as well as C-D.

With his other hobbies of fishing, golfing and bowling, Roy is kept pretty busy and doesn't get to do as much hamming as he would like to. Even with his activities, I'm sure that Roy and Faye would find a cup of coffee if you drop in on them.

Good luck to a busy little family!

THE LOGGERS BARK

VOL IV NR XI 7DK NOVEMBER 1967

FROM THE PRESIDENT

Time waits for no one and I do apologize to the staff of our fine paper for not having this ready on time. A vacation is so relaxing and easy that getting back into the "deadline routine" just doesn't seem to be automatic -- you have to work up to it.

Elections soon for new officers for 1968 and I hope that you will let the nominating committee know if you'd like to try your hand at one of the posts or if you think a particular member should be asked. Also consider what the club means to you as an individual and whether or not you feel you ARE contributing all you could to make it better.

Personally, I'm pushing for greater use of the club house. It is costing us far too much in expense and upkeep for the very few evenings we are presently using it.

The potluck supper was excellent as usual and the 47 who attended seemed to enjoy themselves, specially the small fry and their favorite game. One of my kids was a bit unruly but the others behaved very well. Sure glad that pretty new red car, that was blocking the driveway when I arrived finally got going again. I would hate to lose my place in the chow line.

Let's have more fun nights and instruction sessions and anything you can think of for the good of the order, to make our investment pay.

.... Roy W7AZI

MOUNTAIN RESCUE COUNCIL

by W7BUN

The Radio Club's AREC Net, under the direction of Emergency Coordinator, Merl Chavis W7IKG, is setting up a program to provide communications assistance for the Tacoma Area Mountain Rescue Council. Mobiles and fixed stations with phone patch facilities are presently needed.

For further information, or to volunteer your services, contact Merl at GR 5-2241.

EDITORIAL

The holidays are fast approaching and so is our X-mas dance. The auxiliary has rented the fire-fighters hall this year and we should have plenty of room to dine and dance.

This annual event is usually a smashing success. It is a function for the whole club to enjoy. Now if this is for the whole club to enjoy it should be the duty of all the auxiliary members to help with the decorations, serving and the clean-up. All wivrs of all members of the Radio Club of Tacoma are automatically auxiliary members. It would be really nice to see a new face or two, doing dishes this year instead of the same ones, that do them every year. I personally have worked in the kitchen every year, that I've attended the dance.

Say, I was mighty sorry to hear about Dick, W7RGD, running out of gas, the night of the pot-luck dinner. That's the way it goes though, when you get those fancy cars; they're so pretty you forget they need gas.

Elections are on the agenda for next month. Remember this and start thinking of the officers for 1968.

Until next month..... K7AMJ

PROGRAMS FOR NOVEMBER
by W7BUN

NOVEMBER 8TH.

Mr. John Simac, head of the Tacoma Area Mountain Rescue Council, will speak to the club on "How the Mountain Rescue Council Operates." He will also talk about the need for communications on search and rescue missions. This program should be very interesting, since our club is presently implementing plans to activate our AREC Net anytime the MRC needs communications.

NOVEMBRR 22ND.

Wes Hayward, W7ZOI, of Puyallup, will speak on "Simple Solid-State Equipment for Portable and Home Use." Wes will also show us slides of a recent expedition up Mt. Adams, using portable equipment. Wes works for Boeing and he wrote the article, "Solid State Receiver Desighn Using the MOS Transistor", which appeared in the April and May, 1967, issues of QST. Wes won the QST Cover Plaque Award for April for his fine article. We are promised a very informative evening.

SLIVERS AND SPLINTERS

Our hrarty congratulations to Bob Weightman, who just received his call WN7IPR. Listen for him on 15 c.w..

What's this about Dick, W7RGD, running out of gas? And with his mother, yet!! He even made her walk to get help for him.

Too late to get in the Bowling news, but Bob, W7RXS, rolled a 245 game in the Astronauts league, Tuesday night. He bowls for Radio Club team #1. That's a lot of strikes Bob.

Louis, W7UZE, busy showing Dick W7RGD some of many..many QSL cards from around the globe. They will be showing up in the drooling corner from time to time.

Beryl, K7NPG, has been horse trading like mad. Started out with a used tube checker and has had guns amd cameras and has some more deals cooking. If he keeps it up, might end up with a KWS-1 yet.

Rex, K7VCX, packing and getting ready to move over into Japan. Will be there quite a spell, still working for Uncle Sam.

Ralph, W7COP, still trying to get down to Westport to try for one of those big ones during the Fall season but the harmonics keep him tied up with odd jobs on thr week-ends. Guess you will have to develope that fishing-itus desease during the week, Ralph.

Smitty, K7ATD, busy on the C-D net, down at c-d headquarters on a simulated test. Traffic moving in and out and all equipment working good with the exception of the link with headquarters. Seems the skip was in from the South East and had to get messages in thru a dispatcher trying to get an oil delivery down in South Carolina. If the real thing occurs, I hope they can stop deliveries of oil long enough for us to alert the citizens of our area.

This column is a little short this month. Maybe we will hear and see a little more of the members in the coming month.

"Flat tire or no flat tire, Mr. Fogarty, you tell that driver MAYDAY is out."

UPPER LIMITS

Tunning around the 6 meter band has proven fruitless this last month. If any d.x. came through, this station did not catch it.

There sure is a lot of new calls on six, this fall, maybe next summer will be a good time for thePuget Sound to get on the WAS List. The fellows back East, complain that Washington is a hard State to get on six.

Two meter a.m. is also showing more activity and we have heard a lot of "ex-sixers" up on 144. Come on fellows, there's a lot of room between 144 and 148.

Two f.m. is by far the most expanding mode on V.H.F.. Not only 146.76, which is the most favored frequency, but most any part of the band you can find new f.m. stations. Must be the "easy to acquire gear", comming on the market and being a good mode of communications especialy for mobile.

See you next month....K7CYZ

D X NEWS

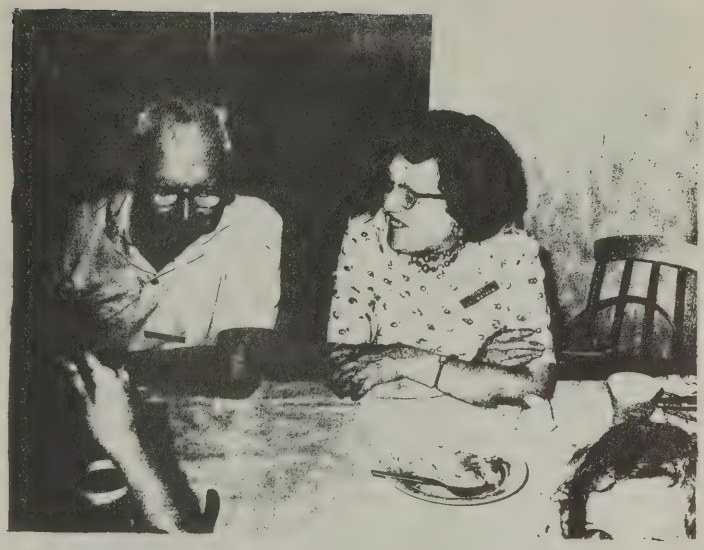

I have very little to report this month. The reason, my quad blew down in the last wind of about six weeks ago. I am putting up a 4 element yagi, on a 33 foot boom and I will give my impression of this 4 element quad in the next issue.

My spies report that 10 meters has had some good openings in the mornings into Europe and Africa.

It seems I have to learn the hard way, so a word of caution to those with guyed towers. If your guys are broken up with insulaters, be very sure that the loops around the insulators are firmly fastened with cable clamps. A loop slipping from the grasp of the clamp on a top guy, was my downfall.....73 Phil W7AQB

HUNT WA7AKW AND XYL
WORKING ON A BINGO CARD!

PAST PROGRAM

On October 11 the club was privileged to have, as their guest speaker for the evening, Mr. George Harper, who spoke on The Applications of Electronics to Astronomy.

He gave us a brief run-down on the Evans-Atkinsons Astonomy Club, which meets on the 1st Tuesday in the basement of the Howard Hall. Their club has a tract of land by the Lacomas School, which is located 7 miles up the pole line road towards Roy. There is 188 acres and of that, they are presently using only 15 acres of this area but have plans to expand over the coming years.

Presently they have a 25" (24 5/8") reflective type telescope and a 6" transit refracter. Also a rhombic antenna, 128' by 72' up on poles 45' in the air. This radio telescope has been very useful and has detected 2 meteor showers, that was not detected elsewhere. However, in the future, they have plans for a 3 dish radio antenna.

Mr. Harper extended an invitation to the club to visit the grounds in the near future and see their set up also to use the area for future field trips.

The 34th ARRL Sweepstakes will take place the [illegible] weekends of November, phone November 11 and 12 and c.w. November 18 and 19. Basic exchange information remains the same as last year and full rules appear on page 58 and 59 of November QST. Send for your zip code with your return address. Mail your requests to the ARRL Communications Department 225 Main Street, Newington, Connecticut 06111 BT

NR 140

The British liner Queen Mary has been bought by Long Beach California to become a convention center. During her final cruise, October 31 to December 9, from Southampton England around Cape Horn to California, an amateur station GB5QM aboard the ship will be in operation daily. The probably transmitting frequencies will be 29.0, 21.29, 14.23 and 7.05 Mc. for phone, 7.0 and 14.18 Mc. for c.w. QSLs should be sent to the Associated Radio Amateurs of Long Beach, Box 7493, Long Beach, California 90807 AR

No woman can live with the same man for 50 years. After 25 years, he is not the same man!

SLOW-SCAN T-V

The following is a letter received by Len, W7ZZL, from Louis Hutton K7YZZ:

The Tacoma Amateur Radio Club

Amateur Slow-Scan Television Construction Information.

With the increasing interest in Slow-Scan TV and the pending change in FCC rules to authorize SSTV in the HF bands the curious minded amateur radio operator begins to wonder where to find information on SSTV and how to build equipment for that mode of communication.

The basic theory and SSTV system characteristics have been presented in easy to understand form in the "Slow-Scan Image Transmission" article in QST, April 1960. Almost all SSTV monitors constructed to date, are based on the unit described by MacDonald in QST, March 1964. An economicle version of that monitor using a war surplus radar indicator is published in 73 Magazine of July 1967.

The SSTV picture may be generated by a Vidicon camera of special design or the more economical flying spot scanner. The design, construction and adjustment of a SSTV Vidicon camera may be found in QST, of June, July and August 1965. A low cost Flying Spot Scanner for SSTV has been published in 73 Magazine for October 1967.

The amateur who is seriously interested in exploring the field of SSTV should begin by building the monitor. Complete testing and adjustment of the monitor requires a simulated SSTV signal. This may be generated by playing a test tape on a tape recorder and connecting the recorder audio output to the input of the monitor. Test tapes of SSTV signals may be obtained from Mr. R. W. Gervenack, W7FEN or Mr. Louis Hutton, K7YZZ.

On-the-air slow scan TV activity may be found on Saturdays on 14.265 MHz at 11:00 PST and on Sundays on 6.970 MHz at 1300 PST. Some local activity on SSTV occurs on 6 meters at 52.3 MHz, usually during the weekends.

... Louis Hutton K7YZZ

MEN'S BOWLING

Three nights of bowling to report this issue.

On October 3, team #1 lost three and won one. Merl, W7IKG, had high game (198) and Ralph, W7COP, had high series (497). Team #2 lost 4 games with Max, W7AEA, having the high game (181) and high series (457).

On October 10 team #1 won 2 games and lost 2, with Ralph having high game (197) and high series (539). The same night team #2 won 1 and lost 3, with Cliff, W7MFG, high game (191) and high series (504).

On October 17, Merl led the team with a 213 game but Smitty, K7ATD, eased past him for high series (505). Cliff, again led team #2 with a 182 game and 467 series.

The fellows are bowling good games but the win column is hard to get into.

LOGGERS BARK Article .....

DINNER & DANCE NOVEMBER 17TH

Due to the success of the club's annual banquet which was held in February at the McChord AFB-NCO Club, it has been felt by many members that we should have another affair there, without having to wait for our next annual banquet. Accordingly, we have made arrangements for Friday evening, November 17th. The place is the Cascade Room at the McChord NCO Club. The bar will be open at 7:00 pm; a buffet dinner (all the roast beef and chicken you can eat) will be served from 7:30 to 8:30; dancing to the music of Burke Garrett and his orchestra will be from 9:00 to 1:00 am.

The price for the dinner is $1.65 (that includes the tip.)

All members and guests are invited. Make your reservations with Ethel, W7WLX, or Jerry, W7BUN, before November 15th.

To drive to the club, take the freeway to the McChord exit, stay on the same road that takes you through the gate, it's the corner near the flashing traffic light.

LAST MONTH'S BABY PICTURE

The baby picture last month was Smitty, K7ATD. Did you guess right?

The staff is in need of more pictures of members. Why don't you go through that album, with the dust on it, and pick one out and slip it to one of the Loggers staff members on the Q-T.

AUXIKIARY NEWS

by Marge Hazelmyer

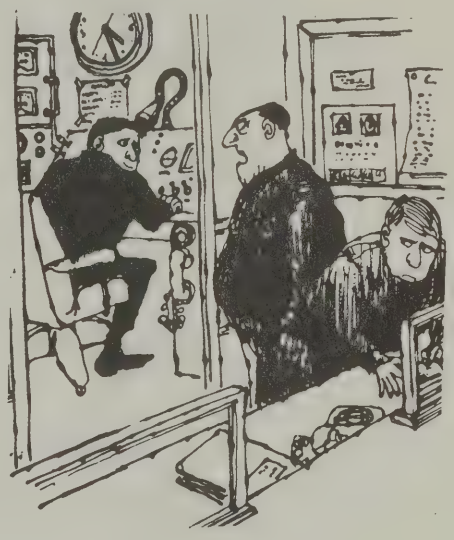

The October Auxiliary meeting was held at the home of Helen Asplund, in Eatonville. Thank you Helen for inviting us.

Rene Smith brought the Pinochle trophies, we'll be trying for. They certainly are lovely. The November Pinochle will be held at the Merle Chavis home. The date is Saturday, November 25th. Be sure to mark it in your calenders now so you won't forget.

The Auxiliary held a Pot Luck dinner at the club house October 13th., which really proved to be an unlucky Friday the 13th for one Club member. He was so anxious to taste all that delicious food that he forgot to put gas in his car and had to be pushed part way. He made it though, which is all that was really important, to him anyway.

Patty Lewis, K7NQR, has invited the Auxiliary to her home for our November meeting. After the business meeting, she will give a demonstration on how to make resin grape clusters.

Hope to see you there.....

"I don't care if the skips are in, Sergeant Lafferty. You work with our men and STOP CALLING CQ!"

All Assistant Directors

Dear Fellow Amateurs

At the last ARRL Board meeting in May of this year, some seven proposals were recommended and approved for study by various committees. These studies are intended to permit examinations in depth of changes which could not have been adequately covered during the two day Board meeting.

Our Division has been given a place on the three man Planning Committee, which is headed by Director Dannals of the Hudson Division. A meeting if this committee is tentatively scheduled for sometime the first part of December, and more likely the majority of these studies will fall upon our Committee. Therefore, it would be of great help to me if I could obtain your ideas and opinions from the fellow members in your respective clubs and elsewhere on each of these proposals. These seven proposals coming up for study include those listed under Minutes 16, 22, 37, 39, 45, 46 and 64 (on pages 75-83 July 1967 QST).

(16) Establish the feasibility of creating a limited number of formal Advisory Groups.

(22) Request establishment of a 200 Kc Novice Phone or CW Segment in the 10 Meter Band.

(37) Create an outgoing QSL Bureau, in line with the present incoming QSL Bureau at Headquarters.

(39) Study the problems of the make up of the Awards Committee.

(45) Study the feasibility of creating a Low-Cost introductory membership rate to new members.

(46) Study the feasibility of requesting a small phone frequency assignment for Puerto Rician amateurs outside the W/K sub-band on one or more of the Bands.

(64) Study the advisability of petitioning the F.C.C. to allow Technicians to operate CW only in the Novice Bands, observing all Novice power rules.

My view is that we should be prepared to win some and lose some, but we should at least always make our views known. It is our league. Let's help run it in the best interests of Amateur Radio. I'll try and answer any specific questions in your letters, and please accept my thanks in advance for your ideas, suggestions, opinions and expressions of preference on the above proposals. May I hear from you as soon as possible and no later than the 15th of November. 73

Sincerely,
/S/

PRESIDENTS MESSAGE

As we come to the close of 1967 and to the se of my year in office there still remains h to be done. Several projects started long just don't seem to be nearing completion. be I've been negligent in not pushing harder with the low pay scale, it's hard to be too anding or to expect "trying to get on steady" ve from the help. I know the spirit is willing even the flesh is strong but our everyday ing leaves darn few extra hours.

I am very proud of the club and the spirit of members. We have wonderful attendance at all our activities and we get along. Many times we r "I don't agree" or "you haven't convinced me" followed by "OK, I'll go along with the rity", which is an outstanding reason for the th running organization we have.

Our membership grows from the desire of itors to become members, rather than from any ruiting program. That's good! Field day is big weekend of fun and still we score 2nd in nation. That's good! A few of our members called upon TOO often to do the same job but don't quit. That's good spirit!

hese are the things that have kept me a member W7IK for over 30 years and enjoying every year.

..... Roy W7AZI

ELECTIONS COMING UP

Everyone should try to make the meetings in ember. This is election month and use your t to vote. If you don't vote for the officers want, you have no right to complain during the . Let's see everyone at the meeting.

ARRL NEWS
by W7BUN

The Amateur Radio Equipment Section of the Electronics Industries Association met in Los Angeles in October and voted to petition the FCC to establish two new classes of amateur license, an Elementary Class and a Basic Class. Many radical changes in the rules governing amateur radio are proposed. At this time the petition is not finalized but it looks like we may be in for another major hassle.

Don't forget to turn your Sweepstakes logs into W7EUN. Deadline is December 15th.

COMING PROGRAMS

DECEMBER 13TH.

John Simac, head of the Tacoma Area Mountain Rescue Council, will speak and show slides of "How the Mountain Rescue Council Operates." John was unable to make our November 8th meeting, as previously scheduled. He has some interesting slides depicting the thrills and excitement of looking for lost persons and missing aircraft.

DECEMBER 27TH.

Irv. Kridler, W7BTB, from Bremerton will speak to the club about the design of cubicle quad antennas. Irv is one of the few quad experts in the Northwest. He is going to show us how really simple it is to construct and tune a quad.

CLUB VISIT TO BREMERTON .....Jerry

On the evening of January 17, 1968, our club will make a trip to Bremerton to pay a long overdue visit to the Bremerton Radio Club. We have owed them this visit for some time, so let's all remember to keep this date open and have an outstanding turn out for this affair.

We will have more on this in the January issue of the Loggers Bark.

SEVEN WAYS TO KILL A CLUB

From Van Vuren County Club (Ohio)

Always have something else to do when a meeting is called.

If you do attend a meeting, be sure to find fault with the officers and fellow members.

Decline to hold office.

Get sore if you are put on a committee.

If put on a committee, fail to serve.

Be silent if the President asks for comments but later on tell everybody what should be done.

When a few fellows roll up their sleeves to help things along, complain that a clique is running the club.

MEN'S BOWLING

There are 4 weeks of bowling to report on this month but nothing spectacular to report. We will retract that statement and report that Bob, W7BXS, rolled a beautiful 245 game on the 24th of October.

October 24th., team one won 1 and lost 3. Bob had high game (245) and Ralph, W7COP, had high series (554). Team 2 lost 4 with Cliff, W7MFC, high game (181) and Scotty had high series (476).

October 31st team 1 again won 1 lost 3 with Ralph having both high game and high series 183 529. Team 2 again lost 4 with Cliff having high game (172) and high series (457).

November 7 team 1 came up with 4 wins. Merl, W7IKG, had high game (191) and Bob with high series (526). Team 2 won 1 and lost 3 and Cliff had high game and high series (158-446).

November 14th team 1 won 2 and lost 2. Merl had high game (191) and high series (487). Team 2 dropped 4 games and Max, W7AEA, led the team with high game and series (157-411).

Come out some Tuesday evening and join the fellows. Don't forget 8:45 pm at the Bowlero lanes.

UPPER LIMITS

Things are slow on six at the present time.
ocal rag chewing is about all you'll find. A lot
f the older fellows are hiding in the woods and
ou have to jar them out. You sure won't get them
calling C.Q.. Get to talking about the d.x. in
3" and watch them come out. According to all
eports from the experts, "68" should be a very
od year. One magazine editor went so far as to
y that Hawaii and the south seas will show up by
rch 10th. Hope he is right. They have been in
10 meters, so let's keep watch on six.

Two meters f.m. is still on the up swing as far
stations go. Of course the best dx is Portland
Two am should show improvements as the spring
d summer rolls in. Watch for moon bounce on
3.56 from Texas and Florida. If you can tilt
ur beam up, send a few watts that-a-way. You
ght be surprised.

See you next month.....Scotty

POET'S RETREAT

The FCC has taken the step
To give the amateur ranks more pep
It's called incentive licensing
And believe you me, it's quite the thing.

The code speed will remain the same
The written has a little more pain
Long on brains and short on brawn
A new ham breed, we hope will spawn.

So brush the cobwebs from your brain
And shoot the works for a little self gain
And the one's behind, will surely pray
That they'd have studied on a rainy day.

.....K7GPK

To rush into love with a little Dear is costly;
It will cost you more dearly to rush out.

FRONT COVER PLAQUE AWARD

PAST PROGRAM

We are indebted to H.W. "Tex" Miller of 6350 ake Ave., S.E. for the outstanding program he resented to the club showing colored slides of a hree week motorcycle trip through Europe.

Tex has owned a motorcycle for 42 years and hows how to handle a camera as well.

The facts of his trip were interesting. It was prepaid tour which included 74 other bike fans. here were 25 in his group. The cost of the trip ncluded the B.M.W. bike, air fair, hotel reservat- ons, bus and taxi fare as well as COB. (Gas, oil nd beer) Their first stop was in Paris, where hey picked up their bikes. A mechanic was with hem on the trip and gave immediate repairs when eeded. At the end of the trip the bike went back o the factory for a complete check-up and there was crated and wrapped and shipped to their omes.

In sharing his pictures with us, we were able o experience the awe of being in palaces, castles d beautiful cathedels. Tex's ability to take usual shots gave us views of century old paint- gs on ceilings and inner rooms of the castles. ndlibras were the method of lighting and they re delicate and wonderful to see.

His travels took us through Germany, Austria, enna, France, Italy, Switzerland and Scotland. r stops at the roadside Inns found colorful stumed natives, friendly and hospitalble. We ticed that most of the Inns had painting on the tside walls.

Fountains and statues were in every village. e month was June. The Alps and high mountainous untryside were beautiful at this time of year. We visited the highest lake in the world. These pictures were so beautiful I do believe would like to see them again in the future. ose who missed the meeting could attend at that me.

NOTICE

Mr. and Mrs. S. Merlyn Chavis (W7IKG & K7AMJ) sh to announce the arrival of 7 baby Beagle ppies!! Their puppies will be 6 weeks old on ristmas day. Anyone wishing to have a Charlie own Christmas should buy a Beagle. (AKC) 5-2241.

CHRISTMAS CARD DEAL

Your Loggers Park staff is offering you a real good deal on your X-Mas cards for this year. We know that most members have bought their cards for this season but these are a speciality card you only send to your most personal friends.

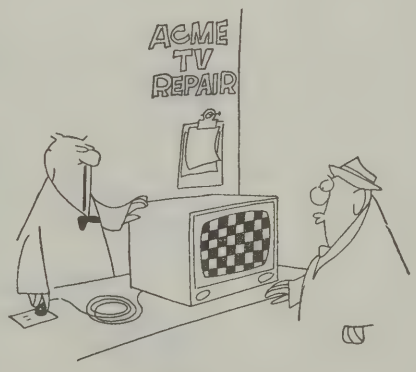

We will run a picture of your family or with you in your ham shack, to send to your ham friends.

These will put some money back into the treasury of our newspaper, which is running mighty low!! This is one way you can help support your paper and receive something in return.

We didn't get much help with our sales pitch at the last meeting but we sure want to try and do a good job and will really appreciate your patronage.

We want to wish you all the Very Best for the Folkiday Season.....Margie K7AMJ

AUXILIARY NEWS

by Marge Hazelmyer

We wish to thank Patty Lewis, K7NQB, for inviting the auxiliary to her home for the November meeting. Phyllis Nee has asked us to her home for our December meeting and has promised to show us how to make and decorate Christmas candles.

Margie Chavis announced that the "Loggers Bark" will print Christmas cards. The cost will be $2.50 for the first dozen cards and 50¢ for each additional dozen. For further information, call Margie at GR 5-2241.

There were two tables for Pinochle October 28th at the Hazelmyer's home. Rene and Otho Smith really hit the jack-pot in ine hand, when they came up with 1500 trump. I wonder who shuffled that hand? Smitty ended the evening by taking home the high trophy for the men, Marge Hazelmyer took top honors for the women. Carol Roberts was low woman and Mel Roberts was low man. Better luck next time kids. The November 25th Pinochle will be at the Huntley home.

Don't forget the club Christmas party at the fire fighters hall December 2nd. See you there.

FOSTER ADDITIONS

SLIVERS AND SPLINTERS

Scotty, K7CYZ, says it is easier to wire a transmitter than a kitchen range. Especially when there is a good football game on t.v..

Understand that Doc, W7OS, is getting some good plugs from the ladies on the Dick Weeks show.

Gene, W7BTV, on 20 meters testing out a piece of equipment with Phil, W7AQB who by the way was on the phone. Just down the band a few kc's was Del, W7UMJ, chewing the rag with a fellow ham. Even though the band was dead, Tacoma was still on the air occupying a section of it.

Merl, W7IKG and XYL Margie, K7AMJ, on trip to to southern California with the family for the Thanksgiving holiday season. According to the reports via amateur radio, they are having a good time and no car troubles so far. Merl is using his Swan mobile and getting good reports from here and also made a contact with a Singapore station.

Bob, WN7IPR, has his new QSL cards printed by the Loggers press and you will have to work him to see them now.

Our very good friend and member of the club, Dewey Wilson, W7HF, came up from Aberdeen to the dinner-dance party at McChord. With him, Joe, W7IG, from Eatonville showe up. Best attendance usually comes from afar.

Our President Roy, W7AZI and XYL Ethel, W7WLX, are in the California Bay area for the Thanksgiving holiday season. He was to be on 10 meters on that week end but he wasn't heard by this writer even though the band was open.

Dick Hazelmyer received a promotion out at Fort Lewis. Walking around on cloud seven. His XYL, Marge is on cloud seven also, seems she took the test for a drivers license the same day and made the grade. Now you can legally dent the family car Marge.

Jim, W7BSW, is sporting a new Wildcat. Out showing it to Dick, W7RGD, and even let him test drive it. No mobile equipment in it yet. Too new to put any holes in it yet.

Cliff, W7MFG, has a new 10 meter rig in the car on 29.6. Was overheard coming in from Olympia calling for XYL, Barb and getting answers from everyone but her. Barb told him to talk to the other stations unless he wanted cold cuts for dinner.

Ralph, W7COP, a little under the weather over the holiday. Too much sitting out in the cold, I guess, watching one of his harmonics running up and down the football field, with a piece of pigskin.

Jerry, W7BUN, having trouble running the WARTS net due to mike cable trouble. Made it thru the call up and roster call. Apparantly got it fixed because was on the next night running full power to his new linear and bending the "S" meter needles around the local area.

ARRL BULLETINS

NR 141

The ARRL Intruder Watch has completed almost three years of operation with more intruders having removed from the amateur bands as a result However, much additional work and constant vigilance are necessary. The Intruder Watch welcomes additional volunteers with two or three years amateur experience and good receiving equipment who can spend at least two hours a week logging the calls of non amateur stations in the amateur bands. RTTY operators, especially those with access to sophisticated gear are still urgently needed. Volunteers please write Intruder Watch. ARRL, Newington, Connecticut 06111 BT

NR 142

In late January, during the ARRL Simulated Emergency Test, the opportunity presents itself whereby all radio amateurs can take part in a nationwide demonstration of amateur radio public service facilities. The SET will take place January 27 and 28 and will include all Amateur Radio Public Service Corps amateurs in AREC NTS and RACES. There will be local exercises and nationwide traffic handling activities involving traffic for the Red Cross, ARRL, civil defense and other agencies. Your local Emergency Coordinator will be mailed full information in December and you're urged to contact him now while there still remains time for you to be worked into the SET plans AR

P.S.C.A.R.C. NEWS

The Puget Sound Council of Amateur Radio Clubs recommended to our SCM that he set up a committee to work on the license plate problem. He has done so and the head of the committee is attourney Bill Goodloe, WA7GWJ from Seattle. Bill is a former state legislator and was involved in the original license plate bill several years ago. Also on the committee is Don Ashley, W7HMJ President of the council and Roy Devish, W7AZI President of the Radio Club of Tacoma Inc.. The bill has already been prepared and is ready for presentation at the next meeting of the Washington State Legislature

Work is progressing on setting up a state-wide council of amateur radio clubs. Howard Hayes W7HJW of the QCWA, is drawing up a format for the proposed council.

The Council delegates voted unanimously to give approval to move Amateur Radio Week to September next year. This will coincide with the Washington State QSO party week. The Radio Club of Tacoma has agreed to have their annual Logger's Contest during the same period.

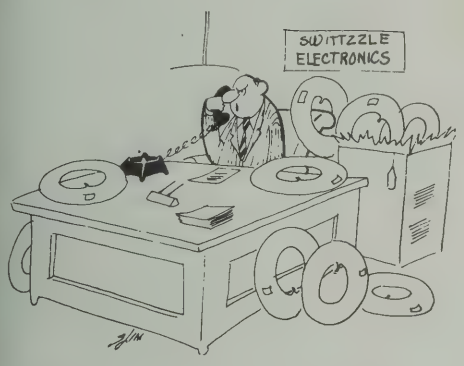

McCHORD DINNER AND DANCE

The Club's dinner and dance at the McChord C.O. Club was well attended and by the looks on everyone's face, enjoyed by everyone.

The chicken platter disapeared fast, so it must have been good. The roast beef was delicious as were the salads and trimmings. Everyone seemed to be enjoying themselves immensly.

The dance floor got a little crowded at times and was a big problem. All in all everyone wore big smiles and tight belts.

The party was arranged by Jerry, W7BUN, and he should be congratulated for the wonderful job. There were 90 in attendance. We'll have to go back again in the very near future.

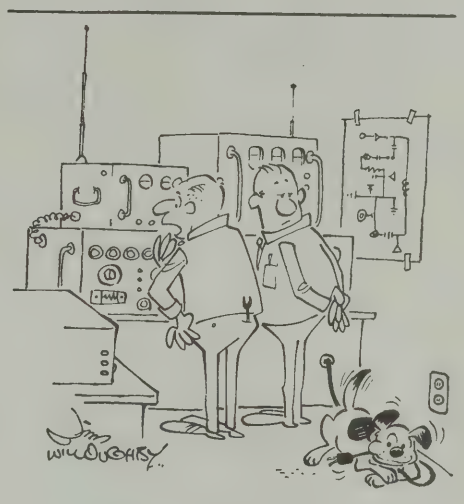

"Regarding our order of Oct. 16 for tubes . . ."

MEMBER'S DAUGHTER HONORED

Bonney Hood, daughter of Beryl and Laverne Hood (K7NPG & K7NKZ) has been selected to participate on a debate team that will go to Fresno, California on December 2.

She was one of the judges at the Chehalis High School debate team's contest and at that time was selected for the California trip.

"That's funny, it was working a minute ago."

PRESIDENTS MESSAGE

As outgoing President of this very fine organization, I wish the club continued success and wish to thank the many people that helped to make my term of office an enjoyable and enlightening experience. During this year we have had complete cooperation among all officers, board members and club members, which made our club prosper.

As for the future of our club, at this time I can predict continued growth and expension. It has been a pleasure to serve as your President for this term and I can report that the club is fortunate in the election of Ed Coles, a very dedicated person, to serve as your President for the coming year.

I don't want this to sound like I'm leaving the organization, on the contrary, I will continue as a member of the board, as assistant ARRL director and also help the new President as requested.

.....Roy, W7AZI

EDITORIAL

Congratulations to us!!! We are starting our 5th year in printing this paper. Along with the work and tears shed to put the paper out on time, we have had a lot of fun doing this service for you. There are times when home duties keep us from mailing this paper on time but we always manage to geive you one issue a month.

Dick, W7RGD, spends at least 1 week of every month on this paper alone, and spends many another night doing odd jobs to build up a treasury to keep our paper solvent. This is realy dedication.

We spend only 1 night with the crew together, to make up the paper, copy, format etc. At this get together there is Dick W7RGD, Scotty K7CYZ, Merl W7IKG and yours truly. One more night at the Chavis's gets the paper stapled, labeled and stamped for mailing. Anytime any member would like to come to our work parties, please feel free to join us. Call me and I will tell you where we are meeting at that time. We would really enjoy having some new faces around the table.

We will have an audit of our books at the same time the Club does and will publish a report of this in a future issue of the paper.

We are very proud of our publication and are also proud that we have continued to put this paper out with no financing from the ckub. This is financed through our advertisers and the hard work of Dick. This is why you should patronize our advertisers.

With a new year starting, we would like to hear from our members. Let us know if you like our paper. If not, how can we improve it?

We love constructive criticism.

.....Editor, K7AMJ

NOTICE!

The time is fast approaching to make up the new 1968 Club roster book. Please check the current roster book and see if all the data, regarding yourself or friend, is correct. If not contact Dick W7RGD or Margie K7AMJ, with the correct info.

MEN'S BOWLING

Half of the season is over and the two Club teams have let the rest of the league know they were there. Team number one ended the first half in about the middle of the standings. Team number two ended the half in a solid last place and started the second half with a 3 win 1 lost.

On the 26th, team 1 won 2 and lost 3 games. Jerry had high game with a 181 and Ralph, W7COP, had high series. (458)

Team 2 had Cliff, W7MFG, the team captain and clean-up man(?) taking high honors with a 210 game and a 507 series.

Come on out and support your bowling teams and meet with us after the game in the little back room. Every Tuesday night 8:45 pm at the Bowlero lanes.

ROSTER ADDITIONS

We wish to welcome the following new members into the membership of the radio club. Please put them down in your roster book on the pages provided for this purpose. We hope the new members will attend the meetings regularly and participate in the Club's many activities.

TRAVELING TROPHY!!

There goes our traveling trophy!!

Seeing as how these two fellows, from the Lewis County Radio Club, came all the way from Chehalis, we voted to let them take the trophy home. The rules state you must have 3 members, to claim the trophy.

XMAS PARTY

December 3rd the Club held their annual X-mas dance at the Fireman's Hall.

You, who were there, will remember the grand evening for a long time.

You, who missed the party, missed a real good time. We are sure that all who were there will agree that the hall is one of, (if not) the best places we've had for this affair. The only thing missing was the club orchestra. With all the lovely ladies to dance with, the evening would have been complete with the 'Zero Beats.'

All-in-all everyone was enjoying themselves and the slipery dance floor was full most of the time.

The food was marvelous as usual and a lot of it was left over. It will be a long time until the next X-mas Dance, but keep this affair in mind and we will see you there.

DECEMBER 13TH PROGRAM

John Simac, chief of the Mt. Rescue Council, showed slides and narrated an outstanding program on their rescue work.

"Looking for lost people and downed aircraft is our business. It takes skill and special equipment," he said. "Our volunteer members are from all walks of life and keep in top physical condition."

The Mt. Rescue Council have been active for fourteen years and are on call at all times. Since last September, eleven people have lost their lives in our wilderness areas.

He showed pictures to explain some of the problems they face. The worst being downed aircraft.

"If aircraft were all equiped with signal-sending beacons it would be a simple matter to locate them, but the cost of such a piece of equipment is usually over $200.00, so they are not numerous," he said.

The country, they climb into, is very rugged and to bring out the victims or patients is a complicated bit of engineering, but it is done with a minimum of equipment and a maximum of stamina.

In the Northwest area alone, there are still 62 missing planes unaccounted for.

Mr. Simac showed detailed pictures of the F-86 that crashed on Crystal Mountain and the DC-6 hunt on Mt. Rainier. It was a very informative program and makes us proud that our Club will be assisting them as the Tacoma based contact unit and be a part of their interesting activities.

JANUARY PROGRAMS

by W7BUN

JANUARY 10TH.

Jack Reich, WA7CDT (ex KL7AUV) will present a slide show of the Alaskan earthquake. Jack has a collection of the most outstanding pictures of this disaster you will ever witness!

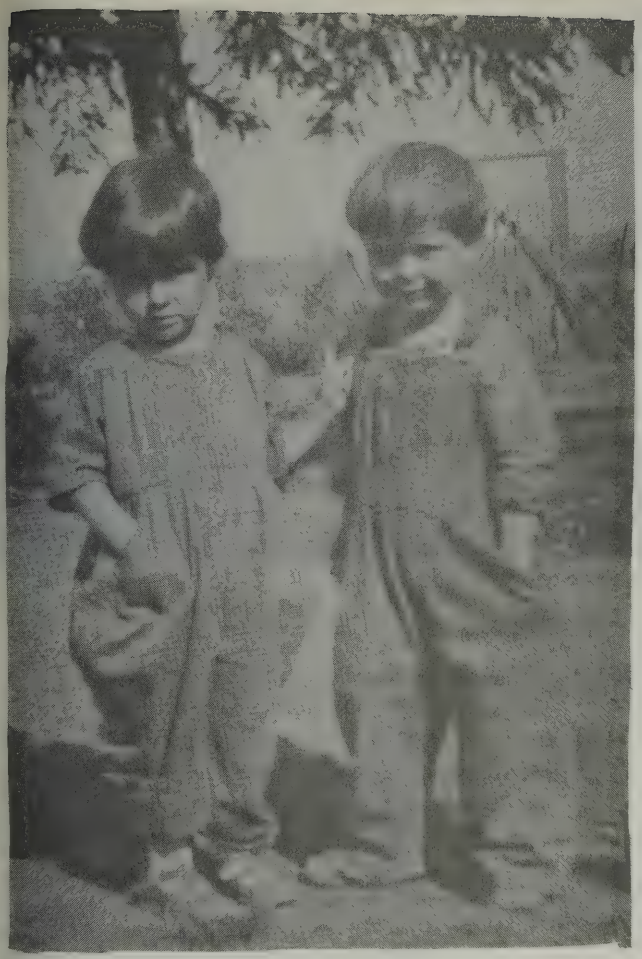

JANUARY 17TH.

Club trip to visit the Amateur Radio Association of Bremertin. (ARABS) There will be no Board meeting this month. Meet at the Club house before 7pm to convoy over to Bremerton. For those who miss the gang leaving from the Clubhouse, there is a map included in this edition of the Bark descibing how to get to the Bremerton meeting place.

JANUARY 24TH.

The long-awaited-for auction will be held. There are lots of goodies to be sold at low, low prices. Also bring any parts or gear you wish to sell or donate to the club.

REMEMBER THAT DUES BECOME DUE NOW!

W7???

This month's baby picture is of a member of the Club in good standing for over 10 years. He can get on all the bands from 75 up through ten. Can be heard on the band, nearly every evening between 4 and 5 pm.- On the right in the picture.

Last month Roy Monroe, K7USF, was sitting in the front position on the horse.

This month's answer will be in the following issue if the Bark.

ARRL BULLETINS

NR 144

FCC has adopted, essentially as proposed in Docket 17377, revised rules for identification of amateur stations. In effect, tailending will become legal on January 15 when the rules will require the identification of both stations only at the end of a QSO. Also, mobile and portable stations need only indicate the call area of operation, rather than the geographical location now required on phone. See page 83, June 1967 QST or the forthcoming January 1968 issue for details BT

NR 145

The United States has concluded reciprocal operating agreements with Austria effective December 21, and Chile effective December 30. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. This 31st and 32nd reciprocal agreement supplements the list appearing on page 88 of November QST BT

NR 146

Word has been received from FCC that a third party traffic agreement has been made with Korea for the period December 23 through January 3 only. This will permit an exchange of holiday morale traffic between armed forces personnel and their families at home. The temporary agreement is good only for the specified period of December 23 through January 3 BT

NR 147

Users of the ARRL QSL bureau in the United States are reminded that first class postage rises to six cents January 7, 1968. Please send additional stamps to cover envelopes on file. Three bureaus have new managers. New England amateurs now received DX cards through the Hampden County Radio Association, Box 216, Forest Park Station, Springfield, Massachusetts 01108. W4 and K4 licensees are served by H.L. Parrish, K4HXF, RFD 5, Box 804, Hickory, North Carolina 28601. Alicia Rodriguez, KP4CL, now manages the KP4 bureau but the address remains Box 1061, San Juan, Puerto Rico 00902. Other bureaus are listed on page 92 of November QST AR

MJB LIDS

With the start of a new year I'd like to remind all members that we will continue to save MJB coffee and tea lids and labels. We have been able to supply all of our coffee needs with the redemption of these lids. In addition, this past year we could afford to spend 1,000 credits for a nice 84 cup automatic percolator to give to our Field Day hosts as a token of our appreciation. Really a gift from all of the club.

We couldn't spare that many and still get our case of coffee as needed if it wasn't for the surprise quanities we receive onee in a while. Here is a "for instance."

Just before Christmas, Lillian Moe, XYL of Ed Moe our first Vice President, opened a can of coffee in Roy's presence and Roy promptly asked if she saved the lids. She said Dale Cook, W7NMO, had asked her to save them (probably 12 years ago) and she has obiedently been saving them ever since. She was happy to unload the whole 371 credits on Roy, who was happy to bring them home to this eager collector.

For the benefit of the new members this list will tell you just what to save and bring to Radio Club at your convenience:

Top of the can lids you cut off from any size can of MJB coffee.

Tops of boxes of any size package of MJB tea bags. Labels from all size jars of instant MJB coffee.

.....Lid-flippin' chairman
Ethel, W7WLX

ARRL NEWS
by W7BUN

The changes to the F.C.C. rules concerning identification of amateur stations will go into effect January 15th. It will only be necessary to give your own call at least once every 10 minutes during the QSO, and it will be required to give the other station's call only at the end of the QSO. Also, mobile and portable stations will not be required to give their geographical location, that is currently required; a simple "portable seven" or "mobile seven", etc will suffice.

The Radio Club had 6 phone and 3 cw entries for the 1967 Sweepstakes contest. The total phone score was 140,545 and on cw we had 16,255. We should be able to do better than that in a club this large!

The Simulated Emergency Test (SET) will be held January 27th and 28th. Contact your AREC, RACES, or NTS officials to find out how your help may be utilized. ALL amateurs are needed for this exercise.

DX COLUMN

The third weekend of December, 1967 will be long remembered by dx-chasers. Rare ones on the air were CEØPK & co., who operated from Juan Fernandes Island off the coast of Chile, Don Miller signing, W9WNV/Ø and VQ8CB from Blenheim Reef in the Indian Ocean and PYØSP from St. Peter and St. Paul Rocks in the mid-Atlantic. This operation caused pile-ups, 70 kcs wide on 20 phone and 30 or more kc on 20 cw, where most of their operations occurred. This was the most monumental pile-up I have ever heard. I called them on cw and ssb for seven hours before managing a ssb QSO shortly before they went QRT.

Don Miller also operated from Nelson Island in the Chagos Archepelago before morning on the Blenheim Reef.

UP8JD has been worked about 14210 kc ssb about 0130 GMT. He is in the South Orkneys and is a good catch. VP8HZ, in the Falkland Islands also about the same time and frequencies.

Every few evenings 20 meters opens to India, Pakistan, Asiatic Russia, Nepal and Afghanistan. Ahmed, AP2AD, puts in a terrific signal, usually operating about 14198 and listening above 14200.

We have had some good openings to Europe on 15 during the day. 10 has been rather spotty but I have done little listening on that band, so can't give an accurate report.

As I write this I am listening to OM Karnick, VU2CR in New Delhi on 14199 kc, with a W5 right on top of him. Almost every evening I here W stations way outside the American band, so fellows watch those transceivers or you will hear from Fox Charlie Charlie.

From here it looks like 1968 will be a good year for dx, so, lots of luck.....Phil, W7AQB

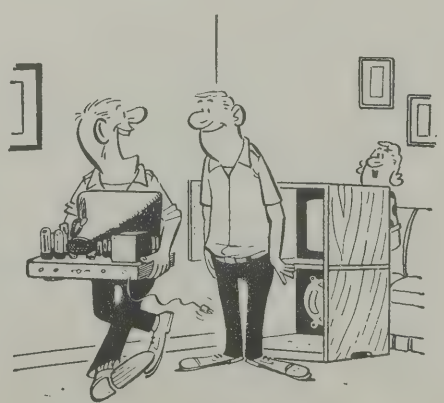

UPPER LIMITS

I don't suppose you need to be told that "six" has been open. Listening in on Christmas eve and Christmas day, it sounded as though everyone in the Pacific Northwest was home and had their rig on. The fellows around L.A. and San Diego were a little slow on the come back, but when they realized that the 7's were calling they woke up.

There are a swell bunch of fellows on "2". If you want to meet them just give a shout on 145.35. Turn your beam towards Vashon Island and talk to W7EYE, "Max". He will convince you that "2" is the up-and-coming band. Keep up the good work Max The band needs more like you.

Two fm is always popping and fast becoming the most popular mobile frequency. I think that some people think that 146.76 is the only fm freq. on the band, but if one has a tuneable receiver, you will find fm signals all over the band.

Have a good time this winter with the VHF gear that Santa dropped off for you and lots of fun in "68". .....Happy New Year, Scotty K7CYZ

"Come on, Ed, I'll show you how to make an oscilloscope out of your TV set."

SLIVERS AND SPLINTERS

Margie, K7AMJ, got rid of the Beagle puppies by Christmas time but still has one left. (Named Roscoe) How about that?

We have a new ham in the Dash Point area, WA6CML, Paul McCandlies. Seems that Merl, W7IKG, knew him in California.

New call department! Omar Haugen, WA7HPK. Congratulations!

Holiday Dance news! A lot of old faces on people that we haven't seen to often but looking refreshingly new. Almost like strangers nite. Everyone had a good time eating, dancing and visiting. Sure missed the Club orchestra tho! (hint)

Have you seen the little police fm converters that practically everyone is sporting? Cute as a bugs ear and hot as a firecracker. FB for CD and AREC too. See Dennis, W7UBA, at you know where!

We regret the moving of Duane, K7KSZ and Pat, K7NQR, to Everett. He is monitoring 146.76, 146.58 and 53.29Ø and will be on 51.0 as soon as antenna problems are cleared up.

A QSO on the low end of 75 meters, the other day, had W7DK members K7MQJ and W7IKG, former member W7IMB, former Tacoman K7WTQ and a few more from around the area.

Heard on the bands;

Bob, W7SFO, working on 160 ssb.

Bob, K7IND, working dx on 10 meters.

Former member Rick, W7GTP, on 29.6 with his Ranger

Darrel, W7GDP, is teaching Electronics at Franklin Pierce School.

Jim Small, K7GPJ, Stanford University home for Christmas.

Emil, K7GPK, on 75 again until the next wind storm brings his antenna down!

Mel, K7ATF, and family on vacation to Arizona over the Holiday season.

The Club received a real nice Christmas card from the Andersons (K7CNA) in South Korea.

Goof department! We forgot to mention last month that Verna Ryan returned from a trip to Mexico. She has actually been home over a month but due to an old Mexico custom "Uno Momento", we just plain put it off! Welcome home Senora' Ryan!

A card from special members George and Vivian Bielski was received with $10.00 in it at the Club House. Also the Club roster book has not been corrected on their calls. So delete W7QPM and W7SRL and put in their new calls. George, W6HNM and Vivian WB6HVC.

The staff of the Loggers Bark wishes all the readers and advertisers a very Happy and prosperous New Year! Support your paper by patronizing the advertisers. We need them!

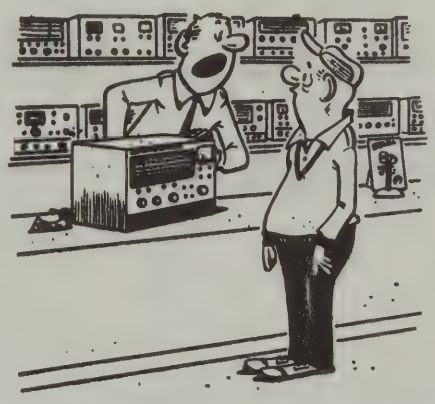

S.E.T.

The Simulated Emergency Test will be in January 27th and 28th. All amateurs are invited to participate in the first SET of 1968. Your EC, Merl Chavis W7IKG and RACES Radio officer, Otho Smith K7ATD, will co-ordinate a drill on the local level.

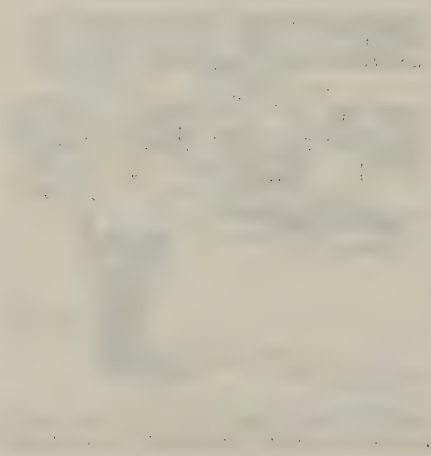

Be prepared to operate fixed or mobile on this weekend. The nature of our "EMERGENCY" can't be disclosed at this time, but the type of operations will be tied to the "EMERGENCY".

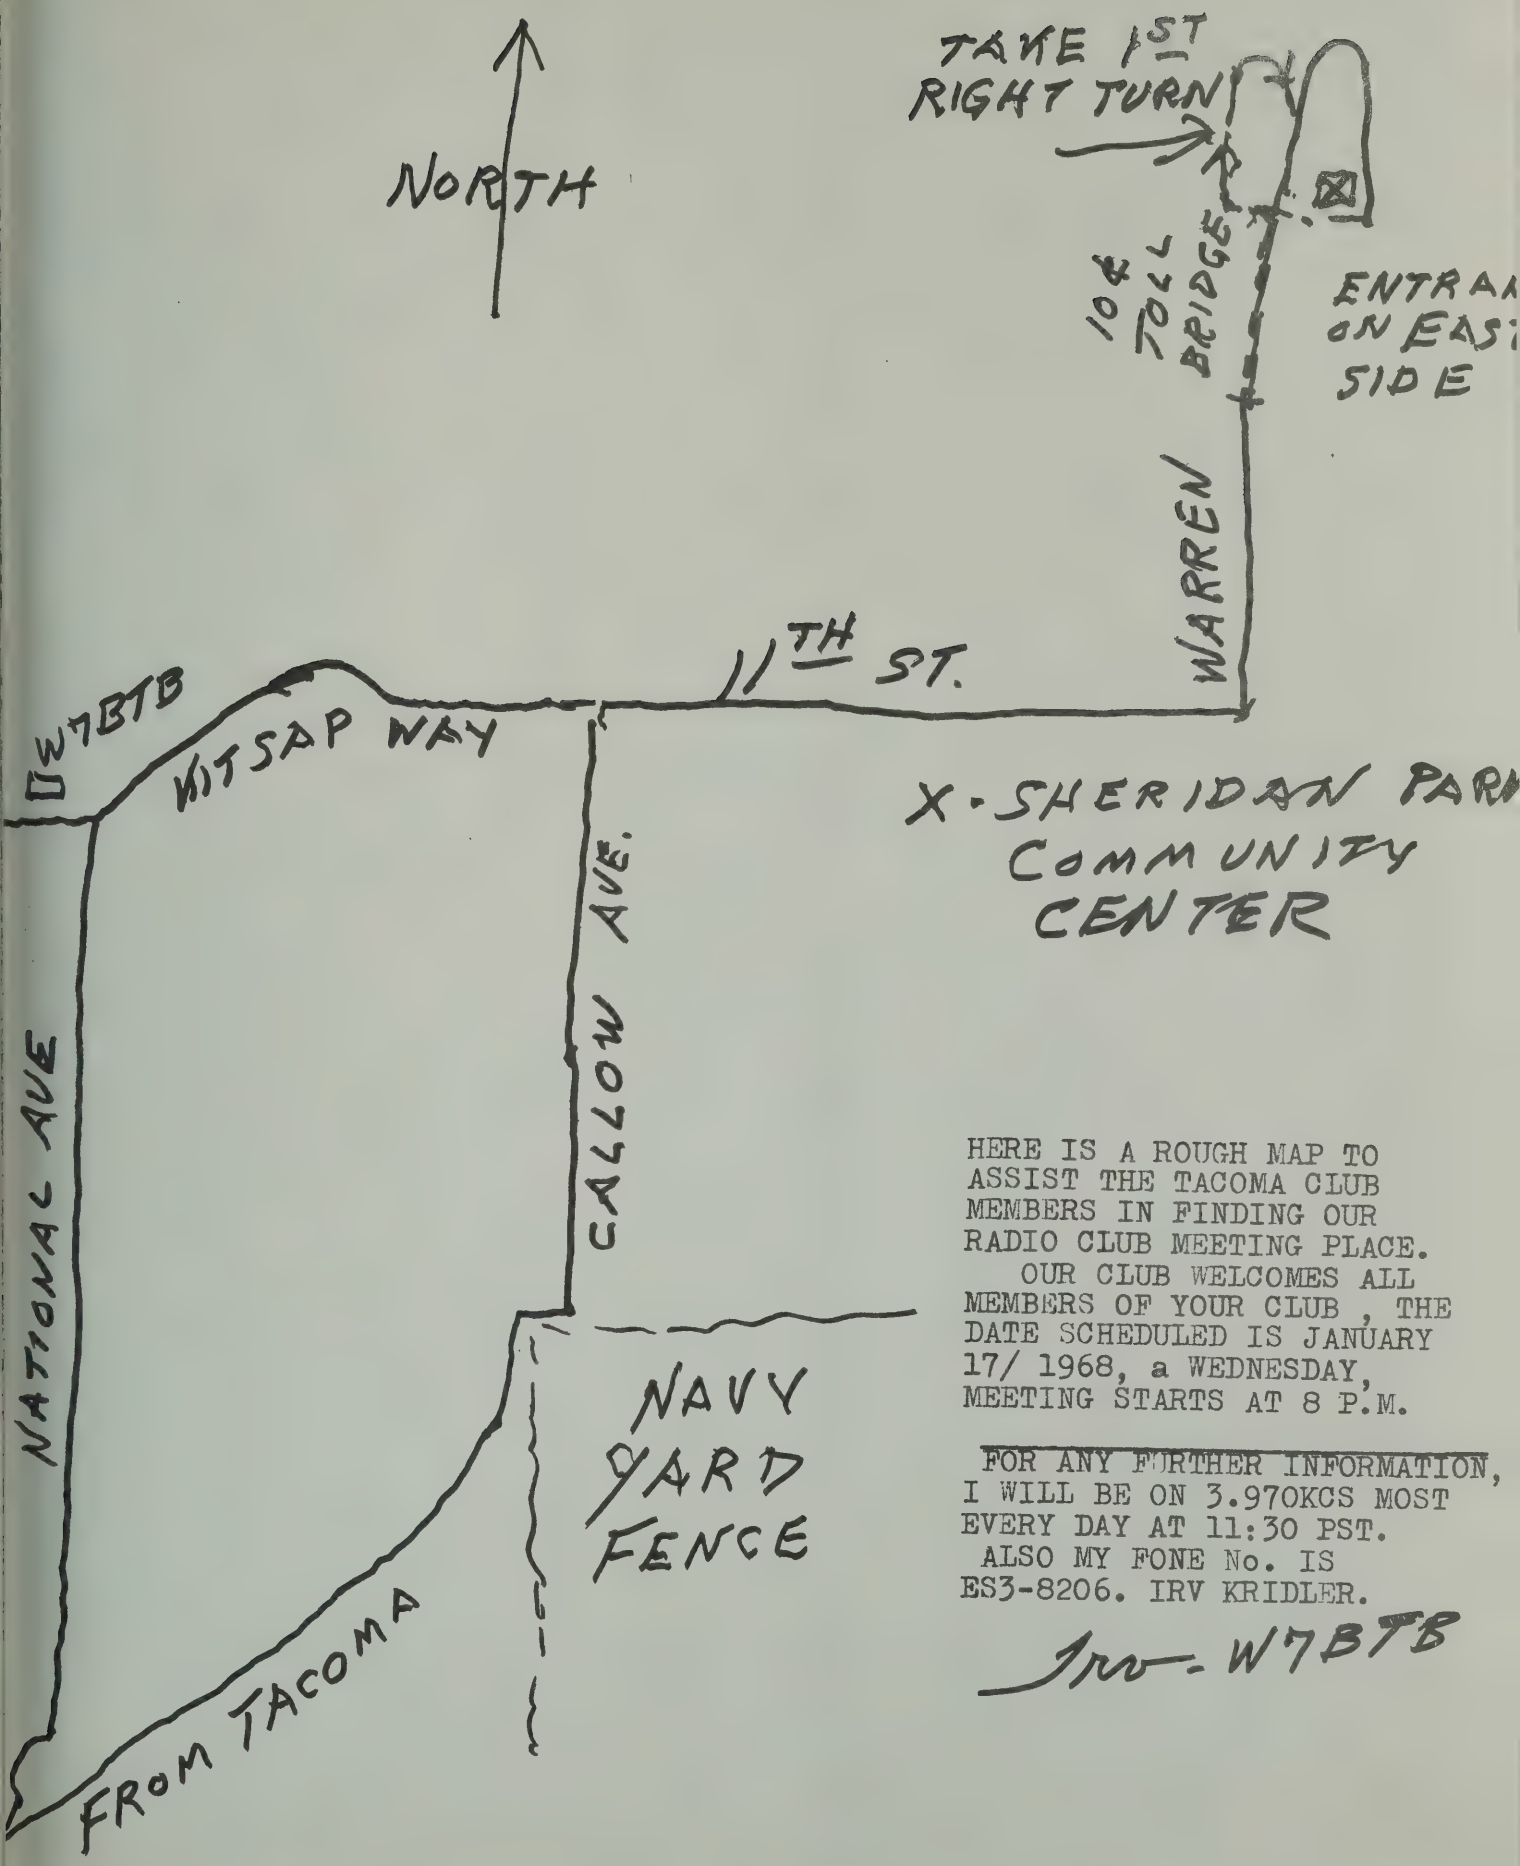

Proposed frequencies to be monitored will be 3930 ssb plus or minus, 29.6 am, 51.0 am and very possibly 2 meter fm. Some stations will be called by land line and some by actual on the air contacts.

ALL AMATEURS are invited and URGED to take part in this Simulated Emergency Test. Please contact W7IKG, GR 5-2241 or K7ATD, JU 8-4669 for further information. Listen for bulletins on the AREC net on the 1st add 3rd Wednesdays.

"...and replacement parts are no problem. Just pick up your phone and ask the operator for Hong Kong."

HERE IS A ROUGH MAP TO ASSIST THE TACOMA CLUB MEMBERS IN FINDING OUR RADIO CLUB MEETING PLACE.

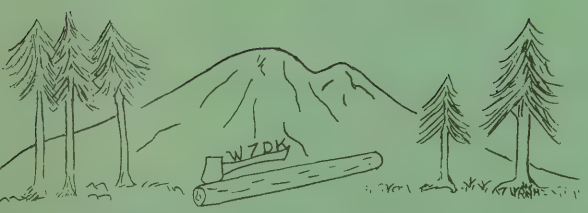

OUR CLUB WELCOMES ALL MEMBERS OF YOUR CLUB , THE DATE SCHEDULED IS JANUARY 17/ 1968, a WEDNESDAY, MEETING STARTS AT 8 P.M.

FOR ANY FURTHER INFORMATION, I WILL BE ON 3.970KCS MOST EVERY DAY AT 11:30 PST. ALSO MY FONE No. IS ES3-8206. IRV KRIDLER.

THE LOGGERS BARK

VOL 5 NR 11 W7DK FEBRUARY 1968

K7CZM W7AZI

FROM THE PRESIDENT'S DESK

I wish to thank the members for the honor of being your new president. I am very fortunate that every other officer serving with me has had previous experience in his particular office.

After having two marvelous Presidents preceeding me, I am hoping that with your help, we can keep up the momentum. While I am writing this, we have had our first meeting of the new year, and we had a large attendance with many visitors. I am sure that many of them were there to see the fine slides and commentary on the Alaska earthquake. Jack Reich WA7CDT, who lived through the earthquake and his commentary were well received.

We had a fine trip to the ARAB Club in Bremerton on the 17th and brought 23 from Tacoma. We had a lot of eye-ball QSO's with old friends and we got to see the movies of our own club in

(Cont)

action before they were edited. I am sure, when the sound track is added and they are edited for the ARRL field day pictures, they will look even better.

We have lots of activities in store and programs in the making. As members of our club, we have some of the very pioneers of amateur radio, men who have been hams for over 50 years, and at the other extreme we have the newest novices. We are very proud of our long time members, but we must also cultivate and encourage the new members, because they are the future life blood of amateur radio. If all of our programs do not please you, bare in mind, we are trying to get something for everybody. Our Vice President, Jerry, W7BUN, who acts as program chairman, is doiig a marvelous job. Your suggestioos of subjects for future programs are always welcome. By the way, don't forget the suggestion box.

As soon as the necessary papers are made out, we will be working on the MARS station. Remember the annual Banquet, February 24th at the NCO Club, McChord AFB and bring your ham friends. 73 Ed.

NOTICE

Due to the rising cost of postage rates, we will have to discontinue our (return postage guarantee) service. It has gone up to 15¢ for each return service. If you fail to get your paper, please contact one of the staff and we will get a paper to you. Be sure your address is up to date.

COMING PROGRAMS

FEB. 14TH.

Master Sergeant/Donald Duncan, from McChord AFB will present a 1 hour lecture on "Basic Transistor Theory."

ANNUAL BANQUET

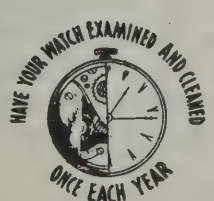

Make your plans-reserve February 24th for the Radio Club's annual banquet!!

Again this year we are fortunate to have the facilities of the McChord AFB NCO Club available for our annual banquet. This is the event where all the members get the opportunity to thank the outgoing officers and meet the newly-elected officers. We will meet at 6:30 pm, Saturday February 24th in the Cascade room at the McChord NCO Club. A buffet dinner (all the roast beef and chicken you can pack away,) will be served at 7:00 and at 9:00 Stan Boreson and his orchestra will play for your dancing and entertainment. There will also be a one hour floor show about 10:00. Cost of the dinner is a reasonable $1.65 per person. (This includes the tip) Minors may attend the dinner but will have to leave by 8:30. Contact Ethel Devish, W7WLX, or Jerry Seligman, W7BUN, for reservations. No reservations will be taken after the 22nd of February.....W7BUN

NEW MEMBERSHIPS FOR 1967

During the year of 1967 there were 37 applications for membership in the Radio Club.

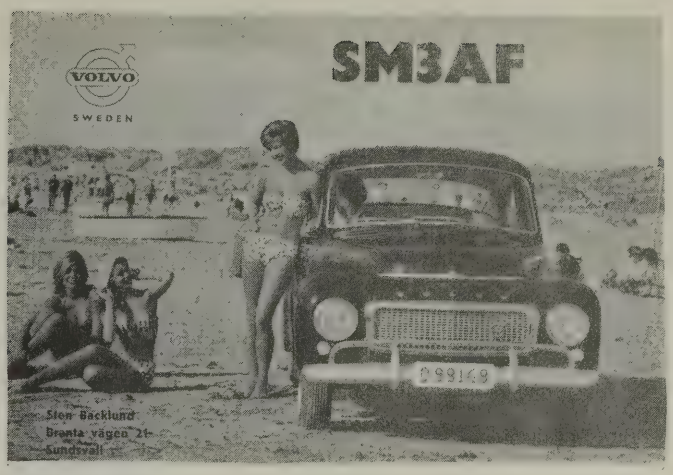

These 37 were proposed by 19 different members. Following the usual custom, a years free dues were given to Dorothy Grassman WN7FUF, for signing up the most new members, a total of 6. Congratulations to Dorothy and the runners up for a good job. There was a three way tie for second position for signing up 3 members each. They were Dwayne K7KSZ Rex K7VCX and Dick Hazelmyer.

DX COLUMN

The high frequency bands continue to be very active through January. Ten opens for Europe about 8am local time, swinging to Africa about 2pm and often, in the afternoons, good condition to South American prevail. Evenings often show good propagation to New Zealand and Australia, as well as the Pacific.

I have not observed too many good openings on fifteen but have not spent too much time on that band.

Twenty has opened several afternoons, about 4pm to Western Australia, via the long path over Africa but the East coast aluminum curtain is tough to crack. Almost every morning it is open Africa and Europe via long path. I have not heard any Pacific rim countries for a long time but they will be appearing in March with strong signals, However, Japan and South Korea are often present. Between 6 and 8 pm, careful listening to the north will produce UAØ, Asiatic Russia, Nepal, Pakiston and India, but these openings seem to be getting a little scattered as spring approaches and daylight hours in the northern hemisphere lengthen.

Gene, W7BIV, just informed me that on January 28th, about 9 pm on 14,170 kc, 5WIAT was S 20 over 9. He and several Africans, plus a ZO8 on Ascension Island, were in a round table, all with good signals here. Beam heading was S.W. over Australia.

It is rumored that a British ham will make an attempt to operate from Rockall Island, off the British coast and accessible only by helicopter. Also a Swiss amateur is planning to activate Annubon Island, off the African West coast, soon.

ARRL BULLETINS

NR 148
The annual Simulated Emergency Test of the Amateur Radio Public Service Corps will be conducted on January 27 and 28. We take this opportunity to again remind all amateurs of these dates which are a change from the October dates on which the exercise has been conducted previous years. January QST has full details on pages 10, 66, 68 and 96. Mark these dates on your calendar and plan to be active in one of the ways suggested in QST BT
NR 149
The United States has concluded a reciprocal operating agreement with Finland, effective last December 27. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. This 33rd reciprocal agreement supplements the list appearing in page 78 QST BT
NR 150
February presents an excellent opportunity for every amateur to test his frequency measuring skills by participating in an ARRL Frequency Measuring Test. W1AW will transmit signals for measurement at 0230 GMT February 10 on approximately 3506, 7027 and 14,067 kc. A second series of test signals will be transmitted at 0530 GMT February 10 on about 3551, 7100 and 14,171 kc. Note that this is the evening of February 9, local time, for most U.S. and Canadian amateurs. Each participant will receive an individual report comparing the accuracy of his measurements with those of a professional frequency measuring laboratory. Further FMT details appear on page 97 of January QST BT
NR 151
The American National Red Cross announces that in the simulated Emergency Test on January 27 and 28 it will have four stations guarding various frequencies for Red Cross traffic as follows: W4PAY for Eastern Area and National Headquarters, and W4DOC for Southeastern Area, 3550 and 3875 kc, 0000 to 0500 GMT January 28 and 29; K0AEM FOR Midwestern Area, 3550 and 3875 kc., 0000 to 0500 GMT January 28 and 2300 January 28 to 0300 January 29; W6CXO for Western Area, 3875 and 7250 kc, 1900 January 27 to 0300 January 28 and 1900 January 28 to 0300 January 29. W6CXO hopes to be active with RTTY on 80, 40 and 2 meters. Amateurs receiving traffic for Red Cross during the SET weekend may relay them to these amateur Red Cross stations or via the ARRL National Traffic System AR

BABY PICTURE

Did you guess last months baby picture? If you guessed Ralph, W7COP, you are a winner. Let's get those pictures in to us. We are running out and will not have one this month

UPPER LIMITS

This year started out with a bang! January 3rd Emmie, K7SMP, worked KH6NS the first KH6 heard inthis area for a few years. Good work Emmie, keep Lake Sawyer on the map and Lloyd locked in the woodshed. Maybe, you can grab some more rare ones.

Remember you D.X. hounds, this should be a good year, so keep the gain turned up and don't forget to swing the beam around. March should bring some more good ones. The F-2 will be shifting and the sun spot activities will be fairly strong. 1969 should be the peak, so 68 should bring good hunting on six.

You two meter people should keep an ear out for the F2 signals also. Last Monday pm, January 22 the VE7's were coming into Tacoma extra strong. I don't think it was F2 but they were unusualy strong. The C.D. bunch in Portland were about 5DB stronger than they usually are, so now is the time to oil up the gear and listen carefully.

The six meter transmitter hunts are picking up after the usual holiday lull. Dick, (Barney Olfield) Hazelmyer came in first last Friday, outdriving yours-truly by 6 minutes. The next hunt will be February 2. They start from the club house at 8:00 pm.

A reminder to the VHF gang: don't forget to check into the C.D. bus on the 1st, 3rd, and 5th Wednesdays at 7:30 pm. on 51 and 145.35 mcs.

This reporter built 2 (Link) antennas and have them stacked ½ wave apart. They should be up by the time you read this. You will find the information on this antenna in 73 magazine January 1966. We should be able to give you a full report in next months Loggers Bark. By the way, this antenna was designed for 2 meters.

See you next month.....Scotty K7CYZ

LADIES AUXILLIARY NEWS

There is only one very sad news item to report from the auxilliary this month. That item is that there has not been an auxilliary meeting for 2 months because not enough members or officers have been present to hold a meeting.

Although it has been said many times before, I'm going to say it again now. All wives and mothers of paid-up members are members of the auxilliary.. We sure could use your help and co-operation. The auxilliary was formed originally, as I understand it, to help and augment the men's club. A person certainly loses enthusiasum quick-ly when only four or five members do all the work and everyone enjoys it. Maybe some of the ladies who enjoy comming to our social functions would like to come to the auxilliary meetings and help plan them. New ideas are always needed and very welcome.

Our next meeting on February 7, 1968, will be held at the home of Sally Tangora at 1550 McArthur street. Thereafter the meetings will be on the first Wednesday of each month at the club house. Let's see some new faces this month.

PROGRAMS FOR FEBRUARY

February 14th.

Master Sergeant, Donald Duncan, from McChord AFB will present a one hour lecture on basic transistor theory. Sgt. Duncan is a technical instructor and has taught many classes in semi-conductors. If you have any doubts about how a transistor works, be sure to attend this meeting. Don't forget -- the new F.C.C. exams now include transistor circuits.

February 21st.

Board meeting at the clubhouse. All members are encouraged to attend. 8:00 pm.

February 28th.

Hunt Mitchell, WA7AKI, the Radio Club's distinguished treasurer, will present a slide show of Japan. Hunt has many excellent pictures showing the scenery of this beautiful country, the shrines and temples and the way the people live. Don't miss this interesting evening.....W7BUN

DON'T FORGET, DUES ARE DUE FOR QUITE A FEW. YOU DON'T WANT TO MISS THE NEWS—

CLUB VISIT WITH ARABS

Wednesday, January 17th, our club paid a long over-due visit to the amateur radio association of Bremerton. (ARABS)

Twenty-two of our members drove over in the rain. The A.R.A.B.S. gave us a very hearty welcome. The "eye-ball" QSO's were fast and furious. Also the refreshments were plentyful.

We gave them a preview of the film of last year's field day and they seemed to enjoy it.

Thanks again to Harry, W7CQI and the gang in Bremerton for a very fine evening.

(Ed. we didn't get the pictures developed in time for this issue but will run them next month.)

CORRECTION

Just because I was so happy to get all those MJB lids from Ed Moe's QTH last month, I made him the first Vice President of W7DK. He called me though and said Dwight Mason would never stand for that without a few remarks aimed in Ed's direction so please let it be known that I made the mistake and really Ed Moe was the first Secretary of the Radio Club of Tacoma, Inc. and the first Vice President was Dwight Mason.

Both are fine fellows and I hope they will continue to ....save those MJB lids.

Ethel, W7WLX

ARRL NEWS

by W7BUN

Beginning with the March issue of QST, there will be a series of articles dealing with the theory and rules required for the advanced and extra class license examination. This material will constitute a study course either for individuals or group instruction.

"I'll give you a hint—I'm NOT from your Friendly Credit Corporation!"

LOGGERS BARK NEWS

The Loggers Bark has just completed it's fourth year of publication along with some other printing jobs, QSL card printing, and putting out a club roster book. With the help of our advertisers and outside club printing jobs, the paper has maintained a monthly publication to all it's members and a few others who subscribe.

At the present time the club has paid the expense of the mailing only. Now that the rate has gone up from 4¢ per copy to 6¢ per copy, the staff and club member Henry Ge pke, WN7HFG, are in the process of obtaining a second class mailing priviledge. If the Bark meets the required requirements, there will be a substantial savings in the mailing. In order to meet the postal requirements a new by-law has been added to the club's by-laws. This by-law was presented at the club meeting by a committee consisting of Henry Gepke, Doc Spike and Dick Ryan. It was seconded and passed into effect. The following is the new by-law as passed, January 24th, 1968.

By-law 16.

The Radio Club of Tacoma's Inc., monthly publication shall have for it's subscription rate, fifty cents (50¢) of the regular annual dues. The rate for non-members shall be one dollar ($1.00) per year.

This new rate for mailing will save the club at least $60.00 a year. The first year will be a lesser amount but still a substantial savings.

The following is a P and L statement, as of January 1, 1968.

Printing jobs	$575.05	
Advertising	171.00	
Subscriptions	5.00	
Donations	1.00	
Total income	$752.05	
Cost of material	663.69	
	88.36	Net gain 1967
Balance 1966	189.97	Net worth January 1969
	$278.33	

At the present time there is $330.00 on hand. We hope the club's paper continues it's growth and see no reason why it shouldn't with the continued help of it's advertisers and help from the membership. Remember, it's your newspaper and the quality of its contents will be as good as you make it. If you have something to contribute, contact us and we will get it before the membership via the printed word.....Staff

I learned in Sunday School that the Lord helps those who help themselves and the Government helps -those that don't.

MEN'S BOWLING

The bowlers have had their ups and downs for sure - but some pretty fair games and scores were in order. Both teams are tied at present with 10 wins apiece.

Jan. 2

Team- 1 Merl, W7IKG, high game (210) and high series. (563)

Team -2 Cliff, W7MFG, high game (175) and high series. (484)

Each team won 3 games and lost 1.

Jan. 9

Team -1 Jerry Bourque high game (209) and high series (489). Won 3 lost 1.

Team -2 Cliff high game (194) and high series (528)

Jan. 16

Team -1 Merl high game and high series (219-514)

Team -2 Max, W7AEA, high game and high series (185-472)

Jan. 23

Team -1 Jim Churchward high series (501) and Merl high game (181)

Team -2 Roy, K7USF, high game (181) and high series to Cliff (468)

One of the oddities in the bowling game was Roy Monroe and his crazy split. He had a 3-6-7-9-10 split, which amongst the bowlers is pretty bad. He took careful sight and fired a perfect ball and proceeded to make a spare out of the mess. Nice bowling, Roy!

CLUB AUCTION

Roy, W7AZI, did himself a bang-up job as auctioner at the last club meeting night in January. The gear (?) was plentyful and so were the buyers. The club netted $65.00 for the evening.

This has been an annual affair and has proven to be very successful each time. Next year we hope to have a little more quality to put on the block.

SLIVERS & SPLINTERS

We wish a get well quick to the XYL of Norm, WA7EFN.

Have you been to a meeting of late? Bet you noticed the new clock that was donated by Roy, W7AZI, hanging on the meeting room wall.

Code practice! Club house from 0300Z to 0400Z before the regular Glub meeting. George Abbott, WA7EHH, is the instructor and will teach code and also how to convert z (GMT) time to pst.

Closing date for new club roster is January 31. Dues are due! This will be definately the cut-off date.

The Flu bug has the Koth family (K7GPK) down and out. Also Smitty, K7ATD, and xyl of Ralph, W7COP, are down. They even missed bowling.

Still wondering if Doc, W7OS, has found his car? One of the suggestions is for Doc to tie a string to the door handle and then he could follow the string back to the car!

DUES ARE DUE FOR QUITE A FEW!

The mobile gang from the valley, operating on 29.3, have had Rex, K7VCX, now a KA, in Japan checking in on ssb.

When asked, where Pinky was, Hunt WA7AKW said, she was home knitting him a sweater. You don't suppose it will be the same color as his new T-bird!

More get well wishes go out to Helen Spike. Been a little under the weather last week of January. With Helen slowing down a little, it will give Doc a chance to catch up with her.

Had a good turn out for the SET drill. Lots of traffic handled. Will have more to report on this next month with some pictures to go along with the article.

Gene, W7BIV, has his son home from the service for a short time. Received an injury to his foot but is getting along fine with a chance to visit.

Roy, K7USF, is off the air with a sick trans-ceiver. In the process of getting it back on the air.

The Hood's(K7NPG and K7NKZ) have their camper back from the repair shop and are off on weekends trying their luck at camping out during the colder months.

Art Wing, W7JGN, is off on a buying spree for his store. Will be in Europe for a few weeks. No rig with though. Should be interesting shopping out there after he gets back.

Don't forget to notify us of a change of address, if you want your monthly newspaper and also be listed in the new roster book corectly.

"I'd say he doesn't know much about grounding equipment."

"Finally got my own shack!"

THE LOGGERS BARK

VOL V NR III W7DK MARCH 1968

FROM THE PRESIDENTS DESK

I wish to thank the members who have accepted committee appointments. They are already at work and the different committee members are what make the club go - the officers only direct the activities.

We enjoyed tremendously the talk last month by Master Sergeant Donald Duncan on transistor theory. Although some of it was a little over our head, it was certainly woth while.

I would like to encourage every one of you members to get one of the identification tags, with your call letters and when you get it, wear it to the meetings. I must confess, I still do not know all the members by sight. Please forgive me - I feel very guilty.

Remember the pot luck dinner and roller skating party in March - and you Novices, don't forget the code practice sessions at 7:00 pm every meeting night.

Have you examined the "Loggers Bark" carefully to see who the advertisers are? When you do, please patronize them. They pay the freight to keep this paper going.

73 Ed K7CZM

SKAGIT HAMFEST & TOUR OF JIM CREEK

by W7BUN

The Skagit Amateur Radio Club will hold their annual Skagit Hamfest on Saturday, April 20th. As part of the program, those who desire may tour the million watt navy transmitter site at Jim Creek.

If you plan to go on this tour, send your full name, current address, date and place of birth to C.G. Fox, Route 2, Box 63, Arlington Washington, 98223. This information must be redeived by April 5th or you will not be able to get a security clearance to go on this tour. Full details on the Skagit Hamfest in next month's Logger's Bark.

A.R.E.C. NOTES

On Saturday, February 17, a call was received from the Mountain Rescue Council wanting communications established from Paradise Lodge, on Mt. Rainier, to Tacoma. The emergency consisted of 2 men and a woman caught in a storm between the ice caves on Mazamy Ridge and Paradise, who failed to return at the scheduled time.

John, K7CZF, with his mobile and Merl, W7IKG, EC, arrived at Paradise at 7:00 pm Sunday and made contact with the rescue group. A link was made to Tacoma on 75 meters ssb, with W7UMJ and K7GPK.

The nature of the rescue and also the timing of events prevented us from handling any traffic at that time. About the time we arrived at Paradise, one of the lost party showed up. After a hot bath and soup, he led the Mt. rescue group back up the ridge. The search turned up the other two members of the lost group.

Operations were secured at about 1130 when the woman and man were brought in. Unfortunatly, the woman didn't survive, even though resusitation and oxygen were administered.

Stations especially participating were W7UMJ, K7GPK, W7BUN, K7IND, all of Tacoma and W7ROC of Port Orchard.

DON'T FORGET, NO DUES NO NEWS!

PROGRAMS FOR MARCH

MARCH 13TH
Silent film "The Gambling Fool". Accompanied by back ground music from Dorothy Grassman.
MARCH 27TH. S P E C I A L ! !

MEN'S BOWLING

The fellows are still rolling right along, not "Cutting a Fat Hog", but in there trying.

On January 30, team 1 won 3 with Smitty, K7ATD, high game and high series. (199 & 564) Team 2 lost 3 with Dennis, W7UBA, leading with high game and series. (177 & 479)

On February 2 Merlin, W7IKG, led team 1 with a 201 game and 523 for series, but they lost 4 games. In team 2, Scotty, K7CYZ, had high game 190 and split high series with Cliff, W7MFG, both having 482. They took one game.

February 13 saw Jerry taking high game and series on team 1. (171-503) Also they took all 4 games. Team 2 lost 4 with Dennis taking high game 152 and Scotty high series 401.

Merl's daughter Merlinda, showed the men bowlers how to bowl. Rolled a beautiful 213 in the Sunday Mixers League at the Bowlero Lanes.

PROGRAMS FOR MARCH

by W7BUN

MARCH 13TH

Dick Hazelmyer will present a 1924 silent film, "The Gambling Fool" starring Franklin Farnum Jr. Dorothy Grassman will play the piano in the traditional manner as was done during the days of the silent movies. This program will be sure to bring back memories for the older members and will certainly be an interesting experience for the younger people.

MARCH 27TH S P E C I A L ! !

Harry Lewis, W7JWJ, from Seattle will present an extrordinary program, "ELECTRONIC COOKING." Harry will present an actual demonstration using home-made equipment. It is guaranteed that you will be talking about this evening for many years to come. This is definitely a very special showing -- DON'T MISS IT!

MARCH 20TH.

ARRL BULLETINS

NR 152
Provided their correct club mailing address is on file, during the next few weeks about 1300 active ARRL affiliated radio clubs should receive the January issue of the new ARRL Affiliated Club Bulletin, containing the annual club questionnaire. In cases where recent officer elections have been held, our information may reach a former officer. If your club is affiliated but has not received a bulletin by mid-February, it is suggested that the current club president's address be sent to ARRL with a request for a duplicate bulletin. All clubs receiving these forms are urged to return the information on the annual survey to ARRL Headquarters, 225 Main Street, Newington, Connecticut 06111 as quickly as possible BT
NR 153
With the approach of the 1968 ARRL International DX Competition, the first and third weekends of February and March, UNITED STATES amateurs are cautioned that the following countries object to communications between their amateurs and those of other countries. Cambodia, Indonisia, Thailand and Vietnam forbid such radio communications. The prefixes to avoid are HS XU XV 3W8 or 8F. CANADIAN amateurs may not communicate with Cambodia, Indonesia, Laos, Thailand, Vietnam and Jordan. Prefixes to be avoided by VE/VO amateurs are HS JY XU XV XW8 and 8F BT
NR 154
February 17 marks the 32nd anniversary of the passing of Hiram Percy Maxim. Many of you are radio amateurs today solely due to his vision and enthusiasm which led to the founding of the American Radio Relay League. The code practice and bulletin transmissions of the ARRL Headquarters Maxim Memorial Station, W1AW, are a particular tribute to the memory of this beloved first president of ARRL BT
NR 155
All amateurs who participated in the ARRL Simulated Emergency Test on January 27 and 28 are urged to make sure that their part was included in reports submitted by their Emergency Coordinator, or net manager. All reports by ECs and net managers as well as appropriate photos must be in by March 15. Emergency Coordinators note that there was an error in the EC annual report instructions. Item 8 through 26 should be limited by item 2 instead of item 7. Remember that March 15 is the deadline for all EC and SET reports BT
NR 156
DX and contest minded amateurs are reminded that one phone and one c.w. weekend still remain in the ARRL International DX Competition. The phone portion will be held March 2-3 and c.w. March 16-17. Full rules appeared in December 1967 QST. If you have run short on log sheets, note that forms

BULLETINS (cont)

are still available without charge from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Please be sure to furnish your full name, call and address with zip code AR

DROOLING CORNER

DX COLUMN

Conditions continue good during February and should be even better during March. Look for Laos XW8 in the mornings, along with Singapore, Malaysia and British North Borneo. Dx is where you find it, according to Dave, W7QFR, who worked Hong Kong and Japan on 75 barefoot.

Gene, W7BTV, knocked off AP2, VR3 and many Asiatic Russians recently and should be nailing the coveted DXCC award on the wall soon.

Del, W7UMJ, is hors d combat with his big quad hanging in shreds.

Last night, at 0400 GMT, the Philippines were S9 here on 10, although 20 was almost dead.

I would like to hear from you about your DX-ing such as what you heard or worked etc.. My p hone is TH 5-4042.

Good hunting....

UPPER LIMITS

Well, so far the dx has failed to show, but hang tough, it's still early in the season. You will have time to get your antenna repaired after the winters rain.

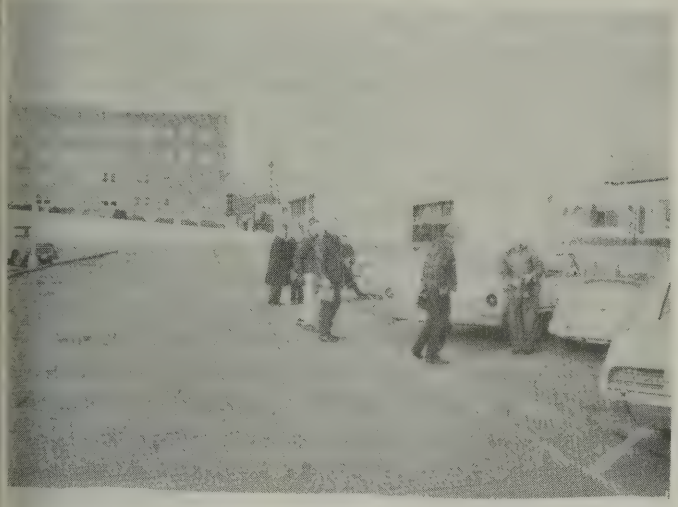

Welcome to the world of hams Eva. Eva, WA7JGT, over in Bremerton, is one of the newest calls on six. Happy dx-ing Eva.

A hint to you vhf fellows, who have 30-D's. An excellent replacement for that rare 7A6 is the the little darling 6AL5. You have to change the socket of course!

Not much to write about this month, hope to have more next time.

RESULTS OF THE 1968 SET

More than fifty different amateurs participated in the 1968 SET in the Tacoma-Pierce County area. Of these fifty-plus stations, twenty nine were either mobile or emergency powered.

PART OF THE MOBILE GROUP

Merl,W7IKG, emergency coordinator and Smitty K7ATD, assistant EC were at C-D Headquarters. The bus was manned by Dick W7RGD, Rick W7GTP, Roy K7USF and Scotty K7CYZ on Saturday, and on Sunday by Cliff W7MFG, Roy K7USF and Scotty K7CYZ. There were others that helped on the bus from time to time and there help was certainly appreciated.

K7CYZ K7USF

The liason station K7LPZ for the Valley group on 29.3, was a very big help with her station.

SET (cont)

The mobiles on 29.3 were under her direction ("HER" being Donna) and with a very FB job being turned in on that particular frequency. The liason was on 3950 kc., by the way.

The following frequencies were used 3930, 3950, 29.3, 29.6, 51.0, 53.290fm and 146.76. SSB was used on 75 metrrs and am on 10 and 6 meters.

C-D BUS AND MOBILE UNITS

Many thanks to all who participated and to those that didn't, well, you sure missed one whale of a nice exercise-

WOMEN'S AUXILIARY

by Marge Hazelmyer

The women's auxiliary met at the home of Sally Tangora on February 7th and we all enjoyed a tour of her new home. Thank you Sally.

Our next meeting will be held at the club house on March 6th, 8:00 pm.

The annual skating party will be held on March 14th. The cost will be 90¢ per person, which includes skates and skating. As usual we will have a pot luck supper before skating. Anyone planning on going please call Ethel Devish and let her know what you can bring for supper.

Due to illness, Betty Ohls resigned her office as auxiliary Secretary-Treasurer. We were sorry to lose her. Get well soon Betty. Faye Monroe was elected as our new Sec-Treas. Congratulations Faye. Welcome to the Railroad Club.

Our February Pinochle party was held at the home of Rene and Otho Smith and a lovely time was had by all attending. Ethel Devish and Otho Smith took home the high game trophies. Mel Roberts and Rene Smith took low trophies. Next month (March 30th) Pinochle will be held at the home of Richard Hazelmyer and on April 27th at the home of Mel and Carol Roberts. Everyone is invited and warmly welcome.

Notice to the membership of the Radio Club of Tacoma-Women's Auxiliary. At our March 6th meeting, there will be submitted for the approval of the membership a change to the constitution and by-laws of the Women's Auxiliary. Anyone wishing to note on the proposal or express their views, should attend the March 6th meeting at the Club House.

. . . . . .

P.S.C.A.R.C.

by W7BUN

At the February 23rd meeting, the following new officers were elected for 1968:

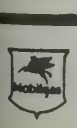

President-Don Ashley W7HMJ, Northwest Amateur Radio Communications System

Vice President-Howard Hayes W7HJW, West Seattle ARC

Secretary-Jerry Seligman W7BUN, R.C. of Tacoma

Treasurer-Gordon Feather W7KLO, Lake Wash. ARC

Docket number 17989, Notice of Proposed Rule Making, from the FCC was read and discussed. This would amend the Commission's rules to permit disabled persons to obtain Amateur Extra Class and Advanced Class licenses by mail examinations. Interested parties may file comments by April 1st.

NOTICE TO XYL'S

A special notice to the xyl's of all club members!! On the March 27th. meeting there will be a demonstration on electronic cooking. This is a fabulous program because it is not comercial gear being used. It is all home brew. Here's your chance ladies to get your OM to build something worth while for a change. Don't miss this meeting.

CORRECTION TO ROSTER

No new members to report this month. We do have one correction on address to report. Please note and put it in your Roster book on the pages provided for this purpose.

ANNUAL BANQUET

Our annual banquet held February 24th. at the McChord N.C.O. Club was one of the most successfull banquets I have attended in my 10 years in this club.

There were 102 members and friends there to enjoy the food, drinks, visiting and dancing.

They served two legs of beef, each weighing in the neighborhood of 38 lbs. each. That's just part of the bull that was served during the evening.

Among our distinguished guests were Don, W7HMJ from Olympia the President of the Puget Sound Council. Also the Vice President of the Council Howard, W7HJW.

Max W7AEA, introduced our new officers for the year. He had a little story to tell about each of our new leaders and some mighty interesting things about the old ones too.

It was nice to see some of the old gang show up this year. Bob K7ZVA, was there with his wife Kay and her mother. Alex W7AZR and wife Helen. Nice to see Easty W7CBE, and wife at the dinner. Norm WA7EFN, brought his wife to help him carry his loaded plate back to the table 3 times. We didn't recognize Eric WA7GHE, with all that hair on his face.

Some people there even got to see the go-go dancers that were brought in for another party going on in another part of the hall. WOW!

The evening was finished off with dancing and eye-balling with the old friends and the new. Let's have these annual banquets at least semi-annually. They're really great. Our thanks to Jerry W7BUN.

FIELD DAY

Our good friend and fellow amateur, Joe W7IG, has again invited W7DK to hold our field day at his farm near Eatonville. This will be the 14th. or 15th. year for field day at this location. I'm sure everyone in the club extends his or her thanks to Joe and Helen for this invitation.

SLIVERS AND SPLINTERS

Ralph, W7COP, is back home from a weeks stay in Tacoma General Hospital. Doing fine but still confined to bed for a while.

A hurry up and get well goes out to Louis Haas, who is in a local hospital.

The committee on lifetime membership in the Radio Club is coming along pretty good with a plan to present to the Club shortly.

The Club has been requested to donate to the fund for helping the group of amateurs working on getting a change on the present license plate bill.

Max, W7AEA, back from the East coast, where he put in a hard week arguing in court with the FCC. The way he bowled up a storm with the club bowling team, things must of turned out ok.

Don't forget, George WA7BHH, is still running code classes just before meeting time. Not too many takers at this time. Get out and pass along the information to some of the non-members. Might get some new members into the club this way also,

Alex, W7AZR, was passing on some information to Dick, W7RGD, on where to find gold dust at the club banquet. Seems Alex has been known to go out and work a "PAN" in the streams. He has some of that yellow stuff to prove it too.

The Club extends it's sympathy to Darrell Erickson and family at the recent loss of Darrell's father.

Bob W7RXS and Inez W7RXT are already moving back to Fox Island. Seems like they just moved back to town a short time ago. Bob reports a lot of boats in their harbor looking for that elusive Salmon. He also mentioned a lot of "SKIN-DIVERS" active but can't quite figure out what they are looking for.

Roy W7AZI and Ethel W7WLX busy working with the Agate Club, getting ready for their big March show coming up very soon.

Jim, W7BSW, busy working on the new MARS station out on the base. Are in the process of moving into the old SAGE building. Plans on having it in operation in March. Suggested having the Radio Club out for a visit, to see the operations and equipment.

For those of you, who have not attended the meetings of late, the L.I.D. assesment of $600.00 has been paid off. The announcement was made at the first meeting in February by Treasurer, Hunt.

The club has received an invitation to hold it's annual field day operations at Joe's, W7IG. It's about that time of the year again. Better start thinking about f-d and getting your equipment in shape and making plans. President Ed has appointed George Abbott as Field Day Coordinator. So if you plan to attend, contact George and make make known your plans to help.

That's it for this month. See you all at the Radio Club!

THE RADIO CLUB OF TACOMA, INC, -- SUMMARY OF 1967 ACTIVITIES AND PROJECTS

Membership at the end of the year - 145 Active committees - 30

SPEAKERS:

Bill Watson, K7JHA (ARRL)
Jim Mashburn, W7BSW (MARS)
Ted Hunter, WØNTI (Eyebank Net)
Ted Glanzer, K7GCQ (Antennas)
Dyer Downing, W7CGP (Emerg. Comm,)
K7YZZ & W7FEN (Slow scan TV)
George Harper (Electronics in astronomy)
Wes Haywood, W7ZOI (Solid state equip.)
Irv Kridler, W7BIB (Quad. antennas)

FILMS AND SLIDE SHOWS:

Science of languages (Bell Tel.)
History of DX (ARRL)
Emergency Communications (ARRL)
Field Day (Radio Club of Tacoma film)
Trip to Baja, Calif. (Clare Sherrod)
Greece & Greek Islands (Paul Harlinger)
Archeology in Mexico (Oliver Edwards)
Madagascar (Dr. Bolstad K7TBE/5R8AL)
Tour of Europe (Tex Miller)
Communications & Mt. Rescue work (John Simac)

FIELD TRIPS

January - Tour of FAA facilities at Auburn (67 members & guests)
March - Tour of C141A Flight Simulator at McChord AFB (58)
April - Delegation to Skagit Hamfest (12)
July - Delegation to Washington State Hamfest (23)

PROJECTS & EVENTS

February - Logger's contest - publicized in QST & CQ Magazines.
March - Annual Banquet - 70 persons attending.
Skating party and potluck - sponsored by Women's Auxiliary.
April - Communications for Daffodil Parade - New C.D. bus used for first time.
Bake Sale and auction - sponsored by Women's Auxiliary.
Communications for TOPS Convention- received $125.00 donation from TOPs
May - Mother's Day Breakfast - 74 breakfasts, 36 corsages.
Communications for Puyallup River Boat Race.
Communications & PA system for Garden of Paradise flower show.
June - Rummage Sale by Women's Auxiliary.
Field Day - won 1st in 11 x-mtr class, and second in entire nation. Served 186 hot meals (117¢ each) - made new color and sound movie for ARRL library - 1st U.S. Flag flown in So. Viet Nam flown over Field Day site.
Display in County/City Bldg. - 1917 and 1967 ham stations.
Pancake Baking Contest - sponsored by W7LIR & W7AZI.
July - Communications for Soap Box Derby.
August - Cooperative picnic at Spanaway Park with Valley ARC of Puyallup (W7HZ)
Picnic on Hood Canal - sponsored by W7HF.
Picnic at Westport - sponsored by W7LIR.
September- Visit from 11 members of Auburn High School Radio Club.
October - Potluck at clubhouse - sponsored by Women's Auxiliary.
November - Boy Scout Jamboree on the Air.
Sweepstakes Contest - club had 9 entries, 156,800 points total.
Radio Club party - 90 persons.
December - Radio Club annual X-mas party - sponsored by Women's Auxiliary

TEAMS, GAMES & CONTESTS:

Pinochle games, Horseshoe tournament & bowling teams (2 men's & 1 women's league).

OTHER ACTIVITIES AND ACCOMPLISHMENTS:

Friday hidden xmtr hunts - code practice 1 hour before each meeting - AREC Net on the air 1st, 3rd and 5th Wednesdays at 7:30 PM on 3987.5 kc., 29.6, 51.0 & 53.290 Mc.. Received WAS Certificate in September - Affiliated with Mt. Rescue Council - New Club banner to take to hamfests - Logger's Bark monthly newspaper and annual roster book - Account at Blood Bank - Official club frequencies, 29.6 & 51.0 Mc. monitored continnually - Club Orchestra, The Zero Beats - Test equipment available to members

THE LOGGERS BARK

VOL V NR IV W7DK APRIL 1968

FROM THE PRESIDENT'S DESK

With a quarter of the year gone, days getting longer and nicer, things look good at the club. We are getting some of the newer members to take major parts in the club activities. This is all for the best interests of the club.

Don't forget we need help with communications at the Daffodil parade. Otho Smith, K7ATD, is chairman.

The new field day rules are out, and we will notice that several things are different, but George Abbott, WA7BHH, chairman will tell us about them. Field day is June 22 and 23.

We regret that Jerry Seligman, W7EUN, has found it necessary to temporarily curtail his many activities in the club. Hurry back, Jerry. Roy Devish, W7AZI, has been appointed program chairman and any suggestions for future programs will be appreciated by him.

We have scheduled the long awaited trip to the Evans-Atkinson observatory, operated by the Tacoma Amateur Astronomers for the night of Friday, May 10th. Mark the date on your calendar. More about this next month.

Those of you who read the "Bark" and expect everything that goes on to be included, and then don't come to the meetings, are still missing the fine associations, and the many sidelines in the ham fraternity. 73 Ed K7CZM

PROGRAM POSTPONEMENT

There has been a postponement of our Electronic Cooking demonstration. Due to work, Harry Lewis, could not make the March meeting. He has promised to be at our meeting on April 10th.

If things go right we'll see this marvelous program that night. Be sure and attend!!

NO DUES, NO NEWS IN MAY ! !

HAMFESTS!

This month we have two Hamfests coming up in the near future that you should consider attending.

The first one to come up is the Skagit Amateur Club Hamfest. This one will be on April 20th. which is on a Saturday and is in the city of Bryant. Dinner will be served at 6:00 pm. The price is $3.00 and this will include the dinner. Included in the program is a tour of Jim Creek Navy transmitter. (1,000,000 watt transmitter) If you intend to take the Jim Creek tour please notify W7LFA in Kirkland phone 822 3665 that you want to go on the tour so that he can make the necessary clearance arrangements that are still necessary to go through the station. This has to be done before the actual date.

The second hamfest to come up is the Bremerton one, which is in May. True this is a ways off but don't get around to getting tickets for this one too late or the cost will be up at the door. Hunt WA7AKW, our present Treasurer has tickets. Contact him and he will be sure that one is in your hands before you forget. There will be lots of prized this year. There are plans for more distributors display booths. Along with the many activities this year they will have the tour of the Battleship Missouri available and this year, if you want to take pictures, it will be possible to do so. The price per ticket is $4.00 now and $4.50 at the door, so contact Hunt and be sure your reservation is in.

COMING PROGRAMS

APRIL 10TH
Harry Lewis W7JWJ program on "Electronics Cooking", see last month's notice.
APRIL 24TH
Movie to be announced.
APRIL 18TH. Board meeting. Everyone welcome!

CHANGE OF W7DK

It was announced at the last meeting in March that Max, W7AEA, will give up the custodian duty of the club's call, W7DK. Max requested the club secure another member to the custodian's job. At his suggestion, Del Kohler, W7UMJ, was nominated to take over the duties. Del graciously accepted the request and as soon as the necessary paper work is completed with the FCC, the club will have a new trustee for the station call. As a vote of confidence, the club members should get the club station on the air more often. How about it? When is the last time you heard the club call used excluding field day?

DUES ARE OVERDUE FOR QUITE A FEW!! WE KNOW WHO AND SO DO YOU!

UPPER LIMITS

Sorry, we don't have anything to report on six am, except that my antenna is still ka-put! So if anyone has any news about six, drop me a note and we will print it next month.

Two fm is really hopping, not only on 146.76 (local frequency) but the upper end of the band is gathering more every day.

Six fm is fast catching up with am. In fact I think all the old gang have gone over to fm. If you have three "rocks" you will be kept busy on six fm and you won't need any other rig. If you want to become popular fast, just come up with a cheap and easy way to have a tuneable receiver for fm.

Two meter am is also gaining a lot of new operators.

There is no dx to report but keep listening, it will be there soon! K7CYZ

MENJS BOWLING

Only three weeks of bowling to report this time but they were three interesting nights.

First; on the 5th of March, Bob W7RXS, Merl W7IKG and Bob's son Jim all tied for high game, each rolling a 170. Merl came out on top with high series rolling a three game total of 465. However they lost four games.

Team 2 kept up with team 1 by also loosing 4 games. Cliff, W7MFG, had high game (177) and Max, W7AEA, had high series. (464)

On March 12th, the two teams came "head-on". Team 2 evidentaly have the hardest heads; they came up with three games out of four. Anchor man, Cliff, led the scoring with a 194 and also series. with 483. Bob, W7RXS, had high game for team 1 with a 189. Merl again came in with a high series (503) but could only salvage one game.

On the 19th the ordeal of the previous week took it's toll. Team 1 lost four games and team 2 lost three. Merl took full honors with a 192 game and high series (492), for team 1.

Max, W7AEA, had high game for team two with a 159 and Dennis, W7UBA, had high series with a 450. As you can see, no one was really rolling.

Let's hope that the next report will be more hopeful, for both teams. ....., K7CYZ

WOMEN'S BOWLING

We have finished 3 quarters of bowling and now on the home stretch. The D.K. Sparkies took first place in the 3rd quarter.

On February 29th, Rene Smith picked up a 6-7 split. Verna Ryan had a step ladder. (136-146-156)

More next month. Vivian Huntley

SKATING PARTY

The club had it's annual skating party Thursday March 14th. The hot-dog supper was good as usual.

The kids really had a grand time at the party. The attendance was smaller than usual. The ones there, sure were enjoying themselves.

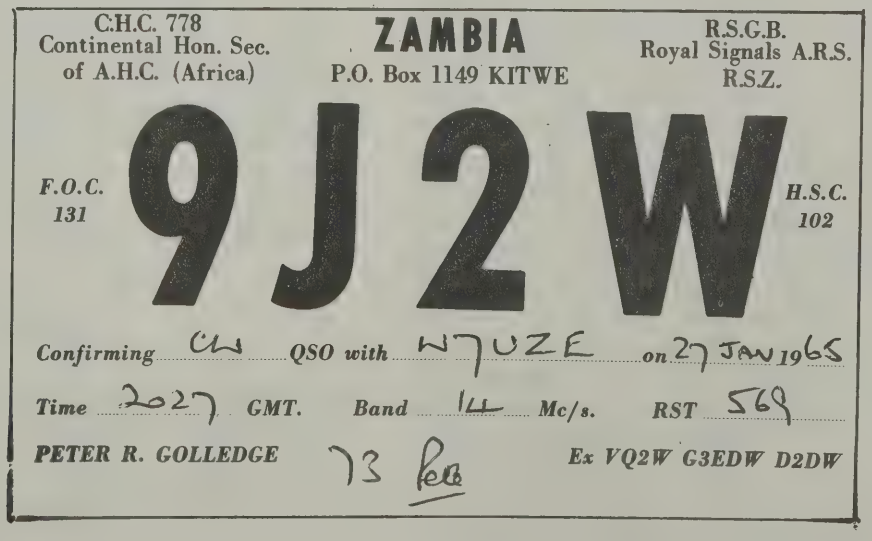

There were no broken arms or legs but some of the gang had some nasty spills.

There was some talk that next year they will have an ice skating party instead of the roller skating party. If this is the case, I think that some of the "oldies" will show the "youngsters" some fancy blade work. K7CYZ

NOTICE TO CLUB MEMBERS

Dues were due by the first of April, so now all unpaid members will no longer get the 'Loggers Bark' as of this month. This month's (April) is a gratis paper for some. All members of the club, as of January, will still be included in the Club roster book but not on the mailing list if dues are not up to date.

D R O O L I N G C O R N E R !

ARRL NEWS

The following is a letter addressed to Roy Devish, W7AZI, during the month of March. Roy has given the 'Bark' permission to reprint it at this time. We are sorry that it was not in our hands early enough to photograph it and print it, in it's entirety, complete with letter head.

March 21, 1968

Roy Devish, W7AZI
1330 East 64th Street
Tacoma Washington, 98404

Dear Roy:

Bob Thurston sent along your list of accomplishments of the Radio Club of Tacoma for 1967. That is indeed impressive. If all our affiliated clubs were as active as you folks, what a club program we would have! Best wishes for continued success. 73.

Sincerely,

George Hart, W1NJM
Communications Manager

The list of accomplishments that is referred to is the list published in the March issue of the 'Bark.' Also the actual list was presented to George Hart by Bob Thurston, W7PGY, in person.

Bob was at the last meeting of the club in March and advised the club members that he is presently getting ready to go back to ARRL Headquarters in the very near future for the board meeting. If you, as a member, have any ideas or suggestions that you would like the board to give thought to, now is the time to get in touch with Bob and let them be known to him. A letter or call would be welcomed by him.

Bob also mentioned the fact that he will attempt to set up a schedule for an ARRL Headquarters official staff member, to travel in this division during the year. He would contact the affiliated clubs etc in the area during the year.

W7PGY also devoted some time discussing past programs of ARRL and some of the proposed programs to consider. We are fortunate in getting Bob, who is a full member of the Radio Club, to take time out from his busy schedule to come over from Seattle and give us the latest information from the League. He holds membership in a few other clubs too.

DO YOU KNOW?

That whenever an amateur tells you his range is 5,000 miles, it will be necessary to take the square root of this number and divide the answer by four in order to get his correct range?
(FROM PACIFIC RADIO NEWS JANUARY 1917)

ARRL BULLETINS

NR 157
The ARRL Communications Department is pleased to announce the availability of a redesigned operating Aid Number 9a, concerned with amateur message form. This convenient card offers complete information on different phases of message handling which include handling instructions, precedences, special net signals, abbreviations, prosigns and prowords. To obtain your copy of Operating Aid 9a, send a self addressed stamped envelope to ARRL, 225 Main Street, Newington, Connecticut 06111 BT

NR 158
The ARRL Board of Directors meets annually in May to formulate the course of ARRL affairs during the coming year. The full members of ARRL elect the Board which has the overall responsibility for managing the affairs of the League. This democratic process is effective only to the extent that the membership participates. Now is the time for members and affiliated clubs to communicate with their division director at the address shown on page 8 of any 1968 QST BT

NR 159
On March 12 by voice vote the House of Representatives passed HR 14910 which would give the Federal Communications Commission power to control the manufacture, distribution and sale of electrical devices capable of causing interference to radio communications. The measure now goes to the Senate. Amateurs interested in its passage there may wish to record that fact with their Senators. Other details on this bill will be in the May issue of QST BT

NR 160
FCC has made minor amendments to its rules governing the moving of a station from one permanent address to another. An application for modification must be submitted within four months after the move, and before any operation takes place from the new address. On the other hand, there is no longer a limit to the time such a station may operate as a portable once the application has been filed, and the operator need send a notice only to the district engineer having jurisdiction over the new address. Also, FCC has codified its rules for preferred call signs into a new section 97.53, without changing its previously informal ground rules. Both matters will be covered in the May issue of QST. The Governments of Switzerland and Canada have agreed upon reciprocal licensing. Operators of one country may secure permission to operate in the other effective immediately AR

We don't mind suffering in silence as long as everyone knows we are. (HAM MONITOR 1967)

K7???

This month's picture is of a member of the club that has been on the roll call for about 10 years. He has contributed considerably on numerous club projects. He may not be on the air as much as he would like to but has the capabilities and equipment to get on 80 through 2 meters.

Answer next month. Don't forget to get that picture to one of the 'Barks' staff for future issues. I'm sure if you hunt through that box of old pictures in the attic, you could come up with one.

POET'S RETREAT

IT HAPPENS EVERY YEAR
by K7NPG

Field Day is coming
It almost is here
It's the biggest event
Of the Amateur year.

When all of the hams
Take off in wild flight
From the rest of the world.
They drop out of sight.

But they are not lost
To that I will swear
They are putting emergency
Gear on the air.

For twenty four hours
They will have a ball
Defying the elements
Bad luck and all.

They will go without sleep
Till their mind is a fog
To get one more contact
Another station to log.

Then at last it's all over
Field Day's at an end
And you hear some one mutter
"I'm dead - beat - my friend."

He loads up his gear
And heads 'round the bend'
I still hear him mumbling
'Boy - never again.'

NEW MEMBERS

We would like to welcome into the Radio Club, one new member for the month of March. Please add him to your present roster book on the blank pages provided for this purpose.

Glen R. Snow WA7BBO
7313-146th Street S.W.
Tacoma 98439 JU 4-7535

We hope the new member and the old members will come to the regular meetings and join in the many programs and activities sponsored by the club.

If you don't know the price of success, the Internal Revenue Service will gladly furnish you with an income tax table....
From the Ham Monitor

SLIVERS AND SPLINTERS

Ethel, W7WLX, had a 3 day trip back to Savanna, Georgia to see her daughter Janet.

Ralph, W7COP, is back among the working men. He also has a new pick-up truck. Good to see you up and atem' again Ralph.

Would like to say a 'speedy recovery' to the XYL of Marion, K7TCY, who has been in the hospital.

The Churchwards (W7RXS & W7RXT) and the Bices (W7AEA & M.J.) are sporting new boats this season Seems we have a yacht club forming here in DK, with hams aboard.

Anyone need any landscaping done? Just ask Emil, K7GPK. He's taking another night school course. This is the 3rd course this year. It keeps you from getting rusty, anyway.

Doc Kohler, W7UMJ, is trying out all the new cars on the lot trying to decide which one to buy.

Our condolences to Tom (W7FUL) and Mona Gilmore. Mona's father, Ernest Woods, passed away in March.

Dick, W7RGD, is now on 2 fm with a walkie-talkie thanks to the help of Len, W7ZZL. Dick's planning on using the rig on the daffodil parade, if needed and also on his trip up the Alaskan hiway this summer, with Beryl, K7NPG, Makes good communications between cars while on the road.

Art, W7JGN, is back from his trip to Europe and doesn't look any worse for wear, Busy thinking up an add for the roster book.

Phil, W7AQB, shaking his head for a column for the Bark. Seems he hasn't had time to listen in on the dx bands lately. How about you other dx-ers giving Phil a call and giving him some of the low-down on the good ones you've heard lately?

We'll have to make it a point to get Dorothy Grassman back to meetings. We haven't had a new member signed up into the club for over a month.

Jim, W7BSW, is now operating from the new MARS station at the old SAGE transmitter site. The Bark will have an article next month, complete with pictures, giving the low down on the operations.

A pat on the back to Easty, W7CBE, on obtaining his Advanced ticket in the month of March.

NEW BY! LAW PROPOSED

During the last meeting in March, a new by-law was read to the membership. The present by-laws require a written notice be made to all members on voting in a new by-law, at least 30 days in advance of the actual vote. This article will serve as notice to all members.

The new by-law is regarding a life time membership in the Radio Club of Tacoma and follows as it was presented in writting to the club.

SECTION I

Dues to be based on twenty (20) times the annual dues in force at time of application. (*) This may be paid in two (2) annual instalments. The breakdown for age groups are as follows:

Prior to the 36th birthday will be 20 times annual dues. (*)

36th	birthday	to	46th	birthday	will be	$110.00
46th	''	''	56th	''	'' ''	95.00
56th	''	''	66th	''	'' ''	75.00
66th	''	''	71st	''	'' ''	65.99
71st	''	or over				45.00

Life membership for spouse $20.00 when accompanied with above member. Life membership will apply to 'Regular Member' fees only. No student or special member fees.

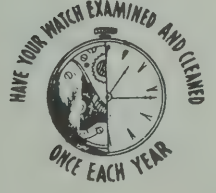

SECTION II

The life membership dues will be deposited by the Treasurer of the Radio Club of Tacoma, Inc. into a special fund and will be governed by the by-laws and constitution of said club, except that the treasurer will draw from this fund the total annual dues of the life members annually and deposit the amount into the club general fund.

SECTION III

In case a member applys for life membership and and agrees to pay in two (2) annual installments, after paying the first installment he discovers that he cannot continue with the installments, the money paid in the first (1) installment will be pro-rated into annual dues and the member considered to be paid for that amount on annual dues. At no time will the money be returned to the mem-

THE LOGGERS BARK

VOL V NR V W7DK MAY 1968

FROM THE PRESIDENTS DESK

With daylight saving time here, we know that the nicest part of the year is upon us.

May should be a busy month, starting right off with the Ladies Auxiliary on the first, at the club house. The regular club meeting of May 8th promises a fine talk by Bob Deitz of the F.C.C..

On Friday May 10th, we will leave the club house at 7:15 pm and form a caravan at the Roy cut-off at 8:00 pm and go to the Evans-Atkinson Observatory. Thru their large telescope, we can expect to see twin stars, the moons of Jupiter, the ring on Saturn, the craters of the moon and other phenomenon A map appears in the 'Bark' for those who want to go on their own.

On Sunday May 12, is the Mother's Day Breakfast Mothers free and 50¢ for others. Looks like Devish, Huntley, Smith and Coles will do the honors.

The Bremerton Ham Fest is on Saturday May 18th and that is always a big day. Hunt Mitchell has advance ticket sales at a discount.

The trip to the Warburton Place at Westport is scheduled for August 24 and 25 - a good clam tide date; we always have a good time there and we hope to have a chartered fishing boat.

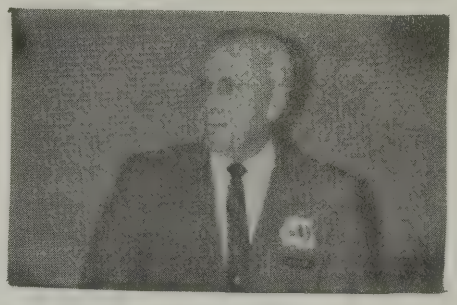

On the sad side, another one of our members, Herb Campbell W7SEM has joined the silent keys. Herb was also a member of the QCWA and was active on mobile and the 2 meter band.

We are glad to say that Doc Spike is on the mend after a short trip to the hospital. We will look forward to seeing him again at the club.

We still need more operators and people to do the logging for field day. Please contact George Abbott if you want to get in on the fun. We are considering having a work program on ham gear, other than the meeting night. If interested, let me know. 73 Ed K7CZM

Hey buddy! How are you going to get a square wave out of a round wire?

HONORARY MEMBERSHIP

W7OS

During the regular meeting of the club on April 24th, the board members presented a motion to the club to vote on. The board was presented a written recomendation from three members, Roy Devish, Scotty Huntley and Ed Coles, during the board meeting of April 17th. The club members voted without a single nay and was followed by an applause.

Doc now becomes the sixth member of the Radio Club to receive this honor since the start of the Radio Club of Tacoma Inc. There are presently 4 members who hold a Honorary membership in the club. They are Dwight Mason, Al Stenso, Ed Moe and Doc Spike. Honorary membership confers upon the recipient a paid-up lifetime Full Membership in the club, with full membership rights.

Congradulations Doc. A well deserved honor.

ARRL CLUB AWARD

The Sweepstakes Contest is over and the tallies are in. The Radio Club of Tacoma received 2 awards. One for phone and one for cw.

The high phone score goes to Jerry, W7BUN, with a score of 122,500.

The high cw score goes to Chip, K7VPF, with a score of 15,180.

There were 7 entries in the phone section and 3 entries in the cw section.

Congradulations to the fellows for a good job. Where were the rest of the club members? Rather a small show of entries considering the size of the club. Maybe next year we will see a larger turn out.

COMING EVENT

The President, Ed, read an invitation from Stan W7LIR, for an annual picnic at Westport on August 24th and 25th. It is a little early to make plans however if you want to participate in the salmon fishing during those dates, you had better contact Merl, W7IKG, and let him know soon of your intention to fish. It is necessary to make the reservations for the boat several months in advance. Last year there was no fishing trip due to the fact the club waited too long before trying to make reservations and it was not possible to reserve a boat. So if you intend to go out and catch one of those big lunkers, contact Merl.

Stan has plenty of room down there if you want to spend the night there. You will have to supply a sleeping bag however. He has room in the house and also has a bunk house in back of the main house with bunks. Also there is plenty of room for trailers or campers if you want to park for the night.

Keep the date open for a lot of fun.

NEW BY-LAW

The by-law proposed last month and printed in full in the last month's paper, was voted on and passed during the April 24th meeting. The new by-law will be printed again in full in the back of the new roster book, which is near to the printing date at this time. Also there will be noted in the by-laws a change from the former roster book. It was not changed by the club but by the oversight of the staff. Please check your back issue of the Loggers Bark December 1966 for the corrections. The only change in that conv would be the deletion of the $9.00 dues section, which was voted out and returned to the present $6.00. Also there is one other addition and that is the by-law regarding to the deduction of 50¢ for the subscription to the Loggers Bark.

The new roster book will have all the corrections. KWe hope!)

MOTHER'S DAY BREAKFAST

Again this year the loyal men of the Radio Club will treat the wives and mothers to a delicious pancake breakfast. The chef will be Stan, W7LIR, and he is asking for volunteers to help with the setting, serving and clean-up. The wives and mothers, of the members, are to be treated royally that day. Their breakfast is free, all others pay 50¢.

Let's see a big turn out to show Stan our appreciation.

CONFUCIUS SAY: "Rolling stone gather no boss!"

RIVER BOAT RACE

The annual Puyallup River boat race is comming up in the near future. A meeting was held at the Hi-Ho Center during the latter part of April. At that time the club was represented by Steve, K7SSC and Len, W7ZZL. The radio club was requested to help with the communications same as was done last year.

The consensous of opinion was that the race will be considerably larger. There are 2 to 3 times the entries that were entered last year. Prizes are larger and more of them. This event is expected to become larger each year and will be a pretty big event to handle, so all the assistance that can be obtained will be appreciated.

The plans, at the present time, call for operations on the 2 and 6 meter bands fm. Another meeting is scheduled on the 30th of April and we hope to have more information on the subject in the next issue.

ARRL NEWS

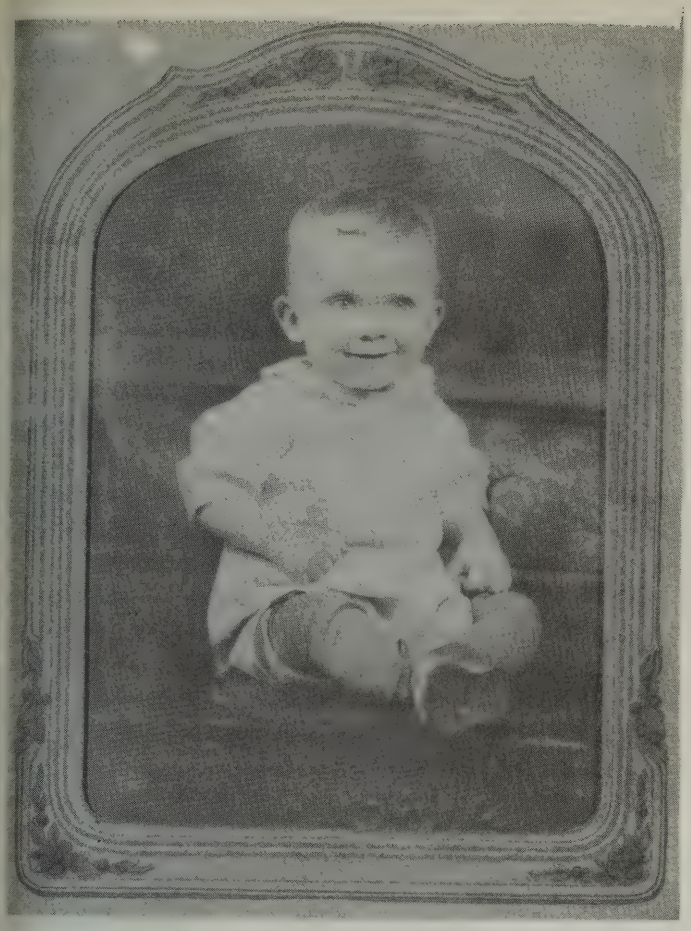

Bob, W7PGY, attended the meeting of the 24th and gave a brief talk to the membership, regarding his coming trip east to ARRL Headquarters for the annual board meeting. Bob will be making the trip alone, since his XYL broke her right leg just above the ankle and did not want to make the trip on crutches. He expects to be back in the Northwest about the middle of May.

He mentioned several of the topics to be talked about and voted on, while there. During the club meeting last month they were talked about, so we will not go into detail regarding outgoing qsl bureau, Novice licensing, etc. However on his return, Hart from Headquarters will be touring the Northwest and will be in the Tacoma area in July. He will also attend the Yakima Hamfest. The club will be making arrangements to entertain Hart, on July 10th, during his stay in Tacoma.

EAGLE'S CONVENTION

The Fraternal Order of Eagles has asked the Radio Club of Tacoma to supply the official cars for their State Convention. This will be June 13, 14, 15 and 16. We will have a station set up at the Eagles Club building and have space in front of the building for official parking.

We will need a lot of help on this one, so anyone who can help, is welcomed. If you can help see Scotty, K7CYZ, or George, WA7CSF. 10, 6 and 2 will be used. There is room for 75, if we have any mobiles on that band, so there is room for everyone.

W7???

W7??? has been a member for over 10 years. Operates 10 and 20 plus 6 fm.

Last month's picture didn't fool too many, but there were a few who didn't guess Beryl Hood, K7NPG. We didn't stump him on who it was but he was very surprised to see his picture show up on the pages of the Bark.

Don't forget, we are still in need of more pictures. The picture will not be damaged in anyway and you will have it back in a couple of days.

Confucius say: "Girl's hair always kept neat by bashful boy-friend!"

SLIVERS AND SPLINTERS

Thanks to George, WA7CSF, for the nice manicure job on the lawn at the club house.

Sorry to hear Ralph, W7COP, is in that list again. Let's get back, back in shape Ralph!

Doc, W7OS, is recuperating from his sojourn to the hospital. Nice to hear you're home Doc.

Thanks to Pinky for all the coffee and cookies at the meetings and also the board meetings.

Roy, K7USF, has his rig back finally! It's been so long he is asking help to show him how to run it - Just call CQ Roy.

Karry Ziegler has a new call now, WN7JPC. Congradulation Larry and welcome to hamdom.

Vivian Huntley held a winning ticket in the Jobs Daughter's raffle. Thanks to the other doners who didn't win but helped make it possible.

Dutch, K7SOM, stopped for coffee with the Chavises Sunday and even left his dues for the club.

Mel, K7ATF, is busy building a new apartment house. Take time out to come to a meeting Mel. We would like to see you again.

Dewey, W7HF, has been made a trustee of the Aberdeen Club.

Gene, W7BTV, busy getting ready for a big move to his new QTH in Gig Harbor. When the deal was closed, it turned out the home he is buying was owned by W7PZY. Gene expects to be moved in by June.

Thank you cards were received by the club from the Koth's and Campbell's at their recent loss.

Scotty, K7CYZ, made a report on the progress of the club banner. He hopes to have it ready for the Yakima hamfest.

It was noted at the meeting that 13 Tacoma amateurs were present at the Skagit hamfest.

Congratulations to Henry Gepke, WA7HFG, on passing his General License.

Don't forget to leave open July 13 and 14 for the annual Yakima Hamfest. The Radio Club of Tacoma, has in the past years, had a large representation of our membership at this event.

DAFFODIL PARADE

The members of the Radio Club of Tacoma, The Jeepsters and Citizens Band members furnished communications for the Daffodil Parade, held April 6.

The C.D. bus was used as the base station, with members placed at stratigic positions along the parade route with walkie-talkies.

On the left, in the picture, is Smitty, K7ATD, and on the right looking over his shoulder is Lavern, K7NKZ. Between six meters and 2 meters, they were kept busy with traffic.

Roy, K7USF, is moving back into position the 2 meter rig that decided to go 'South' in the middle of the action. He made the necessary repairs and had the equipment back in operation in a short time.

A 'Thanks! Job well done' was given to all from the parade director.

FIELD DAY

by George Abbott

As you all know, field day will be held this year on June 22 snf 23. We still have openings for operators on the following bands and mode. 10 meter cw, 15 meter cw and 80 meter cw. So if you are interested in operating any of these positions please get in touch with me and let your wishes be known. Also if you have any equipment that may be used for field day, please let me know.

There has been some changes made for field day 1968 and the complete rules will appear in the May QST. The main change concerns the setting up time for field day. Instead of being able to set up before the date, the setting up time will be included in the 27 hour period this year. This means a little hard work for everybody, before the enjoyment of working in field day. I think that if everyone pitches in, we will have no problem.

I also have the complete rules for field day and will have them pretty well digested soon and will discuss them in full at future meetings. So please attend the meetings so that you will know what is going on.

CONFUCIUS SAY: "In business, stenographer who works for rich boss find herself in lap of luxury!"

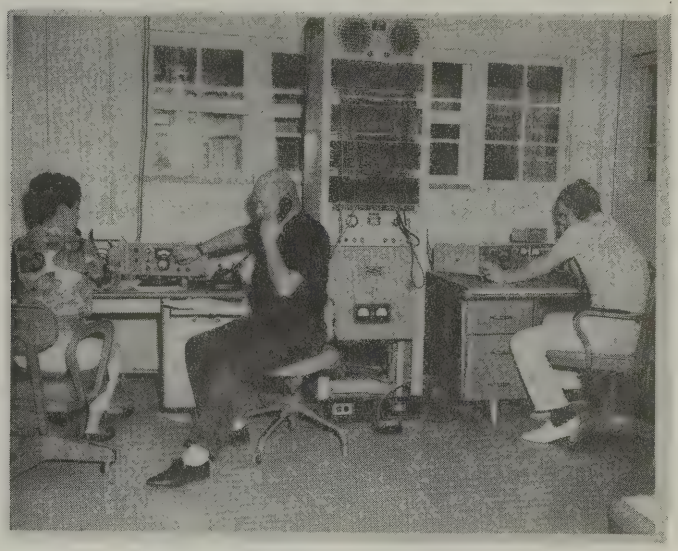

MARS AFB STATION

The above picture is of the new MARS AFB station located just off the McChord base. This was formerly the SAGE transmitter site. It went into operation March 18th. In the picture you will note two beams ontop of 2-140 foot towers. The one on the left is a 5 el. 20 meter beam and the one on the right is a 6 el 10 meter beam. Not seen in the picture there are 4 more beams on the other bands along with 2 verticle log perodicals 140 feet up in the sky. 2 more horizontal log perodicals complete the picture. The last 4 are flat from 2mcs to 32 mcs. and will handle 10 kw of r.f. power.

In this picture you can see 6 r.f. finals with power supply. This is part of the total of 15. All of the rf is terminated in a patch panel and all antennas are terminated to same panel making antenna switching relatively simple. Also a water cooled dummy load (10 k.w.) is at the panel for quick conection for test purposes. The panel is complete with interlocks to prevent accidentally keying a transmitter without load. All of the remote antennas are fed with RG-258, filled with dry nitrogen under 5 pounds pressure. All antenna patching is done with RG-17.

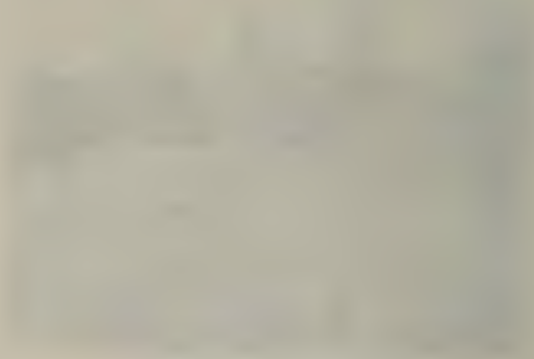

Pictured here are three members of the crew handling traffic. On the left is Dot Theil, wife of Major Theil who is with the 318th fighter interceptor, located at Osan Korea. She is handling a phone patch on 20.808 mc. to Cam Rahy Bay, Vietnam. In the middle is Andy Ackerman, small arms instructor at McChord. To the right is Tom Talley, radar technician for 62 Communications and Electronics Squadron.

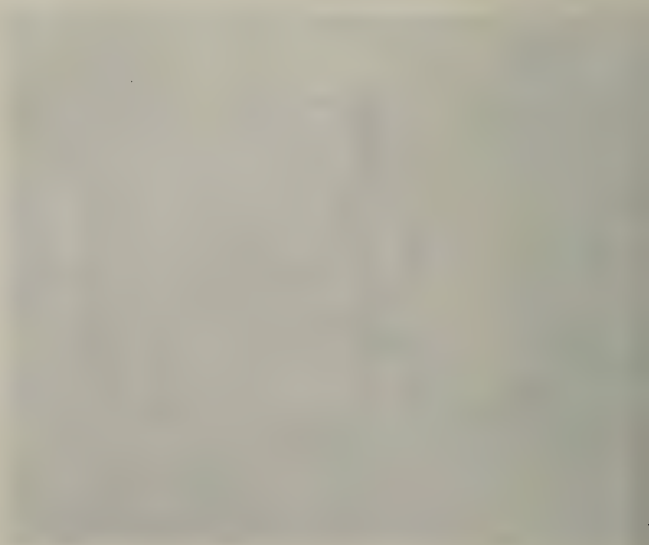

The rigs are KWM2-A's with the 312B5 control units. They are used in all positions. They are loaded into a Collins DL-1 dummy load then tapped off at 1 watt to drive the 4CX300B in grounded grid, which drive the second amp, 4CX300B in AB1. It in turn drives the 3rd amp 4CX5000R in AB1. The final tube has 5,000 volts and capable of 5 amps plate current.

Jim, W7BSW, advises they have open house now to all visitors and are open on a 24 hour bases. During the summer months, when you can get out and see the antennas to appreciate them, Jim hopes the club will come out and tour the area and see the operations.

If you are interested in operating at the station, Jim would like to hear from you. As the station gets in full operation, there will be a need for operators to handle the large volume of traffic going thru the station. In February, alone, they handled 4,568 pieces of traffic and expect to far exceed this figure in the future. On one Sunday they handled 271 phone patches into the Vietnam area. So if you are interested in helping, contact Jim Mashburn, W7BSW.

ARRL BULLETINS

NR 161
Field Day 1968, June 22 and 23, will incorporate a number of new features. Suggestions from the field should make this annual test of emergency gear particularly challenging this year. Significant changes include combining Class D and E home stations into one category eligible for the d.c. input and emergency power multipliers. The Field Day period will be limited to 27 hours, including set-up time. Power multipliers have been rearranged to break at 10, 50 and 200 watts. Increased points for traffic and 100% emergency power will be offered. In addition, the 1.5 battery multiplier will apply to the under 10 watt Class A as well as Class B and C stations. Full rules will appear in May QST BT
NR162
Attention VHFers. The first edition of the ARRL directory of stations active on 220 Mc. and higher is now available. The comprehensive information includes station, location and bands as well as operator interests in meteor scatter, moonbounce and Oscar work. Further details on antenna information also appear. United States and Canadian amateurs may obtain a copy without charge by sending a large self addressed envelope, with 12 cents U.S. postage, to ARRL 225 Main Street, Newington, Connecticut 06111 BT
NR 163
May first is the pre-registration deadline for the 1968 ARRL National Convention to be held in Texas June 7-9. The San Antonio Radio Club is host for the affair which has as its theme 'The World of Communication.' Three full days of meetings plus the attractions of Hemisfair 1968 will make San Antonio the place to be June 7-9. Information has previously appeared in March and April QST and the May issue will feature full details BT
NR 164
Attention Canadian Amateurs. ARRL, the Radio Society of Ontario and Radio Amateur du Quebec, Incorporated, met with Canadian Department of Transport officials last week to protest the increase in Canadian license fees from two dollars fifty cents to ten dollars a year, with an additional fee of six dollars for amendments such as change of address. The amendment in fees, approved by the cabinet, will require further Cabinet approval for any possible change. Briefs are being sent by the above groups and should also be sent by local Canadian clubs to the Minister of Transport, Ottawa, with a copy to the local member of Parliament, ARRL Director VE3CJ would also appreciate copies BT
NR 165
FCC has amended the amateur rules effective July one providing additional privileges in 1800-2000 kHz. The new arrangements results from the work

Bulletins (cont.)

of a special study group in Washington during the past year headed by the Coast Guard and with participation by ARRL representatives. This FCC action grants substantial increases in most areas of the U.S. June QST will have the full details. Please note the effective date is not until July one BT
NR 166
Many parts of the United States will shift to Daylight Saving Time effective April 28. At this time, all W1AW operation will change to Eastern Daylight Saving Time. Amateurs in areas remaining on Standard Time are reminded that W1AW Official and Special Bulletins, twice daily code practice transmissions, propagation forecasts and any other announced ARRL Headquarters Station operating activities will have to be tuned in one hour earlier than usual. May QST will carry the full W1AW summer schedule. Newly revised copies of the schedule are available without charge from the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111. Please enclose a self addressed stamped envelope AR

MEN'S BOWLING

This season is just about over and we will have a run-down on the bowling, in the next issue of the Bark for the entire season, both men's and ladies teams. Before getting into the l ast4 weeks of play, there is a little side line that is worth noting. The Ryan,Chavis team (Merl & Margie Chavis, Dick & Verna Ryan), who bowl in the Sunday Mixers Team, are leading their league with only one game to play. Should be exciting, because they lead by only one game. Good luck and bring home the bacon gang.

Now for a run-down on the past 4 weeks for the men's team.

April 9th team 1 won 1 and lost 3 with Jerry having high game (175) and Merl, W7IKG, high series (503). Team 2 also lost 3 and won 1 with Cliff, W7MFG, high game and series. (188-488)

April 16th team 1 repeated, winning 1 loosing 3 with Bob, W7RXS, having high game and high series 195 and 493. Team 2 did a little better. They split 2 and 2. Cliff came through with a tremendous 220 and a 504 for high series. Let's see more of those 200 games, Cliff. See you next issue.

UPER LIMITS

Six meters has opened up at last! W5's, WØ's, W4's and even a W9 talking to W6 land. The 9 could not hear the 7's trying to get him. Mark, KØWZX, sure has a powerful signal. He must be running at least 500 watts. He hangs in long after the rest are gone. WAØERO and WA5OSS are not the weakest signals either.

We understand that Mexico City was heard at Lake Sawyer. If Emmie didn't work him, he wasn't workable. Better luck next time Emmie. Things look interesting for this summer.

Not much to report on 2 meters am or fm.. Too much going on on six. Have heard some new calls on fm but am is nit moving too fast › lately. Some new activity on 420. Will try to get more information on this soon...Keep your antennas up!

STOLEN GEAR

Bob, W7RXS, reports that his 6 meter gear was removed out of his pick-up truck after the truck had been stolen. His RCA model CMV-2 was stolen and should anyone run across any gear of this kind that may not be on the up and up, please notify Bob Churchward.

AUXILIARY NEWS

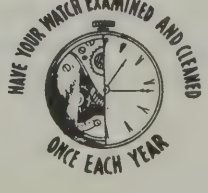

News from the auxiliary is rather short this month. We discovered, after our meeting started, that we had ni business to discuss.

After much embarrassment, teasing and laughing the meeting was closed and we all enjoyed a delicious snack prepared by Verna Ryan and Rene Smith.

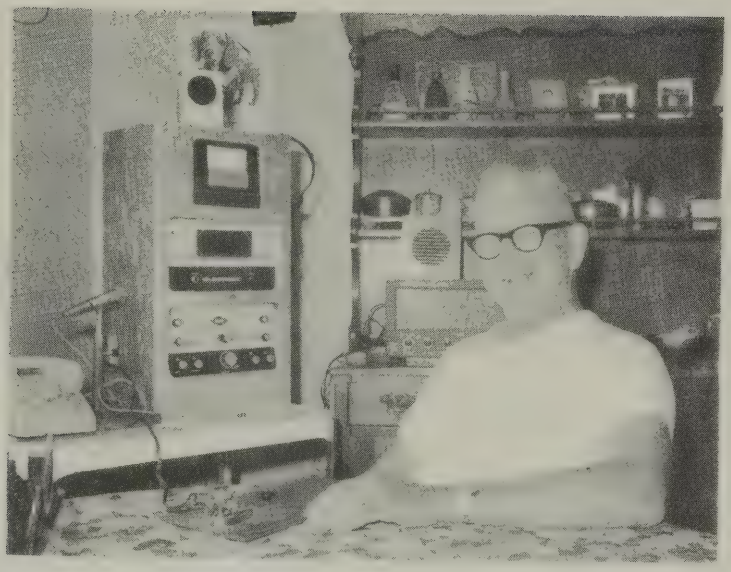

We hope to see a large turn out for the May 1st auxiliary meeting, as we will be planning the food for field day.

See you May 1st at auxiliary.

MEET THE LOGGER

Meet Hunt Mitchell WA7AKW.

Hunt was born in Southern Illinois near the village of West End. He attended grade school in Harrisburg Illinois and graduated from Benton Ill. High School. From there he went to a military school in Charleston Carolina. To round it off, he attended the University of Illinoise.

During the depression years, Hunt sold insurance and worked as a bank teller and can tell many an interesting tale about those years in his life. The service beckoned to him in 1932 and he joined the army in the finance section. He was stationed in Oklahoma to start and then his travels carried him all through the southern states, including Texas, Arkansas, Indiana, Kentucky, Maryland and more. From then on his post, where stationed sounds like a dx hounds dream. As he rattled the countries off I got a cramp in my fingers, trying to keep up with him. To list a few, they were Japan, Germany, France, etc. Along the way he picked up a few languages and can speak Japanese, German, French and Spanish. He has a book shelf partialy lined with dictionarys of various languages. He estimated the time spent outside of the States as 8½ years.

Also the furniture in the home shows the effect of his foreign travels. There are several items from the Orient and European countries.

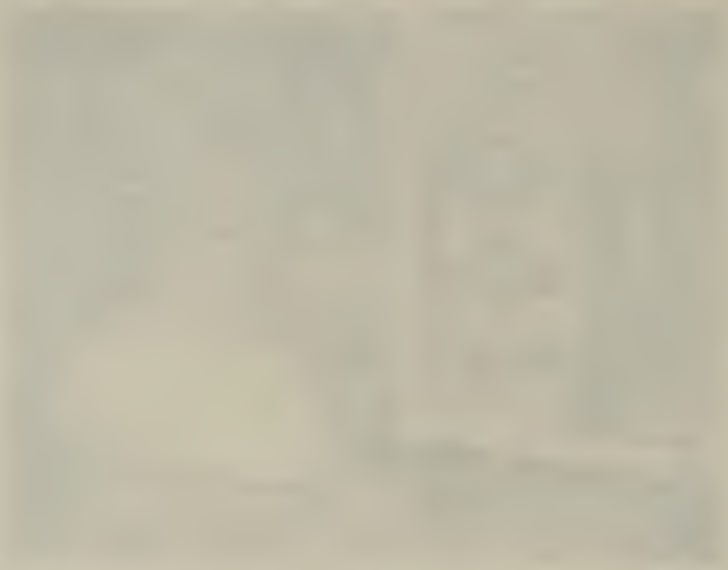

Hunt has been interested in amateur radio since about 1913, when he was in the Boy Scouts. At that time money was the problem. As time went by and he had a few dollars to invest, he didn't have the time to devout to it.. After retiring from the service in 1962, as a Lt. Colonel, he finally had the time to study for the license.

He obtained his Novice license WN7AKW in April of 1964 and progressed to his present Technician license, WA7AKW in May of 1965.

Presently he is using a Gonset Sidewinder on 6 meters on cw and phone. The signal is dumped into the ether on a 4 element Hygain beam, which is 45' in the air. Also mobiling is accomplished with a Lafayette KT-320 and a fm transceiver mobile.

Along with ham radio, Hunt does some rock polishing and is active in the Scottish Rite. As you Already know, he has served as Treasurer for the club and currently is in his third term and doing a great job.

Hunt and his lovely wife 'Pinky' are a very busy couple enjoying their many activities and the club is lucky to have them on the club roster.

In Remembrance

HERB CAMPBELL W7SEM

Another Silent Key. Herb Campbell passed away Sunday, April 14, 1968. He lived at 20223-101st East, Sumner.

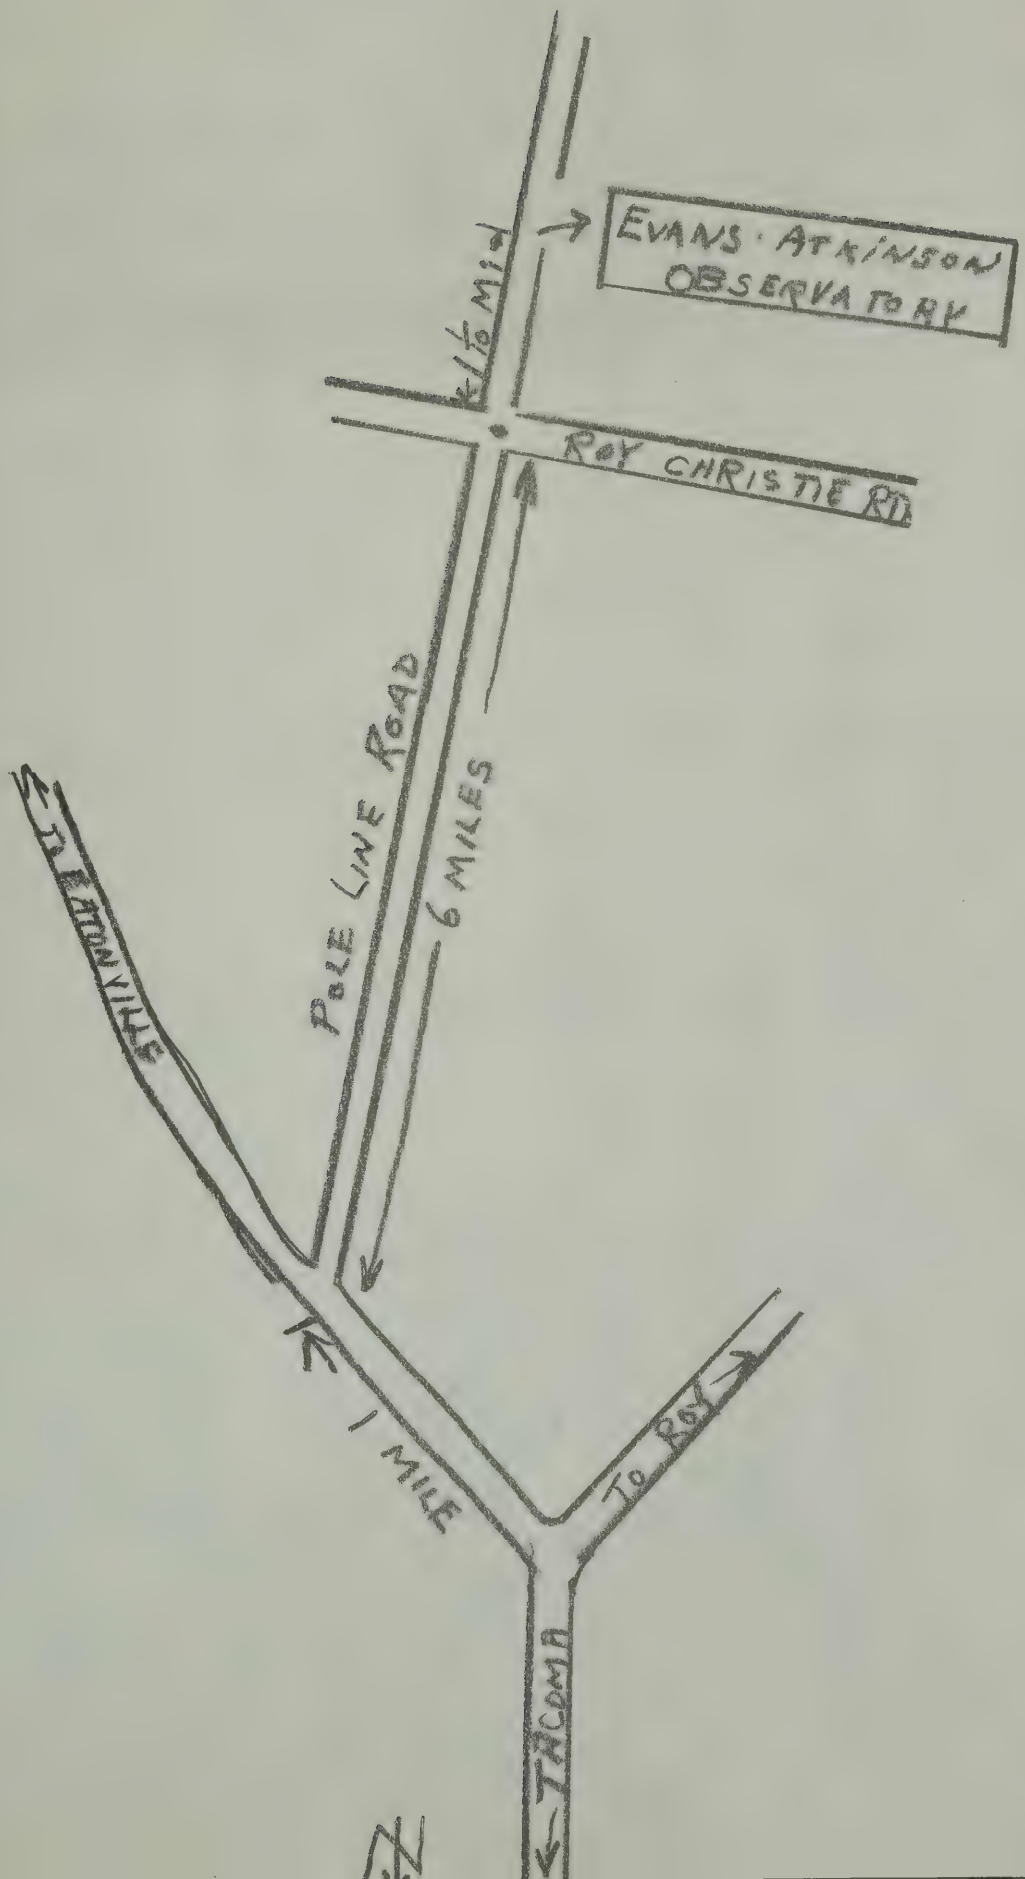

Herb was born in Oglesby, Illinois in 1902 and moved to the Seattle and the valley 15 years. ago.

He was a retired Electronics Maintance man for Boeings. He was a member of the Electrical Workers Union, Rebels Amateur Radio Club, Q.C.W.A Mobile Amateur Communications System and The Radio Club of Tacoma. He also belonged to the Boeing Retirement Club.

He is survived by his wife Stella of the home, a daughter Mrs. Mary King of Edmonds, a Step-daughter Anita Thielander of Renton. Two Step-sons; Bruce Morelan of Seattle and Walter of Neah Bay, and twelve Grand children.

He participated in Warts Net, N.W Sideband Net and the Columbia Basin Net.

Herb was an active ham on 75 meters and also had 6 fm mobile and fixed. He will be missed by those who knew him well and the ones who only knew him slightly.

THE LOGGERS BARK

VOL V NR VI W7DK JUNE 1968

FROM THE PRESIDENT'S DESK

Well, May has been an interesting month. The talk of Hal Gullstad, W7AAK, from FCC was very informative and we found out about many of his problems. The trip to the Evans-Atkinson Observatory had about 25, undoubtedly held down by the threatening weather. We must publically thank George Harper for his assistance in arranging the trip, and explanations by him and Clarence Stevens, Secretary of the Tacoma Amateur Astonomers.

The Mothers Day Breakfast was another one of our activities that was well received and W7AZI, W7LIR, K7CYZ and K7CZM should take a bow, as well as Ethel, W7WLX, for rounding up the food at bargain prices.

DK had a fine representation at the Bremerton Ham Fest. We again enjoyed the many eyeball QSO's and Merl, W7IKG, came home with an award in the transmitter hunt.

While this is being written, we find the situation is well in hand for the Puyallup River Race, thanks to Len and Steve. I'm sure the cimmunications will be well taken care of.

The big event of the month of June of course is Field Day June 22-23. George Abbott, coordinator, could still stand more offers of help. We can not put up our gear ahead of time this year, but the Women's Auxiliary is arranging for food and Roy, our well 'publicized' cook is sharpening his skills. We can be thinking about campers, trailers or tents, sleeping bags, kitchenware and personal items, so that we are ready for a quick start on June 22. Here's looking forward to another swell week end.

One other thing; mark Sunday, August 11th on our callender. That's the date for the annual picnic at Dewey Wilson's place on Hoods Canal. More about that next month. 73 Ed K7CZM Pres.

A man always has two reasons for doing anything; a good reason and the real reason... Ham Monitor.

EDITORIAL

Where are all those friends we used to have at DK? When you attend a meeting any more, it's like being a visitor at a strange club.

What has happened to the ole 'bull sessions' we used to have every other meeting or so? Programs are fine and help keep our interest up in current values of radio but what about getting acquainted with new members that join our club? You don't get much of a chance to get to know our new members in a 5 or 10 minute coffee break.

Let'd have a few Bull Sessions once in awhile, so that we can visit with our ham friends. The only time we get to see some of them are at a club meeting. .....ED.

FIELD DAY

It's hard to believe that time of year is here already. It's time to really get serious about all the preparations that go into this annual event. The ground work laid out ahead of time. really makes a difference in making field day a success.

Keep your check list handy while you are making preparations. The little things you forget are sure to be the most needed when you get there. These check lists are for your convenience, so use them.

Field day is nation wide and we are competing with clubs, groups and single ham stations from all over the United States, Let's pull together and try for 1st place this year.

Follow the map (*) to Joe's farm and don't forget what you were supposed to bring - - Check your check-list!

**ED'S NOTE: Map printed elsewhere in this issue.*

JUNE PROGRAMS

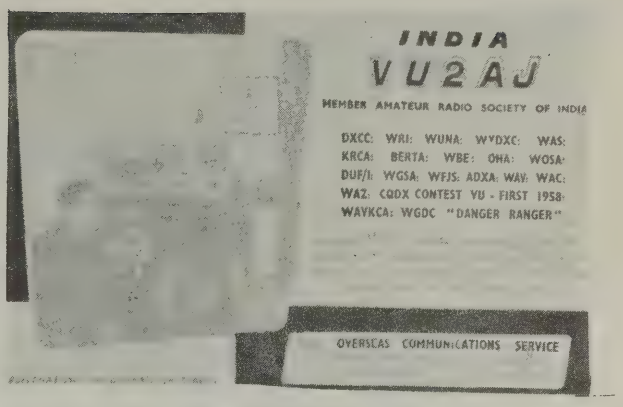

June 12th is set aside for final Field Day preparations. Be sure to attend, get all the new rules and information necessary to make this one our best.

June 26th will be after field day and a very special program is planned. ***DON'T MISS THIS ONE!*** ***John Holland, an engineer with Pacific Northwest Bell in Seattle,*** will describe Laser Beams and put on a demonstration using the newest devices. Mr. Holland will have just returned from the Bell Labratories in New Jersey, where the latest laser equipment is being researched.

Future programs scheduled include Harry Lewis, W7JWJ, demonstrating electronic cooking and John Holland describing space communications via satellite.

W7???

Active on all bands 10 through 80. Has been a member less than 10 years. Will have the answer for you next month.

Did you guess last month's picture as Cliff Osborne, W7MFG? If so, yiu win a gold star.

Keep those pictures coming!

BREMERTON HAM FEST

As usual, DK was well represented at the 34th annual ARAB Hamfest,with 17 members in attendance.

This is always an enjoyable hamfest, with hams coming from all over the Western part of our State. The days activities included Bingo, Mobile hunts on 6, 80 and 15 meters, swap & shop, net and QCWA meetings and a very enjoyable meal, where one of our members headed the line (guess who? - you're wrong, it was Dewey, W7HF)

Bill Watson, K7JHA, was the after dinner speaker. Bob Thurston, W7PGY, also said a few words on current ARRL happenings.

Five DK members won prizes in the drawings and Merl, W7IKG, won a nice trophy for 1st place in the 15 meter mobile hunt. (Using a 10 meter whip)

We, from DK, thank the ARAB Club for such an enjoyable day and we hope to see more of our members at this affair next year.

MEMBERS LETTER

1015 Medical Arts Bldg.
Tacoma, Washington
May 6, 1968

To the Officers and Members of the
Radio Club of Tacoma, Inc.
1249 South Washington Street
Tacoma, Washington 98405

Dear Friends:

It is with deep humility and great pride that I received the tremenduous honor bestowed upon me, to become the sixth Honorary Life Member of the Radio Club of Tacoma, Inc.

Our Radio Club, with all of it's back ground, steeped in Amateur History, having provided us all with guidance of youth, a chance to serve our community, our country and mankind during emergencies and to pursue our hobby, has given to me so much more than I can ever repay.

I pray that I can continue to serve Amateur Radio and My beloved Radio Club of Tacoma.

Thanks to you all, again.

73, Doc, W7OB
(Dr. F. Clifford J. Spike)

ATTENTION LIDS!

By W7WLX

It has bren suggested to me that I again tell you all to be sure to save your MJB can lids for the Radio Club. If you don't now drink MJB - - try it! If you still prefer to drink brand X, then ask your friends, who drink MJB, to save their lids for you.

We have two very nice 84 cup percolators that we have received for saving 1,000 pound credits each and in addition we manage to keep a supply of coffee for the club's use with the cases of coffee we receive with 900 pound credits.

Just to refresh your memory, here is what to save and bring to Radio Glub:

Top of the can lids that you cut off from any size can of MJB coffee.

Labels from the jars of any size instant coffee

Tops of boxes of any size package of MJB tea bags.

SLIVERS AND SPLINTERS

Chris, K7VPF, has a broken leg. It happended, while he was jumping on the trampoline at school.

Overheard at the Mother's Day breakfast, "This only happens once a year and I kook forward to this Sunday."

Vivian Huntley telling Beryl, K7NPG, he is becoming a hippie with his red and gray(?) beard.

Scotty, K7CYZ, saying, "all the tips he recives for serving will be put into the field day bus for food."

Doc, W7OS, telling Roy, W7AZI, that since he has a ssb rig, he may be able to get a grandson to go with the 6 lovely grand daughters.

These men must be well trained at home to be such good cooks away from home.

The radio club has received 3 donationd. We have 3 lawn mowers, now all we need is the volunteers to push them around the club house once in awhile.

Stan, W7LIR, has invited the club to his place at Wedtport on August 24 and 25. Don't forget to contact Merl, W7IKG, for reservations if you plan on going out and getting one of those big ones.

Dick, W7RGD, busy outfitting his new Apache trailer for the summer vacation time.

John, K7CZF, was caught in traffic with a flat tire on his big house trailer.

It was noted at the last meeting in May, that both of the Chavis's, W7IKG and K7AMJ and both of the Hoods, K7NPG and K7NKZ were there. How come? Was it the good coffee and cookies, field day discussion, the bull srssion or just what that brought them all out on the same night?

Steve, K7CZT, was also at the meeting in May. Requested to get in touch with anyone who has any experience, radio wise, with meteor scatter.

Missed Scotty, K7CYZ, at the last meeting. He was out in one of the new boats on Puget Sound on shake down cruise.

Del, W7UMJ, busy looking over the goodies at H & G during the big sale. Cliff, W7MFG, was busy twisting his arm.

Emil, K7GPK, not seen around at the activities much lately, With two nights of night school, along with his regular job, don't have much time to ham or visit. Congratulations are in order, since Emil is proudly displaying his Advanced ticket, which he recently obtained in Seattle. His number one daughter, Kay, received a $200.00 scholarship award and will be spending part of the summer in Georgia, attending a German speaking class. Congradulations Kay!

Have you seen your name in this column lately? If not, why not drop a line to one of the staff members and let us know what you are doing. We can't be everywhere all the time!

PAST FIELD TRIP

by K7KSZ

The field trip to Evans-Atkinson Observatory was interesting and educational. The large lens was not mounted as they were doing some work on the frame, that will hold the lens. This lens was given to their club. If you were to buy one of this size it would cost around $180,000.00. It weighs around 600 pounds.

They had a four inch telescope mounted out in the yard and we looked through this one to see Jupitor. The six inch was set up so we could view the moon.

There were ninteen members and friends on the trip. After the tour of the grounds and buildings we were all served hot coffee.

WOMEN'S BOWLING

The womens bowling ended this year with the DK Sparkies taking first place by 1 pin from the runner-ups, Tumble Bums.

The Hot Tubes got pins for being the last place champs. In the sweepers, Rene Smith took high series, Mary Hartzell 2nd with high game. Sophie McCullough received a 500 pin.

On March 26, Verna Ryan picked up a 3-7-10 split and on May 7 she bowled a 209, good bowling Verna. Joyce Vigus, the league secretary, bowled a 239 scratch. Faye Monroe subed on a team at the New Frontier and bowled a 240. To bad it wasn't in her own league.

We had our bowling banquet at the N.C.O. Club, May 14 to end a good season of bowling.

MOTHER'S DAY BREAKFAST

The OM's again honored the women with a Mother's Day breakfast. Roy, W7AZI, with his famous call-autographed apron and chef's hat, did the honors in the kitchen and was ably assisted by Ed K7CZM, Scotty K7CYZ and Stan W7LIR.

The boys did a magnificent job of dressing up the club house, white tablecloths, flowers and everything clean and bright. We were all greeted with warm smiles and then the Mothers were presented with corsages, so we were feeling pretty special right from the start. As soon as we were seated, a handsome waiter would take our order and head for the kitchen. Fruit juice and coffee were served immediately and then the delicious hotcakes came floating in over the plate of bacon and eggs. Those waiters were right on the job to see if we wanted more and kept the coffee cups filled too.

There were 63 mothers, members and friends attending the event.

K7CZM W7AZI W7LIR K7CYZ

We arrived at the club house at approximately 10:00 am. The street and parking lot were filled with cars. We entered through the back door. Furst to greet us was Roy, W7AZI and Stan W7LIR, both with pancake turners in their hands. Ed, K7CZM, with a sink full of dishes to be washed and Scotty, K7CYZ, with an apron on, acting as waiter.

It is really fun to watch these fellows having a good time doing the jobs they steer clear of at home. Maybe they feel more appreciated at the clubhouse and I'm sure it is true that we mothers are more free with our smiles and thank-you' s on Mothers Day, but with all this attention it must surely last over the next few days. At least we hope so.

(cont)

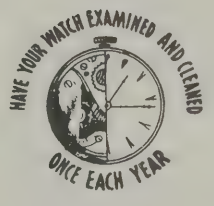

Scotty earned a few extra sheckles by wearing a special apron for the occasion with a pocket that rattled coins and therefore invited tipping. Since it was discovered that the bait was Lincoln cents, everyone was careful not to exceed that denomination. All in good fun and the 63 who attended this breakfast are sure to return next year if we are invited.

Ed dried his hands and brought a very pretty corsage to pin on my dress. I understand Ethel, W7WLX, made these and they were lovely.

Roy threatens to farm out the cooking job so that he can be sure of seeing all that attend. It seems some came in the front door, ate and left that he didn't get to say hell'o to and his greatest pleasure is in doing for each and every one just like they especially order. That's the reason there is no mass production when Roy is chef. Each order is a special assignment, carried out with T L C.

It was a great success and if you missed it you'd better determin right now not to be that busy next year.

A great big 'THANK YOU' fellows!

ARRL BULLETINS

NR 167

United States amateur stations and amateur stations of United States forces personnel in West Berlin may now exchange third party communications Eligible West Berlin stations may be identified by call signs such as DL4Q. Third party communications with amateur stations in other parts of Germany is not so authorized BT

NR 168

The ARRL board of directors met at Hartford Conn. May 3-4 with two days of informal sessions preceding. To improve public relations as well as create more interest in amateur radio the board authorized production of a half hour motion picture for showing in schools, at civic clubs, television etc. ARRL will request FCC to permit present technicians and current or former one-year novices to apply for a two-year ticket. The board also ordered a study of methods of simplifying the application procedure for novice and other mail examinations and of a new league publication at the teen age level. FCC will be asked again to defer effective date of incentive licensing restrictions in the six meter band. The board adopted a basic format for ARRL advisory committees with appointed volunteer field personnel to assist in proposals of members in various fields. Two such committees, one on VHF repeaters and a second on contests, were approved, with a director group to complete rules for committee operation within 90 days. An overall study was ordered of amateur band occupancy, and of effects of contests on band usage. The board directed the establishment of a new five band DXCC award and an amendment of DXCC rules to permit submission of cards in multiples of five by members with 300 or more country credits. Discussion of an outgoing QSL bureau indicated many practical problems which the general counsel and general manager were directed to appraise and then make recommendations. Additional studies were ordered of R.F. interference problems, a possible league publication on fm, the ARRL field organization, the affiliation of nets in the same manner as clubs, and the possible move of novices from 21 to 28 mc. Roemer O. Best W5QKF and P. Lanier Anderson W4MWH were elected Vice Presidents, while President Robert Denniston WØDX, First Vice President Groves W5NW, Secretary John Huntoon W1LVQ and Treasurer David Houghton were reelected for two year terms. Directors Compton WØBUO, Eaton VE3CJ and Smith WØBWJ were reelected to the executive committee, and director Harry J. Dannals W2TUK newly elected to that committee. Highlights will appear in June QST and full minutes in July QST BT

NR 169

FCC has adopted rules which allow shut-ins to obtain Advanced and Extra Class licenses. Examinations may be conducted by volunteers who hold the same or higher class licenses than the one being sought. Otherwise, the rules presently applying to Conditional Class tests for the disabled will govern. The change, supported by ARRL, was brought about by a Report and Order in Docket 17989, and becomes effective June 17, 1968. The text of the new rules will appear in the July issue of QST BT

NR 170

United States amateur stations operating portable from a United States base in Barbados, under FCC call signs, are authorized to handle third party traffic with other FCC licensees and with countries having third party agreements with the United States, see page 86 of May QST. Such traffic may not be handled with stations licensed by Barbados, prefix 8P AR

MEET A FRIEND

by K7CYZ

This reporter and family went on one of the 'See Washington First' trips during the second week of May. We met an old friend of the club, that a lot of you know. Doc, K7KTE, of Yakima. The meeting was one of the odd-surprise type. We left Tacoma, Friday evening, planning on stopping in the Yakima State Park for the night but due to an overheating radiator and burnt out generator, we did not arrive in Yakima until after ten pm. Since the park was closed at 10 we were guided by a courtious service station attendant to another trailer park. The KOA (Kampers of America) trailer park, located a few blocks from the State Park, was closed. (Everybody goes to bed early, east of the mountains) We drove in and hooked up to the utilities.

Next morning we went over to the office and there was Doc's truck, with his call letter plate, parked in front. We asked the charming lady, who the ham was and she answered, 'That's Doc's,' nothing else. She must have known that I was a ham and I would know who 'Doc' was. Anyway we met Doc and had a swell talk with him. His tower-rotator and antenna are piled behind the work shed but he says he will get them up soon and talk to us again soon.

Doc said to tell everyone hellow and when you are in Yakima to stop in and say hello. Just ask for the KOA trailer park and Doc will be there, since he runs the place.

We forgot to check if the charming hostess was Doc's xyl. Next time we will have our pad and pencil with us.

CONFUCIUS SAY: "BETTER FOR MAN TO FIRST GET SOMETHING IN EYE AND WINK, THAN WINK...AND THEN GET SOMETHING IN EYE—"

WASHINGTON STATE COUNCIL

The first charter meeting of the Washington State Council of Amateur Radio Clubs will be held at 4:00pm on July 13th 1968 at the Washington State Hamfest in Yakima, Washington. The hamfest will run from Saturday July 13th through Sunday July 14th at the Yakima Fair Grounds.

The first order of business will be the selection of a Nominating Committee for Council Officers, and the selection of a constitution and by-laws committee. Tentatively, the council will hold two meetings a year with interim business conducted by an executive board. Each club is invited and urged to participate by electing or appointing one delegate and one alternate as their representative on the council. As is the custom each club delegate will represent their club in a manner prescribed by their club in the matter of voting. Naturally, it is hoped that each club will select active amateurs for this important assignment and that they will be able to attend the charter meeting in Yakima July 13th.

As the time is getting short and the mailing late, I would appreciate being notified as soon as possible of your club's selection by return mail so that the meeting may be called by a roll call based on an official instrument of authorization. I would like to have them all returned by July 1st so that the full list of delegates and alternates may be made up prior to the meeting.

May I look forward to meeting with your delegates in July. 73 Bill Watson W7BQ

MEN S BOWLING

The 67 68 season is over but the memories linge on. Our teams didn't win any of the 1st three places. Some of our players did go home with a trophy and/or money.

Team 2 all received trophies for last place. (Not very large but cute)

Max, W7AEA, took home a few paper dollars for having the second highest series in the sweepers. Cliff, W7MFG, pocketed a couple for 4th in high series in the sweepers. (With handy-cap)

On the 23rd, Dennis W7UBA bowled two games over 200 (204-225) If he had doine that in the sweepers there wouldn't have been enough greenbacks for Max and Cliff to argue about.

Maybe next year one of our teams can get lucky and bring home 1st or 2nd place trophy but this year the alleys were just too slippery. We had a lot of fun along with the disapointments and we will all be back next year.

Here is the line up of the two teams, who bowled for our club this year:

Team 1	Team 2
Merle Chavis W7IKG	Max Bice W7AEA
Otho Smith K7ATD	Scotty Huntley K7CYZ
Bob Churchward W7RXS	Roy Monroe K7USF
Ralph Rawlings W7COP 1st ½	Dennis Reanier W7UBA
Jim Churchward 2nd ½	Cliff Osborne W7MFG
Jerry Borque	Dick Ryan W7RGD (sub)

MEET THE LOGGER

Meet Charles (Chip) Margelli, K7VPF

Chip, as he is known to the club members, was born in Carbondale, Illinois and the family moved to the Tacoma area before he was a year old. He started school at Washington Gradeschool and is currently attending Stadium High School. He is active in the school concert band and recently received a Spanish speaking award.

His interest in amateur radio culmanated by obtaining a Novice license in January of 1963. By May of 1964 he progressed and made the trip to Seattle and came back with his General call. Presently he is working for his Extra class license.

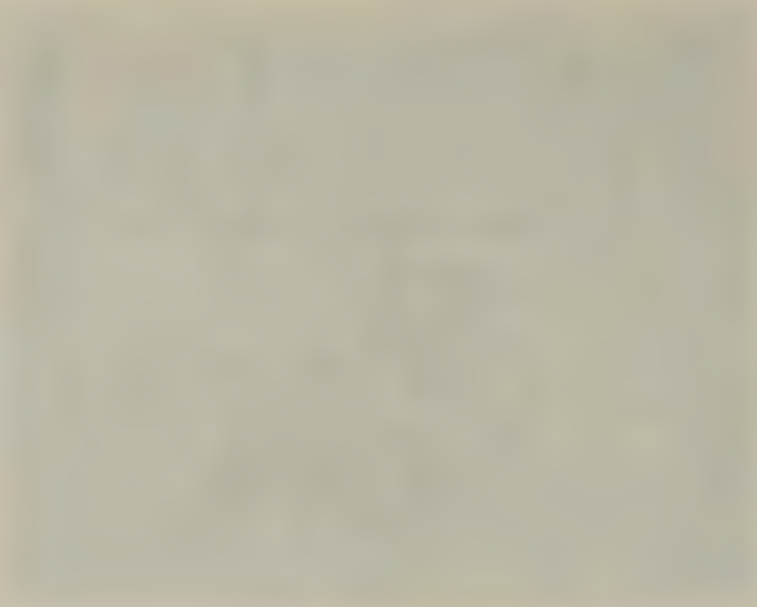

You will note in the picture his present rigs. He has a HQ-110, DX-40, HX-11, HT-18 v.f.o., S-120 and a home brew phone patch. Overhead is a 80 meter dipole and a 14-AVQ to make the equipment a busy station. Testifying to this fact are a few awards and certificates. Some of the awards were Loggers Certificate, Sweepstakes award, WAC, WAS, 20 wpm certificate from ARRL, DX Century award and some are visible in the picture.

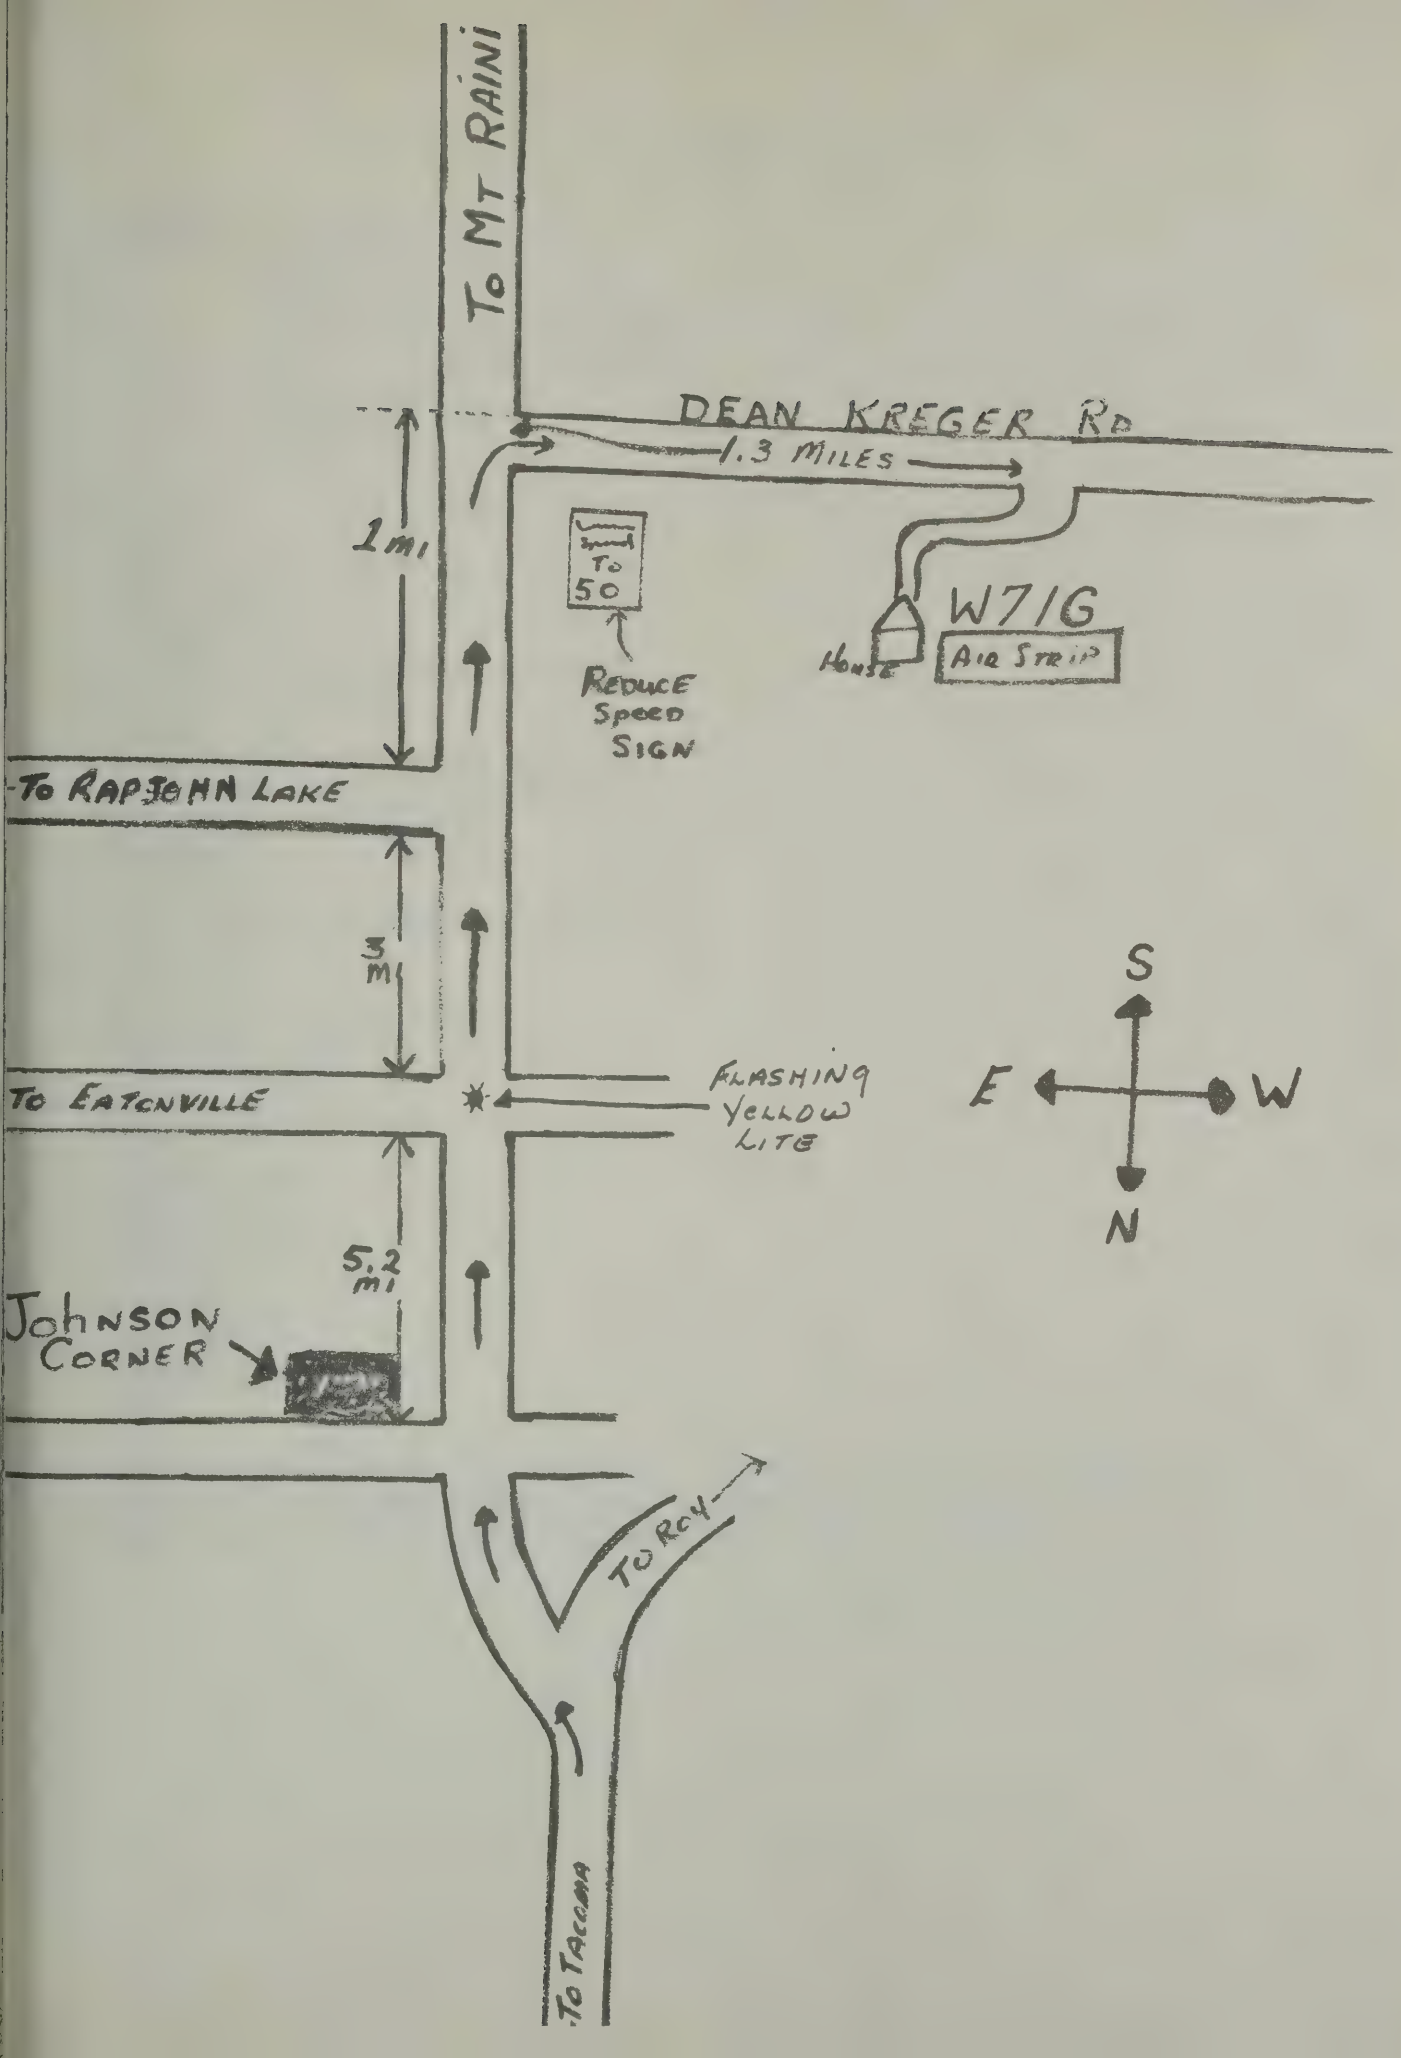

LOGGER (cont.)

However, not shown in the picture, and no award was issued, is a record that apparantly still stands on the books. Chip made a 2 way contact on the amateur bands, last October with 2 JA's. The previous record was coast to coast in the States. This contact was made by using a wet string for an antenna. Chip said he got a good report from the other station but they started to fade out as the string started to dry out. How about that?

We noted, on the wall, several glass framed collections of butter-flys and moths. Some were 2 to 3 inches across their wing spans. He has given up this hobby and currently is more interested in skiing. However, since he broke his leg just recently, the skiing will have to wait till the next season.

Chip's primary operations are on cw and has turned in some pretty good scores on the sweepstakes contest, which made it possible for the club to have a club aggregate score in the cw portion of the contest. You will hear him beating out a cq, I'm sure during the field day contest for DK. Good luck to a busy ham.

THE LOGGERS BARK

VOL V NR VII W7DK JULY 1968

FROM THE PRESIDENT'S DESK

During June, your President was a guest of the QCWA Northwest Convention in Tacoma and met a lot of the old timers and some very nice people. Our own Max Bice W7AEA, Doc W7OS and Roy Devish W7AZI were very much in evidence.

During one 4 day period, the club members had a lot of fun providing courtesy transportation at the Eagle's State Convention. Many of us saw more of downtown Tacoma than we had for a long time, and we realy had a good workout.

Another Field Day has passed and I want to thank George Abbott, coordinator, for his very successful handling of details. It did not seem to us that skip conditions were as good as the previous year and because we could not set up our gear beforehand, Murphy's law was very much in evidence. However a real good time was had by all. My remarks would be remiss if I did not thank the Asplunds for their continued cooperation year after year and very fine hospitality. Thanks again, Joe and Helen.

There will only be one meeting in each of July and August, on the second Wednesday of each month. The business meeting of July 10 will be short and we will have guest George Hart W1NJM, communication Manager, of ARRL. There will probably be many visitors at the Club house that evening, and George will bring the latest from Headquarters.

The week end following that will be the trek to the Yakima Hamfest. They always do a very fine job.

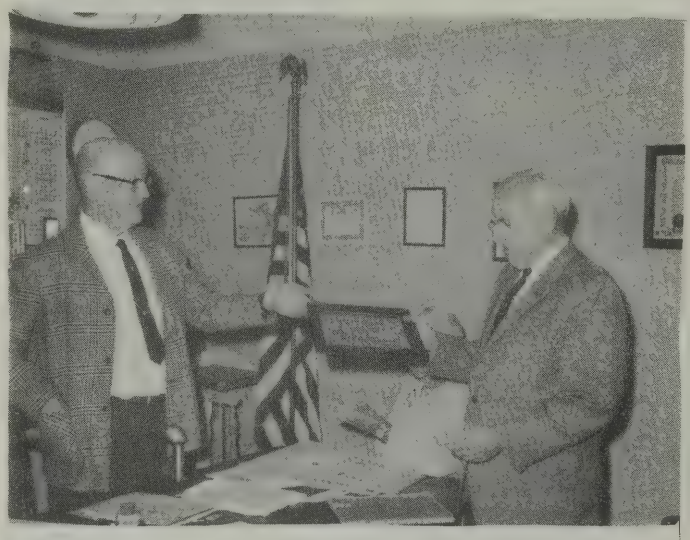

Here's hoping you have a very nice summer.

....,. 73 Ed K7CZM Pres.

CHANGE IN LOGGERS BARK

The Loggers Bark has changed the printing of the paper, as you will note as you read the paper further. The print will appear on both sides of the pages. The reason for the change is due to post office refusing to accept our paper printed on one side for the special permit. More later.

AWARD PRESENTED

ED K7CZM DOC W7OS

The above picture was taken at the meeting of June 13. President Ed, K7CZM, is shown presenting a Life-time Honorary Membership plaque to Doc, W7OS at the regular club meeting.

Following is the text printed on the plaque; 'Be it known this day Dr. F Clifford J Spike is hereby an Honorary Life Member of the Radio Club of Tacoma, Inc. He has served this Club for over fifty continuous years. His faithful and unselfish devotion to this Club has brought many hours of enjoyment and relaxation for himself and the Radio Club. Given this 12th day of June in the year of our Lord 1968.'

FIELD DAY 1968

Things started off quite different this year, with the new rules and all. The usual troubles of antenna erecting were counted as time worked this year.

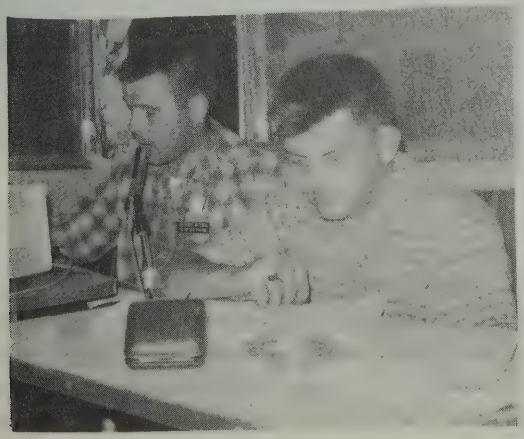

The boys on 80 cw brought the wrong coax but soon corrected that and got on the air about 3 pm.

Scotty, K7CYZ, was on the air shortly after starting whistle but was soon outside with a shovel taking care if some 'road apples'. That's good ole' Cavalry training, huh Scotty?

Made our way down the path to 15 cw and found the generator putt putting away. Chip, K7VPF, and Bob, K7INE, were busy making contacts. They were on the air by 1245, so they had almost an extra 2 hours operating time over most stations.

At 3pm Smitty K7ATD, Roy K7USF and Dennis W7UBA were frantically trying to get their antenna to load. They finally lowered it and tore it apart to find a broken coax connector. This was a disavantage as they lost 3 or 4 valuable hours of operating time.

75 phone started off about 2:25pm with Donna K7LPZ and Steve K7SSC running the rig and log book.

20 phone was having their share this year!! Interference from cw, from somewhere, They finally put a new receiver on and had no trouble after that. Ralph W7COP and Dick W7RGD were the starting operators.

Omar, WA7HPK, was all alone on 40 cw making contactd like fury. He got on the air at 1:10pm.

Went to 10 phone and not a sole in sight!! They must have been hiding. Their antenna fell down, so they had their work cut out for them for awhile.

Back across the run-way we found Ethel W7WLX, Marge Hazelmeyer and Fay Monroe, picking wild strawberries. After 2 hours they had a cup full. They were really small.

I tried to check the 6 phone station but their tent was all zipped up so I never made it in,

The evening meal, on Saturday, was the best!! Our good chef Roy, W7AZI, served 45 meals. After the crew was fed and back to work, the ladies cleaned up the kitchen and made things ready for the late night snack. The evening was spent in the warm cook shack by the non-working hams and the XYS's in attendance. A game of agravation was going. Yahtze was being played and Joe W7IG, Donna K7LPZ, Art W7JGN and Stan W7LIR had ahot game of Pinochle going. When Stan got up to fix his famous clam chowder and Donna went out to help the 20 cw boys, Irene Koth and myself, took over their places at the Pinochle table. It was a fine game until Art and Joe came up with 3 aces of hearts in one hand!! You really have to watch those guys!

The ladies made sandwiches to go with the chowder and they started out to feed the hungry operators and their assistants. The rain sure

didn't make the job any easier. The oven was put to good use, the rest of the night, drying out wet sox and saggy tennis shoes.

We heard the six meter boys had some mighty soggy signals after Ken, K7EDD, spilled his clam chowder in the rig. It was to eat Ken, not to share with others on the air.

During the night, 80 cw had a near catastrophy when their center poll on the tent colapsed and sent their lantern crashing down. Quick thinking on the part of Scot WN7IYZ and Larry WN7JPL saved them some trouble. I doubt if their tent would have burned since it was just too wet.

Breakfast was starting to be served by 6am and continued until 8:30. Roy finally had to just pull the ole' plug or he would have been serving breakfast right up till lunchtime. He served a breakfast that would have pleased any logger and I don't mean the ham kind!! The pancakes kept floating over to your plate until you hollared Uncle!

Morning rounds found 80 cw bragging about their 35 contacts! They were pretty proud because they were at least ahead of 10 phone.

We found our field-day chairman sending the limit of messages on 75 phone. This all adds to the score..huh George? (see picture next column)

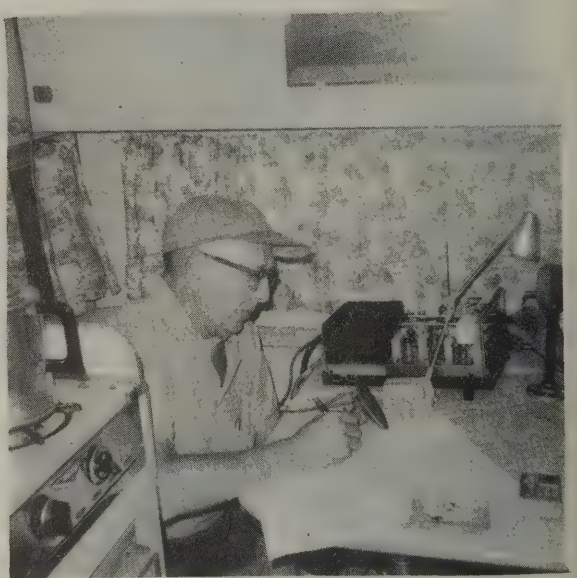

20 phone had Ralph W7COP and Art W7JGN doing their best. Dick, W7RGD, was sawing logs in the sack.

Checking on 20 cw, near the cookhouse, I found Merl W7IKG and Jim K7WUH operating very smoothly. The flow of cw at 30 wpm from Merls bug was certainly music to any hams ear. Contacts were coming at the rate of 2 per minute, at times and the cool operating of Merl and Jim, was certainly a scene that should have been seen and heard by everybody at field day.

Again we missed Bud, W7HMQ, on 40 cw. He w pretty fast for us. When we arrived, he h already gone home again and Omar was again alo at the key. Bud did the graveyard shift, so Om could get some sleep.

10 phone picked up some during the day and ke George WA7CSF and Ed K7CZM busy.

Went back to 40 phone and grabbed the mike o of John, K7CZF's hand so that I could at le make my contribution to field day, as a h After a brief struggle he relinquished the m and I made my first 2 field day contacts.

F-D (cont.)

Dinner was started at noon and we were served ham, baked beans, tossed salad, jello and cake for dessert. Some meal. If you can't gain at least 5 pounds on field day, it sure isn't Roys fault!!

People came straggling in to eat up until 1:30. The kitchen crew started the clean up and sorting the various dishes and silverware.

The power was shut off at 3:00pm sharp and everyone started the mop-up exercise. As one station would get their antenna down, they would move over to hekp the next station. The co-operation this year was superb.

This wad one of the best field days I have been on. We were down 20 people from last year. Let's hope we have a better turn out next year.

Hats off to George for the great job he did as chairman.... .....MARGIE K7AMJ

PROGRAM OF JUNE 26

by W7WLX

THis one hour went with the speed of light as Mr. John Holland of Seattle spoke about, demonstrated and showed movies and slides describing the Laser beam. Mr. Holland is the Senior Engineer of the Micro-wave Engineering crew of Pacific Northwest Bell and had volumes of astounding information of the potential and already used applications of Light Assimulation of Stimulated Emission of Radiation, abbreviated to LASER

In the above picture, Mr. Holland is making some last minute adjustments on the Laser light and the focusing lens.

Light waves can be used as we use sound waves, creating vast increases over present communication limitations. Now only 19 TV channels can be handled, simultaneously- with Laser light, 84 million would be possible.

Laser exposed film can produce 3 D pictures and

Program (cont.)

with exposure of film, while the object is rotated 360 degrees, a negative is produced that shows all sides by viewing from different angles. These are know as Holograms and will revolutionize the picture industry. A 8½ x 11 film can hold more information than any present computer can handle. Altimeters, photos of the moon, etc. will reveal minute details as well as actual heights and depths at the surface; 3 D color TV is coming, too!

Industry uses Laser for drilling holes in wires thinner than a human hair, through hardnesses such as diamonds, as guides to accurately drilling tunnels etc., and on and on.

Medical uses, such as surgical knife sealing off small blood vessels as it cuts, drilling teeth and most amazing, the successful welding of detached retinas to the back of the eye with a beam focused through the pupil. No surgery involved.

Lasers can produce a light 10 million times brighter than the light at the surface of the sun, so with such great power this new source is being tested and tried in experiments of all kinds in labratories throughout the world.

Marvelous program - hope you didn't miss it!

UPPER LIMITS

Don't like to say 'We told you so' but if you haven't heard any dx on six meters yet, you had better start building a new antenna or check the tubes in your receiver. It sounds like '58' and '59'. During the last three weeks every state, including Hawaii (no Alaska yet) has been worked from the Seattle-Tacoma area.

The signals have 'hung-in' until 11 O'clock at night. The band has been open above 51 mc, so any one can catch at least one or two a night. Now we will stick our neck out again and say, listen for the JA's. They won't be far behind.

Worked three new stations on two am just before field day, so maybe that band will get going from now on. Lots of room and no QRM. They probably are dpilling over from the fm portion of two.

146.76 is so full, somebody is going to have to give. There is hardly a quiet second.

Have no news from the six fm bunch, so can't say how things are.

Field day was good to the vhf bunch. (In our club anyway) Six was hopping almost continuously and 2 did over triple from last year. With a little more antenna, we will do the same next year.

We proved to a lot of people that fm is the mode for mobiles during the recent Eagle's convention. More on that in another article.

CONFUCIUS SAY: "Love like taking pictures, never know how will come out!"

K7???

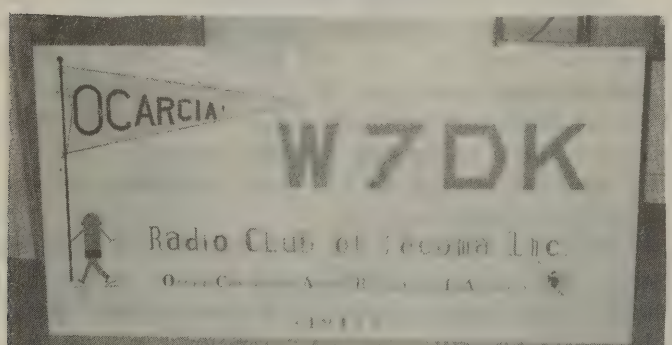

This months club member picture is if a current member in good standing. Very active in club activities and if you attend meetings you most likely have seen him attending. Active on the bands, searching for another award to add to the collection, hanging on his ham shack wall.

How did you do on last month's picture? If you guessed Tom Gilmore, W7FUL, you were right.

Will give you the name of this month's picture in the coming issue.

NEW CLUB BANNER

The above picture shows the Club's new banner. A vote of thanks to Scotty, K7CYZ, who got the job done in time for the coming hamfests season. It will be set up at the Radio Club's delegation in Yakima this month. Watch for it when you attend the Club's functions.

F-D FIRST RESULTS
by WA7BHH

The day after the day before has come ar except for a few aches and pains and checking th logs, another field day has been endured.

The bands, this year, were not very cooperati There were only 3 bands that showed an increas from last year and they were 20 meter cw, 15 met cw and 6 meters phone. This is unofficial, a this time, as the logs have not been checke Unofficialy, the top 4 bands were 20 cw, 75 phon 15 cw and 15 phone, in that order.

It seems as though at this time that th operators of 15 cw will enjoy a steak dinner compliments of the operators of 15 phone. (Sor Denny)

We will get a group together soon and check th logs and will give a report on the activities a that time.

Although the bands didn't cooperate very goo this year, I think that everybody had a good tim Except for a few mishaps, every thing went ver smooth. It seems after a few years of usage, sor of the equipment gets a little fatigued, IE, th 10 meter beam bracket, that holds the beam to th pole, broke and down came the antenna. No damag to the antenna. It was reinstalled and many cor tacts were made.

A shorted connector on the 15 meter beam cause a little concern but was corrected and except fo losing some contacts and maybe a steak dinner operations went along pretty good afterwards

We also sustained a bent element in the 6 mete beam but didn't seem to bother the operations c the beam as they came up with a better score tha last year.

40 meter phone was late getting on the air, a John, K7CZF, thinking that field day was next wee end, was late getting there. I got them fixed u with Steve's 350 and my power supply until Joh arrived. It seems that Beryl, K7NPG, couldn't ge the first rig that they tried to use, tuned u properly. (SEE PICTURE) Nary a contact was mad using the cracker box rig, consisting of a cracke box, cup and salt shaker. Better get that ri working by next F-D Beryl...George F-D Coordinato

MEMORIAL DAY RACE

AS SEEN FROM THE STARTING LINE

by W7WLX

Assigned to a Coast Guard Auxilliary Starting Line boat, I arrived at Johnny's Dock area and found the officrr with whom I was to ride. He had a bad start already with a late arrival and then trouble with his trailer, when he tried to launch his boat, all adding to his frustrations. During his trials he had missed the meeting of racers and officials, which occurs just before race time. When I arrived I announced that one more operator would be along shortly to ride on the Official start boat and since the starting officer was also right there, no further comments were made or received,

My boat took off for the race course at full speed. A 15 foot boat with 150 hp outboard motor wide open. Those nice big yellow crash hats need holding if they are to remain on the head, where the other radio people can spot them. Sitting in the seat did not give proper visibility, so my skipper suggested I sit on top of the seat. Now it is necessary for me to hang on to stay in position. Holding pack set, helmet and me, we arrived at the mouth of the Puyallup, where my officer assigns two of his auxiliary boats to anchor in East and West positions to make a starting line. All race boats to keep to the north of these boats.

Next a race official comes by and says line should be closer to mouth of the river and I notice that he does not have a radio man aboard. We go full speed to each anchored boat to tell them to move. Replaced fallen hat, picked up upset pack set and held on for dear life. Slowed down and skipper dug out his walke-talkie sets, then full speed to official starter boat to give him one set. Holding on!

OOPS! The starting line boats don't have their flares! Full speed to each anchored boat to provide flare guns and flares. Holding on again but now asked to also hold skippers walkie-talkie. Needed three hands before - make fourth out of knees.

Skipper decides to tell all racers to watch for 1 ninute red flares before gun starts race. Full speed - hold on!

Back along starting line with boat drifting, WLX tries pack set for check-in to net control. Onky noise on receiver - no signal, but I report the 1 minute flares have been fired. 12 O'clock comes, 12:01 - 12:02 and no gun. I'm perched atop the seat with finger on push-to-talk all ready to announce that the race has started, when skipper decides he'll have to start race with the starting line boats firing another flare. Full speed to official boats - full speed to race boats to explain "start in 1 minute when next red flares are fired". Full speed throughout 100 boats to make

sure all hear the announcement. Full speed to get out of the way.

Flares go, race starts about 12:06. I report to net control that the race has started, one boat capsized and racers picked out of water.

Looking at mouth of river we see pileup of boats stranded on low tide mud bar. Two or three push off and go while others are having difficulty getting into deep water. My skipper heads that way to see if he can assist only to discover he is in mud and turns back. Then noticing his son's boat high and dry on the mud he wades through mud to help him refloat.

Young son relates the story from the official starter boat: Meeting of racers before start of race clearly stated no gun would be used - - after 1 minute red flares from starting line boats, the 12:00 start would be indicated by white flare from Official Stsrter boat. White flares were fired but boats didn't see and since the official starting line boats did not wave racers on, they waited. Official starter was calling on walkie talkie - - waving arms - - sounding horn but only response of our boat was "full speed antics all over the course", according to son!

Before all the commotion started and they had no ham aboard, they saw what looked like radio man with pack set on the dock, so they went in that direction, waded through mud to calling distance and asked if he was radio operator assigned to official boat. With eye on deep mud that operator decided he could do his job from his dock location so indicated he was not their man. I don't believe it would have changed anything had he been aboard since I did not receive his calls from the dock or the signals from any other stations.

Reports after the race indicated the RC of T turned in a fine performance of race coverage and we're glad - just don't ask my skipper about the race start!

EAGLE'S CONVENTION

Yes, we had 'A tiger by the tail'. We didn't whup it but we sure tamed it to where we had it under control. The courtesy car project, for the Eagles convention, was an education to all who took part in it.

These are a few of the fellows who participated in providing rides for the Eagle convention people to and from the convention hall. With all the activity it was impossible to get everyone in one spot long enough to get a picture of all.

First we learned that f.m. is the most reliable mode of communications for close haul work. Of course the commercial operators have done this for years but we had to be shown. 146.76 mc was used and the whole city was covered.

Second we learned that we need more training in this type of operation. This is where our club and A.R.E.C. has fallen down. To be proficient, we have to have practice, weather it is dull work or not.

Third, we learned that we need more portable and mobile equipment, not only for this type of operation but for all emergency and parade work. This should be our next club project.

All-in-all, things went very good. We had a problem supplying cars during the daytime on Thursday and Friday but during the evenings, Saturday and Sunday we did all right.

Thanks to everyone for the help given and the time taken to see that this was a success.

Following is a list of the people who were on the job; George WA7BHH, Scotty K7CYZ, Ed K7CZM, George WA7CSF, Scot WN7IYZ, Larry WN7JPC (now W7JPC), Tim WA7FVT, Steve K7SSC, John K7CZF, Bob K7IND, Dick W7RGD, Otho K7ATD, Glenn W7CMZ, Tom Miles, Roy K7USF, Bob WN7IPR, Mark WA7FLI, Roy W7AZI, Ethel W7WLX, Beryl K7NPG, Laverne K7NKZ, Denny W7ZTG, Doc W7OS and Dick Hazelmyer.

ARRL BULLETINS

NR 171
The United States has concluded a reciproca operating agreement with Guyana, effective May 13 1968. Amateurs of one country visiting or resid ing in the other may obtain permission to operat their own amateur stations there. This 34t reciprocal agreement supplements the list appear ing on page 86 of May QST BT

NR 172
During the summer travel season many amateurs sto by to visit ARRL Headquarters and the Maxi Memorial Station, W1AW. The League Headquarter building is open to visitors Monday through Frida 8:30 to 4:00 EDST, without appointment. Othe times can be covered by writing and arranging fo a tour. Printed directions to ARRL are availabl without charge. Send self addressed stampe envelope to ARRL 225 Main Street, Newington, Connecticut 06111 BT

NR 173
Attention DXers. Announcement is hereby made o two deletions to the ARRL Countries List. Thes deletions are VS9H Kuria Muria and ZC6 Palestine. Contacts made with Kuria Muria November 30, 196 and after will be considered the same as contact with the Sultanate of Muscat and Omean. The ZC Palestine listing, comprised of the UN Truce Are bordering on Israel, no longer exists. Therefore that listing is being deleted. Honor Roll totals which will appear in December 1968 QST will have these two deletions made automatically BT

DX COLUMN FOR MAY

by W7AQB

Conditions on twenty have been quite good at times recently. Openings to the Far East occur about 1400-1600Z. Signals from 9V1, 9M2, XW8, UK8 and JA peaking over S-9.

On May 27, UK9XI, on Christmas Island in the Indian Ocean was 20 DB over 9 for over an hour.

These conditions should be at their peak now and will begin to deteriate soon. At times, in the late afternoon, North Africa can be heard but it is difficult to work through the East Coast aluminum curtain, 7X0AH, Algiers, does listen for W6, W7 at times and can be worked from here.

Fifteen will produce good signals from the Orient and all parts of the Pacific during midday and some days well into the evening hours.

An expedition by 9V1RJ to Bruneim signing VS5RCS will be concluding about the time you read this but may still be on, transmitting 14101-14105 and listening at 14190 and up.

Good hunting!

SLIVERS AND SPLINTERS

Congratulations to Larry Ziegler on passing his Advanced License test. Jumped from Novice to this new license. Dropped the N and now is W7JTC.

The Radio Club would like to say a special "Thank You" to Mel, K7ATF, for the fine tower and rotator he donated to the club. The tower was put to good use field day with the 20 meter cw beam on top.

Don't forget! One meeting only in July and August. Second week each month.

Loggers contest will be September 7th and 8th to correspond with Amateur Radio Week. The Governor has signed the proclamation assigning the first week in September as Amateur Radio Week.

George, WA7BHH, very busy rounding up a crew to get the field day scores copied over for the official log forms to be submitted to ARRL.

Joe, W7IG, down from Eatonville at club meeting after field day and looking non-the-worse after the visit from the thundering herd of DK over the week end.

John, K7CZF, a little red in the face after mixing up the dates for field day.

Merl, W7IKG, still popping buttons over taking first place on score f.d. Good job, well done Merl.

Bob W7RXS and XYL Inez W7RXT had a visit from number one son, Dennis, from California. Bob also just acquired a Honda for running around Fox Island.

SLIVERS AND SPLINTERS (cont

Gene, W7BTV, busy setting up housekeepi new QTH in Gig Harbor.

Beryl K7NPG and XYL Laverne K7NKZ busy lo up the camper, getting ready for vacation tr the Alaskan hiway with Dick W7RGD. Dick jus a metal detector and expects to find the mo lode on the trip. Will probably find al nails and tin cans discarded along the way.

Scotty, K7CYZ, busy organizing the cou ride operations for the Eagle's convention. job, well done.

Chip, K7VPF, back on his two feet again. cast if off his leg and he is getting around A sore leg doesn't hinder operating a bug on day anyway!

Jim, W7BSW, couldn't make it field day, d open house at the new MARS station.

Roy K7USF and Dennis W7UBA over lookin Dick's W7RGD new Apache tent trailer and ge some ideas.

Otho K7ATD and Roy W7AZI busy getting read the annual Salmon Bakes at Point Defiance.

Merl W7IKG and Margie K7AMJ getting read the Hamfest in Yakima. They will look ove situation and make a bid for the State Ha in 1969 on behalf of the Radio Club. It was on and passed at the last meeting in June to a bid if the opportunity comes up.

THE LOGGERS BARK

VOL V NR VIII W7DK AUGUST 1968

FROM THE PRESIDENT'S DESK

At our July meeting we were honored with the presence of George Hart, W1NJM communications manager of ARRL. I was in the middle west during the meeting, but made it to the State Hamfest at Yakima, met the gang, had a good time, came home with at least two nice prizes to members and the Washington State Hamfest for the Radio Club of Tacoma in 1969. Already a steering committee has been set up and Merl Chavis will be the General Chairman. The date has been set for July 12 and 13, 1969.

The steering committee will act as heads of the different sections but we will need the help of every member of the club to make it a success - lots of work!

In the mean time, don't forget the picnic at Dewey Wilson's, W7HF, place on Hoods Canal, six miles west of Twanoh State Park. Swimming, Oysters, lots of good food and a good time. The date is Sunday, August 11th.

On August 24-25, we will make our annual trip to Westport, enjoying the hospitality of the Stan Warburtons. Another enjoyable week end let's hope we get some fish this year.

Remember only one regular meeting in August. (The 14th.) ..... 73 Ed, K7CZM

CLUB ROSTER BOOK

Your 1968-69 club handbook will be out in one month. This is a hard book to put together and takes a lot of time for everyone. We are sorry we are so late but hope it proves to be worth the time put in on it.

The fact that this is so late we won't publish one next year. This will have to last you for 1½ years, so please take care of it.

Please add your new members on the pages provided you in the book so you can keep it current.

Thank you for your patience. .....Editor

WASHINGTON STATE HAMFEST

At the recent State Hamfest held in Yakima, the Radio Club of Tacoma was awarded the honor of hosting the activities for 1969. THE DATES ARE JULY 12 AND 13TH.

Merl W7IKG, is the General Chairman and the sub-chairman and committees are now being formed. This is a Club project and each and every member of the club will be called upon to do his share. There is definitely no shortage of work on this project.

The Tacoma Sportsmen's Club Chateau has been secured as the hamfest site and needless to say, the facilities are certainly more than adequate. More details on this portion of the hamfest will be forthcoming as we progress.

The first combined committee meeting will be Monday August 12th. at the club house. The time will be 8:00 P.M. As the project progresses, reports will be made at the regular club meetings. This being a club project, we would like to count on each and every one to have a share in this. When you are called upon to help, please give your best. The success of the hamfest rests directly with each of us. Thank You..... Merl W7IKG

NEWS NOTE

Coinciding with the 1969 Washington State Hamfest in Tacoma, is the "TACOMA CENTENNIAL."

Festivities are planned in all the Tacoma area and the weekend will be the climax to "TACOMA CENTENNIAL WEEK."

Visitors to the Hamfest will be invited to take part in the various activities that are now being planned. Don St. Thomas is the chairman of the event according to the grapevine.

DON'T FORGET TO ATTEND MEETINGS!!

BABY PICTURE

We have no baby picture for this month. Guess the club members are too shy to give the newspaper pictures of themselves, in earlier years.

Last month's picture was of our current President, Ed Cole, K7CZM.

How about getting that picture out and dust it off and get it to one of the paper's members for a future date.

UPPER LIMITS

Having been on vacation for two weeks, we've had very little time on the air so can't say just what states have been coming into this area. One side note, we tried for two nights to get into Salt Lake City from Bear Lake, about 100 miles away with no luck on six or two. Just three days after getting home we had a QSO with K7SLS in Salt Lake City.

Eastern Washington, Oregon, Idaho, Wyoming, Utah and Nevada were a wash out for vhf. Not one contact through six states. We did make contact with California while camped in Reedsport, Oregon.

We wonder how many more people can get on 146.76 before the seams give. Sure is a busy frequency. Never a dull moment and a lot of people are learning what a good antenna is to radio.

There is some 450 meg. gear coming on the scene now so maybe we can get that band going and relieve 2 meters a little.

YAKIMA HAMFEST

I'm sure everyone will agree the annual state hamfest held in Yakima this year was a big success with lots to do for everyone there.

It was a well run affair with activities for hams, xyl's and the Jr. ops. We did a lot of observing this year in order to bone up for next year.

PART OF THE CHOW LINE

There were rumors flying the first day about the different clubs that were going to bid for the Hamfest for next year. I don't know what happened but with our enthusiasm we must have scared them all out. When the bidding was to start at the Banquet only the Tacoma bidder got up to make a bid, so naturally we got it.

HAMFEST (cont.)

We had a nice meal and a talk by George Hart. A dance program was presented by a childrens dance group.

Most everyone adjourned to their trailers, tents or motels to get some rest for the Sunday activities. That is everyone except Elmer K7LVL, and Ed K7CZM, who stayed up until 4:00 exercising their elbows. We older members of the group didn't accompany them, of course.

SOME OF THE ACTIVE TACOMA CLUB MEMBERS!

Let's hope we can fill the shoes of the Yakima bunch next year. They have done a great job of this affair for 4 years now so we have to do some mighty hard work to compete with them.

ARRL BULLETINS

NR 176
The ARRL Intruder Watch is now well into its fourth year of operation, with an impressive record of reports leading to intruders being removed from the amateur bands. Additional work, particularly on the forty meter band, and constant vigilance are necessary. Volunteers, with two or three years amateur experience and good receiving equipment, who can spend two hours a week logging the calls of non-amateur stations in the amateur bands would be welcomed. Volunteers please write the Intruder Watch, ARRL, 225 Main Street, Newington, Connecticut 06111 BT
NR 177
The Indonesian Government has begun the issuance of amateur licenses with the prefix YB. However, United States and Canadian amateurs still should avoid working Indonesian stations until official word has been received from ITU Geneva that Indonesia has withdrawn its objections to international communications by its amateurs. When the country is withdrawn from the banned list, there will be a further bulletin from W1AW. A full list of banned countries, including Indonesia, appears on page 82 of July QST BT
NR 178
The Federal Communications Commission has adopted rules providing for slow scan television in the high frequency and very high frequency amateur bands. Effective August 30, slow scan television is permitted in the Extra Class and Advanced Class voice portions of the 80 meter and higher bands, with bandwidths no greater than a properly operated single sideband voice signal. On six meters and above, bandwidths equal to a double sideband standard amplitude modulated signal will be permitted. November 1967, February 1968 and the forthcoming September 1968 issues of QST contain additional information on the rulemaking BT
NR 179
A new item joins the comprehensive list of ARRL operating aids. Operating Aid number 14, now available without charge, includes the RST system, a time conversion chart, ending signals, the ARRL and ICAO phonetic alphabets and steps to follow in an emergency. To get your copy, send a stamped self addressed envelope to the ARRL Communications Department, 225 Main Street, Newington, Connecticut 06111 AR

OLD FRIENDS

HERM K7NHS & XYL CLAIRE

While at the Yakima Hamfest, we had the pleasure of visiting with some old club members, the Zimmermans, Claire and Herm K7NHS. They stopped at the Hamfest while on their way to Longview. They are living in Syracuse, Utah and now are subscribers to the Loggers Bark.

Claire said to tell everyone 'hello' for her and she really misses the 'ole' bowling gang.

So 'hello' from Claire and Herm. We hope to see you in Tacoma next year.

DEWEY'S PICNIC

Don't forget this date: August 11th!! This is the date for the annual picnic to be held at Dewey W7HF's place on Hoods Canal. This is a fun filled day for everyone.

Bring a pot luck dish, your swim suit and the kids. Dewey supplies the good weather and a warm welcome to all the club members and their families. Those who have attended this picnic in the past can vouch for the good times we've had.

Come on you old and new members, follow the map in the back of the paper to Deweys and we'll see you there.

--

A lot of hams ignore 40 meters but it sure does a nice job when your on vacation in Northern B.C. and want to talk to your friends back home to let them know you're still alive and having fun. The only antenna you have is a dipole thrown up in a tree for a very temporary antenna installation. This is real amateur radio. Thanks to a lot of fellows for getting on the air to say HI..K7NPG

SLIVERS AND SPLINTERS

The Huntley's, K7CYZ and xyl Vivian, are back from their vacation to Yellowstone National Park. They report, they had a nice trip with lots of scenery to view.

The Devishes (W7AZI and W7WLX), Ed K7CZM and Henry WA7HFG all went to the Shriners Convention and report a good time was had by all.

Field day chairman reported the club had 16,644 points for total score this year.

Tom W7FUL and xyl Mona had a 4 day vacation in the Gifford Pinshot Forest. Tom had flat tire number 5 also.

Dick K7MQJ and xyl Gloria on a trip to San Antonio, Texas to the Hemisfair. Some people have all the luck.

Congradulations to the number 2 Chavis girl, Marie, whowas recently selected to serve on the Peoples Store fashion board, representing Lincoln High School. She will be modeling back to school clothes during the month of August.

Smitty K7ATD and Mel K7ATF busy wuth the Salmon bakes at Owen's Beach Point Defiance, supplying the P.A. system needed for the large crowds attending. After a few minutes of hard work, that is an enjoyable place to be on these hot afternoons.

SLIVERS (cont.)

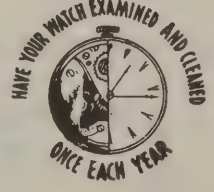

Has anyone been out to bowl this summer? Remember to bowl at the Bowlero. They are one of our faithful advertisers in the Loggers Bark. The bowling season is coming up in another month and we all need to get some practice in before the fall season starts.

Ralph, W7COP, putting time in working at his beach home over by Gig Harbor. When are you moving in permantly Ralph?

Beryl, K7NPG, taking down part of his antenna system. In the process dropped an antenna across a powerline that feeds the electric water pump in the well system that feeds the neighborhood. No one hurt but Laverne advised she wasn't giving any one a free drink of water that afternnon,

The Ryan's (W7RGD and Verna) have been entertaining a young lady from London England. Seems the big stumbling block is her name, Rhiain. (Welch, pronounced Re-ine and roll the R) Majoring in Geography in college in England and very interested in the operations of our City and State Government. Spent most of her time in the museum, County/City building and the Public library.

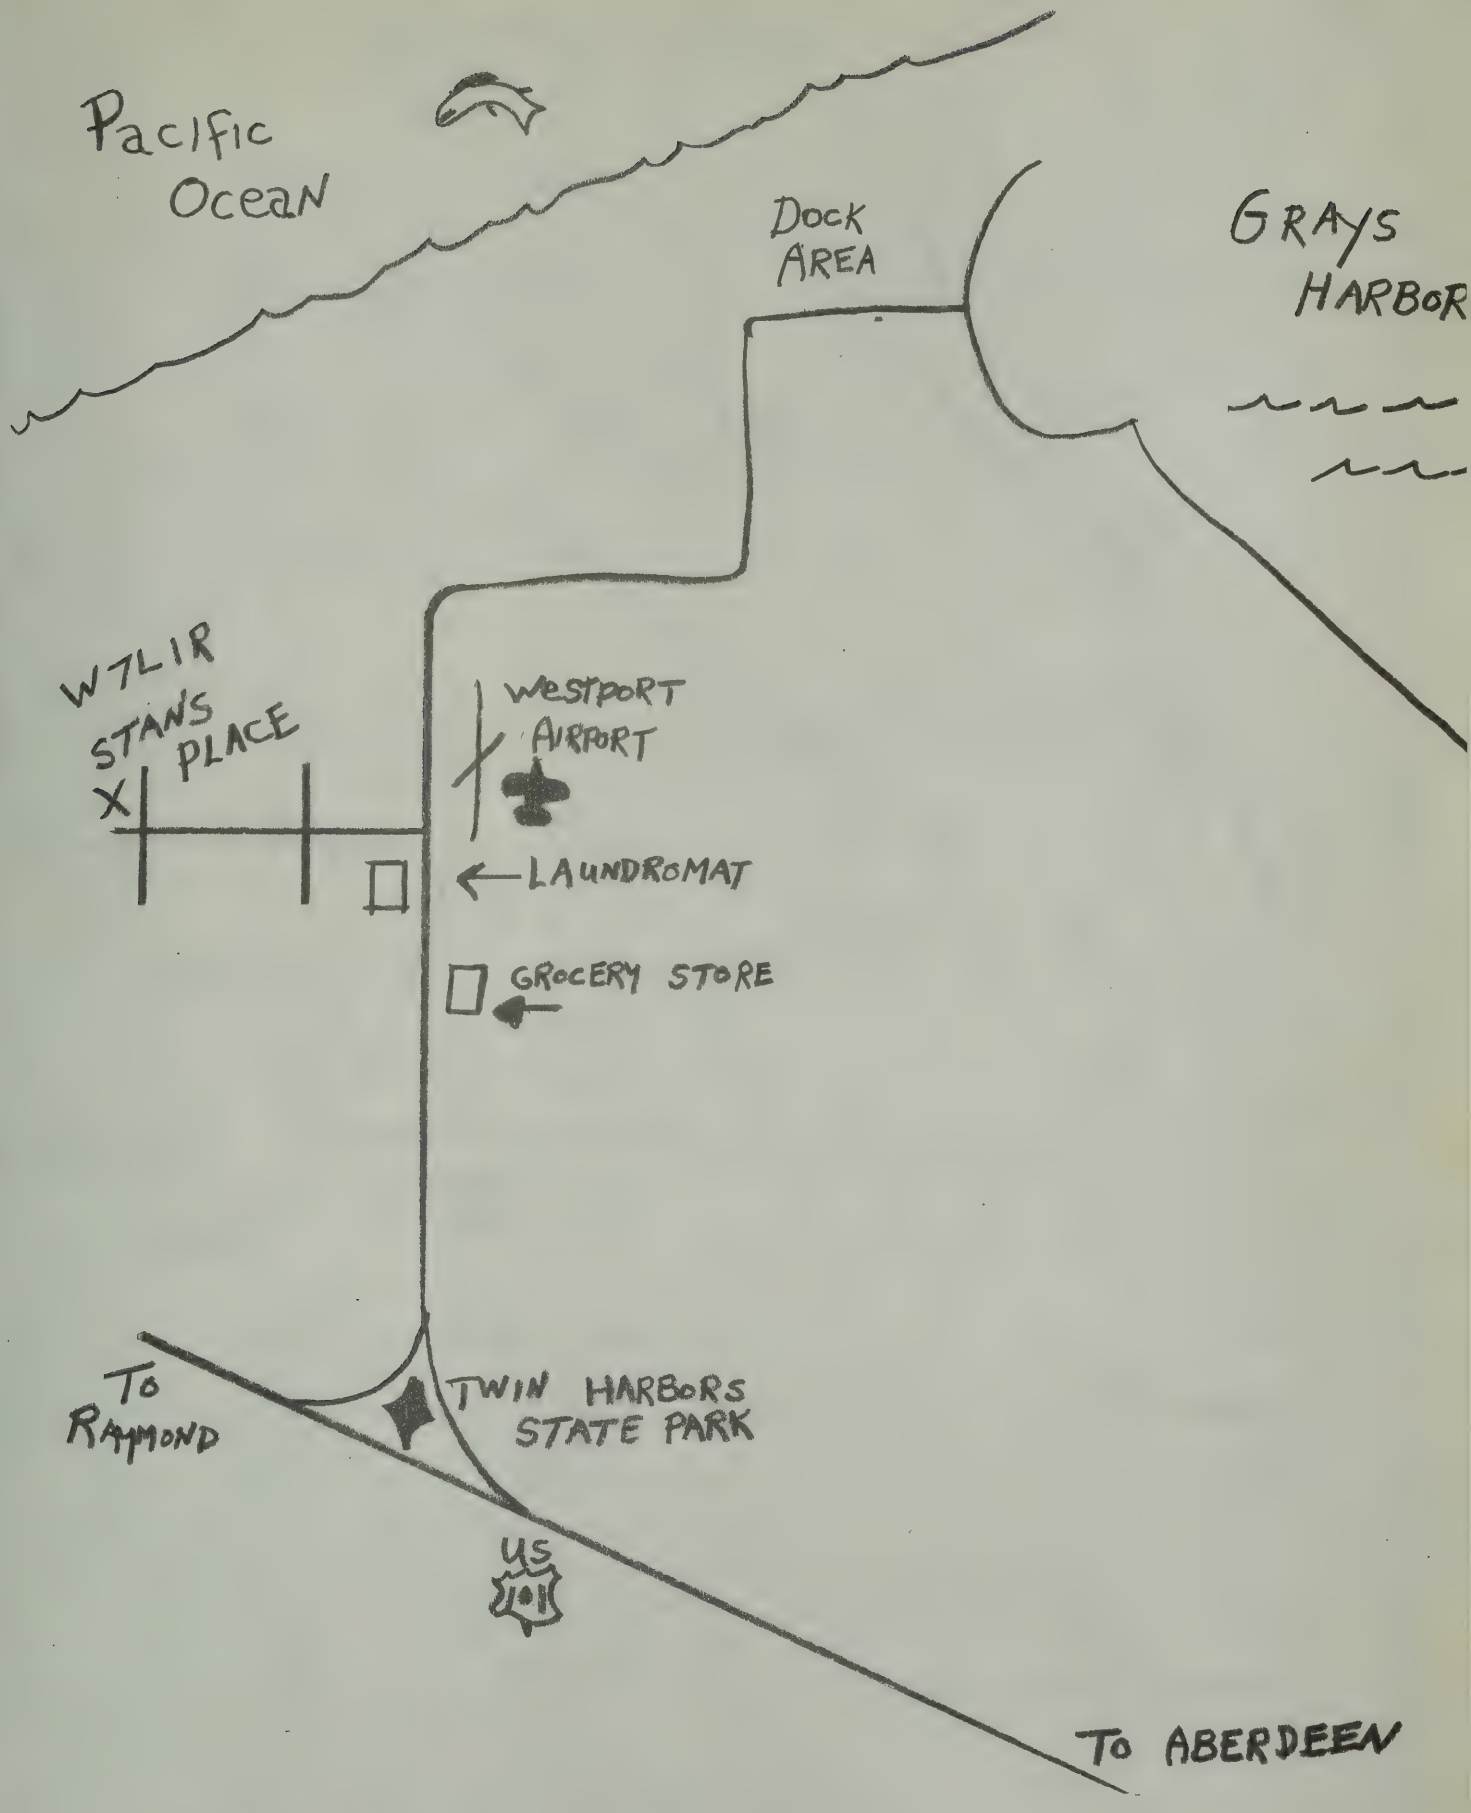

Merl, W7IKG, busy working under his house. Seems the foundation needed some work. Got himself a lu-lu of a sunburn over a hot week-end.

THE LOGGERS BARK

VOL V NR IX W7DK SEPTEMBER, 1968

FROM THE PRESIDENT'S DESK

Well we had a swell time at Dewey Wilson's place for our annual picnic. Lots of good food, swimming, the weather was good to us, and a person could take home a mess of oysters if he liked.

The State Hamfest committee is getting well organized; things are taking shape and in spite of a lot of hard work, it looks like it will be fun. If you haven't indicated you want to take part, come on in. Next meeting of the committee will be September 16.

The first week in September is Amateur Radio Week, and be sure to get on the air for the Loggers Contest September 7 and 8th. Somebody just might need your contact to get a Loggers Certificate. The BEARS also have a contest the same week end.

The fall season starts with our meeting of September 11th. We will have an auction that night and it's worth the price of admission to see our auctioneer Roy, W7AZI, perform. So bring your pocket books and have some fun.

We finally got our club license changed and Del W7UMJ, who has an Extra Class license, will be our new trustee. Thanks for your cooperation, Del.

While we are writing this, we are looking forward to our trip to Westport, but regret the Warburton's will not be able to make it this year, but it is another of those annual events, which we look forward to.

73, President Ed K7CZM

A.R.E.C. NEWS

The AREC Net is being held on the first and third Wednesdays of each month.

The frequencies are 3930kc, 29.6mc, 53290mc and 146.76 mc..

The time is 0230 GMT until PDST is dropped and then will be 0330 GMT. That will be 7:30pm local time.

A.R.E.C. (cont.)

We are looking forward to a lot of participation and would like to see the entire membership of DK checking in to at least one of these frequencies.

Let's be prepared for another Simulated Emergency Test (SET) January 25th and 26th. Maybe we can do as well as kast year.

WASHINGTON STATE HAMFEST NEWS

The plans for the Washington State Hamfest are progressing nicely and the dates to remember are July 12th and 13th, 1969. The place, - Sportsmens Chateau at 164th and Canyon Road. A list of the committees and the chairmen follows and all members are urged to associate themselves with one of these.

1.	Registrations	Margie K7AMJ
	Housing Reservations	Laverne K7NKZ
2.	Publicity	Max W7AEA (tentative)
		Jerry W7BUN
3.	Advertising	Cliff W7MFG
		Dennis W7UBA
4.	Printing	Dick W7RGD
5.	Displays	George WA7BHH
6.	Transmitter Hunts	Scotty K7CYZ
7.	Sunday Breakfast	Roy W7AZI
		Smitty K7ATD
8.	Dinner (Sat.)	Ed K7CZM
9.	Prizes	Jerry W7BUN
10.	Entertainment & Contests	Beryl K7NPG
11.	Snack Bar	Ethel W7WLX
		Vivian Huntley
12.	Financial	Hunt WA7AKW
13.	Station	Scotty K7CYZ
		George WA7BHH

The facilities, for the hamfest, are the best, we think of all available. I'm sure we will have the best hamfest the State has ever had and with the help and cooperation of each member, it is sure to be a great success....., Merl W7IKG
General Chairman

UPPER LIMITS

The dx has slowed up some. Still a few states showing. Alaska has been in twice.

Still looking for JA's on six. The meteor scatter, we had last week, didn't show too good on six in this area but news has it that some parts of the country did o.k. The ssb fellows were very active but the am was poor, Some cw from back east but did not work them.

Ten had some short skip but was nothing to get excited over. Some ssb from California but not many am stations.

Was hoping that two woukd open up during this scatter. Probably need more antenna at this qth. Heard a lot of noise and a few local fellows but no one working any dx. (Unless you call Portland dx)

The Tacoma gang on fm have decided on 146.64 as a yak channel. 146.76 will be the calling freq. This will be the same set up as Seattle, so you fm fellows get some crystals. The AREC Net will be on 146.76 until everyone can get together on 146.64.

The 400 mc gang will be on 445.0 mc and will have the AREC check in on that frequency, as the gear becomes available.

Don't forget the AREC Nets on the first and third Wednesdays at 7:30pm local time. 51.0 mc on six, 145.35 on 2am, 146.76 on 2fm and 445.0 mc on the quarter meter band.

Don't forget the Washington State Hamfest in Tacoma in '69'.

DEWEY'S PICNIC

We had the best turn-out at Dewey's picnic, this year, that the club has ever had. A record 64. (See picture front page)

The oysters were harvested as usual. The food was fabulous as usual and the water was "out of this world!" The parking was a slight problem for a while but we got them all in. You, who forgot the date, sure missed a grand day.

The fellows sure enjoyed the swimming. The men and the teen-agers had a ball but the ladies were chickens this year.

Thanks Dewey for a grand time!

ARRL NEWS

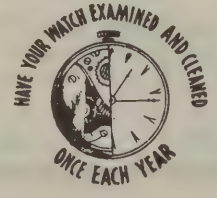

This month's bulletins are not complete. After 5 years of receiving bulletins, the Loggers Bark has been dropped from the mailing list and we hope to get the bulletins from the club, to keep the readers advised of the latest news from ARRL.

NR 181

All amateurs are invited to participate in the ARRL September Frequency Measuring Test, September 14. Note that this GMT date represents the evening of September 13 to United States and Canadian amateurs. W1AW signals for measurement will be at 0130 GMT September 14 simultaneously on approximatelj 3507, 7042 and 14,045 kHz, and at 0430 GMT on approximately 3594, 7075 and 14,110 kHz. Complete details appear on page 95 of August QST. Your FMT resukts may help you qualify for Official Observer appointment BT

NR 182

The Federal Communications Commission has denied a petition of K6EDX and K6RNQ to rescind restriction on 50.0 to 50.1 MHz and 50.0 to 50.25 MHZ scheduled for November 22, 1968 and 1969 respectively. FCC thereby restates its intention that these segments will be reserved to holders of Extra and Advanced Class licenses as of the dates above. (Incidentally, the ARRL Board has twice opposed restrictions on these segments of the 50 MHz band) FCC also denied three requests for additional grandfathering of higher class privileges in special cases. Details on these matters will appear in the October issue of QST AR

LOGGERS CONTEST
K7CZF - WA7FVT

The annual Loggers Contest is coming this month, so get your rig dusted off and get some new batteries for your hearing aid. The dates to keep open are September 7th and 8th. Following are the rules for this years contest.

1. The contest will heareafter be referred to as the 'Loggers Contest'.
2. The contest is only among members in good standing in the Radio Club of Tacoma Inc. The object is to publicize the Radio Club of Tacoma (W7DK), the Loggers Certificate and to try to make as many contacts with any other amateur radio stations as possible.
3. The contest will be held from Saturday noon, September 7th to Sunday noon, the 8th.
4. Any band, frequency, power or mode may be used, within the provisions of the FCC regulations but only one contact will be counted for each station, regardless of frequency or mode.
5. In order to count a contact as valid it must be a two way contact and the log must contain the date, time, signal report and the stations QTH.
6. To count toward a score, one point will be allowed for each contact, except that any novice contestant will be credited 5 points for each contact when using his novice call. Five additional points will be allowed to a contestant who receives, from a station with which he is in contact, a valid request for a Logger Certificate and enters such information in his log. The information will include the call letters of the stations claimed and the dates of such contacts.
7. There will be 2 prizes awarded for the two highest scores, one or more must be Novice operators.
8. Each contestant should submit a log of his operations to the contest committee by the last day of September.
9. All entries shall become the property of the Radio Club of Tacoma and the decisions of the Loggers contest committee shall be final.

Logger Contest Committee
Chairman John K7CZF
Tim WA7FVT

SLIVERS AND SPLINTERS

The Radio Club's station call, W7DK, has been officialy transferred from W7AEA to W7UMJ as custodian of the Club call.

Remember, club members and guests, when attending the club meetings please sign the log book that is passed around during the meeting time with your full name and call letters. Doc, W7OS, made the request. Doc advised it is very hard to write up the past history of the club without better records.

Gene W7BTV, Max W7AEA and Sharon Abbott with their families, are all on vacation. All three families were vacationing with their boats up in the San Juan Islands during August.

Roy, K7USF, is in the process of moving. His present QTH has been sold and a new one has been spotted. All this has to happen just when Roy got his rig back after being repaired. Antenna party Roy?

Tacoma had a 3-11 fire during the second week of August. Ralph, W7COP and Roy, K7USF, answered the call on the C-D bus. The Tacoma Boat Building Company went up in smoke in a very short time. In fact, by the time the bus arrived on the scene, the entire building was burned level with the ground.

Home for a well earned vacation, during the month of August, was Bill Rohrer, W7ZFY and his pretty XYL, Peggy. (Lt. USCG, USCGS South Wind Icebreaker) Look for Bill on 20 ssb and cw from Antartica again this fall. Bill, Peggy, Margie K7AMJ and Merl W7IKG enjoyed a Saturday night in Seattle visiting the bars and the Space Needle. (Fun huh?)

Nose news! Patty, K7NQR, had a Honda accident and took a spill on her nose! The Honda was ok but not Patty. Surgery corrected things and we hope Patty is feeling better now.

John, K7CZF, is now toying with a new 2 meter rig. Rig id a 84 pound Bendix. If it works according to weight, he's got it made.

Stan, W7LIR, is back home from California after his recent illness and is doing fine. Has a new Swan rig on the air. Stan can have visitors now and would like to see some of the fellows.

Sophie, XYL of Bob W7SFO, is recovering from her recent illness and should be home from Lakewood General Hospital by the time the Bark goes to press.

Ed Moe, charter member of the Club, has had some of his activities curtailed with Arthritus but still going strong.

Still a lot of working on the formation of the Washington State Council of Clubs. Also work is still going on to reduce the amateur call letter plate price to its former cost. Prospects look good at reducing the figure from $30.00 at this time.

SLIVERS (cont.)

Thanks to Dick Engh, W7GDW, for his contribution of gear to the club, we will have an auction at the club house on the second week meeting. Dick is now in American Samoa on his new job.

Alex, W7AZR, is back from Europe and should have some interesting stories and pictures.

Thanks to Vince, W7JAN, of C and G Electronics, the club has a HT-18 antenna. Vince donated the antenna to the club, and was his personal property It will need a little work but is complete and ready to erect into working position. This will provide a verticle antenna for the club on 80 thru 10 meters.

Also thanks to George Abbott and Ed Coles for picking up the antenna and hauling it to the club house.

Art, W7JGN, still trying to figure out the rules to the new card game he got involved in, the evening before the fishing trip at Westport. He wasn't alone however. Several others were scratching their heads.

Don't forget, regular meetings will start this month. Second and fourth Wednesdays at the club house and board meetings on, the third Wednesdays.

VOL V NR X W7DK OCTOBER, 1968

FROM THE PRESIDENT'S DESK

Well, we made almost $45.00 at the auction sale of goodies, thanks to the enthusiasm generated by Roy, W7AZI, our auctioneer and the contributions of our members and much of it from Dick, W7GDW.

The combined Logger Contest, BEARS Contest and the Washington Q S O Party were a rousing success. More activity than I can ever remember. We should continue to have them together in succeeding years.

The 1969 Hamfest Committee has been out to size up the 'Chateau' and we believe it will be an ideal site for our operations. Everything seems to be progressing smoothly, thanks to a lot of dedicated people under the direction of our Chairman, Merl W7IKG.

We should be very proud of one of our members, Chip K7VPF, who just got his Extra License. At 16 years, he is probably one of the youngest Extra Class in the country. Congratulations Chip!

If you haven't been doing too much hamming lately, let me remind you that 10 and 15 meters dx is getting better right along and this winter should be the eleventh year peak. It's lots of fun.

The last meeting of the year, December 11th will be election night (due to the 4th Wednesday being Christmas Day) and you should be thinking of your new officers for 1969. It will be a big year. 73..President Ed K7CZM

CODE PRACTICE

Don't forget code practice sessions before the regular club meetings on Wednesdays. In recent months there has been a poor showing at these sessions, so be sure to pass the word around to any prospective amateurs you might know. George WA7BHH, has graciously volunteered to give the time to this effort. Remember, one hour before meeting time, starting at 7:00 pm.

EDITORIAL

Now that our short cool summer is over, it's time to settle down to improving our little news paper. Come January we will start our 6th year publishing the *'Loggers Bark'*. In 5 years, we should show some improvement. I think we have but I'm afraid I'm a little bit biased in my opinion.

With the up-coming Hamfest, next July, it's sure good to see such turn-outs at the regular meetings. If we can keep our enthusiasm, it should be a howling success.

Speaking of good turn outs at the meetings, there are still a lot of strange faces there. I guess it doesn't pay to miss any meeting, if you want to keep up with the expanding membership. It's sure nice to see all the chairs filled at the meetings.

I would like to hear some sugestions for our paper from you people out there reading this. We can sure stand improvement. Give us some new ideas. Ed.....K7AMJ

CONGRATULATIONS

Congratulations to Dick, W7GDW, and Sally Engh on the birth of their daughter Megan Kathleen. She was born September 16th and weighed in at 6 lbs. 7oz..

Dick is in Pango Pango, American Samoa. Sally plans on joining him by October 5th. He will be on the air and looking for Tacoma stations around November 1.

POT LUCK SUPPER

The Ladies Auxiliary are sponsoring a Pot Luck supper on October 4th. The cost will be $1.00 per couple plus 10¢ per child.

Bring your favorite dish and we hope to see you all there. This promises to be a very enjoyable evening, with fun and games for all after the supper.

LADIES AUXILIARY

by Marge Hazelmyer

The Ladies Auxiliary held their first meeting for the fall and winter season. We had a very enjoyable evening renewing friendships and catching up on all the news.

While I was glad to see all the regular gals at the meeting, I was thinking it sure would be nice to see some new faces there also. Maybe some of out newer members don't know this, so will say it again. ALL wives and mothers of Radio Club members are members of the Auxiliary and are certainly welcome at our meetings, held at the club house on the first Wednesday of the month. Please attend the meetings!

See you all at the Pot Luck October 4th.

LOGGERS CONTEST REPORT

The Loggers Contest, held September 7th and 8t had a lot of club members on the air. Tacoma wa well represented among the other contests going a the same time. However the log entries from th contest are slow coming in. At press time, ther were only 7 or 8 log entries submitted to th contest chairman.

Unless other entries show up before the 1st o this month, the following members have a priz coming. Leading the list is 'Chip', K7VPF, wit a total of 115 contacts. Following are Roy, W7AZ (54) Ed, K7CZM (52) and John, K7CZF (45).

The contest committee is working out a deal fo two trophies for the top position. One will be permanent trophy, which will be passed from yea to year to the winner and the other one to be kep by the winner for his own.

If you were not on that week end, you missed lot of fun. If you were on and forgot to submi a copy of your contacts to the cimmittee, you ma have missed winning a prize! Also you may hav missed earning one of the many other certificate that were available that week-end on one of th other contests going on at the same time.

CLUB AUCTION

Last meeting night, the club held an auction which was very well attended. (they usually are)

Hunt, WA7AKW, said the club took in around $50.00. The gear, put on the block, was of fair condition this time. In fact some were real choice articles.

Some of the younger members ham shacks probably look a little junkier, but most of it was worth taking home.

There was plenty for everyone as you can see in the picture. Sorry we didn't have a wide angle lense so that you could see it all.

Let's have another auction soon. A good way to get a turn out of the members to a meeting.

ARRL BULLETINS

NR 185
A brand new challenge for DX minded amateurs comes into being officially on January 1, 1969 with the inauguration of the ARRL Five Band DXCC award. Only contacts made after that date will count towards this new DX achievement. At least one hundred countries must be confirmed on each of five separate bands to qualify. Full rules will appear in October QST BT

NR 186
The Netherlands has extended its reciprocal operating agreement with the United States so that it now includes Surinam prefix PZ as well as the homeland and the Netherlands Antilles prefix PJ. A list of other countries with which the United States and Canada have reciprocal operating agreements will appear in the October issue of QST under IARU News BT

NR 187
The newly designed annual ARRL cross indexed Net Directory is now ready for distribution. If you have recently requested a copy it will automatically be mailed to you. All others may request their copy from the ARRL Communications Department 225 Main Street, Newington, Connecticut 06111. Be sure to include your zip code with your return address. Please mention the call and the frequency of the station transmitting this bulletin AR

BOWLING

Yes, we are at it again. Another winter of bowling. Lots of fun to be on a team and you would enjoy watching your teams in action.

Every Tuesday night at Bowlero Lanes, starting at 8:45pm. The Radio Club sponsors two men's teams. Just to refresh your memory, here is the line up.

Team 1	Team 2
Merl, W7IKG	Max, W7AEA
Smitty, K7ATD	Scotty, K7CYZ
Dick, W7FGD	Roy, K7USF
Bob, W7RXS	Dennis, W7UBA
Ralph, W7CCP	Cliff, W7MFG
Bob, WA7IPR	Jim Churchward

These fellows try hard to put the radio club of Tacoma at the top of the list and hope to bring you a trophy.

The Ladies Auxiliary also has teams playing at the Bowlero on Tuesday mornings at 9:30am. The following is a list of the members currently bowling.

Fay Monroe, Marge Hazelmyer, Rene Smith, Verna Ryan, Inez Churchward, Vivian Huntley and Helen Asplund.

Come out and support your teams.

NEW MEMBERS

We wish to welcome the following new members to the membership of the Radio Club. Please put them down in your roster book on the pages provided for this purpose.

HAMFEST COMMITTEE MEETING

The Hamfest committee meeting will be held October 17th, 8:00 pm at the club house. All subchairman, please be there. Chairman Merl W7IKG

DROOLING CORNER

SLIVERS AND SPLINTERS

If you hear W7JG on the dx bands, it's not a new call from Tacoma. Del Kohler, formerly W7UMJ has his new call.

Congratulations to Phil, W7AQB, on getting his Extra License. Also Chip, K7VPF, one of our younger members made the same trip and got his Extra License. Chip took it in his stride, but Hunt, WA7AKW, is a little worried. The pressure is on, huh Hunt?

If you listen in on 75 meters every am, you might hear Dave, W7QFR going around in the qrm.

Sorry to report that Sophie, xyl of Bob, W7SFO, had a little set back in her recent illness. We reported in last month's paper that she was home, but she had a set back and had to go back to the hospital. Glad to report that she is back home on the mend. Hurry up Sophie, we need that bright smiling face at our picnics!

Laverne, K7NKZ, our EC for Tacoma, reports a good turn out on the air for the AREC drill on Wednesdays last month. 75 has been the best one for check ins at the present time.

Roy, W7AZI, has made a request for blood donations from the club members to replenish the club's blood account at the Pierce County blood bank. With the recent illnesses of club members and families, there is a large need of more donors and anyone wishing to take a few minutes for a simple and painless donation, contact the Pierce County blood bank at south 12th and M Street. Advise them you wish to make a donation to the Radio Club of Tacoma account. The party making the donation does not necessarily, have to be a member of the club.

Len, W7ZZL, announced at the first meeting in September, that he has a 2 meter fm rig available for use for anyone who might be in the hospital or shut in because of illness. It is small and will make an ideal rig to set up without any effort. Thanks Len.

Beryl and Laverne (K7NPG & K7NKZ moved out of their former qth. Had some help from some of the club members. The new qth is considerably smaller than the former qth and they almost needed a shoe horn to get all the boxes and furniture into the new. Still has one antenna tower to take down. No trees nearby at the new qth. Anyone have a sky hook to loan Beryl?

Roy, W7AZI, has been appointed by the President to check into the matter of getting a suitable present for Joe, W7IG and xyl Helen for the use of their qth for field day.

It was suggested at the club meeting in September that the members send a message to Governor Evans thanking him for designating amateur week in

SLIVERS (cont.)

September. If the messages are given to Jerry W7BUN, he will see to it that they are sent b amateur radio

The Valley Amateur Radio Club (VARS) ha started a monthly bulletin on club activities. We would like to wish them good luck and succes and will be glad to share our bottle of aspiri tablets with them. We hope they have better luc getting articles from the club members, tha the Bark has had. We will be exchanging paper with them and hope to have some news items of th Valley Club.

John, K7CZF, busy helping a neighbor frien launch a 28 foot boat.

Dick, W7RGD, just completed putting together Heath SB-610 kit. Will be looking at your signa as well as listening to it.

Alex, W7AZR, just turned down a trip to the Pacific rim countries. (Hong Kong, Philipines, Hawaii, etc.) Just got back from a vacation trip in Europe and needs the rest to work up to the next one.

Another 2-11 fire last month. Ralph W7COP and Roy K7USF rolled the c-d bus down to the scene but were canceled out before they could set up for operations.

Dick, WA7GAK, settled down at his new qth and has even ordered new qsl cards from the Barks printing press.

VOL V NR XI W7DK NOVEMBER 1968

FROM THE PRESIDENTS DESK

It's hard to realize that I have been President of this club for almost a year, and I have certainly had an enlightening experience. I've got to know many of you much better and I appreciate the help you have given me. We should continue to invite our ham friends to visit the club and enjoy its many activities. We need new people to keep the membership in vigorous condition. Elections for new officers for 1969 will be coming up shortly and please let the nominating committee know if you would be willing to take an office. It takes some dedicated people to keep a large club like ours on an even keel.

We regret we weren't able to make the pot luck dinner last month. On that evening, the son Steve K7CZT became a benedict. The new daughter-in-law Jenny, has been at several meetings and picnics. Here's hoping they have a happy married life.

We enjoyed the talk and demonstration of transducers at the last meeting in October. It was certainly something that everybody could understand. Many thanks should go to Bob Fkint of the Summit Radio and TV.

We have had many delays due to change in club trustee, and antenna problems but I hope that one of our first immediate objectives should be to get the club station going again. I believe that we have a committee, headed by Beryl Hood, K7NPG, that will show results. Good luck fellows.

We have voted to set up a museum of old equipment for the QCWA in our club building. Aaron Huntley, Doc Spike and George VanKleeck are on the committee and their plans are taking shape. When completed I'm sure it will be quite a showplace, that we will be proud of.

Some of the most dedicated workers in our club are the editors and workers on the Loggers Bark. They are especially in need of articles, either technical or on any subject that would be of interest to the club. Won't you give it a try. They will be glad to proof read or edit it for you if you desire.

Don't forget the Christmas Party, December 7th at the Cascade room N.C.O. Club at McChord Field. Call Jerry, W7BUN, at TH 5-7652 for reservations.

73 Ed K7CZM

PRESIDENT'S DESK (cont.)

COMING PROGRAM

First meeting in November. (November 13th) Mr. Paul Herlinger, who showed us his slides on Greece and the Greek Islands last year, will return and show his slides on the Scandinavian Countries. Paul is a professional narrator and his pictures are professional quality. This is part of a travel series shown on television. Don't miss this outstanding program.

CHRISTMAS PARTY

The Radio Club will hold it's annual Christmas Party this year, in the Cascade Room at the McChord AFB, NCO Club. The date will be December 7th. on a Saturday. The dinner-roast beef buffet $1.65 per person (includes the tip). There will be 4 hours of dancing to the music of Ben Travella and his 6-piece orchestra.

The bar opens at 6:30pm. Dinner at 7:00 pn.

Minors will be allowed for the dinner only.

All reservations must be paid in advance this year! Contact Jerry, W7BUN, before December 5th.

CLUB VOTE

The local CB'ers put a request in to the club for the rental of the club house for their meetings twice a month. The matter was discussed in detail but was voted down. The matter of FCC rules, plus the monetary problems were discussed and it was decided that it would not be possible to extend the invitation to use the club house.

DK PAPERS FILMED

Roy, W7AZI, is going to make copies of all the Radio Club's important legal documents on microfilm. The original copies are in pretty sad shape so this will preserve these for future reference.

If anyone has any papers that would be of a historical nature to the club, please turn them over to Roy and they will be photo-stated, microfilmed and framed for the club.

CONFUCIUS SAY:

'When man take girl friend for ride, very dangerous to drive with ine hand; sometime run into church!'

'BETTER TO HAVE LOVED AND LOST ... FAR BETTER!'

C - W

by Scott WA7IYZ

How come more of the club members aren't on cw? Most people resort to phone when they receive their higher class wallpaper, even though they might have a good fist and enjoyed cw as a novice. They just find phone a little easier, so they go about their phone work, never thinking of the more challenging cw. If they do happen to have an urge to try cw again, it is in most cases, quickly extinguished because they have lost their speed and fist.

I would like to sre more of you people down on cw. I'm not saying, 'bag the phone bands, cw is the only way to go', because phone can be quite fun and there are great uses for it in traffic handling and emergency use, not to mention contests or public service, but as a matter of personal pleasure, why not, next time you have a free moment, come down to the ole 'charley whiskey' bands and give it a try. If you can't raise anyone, give me a call on the landline and I will be only too glad to chew the rag with you. Who knows, you may even like it!

Remember: Any phone man who has both cw and phone gear in his shack and gets on cw is half way there.

ARRL BULLETINS

NR 190
Concurrent with the October 27 shift to standard time throughout the country, W1AW will adopt new code practice and bulletin frequencies. The new channels will be easy to remember at 20 kikoHertz above the lower band or segment edge. Effective October 27, W1AW code practice and code bulletins will take place on 1820 3520 7020 14020 21020 28020 50020 and 144120 kiloHertz. W1AW voice bulletins will be transmitted on 1820 3820 7220 14220 21270 28520 50120 and 144120 kiloHertz. Regular contacts will continue to take place on current W1AW frequencies. Full details on the change will appear in November QST BT
NR 191
ARRL has filed comments with FCC supporting Operation Retread Docket 18266 which would make former amateurs eligible for Novice after a year off the also be eligible for the privilege if they have not held a Novice license in the twelve months preceding application. Another ARRL filing, RM 1352 asks FCC to keep the whole six meter band open to all licensees, Technician Class and higher contrary to the FCC present plan restricting 100 kHz to Advanced and Extra November 22, 1968 and 250 kHz to these licensees November 22, 1969. Other information will appear in November QST AR

MARS BULLETIN

The ever-increasing worldwide demand for channels in the radio-frequency spectrum currently exceeds the available supply in certain areas. To survive the growing pressure of worldwide requirements, users of the frequency spectrum including radio amateurs will be required to increasingly justify their needs and services as being essential to national interests. In the arenas of national and international frequency conferences, the future of amateur radio depends largely on three major factors. First, radio amateurs by word and deed must in some way serve and promote the interest and respect of the public. Second, amateur radio must be promoted and fostered internationally. Third, amateur radio must have a strong and capable spokesman. These three factors are among the objectives of the American Radio League and the International Amateur Radio Union. The League-sponsored Amateur Radio Public Service Corps, its management and promotion of IARU activities and its long and intense interest and participation in legislation and conferenced pertaining to amateur radio make the League a preeminent worldwide spokesman for amateur radio. Those who value amateur radio, desire to insure its future and want a strong and capable spokesman, will not only join and promote League membership but strive to assist in accomplishing its objectives.

AREC NET

This is a thank you for all the check-ins on the Wednesday nite nets and a reminder to those that haven't joined yet, but intend to soon.

We are building up the membership on 2 meter fm and 75 meter ssb. So come on everyone, maybe we can get all the DK membership in on the fun.

UPPER LIMITS

Looks as though two meter fm has pulled ahead of six meters, at least in the mobile division.

The Capitol Peak repeater had a slight set back but the fellows will whip the problem and get the station on the air soon. When you have the weekends to work on a project like that, things can go a little slow. When Len, W7ZZL, gets every thing working, we'll see if he will give us an article on the hook up. The fellows from Seattle should also get a big applause for the time and work they have put in on this repeater. They were sure brave to go up there on opening day of deer season. We know; we've been there. Hope they get everything in working order before the snows come. It gets pretty deep up there.

Ten meters opened up for a couple of days last week and six came in along with it. Not too hot on six but some dx was in. Ten was hot for a couple of days. Heard some of the locals working the south sea islands and Australia.

Glad to see ten back in the ham bands, hope six comes back also.

SAROC AT LAS VEGAS

We wonder if any of the Washington folks are going to trek to Las Vegas for the Fourth Fun Convention, January 8-12 of next year. The reason for this blurb is that if you plan to attend, it is well to get in your reservation at the Sahara Hotel forthwith, which means right now. Of the 600 reserved rooms, over 500 are now gone.

The convention will be held in the Sahara's new Space Convention Center which is the largest Convention facility owned by any hotel (at least until someone in Texas hears about it) with 40,000 square feet of carpeted floor. Advance registration is $12.00, and the rooms are $10.00 each, single or double. If interested the Chairman is L.M. Norman, W7PBV.

PAST PROGRAM

Jerry, W7BUN, our program chairman, had a new game for us to play. Half of the club members put down a question on a piece of paper and the other half put down an answer. These were drawn out of a hat and read together. Here are some of the questions and answers we got:

Q. How come I don't get any signal when my oscillator won't oscillate?
A. Call George Abbott, he knows more than I do

Q. How can I remove the carrier from my am signal?
A. Ground all operating radio equipment.

Q. How do I prevent being shocked when I touch the plate caps on my final tubes?
A. Empty the drip pan under the grid leak each day to avoid shorting out the burla.

Q. Why does my dial light on the rotator glow when transmitting?
A. If dc is applied, check the wall clock as an indicator of which direction you have current flow.

Come to a meeting with your questions and answers, folks.

SLIVERS AND SPLINTERS

John, K7CZF, is back from a deer hunting trip. What did you shoot John?

Verna Ryan has a sack full of nickels, she brought back from Lake Tahoe.

The Devish's are back from a 2 week vacation in lower California. I hear they had some fog, or was it called smog down there?

Inez, W7RXT, had a step ladder while bowling September 24th. (149-150-151)

It's official now! The results of the Loggers contest are as follows: First prize to Chip K7VPF, Second prize to Ed K7CZM and third prize to Beryl K7NPG. Congratulations to all!

President, Ed has appointed the nominating committee for the coming elections of club officers. Dr. Spike, Roy Devish, Otho Smith and Dick Ryan. Don't forget to contact one of the members of this group if you have any suggestions.

Thanks to Al Walace, the club has some shelving material for the display shelves in the club house.

SPLINTERS (cont.)

Thanks to John Moffett W7FTC the club now is the owner of a R-388-A Collins receiver for the club station. John brought it to club meeting October 23. We hope to see it installed shortly for use. Thanks again John!

Scott WA7IYZ has passed his General Class license. Made the trip to Seattle in August. Congratulations! Scott.

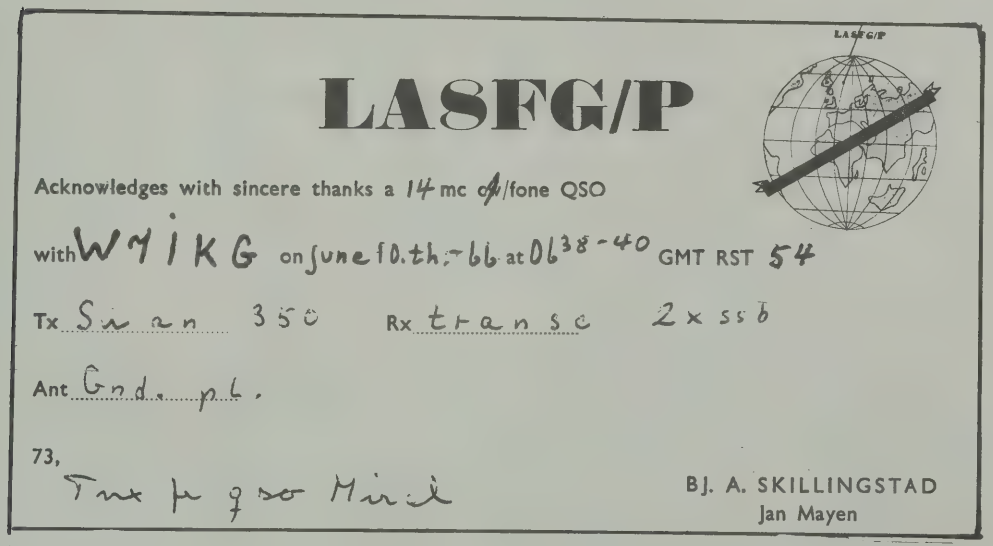

Margie K7AMJ still resting up after helping the Hood's, K7NPG and K7NKZ, move to another new qth. Needless to say, LaVerne and Beryl are still recovering and swear, this is it. No more!

Dick, W7RGD, received a short letter from Dick, W7GDW and he advised he was doing fine and expected to be on the air from Pago Pago in the very near future.

Jim, W7BSW, away from town on business. In the San Francisco area.

Roy, K7USF, all moved into his new qth and getting set up for on the air qso's.

HAPPY BIRTHDAY

THE LOGGERS BARK

VOL V NR XII W7DK DECEMBER 1968

FROM THE PRESIDENT'S DESK

The final regular meeting of the year will be on December 11th, when we will have election of officers for 1969. Be sure and come and vote for the officers of your choice.

The report of field day scores has been announced, and W7DK was again one of the top stations in the country; tops with eleven transmitters and in the 7 call area. I'm sure our call must be well known all over the country. According to QST there seems to be much misunderstanding as to the rules of starting field day, "from scratch".

The election of director and assistant director for the ARRL Northwest district has been announced with Bob Thurston, W7PGY, continuing as director and Dave Bennett W7QLE, from St. Helens, Oregon the new vice director. I am sure they will represent us well.

A big vote of thanks to Roy Devish for providing a complete library of QSTs for the past 30 years, and to Al Wallace who has volunteered to provide the veneer for shelving, all for the QCWA museum at our clubhouse. Tim Blair has also volunteered to be the librarian.

The slides and comentary on the Scandinavian countries by Paul Herlinger had a professional quality to them, and were well received as a program in November.

If you do not have an advanced or extra amateur license, I hope you have noticed that since November 22, certain small sections of most bands are restricted. Full details are in the November QST. Watch those frequencies, and don't get in the dog house. 73 Ed K7CZM

THE CLUB IS NOW ACCEPTING 1969 DUES!

CHRISTMAS PARTY

Let's see everyone at the W7DK Christmas party this year. Jerry W7BUN is taking reservations (pay in advance) and there is still time to get them in to him. The cost is only $3.30 per couple and you can't beat that price anywhere. Just think, no clean-up this year, ladies!

The deadline for reservations is December the 5th., so mail them today to:

Jerry Seligman
Drawer A
McChord Air Force Base, 98438

SEE YOU THERE!

FIRST NOMINATIONS OF OFFICERS

The first nominations for officers of the radio club were held at the last meeting in November. These, of course, are not the final nominations. Nominations will be take before the final election from the floor at the December meeting, so be sure to attend the meeting and place into nomination, the name of your candidate, if he or she is not on the list now. The following is a list of the nominations as of this date;

President..George Abbott WA7EHH
Vice President..Jerry Seligman W7BUN
Secretary..Bob Gates K7IND
Treasurer..Hunt Mitchell WA7AKW and Gene Dodge W7BIV
Board (2)..Roy Devish W7AZI-Doc Spike W7OS-Al Wallace WA7BZY-Larry Ziegler WA7JPC and Scott Bogue WA7IYZ

Make your decisions and selections known to the membership, attend meetings regularly.

THE RADIO CLUB OF TACOMA WISHES TO EXPRESS THEIR SINCERE SYMPATHY TO MARION WYLIE K7TCY WHOSE WIFE, LOUISE, PASSED AWAY IN NOVEMBER.

UPPER LIMITS

We have had a few short openings on six this month. Nothing to rave about but these sparadic openings could lead to something big. The sun spot activity is growing every day and will show up in the v.h.f. bands very soon, so don't forget to keep an ear near the loud speaker.

Len, W7ZZL, hasn't worked out the problems on the Capital Peak two-meter repeater yet, but like the sun spots, it will be going soon. Keep at it Len, we would rather wait a few days than not have it work when you do get it up.

Ten meters has been real good in the Northwest this last month. Sounds like the early 50's. Turn that 603 or 683 on and warm up the 807's, things are warming up.

SEASONS GREETINGS !

MERRY CHRISTMAS AND A HAPPY NEW YEAR

ED COLE *K7CZM*

PARADE REPORT

The AREC furnished communications for the Eagles annual Christmas Parade, Sat. 23rd of November. The City CD bus was parked at 11th and Kay Street and the PA system, on the bus, was used at the official reviewing stand. Communications was on 2 meter fm as usual and everything went off in good order.

We are getting good participation on the AREC nets--held the 1st and 3rd Wed. nights at 7:30 pm and would like to hear even more.

We are happy to hear more 2 meter rigs showing up on the air from time to time. We can always use more portables and mobiles in the annual Simulated Emergency Test (SET) and the other drills and affairs that come up during the year.

Thanks to all for the help and participation.

ARRL BULLETINS

NR 193
Groups of amateurs desiring to form a radio club and current clubs suffering a lessening of activity may be unaware of ARRL club organizational material. The new League club kit contains material on club organization, affiliation and operation. Specialized enclosures note program ideas, a sample constitution, methods of maintaining club interest, a sample ARRL club bulletin and other useful items. The club kit is available without charge from ARRL, 225 Main Street, Newington, Connecticut 0611 BT
NR 194
The sub band restrictions announced in Federal Communications Commission Docket 15928 go into effect on November 22, 1968. A tear out chart of the portions of the bands available to each class of license after that date is on page 64A of November QST. Copies of the chart are available from ARRL Headquarters, Newington, Connecticut 06111 upon receipt of a stamped self addressed envelope, with the words Amateur Frequency Chart in the upper left hand corner BT
NR 195
Canada announces the conclusion of a reciprocal operating agreement with Norway which, along with Nicaragua, supplements the list appearing on page 91 of October QST. Additionally, the United States has concluded a reciprocal operating agreement with Monaco, effective December 1. Amateurs of one country visiting or residing in the other may obtain permission to operate their own amateur stations there. Monaco, along with the Barbados and Surinam, adds to the QST listing noted above AR

ARRL NEWS

Precise details are sketchy but according to newspaper reports at least two of the three amateurs in Kentucky indicted for use of obscene language on the air received three months (suspen- years?), and fined from $200 to $600. These were court actions; I would expect now that FCC would review the cases as concerns their licenses under provisions of the Communications Act.

Phone patches are momentarily the most-debated subject in Washington regulatory circles -- and probably the most confused as well. FCC orders issued, tariffs are filed, stays of orders are requested, argued, granted, denied, tariffs withdrawn, and so on. About the only certain conclusion is that under their fancier name - 'connecting arrangement for use with subscriber-provided voice transmitting and receiving terminal equipment' - - some provision will be made for phone patches in telephone company tariffs.

The basic discussions are of course on commercial aspects - data transmission, and the like. A principal point of difference at the moment is whether connection to the line must be made through an interface device provided only by the phone company. It is also more than likely that, because patches will be officially recognized and provided for in tariffs, a monthly fee will be charged, and possibly an installation fee as well. One source in the Bell System says the amateur interface fee will be nominal - on the order of 50¢ per month. We'll keep you posted.

Remember! Dues are due!

The staff of the Loggers Bark wishes our readers a joyous holiday season and the best of wishes for a successful New Year.

TEEN HAPPENINGS

by WA7FVT

WA7IYZ is working c.w.most of the time. Got his General License last month. He would like to see more of you on the c.w. bands.(*)

WA7HPK has been working the Sweepstakes last month and got stuck on a net for three hours.

WA7JPC is looking for a tower. If you have one contact Larry.

WA7EDD is studying very hard at school the past months and missing out on some good things on 6 meters. There is a new yl on the frequency and she has a terrific signal.

WA7FLI is going to school in King County. He will be back in Tacoma pretty soon.

WA7FVT is working on a 6 meter transmitter. At present is on with a 6-er trying to work locals with a five element beam.

Most of the student members in the club are working for their loggers certificate. How many club members have a loggers certificate? If you don't, you should!

MEMBER'S REQUEST

Dear Ed:

Four or five days ago I spoke to XE1SR in Mexico City on 15 meters at about 1:30 Pacific Daylight time. He told me of his efforts to get, on a regular bases, phone patches for a student at Marymount Academy by the name of German Mercado-Borroso and his parents in Mexico City. I told him that I would pass on the message to the Radio Club of Tacoma in the hope that someone might be able to set up a schedule for this boy and his parents. The best time and frequency seems to be around midday on 15 meters. Is there anyone in the club who can help? XE1SR's name is Alberto Saltiel, P.O.Box 17690, Mexico City, Mexico.

Enclosed is my new QSL card -- th ought it might be of interest to some of my old friends in the club.

Best regards.

Sincerely,
(S)Leaonard J Kaufer S.J.
W7DXH

BOWLING

The club bowling teams are doing better this year. Both teams are staying closer to the money places. In fact by the time you read this they will have locked horns for third place. Tuesday December 3rd, the two radio club teams are scheduled to play each other and as of now team 1 is one game ahead. Team 2 is fresh from a very spectacular three game win over the league leaders last Tuesday night and will be raring to go. This should be a rip-snorter. If you can't get out to see them, we'll let you know how things turn out.

Jim Churchward, who is taking Max, W7AEA, place on team 2, rolled a 219. Max is laid up from a broken shoulder and will not be able to bowl for awhile. Max will be our official score keeper.

DON'T FORGET! YOU CAN PAY YOUR DUES NOW

KCOK'S KORNER
BANANA BREAD

½ cup butter
1 cup sugar
1 teaspoon lemon juice
3 teaspoons baking powder
2 cups flour (sifted)
1 teaspoon salt
1 cup nuts
2 eggs beaten
1 cup mashed bananas

Cream butter and sugar, add beaten eggs. Add lemon juice to mashed bananas, then to cream mixture. Add dry ingredients and nuts. Stir only until well mixed. Bake in greased loaf pan. 350 degrees for 1 hour and 15 minutes.

STATE C-D BUS

by WA7FVT

The Washington State C-D bus, as seen in the picture, has two generators on board. One generator is capable of running everything or they can split it up and run off both.

It operates on 75, 40 and 10 meters. They monitor State c.d. and the State Patrol. There is a P.A. system aboard also. There are 110 volt outlets on the outside as well as inside in case they need to share their juice with someone else. The bus is very simular to the Tacoma C.D. bus. It seems that the Tacoma C.D. bus has more head room.

They have a problem on 75 with their antenna system. They have to string up a 75 meter dipole and that takes a lot of time. They said, 'going to have to find another means of putting an antenna up for 75 meters'.

The picture was taken last year at the Yakima Hamfest.

NEW MEMBERS

We wish to welcome the following new member to the membership of the Radio Club. Please put them down in your roster book on the pages provided for this purpose.

John J. Hills K7SRU
7918 East 126th
Tacoma 98466 TH 5-8084

New address,
Robert McDonald
9001-67 Ave Ct. East
Puyallup, 98371

SWAP COLUMN

Wanted:
6 meter x-tals below 51 mhz.
QST-CQ-73 etc. for radio club library.
Contact Tim WA7FVT SK 9-6671.

HAMFEST REPORT

by Chairman W7IKG

Plans are really beginning to take shape on the 1969 Hamfest. There are still places for everyone to sign up for work at this affair! Here is a list of the sub-chairmen and their duties. This will give you readers a chance to know what is expected to be done and you can sign up with these people:

Registration..Margie K7AMJ
Housing.....LaVerne K7NKZ
Reservations..Art W7JGN

Duties are to check into the various nets and take reservations for motels, trailers or tents. Also they keep track of the registrations and take money for them.

Advertising...Cliff W7MFG and Dennis W7UBA

Secure advertising for the program booklet.

Printing.....Dick W7RGD

Print all stationary, programs, tickets etc.

Display.....George WA7BHH

Handle all displays from various distributors and groups such as MARS, ARRL, AREC, etc.

X-mitter Hunts.Scotty K7CYZ

Breakfast.....Roy W7AZI and Smitty K7ATD

Organize and serve a breakfast for Sunday morning sponsored by W7DK.

Dinner: Arrange the Saturday night banquet with a caterer.

Prizes.....Jerry W7BUN

Snack bar.....Ethel W7WLX and Vivian Huntley

Handle the snacks for the ladies auxiliary.

Contests.....Beryl K7NPG

Have contests and games for everyone.

Dance.....Smitty K7ATD

Arrange for a Saturday night dance.

Financial.....Hunt WA7AKW

Handle all finances for the Hamfest.

Station.....Scotty K7CYZ and George WA7BHH

Set up station and have operators on hand to talk in mobiles.

Registrations are being taken as of now. In fact the first one to register was Ed K7CZM and number two was George WA7BHH.

The pre-registration price is $5.00 and at the door is $5.50 per person. The pre-registration gives you a ticket for the drawing for a very nice prize. We encourage all the club members to get your money to the registration committee as soon as possible to avoid the last minute rush.

Now you have a list of the various committees, look them over and call the chairman of the one or ones you would like to serve on. We need every club member to pitch in and help.

SLIVERS AND SPLINTERS

Max, W7AEA, has his left arm in a sling since the third week of November. Slipped while on the docks attempting to go aboard his boat and broke his left shoulder. No bowling for this season, however he is feeling fine and getting around with little trouble.

Verna Ryan back from vacation at Las Vegas. She didn't break the bank but her purse was a lot heavier on the way back with nickels.($125.00)

Merl, W7IKG, and Joe, W7IG, on 28.6 mc talking high power. Talking up a trade on high power transformers. Dewey, W7HF, joined the act later.

Bob and Inez (W7RXS & W7RXT) have moved back into town from Fox Island for the winter. Inez is back on the bowling team on Tuesday mornings.

LaVerne, K7NKZ, in the lead car of the Eagles Parade on the 22nd. A little confusion about the p.a. system at the reviewing stand but got it ironed out at the last minute and the parade went off like clock work. 2 meter fm was used for the parade, thanks to the portable units donated by Dwayne, K7KSZ.

Roger, K7AYC, in Tacoma for a week end. Was observed at the patrol office with a YL, who was renewing her drivers license.

Ralph, W7CCP, recovering from his back troubles and bowling up a storm on Tuesday night. Doing so good, he got roped into doing some interior painting at the qth.

Jerry, W7BUN, busy lining up the banquet and still waiting for the advance reservations. Is yours in yet?

Dick, W7RGD and Smitty, K7ATD were out with the C.D. bus again during November on a 2-11 fire on the flats. Not much flames but lots of smoke.

Thanks go to Roy, W7AZI, who donated a whole attic full of back issues of QST to the club's museum. According to Roy they go back to 1930. Thanks Roy, again .

Verna Ryan picked up a 6-7 split. Inez, W7RXT, picked up the 6-7-10 split. Lyn Asplund bowled a 211. Margie, K7AMJ, bowled up a storm on the Sunday night team. Got a 206 game and then, not satisfied, bowled a 214 in the following game.

The radio club placed in the top of the field-day results again this year. We were tops in the northwest section and fifth in the nation. How about that? Thanks to all the members for a 'job well done'.

Lloyd, K7IUD, recently had a qso with a California station with the call W6DK. Small world.

We want to correct an error printed in the Bark last month. We noted at that time Easty W7CBE, went to Seattle and took the test for advancement. We said he passed his Advance test but were in error. Easty took the Extra exam and passed it. Please excuse the error Easty and congratulations again for a job well done!

LICENSE PLATE BILL

Jerry, W7BUN, the club's representative at the Puget Sound Council announced at the meeting in November that the council is still keeping abreast of the fight to get the amateur call letter plates cost down to its present cost. There are two lawyers working (no fee) on the bill for presentation at the next session fo legislation.

The clubs in the council are being requested for donations to foot the paper costs etc.
